## 1. Key results

- 1.1** There were 40,724 housing starts on site and 30,999 housing completions delivered through programmes managed by the Homes and Communities Agency (HCA) in England (excluding London for all programmes except those administered by the HCA on behalf of the Greater London Authority (GLA)) between 1 April 2016 and 31 March 2017. The HCA manages the Help to Buy (Equity Loan) scheme in England but the completions are reported by the Department for Communities and Local Government (DCLG) available from the webpage linked below<sup>1</sup> and are, therefore, excluded from this publication.
- 1.2** 29,050 or 71 per cent of housing starts on site in 2016-17 were for affordable homes. This represents an increase of 36 per cent on the 21,315 affordable homes started in 2015-16.
- 1.3** 22,113 affordable homes started in 2016-17 were for Affordable Rent, an increase of 34 per cent on the 16,544 started in 2015-16. A further 5,993 were for Intermediate Affordable Housing schemes, including Shared Ownership and Rent to Buy. This is an increase of 45 per cent on the 4,141 started in 2015-16. The remaining 944 were for Social Rent, an increase of 50 per cent on the 630 started in 2015-16. Of the affordable homes started in 2016-17, the three highest delivering programmes were: Affordable Homes Programme (AHP) 2015-18<sup>2</sup> with 74 per cent; Shared Ownership and Affordable Homes Programme (SOAHP) 2016-21<sup>3</sup> with 17 per cent and; Single Land Programme (SLP)<sup>4</sup> with 3 per cent.
- 1.4** 22,858 or 74 per cent of housing completions in 2016-17 were for affordable homes. This represents an increase of 31 per cent on the 17,392 affordable homes completed in 2015-16.
- 1.5** 18,280 affordable homes completed in 2016-17 were for Affordable Rent, an increase of 40 per cent on the 13,100 completed in 2015-16. A further 3,981 were for Intermediate Affordable Housing schemes, including Shared Ownership and Rent to Buy, an increase of 42 per cent on the 2,799 completed in 2015-16. The remaining 597 were for Social Rent, a decrease of 60 per cent on the 1,493 completed in 2015-16. Of the affordable homes completed in 2016-17, the three highest delivering programmes were: AHP 2015-18 with 66 per cent; Affordable Homes Guarantees (AHG) with 20 per cent and; SOAHP 2016-21 with 5 per cent.

<sup>2</sup> The AHP 2015-18 replaced the AHP 2011-15 with effect from 1 April 2015. The AHP 2011-15 includes the following programmes: Affordable Homes Programme, Empty Homes, Homelessness Change, Mortgage Rescue, Short Form Agreements and Traveller Pitch Funding. For more information see Annex 1.

<sup>3</sup> The SOAHP was launched in April 2016.

<sup>4</sup> The Single Land Programme replaced the Accelerated Land Disposal, Economic Assets and Property and Regeneration programmes with effect from 1 April 2015.

## 2. Introduction

### Geographical coverage

**2.1** This release presents the housing starts on site and housing completions delivered by the Homes and Communities Agency (HCA) between 1 April 2009 and 31 March 2017 in England excluding London (for both the current and historical series<sup>5</sup>) with the exception of the Build to Rent, Builders Finance Fund, Get Britain Building and The Home Building Fund – Short Term Fund (THBF – STF)<sup>6</sup> programmes which are administered by the HCA on behalf of the Greater London Authority (GLA) and where delivery covers all of England including London.

### Purposes and uses

**2.2** The figures in this release show the supply of affordable and market housing delivered through the HCA's programmes<sup>7</sup> with the exception of Help to Buy (Equity Loan scheme), the statistics for which are published quarterly by DCLG<sup>8</sup>. Further details on housing types are available in section 6 of this release. DCLG also publishes annual statistics on affordable housing supply in England<sup>9</sup> showing the gross annual supply of affordable homes, irrespective of funding mechanism. Further information on the Affordable Housing Supply and Help to Buy releases is provided in section 8 of this release.

**2.3** The data in this release are used by DCLG to monitor delivery of affordable homes as part of the DCLG business plan (see paragraph 8.3). The HCA uses the data to measure progress towards commitments made in its published Corporate Plan<sup>10</sup>. Local authorities also use the data when compiling their annual return to DCLG for the purpose of calculating the enhancement for affordable housing under the New Homes Bonus (NHB), a grant for local authorities to incentivise new housing supply.

