**AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED
KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND AND
THE GOVERNMENT OF THE COMMONWEALTH OF THE BAHAMAS
CONCERNING AIR SERVICES**

The Government of the United Kingdom of Great Britain and Northern Ireland ("the United Kingdom") and the Government of the Commonwealth of The Bahamas ("The Bahamas") hereinafter referred to as the "Contracting Parties";

Being parties to the Convention on International Civil Aviation opened for signature at Chicago on 7 December 1944;

Desiring to conclude an agreement supplementary to the said Convention for the purpose of establishing air services between and beyond their respective territories;

Have agreed as follows:

ARTICLE 1

Definitions

For the purpose of this Agreement, unless the context otherwise requires, the term:

(a) "the Chicago Convention" means the Convention on International Civil Aviation, opened for signature at Chicago on 7 December 1944 and includes: (i) any amendment thereof which has been ratified by both Contracting Parties; and (ii) any Annex or any amendment thereto adopted under Article 90 of that Convention, insofar as such amendment or annex is at any given time effective for both Contracting Parties;

(b) "aeronautical authority" means in the case of the United Kingdom, the Secretary of State for Transport and, for the purpose of Article 7 (Prices) of this Agreement, the Civil Aviation Authority and in the case of The Bahamas the Bahamas Civil Aviation Authority or, in both cases, any person or body who may be authorised to perform any functions at present exercisable by the above-mentioned authority or similar functions;

(c) "designated airline" means an airline which has been designated and authorised in accordance with Article 4 (Designation and Authorisation) of this Agreement;

(d) "territory" in relation to a State has the meaning assigned to it in Article 2 of the Chicago Convention;

(e) "air service", "international air service", "airline" and "stop for non-traffic purposes" have the meanings respectively assigned to them in Article 96 of the Chicago Convention;

(f) "this Agreement" includes the Annex hereto and any amendments to it or to this Agreement;

(g) "user charges" means a charge made to airlines by the competent authority or permitted by that authority to be made for the provision of airport property or facilities or of air navigation facilities (including facilities for overflights), or related services and facilities, for aircraft, their crews, passengers and cargo;

(h) "price" means the prices to be paid for the carriage of passengers, baggage and cargo and the conditions under which those prices apply, including prices and conditions for agency and other auxiliary services, but excluding remuneration for the carriage of mail and conditions for the carriage of mail;

(i) "Air Operator's Certificate" means a document issued to an airline which affirms that the airline in question has the professional ability and organisation to secure the safe operation of aircraft for the aviation activities specified in the certificate;

(j) "EU Member State" means a State that is now or in the future a contracting party to the Treaty on the Functioning of the European Union;

(k) "EU Treaties" means the Treaty on European Union and the Treaty on the Functioning of the European Union.

ARTICLE 2

Applicability of the Chicago Convention

The provisions of this Agreement shall be subject to the provisions of the Chicago Convention insofar as those provisions are applicable to international air services.

ARTICLE 3

Grant of Rights

(1) Each Contracting Party grants to the other Contracting Party the following rights in respect of its international air services:

- (a) the right to fly across its territory without landing;
- (b) the right to make stops in its territory for non-traffic purposes.

(2) Each Contracting Party grants to the other Contracting Party the rights hereinafter specified in this Agreement for the purpose of operating international air services on the routes specified in the appropriate Section of the Schedule annexed to this Agreement. Such services and routes are hereinafter called "the agreed services"

and "the specified routes" respectively. While operating an agreed service on a specified route the airline or airlines designated by each Contracting Party shall enjoy in addition to the rights specified in paragraph (1) of this Article the right to make stops in the territory of the other Contracting Party at the points specified for that route in the Schedule to this Agreement for the purpose of taking on board and discharging passengers and cargo, including mail.

(3) Nothing in paragraph (2) of this Article shall be deemed to confer on the designated airline or airlines of one Contracting Party the right to take on board, in the territory of the other Contracting Party, passengers and cargo, including mail, carried for hire or reward and destined for another point in the territory of the other Contracting Party.

