

On-line web instructions for the Hospital Tap Water Scheme

Public Health England has an electronic system for on-line reporting of external quality assessment (EQA) results for the food and water microbiology proficiency testing (PT) schemes. The system also integrates a wide range of functions including registration details, data analysis and provision of distribution reports.

The following instructions will help to guide you through the system, from opening the website and logging-in, to entering your results data and accessing your distribution reports. Please contact foodeqa@phe.gov.uk if you experience any difficulties.

1.0 Opening the online results reporting service and logging-in

You will need your Laboratory registration details Lab number, Identity and Password which are important for your participation and for accessing the new on-line reporting system. Contact us if you have lost your log-in details, we will send you the details immediately (after making a security check).

After a distribution has been dispatched you will be sent an email notifying you that the on-line reporting system for the new distribution is open. That message will have '**PHE FEPTU on-line results reporting service - new distribution open**' in the subject field and will include a link to the website for reporting your results. Either use the link in the message or go to the website: <https://www.phe-eqa.org.uk/>

Contact us on foodeqa@phe.gov.uk if you do not receive an email notifying you that the distribution is open after you have received your samples.

Once you have clicked on the link for <https://www.phe-eqa.org.uk/> you will see the following screen:

You are required to have authorisation from the Public Health England before you proceed and use are strictly limited to the use set out within that authorisation. Unauthorised access to or misuse of this system is prohibited and constitutes an offence under the Computer Misuse Act 1990.

Enter your '**Lab Number**', your '**Identity**' and '**Password**'. You can navigate through the boxes using the tab key.

Select the 'Log in' button or press 'enter' on your keyboard.

2.0 Selecting the scheme for data entry

Select the appropriate scheme from the 'Distributions for' drop-down menu – in this case the 'Hospital Tap Water Scheme'.

You can save your results at any time by clicking on the 'Save' button. This will save your data on our system, *not on your own computer*. A prompt box will appear giving you instructions about how to 'save' your results.

Results can be changed at any time until you have selected the 'Submit' button or the distribution has been closed.

6.0 Entering results for the second sample

To enter the data for your next sample number, click on the light grey shaded area to change to the next data entry screen. The current bar will change to dark turquoise shaded bar with the sample number in bold white font. Enter and save your results as described in 5.0

7.0 Printing your results

If you wish to keep a paper copy of your results select the 'Print' button. You will need to do this separately for each sample number.

 *Please consider the environment before printing*

8.0 Submitting your results

Once you are ready to send us your results select the 'Submit' button.

You will not be able to change your results after submission

The following prompt box will appear to confirm your result submission

After your results have been submitted the 'Save' and 'Submit' buttons will no longer be visible. However, you will still be able to 'Print' your results as instructed in 7.0.

Select 'Back' and you will be redirected to the 'Distribution List' screen. The tick icon (✓) will be visible in the 'Completed' column, which indicates that your results have been completed for this distribution.

Please 'Logout' closing your browser.