### What is included in this release?

**2.4** This is the first release of data relating to delivery for the entire financial year ending 31 March 2017 and covers 17 current programmes and 9 historical programmes delivered by the HCA (summarised in Annex 1). These include the acquisition of existing land or property as well as new house building, and some programmes provide a mix of affordable and market housing. Affordable housing may be for home ownership (on Shared Ownership or Rent to Buy terms) or for rent.

**2.5** Housing starts on site and housing completions are reported for each programme, where applicable.

**2.6** A programme breakdown of the data is available in Table 1 of the tables accompanying this release<sup>11</sup>. Further information on the accompanying tables is provided in section 4 of this release. Table A of the latest annual statistics on affordable housing supply in England published by DCLG<sup>9</sup> shows how the HCA programmes relate to the statistics on affordable housing published by DCLG.

<sup>5</sup> As housing starts on site and completions are recorded by their location, this release may exclude homes located outside London where the funding was allocated to a local authority district within London.

<sup>6</sup> The Home Building Fund – Short Term Fund was launched on 3 October 2016 and includes the Builders Finance Fund.

<sup>7</sup> See Annex 1 for a summary and links to information about the HCA's programmes.

## How is new subsidised housing provided?

- 2.7** Affordable homes delivered through HCA programmes are funded by central government. The funding is administered by the HCA to fund investment partners (including private registered providers, house builders, community groups and local authorities) to deliver affordable housing.
- 2.8** With the exception of the Single Land Programme, funding for all programmes is allocated through an application/bidding process based on the assessment eligibility/criteria for each programme. Funding is paid in accordance with the contractual agreement for each programme. Investment for projects delivered under the Single Land Programme is determined in accordance with the HCA's Financial Framework<sup>12</sup>.

## London

- 2.9** Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that the HCA no longer publishes housing starts on site and completions for London, except where the HCA is administering a programme on behalf of the GLA. The historical series for London, which reflects past delivery by the HCA, is included in the HCA's housing statistics published on 12 June 2012 (revised 24 August 2012) available from the housing statistics page on the HCA section of GOV.UK<sup>13</sup>.
- 2.10** DCLG has combined the affordable housing statistics in this release with the GLA's affordable housing statistics to produce Table 1012 showing total affordable housing starts on site and completions delivered nationally under the affordable housing programmes of the HCA and GLA<sup>14</sup>. This table excludes additional affordable housing delivery reported annually through local authority returns, which are included in DCLG's full annual release on affordable housing supply in England<sup>15</sup>. The table includes any revisions made to London data since it was published by the HCA on 12 June 2012 (revised 24 August 2012). Further details are provided in section 8 of this release.

<sup>1</sup> Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that the HCA no longer publishes housing starts on site and completions for London (current and historical series) except for delivery in London under the Build to Rent, Builders Finance Fund and Get Britain Building programmes which are administered by the HCA on behalf of the GLA. As housing starts on site and completions are recorded by their location, they may include homes located outside London where the funding was allocated to a local authority district within London. The historical series for London included in the HCA's housing statistics published on 12 June 2012 (revised 24 August 2012) is available from:

<https://www.gov.uk/government/collections/housing-statistics>

<sup>2</sup> Figures by local authority and HCA's operating areas are available in the accompanying tables.

<sup>3</sup> Total affordable housing is the sum of Affordable Rent, Social Rent, Intermediate Rent and Affordable Home Ownership.

<sup>4</sup> The market units delivered under the Accelerated Land Disposal, Build to Rent, Builders Finance Fund, Economic Assets, Get Britain Building, Kickstart Housing Delivery, Property and Regeneration, Single Land and The Home Building Fund – Short Term Fund programmes may include some starts on site and completions which are made available at below market price or rents but do not meet the definition for affordable housing.

<sup>5</sup> To ensure consistent reporting with completions, with effect from 1 April 2014 the range of products reported for affordable housing starts on site includes the start on site for new build homes where the procurement route is such that the provider purchases the home at completion. For reporting purposes, the start on site date is taken as the date of completion.