(4) If because of armed conflict, political disturbances or developments, or special and unusual circumstances, a designated airline of one Contracting Party is unable to operate a service on its normal routeing, the other Contracting Party shall use its best efforts to facilitate the continued operation of such service through appropriate temporary rearrangements of routes.

ARTICLE 4

Designation and Authorisation

(1) Each Contracting Party shall have the right to designate airlines for the purpose of operating the agreed services on each of the specified routes and to withdraw or alter such designations. Such designations shall be communicated to the other Contracting Party in writing.

(2) On receipt of such a designation, and of applications from the designated airline, in the form and manner prescribed for operating authorisations and technical permissions, the other Contracting Party shall grant the appropriate authorisations and permissions with minimum procedural delay, provided:

(a) in the case of an airline designated by the United Kingdom:

(i) either:

A. it is established in the territory of the United Kingdom under the Treaty on the Functioning of the European Union and has a valid operating licence in accordance with European Union law; and

B. effective regulatory control of the airline is exercised and maintained by the EU Member State responsible for issuing its Air Operator's Certificate and the relevant aeronautical authority is clearly identified in the designation; and

- C. the airline is owned, directly or through majority ownership, and it is effectively controlled by EU Member States or member states of the European Free Trade Association and/or by nationals of such states;
 - (ii) or, the airline is incorporated and has its principal place of business in a territory for whose international relations the United Kingdom is responsible that is not part of the territory of the European Union, and holds a current Air Operator's Certificate issued by the aeronautical authority of that territory; and
 - (b) in the case of an airline designated by The Bahamas:
 - (i) the airline is owned, directly or through majority ownership, and is effectively controlled by The Bahamas and/or by nationals of The Bahamas; and
 - (ii) The Bahamas aeronautical authority has and maintains effective regulatory control of the airline; and
 - (c) the designated airline is qualified to meet the conditions prescribed under the laws and regulations normally applied to the operation of international air services by the Contracting Party considering the application or applications.
- (3) When an airline has been so designated and authorised it may begin to operate the agreed services, provided that the airline complies with the applicable provisions of this Agreement.

ARTICLE 5

Revocation or Suspension of Operating Authorisations

- (1) Either Contracting Party may revoke an operating authorisation or suspend the exercise of the rights specified in Article 3(2) of this Agreement by an airline designated by the other Contracting Party, or impose such conditions as it may deem necessary on the exercise of those rights, where:
- (a) in the case of an airline designated by the United Kingdom:

- (i) it is not established in the territory of the United Kingdom under the EU Treaties or does not have a valid operating licence in accordance with European Union law; or
 - (ii) effective regulatory control of the airline is not exercised or not maintained by the EU Member State responsible for issuing its Air Operator's Certificate or the relevant aeronautical authority is not clearly identified in the designation; or
 - (iii) the airline is not owned, directly or through majority ownership, or is not effectively controlled by EU Member States or member states of the European Free Trade Association and/or by nationals of such states; or
 - (iv) the airline is not incorporated or does not have its principal place of business in a territory for whose international relations the United Kingdom is responsible that is not part of the territory of the European Union, or does not hold a current Air Operator's Certificate issued by the aeronautical authority of that territory; or
 - (v) the airline is already authorised to operate under a bilateral agreement between The Bahamas and another EU Member State and The Bahamas can demonstrate that, by exercising traffic rights under this Agreement on a route that includes a point in that other EU Member State, it would be circumventing restrictions on traffic rights in that other agreement; or
 - (vi) the airline holds an Air Operator's Certificate issued by an EU Member State and there is no bilateral air services agreement between The Bahamas and that EU Member state, and traffic rights to that EU Member state have been denied to an airline designated by The Bahamas;
- (b) in the case of an airline designated by The Bahamas:
- (i) the airline is not owned, directly or through majority ownership, or is not effectively controlled by The Bahamas and/or by nationals of The Bahamas; or
 - (ii) The Bahamas aeronautical authority does not have or maintain effective regulatory control of the airline; or
 - (iii) the airline is already authorised to operate under a bilateral agreement between the United Kingdom and another state and the United Kingdom can demonstrate that, by exercising traffic rights under this Agreement on a route that includes a point in that other

state, it would be circumventing restrictions on traffic rights in that other agreement; or

