**Strategic Export Controls: Country  
Pivot Report**

**1st January 2010 - 31st December  
2010**

**OCTOBER 2019**

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2010 and 31st December 2010. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for Goods covered by Council Regulation 1236/2005** (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

## Reporting

### Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

### Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

#### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

#### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	13245	12950	295	0	10353	62	15741	94	16 days
- Permanent Standard	11084	10799	285	0	8793	62	13403	94	17 days
- Temporary Standard	1109	1105	4	0	821	62	1266	96	16 days
- Transhipment	13	12	1	0	10	48	19	90	21 days
- Incorporation	1032	1027	5	0	728	67	1047	96	15 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	7	7	0	0	1	14	6	86	39 days
SITCLs	105	101	4	0	107	52	177	86	18 days
OIELs	270	243	27	0	143	35	228	56	46 days
- Standard	229	203	26	0	106	31	175	51	59 days
- Dealer-to-dealer	18	18	0	0	18	72	24	96	7 days
- Cryptographic	16	15	1	0	15	58	23	88	15 days
- Media	0	0	0	0	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	7	7	0	0	4	50	6	75	28 days
Global Project Licences	0	0	0	0	n/a	n/a	n/a	n/a	n/a
OITCLs	17	14	3	0	15	39	24	63	39 days

### Table notes:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	183	0	3
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	0	0	0
EU GEA 003 (EU003) - export after repair/replacement	0	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	0	0	0
EU GEA 005 (EU005) - telecommunications	0	0	0
EU GEA 006 (EU006) - chemicals	0	0	0
Chemicals	9	0	1
Cryptographic Development	22	0	1
Export After Exhibition: Dual-Use Items	8	0	1
Export After Repair/Replacement Under Warranty: Dual-Use Items	44	0	2
Export For Repair/Replacement Under Warranty: Dual-Use Items	30	0	2
Dual-Use Items: Hong Kong Special Administrative Region	5	0	0
Open General Export Licence (International Non-Proliferation Regime Decontrols: Dual-Use Items)	0	0	0
Low Value Shipments	13	0	1
OIL and GAS Exploration: Dual-Use Items	22	0	0
Technology for Dual-Use Items	28	0	2
Turkey	9	0	0
X	8	0	0
Military and Dual Use Goods: UK Forces deployed in embargoed destinations	4	0	0

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Military and Dual-Use Goods: UK Forces deployed in non-embargoed destinations	19	0	0
Exports of non-lethal military and Dual-Use Goods: To UK Diplomatic Missions or Consular Posts	17	0	0
Access Overseas to Software and Technology for Military Goods: Individual Use Only	64	0	1
Export After Exhibition or Demonstration: Military Goods	45	0	1
Export After Repair/replacement Under Warranty: Military Goods	80	1	0
Export For Repair/Replacement Under Warranty: Military Goods	71	0	1
Exports or transfers in Support of UK Government Defence Contracts	39	0	1
OGEL (Certified Companies)	0	0	0
OGEL (Exports under the US-UK Defence Trade Co-operation Treaty)	0	0	0
OGEL (International Non-proliferation Regime Decontrols: Military Items) (Rv)	0	0	0

## UK Continental Shelf Open Individual Export Licences (OIELs)

UK Continental Shelf OIELs authorises the export of controlled items for use exclusively in offshore installations and associated vessels within the UK sector of the continental shelf.

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries <b>EXCEPT THE FOLLOWING:</b> Continental Shelf: United Kingdom sector
1	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
1	devices for initiating explosives, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of non-military detonators, technology for the use of non-military firing sets
2	non-military detonators
3	neutron generators

# Afghanistan

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	45	£12,073,663
Non-military	4	£180,756
Both Military and Non-military	2	£967,050
Total	51	£13,221,469

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£287,944
ML3	4	£19,533
ML4	5	£1,475,371
ML6	7	£6,781,180

ML10	2	£24,503
ML11	1	£4,924
ML13	17	£3,053,760
ML17	1	£10,000
ML22	3	£138,525
PL5001	1	£3,900
PL5017	6	£21,538
PL5035	7	£252,485

- all-wheel drive vehicles with ballistic protection (2 licences).
- assault rifles (18).
- A assault rifles (30).
- assault rifles (31).
- assault rifles (120).
- ballistic shields.
- body armour (13 licences).
- bomb suits.
- components for all-wheel drive vehicles with ballistic protection (7 licences).
- A components for assault rifles (4 licences).
- components for body armour (12 licences).
- components for explosive ordnance disposal equipment.
- components for military firing sets.
- components for military improvised explosive device disposal equipment (2 licences).
- components for semi-automatic pistols.
- equipment for the use of explosive ordnance disposal equipment.
- equipment for the use of military airfield vehicles.
- general military vehicle components.
- ground vehicle military communications equipment.
- military aircraft ground equipment.
- military cargo vehicles.
- military communications equipment.
- military containers.
- military devices for initiating explosives.
- military engineer vehicles.
- military firing sets.
- military flying helmets.
- military helmets (13 licences).
- military motorcycles.
- mine detection equipment.
- semi-automatic pistols (15).
- A semi-automatic pistols (80).
- A small arms ammunition (4 licences).
- A smoke hand grenades.
- technology for the use of assault rifles.
- technology for the use of unmanned air vehicles (2 licences).
- weapon cleaning equipment (2 licences).
- A weapon sight mounts (2 licences).
- A weapon sights (2 licences).

A - Some or all of which were issued on appeal.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	2	£172,031
5A002	1	£2,025
6A003	1	£6,700

- components for radio controlled improvised explosive device jamming equipment (2 licences).
- equipment employing cryptography.
- imaging cameras.
- radio controlled improvised explosive device jamming equipment.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	1	£42,000
ML4	1	£8,000
ML6	1	£800,000
ML13	1	£97,050
PL8001	1	£20,000

all-wheel drive vehicles with ballistic protection.  
 body armour.  
 civil body armour.  
 military devices for initiating explosives.  
 military helmets.  
 non-military firing sets.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military improvised explosive device jamming equipment, components for test equipment for military improvised explosive device jamming equipment, military improvised explosive device jamming equipment, software for the use of military improvised explosive device jamming equipment, software for the use of test equipment for military improvised explosive device jamming equipment, technology for the use of military improvised explosive device jamming equipment, technology for the use of test equipment for military improvised explosive device jamming equipment, test equipment for military improvised explosive device jamming equipment
2 (Rv)	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft

Rv - Some or all of which have subsequently been revoked.

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	equipment employing cryptography
2	P	bomb suits, components for military improvised explosive device disposal equipment, military communications equipment, military helmets, military improvised explosive device disposal equipment, non-military firing sets

3	P	bomb suits, civil body armour, components for bomb suits, components for civil body armour, components for explosive ordnance disposal equipment, demolition devices, explosive ordnance disposal equipment, improvised explosive device disposal equipment, military devices for initiating explosives, military firing sets, military helmets, mine detection equipment, non-military firing sets

Jordan	0	1	0

#### Rejected

all-wheel drive vehicles with ballistic protection.  
 components for all-wheel drive vehicles with ballistic protection.

#### Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals designated under the UNs 'Consolidated List' under UNSCR 1267 designated individuals. All exports for this destination were approved in accordance with the sanctions in place or for use by the International Security Assistance Force (ISAF)/Diplomatic Missions/United Nations/Recognised NGO.
2. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2160 (2014), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

3	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment
4	P	components for combat aircraft
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
6 (Rv)	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft
7	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators

8	P	components for non-military firing sets, non-military firing sets
9	P	general military aircraft components, general naval vessel components
10	P	components for shotguns, shotguns
11	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
12	P	equipment employing cryptography
13	P	components for military aero-engines, general military aircraft components, general military vehicle components, general naval vessel components
14	P	air guns, components for air guns, gun silencers, weapon sight mounts
15	P	combination rifle-shotguns, components for combination rifle-shotguns, components for shotguns, components for sporting rifles, shotguns, small arms ammunition, sporting rifles, weapon sights
16	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
17	P	components for military transport aircraft, equipment for the production of military transport aircraft, equipment for the use of military transport aircraft, technology for the use of military transport aircraft
18	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
19	P	blank ammunition, inert ammunition, small arms ammunition, training blank ammunition, training inert ammunition, training small arms ammunition
20	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
21	P	components for military aero-engines
22	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
23	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
24	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft

25	P	components for airborne electronic warfare equipment, components for aircraft military communications equipment, components for aircraft radars, components for electronic countermeasures equipment, components for electronic warfare equipment, components for ground based radars, components for ground vehicle military communications equipment, components for military aircraft navigation equipment, components for military communications equipment, components for missile navigation equipment, components for naval communications equipment, components for naval electronic warfare equipment, components for naval radars
26	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
27	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
28	P	components for equipment for the use of test equipment for attack alerting/warning equipment, components for test equipment for attack alerting/warning equipment, equipment for the use of test equipment for attack alerting/warning equipment, software for test equipment for attack alerting/warning equipment, software for the use of test equipment for attack alerting/warning equipment, technology for software for test equipment for attack alerting/warning equipment, technology for test equipment for attack alerting/warning equipment, test equipment for attack alerting/warning equipment
29	P	accessories for airborne targeting equipment, accessories for bombing computers, accessories for film processing equipment, accessories for imaging counter-countermeasures equipment, accessories for imaging countermeasure/counter-countermeasures equipment, accessories for imaging countermeasures equipment, accessories for military cameras, accessories for military image intensifier equipment, accessories for military imaging radar equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video processing equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for optical target acquisition equipment, accessories for optical target designator equipment, accessories for optical target surveillance equipment, accessories for optical target tracking equipment, accessories for sensor data recorders, accessories for sensor integration equipment, accessories for simulators for military training aircraft, accessories for training equipment for military training aircraft, accessories for weapon control systems, airborne electronic warfare equipment, airborne refuelling equipment, airborne targeting equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, bombing computers, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for airborne targeting equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for bombing computers, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for film processing equipment, components for helmet mounted display equipment, components for imaging counter-countermeasures equipment, components for imaging countermeasure/counter-countermeasures equipment, components for imaging

		countermeasures equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military cameras, components for military containers, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military parachutist equipment, components for military photographic equipment, components for military training aircraft, components for military video processing equipment, components for military video recording equipment, components for night vision goggles, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor data recorders, components for sensor integration equipment, components for simulators for military training aircraft, components for training equipment for military training aircraft, components for weapon control systems, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, film processing equipment, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, imaging counter-countermeasures equipment, imaging countermeasures equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military cameras, military containers, military flying helmets, military image intensifier equipment, military imaging radar equipment, military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military parametric technical databases, military photographic equipment, military video processing equipment, military video recording equipment, night vision goggles, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, sensor data recorders, sensor integration equipment, simulators for military training aircraft, software enabling equipment to function as military training aircraft, software for military training aircraft, software for the evaluation of weapon systems, software for the modelling of military operation scenarios, software for the modelling of weapon systems, software for the simulation of military operation scenarios, software for the simulation of weapon systems, software for the use of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft, test models for the development of military training aircraft, training equipment for military training aircraft, weapon control systems
30	P	air guns
31	P	components for military improvised explosive device disposal equipment, military improvised explosive device disposal equipment
32	P	toxins
33	T	cryptographic software, equipment employing cryptography, radio jamming equipment
34	P	software for the simulation of military operation scenarios
35	P	ballistic shields
36	P	components for sporting guns, pistols, sporting guns, weapon sights
37	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles

38	P	components for sporting guns, sporting guns
39	P	toxins
40	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components

Rv - Some or all of which have subsequently been revoked.

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	software for the development of air-to-air missiles, software for the development of anti-armour missiles, software for the development of bombs, software for the production of air-to-air missiles, software for the production of anti-armour missiles, software for the production of bombs, software for the use of air-to-air missiles, software for the use of anti-armour missiles, software for the use of bombs, technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of bombs, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of bombs, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of bombs
2	P	technology for the development of launching/handling/control/support equipment for unmanned air vehicles, technology for the development of unmanned air vehicles

### OITCLs

Source	Issued	Refused	Revoked
Sweden	1	0	0
United States of America	1	0	0

### Issued

components for man portable air defence systems.  
promoting the supply of anti-armour missiles.  
promoting the supply of surface-to-surface missiles.