**In the period 1 April 2016 to 31 March 2017 (financial year 2016-17):**

- 3.1** A total of 40,724 homes started on site, representing an increase of 7,716 or 23 per cent compared to 33,008 started in 2015-16.
- 3.2** 29,050 homes started were for affordable housing, representing an increase of 7,735 or 36 per cent compared to 21,315 started in 2015-16.
- 3.3** 22,113 or 76 per cent of affordable starts on site were for Affordable Rent, reflecting allocations made under the AHP 2015-18 where Affordable Rent is the main product funded. This is an increase of 5,569 or 34 per cent compared to 16,544 started in 2015-16. Intermediate Affordable Housing accounted for a further 5,993 or 21 per cent of affordable starts. This is an increase of 1,852 or 45 per cent compared to 4,141 started in 2015-16. Social Rent accounted for the remaining 944 affordable homes started (3 per cent). This is an increase of 314 or 50 per cent compared to 630 started in 2015-16.

**3.4** Table 1b below shows the percentage of HCA’s affordable housing starts on site delivered by each operating area<sup>16</sup> compared to 2015-16<sup>17</sup>.

	<b>2016-17</b>	<b>2015-16</b>
<b>Midlands</b>	25%	24%
<b>East and South East</b>	24%	23%
<b>South and South West</b>	18%	23%
<b>North East, Yorkshire and The Humber</b>	17%	13%
<b>North West</b>	16%	16%
<b>London</b>	0%	0%

**3.5** Looking at previous trends in delivery of affordable housing starts on site, in 2011-12, delivery was affected by the transition from the National Affordable Housing Programme 2008-11 to the AHP 2011-15 and the closure of the Local Authority New Build and Kickstart Housing Delivery programmes to new commitments in March 2011. The AHP 2011-15 commenced delivery of housing starts on site in the second half of 2011-12, increased delivery in both 2012-13 and 2013-14 and reduced delivery in 2014-15 which reflects the closure of the programme in March 2015. The Get Britain Building programme delivered the majority of its affordable housing starts on site in 2012-13, the first year of the programme. In 2013-14, four new programmes<sup>18</sup> commenced delivery of starts on site and increased delivery in 2014-15. The slow down of starts since 2014-15 may have been influenced by changes in rent policy. Decisions on welfare reform may have also affected the delivery of supported housing. Although there is now an upward trajectory of starts, any future decisions on rents are likely to have ongoing influence on the delivery of new affordable housing. This upward trajectory has continued through 2016-17, consistent with the start of previous programmes.

**3.6** The number of market starts on site decreased by 0.2 per cent to 11,674 compared to 11,693 started in 2015-16. The Single Land Programme produced the majority of these at 6,842 or 59 per cent, an increase of 775 or 13 per cent compared to 6,067 started in 2015-16. The decrease in overall market starts can be attributed to the Build to Rent programme which is now closed to new applications and, at 4 per cent, delivered 414 market starts compared to 2,878 in 2015-16, a decrease of 86 per cent. This was offset by increased delivery from the Builders Finance Fund and THBF – STF which, combined, delivered 4,418 market starts or 38 per cent of 2016-17 market starts.

<sup>16</sup> See Annex 2 for the definition of operating area.

<sup>17</sup> Note that proportions do not sum to 100 per cent due to rounding.

<sup>18</sup> Programmes which commenced delivery in 2013-14 include Affordable Homes Guarantees Programme, the Department of Health funded Care and Support Specialised Housing Fund, Empty Homes Round Two and Right to Buy Replacement.

**3.11** 8,141 market homes completed, an increase of 3 per cent on the 7,913 that completed in 2015-16. This increase is despite a drop in completions from the Get Britain Building Programme which is in the closing stages of the programme and delivered 585 market completions compared to 2,019 in 2015-16, a drop of 1,434 or 71 per cent. This was offset by increased completions from all other programmes delivering market housing.

**4.3** In a small number of cases, HCA funding to an affordable housing provider may be to support a person or family to be housed in a local authority that is different to the one in which they currently reside. The local authority presentations in Tables 2a to 2c are based on the local authority district in which the house is located. These tables also identify the HCA operating area in which each local authority is located. A map showing the operating area boundaries is available at Annex 2.