- (iv) the airline holds an Air Operator's Certificate issued by another state and there is no bilateral air services agreement between the United Kingdom and that state, and traffic rights to that state have been denied to an airline designated by the United Kingdom;
- (c) in the case of failure by that airline to comply with the laws or regulations normally and reasonably applied by the Contracting Party granting those rights; or
- (d) if the airline otherwise fails to operate in accordance with the conditions prescribed under this Agreement; or
- (e) where it has been determined by a Contracting Party (if the consultations under paragraph (9) of Article 6 (Fair Competition) of this Agreement have not achieved a satisfactory resolution) that the provisions of Article 6 (Fair Competition) of this Agreement are not being complied with; or
- (f) if it has been determined by a Contracting Party that there is a failure by the other Contracting Party or an airline to comply with any provisions of Article 9 (Aviation Security) of this Agreement; or
- (g) if a Contracting Party determines that wider security concerns justify such action; or
- (h) in the case of failure by the other Contracting Party to take appropriate action to improve safety in accordance with paragraph (2) of Article 10 (Safety) of this Agreement; or
 - (i) in accordance with paragraph (6) of Article 10 (Safety) of this Agreement.

(2) Unless immediate revocation, suspension or imposition of the conditions mentioned in paragraph (1) of this Article is essential to prevent further infringements of laws or regulations, such right shall be exercised only after consultation with the other Contracting Party.

(3) Either Contracting Party that exercises the rights under paragraph (1) of this Article shall notify in writing the other Contracting Party as soon as possible of the reasons for the refusal, suspension or limitation of the operating authorisation or technical permission of an airline designated by it.

(4) In exercising their rights under paragraph (1) of this Article the Contracting Parties shall not discriminate between airlines on the grounds of nationality.

(5) This Article does not limit the rights of either Contracting Party to revoke, suspend or limit the operating authorisation or technical permissions of an airline designated by the other Contracting Party in accordance with the provisions of Article 9 (Aviation Security) of this Agreement.

ARTICLE 6

Fair Competition

(1) There shall be fair and equal opportunity for the designated airlines of both Contracting Parties to compete in operating the agreed services on the specified routes.

(2) Each Contracting Party shall allow each designated airline to determine the frequency and capacity of the international air transport it offers in accordance with the agreed services on the specified routes. Consistent with this right, neither Contracting Party shall unilaterally limit the volume of traffic, frequency or regularity of service, or the aircraft type or types operated by the designated airlines of the other Contracting Party, except as may be required for customs, technical, operational, or environmental reasons under uniform conditions consistent with Article 15 of the Chicago Convention.

(3) Neither Contracting Party shall impose on the other Contracting Party's designated airlines a first-refusal requirement, uplift ratio, no-objection fee, or any other requirement with respect to capacity, frequency or traffic that would be inconsistent with the purposes of this Agreement.

(4) Neither Contracting Party shall require the filing of schedules, programmes for non-scheduled flights or operational plans by airlines of the other Contracting Party for approval, except as may be required on a non-discriminatory basis to enforce the uniform conditions foreseen by paragraph (2) of this Article. If a Contracting Party requires filings for information purposes, it shall minimise the administrative burdens on air transport intermediaries and on designated airlines of the other Contracting Party of such filing requirements and procedures.

(5) Neither Contracting Party shall allow its designated airline or airlines, either in conjunction with any other airline or airlines or separately, to abuse market power in a way which has or is likely or intended to have the effect of severely weakening a competitor or excluding a competitor from a route.

(6) Neither Contracting Party shall provide or permit state subsidy or support for or to its designated airline or airlines in such a way that would adversely affect the fair and equal opportunity of the airlines of the other Contracting Party to compete in providing international air transportation.

(7) State subsidy or support means the provision of support on a discriminatory basis to a designated airline, directly or indirectly, by the state or by a public or

private body designated or controlled by the state. Without limitation, it may include the setting-off of operational losses; the provision of capital, non-refundable grants or loans on privileged terms; the granting of financial advantages by forgoing profits or the recovery of sums due; the forgoing of a normal return on public funds used; tax exemptions; compensation for financial burdens imposed by the public authorities; or discriminatory access to airport facilities, fuel or other reasonable facilities necessary for the normal operation of air services.

