Serious Incident

Safety Recommendation 2018-005

It is recommended that the Civil Aviation Authority of the Czech Republic review Van Air's operational processes, training and operator's guidance to ensure that they are effectively compliant with the applicable regulations for commercial air transport operations.

Date Safety Recommendation made:

1 March 2018

LATEST RESPONSE

Response received:

21 March 2018

The Civil Aviation Authority of the Czech Republic has overseen several activities resulting from this serious incident. Specific actions included:

- an extraordinary inspection of VAN AIR on 28 and 29 June 2017, and a follow-up inspection on 25 and 26 October
- an evaluation and subsequent closure of all items of the VAN AIR's corrective action plan
- adjustment of crosswind limits in VAN AIR's Operations Manual
- additional training of VAN AIR's flight crew relating to crosswind operations and threat and error management.

These actions were completed by 20 April 2018.

AAIB Assessment – Adequate – Closed