**4.4** We can provide programme level statistics for specified local authority areas in response to requests made to [housing.statistics@hca.gsi.gov.uk](mailto:housing.statistics@hca.gsi.gov.uk) marked for the attention of Mike Shone.

## 5. Revisions

### Revisions policy

**5.1** The HCA has adopted the revisions policy developed by DCLG<sup>21</sup>. This policy covers two types of revisions.

### Scheduled revisions

**5.2** These statistics are drawn from funding and project administration systems and therefore updated information can be provided by funding recipients and developers after the official statistics have been extracted and compiled from these systems. This is particularly the case during the financial year and figures for the first six months of the year, as reported in the November/December release, are subject to scheduled revision in the release of financial year data in June. It is also possible for revisions to be made for earlier periods, although procedures are in place to minimise the scale of these.

**5.3** As notified in our release of official statistics published on 11 June 2013, we will make scheduled revisions once a year in June. These revisions will cover the first six months of the full year being reported together with revisions for the previous two financial years. Data for earlier years will be regarded as final and there will be no further changes.

### Non-scheduled revisions

**5.4** If a substantial error occurs as a result of the production process, the statistical release and accompanying tables will be updated with a correction notice as soon as is practical.

**5.5** If, as a result of new information, there are significant changes to the figures in years outside of the scheduled revisions period, that information will be revised in the May/June release together with scheduled revisions.

## 6. Definitions

**Affordable Housing** is the sum of Affordable Rent, Social Rent, Intermediate Rent and Affordable Home Ownership (Shared Ownership and Rent to Buy). Affordable homes are defined in line with the National Planning Policy Framework<sup>22</sup>, published 27 March 2012, as housing units (or traveller pitches and bed spaces when describing a shared dwelling such as a hostel) provided to specified eligible households whose needs are not met by the market. Eligibility may be determined with regard to local authority allocations policies, local incomes and local house prices depending on the type of affordable housing. Affordable housing should include provisions to remain at an affordable price for future eligible households or for the subsidy to be recycled for alternative affordable housing provision. The term 'affordable housing' is equivalent to 'social housing' as defined in Section 68 of the Housing and Regeneration Act 2008<sup>23</sup>.

**Affordable rented housing** is a form of social housing, introduced in 2011. It may only be delivered with grant through the AHP 2011-15 and other associated and subsequent programmes or without grant by local authority and other providers, where a contract or confirmation of the ability to charge an Affordable Rent is in place. Affordable rented homes are let by local authorities or private registered providers of social housing to households who are eligible for social rented housing. Affordable Rent is subject to rent controls that require a rent of up to 80 per cent of the local market rent (including service charges, where applicable).

**Social rented housing** is rented housing owned and managed by local authorities and private registered providers, for which target rents are determined through the national rent regime. It may also include rented housing managed by other persons and provided under equivalent rental arrangements to the above.

**Intermediate affordable housing** is housing at prices and rents above those of Social Rent but below market price or rents, and which meet the criteria as set out in the definition for affordable housing. These can include Shared Ownership, equity loan products, Rent to Buy and Intermediate Rent. Intermediate rented housing was eligible for funding under the now closed NAHP.

Under an **equity loan scheme** for affordable housing, the majority of the cost (usually at least 70 per cent) is funded by the purchaser through a mortgage and savings (deposit). The remaining cost of the home is paid for by the government and the house builder through an equity loan. The property title is held by the home owner who can therefore sell their home at any time and upon sale should provide the government and the house builder the value of the same equity share of the property when it is sold. In the historical series covered by this release, equity loan was available under FirstBuy, Kickstart and the NAHP (HomeBuy Direct). There are a small number of equity loan cases in the current series.

As set out in the latest Affordable Housing Supply release published by DCLG<sup>24</sup>, **FirstBuy** which was available prior to April 2013 is considered affordable housing.

<sup>23</sup> [http://www.legislation.gov.uk/ukpga/2008/17/pdfs/ukpga\\_20080017\\_en.pdf](http://www.legislation.gov.uk/ukpga/2008/17/pdfs/ukpga_20080017_en.pdf)

<sup>24</sup> <https://www.gov.uk/government/collections/affordable-housing-supply>

Under a **Shared Ownership scheme** for affordable housing, the purchaser pays for an initial share of between 25 per cent and 75 per cent of the home's value with the option to increase their ownership if they later choose and can afford to do so. The registered provider owns the remaining share and rent is paid on the landlord's share. The rent is up to 3 per cent of the share's value. Shared ownership properties are always leasehold homes.