(8) Where a Contracting Party provides state subsidy or support to a designated airline in respect of services operated under this Agreement, it shall require that airline to identify the subsidy or support clearly and separately in its accounts.

(9) If one Contracting Party believes that its designated airlines are being subjected to discrimination or unfair practices, or that a subsidy or support being considered or provided by the other Contracting Party for or to the airlines of that other Contracting Party would adversely affect or is adversely affecting the fair and equal opportunity of the airlines of the first Contracting Party to compete in providing international air transportation, it may request consultations and notify the other Contracting Party of the reasons for its dissatisfaction. These consultations shall be held not later than [30] days after receipt of the request, unless otherwise agreed by both Contracting Parties.

ARTICLE 7

Prices

(1) Each Contracting Party shall allow prices for air services to be established freely by each designated airline on the basis of fair competition. Neither Contracting Party shall require their airlines to consult other airlines about the prices they charge or propose to charge for services covered by these arrangements.

(2) The Contracting Parties shall not require prices to be filed with or notified to aeronautical authorities except as may be required on a non-discriminatory basis for information purposes only. Notwithstanding the foregoing, the designated airlines of the Contracting Parties shall continue to provide access, as soon as practicable, to information on historical, existing and proposed prices to the aeronautical authorities of the other Contracting Party. Such requests shall be made in a manner and format acceptable to both Contracting Parties while minimising the administrative burden on the designated airlines.

ARTICLE 8

Duties, Taxes and Fees

(1) The Contracting Parties shall relieve, on the basis of reciprocity, from all customs duties, national excise taxes and similar national fees:

- (a) aircraft operated in international air services by the designated airline or airlines of either Contracting Party; and
- (b) the following items introduced by a designated airline of one Contracting Party into the territory of the other Contracting Party:
 - (i) repair, maintenance and servicing equipment and component parts;
 - (ii) passenger handling equipment and component parts;
 - (iii) cargo-loading equipment and component parts;
 - (iv) security equipment including component parts for incorporation into security equipment;
 - (v) instructional material and training aids;
 - (vi) airline and operators' documents; and
- (c) the following items introduced by a designated airline of one Contracting Party into the territory of the other Contracting Party or supplied to a designated airline of one Contracting Party in the territory of the other Contracting Party:
 - (i) aircraft stores (including but not limited to such items as food, beverages and tobacco) whether introduced into or taken on board in the territory of the other Contracting Party;
 - (ii) fuel (subject to paragraph(s) (5) and (6) of this Article), lubricants and consumable technical supplies;
 - (iii) spare parts including engines; and
- (d) computer equipment and component parts introduced by a designated airline of one Contracting Party into the territory of the other Contracting Party to assist in one or more of the following matters:
 - (i) the repair, maintenance or servicing of aircraft;
 - (ii) the handling of passengers at the airport or on board aircraft;
 - (iii) the loading of cargo onto or the unloading of cargo from aircraft;
 - (iv) the carrying out of security checks on passengers or cargo;

provided in the case of sub-paragraphs (b)-(d) they are for use on board an aircraft or within the limits of an international airport in connection with the establishment or maintenance of an international air service by the designated airline concerned.

(2) The relief from customs duties, national excise taxes and similar national fees shall not extend to charges based on the cost of services provided to the designated airline or airlines of a Contracting Party in the territory of the other Contracting Party.

(3) Equipment and supplies referred to in paragraph (1) of this Article may be required to be kept under the supervision or control of the appropriate authorities.

(4) The reliefs provided for by this Article shall also be available in situations where the designated airline or airlines of one Contracting Party have entered into arrangements with another airline or airlines for the loan or transfer in the territory of the other Contracting Party of the items specified in paragraph (1) of this Article, provided such other airline or airlines similarly enjoy such relief from such other Contracting Party.

(5) Nothing in this Agreement shall prevent the United Kingdom from imposing, on a non-discriminatory basis, taxes, levies, duties, fees or charges on fuel supplied in its territory for use in an aircraft of a designated airline of The Bahamas that operates between a point in the territory of the United Kingdom and another point in the territory of the United Kingdom or in the territory of another EU Member State.