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Australian Antarctic Territory

### Processing Statistics

Median processing time OIELs	16 days

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	36	£878,313
Non-military	4	£3,803
Total	40	£882,116

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	20	£466,659
ML5	2	£94,076
ML6	8	£73,221
ML7	3	£51,653
ML11	7	£101,086
ML14	2	£1,624
ML15	1	£80,000

ML21	2	£7,110
PL5017	4	£2,885

- assault rifles (4).
- components for armoured fighting vehicles (2 licences).
- components for assault rifles.
- T components for chemical agent detection equipment.
- T components for gun laying equipment.
- T components for military communications equipment.
- T components for NBC detection equipment.
- T components for NBC protective/defensive equipment.
- T components for pistols.
- T components for test equipment for gun laying equipment.
- equipment for the use of military communications equipment.
- T equipment for the use of NBC detection equipment.
- T equipment for the use of weapon day and night sights.
- general military vehicle components (6 licences).
- gun mountings.
- military communications equipment.
- T military communications equipment (2 licences).
- military electronic equipment.
- T military infrared/thermal imaging equipment.
- T military navigation equipment.
- T NBC detection equipment.
- T NBC protective/defensive equipment.
- T NBC protective/defensive equipment.
- semi-automatic pistols (1).
- shotguns (1) (3 licences).
- shotguns (4).
- sniper rifles (1) (3 licences).
- software for the use of equipment for the use of military communications equipment.
- T software for the use of military navigation equipment.
- sporting guns (1).
- sporting rifles (1).
- training equipment for assault rifles.
- T training equipment for NBC detection equipment.
- training equipment for weapon day and night sights.
- weapon day and night sights.
- T weapon night sights.
- weapon sight mounts (2 licences).
- T weapon sight mounts.
- weapon sights (6 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	4	£3,803

- T technology for the development of nuclear fuel reprocessing equipment.
- T technology for the development of nuclear reactor fuel element fabrication equipment.
- T technology for the development of nuclear reactors.
- T technology for the production of nuclear fuel reprocessing equipment.
- T technology for the production of nuclear reactor fuel element fabrication equipment.
- technology for the production of nuclear reactors (3 licences).
- T technology for the production of nuclear reactors.
- T technology for the use of nuclear fuel reprocessing equipment.
- T technology for the use of nuclear reactor fuel element fabrication equipment.
- T technology for the use of nuclear reactors.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	11	£2,919,319
Total	11	£2,919,319

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£866,375
ML7	3	£96,267
ML10	4	£1,074,825
ML11	3	£862,808
ML21	1	£2,110
ML22	3	£8,354
PL5017	3	£8,580

airborne surveillance equipment (2 licences).  
 aircraft military communications equipment (2 licences).  
 components for armoured fighting vehicles.  
 components for equipment for the use of military communications equipment.  
 components for military communications equipment (2 licences).  
 components for NBC filters.  
 defensive systems against NBC agents.  
 equipment for the use of military communications equipment (3 licences).  
 equipment for the use of NBC filters.  
 general military vehicle components.  
 military communications equipment (3 licences).  
 NBC filters.  
 software for the use of equipment for the use of military communications equipment.  
 technology for the use of equipment for the use of military communications equipment.  
 technology for the use of military communications equipment (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

France  
 Kuwait  
 Thailand

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	components for combat aircraft, components for military aero-engines, equipment for the production of combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, technology for the production of combat aircraft, technology for the production of military aero-engines, technology for the use of combat aircraft, technology for the use of equipment for the production of combat aircraft, technology for the use of equipment for the use of combat aircraft, technology for the use of military aero-engines, technology for the use of military aircraft ground equipment
2	P	components for combat aircraft
3	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
4	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
5	P	components for military aero-engines, general military aircraft components, general military vehicle components
6	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
7	T	technology for the development of nuclear fuel reprocessing equipment, technology for the development of nuclear reactor fuel element fabrication equipment, technology for the development of nuclear reactors, technology for the production of nuclear fuel reprocessing equipment, technology for the production of nuclear reactor fuel element fabrication equipment, technology for the production of nuclear reactors, technology for the use of nuclear fuel reprocessing equipment, technology for the use of nuclear reactor fuel element fabrication equipment, technology for the use of nuclear reactors
8	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent

		detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
9	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
10	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
11	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
12	P	ballistic shields
13	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles
14	P	components for combat aircraft

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	9	£36,439,803
Total	9	£36,439,803

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£71,475
1A005	1	£5,500
2B001	1	£715,210
2B201	1	£249,910
5A002	4	£26,464,009
5D002	2	£8,650,000
7A003	1	£25,000
8A001	1	£174,919
8A002	1	£83,781

- T civil body armour [See footnote 1].
- T civil explosive detection/identification equipment.
- T civil NBC detection systems.
- cryptographic software (2 licences).
- equipment employing cryptography (4 licences).
- inertial equipment.
- machine tools.
- software for the use of equipment employing cryptography (2 licences).
- submersible equipment.
- submersible vehicles.

### Refused

	Count
Military	2
Non-military	2
Total	4

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML10	1
ML11	2

airborne electronic warfare equipment.  
 components for military utility helicopters.  
 test equipment for attack alerting/warning equipment.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry
7A105	1
End Use	1

capacitors.  
 global positioning satellite receivers.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,000
Total	1	£1,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,000

sporting guns (1).

### OIELs (excluding Other OIELs)

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	bomb suits, civil body armour, components for bomb suits, components for civil body armour, components for explosive ordnance disposal equipment, demolition devices, explosive ordnance disposal equipment, improvised explosive device disposal equipment, military devices for initiating explosives, military firing sets, military helmets, mine detection equipment, non-military firing sets

### Country Footnotes

- On 20 June 2011 the EU adopted restrictions against Belarus on the supply of arms and related materiel under Council Decision 2011/357/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 588/2011.

## Belgium

Non-military	6	£7,419,776
Total	9	£7,444,240

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£5,852
ML11	1	£14,112
PL5001	1	£4,500

ballistic shields.  
components for assault rifles.  
military communications equipment.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	6	£7,419,776

equipment employing cryptography (6 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography

## Botswana

### Processing Statistics

Median processing time SIELs	22 days
% and number of SIELs completed in 20 working days	50% (6)

air guns (8).  
 air guns (11) (2 licences).  
 aircraft military communications equipment.  
 assault rifles (1).  
 assault rifles (3) (2 licences).  
 biological agent detection equipment.  
 body armour.  
 chaff.  
 chemical agent detection equipment.  
 components for assault rifles (4 licences).  
 components for ballistic test equipment (2 licences).  
 components for biological agent detection equipment.  
 components for body armour.  
 components for chemical agent detection equipment.  
 components for combat aircraft (7 licences).  
 components for combat helicopters (3 licences).  
 components for combat naval vessels (3 licences).  
 components for corvettes (2 licences).  
 components for ejector seats.  
 components for equipment for the operation of military aircraft in confined areas (2 licences).  
 components for frigates (3 licences).  
 components for general purpose machine guns.  
 components for ground vehicle military communications equipment.  
 components for large calibre artillery (5 licences).  
 components for machine guns.  
 components for military combat vehicles.  
 components for military communications equipment (3 licences).  
 components for military helicopters.  
 components for military trailers.  
 components for military training aircraft (15 licences).  
 components for military utility helicopters (6 licences).  
 components for naval navigation equipment (3 licences).  
 components for naval radars.  
 components for semi-automatic pistols (2 licences).  
 components for small arms ammunition (2 licences).  
 components for submachine guns (2 licences).  
 components for submarines.  
 decoying/countermeasure equipment.  
 equipment for the use of assault rifles.  
 equipment for the use of military communications equipment (2 licences).  
 equipment for the use of optical target designator equipment.  
 equipment for the use of surface-to-surface missiles.  
 general military aircraft components (3 licences).  
 general naval vessel components (4 licences).  
 general purpose machine guns (1).  
 grenade launchers.

T

ground vehicle military communications equipment.  
 gun mountings (2 licences).  
 gun silencers (2 licences).  
 launching equipment for munitions.  
 machine guns (1).  
 military communications equipment (6 licences).  
 military helmets (2 licences).  
 military navigation equipment.  
 military utility helicopters.  
 military utility vehicles.  
 naval electrical equipment.  
 semi-automatic pistols (2).  
 semi-automatic pistols (4).  
 small arms ammunition (4 licences).  
 sniper rifles (1).  
 software for the use of military communications equipment (2 licences).  
 sporting rifles (3).  
 sporting rifles (5).  
 submachine guns (3).  
 submachine guns (20).  
 technology for assault rifles.  
 technology for machine guns.  
 technology for the use of assault rifles.  
 technology for the use of chemical agent detection equipment.  
 technology for the use of grenade launchers.  
 technology for the use of military communications equipment (2 licences).  
 technology for the use of semi-automatic pistols.  
 technology for the use of submachine guns.  
 weapon cleaning equipment.  
 weapon sight mounts.  
 weapon sights (2 licences).

- T inertial equipment.
- instrumentation cameras (2 licences).
- lasers (2 licences).
- marine position fixing equipment (7 licences).
- materials containing enriched uranium.
- nickel powders.
- T radio controlled improvised explosive device jamming equipment.
- submersible equipment (2 licences).
- submersible vehicles (4 licences).
- syntactic foam (7 licences).
- toxins (7 licences).
- triggered spark gaps.
- underwater electronic imaging systems.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	29	£1,782,338
Total	29	£1,782,338

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	4	£59,384
ML10	19	£559,099
ML11	6	£1,163,855

- components for combat aircraft (7 licences).
- components for launching equipment for munitions (4 licences).
- components for military surveillance aircraft.
- components for military training aircraft (14 licences).
- military aircraft navigation equipment (6 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Burkina Faso
- Chile
- Colombia
- Dominican Republic
- Ecuador
- India

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	chaff, chaff equipment, command communications control and intelligence equipment, components for chaff equipment, components for command communications control and intelligence equipment, components for corvettes, components for defensive systems against NBC agents, components for electronic warfare equipment, components for fast attack craft, components for frigates, components for heavy machine guns, components for military distress signalling equipment, components for military inflatable craft, components for military navigation equipment, components for naval acoustic equipment, components for naval communications equipment, components for naval engines, components for naval gun mountings, components for naval radars, components for naval sonar equipment, components for semi-automatic pistols, components for surface-to-air missiles, components for surface-to-surface missiles, control equipment for surface-to-air missiles, control equipment for surface-to-surface missiles, defensive systems against NBC agents, electronic warfare equipment, equipment for the use of corvettes, equipment for the use of fast attack craft, equipment for the use of frigates, equipment for the use of naval radars, equipment for the use of surface-to-air missiles, general naval vessel components, handling equipment for surface-to-surface missiles, heavy machine guns, launching equipment for surface-to-air missiles, launching equipment for surface-to-surface missiles, military distress signalling equipment, military inflatable craft, military navigation equipment, naval acoustic equipment, naval communications equipment, naval electrical equipment, naval electronic equipment, naval engines, naval gun mountings, naval radars, naval sonar equipment, NBC filters, semi-automatic pistols, surface-to-air missiles, surface-to-surface missiles, test equipment for military communications equipment, test equipment for naval radars, test equipment for surface-to-air missiles
2	P	general naval vessel components, technology for the use of general naval vessel components
3	P	inertial equipment
4	P	components for military aero-engines, general military aircraft components, general naval vessel components
5	P	components for military aero-engines, software for the use of military aero-engines, unfinished products for military aero-engines
6	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
7	P	components for military aero-engines, general military aircraft components
8	P	general naval vessel components
9	P	software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
10	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
11	P	components for military surveillance aircraft, technology for the development of military surveillance aircraft, technology for the production of military surveillance aircraft, technology for the use of military surveillance aircraft
12	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
13	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components

14	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
15	P	components for submersible equipment, components for submersible vehicles, heading sensors for hydrophone arrays, high energy capacitors, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
16	P	air guns
17	P	components for launching/handling/control equipment for air-to-air missiles, components for launching/handling/control equipment for anti-ship missiles

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	16	£270,924
Non-military	2	£885
Total	18	£271,809

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	6	£207,140
ML5	1	£15,000
ML7	1	£9,100
ML11	8	£39,633
ML22	3	£20
PL5017	2	£30

9E001	1	£5,000
9E002	1	£0
PL8001	2	£37,600

animal pathogens (3 licences).  
civil body armour (2 licences).  
components for improvised explosive device disposal equipment.  
components for nuclear reactors.  
T hydrophones.  
improvised explosive device disposal equipment (2 licences).  
mass spectrometers (2 licences).  
natural uranium.  
products containing natural uranium.