Under the **Rent to Buy scheme** for affordable housing, homes are let at an Intermediate Rent to tenants who plan to buy in the future but need a period of lower rents to help them to save for a deposit. After an initial rental period (at least the first five years of the life of the property) the tenant has the option to buy outright the home they are living in. Grant funded Intermediate Rent has to be set at no more than 80 per cent of the market rate and is not subject to rent reduction.

**Market housing** is private housing (or bed spaces) for rent or for sale where the rental value or market price is set mainly in the open market.

**Acquisitions (non-new build)** are additions to affordable or market housing supply that take place without building a new property. This can include the purchase of existing properties for use as affordable or market housing. It may also include empty properties brought back into use. These will normally be long term empty properties where rehabilitation works are required and which would not otherwise come back into use without intervention. Conversions of existing affordable or market properties are only included where there is substantial re-improvement works carried out to the fabric of the building (for example the conversion of bedsits to self-contained apartments). Repairs or simple refurbishment of properties are not included.

**Housing starts on site** are reported when the provider/developer and builder have entered into the house building contract, the building contractor has taken possession of the site and the start on site works have commenced. Starts on site are not applicable for Mortgage Rescue or for equity loan products delivered under FirstBuy.

**Housing completions** are reported when the units are fit for occupation or, in the case of Mortgage Rescue and equity loan products delivered under FirstBuy, the Kickstart Housing Delivery Programme, the AHP 2011-15 and the National Affordable Housing Programme, at the point of completion of the purchase.

**Private registered providers**, under the terms of the 2008 Housing and Regeneration Act<sup>25</sup>, are organisations which provide social housing, either in a for-profit or not-for-profit capacity, and who are registered on the Statutory Register of Providers of Social Housing maintained by the HCA. Most private registered providers are housing associations. The term excludes local authorities, who also provide social housing. Any private provider wishing to deliver Affordable Rent homes, who has not contracted with the HCA through a Grant Agreement, must contract with the HCA through a Short Form Agreement to deliver Affordable Rent without grant. The definition of private registered providers is not affected by the Office for National Statistics' recent decision to classify them to the public sector for National Accounts and statistical purposes.

## 7. Data sources and quality

- 7.1** Data for the Affordable Homes Guarantees, AHP, AHP 2015-18, Care and Support Specialised Housing, Empty Homes, Empty Homes Round Two, FirstBuy, Homelessness Change, Homelessness Change 2015-18, the Kickstart Housing Delivery Programme (HomeBuy Direct and National Affordable Housing Programme), the Local Authority New Build Programme, Mortgage Rescue, the National Affordable Housing Programme, Platform for Life, Right to Buy Replacement, Short Form Agreements, SOAHP 2016-21 and Traveller Pitch Funding have been produced using our Investment Management System (IMS), which contains information provided by investment partners in accordance with monitoring requirements for the payment of grant.
- 7.2** Data for the Accelerated Land Disposal, Build to Rent, Builders Finance Fund, Economic Assets, Get Britain Building, Kickstart Housing Delivery (Investment Support), Property and Regeneration, Single Land and THBF – STF programmes have been produced using our Project Control System, which is maintained by our own staff based on the best information currently available.
- 7.3** The levels of affordable housing starts on site and completions recorded in the first half of the year reflect the historical annual delivery profile of the programmes. In 2009-10 and 2010-11 less than 28 per cent of starts on site and less than 38 per cent of completions were delivered in the first half of the year. HCA data is dependent on the submission of grant claims by providers and historically the majority have been submitted in the second half of the year. In 2011-12 delivery was lower with 4 per cent of starts on site and 28 per cent of completions delivered in the first half of the year. The low percentage of starts on site in 2011-12 was atypical because the distribution of starts on site and completions was impacted by the closure of the National Affordable Housing Programme, the Local Authority New Build Programme and the Kickstart Housing Delivery Programme to new commitments in March 2011. The AHP 2011-15 commenced delivery of housing starts on site in the second half of 2011-12. In 2012-13, 13 per cent of starts on site and 35 per cent of completions were delivered in the first half of the year, reflecting an increase in delivery of the AHP 2011-15. The increase in starts on site in the first half of the year continued in 2013-14 and 2014-15 with 30 per cent and 36 per cent respectively delivered in the first half of the year. Thirty per cent of completions were delivered in the first half of 2013-14 and 26 per cent in the first half of 2014-15. In 2015-16 35 per cent of starts on site and 37 per cent of completions were delivered in the first half of the year. This pattern continued in 2016-17 with 34 per cent of starts and 38 per cent of completions being delivered in the first half of the year.

