## **Schedule Reasons for Refusal**

The application is refused on the basis that:

- we do not consider that the applicant has applied for the correct facility type or types; the application included proposals for an inert landfill but the proposed waste types and method of operation would not comply with the waste acceptance criteria for this type of facility and we are required to refuse the application in accordance with paragraph 13 of schedule 5 of the Environmental Permitting (England & Wales) Regulations 2016 and
- we are not satisfied that there will not be significant pollution of the environment or that there will be no likely significant effect on protected sites or species.