- products containing thorium (2 licences).
- propellants.
- T radio controlled improvised explosive device jamming equipment.
- T submersible equipment.
- technology for the development of nuclear reactors.
- technology for the development of spacecraft.
- technology for the development/production/use of nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation.
- technology for the production of nuclear reactors.
- technology for the production of spacecraft.
- technology for the use of nuclear reactors (2 licences).
- technology for the use of spacecraft.
- toxins (12 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£508,000
ML7	2	£253,740
ML11	1	£400
ML21	2	£1,000
PL5017	2	£9,700

- T biological agent detection equipment (2 licences).
- T chemical agent detection equipment (2 licences).
- T civil explosive detection/identification equipment (2 licences).
- T civil NBC detection systems (2 licences).
- T components for chemical agent detection equipment (2 licences).
- T equipment for the use of chemical agent detection equipment (2 licences).
- T software for the use of chemical agent detection equipment (2 licences).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	22	£6,242,326
Total	22	£6,242,326

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£428,500
ML5	1	£1,960,000
ML6	3	£47,426
ML10	9	£565,571
ML11	5	£2,912,455
ML16	1	£288,306
ML17	1	£790

ML22	4	£15,196
PL5017	1	£24,081

components for aircraft military communications equipment.  
 components for combat helicopters (2 licences).  
 components for military aero-engines (3 licences).  
 components for military combat vehicles (2 licences).  
 components for military communications equipment (2 licences).  
 components for military electronic equipment.  
 components for military transport aircraft.  
 components for military utility helicopters (3 licences).  
 components for rangefinding equipment.  
 components for surface-to-surface missiles (2 licences).  
 electronic warfare equipment.  
 equipment for the use of military communications equipment.  
 ground vehicle military communications equipment.  
 military communications equipment (2 licences).  
 military electronic equipment.  
 military robotic equipment.  
 technology for military communications equipment.  
 technology for the production of military aero-engines.  
 technology for the use of military aircraft navigation equipment.  
 technology for the use of military communications equipment.  
 unfinished products for military aero-engines.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 Australia  
 China  
 Denmark  
 France  
 India  
 Italy  
 Japan  
 Kuwait  
 Portugal  
 Saudi Arabia  
 Singapore  
 Taiwan  
 United Arab Emirates  
 United States of America

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	air guns, rifles, semi-automatic pistols, shotguns, sporting pistols
2	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment
3	P	components for combat aircraft
4	P	components for submarines, technology for the use of submarines
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for

		test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
6 (Rv)	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft
7	P	components for fire control equipment, components for military electronic equipment, components for naval navigation equipment, military electronic equipment
8	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
9	P	technology for the development of launching/handling/control/support equipment for unmanned air vehicles, technology for the development of unmanned air vehicles
10	P	general military aircraft components, general naval vessel components
11	P	components for shotguns, shotguns
12	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
13	P	components for military aero-engines, general military aircraft components, general military vehicle components, general naval vessel components
14	P	technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of anti-ship missiles, technology for the development of combat aircraft, technology for the development of launching equipment for air-to-air missiles, technology for the development of launching equipment for anti-armour missiles, technology for the development of launching equipment for anti-ship missiles, technology for the development of launching equipment for surface-to-air missiles, technology for the development of launching equipment for surface-to-surface missiles, technology for the development of military infrared/thermal imaging equipment, technology for the development of military navigation equipment, technology for the development of military parametric technical databases, technology for the development of optical target acquisition

		equipment, technology for the development of special support components for optical sensor, technology for the development of submarines, technology for the development of superconductive electromagnets, technology for the development of surface-to-air missiles, technology for the development of surface-to-surface missiles, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of anti-ship missiles, technology for the production of combat aircraft, technology for the production of launching equipment for air-to-air missiles, technology for the production of launching equipment for anti-armour missiles, technology for the production of launching equipment for anti-ship missiles, technology for the production of launching equipment for surface-to-air missiles, technology for the production of launching equipment for surface-to-surface missiles, technology for the production of military infrared/thermal imaging equipment, technology for the production of military navigation equipment, technology for the production of military parametric technical databases, technology for the production of optical target acquisition equipment, technology for the production of special support components for optical sensor, technology for the production of submarines, technology for the production of superconductive electromagnets, technology for the production of surface-to-air missiles, technology for the production of surface-to-surface missiles, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of anti-ship missiles, technology for the use of combat aircraft, technology for the use of equipment for the use of air-to-air missiles, technology for the use of launching equipment for air-to-air missiles, technology for the use of launching equipment for anti-armour missiles, technology for the use of launching equipment for anti-ship missiles, technology for the use of launching equipment for surface-to-air missiles, technology for the use of launching equipment for surface-to-surface missiles, technology for the use of military infrared/thermal imaging equipment, technology for the use of military navigation equipment, technology for the use of military parametric technical databases, technology for the use of optical target acquisition equipment, technology for the use of special support components for optical sensor, technology for the use of submarines, technology for the use of superconductive electromagnets, technology for the use of surface-to-air missiles, technology for the use of surface-to-surface missiles
15	P	air guns, components for air guns, gun silencers, weapon sight mounts
16	P	combination rifle-shotguns, components for combination rifle-shotguns, components for shotguns, components for sporting rifles, shotguns, small arms ammunition, sporting rifles, weapon sights
17	P	components for military aero-engines, general military aircraft components
18	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
19	P	components for military transport aircraft, equipment for the production of military transport aircraft, equipment for the use of military transport aircraft, technology for the use of military transport aircraft
20	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
21	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment

22	P	components for flash suppressers, components for gun mountings, components for gun silencers, components for shotguns, components for sporting rifles, equipment for the use of sporting rifles, flash suppressers, gun mountings, gun silencers, shotguns, sporting rifles, technology for the use of equipment for the use of sporting rifles, technology for the use of flash suppressers, technology for the use of gun mountings, technology for the use of gun silencers, technology for the use of shotguns, technology for the use of sporting rifles, technology for the use of weapon sights, weapon sights
23	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
24	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
25	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
26	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
27	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
28	P	components for equipment for the use of test equipment for attack alerting/warning equipment, components for test equipment for attack alerting/warning equipment, equipment for the use of test equipment for attack alerting/warning equipment, software for test equipment for attack alerting/warning equipment, software for the use of test equipment for attack alerting/warning equipment, technology for software for test equipment for attack alerting/warning equipment, technology for test equipment for attack alerting/warning equipment, test equipment for attack alerting/warning equipment
29	P	accessories for airborne targeting equipment, accessories for bombing computers, accessories for film processing equipment, accessories for imaging counter-countermeasures equipment, accessories for imaging countermeasure/counter-countermeasures equipment, accessories for imaging countermeasures equipment, accessories for military cameras, accessories for military image intensifier equipment, accessories for military imaging radar equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video processing equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for optical target acquisition equipment, accessories for

		<p>optical target designator equipment, accessories for optical target surveillance equipment, accessories for optical target tracking equipment, accessories for sensor data recorders, accessories for sensor integration equipment, accessories for simulators for military training aircraft, accessories for training equipment for military training aircraft, accessories for weapon control systems, airborne electronic warfare equipment, airborne refuelling equipment, airborne targeting equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, bombing computers, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for airborne targeting equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for bombing computers, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for film processing equipment, components for helmet mounted display equipment, components for imaging counter-countermeasures equipment, components for imaging countermeasure/counter-countermeasures equipment, components for imaging countermeasures equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military cameras, components for military containers, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military parachutist equipment, components for military photographic equipment, components for military training aircraft, components for military video processing equipment, components for military video recording equipment, components for night vision goggles, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor data recorders, components for sensor integration equipment, components for simulators for military training aircraft, components for training equipment for military training aircraft, components for weapon control systems, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, film processing equipment, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, imaging counter-countermeasures equipment, imaging countermeasure/counter-countermeasures equipment, imaging countermeasures equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military cameras, military containers, military flying helmets, military image intensifier equipment, military imaging radar equipment, military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military parametric technical databases, military photographic equipment, military video processing equipment, military video recording equipment, night vision goggles, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, sensor data recorders, sensor integration equipment, simulators for military training aircraft, software enabling equipment to function as military training aircraft, software for military training aircraft, software for the evaluation of weapon systems, software for the modelling of military operation scenarios, software for the modelling of weapon systems, software for the simulation of military operation scenarios, software for the simulation of weapon systems, software for the use of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft, test models for the development of military training aircraft, training equipment for military training aircraft, weapon control systems</p>

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,940
Non-military	3	£24,856,863
Total	4	£24,858,803

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,940

shotguns (1).

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	2	£24,810,363
7A003	1	£46,500

heading sensors for hydrophone arrays.  
inertial equipment.  
marine position fixing equipment.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£1,266,105

Both Military and Non-military	1	£11,058
Total	2	£1,277,163

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
7A002	1	£1,266,000
7E101	1	£105

T            gyroscopes.  
T            technology for the use of gyroscopes.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML8	1	£9,000
PL8001	1	£2,058

              devices for initiating explosives.  
              explosives.

**OIELs (excluding Other OIELs)**

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets

**OITCLs**

Source	Issued	Refused	Revoked
--------	--------	---------	---------

Angola, Austria, Botswana, Bulgaria, Cameroon, Chad, Denmark, Equatorial Guinea, France, Gabon, Germany, Ghana, Greece, Hungary, Israel, Italy, Kenya, Mauritania, Morocco, Mozambique, Namibia, Netherlands, Nigeria, Norway, Poland, Portugal, Republic of Congo, Republic of Guinea, Romania, Senegal, Slovenia, South Africa, Spain, Switzerland, Tanzania, Turkey, Uganda, Ukraine, United States of America	0	1	0
Jordan	1	0	0
South Africa	0	1	0

### Issued

all-wheel drive vehicles with ballistic protection.  
components for all-wheel drive vehicles with ballistic protection.

### Rejected

bomb suits.  
devices for initiating explosives.  
linear cutting explosive charges.  
military helmets.  
non-military firing sets.  
oxidisers.

## Channel Islands

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	60	£273,603
Non-military	2	£589,185
Both Military and Non-military	1	£200,000
Total	63	£1,062,788

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	41	£240,770
ML3	17	£28,788
ML4	1	£3,176
ML6	1	£264
PL5017	2	£606

air guns (1).  
air guns (2) (3 licences).  
air guns (10).  
ammunition for wall and door breaching projectile launchers.  
components for assault rifles.  
components for revolvers.  
components for semi-automatic pistols (4 licences).  
components for shotguns.  
components for small arms ammunition (2 licences).  
components for sniper rifles.  
components for sporting rifles.  
components for submachine guns.  
general military vehicle components.  
gun silencers (3 licences).  
hand grenades.  
non-sporting shotgun ammunition.  
pistols (1).  
pistols (4).  
revolvers (7).  
semi-automatic pistols (1) (2 licences).  
shotguns (1) (7 licences).  
shotguns (2) (3 licences).  
shotguns (6).

## Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

1. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857 and 1896). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use). All exports for this destination were approved in accordance with the sanctions in place.
2. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896 and 1952 (2010)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	7	£287,896
Total	7	£287,896

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£249,766
ML3	5	£25,530
ML11	1	£12,600

assault rifles (12).  
 assault rifles (29).  
 assault rifles (50) (2 licences).  
 components for military communications equipment.  
 general purpose machine guns (6).  
 gun silencers (3 licences).  
 rifles (10).  
 semi-automatic pistols (10).  
 semi-automatic pistols (50).  
 small arms ammunition (5 licences).

sniper rifles (1).  
 sniper rifles (10).  
 sporting rifles (12).  
 weapon sights.

Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£721,920

exploding grenade ammunition.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
2	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
3	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic

		countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
4	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
5	P	components for military aero-engines, general military aircraft components, general military vehicle components
6	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
7	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
8	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
9	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
10	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
11	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment

12	P	components for equipment for the use of test equipment for attack alerting/warning equipment, components for test equipment for attack alerting/warning equipment, equipment for the use of test equipment for attack alerting/warning equipment, software for test equipment for attack alerting/warning equipment, software for the use of test equipment for attack alerting/warning equipment, technology for software for test equipment for attack alerting/warning equipment, technology for test equipment for attack alerting/warning equipment, test equipment for attack alerting/warning equipment
13	P	accessories for airborne targeting equipment, accessories for bombing computers, accessories for film processing equipment, accessories for imaging counter-countermeasures equipment, accessories for imaging countermeasure/counter-countermeasures equipment, accessories for imaging countermeasures equipment, accessories for military cameras, accessories for military image intensifier equipment, accessories for military imaging radar equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video processing equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for optical target acquisition equipment, accessories for optical target designator equipment, accessories for optical target surveillance equipment, accessories for optical target tracking equipment, accessories for sensor data recorders, accessories for sensor integration equipment, accessories for simulators for military training aircraft, accessories for training equipment for military training aircraft, accessories for weapon control systems, airborne electronic warfare equipment, airborne refuelling equipment, airborne targeting equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, bombing computers, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for airborne targeting equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for bombing computers, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for film processing equipment, components for helmet mounted display equipment, components for imaging counter-countermeasures equipment, components for imaging countermeasure/counter-countermeasures equipment, components for imaging countermeasures equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military cameras, components for military containers, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military parachutist equipment, components for military photographic equipment, components for military training aircraft, components for military video processing equipment, components for military video recording equipment, components for night vision goggles, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor data recorders, components for sensor integration equipment, components for simulators for military training aircraft, components for training equipment for military training aircraft, components for weapon control systems, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, film processing equipment, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, imaging counter-countermeasures equipment, imaging countermeasure/counter-countermeasures equipment, imaging countermeasures equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military cameras, military containers, military flying helmets, military image intensifier equipment, military imaging radar equipment,

		military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military parametric technical databases, military photographic equipment, military video processing equipment, military video recording equipment, night vision goggles, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, sensor data recorders, sensor integration equipment, simulators for military training aircraft, software enabling equipment to function as military training aircraft, software for military training aircraft, software for the evaluation of weapon systems, software for the modelling of military operation scenarios, software for the modelling of weapon systems, software for the simulation of military operation scenarios, software for the simulation of weapon systems, software for the use of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft, test models for the development of military training aircraft, training equipment for military training aircraft, weapon control systems
14	P	ballistic shields

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	general military aircraft components, general naval vessel components

## France

### Processing Statistics

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	81% (497)
% and number of SIELs completed in 60 working days	99% (604)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	83 days
% and number of OIELs completed in 20 working days	19% (14)
% and number of OIELs completed in 60 working days	36% (26)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	49 days
% and number of OITCLs completed in 20 working days	40% (2)
% and number of OITCLs completed in 60 working days	60% (3)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	425	£57,923,646
Non-military	19	£1,832,345
Both Military and Non-military	4	£2,679,507
Total	448	£62,435,498

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	42	£3,169,545
ML2	5	£3,190,086
ML3	14	£1,014,821
ML4	28	£6,193,290

ML22	21	£364,477
PL5017	28	£190,640

- T accessories for night vision goggles.
- T accessories for recognition/identification equipment.
- airborne surveillance equipment.
- airborne targeting equipment.
- T aircraft military communications equipment (3 licences).
- T armoured personnel carriers.
- armoured plate (4 licences).
- assault rifles (60).
- T biological agent detection equipment.
- body armour (2 licences).
- bomb handling equipment.
- T chemical agent detection equipment (3 licences).
- T components for aerial target equipment.
- components for air-to-surface missiles (5 licences).
- components for airborne surveillance equipment (4 licences).
- components for airborne targeting equipment (4 licences).
- components for airborne underwing equipment.
- components for aircraft radars.
- T components for aircraft radars.
- components for anti-armour weapons.
- components for anti-ship missiles (5 licences).
- components for armoured fighting vehicles (5 licences).
- components for armoured personnel carriers (7 licences).
- components for artillery.
- components for artillery ammunition (2 licences).
- components for assault rifles.
- T components for attack alerting/warning equipment.
- T components for biological agent detection equipment.
- components for body armour (3 licences).
- components for bombs.
- T components for chemical agent detection equipment (2 licences).
- components for combat aircraft (14 licences).
- components for combat helicopters.
- components for crowd control ammunition (2 licences).

T components for electronic countermeasures equipment.  
 components for electronic warfare equipment.

T components for equipment for the production of surface-to-air missiles.  
 components for equipment for the use of military communications equipment.  
 components for ground based radars (2 licences).  
 components for ground vehicle military communications equipment.

T components for heavy machine guns.  
 components for large calibre artillery ammunition (2 licences).  
 components for laser rangefinders.

T components for laser rangefinders.  
 components for laser warning detectors.  
 components for launching equipment for anti-armour missiles.  
 components for military aero-engines (10 licences).  
 components for military airborne equipment (3 licences).  
 components for military aircraft navigation equipment (7 licences).  
 components for military communications equipment (13 licences).

T components for military communications equipment.  
 components for military electronic equipment (3 licences).  
 components for military firing sets.

T components for military flying helmets.  
 components for military guidance/navigation equipment (2 licences).  
 components for military helicopters (8 licences).  
 components for military image intensifier equipment.  
 components for military improvised explosive device disposal equipment (2 licences).

T components for military improvised explosive device jamming equipment.  
 components for military infrared/thermal imaging equipment (50 licences).

T components for military infrared/thermal imaging equipment (3 licences).  
 components for military navigation equipment (3 licences).  
 components for military sonar detection equipment (5 licences).  
 components for military support aircraft.

T components for military support vehicles.  
 components for military training aircraft (3 licences).  
 components for military transport aircraft (6 licences).  
 components for military utility helicopters (19 licences).  
 components for military utility vehicles.  
 components for missile navigation equipment.  
 components for mortar bombs (2 licences).  
 components for munition fuzes.  
 components for naval acoustic equipment.  
 components for naval communications equipment (2 licences).  
 components for naval gun mountings.  
 components for naval radars.  
 components for naval sonar equipment (3 licences).  
 components for NBC clothing (4 licences).

T components for NBC filters.

T components for night vision goggles.  
 components for nuclear radiation detection equipment.  
 components for optical target designator equipment.  
 components for optical target surveillance equipment (3 licences).

T components for optical target surveillance equipment.  
 components for recognition/identification equipment.

T components for recognition/identification equipment.  
 components for semi-automatic pistols.  
 components for small arms ammunition.  
 components for small calibre artillery.  
 components for small calibre artillery ammunition.  
 components for smoke generators.  
 components for sniper rifles (3 licences).  
 components for sporting rifles (3 licences).  
 components for submarines.  
 components for surface-to-surface missiles (5 licences).  
 components for tanks (3 licences).  
 components for targeting equipment (3 licences).  
 components for test equipment for military communications equipment.  
 components for weapon control systems (2 licences).

T components for weapon control systems.  
 components for weapon day and night sights.  
 decoy flares.  
 demolition charges.  
 equipment for the development of explosives.

equipment for the production of military aero-engines.  
 T equipment for the use of chemical agent detection equipment (2 licences).  
 T equipment for the use of electronic countermeasures equipment.  
 equipment for the use of launching/handling/control equipment for missiles.  
 equipment for the use of military aircraft navigation equipment.  
 equipment for the use of military communications equipment (3 licences).  
 T equipment for the use of military communications equipment.  
 equipment for the use of military electronic equipment.  
 equipment for the use of military firing sets.  
 T equipment for the use of military improvised explosive device decoying/detection/disposal/jamming  
 equipment.  
 T equipment for the use of military improvised explosive device jamming equipment.  
 equipment for the use of military infrared/thermal imaging equipment (5 licences).  
 equipment for the use of naval gun mountings.  
 equipment for the use of optical target surveillance equipment (2 licences).  
 equipment for the use of small calibre artillery.  
 T equipment for the use of weapon day and night sights (4 licences).  
 T(P) equipment for the use of weapon day and night sights.  
 T equipment for the use of weapon night sights.  
 T equipment for the use of weapon sights.  
 T explosive ordnance disposal equipment.  
 general military vehicle components (11 licences).  
 T general military vehicle components (2 licences).  
 general naval vessel components (3 licences).  
 goods treated for signature suppression for military use (2 licences).  
 T goods treated for signature suppression for military use.  
 gun mountings.  
 T gun mountings.  
 gun silencers (5 licences).  
 T helmet mounted display equipment.  
 laser rangefinders (3 licences).  
 T laser rangefinders.  
 military aero-engines.  
 T military aero-engines.  
 military airborne cargo handling equipment.  
 military aircraft navigation equipment (2 licences).  
 military ambulances.  
 military cameras.

 military electronic equipment (4 licences).  
 T military electronic equipment (2 licences).  
 military firing sets.  
 military helmets.  
 T military helmets.  
 T military image intensifier equipment.  
 T military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 military improvised explosive device disposal equipment.  
 T military improvised explosive device jamming equipment.  
 military infrared/thermal imaging equipment.  
 T military infrared/thermal imaging equipment (8 licences).  
 T(P) military infrared/thermal imaging equipment.  
 military navigation equipment (2 licences).  
 T military support vehicles.  
 T military trailers.  
 military utility helicopters.  
 military utility vehicles (2 licences).  
 T military utility vehicles (5 licences).  
 naval gun mountings.  
 naval shock mounts (3 licences).  
 T NBC clothing.  
 NBC filters.  
 T NBC filters (2 licences).  
 T NBC protective equipment (2 licences).  
 T NBC respirators.  
 T night vision goggles.  
 optical target acquisition equipment (2 licences).  
 T optical target acquisition equipment.  
 T optical target designator equipment.

periscopes.

T recognition/identification equipment.  
revolvers (4).  
semi-automatic pistols (1).  
shotguns (1).  
signature suppression coatings for military use.  
small arms ammunition (2 licences).  
small calibre artillery (2 licences).  
sniper rifles (1) (2 licences).

T software for military improvised explosive device decoying/detection/disposal/jamming equipment.  
Software for modelling/simulating/evaluating military operation scenarios.  
software for naval electrical/electronic equipment.  
software for the development of air-to-air missiles.  
software for the development of air-to-surface missiles.  
software for the development of software for the production of combat aircraft.  
software for the development of surface-to-air missiles.  
software for the development of surface-to-surface missiles.  
software for the modelling of weapon systems.  
software for the simulation of military operation scenarios.

T software for the use of chemical agent detection equipment.  
software for the use of military communications equipment (2 licences).  
software for the use of naval gun mountings.  
software for the use of test equipment for military navigation equipment.  
sporting guns (1).  
sporting guns (9).  
sporting rifles (1) (2 licences).  
sporting rifles (5).  
tanks.  
targeting equipment.  
tear gas/irritant ammunition.  
technology for combat aircraft.

T technology for military helicopters.  
technology for naval electrical/electronic equipment.  
technology for the development of bombs.  
technology for the development of military sonar detection equipment.  
technology for the development of unmanned air vehicles.  
technology for the production of air-to-surface missiles.  
technology for the production of bombs.  
technology for the production of equipment for the production of military aero-engines.  
technology for the production of surface-to-air missiles (2 licences).  
technology for the production of unmanned air vehicles (2 licences).  
technology for the use of chemical agent detection equipment.  
technology for the use of decoy flares.  
technology for the use of military communications equipment (2 licences).

T technology for the use of military communications equipment.  
technology for the use of military electronic equipment.

Rv technology for the use of naval communications equipment.  
technology for the use of software for the development of software for the production of combat aircraft.  
technology for the use of software for the simulation of military operation scenarios.

T technology for the use of test equipment for weapon sights.  
technology for unmanned air vehicles.  
test equipment for developmental missile components.  
test equipment for electronic countermeasures equipment.  
test equipment for military communications equipment.  
test equipment for military electronic equipment.  
test equipment for military electronic equipment.

T test equipment for weapon control systems.

T test equipment for weapon sights.

T test models for the development of bombs.

T training equipment for chemical agent detection equipment.

T training equipment for nuclear radiation detection equipment.  
unfinished products for air-to-surface missiles.  
unfinished products for military aero-engines.  
unfinished products for naval light guns.  
unfinished products for surface-to-air missiles (2 licences).  
vintage military vehicles.  
weapon cleaning equipment.  
weapon control systems.

T weapon day and night sights (7 licences).