(6) Nothing in this Agreement shall prevent The Bahamas from imposing, on a non-discriminatory basis, taxes, levies, duties, fees or charges on fuel supplied in its territory for use in an aircraft of a designated airline of the United Kingdom that operates between a point in the territory of The Bahamas and another point in the territory of The Bahamas.

ARTICLE 9

Aviation Security

(1) Consistent with their rights and obligations under international law, the Contracting Parties reaffirm that their obligation to each other to protect the security of civil aviation against acts of unlawful interference forms an integral part of this Agreement. Without limiting the generality of their rights and obligations under international law, the Contracting Parties shall in particular act in conformity with the provisions of the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at The Hague on 16 December 1970, the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971, the Montreal Supplementary Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation, signed at Montreal on 24 February 1988, the Convention on the Marking of Plastic Explosives for the Purpose of Detection, signed at Montreal on 1 March 1991 and any aviation security agreement that becomes binding on both Contracting Parties.

(2) The Contracting Parties shall provide upon request all necessary assistance to each other to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, their passengers and crew, airports and air navigation facilities, and any other threat to the security of civil aviation.

(3) When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airports or air navigation facilities occurs, the Contracting Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat thereof.

(4) Each Contracting Party shall take such measures as it may find practicable to ensure that an aircraft of the other Contracting Party which is subjected to an act of unlawful interference, and which lands in its territory, is detained on the ground unless its departure is necessitated by the overriding duty to protect human life. Wherever practicable, such measures shall be taken on the basis of mutual consultations.

(5) The Contracting Parties shall, in their mutual relations, act in conformity with the aviation security provisions established by the International Civil Aviation Organization and as Annexes to the Chicago Convention to the extent that such security provisions are applicable to the Contracting Parties. Each Contracting Party shall require that its airlines and the operators of airports in its territory act in conformity with such aviation security provisions.

(6) Each Contracting Party agrees that its airlines shall be required to observe the aviation security provisions referred to in paragraph (5) of this article required by the other Contracting Party for entry into the territory of that other Contracting Party. For departure from, or while within the territory of the other Contracting Party, airlines shall be required to observe aviation security provisions in conformity with the law in force in that Contracting Party. Each Contracting Party shall ensure that adequate security measures are effectively applied within its territory to protect the aircraft and to inspect passengers, crew, carry-on items, baggage, cargo and aircraft stores prior to and during boarding or loading; and that security measures are adjusted to meet any increased threat to the security of civil aviation where appropriate. Each Contracting Party agrees that security provisions required by the other Contracting Party for departure from and while within the territory of that other Contracting Party must be observed. Each Contracting Party shall also act favourably upon any request from the other Contracting Party for reasonable special security measures to meet a particular threat.

(7) Each Contracting Party shall also give sympathetic consideration to a request from the other Contracting Party to enter into reciprocal administrative arrangements whereby the aeronautical authorities of one Contracting Party could make in the territory of the other Contracting Party their own assessment of the security measures in respect of flights destined for the territory of the Contracting Party making the request.

(8) With full regard and mutual respect for each other's sovereignty, a Contracting Party may adopt security measures for entry into its territory. Where possible, that Contracting Party shall take into account the security measures already applied by the other Contracting Party and any views that the other Contracting Party may offer. Each Contracting Party recognises, however, that nothing in this Article limits the right of a Contracting Party to refuse entry into its territory for any flight or flights that it deems to present a threat to its security.

(9) A Contracting Party may take emergency measures to meet a specific security threat. Such measures shall be notified immediately to the other Contracting Party.

(10) Without prejudice to the need to take immediate action in order to protect transport security, the Contracting Parties affirm that when considering security measures, a Contracting Party shall evaluate possible adverse effects on international air transport and, unless constrained by law, shall take such factors into account when it determines what measures are necessary and appropriate to address those security concerns.

