Licence Annex B: Provisions relating to licensed actions on or around Special Areas of Conservation (SACs), Special Protection Areas (SPAs), Sites of Special Scientific Interest (SSSIs), and/or Ramsar sites within the county of Somerset

SSSI name	European	Licence condition
	Designated Site name	
	(where	
	applicable)	
Aller Hill		All vehicles must be restricted to existing tracks. Limit location of
		traps to existing sett footprint or improved/ semi-improved/scrub
		grassland areas.
Aller and		All vehicles must be restricted to existing tracks. Limit location of
Beer Woods		traps to existing sett footprint
Asham	Mendip	All vehicles must be restricted to existing tracks. Limit location of
Wood	Woodlands SAC	traps to existing sett footprint
Axbridge Hill		All vehicles must be restricted to existing established tracks. Limit
and Fry's Hill		location of traps to existing sett footprint.
Babcary		All vehicles must be restricted to existing tracks. Limit location of
Meadows		traps to existing sett footprint. Delay access until after hay cut, mid- July.
Barle Valley	Exmoor &	Avoid shooting, trapping and vehicle use in woodland areas. No
	Quantock	licensed activities from 1st March to 31st July to avoid bird breeding
	Oakwoods	season. All vehicles must be restricted to existing surfaced tracks.
	SAC	Limit location of traps to existing sett footprint. No use of any cage
		trap within 100m of any watercourse and avoid placing any cage trap
		in any marshy, reed-bed, riparian or other type of wet habitat. Do
		not dig in any cage traps for one hour either side (i.e. 2 hours) of
		sunset and sunrise [Note. the setting open of traps to catch during
		these periods is permitted]. Do not use any fish-based bait.
		Activities conducted under this licence must comply with legal obligations described in Note Z.
		The licensee must assist Natural England with the gathering of
		information on fox control taking place on, and in the vicinity of, this
		SSSI (see Notes A and B).
Barrington		All vehicles must be restricted to existing tracks. Limit location of
Hill		traps to existing sett footprint. Delay access until after hay cut, mid-
Meadows		July.
Ben Knowle		No additional conditions imposed
Berrow		All vehicles must be restricted to existing tracks. Exclude the littoral
Dunes		sediment and supralittoral sediment and shingle zones. Limit
		location of traps to existing sett footprint. No digging in traps within
		the salt marsh. Any decaying wood located within the sett footprint
		is to be left in situ if possible. If decaying wood must be moved then
		it should be moved no further than is necessary.
Black Down		All vehicles must be restricted to existing tracks. Limit location of
and		traps to existing sett footprint
Sampford		
Commons		
Blue Anchor		No additional conditions imposed
to Lilstock		
Coast		

Bridgwater Severn Estuary SAC, SPA & Ramsar Except for vehicle use on existing roads and tracks, during the period from 1st September to 31st March, no licensed activities within 200 metres of any intertidal, saltmarsh, reed-bed or grazing marsh habitats. Wurt Pit and Devil's Punchbowl		No removal of minerals from site and avoid excessive disturbance when digging in traps. Limit location of traps to existing sett footprint or areas of scrub

NOTES TO ANNEX B

General note on interpretation:

Protected sites that are listed above are not necessarily part of any active operations. Active operations can and will only occur on protected sites where landowner/occupier permission has been granted.

Within the licence conditions, use of the word 'avoid' denotes a prohibition, i.e. it indicates that an area must be excluded from relevant activities or that activities must not be undertaken during the time period stated or in the manner described. Similarly, the word 'restrict' means that activities must be confined to the areas or time periods stated.

For further details on each protected site and its notified features of special interest and/or European Site qualifying features please enter the site name into the following link: https://designatedsites.naturalengland.org.uk/SiteSearch.aspx.

Individual notes:

Note A: Natural England will inform the licensee from time to time of the information it requires. This is likely to focus on whether fox control is routinely undertaken on the relevant site and/or on areas of participating land within a few kilometres of the site. The licensee is expected to use reasonable endeavours to assist Natural England with the gathering of this information.

Note B: Natural England may form the judgment that measures should be introduced to secure the

protection of species associated with this site, such as fox control, anti-predator fencing, habitat management, or buffer zones in which badger control is not undertaken. Such measures may be secured through cooperation between licensees, landowners, occupiers, and/or public bodies. If it considers it necessary to do so, Natural England may: exercise its powers under sections 28J-K of the Wildlife and Countryside Act 1981 or regulation 20 of the Conservation of Habitats and Species Regulations 2017; and/or revoke and re-issue this licence with revised terms (provided that such terms will be reasonable and proportionate in all of the circumstances).

Note W: European protected species are listed in Schedule 2 (animals) and Schedule 5 (plants) of the Conservation of Habitats and Species Regulations 2017. Nationally protected species are listed in Schedule 5 (animals) and Schedule 8 (plants) of the Wildlife and Countryside Act 1981 (as amended). Under these laws (regulations 43 and 47 of the 2017 Regulations and sections 9 and 13 of the 1981 Act), it can be an offence to:

- deliberately capture, injure or kill any wild animal of a European protected species;
- intentionally kill, injure or take a nationally protected wild animal;
- deliberately disturb wild animals of any European protected species;
- intentionally or recklessly damage or destroy any structure or place which a nationally protected animal uses for shelter or protection, disturb such an animal while it is occupying such a structure or place, or obstruct access to any such structure or place;
- damage or destroy a breeding site or resting place of any wild animal of a European protected species;
- deliberately take or destroy the eggs of any wild animal of a European protected species;
- deliberately pick, collect, cut, uproot or destroy a wild plant of a European protected species;
- intentionally pick, uproot or destroy any nationally protected wild plant.

Great Crested Newt, Otter, Dormouse, and Sand Lizard are European and nationally protected species.

Note Y: All birds, their eggs and nests (while in use or under construction) are protected under the Wildlife and Countryside Act 1981. This licence does not allow you to take or destroy such nests. Birds species listed under Schedule 1 of that Act have additional legal protection so care must be taken to avoid their disturbance during the breeding season.

Note Z: All bats and their roosts (even when not occupied by bats) are protected by the Wildlife & Countryside Act 1981 and by The Conservation of Habitats and Species Regulations 2017. This licence does not allow you to enter or obstruct any bat roost, nor to disturb any bat whilst it is occupying a roost. Care must be taken to avoid sustained human presence near, or artificial illumination of cracks and cavities in trees and man-made structures, and of any mounted boxes.