T(P)	weapon day and night sights.
T	weapon night sights (9 licences).
T(P)	weapon night sights.
	weapon sight mounts (2 licences).
T	weapon sight mounts (6 licences).
T(P)	weapon sight mounts.
	weapon sights (11 licences).
T	weapon sights (2 licences).

Rv - Some or all of which have subsequently been revoked.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0B002	2	£778,000
0C002	3	£3,076
0E001	9	£464,001
1A007	2	£17,136
1C111	1	£27
5A002	1	£4,000
8A001	1	£566,104

	components for uranium isotope separation equipment.
	equipment employing cryptography.
	materials containing plutonium-239.
	non-military detonators.
T	non-military firing sets.
	plutonium-239.
	products containing plutonium-239.
	propellants.
T	submersible vehicles.
T	technology for the development of nuclear fuel reprocessing equipment.
T	technology for the development of nuclear reactor fuel element fabrication equipment.
	technology for the development of nuclear reactors (4 licences).
T	technology for the development of nuclear reactors.
	technology for the production of materials containing natural uranium.
T	technology for the production of nuclear fuel reprocessing equipment.
	technology for the production of nuclear reactor fuel element fabrication equipment.
T	technology for the production of nuclear reactor fuel element fabrication equipment.
	technology for the production of nuclear reactors (4 licences).
T	technology for the production of nuclear reactors.
	technology for the production of uranium conversion equipment.
T	technology for the use of nuclear fuel reprocessing equipment.
T	technology for the use of nuclear reactor fuel element fabrication equipment.
	technology for the use of nuclear reactors.
T	technology for the use of nuclear reactors.
	uranium isotope separation equipment.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

 electronic warfare equipment.  
 equipment for the use of military communications equipment.  
 equipment for the use of military sonar detection equipment.  
 general naval vessel components (2 licences).  
 goods treated for signature suppression for military use.  
 launching equipment for munitions (2 licences).  
 military electronic equipment (3 licences).  
 military infrared/thermal imaging equipment.  
 projectile launchers.  
 technology for air-to-surface missiles.  
 technology for the use of military sonar detection equipment.  
 technology for the use of naval sonar equipment.  
 test equipment for projectile launchers.  
 unfinished products for military aero-engines.  
 unfinished products for weapon control systems.  
 weapon cleaning equipment.

Rv - Some or all of which have subsequently been revoked.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£80,000

marine acoustic projectors.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Angola
- Belgium
- Brazil
- Bulgaria
- Chile
- Egypt
- Germany
- Greece
- India
- Italy

Libya  
Lithuania  
Malaysia  
Morocco  
Pakistan  
Peru  
Qatar  
Saudi Arabia  
Singapore  
South Africa  
South Korea  
Spain  
Sweden  
Taiwan  
Tunisia  
Turkey  
United Arab Emirates

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
2	P	components for combat aircraft
3	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
4	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols,

		deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
5	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
6	P	components for non-military firing sets, non-military firing sets
7	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for unmanned air vehicles
8	P	technology for the development of launching/handling/control/support equipment for unmanned air vehicles, technology for the development of unmanned air vehicles
9	P	general military aircraft components, general naval vessel components
10	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
11	P	components for submarines
12	P	components for military aero-engines, general military aircraft components, general military vehicle components, general naval vessel components
13	P	components for aircraft radars, components for ground based radars
14	P	components for military communications equipment, components for military navigation equipment, components for naval electronic equipment
15	T	demolition charges, detonating cord, devices for initiating explosives, shaped charges
16	P	technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of anti-ship missiles, technology for the development of combat aircraft, technology for the development of launching equipment for air-to-air missiles, technology for the development of launching equipment for anti-armour missiles, technology for the development of launching equipment for anti-ship missiles, technology for the development of launching equipment for surface-to-air missiles, technology for the development of launching equipment for surface-to-surface missiles, technology for the development of military infrared/thermal imaging equipment, technology for the development of military navigation equipment, technology for the development of military parametric

		technical databases, technology for the development of optical target acquisition equipment, technology for the development of special support components for optical sensor, technology for the development of submarines, technology for the development of superconductive electromagnets, technology for the development of surface-to-air missiles, technology for the development of surface-to-surface missiles, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of anti-ship missiles, technology for the production of combat aircraft, technology for the production of launching equipment for air-to-air missiles, technology for the production of launching equipment for anti-armour missiles, technology for the production of launching equipment for anti-ship missiles, technology for the production of launching equipment for surface-to-air missiles, technology for the production of launching equipment for surface-to-surface missiles, technology for the production of military infrared/thermal imaging equipment, technology for the production of military navigation equipment, technology for the production of military parametric technical databases, technology for the production of optical target acquisition equipment, technology for the production of special support components for optical sensor, technology for the production of submarines, technology for the production of superconductive electromagnets, technology for the production of surface-to-air missiles, technology for the production of surface-to-surface missiles, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of anti-ship missiles, technology for the use of combat aircraft, technology for the use of equipment for the use of air-to-air missiles, technology for the use of launching equipment for air-to-air missiles, technology for the use of launching equipment for anti-armour missiles, technology for the use of launching equipment for anti-ship missiles, technology for the use of launching equipment for surface-to-air missiles, technology for the use of launching equipment for surface-to-surface missiles, technology for the use of military infrared/thermal imaging equipment, technology for the use of military navigation equipment, technology for the use of military parametric technical databases, technology for the use of optical target acquisition equipment, technology for the use of special support components for optical sensor, technology for the use of submarines, technology for the use of superconductive electromagnets, technology for the use of surface-to-air missiles, technology for the use of surface-to-surface missiles
17	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
18	P	components for military aero-engines, general military aircraft components
19	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
20	P	accessories for military communications equipment, accessories for missile navigation equipment, airborne targeting equipment, aircraft military communications equipment, aircraft radars, anti-armour ammunition, command communications control and intelligence software, components for anti-armour ammunition, components for fuze setting devices, components for large calibre artillery ammunition, components for military communications equipment, components for missile navigation equipment, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor integration equipment, components for unmanned air vehicles, equipment for the use of unmanned air vehicles, fuze setting devices, large calibre artillery ammunition, military aircraft navigation equipment, military communications equipment, military improvised explosive device detection equipment, missile navigation equipment, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, recognition/identification equipment, sensor integration equipment, software for the development of airborne targeting equipment, software for the development of aircraft military communications equipment, software for the development of aircraft radars, software for the development of anti-armour ammunition, software for the development of fuze setting devices, software for the development of large calibre artillery ammunition, software for the development of military aircraft navigation equipment, software for the development of military communications equipment, software for the development of military improvised explosive device detection equipment, software for the development of missile navigation equipment, software for the development of optical target acquisition equipment, software for the development of optical target designator equipment, software for the development of optical target surveillance equipment, software for the development of optical target tracking equipment, software for the development of recognition/identification equipment, software for the development of sensor integration equipment, software for the development of unmanned air vehicles, software for the production of airborne targeting equipment, software for the

	<p>production of aircraft military communications equipment, software for the production of aircraft radars, software for the production of anti-armour ammunition, software for the production of fuze setting devices, software for the production of large calibre artillery ammunition, software for the production of military aircraft navigation equipment, software for the production of military communications equipment, software for the production of military improvised explosive device detection equipment, software for the production of missile navigation equipment, software for the ## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	3	£7,990
Non-military	4	£7,535,214
Total	7	£7,543,204

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	3	£7,990

components for military support aircraft.  
components for military transport aircraft (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C240	1	£7,500,000
7A003	1	£14,500
7A103	1	£13,700
8A002	2	£7,014

inertial equipment.  
nickel powders.  
rebreathing swimming apparatus (2 licences).

## Gabon

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	7	£26,260
Total	7	£26,260

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£3,000
5D002	3	£13,460
6A001	3	£9,800

- T components for marine location systems.  
cryptographic software (3 licences).  
equipment employing cryptography.
- T towed hydrophone arrays (2 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	hydrophones, towed hydrophone arrays
2	P	equipment employing cryptography

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£3,000
Non-military	1	£493,000

Total	2	£496,000
-------	---	----------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£3,000

military utility vehicles.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£493,000

heading sensors for hydrophone arrays.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography

biological agent detection equipment (5 licences).  
blank/inert ammunition.  
body armour (3 licences).  
chaff (5 licences).  
chemical agent detection equipment.

T chemical agent detection equipment (14 licences).  
command and control vehicles.  
command communications control and intelligence software.  
components for aiming devices.  
components for air-to-air missiles.  
components for air-to-surface missiles.  
components for airborne electronic warfare equipment (3 licences).  
components for aircraft military communications equipment.  
components for aircraft radars (3 licences).  
components for anti-armour ammunition (2 licences).  
components for armoured fighting vehicles (9 licences).  
components for armoured personnel carriers (2 licences).  
components for armoured repair and recovery vehicles (2 licences).  
components for artillery rockets.  
components for assault rifles (6 licences).

T components for biological agent detection equipment.  
components for body armour (2 licences).  
components for bridge laying vehicles (4 licences).  
components for chaff equipment.  
components for chemical agent detection equipment.

T components for chemical agent detection equipment (10 licences).  
components for combat aircraft (59 licences).

T components for combat aircraft (2 licences).  
components for combat helicopters.  
components for control equipment for exploding simulation devices.  
components for decoy flares (4 licences).  
components for equipment for the production of chaff.  
components for equipment for the production of illuminators.  
components for general purpose machine guns.  
components for ground based radars (6 licences).  
components for guided missile decoying equipment.  
components for guided missile detection equipment.  
components for gun mountings.  
components for helmet mounted display equipment (2 licences).  
components for illuminators.  
components for large calibre artillery ammunition (2 licences).  
components for laser rangefinders (4 licences).  
components for launching equipment for surface-to-air missiles.  
components for light strike vehicles.  
components for machine guns (2 licences).  
components for military aero-engines (14 licences).

T components for military aero-engines (12 licences).  
components for military aircraft head-up/down displays.  
components for military aircraft navigation equipment (2 licences).  
components for military cargo vehicles.  
components for military communications equipment (14 licences).  
components for military electronic equipment (6 licences).  
components for military firing sets.

T components for military firing sets (2 licences).  
components for military guidance/navigation equipment.  
components for military improvised explosive device disposal equipment.

T components for military improvised explosive device disposal equipment.  
components for military infrared/thermal imaging equipment (10 licences).

T components for military infrared/thermal imaging equipment.  
components for military navigation equipment (4 licences).  
components for military radars (2 licences).  
components for military support aircraft (4 licences).  
components for military support vehicles (3 licences).  
components for military surveillance aircraft.  
components for military training aircraft.  
components for military transport aircraft (6 licences).  
components for military utility helicopters (9 licences).  
components for mine clearing equipment.  
components for mine countermeasures equipment.

T components for naval acoustic equipment.  
 components for naval guns.  
 components for naval radars.  
 components for optical target acquisition equipment.  
 components for optical target surveillance equipment.  
 components for shotguns.  
 components for signal flares.  
 components for sniper rifles (7 licences).  
 components for sporting rifles (3 licences).  
 components for submarines (3 licences).  
 components for surface-to-air missiles (2 licences).  
 components for tanks (6 licences).  
 components for targeting equipment (2 licences).  
 components for test equipment for air-to-air missiles.  
 components for test equipment for biological agent detection equipment.  
 components for unmanned air vehicles (2 licences).  
 components for weapon control equipment (2 licences).  
 components for weapon control systems.  
 components for weapon day and night sights.  
 constructions for ballistic protection of military systems.  
 crowd control ammunition.  
 decoy flares (7 licences).  
 decoying/countermeasure equipment (2 licences).

T defensive systems against NBC agents.  
 energetic materials additives (6 licences).

T equipment for the production of military aero-engines (3 licences).  
 equipment for the production of military aero-engines (2 licences).  
 equipment for the use of armoured fighting vehicles.

T equipment for the use of chemical agent detection equipment.  
 equipment for the use of chemical agent detection equipment (9 licences).

T equipment for the use of military communications equipment.

T equipment for the use of military firing sets (2 licences).

T equipment for the use of NBC detection equipment.

T equipment for the use of NBC protective/defensive equipment.

T equipment for the use of NBC respirators (2 licences).

T equipment for the use of recognition/identification equipment.

T equipment for the use of software for the simulation of military operation scenarios.

T equipment for the use of weapon day and night sights (2 licences).  
 equipment for the use of weapon night sights.

T explosive charges.

