**ADVANCE NOTICE FOR THE POTENTIAL SALE OF THE
FORMER HMSML GLEANER
FOR FURTHER USE**

Built in 1983 as an Inshore Survey Motor Launch, Gleaner is a genuine former HM vessel which came out of service in February 2018. She is currently moored in Portsmouth Naval Base and will be sold from there.

Based on the Halmatic “Talisman” GRP hull design, with aluminium superstructure and powered by 2x Volvo Penta TAMD 122A engines, she could be utilised in a number of different uses.

The Defence Equipment Sales Authority (DESA) is inviting expressions of interest from individuals who wish to be considered for this one of a kind proposed sale. All interested parties will be required to contact the Defence Equipment Sales Authority for further information.

The vessel has recently been re-floated having been stored ashore for the last 12 months. Her specialist survey suite has been removed.
