Statistical Release

Department for Business, Energy & Industrial Strategy

The latest provisional monthly energy production, consumption and prices statistics produced by the Department for Business, Energy and Industrial Strategy were released on 30 May 2019.

Energy production and consumption statistics are provided in total and by fuel and provide an analysis of the latest 3 months data compared to the same period a year earlier. Energy price statistics cover domestic price indices, prices of road fuels and petroleum products and comparisons of international road fuel prices.

Energy production and consumption

Highlights for the 3-month period January 2019 to March 2019, compared to the same period a year earlier include:

- Primary energy consumption in the UK on a fuel input basis fell by 7.9%, on a temperature adjusted basis consumption fell by 4.0%. (<u>table ET 1.2</u>)
- Indigenous energy production up by 0.9%, with oil, bioenergy, wind, solar and hydro output up, but falls in output from coal, gas and nuclear. (table ET 1.1)
- Electricity generation by Major Power Producers down 8.1%, with coal down 65% and gas down 1.7%. Renewables up 11%, boosted by strong growth from all technologies.* (<u>table ET 5.4</u>)
- Gas provided 46.2% of electricity generation by Major Power Producers, with renewables at 31.2%, nuclear at 17.9%, and coal at 4.1%. In March 2019 renewables and wind were at record highs of 37.4% and 26.6% of electricity generation respectively.* (<u>table ET 5.4</u>)
- Low carbon share of electricity generation by Major Power Producers up 3.7 percentage points to 49.2%, whilst fossil fuel share of electricity generation stood at 50.5%.* (<u>table ET 5.4</u>)

*Major Power Producers (MPPs) data published monthly, all generating companies data published quarterly.

Energy prices

Highlights for May 2019 compared to April 2019:

• Petrol prices up 3.9 pence per litre on month, whilst diesel prices up 2.5 pence per litre, driven by higher crude oil prices. (<u>table QEP 4.1.1</u>)

<u>Contacts:</u>

Lead statistician: Warren Evans: Tel: 0300 068 5059 Press enquiries: Tel: 020 7215 1000

<u>Data periods</u>

Statistics on monthly production and consumption of coal, electricity, gas, oil and total energy include data for the UK for the period up to the end of March 2019.

Statistics on average temperatures, wind speeds, sun hours and rainfall include data for the UK for the period up to the end of April 2019.

Statistics on energy prices include retail price data for the UK for April 2019, and petrol & diesel data for May 2019, with EU comparative data for April 2019.

<u>Next release</u>

The next release of provisional monthly energy statistics will take place on 27 June 2019.

<u>Data tables</u>

To access the data tables associated with this release please click on the relevant subject link(s) below. For further information please use the contact details provided.

Please note that the links below will always direct you to the latest published data tables. If you are interested in historical data tables, please contact BEIS (<u>kevin.harris@beis.gov.uk</u>).

Subject and table number	Energy production and consumption, and weather data
Total Energy	Contact: Kevin Harris, Tel: 0300 068 5041
ET 1.1	Indigenous production of primary fuels
ET 1.2	Inland energy consumption: primary fuel input basis
<u>Coal</u>	Contact: <u>Coal statistics</u> , Tel: 0300 068 5050
ET 2.5	Coal production and foreign trade
ET 2.6	Coal consumption and coal stocks
Oil	Contact: <u>Nick Jesson</u> , Tel: 0300 068 5346
ET 3.10	Indigenous production, refinery receipts, imports and exports
ET 3.11	Stocks of petroleum
ET 3.12	Refinery throughput and output of petroleum products
ET 3.13	Deliveries of petroleum products for inland consumption
<u>Gas</u>	Contact: Ben Lucking, Tel: 0207 215 5010
ET 4.2	Natural gas production and supply
ET 4.3	Natural gas imports and exports
ET 4.4	Natural gas imports
Electricity	Contact: Electricity statistics, Tel: 0207 215 5125
ET 5.3	Fuel used in electricity generation by major producers
ET 5.4	Electricity production and availability from the public supply system
ET 5.5	Availability and consumption of electricity
<u>Weather</u>	Contact: <u>Susan Lomas</u> , Tel: 0300 068 5047
ET 7.1	Average temperatures and deviations from the long-term mean
ET 7.2	Average wind speed and deviations from the long-term mean
ET 7.3	Average daily sun hours and deviations from the long-term mean
ET 7.4	Average monthly rainfall and deviations from the long-term mean