T explosive ordnance disposal equipment.  
 flash suppressers.  
 general military aircraft components (11 licences).  
 general military vehicle components (7 licences).  
 general naval vessel components (3 licences).  
 general purpose machine guns (1).  
 general purpose machine guns (5).  
 ground based radars.  
 gun mountings (3 licences).  
 gun silencers (3 licences).  
 hand grenades.  
 inert ammunition.

T inert ammunition.  
 inert decoy flares.  
 large calibre artillery ammunition.

T materials for reduced electromagnetic reflectivity for military use.

T military aero-engines (2 licences).

T military aircraft ground equipment.

T military aircraft ground equipment.  
 military cargo vehicles (2 licences).

T military communications equipment (2 licences).

T military communications equipment (3 licences).

T military devices for initiating explosives.  
 military electronic equipment (5 licences).

T military electronic equipment.

T military engineer vehicles (2 licences).

T military firing sets (2 licences).

T military helmets (2 licences).

T military improvised explosive device disposal equipment (2 licences).

T military improvised explosive device disposal equipment.

T military infrared/thermal imaging equipment (5 licences).  
military navigation equipment.  
military support vehicles.

T military trailers.  
military utility vehicles (2 licences).

T military utility vehicles (2 licences).

T military video recording equipment.  
mine clearing equipment.  
munitions navigation equipment.  
NBC clothing.

T NBC clothing (3 licences).  
NBC detection equipment (3 licences).

T NBC filters (2 licences).  
NBC protective equipment.

T NBC protective/defensive equipment.

T NBC respirators (4 licences).  
non-sporting shotgun ammunition (2 licences).  
precursors for energetic materials (6 licences).  
projectile launchers (3 licences).  
propellants (3 licences).  
pyrotechnics/fuels and related substances (4 licences).  
rifles (1) (2 licences).  
shotguns (1).  
shotguns (4).  
shotguns (10).  
shotguns (50).  
signature suppression coatings for military use.  
simulators for chemical agent detection equipment.  
small arms ammunition.  
small calibre artillery ammunition.  
smoke hand grenades.  
sniper rifles (1) (4 licences).  
sniper rifles (2).  
software enabling equipment to function as forward observer/target recognition training equipment.  
software enabling equipment to function as military sonar detection equipment.  
software for the development of military aircraft navigation equipment.  
software for the development of naval sonar equipment.  
software for the simulation of military operation scenarios (2 licences).  
software for the use of chemical agent detection equipment.

T software for the use of chemical agent detection equipment (6 licences).

T software for the use of military aircraft ground equipment.

T software for the use of military aircraft navigation equipment.  
software for the use of military navigation equipment.  
software for the use of naval communications equipment.

T software for the use of test equipment for combat aircraft.  
sporting guns (1).

T sporting guns.  
sporting rifles (1) (3 licences).  
sporting rifles (60).  
sporting rifles (100).  
targeting equipment.  
tear gas/irritant ammunition.  
tear gas/riot control agents (2 licences).  
technology for the development of decoy flares.  
technology for the development of military navigation equipment.  
technology for the development of unmanned air vehicles.

6	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
7	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for unmanned air vehicles
8	P	general military aircraft components, general naval vessel components
9	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
10	T	components for combat aircraft
11	P	components for military aero-engines, general military aircraft components, general military vehicle components, general naval vessel components
12	P	components for aircraft radars, components for ground based radars
13	T	demolition charges, detonating cord, devices for initiating explosives, shaped charges
14	P	technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of anti-ship missiles, technology for the development of combat aircraft, technology for the development of launching equipment for air-to-air missiles, technology for the development of launching equipment for anti-armour missiles, technology for the development of launching equipment for anti-ship missiles, technology for the development of launching equipment for surface-to-air missiles, technology for the development of launching equipment for surface-to-surface missiles, technology for the development of military infrared/thermal imaging equipment, technology for the development of military navigation equipment, technology for the development of military parametric technical databases, technology for the development of optical target acquisition equipment, technology for the development of special support components for

		optical sensor, technology for the development of submarines, technology for the development of superconductive electromagnets, technology for the development of surface-to-air missiles, technology for the development of surface-to-surface missiles, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of anti-ship missiles, technology for the production of combat aircraft, technology for the production of launching equipment for air-to-air missiles, technology for the production of launching equipment for anti-armour missiles, technology for the production of launching equipment for anti-ship missiles, technology for the production of launching equipment for surface-to-air missiles, technology for the production of launching equipment for surface-to-surface missiles, technology for the production of military infrared/thermal imaging equipment, technology for the production of military navigation equipment, technology for the production of military parametric technical databases, technology for the production of optical target acquisition equipment, technology for the production of special support components for optical sensor, technology for the production of submarines, technology for the production of superconductive electromagnets, technology for the production of surface-to-air missiles, technology for the production of surface-to-surface missiles, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of anti-ship missiles, technology for the use of combat aircraft, technology for the use of equipment for the use of air-to-air missiles, technology for the use of launching equipment for air-to-air missiles, technology for the use of launching equipment for anti-armour missiles, technology for the use of launching equipment for anti-ship missiles, technology for the use of launching equipment for surface-to-air missiles, technology for the use of launching equipment for surface-to-surface missiles, technology for the use of military infrared/thermal imaging equipment, technology for the use of military navigation equipment, technology for the use of military parametric technical databases, technology for the use of optical target acquisition equipment, technology for the use of special support components for optical sensor, technology for the use of submarines, technology for the use of superconductive electromagnets, technology for the use of surface-to-air missiles, technology for the use of surface-to-surface missiles
15	P	components for aircraft missile protection systems
16	P	components for military aero-engines, general military aircraft components
17	P	components for combat aircraft, components for military aero-engines
18	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
19	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
20	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
21	P	components for military aero-engines

22	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
23	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
24	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
25	P	non-military detonators
26	P	components for airborne electronic warfare equipment, components for aircraft military communications equipment, components for aircraft radars, components for electronic countermeasures equipment, components for electronic warfare equipment, components for ground based radars, components for ground vehicle military communications equipment, components for military aircraft navigation equipment, components for military communications equipment, components for missile navigation equipment, components for naval communications equipment, components for naval electronic warfare equipment, components for naval radars
27	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
28	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
29	P	components for equipment for the use of test equipment for attack alerting/warning equipment, components for test equipment for attack alerting/warning equipment, equipment for the use of test equipment for attack alerting/warning equipment, software for test equipment for attack alerting/warning equipment, software for the use of test equipment for attack alerting/warning equipment, technology for software for test equipment for attack alerting/warning equipment, technology for test equipment for attack alerting/warning equipment, test equipment for attack alerting/warning equipment
30	P	components for military aero-engines, technology for the production of military aero-engines, technology for the use of military aero-engines, unfinished products for military aero-engines
31	P	components for military improvised explosive device disposal equipment, military improvised explosive device disposal equipment
32	P	software for the simulation of military operation scenarios

33	P	ballistic shields
34	P	components for combat aircraft, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for military utility helicopters, military aircraft head-up displays, military aircraft navigation equipment
35	P	anti-armour ammunition, assault rifles, blank ammunition, components for assault rifles, components for flash suppressers, components for general purpose machine guns, components for grenade launchers, components for gun mountings, components for gun silencers, components for heavy machine guns, components for machine pistols, components for projectile launchers, components for semi-automatic pistols, components for sniper rifles, components for submachine guns, components for weapon day and night sights, components for weapon night sights, components for weapon sights, crowd control ammunition, exploding grenade ammunition, flash suppressers, general purpose machine guns, grenade launchers, gun mountings, gun silencers, heavy machine guns, inert ammunition, machine pistols, mortar bombs, projectile launchers, pyrotechnic ammunition, semi-automatic pistols, small arms ammunition, smoke ammunition, sniper rifles, submachine guns, tear gas/irritant ammunition, wall and door breaching projectiles, weapon day and night sights, weapon night sights, weapon sights
36	P	technology for the development of nuclear reactor fuel element fabrication equipment, technology for the production of nuclear reactor fuel element fabrication equipment, technology for the use of nuclear reactor fuel element fabrication equipment
37	P	components for combat aircraft
38	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components

#### OITCLs

Source	Issued	Refused	Revoked
Angola, Austria, Botswana, Bulgaria, Cameroon, Chad, Denmark, Equatorial Guinea, France, Gabon, Germany, Ghana, Greece, Hungary, Israel, Italy, Kenya, Mauritania, Morocco, Mozambique, Namibia, Netherlands, Nigeria, Norway, Poland, Portugal, Republic of Congo, Republic of Guinea, Romania, Senegal, Slovenia, South Africa, Spain, Switzerland, Tanzania, Turkey, Uganda, Ukraine, United States of America	1	0	0

#### Issued

devices for initiating explosives.  
linear cutting explosive charges.  
non-military firing sets.  
oxidisers.

## Ghana

## **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	6	£6,763,069
Non-military	8	£762,426
Total	14	£7,525,495

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£589,240
ML3	1	£1,319,000
ML4	1	£105,000
ML6	2	£3,742,693
ML10	1	£1,000,000
ML22	1	£0
PL5017	2	£7,136

all-wheel drive vehicles with ballistic protection.  
 components for armoured personnel carriers.  
 components for heavy machine guns.

components for semi-automatic pistols.  
 components for sniper rifles.  
 components for submachine guns.  
 equipment for the use of heavy machine guns.  
 equipment for the use of sniper rifles.  
 equipment for the use of weapon sights.  
 gun mountings (2 licences).  
 heavy machine guns (3).  
 military utility helicopters.  
 semi-automatic pistols (500).  
 small arms ammunition.  
 sniper rifles (10).  
 stun grenades.  
 submachine guns (250).  
 technology for the use of semi-automatic pistols.  
 technology for the use of sniper rifles.  
 technology for the use of submachine guns.  
 weapon cleaning equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	5	£28,926
5D002	3	£703,500
8A002	1	£30,000

T cryptographic software (3 licences).  
 equipment employing cryptography (5 licences).  
 submersible equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	hydrophones, towed hydrophone arrays
2	P	equipment employing cryptography

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	5	£11,808
Non-military	1	£7,069
Total	6	£18,877

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£1,686
ML5	1	£4,880
ML11	1	£5,242

components for launching equipment for surface-to-air missiles (2 licences).  
 components for military communications equipment.  
 components for surface-to-air missiles.  
 components for weapon control systems.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	1	£7,069

extended temperature range integrated circuits.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Germany
- Russia
- United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
2 (Rv)	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft
3	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for

Goods covered by EC Reg 1236/2005 and Military	0	£0
Goods covered by EC Reg 1236/2005 and Non-military	0	£0
Goods covered by EC Reg 1236/2005 and Both Military and Non-military	0	£0
Total	1	£6,412

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

#### Goods covered by EC Reg 1236/2005

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£6,412

handcuffs.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography, software for the use of equipment employing cryptography
2	P	cryptographic software, equipment for the development of equipment employing cryptography, frequency synthesisers
3	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
4	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography
5	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
6	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography, technology for the use of software for the use of equipment employing cryptography
7	P	components for military improvised explosive device disposal equipment, military improvised explosive device disposal equipment
8	P	cryptographic software

##### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military aero-engines, general military aircraft components

##### OITCLs

 metal alloy powder production equipment.  
 metal alloy tubes.  
 nickel powders (16 licences).  
 nuclear grade graphite.  
 numerical control software (8 licences).  
 optics finishing machines.  
 particle counters.  
 photomultiplier tubes.  
 T radio controlled improvised explosive device jamming equipment.  
 radio jamming equipment (2 licences).  
 T radio jamming equipment (2 licences).  
 semiconductor wafers with epitaxial layers.  
 software for the development of aero gas turbine engines (2 licences).  
 software for the development of civil aero-engines.  
 software for the development of technology for the development of civil aero-engines (3 licences).  
 software for the use of equipment employing cryptography (20 licences).  
 software for the use of FADEC systems (5 licences).  
 software for the use of materials testing equipment (2 licences).  
 software for the use of optics finishing machines.  
 submersible equipment.  
 submersible vehicles.  
 technology for civil aero-engines.  
 technology for cryptographic software (2 licences).  
 technology for lasers.  
 technology for metal-working manufacturing processes.  
 technology for the development of aero-engine assemblies.  
 technology for the development of bellows sealed valves.  
 technology for the development of civil aero-engines (10 licences).  
 technology for the development of composite laminates.  
 technology for the development of composite structures (4 licences).  
 technology for the development of equipment employing cryptography (2 licences).  
 technology for the development of extended temperature range integrated circuits.  
 technology for the development of metal alloys in particulate form.  
 technology for the development of non-certified aero-engines (2 licences).  
 technology for the development of propeller blades (2 licences).  
 technology for the development of space qualified focal plane arrays.  
 technology for the development of wind tunnel models (3 licences).  
 technology for the production of aero-engine assemblies.  
 technology for the production of civil aero-engines (5 licences).  
 technology for the production of composite laminates.  
 technology for the production of composite structures.  
 technology for the production of equipment employing cryptography.  
 technology for the production of equipment for the development of gas turbines (2 licences).  
 technology for the production of metal alloys in powder form (2 licences).  
 technology for the production of wind tunnel models.  
 technology for the use of aero-engine assemblies.  
 technology for the use of composite laminates.  
 technology for the use of composite structures.  
 technology for the use of cryptographic software.  
 technology for the use of equipment employing cryptography.  
 technology for the use of extended temperature range integrated circuits.  
 technology for the use of materials testing equipment.  
 technology for the use of nuclear reactors (2 licences).  
 test equipment for composite materials.  
 test equipment for gyro-astro compasses.  
 toxins (3 licences).  
 triggered spark gaps (2 licences).  
 tungsten in particulate form.  
 tungsten in powder form.  
 vacuum pumps (2 licences).  
 vibration test equipment.  
 zirconium compounds (2 licences).