(11) Each Contracting Party may request consultations at any time concerning security standards adopted by the other Contracting Party. Such consultations shall take place within 30 days of that request. When a Contracting Party has reasonable grounds to believe that the other Contracting Party has departed from provisions of this Article, that Contracting Party may request immediate consultations with the other Contracting Party. Failure to reach a satisfactory resolution within 15 days from the date of such request, shall constitute grounds to revoke, suspend or limit the operating authorisation and technical permissions of an airline or airlines of the other Contracting Party. When required by an emergency, a Contracting Party may take interim action prior to the expiry of 15 days. Any action taken in accordance with this paragraph shall be discontinued upon compliance by the other Contracting Party with the security provisions of this Article.

ARTICLE 10

Safety

(1) Each Contracting Party may request consultations at any time concerning safety standards in any area relating to aircrews, aircraft or their operation adopted by the other Contracting Party. Such consultations shall take place within 30 days of that request.

(2) If, following such consultations, one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in any such area that are at least equal to the minimum standards established at that time pursuant to the Chicago Convention, the first Contracting Party shall notify the other Contracting Party of those findings and the steps considered necessary to conform with those minimum standards, and the other Contracting Party shall take

appropriate corrective action. Failure by the other Contracting Party to take appropriate action within 15 days or such longer period as may be agreed, shall be grounds for the application of Article 5(1) (Revocation or Suspension of Operating Authorisations) of this Agreement.

(3) Notwithstanding the obligations mentioned in Article 33 of the Chicago Convention it is agreed that any aircraft operated by or, under a lease arrangement, on behalf of the airline or airlines of one Contracting Party on services to or from the territory of the other Contracting Party may, while within the territory of the other Contracting Party, be made the subject of an examination by the authorised representatives of the other Contracting Party, on board and around the aircraft to check both the validity of the aircraft documents and those of its crew and the apparent condition of the aircraft and its equipment (in this Article called “ramp inspection”), provided this does not lead to unreasonable delay.

(4) If any such ramp inspection or series of ramp inspections gives rise to:

- (a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at that time pursuant to the Chicago Convention; or
- (b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Chicago Convention;

the Contracting Party carrying out the inspection shall, for the purposes of Article 33 of the Chicago Convention, be free to conclude that the requirements under which the certificate or licences in respect of that aircraft or in respect of the crew of that aircraft had been issued or rendered valid or that the requirements under which that aircraft is operated are not equal to or above the minimum standards established pursuant to the Chicago Convention.

(5) In the event that access for the purpose of undertaking a ramp inspection of an aircraft operated by the airline or airlines of one Contracting Party in accordance with paragraph (3) of this Article is denied by a representative of that airline or airlines, the other Contracting Party shall be free to infer that serious concerns of the type referred to in paragraph (4) of this Article arise and draw the conclusions referred in that paragraph.

(6) Each Contracting Party reserves the right to suspend or vary the operating authorisation of an airline or airlines of the other Contracting Party immediately in the event the first Contracting Party concludes, whether as a result of a ramp inspection, a series of ramp inspections, a denial of access for ramp inspection, consultation or otherwise, that immediate action is essential to the safety of an airline operation.

(7) Any action by one Contracting Party in accordance with paragraphs (2) or (6) of this Article shall be discontinued once the basis for the taking of that action ceases to exist.

ARTICLE 11

Regulatory Control

Where the United Kingdom has designated an airline whose regulatory control is exercised and maintained by another EU Member State, the rights of the other Contracting Party under Article 10 (Safety) of this Agreement shall apply equally in respect of the adoption, exercise or maintenance of safety standards by that other EU Member State and in respect of the operating authorisation of that airline.

ARTICLE 12

Codeshare

Any designated airline or airlines may, subject to applicable laws and regulations governing competition, enter into code-sharing arrangements with any other airline or airlines, provided that:

- (a) each flight forming part of a service to which the arrangements apply is operated by an airline entitled to operate that flight; and
- (b) no service is made available by an airline of one Contracting Party for the carriage of local passengers between a point in the territory of the other Contracting Party and a point in a third state, or between two points in the territory of the other Contracting Party, unless that airline is entitled to operate and carry local traffic between those two points in its own right; and
- (c) in respect of each ticket sold, the purchaser is informed at the point of sale which airline will operate each sector of the service.

ARTICLE 13

Leasing

(1) The designated airlines of each Contracting Party shall have the right to perform the agreed services on the specified routes using aircraft (or aircraft and crew) leased from any company, including other airlines, subject to being authorised to use the aircraft on such basis by the aeronautical authority of both Contracting Parties.

