<sup>\*</sup> Any routine maintenance costs where there is no information held are not separately identifiable from other Service Family Accommodation on the estate/region in which they are situated.

Under Section 16 of the Act (Advice and Assistance) you may find it helpful to note that since 2010 the MOD has not had an accommodation category of Official Service Residence, all properties are now treated as Service Family Accommodation.

However, some posts (not people) have a property that is tied to that post; the above posts are examples of this. The reason properties are tied to these posts is due to the nature of those roles.

<sup>\*\*</sup> Please note in regards to the Chief of Air Staff's residency, the household staff also includes a housekeeper who is part of an overall contract, however it is not possible to break out cleaner costs from the overall cost of the contract.

The maintenance costs listed above covers both the core housing prime contract costs as well as any other additional maintenance costs hence why there is some variations and some maintenance figures are higher than others, covering items such as replacement carpets, replacement fire alarm and security systems, replacement curtains, carpets, shower pumps and washing machines, including some maintenance done on upgrading fences and an upgrade to the electronic entry system.

If you have any queries regarding the content of this letter, please contact this office in the first instance.