#### Country Footnotes

1. European Council Common Position 2007/140/CFSP, adopted on 27 February 2007, imposed a ban on the export of items on the Nuclear Suppliers Group and Missile Technology Control Regime lists. Common Position 2007/246/CFSP, adopted on 23 April 2007, imposed an embargo on the export to Iran of arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for the aforementioned. An exception is made for armoured vehicles for use by personnel of the EU and its Member States in Iran. EC Regulation 423/2007, adopted on 19 April 2007 (amended on 10 November 2008 through EC Regulation 1110/2008), made licensable, to Iran alone, goods or technology that could contribute to Iran's enrichment-related, reprocessing or heavy water-related activities; the development of nuclear weapon delivery systems by Iran; or the pursuit by Iran of activities related to other topics about which the IAEA has expressed concerns or identified as outstanding.

Following UNSCR 1803 Common Position 2008/632/CFSP was adopted on 8 August 2008. This put in place further restrictive measures including an additional embargo on certain goods and technology which could contribute to enrichment-related, reprocessing or heavy water-related activities. Further restraint concerning new commitments for public provided financial support for trade, vigilance over the activities of EU financial institutions with banks domiciled in Iran and their subsidiaries, branches and other financial entities outside Iran, inspection of and prior information requirement on certain cargoes to and from Iran. As stated above the corresponding Regulation was adopted on 10 November 2008 - EC Regulation 1110/2008.

All exports for this destination were approved in accordance with the sanctions in place.

2. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran. New measures include:
  - stopping new Iranian nuclear facilities and banning Iranian nuclear investment;
  - total bans on exports of several major categories of arms, and further restrictions on Iran's ballistic missile programme;
  - asset freezes of 40 entities;
  - an asset freeze and travel ban on one senior nuclear scientist;
  - restrictions on financial services, including insurance and reinsurance, where there is suspicion of a proliferation link ;
  - a ban on existing and new correspondent banking relationships where there are proliferation concerns;

The European Union signalled its intent to impose further sanctions against Iran in a European Council declaration on 17 June. The declaration requested the Foreign Affairs Council to adopt at its next session measures implementing those contained in the UN Security Council Resolution 1929 as well as accompanying measures, with a view to supporting the resolution of all outstanding concerns regarding Iran's development of sensitive technologies in support of its nuclear and missile programmes, through negotiation. These should focus on the areas of trade, especially dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC).

All exports for this destination were approved in accordance with the sanctions in place.

3. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further

restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq or the Multinational Force to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

ML15	1	£76,000
ML21	1	£100
ML22	4	£301
PL5017	3	£16,024

	air guns (1).
	assault rifles (1).
T	biological agent detection equipment.
T	chemical agent detection equipment (3 licences).
T	components for chemical agent detection equipment (3 licences).
	components for rifles.
T	components for semi-automatic pistols.
	components for sniper rifles.
	components for sporting guns.
	components for sporting rifles.
T	components for submachine guns.
T	components for surface-to-air missiles.
	components for tanks.
	energetic materials additives.
T	equipment for the use of chemical agent detection equipment (2 licences).
	equipment for the use of sniper rifles.
	explosives.
	gun mountings.
	gun silencers (2 licences).
	military communications equipment.
T	military image intensifier equipment.
T	military infrared/thermal imaging equipment.
T	military support vehicles.

- T military video recording equipment.  
NBC clothing.  
NBC filters.  
NBC respirators.
- T night vision goggles.  
oxidisers.  
pyrotechnics/fuels and related substances.  
rifles (1) (4 licences).  
rifles (2).
- T semi-automatic pistols (4).  
shotguns (1) (9 licences).  
shotguns (2) (2 licences).  
small arms ammunition (3 licences).  
sniper rifles (60).
- T software for the use of chemical agent detection equipment (2 licences).  
sporting guns (3) (2 licences).  
sporting rifles (1) (6 licences).  
sporting rifles (5).
- T submachine guns (4).  
tear gas/riot control agents.
- T technology for the development of unmanned air vehicles.
- T technology for the production of surface-to-air missiles.
- T technology for the use of sniper rifles.
- T weapon day and night sights (2 licences).
- T weapon night sights (2 licences).  
weapon sight mounts.  
weapon sights (8 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£50,000
1A007	1	£66,084
3A231	2	£1,320,000

- T civil explosive detection/identification equipment.  
neutron generators (2 licences).  
non-military detonators.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	2	£176,932
Total	2	£176,932

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£176,932

components for turrets (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Saudi Arabia  
United States of America

**SIELs - Transshipment**

**Issued**

Types of goods on licence	No. of licences	Value
Military	1	£964,867
Total	1	£964,867

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£964,867

small calibre artillery ammunition.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers,

		replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
2	T	demolition charges, detonating cord, devices for initiating explosives, shaped charges
3	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
4	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
5	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
6	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
7	P	non-military detonators
8	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
9	P	ballistic shields

Total	259	£28,361,743

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	55	£1,083,934
ML3	1	£1,740
ML4	16	£1,356,760
ML5	16	£1,074,254
ML6	10	£615,550
ML7	11	£1,315,196
ML9	1	£2,600
ML10	87	£17,889,233
ML11	18	£315,698
ML13	3	£48,305
ML14	8	£869,267
ML15	3	£235,000
ML16	4	£1,655,910
ML18	2	£98,400
ML21	12	£1,433,740
ML22	12	£260,771
PL5001	1	£6,500
PL5017	2	£130

	aerial target equipment (2 licences).
	anti-riot/ballistic shields.
	armoured personnel carriers.
T	assault rifles (1).
T	biological agent detection equipment (3 licences).
	body armour (3 licences).
T	chaff.
T	chemical agent detection equipment (3 licences).
	combination rifle-shotguns (1).
	components for aerial target equipment (2 licences).
T	components for air-launched rockets.
	components for air-to-air missiles (2 licences).
	components for air-to-surface missiles.
	components for aircraft radars (3 licences).
T	components for assault rifles.

T components for biological agent detection equipment (2 licences).  
 components for body armour.  
 components for chaff.

T components for chemical agent detection equipment (3 licences).  
 components for combat aircraft (22 licences).  
 components for combat helicopters (11 licences).  
 components for combination rifle-shotguns.  
 components for decoying/countermeasure equipment.  
 components for electronic warfare equipment.  
 components for fire control equipment.  
 components for ground based radars (2 licences).  
 components for guided missile decoy rounds.

T components for guided missile decoying equipment.  
 components for launching equipment for munitions.  
 components for launching/handling/control equipment for munitions.  
 components for military aero-engines (10 licences).

T components for military aero-engines.  
 components for military aircraft navigation equipment.  
 components for military cargo vehicles.

T components for military combat vehicles.  
 components for military communications equipment.  
 components for military electronic equipment (2 licences).  
 components for military helicopters (4 licences).  
 components for military improvised explosive device disposal equipment.  
 components for military infrared/thermal imaging equipment.  
 components for military navigation equipment.

T components for military navigation equipment.  
 components for military radars (2 licences).  
 components for military support aircraft (3 licences).  
 components for military support vehicles.  
 components for military training aircraft (6 licences).  
 components for military transport aircraft (4 licences).  
 components for military utility helicopters (25 licences).  
 components for munitions/ordnance detection/disposal equipment.  
 components for naval sonar equipment.

T components for NBC respirators.

T components for optical target acquisition equipment.

T(P) components for remote ground sensor systems.  
 components for shotguns.  
 components for small calibre artillery ammunition.  
 components for sniper rifles.  
 components for sporting guns.  
 components for tanks.  
 components for targeting equipment (3 licences).  
 components for torpedoes.  
 components for weapon control systems.

T control equipment for unmanned air vehicles.

T electronic warfare equipment.  
 equipment for the production of ejector seats.  
 equipment for the production of military utility helicopters.

T equipment for the use of biological agent detection equipment.

T equipment for the use of chemical agent detection equipment (3 licences).

T equipment for the use of weapon day and night sights (2 licences).

T general military vehicle components (3 licences).  
 inert decoy flares.  
 launching equipment for bombs.  
 military airborne cargo handling equipment.  
 military ambulances.  
 military communications equipment.

T military communications equipment (2 licences).  
 military devices for initiating explosives.  
 military helmets (3 licences).  
 military improvised explosive device disposal equipment (2 licences).

T military infrared/thermal imaging equipment (2 licences).

T military navigation equipment.  
 military scenario simulation equipment.  
 military trailers.  
 military utility vehicles.  
 NBC clothing.

T NBC clothing.

T	NBC filters (5 licences).
	NBC filters.
	NBC protective/defensive equipment.
T	NBC respirators (3 licences).
T	NBC respirators.
T	optical target acquisition equipment.
	optical target surveillance equipment.
	revolvers (1) (2 licences).
	rifles (1) (2 licences).
	semi-automatic pistols (1).
	shotguns (1) (12 licences).
	shotguns (2) (7 licences).
	shotguns (3) (3 licences).
	sniper rifles (1).
	software for multi-role missiles.
	software for optimising equipment design.
	software for the development of air-to-air missiles (2 licences).
	software for the development of air-to-surface missiles.
	software for the development of multi-role missiles.
	software for the development of surface-to-air missiles.
	software for the development of surface-to-surface missiles.
	software for the production of air-to-air missiles.
	software for the production of multi-role missiles.
	software for the simulation of military operation scenarios (3 licences).
	software for the use of military aero-engines (2 licences).
T	software for the use of training equipment for biological agent detection equipment (2 licences).
T	software for the use of training equipment for chemical agent detection equipment (2 licences).
T	software for the use of training equipment for nuclear radiation detection equipment (2 licences).
	sporting guns (1) (5 licences).
	sporting guns (2).
	sporting rifles (1) (7 licences).
	sporting rifles (2) (2 licences).
	sporting rifles (3).
	sporting rifles (4).
	technology for multi-role missiles.
	technology for the development of air-to-air missiles.
	technology for the development of exploding grenade ammunition.
	technology for the development of multi-role missiles.
	technology for the development of munition fuzes.
	technology for the development of pyrotechnic ammunition.
	technology for the development of smoke ammunition.
	technology for the development of unmanned air vehicles (2 licences).
	technology for the production of air-to-air missiles.
	technology for the production of multi-role missiles.
	technology for the production of unmanned air vehicles.
Rv	technology for the use of optical target surveillance equipment.
	technology for the use of software for optimising equipment design.
	technology for the use of software for the simulation of military operation scenarios (2 licences).
	technology for the use of unmanned air vehicles (3 licences).
T	training equipment for biological agent detection equipment.
T	training equipment for chemical agent detection equipment (2 licences).
	training equipment for equipment for the use of airborne electronic warfare equipment.
T	training equipment for nuclear radiation detection equipment.
	unfinished products for military aero-engines (3 licences).
	unfinished products for military airborne cargo handling equipment.
	weapon day and night sights (3 licences).
T	weapon day and night sights (2 licences).
	weapon night sights (2 licences).
T	weapon night sights (2 licences).
T	weapon sight mounts.
	weapon sights (11 licences).