(2) In order to use aircraft on a lease basis in accordance with paragraph (1) of this Article, the designated airlines shall also be required to meet the conditions prescribed under the law and regulations normally applied to the operation of international air services by the Contracting Parties.

ARTICLE 14

Ground Handling

The designated airlines of each Contracting Party shall be permitted to have ground handling services in the other Party's territory provided in whole or in part by the agent authorised by the competent authorities of the other Contracting Party to provide such services or, at its option, it may provide its own ground handling services by engaging or giving positive consideration to engaging personnel employed by the agent authorised to perform such ground handling services.

ARTICLE 15

Transfer of Earnings

Each designated airline may on demand convert and remit local revenues in excess of sums locally disbursed to the country of its choice. Prompt conversion and remittance shall be permitted without restrictions at the rate of exchange applicable to current transactions which is in effect at the time such revenues are presented for conversion and remittance, and shall not be subject to any charges except those normally made by banks for carrying out such conversion and remittance.

ARTICLE 16

Airline Representation and Sales

An airline which:

- (a) is incorporated and has its principal place of business in the territory of one Contracting Party or an EU Member State; and
- (b) holds a current Air Operator's Certificate issued by the aeronautical authority of that Contracting Party or an EU Member State;

may:

- (i) in accordance with the laws and regulations relating to entry, residence and employment of the other Contracting Party bring in and maintain in the territory of the other Contracting Party those of their own managerial, technical, operational

and other specialist staff which the airline reasonably considers necessary for the provision of air services;

- (ii) use the services and personnel of any other organisation, company or airline operating in the territory of the other Contracting Party;
- (iii) establish offices in the territory of the other Contracting Party; and
- (iv) engage in the sale and marketing of air transportation and ancillary services in the territory of the other Contracting Party, either directly or through agents or other intermediaries appointed by the airline. The airline may sell, and any person shall be free to purchase, such transportation and ancillary services in local currency or in any freely convertible other currency.

ARTICLE 17

User Charges

(1) User charges that may be imposed by the competent charging authorities or bodies of each Contracting Party on the airlines of the other Contracting Party shall be just, reasonable, not unjustly discriminatory, and equitably apportioned among categories of users. In any event, any such user charges shall not be higher than those that would be charged to any other airline engaged in similar scheduled international air services.

(2) User charges imposed on the airlines of the other Contracting Party may reflect, but not exceed, the full cost to the competent charging authorities or bodies of providing appropriate and not excessive airport, airport environmental, air navigation and aviation security facilities and services at the airport or within the airport system. Such charges may include a reasonable return on assets. Facilities and services for which charges are made shall be provided on an efficient and economic basis.

(3) Each Contracting Party shall make its best efforts to ensure that consultations take place between the competent charging authorities or bodies in its territory and the airlines using the services and facilities, and that the competent charging authorities or bodies and the airlines exchange such information as may be necessary to permit an accurate review of the reasonableness of the charges in accordance with the principles of paragraphs (1) and (2) of this Article. Each Contracting Party shall make its best efforts to ensure that the competent charging authorities provide users with reasonable notice of any proposal for changes in user charges to enable users to express their views before changes are made.

(4) Neither Contracting Party shall be held, in dispute resolutions procedures pursuant to Article 21 (Settlement of Disputes) of this Agreement, to be in breach of a provision of this Article, unless:

- (a) it fails to undertake a review, or fails to commission an independent review of the charge or practice that is the subject of complaint by the other Contracting Party within a reasonable time; or
- (b) following such a review, it fails to take all steps within its power to remedy any charge or practice that is inconsistent with this Article.

ARTICLE 18

Intermodal Transport

The airlines of each Contracting Party shall be permitted to employ, in connection with air transport, any intermodal transport to or from any points in the territories of the Contracting Parties or third countries. Airlines may elect to perform their own intermodal transport or to provide it through arrangements, including code share, with other carriers. Such intermodal services may be offered as a through service and at a single price for the air and intermodal transport combined, provided that passengers and shippers are informed as to the providers of the transport involved.