## 8. Related statistics

### Affordable housing starts on site and completions funded by the HCA and the GLA

- 8.1** Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that the HCA no longer publishes affordable housing starts on site and completions for London, except for delivery in London under the Builders Finance Fund and Get Britain Building programmes which are administered by the HCA on behalf of the GLA. Responsibility for publication of other London delivery has been taken over by the GLA. In addition to its annual release, DCLG combines half-year data from the HCA

and the GLA to publish six monthly affordable housing starts on site and completions delivered nationally under the affordable housing programmes of the HCA and GLA.

- 8.2** The combined statistics published by DCLG are available from the DCLG website<sup>26</sup> and housing statistics published by the GLA are available from the GLA website<sup>27</sup>.
- 8.3** Delivery of affordable homes forms part of the DCLG business plan. The HCA is responsible for the administration of the programmes that deliver affordable housing (as described in section 2) and report on progress in their annual report<sup>28</sup>.

### **Affordable housing supply**

- 8.4** The annual Affordable Housing Supply release published by DCLG (see paragraph 2.2), includes delivery of affordable housing, but not market housing. Starts information is only currently available from data provided by the HCA and GLA, and is included for the first time in the November 2016 release. Data on starts are not currently collected from local authorities; therefore starts funded by local authorities or reported through planning agreements may be excluded. Delivery through the HCA (and GLA) accounts for the majority of Affordable Housing Supply, but the scope of the statistics reported is wider. It also includes delivery through other HCA and GLA programmes not reported here (such as Social HomeBuy and Right to Acquire) as well as affordable housing not funded by the HCA and GLA programmes that is reported in local authority returns to the Department. The DCLG publication provides less detail about the individual HCA programmes and focuses more on the properties of the units delivered, such as tenure and whether they are new build or acquisitions. The 'Data sources' section of the DCLG release provides more information about the coverage of the release<sup>26</sup>.

### **Help to Buy**

- 8.5** The Help to Buy (Equity Loan scheme) release published by DCLG details the number of home purchases and the value of equity loans under the Government's Help to Buy: Equity Loan scheme. The HCA is responsible for all Help to Buy (Equity Loan scheme) delivery including London. The number of home purchases delivered through the HCA is published by DCLG together with information about the type and price of properties purchased, purchaser deposits and applicant incomes<sup>29</sup>.

### Pre-release access

**9.1** Details of officials who receive pre-release access to the release up to 24 hours before publication are available from the housing statistics page on the HCA section of GOV.UK<sup>30</sup>.

### A brief history of the HCA

**9.2** The HCA was created on 1 December 2008 by bringing together the regeneration body English Partnerships (including the Property and Regeneration programme), the investment arm of the Housing Corporation (including the National Affordable Housing Programme), the Academy for Sustainable Communities and a number of housing and regeneration programmes from the DCLG. In October 2011, the HCA took responsibility for the land and property assets of eight of England's nine Regional Development Agencies, ahead of their operational closure in March 2012. On 1 April 2012, the HCA's former London operating area transferred to the GLA and, as a result of the Localism Act which came into force on 15 November 2011, the HCA became the Social Housing Regulator.

### United Kingdom Statistics Authority

**9.3** The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

### Future publication dates

**9.4** Our official statistics for the six month period 1 April to 30 September 2017 will be published in November/December 2017.

Intermediate Rent may not be delivered by the AHP 2011-15 unless it is through Mortgage Rescue or pre-existing commitments from the National Affordable Housing Programme.