ARTICLE 19

Environmental Protection

- (1) The Contracting Parties support the need to protect the environment by promoting the sustainable development of aviation.
- (2) When environmental measures are established, the aviation environmental standards adopted by the International Civil Aviation Organisation in Annexes to the Chicago Convention shall be followed except where differences have been filed.
- (3) Nothing in this Agreement shall be construed to limit the authority of the competent authorities of a Contracting Party to take all appropriate measures to prevent or otherwise address the environmental impacts of air transport, provided that such measures are fully consistent with their rights and obligations under international law and are applied without distinction as to nationality.

ARTICLE 20

Consultation

Either Contracting Party may at any time request consultations on the implementation, interpretation, application or amendment of this Agreement or compliance with this Agreement. Such consultations, which may be between

aeronautical authorities, shall begin within a period of 60 days from the date the other Contracting Party receives a written request, unless otherwise agreed by the Contracting Parties.

ARTICLE 21

Settlement of Disputes

- (1) If any dispute arises between the Contracting Parties relating to the interpretation or application of this Agreement, the Contracting Parties shall in the first place try to settle it by negotiation.
- (2) If the aeronautical authorities of the Contracting Parties fail to reach a settlement by negotiation within sixty (60) days, then the dispute shall be referred for negotiations through diplomatic channels. The Contracting Parties shall aim to reach a settlement within one hundred and twenty (120) days.
- (3) If the Contracting Parties do not agree to resolution within one hundred and twenty (120) days, they may agree to resolve the matter by another method.

ARTICLE 22

Amendment

Any amendments so agreed shall come into force on the date of the last notification by which the Contracting Parties notify each other, through diplomatic channels, that they have completed the internal legal procedures necessary for its entry into force.

ARTICLE 23

Termination

Either Contracting Party may at any time give notice in writing and through the diplomatic channels to the other Contracting Party of its decision to terminate this Agreement. Such notice shall be simultaneously communicated to the International Civil Aviation Organisation. This Agreement shall terminate twelve (12) months after date of receipt of such notice by the other Contracting Party, unless the notice is withdrawn by agreement before the end of this period. In the absence of acknowledgement of receipt by the other Contracting Party, the notice shall be deemed to have been received 14 days after receipt of the notice by the International Civil Aviation Organisation.

ARTICLE 24

Entry into Force

This Agreement shall enter into force thirty (30) days after the last written notification is received by diplomatic note confirming that the Contracting Parties have fulfilled all respective internal procedures required for the entry into force of this Agreement.

In witness whereof the undersigned, being duly authorised by their respective Governments, have signed this Agreement.

Done in duplicate at London this Fifth day of March 2019.

ANNEX

ROUTE SCHEDULE

Section 1

Routes to be operated by the designated airline or airlines of the United Kingdom:

Points in the territory of the United Kingdom – Intermediate Points – Points in the territory of The Bahamas – Points Beyond

NOTES:

1. Intermediate points or points beyond may be omitted on any flight provided that the service begins or ends in the territory of the United Kingdom.
2. Traffic (including all forms of stop-over traffic) may be picked up at an intermediate point to be set down in the territory of The Bahamas or may be picked up in the territory of The Bahamas to be set down at a point beyond, and vice versa, subject to such arrangements as may from time to time be jointly determined by the aeronautical authorities of the Contracting Parties.
3. Points in the territory of the United Kingdom include United Kingdom Overseas Territories and Crown Dependencies.

Section 2

Routes to be operated by the designated airline or airlines of The Bahamas:

Points in the territory of The Bahamas – Intermediate Points – Points in the territory of the United Kingdom – Points Beyond

NOTES:

1. Intermediate points or points beyond may be omitted on any flight provided that the service begins or ends in The Bahamas.
2. Traffic (including all forms of stop-over traffic) may be picked up at an intermediate point to be set down in the territory of the United Kingdom or may be picked up in the territory of the United Kingdom to be set down at a point beyond, and vice versa, subject to such arrangements as may from time to time be jointly determined by the aeronautical authorities of the Contracting Parties.
3. Points in the territory of the United Kingdom include United Kingdom Overseas Territories and Crown Dependencies.