Rv - Some or all of which have subsequently been revoked.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£8,089
0E001	14	£19,000
6A001	1	£17,467
PL8001	3	£1,699

components for improvised explosive device detection equipment.  
 components for non-military firing sets.  
 components for nuclear reactors.  
 improvised explosive device detection equipment.  
 technology for nuclear reactors.  
 technology for the development of nuclear reactors.  
 technology for the production of nuclear reactors (12 licences).  
 towed hydrophone arrays.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£24,750
ML11	1	£750
PL8001	1	£27,000

T biological agent detection equipment.  
 T chemical agent detection equipment.  
 T components for chemical agent detection equipment.  
 T equipment for the use of chemical agent detection equipment.  
 T improvised explosive device detection equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	136	£21,338,284
Total	136	£21,338,284

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	6	£2,337,339
ML5	29	£2,190,807
ML9	5	£90,762
ML10	85	£16,154,849
ML11	9	£164,073
ML16	2	£291,424
ML18	1	£7,800

ML22	3	£100,404
PL5017	1	£826

- airborne surveillance equipment (2 licences).
- components for airborne electronic warfare equipment (2 licences).
- Rv components for airborne radars.
- components for aircraft military communications equipment.
- Rv components for aircraft radars (11 licences).
- components for combat aircraft (22 licences).
- components for combat helicopters (14 licences).
- components for corvettes.
- components for fire control equipment.
- components for ground based radars (9 licences).
- components for launching equipment for air-to-air missiles (3 licences).
- components for launching/handling/control equipment for munitions (2 licences).
- components for military aero-engines (23 licences).
- components for military aircraft head-up displays.
- Rv components for military aircraft navigation equipment.
- components for military communications equipment.
- components for military radars (3 licences).
- components for military training aircraft (4 licences).
- Rv components for military transport aircraft (8 licences) [See footnote 1].
- components for military utility helicopters (5 licences).
- components for naval auxiliary vessels (2 licences).
- components for naval radars.
- Rv components for optical target surveillance equipment (3 licences).
- components for torpedoes.
- components for unmanned air vehicles.
- equipment for the use of torpedoes.
- general military aircraft components.
- general naval vessel components.
- military airborne equipment.
- military aircraft ground equipment (2 licences).
- military electronic equipment (5 licences).
- naval shock mounts.
- Rv optical target surveillance equipment.
- technology for military radars.
- technology for the use of military aircraft ground equipment (2 licences).
- test equipment for airborne electronic warfare equipment.
- Rv unfinished products for optical target acquisition equipment.
- unfinished products for surface-to-air missiles.

Rv - Some or all of which have subsequently been revoked.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Afghanistan  
Algeria  
Austria  
Brazil  
Bulgaria  
Ecuador  
France  
Germany  
Greece  
India  
Indonesia  
Libya  
Lithuania  
Malaysia  
Morocco  
Oman  
Pakistan

Romania  
 Saudi Arabia  
 Singapore  
 South Africa  
 South Korea  
 Spain  
 Turkey  
 United Arab Emirates  
 United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military aero-engines, equipment for the production of combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, technology for the production of combat aircraft, technology for the production of military aero-engines, technology for the use of combat aircraft, technology for the use of equipment for the production of combat aircraft, technology for the use of equipment for the use of combat aircraft, technology for the use of military aero-engines, technology for the use of military aircraft ground equipment
2	P	components for military utility helicopters
3	P	components for aircraft radars, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for simulators for aircraft radars
4	P	components for combat aircraft
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
6	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols,

		deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
7	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
8	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for surface-to-air missiles, unfinished products for unmanned air vehicles
9	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
10	P	components for military aero-engines, general military aircraft components, general military vehicle components, general naval vessel components
11	P	components for aircraft radars, components for ground based radars
12	T	demolition charges, detonating cord, devices for initiating explosives, shaped charges
13	P	components for military aero-engines, software for the use of military aero-engines, unfinished products for military aero-engines
14	P	components for military aero-engines, general military aircraft components
15	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
16	P	components for airborne refuelling equipment, components for military transport aircraft, equipment for the production of airborne refuelling equipment, equipment for the production of military transport aircraft, equipment for the use of airborne refuelling equipment, equipment for the use of military transport aircraft, technology for the use of airborne refuelling equipment, technology for the use of military transport aircraft
17	P	components for military aero-engines
18	P	components for military transport aircraft, general military aircraft components

19	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
20	T	technology for the development of nuclear fuel reprocessing equipment, technology for the development of nuclear reactor fuel element fabrication equipment, technology for the development of nuclear reactors, technology for the production of nuclear fuel reprocessing equipment, technology for the production of nuclear reactor fuel element fabrication equipment, technology for the production of nuclear reactors, technology for the use of nuclear fuel reprocessing equipment, technology for the use of nuclear reactor fuel element fabrication equipment, technology for the use of nuclear reactors
21	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
22	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
23	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
24	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
25	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
26	P	non-military detonators
27	P	components for airborne electronic warfare equipment, components for aircraft military communications equipment, components for aircraft radars, components for electronic countermeasures equipment, components for electronic warfare equipment, components for ground based radars, components for ground vehicle military communications equipment, components for military aircraft navigation equipment, components for military communications equipment, components for missile navigation equipment, components for naval communications equipment, components for naval electronic warfare equipment, components for naval radars

28	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
29	P	components for exploding grenade ammunition, equipment for the production of exploding grenade ammunition, equipment for the production of gun mountings, technology for the development of equipment for the production of exploding grenade ammunition, technology for the development of exploding grenade ammunition, technology for the production of exploding grenade ammunition, technology for the use of grenade launchers
30	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
31	P	components for equipment for the use of test equipment for attack alerting/warning equipment, components for test equipment for attack alerting/warning equipment, equipment for the use of test equipment for attack alerting/warning equipment, software for test equipment for attack alerting/warning equipment, software for the use of test equipment for attack alerting/warning equipment, technology for software for test equipment for attack alerting/warning equipment, technology for test equipment for attack alerting/warning equipment, test equipment for attack alerting/warning equipment
32	P	components for military aero-engines, technology for the production of military aero-engines, technology for the use of military aero-engines, unfinished products for military aero-engines
33	P	components for military improvised explosive device disposal equipment, military improvised explosive device disposal equipment
34	P	software for the simulation of military operation scenarios
35	P	ballistic shields
36	P	software for the development of software for the modelling of military operation scenarios, software for the development of software for the simulation of military operation scenarios, software for the modelling of military operation scenarios, software for the simulation of military operation scenarios, software for the use of software for the modelling of military operation scenarios, software for the use of software for the simulation of military operation scenarios, technology for the development of software for the modelling of military operation scenarios, technology for the development of software for the simulation of military operation scenarios, technology for the use of software for the modelling of military operation scenarios, technology for the use of software for the simulation of military operation scenarios
37	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles

38	P	components for military utility helicopters, equipment for the development of military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, military aircraft ground equipment, software for the development of military utility helicopters, software for the production of military utility helicopters, software for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility aircraft, test models for military utility helicopters, test models for the development of military utility helicopters, unfinished products for military utility helicopters
39	P	components for combat aircraft
40	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	software for the development of air-to-air missiles, software for the development of anti-armour missiles, software for the development of bombs, software for the production of air-to-air missiles, software for the production of anti-armour missiles, software for the production of bombs, software for the use of air-to-air missiles, software for the use of anti-armour missiles, software for the use of bombs, technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of bombs, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of bombs, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of bombs

### OITCLs

Source	Issued	Refused	Revoked
Angola, Austria, Botswana, Bulgaria, Cameroon, Chad, Denmark, Equatorial Guinea, France, Gabon, Germany, Ghana, Greece, Hungary, Israel, Italy, Kenya, Mauritania, Morocco, Mozambique, Namibia, Netherlands, Nigeria, Norway, Poland, Portugal, Republic of Congo, Republic of Guinea, Romania, Senegal, Slovenia, South Africa, Spain, Switzerland, Tanzania, Turkey, Uganda, Ukraine, United States of America	1	0	0

### Issued

all-wheel drive vehicles with ballistic protection.  
 components for all-wheel drive vehicles with ballistic protection.  
 devices for initiating explosives.  
 linear cutting explosive charges.  
 naval light guns.

non-military firing sets.  
 oxidisers.  
 promoting the supply of small calibre artillery ammunition.

### Case & goods Footnotes

- Arms embargo sanctions in place for Afghanistan apply to those individuals designated under the UNs 'Consolidated List' under UNSCR 1267 designated individuals. All exports for this destination were approved in accordance with the sanctions in place or for use by the International Security Assistance Force (ISAF)/Diplomatic Missions/United Nations/Recognised NGO.

## Ivory Coast

### Processing Statistics

Median processing time SIELs	29 days
% and number of SIELs completed in 20 working days	29% (2)
% and number of SIELs completed in 60 working days	71% (5)
% [as a % of all SIEL cases processed] and number of SIELs refused	14% (1)

Median processing time OIELs	16 days
% and number of OIELs completed in 20 working days	60% (6)
% and number of OIELs completed in 60 working days	70% (7)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	77 days
% and number of OITCLs completed in 20 working days	50% (1)
% and number of OITCLs completed in 60 working days	50% (1)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	50% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£1,698,308
Total	4	£1,698,308

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£35,880
5A002	2	£9,023
7A102	1	£1,653,405

T chemicals used for pharmaceutical/healthcare production.  
 equipment employing cryptography (2 licences).  
 gyroscopes.

**Refused**

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry
ML6	1
ML17	1

military cargo vehicles.  
 military containers.  
 military engineer vehicles.  
 tank transporters.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	1

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	5	£174,649
Non-military	9	£19,925,840
Both Military and Non-military	1	£96,275
Total	15	£20,196,764

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£4,800
ML3	2	£160,000
ML4	1	£8,058
ML11	1	£1,791

assault rifles (1).  
 components for military firing sets.  
 equipment for the use of military firing sets.  
 small arms ammunition (2 licences).  
 sporting rifles (1).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£38,700
5A002	3	£21,140
6A003	2	£11,000
9A004	2	£19,855,000

corrosion resistant chemical manufacturing equipment (2 licences).  
 equipment employing cryptography (3 licences).  
 imaging cameras (2 licences).  
 spacecraft (2 licences).

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

1A006	1	£31,885
ML7	1	£1,681
ML13	1	£46,828
PL8001	1	£15,881

bomb suits.  
 components for improvised explosive device disposal remotely operated vehicles.  
 improvised explosive device disposal equipment.  
 military helmets.  
 NBC clothing.

### OIELs (excluding Other OIELs)

### Country Footnotes

- Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

T accessories for military small arms training equipment.  
T all-wheel drive vehicles with ballistic protection.

Rv ammunition for wall and door breaching projectile launchers (3 licences).  
 T Rv anti-riot/ballistic shields.  
 T assault rifles (7).  
 Rv body armour.  
 T components for assault rifles.  
 T Rv components for automatic piloting systems for parachuted loads.  
 Rv components for combat aircraft.  
 T components for gun mountings.  
 T components for machine guns.  
 T components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 T Rv components for military parachutes.  
 T components for military small arms training equipment (3 licences).  
 T Rv components for multi-role missiles.  
 T Rv components for optical target surveillance equipment.  
 Rv components for semi-automatic pistols.  
 components for sniper rifles.  
 T Rv components for surface-to-air missiles.  
 Rv crowd control ammunition (7 licences).  
 T equipment for the use of military small arms training equipment.  
 T Rv equipment for the use of optical target surveillance equipment.  
 equipment for the use of sniper rifles.  
 gun mountings.  
 T gun mountings (2 licences).  
 gun silencers.  
 T Rv inert chaff.  
 T Rv inert decoy flares.  
 T Rv inert illuminators.  
 T Rv inert signal flares.  
 T Rv inert smoke canisters.  
 T Rv inert smoke hand grenades.  
 T Rv inert stun grenades.  
 T Rv inert thunderflashes.  
 T Rv laser rangefinders.  
 T machine guns (4).  
 T Rv military cameras.  
 Rv military cargo vehicles.  
 T military combat vehicles.  
 Rv military communications equipment.  
 T military communications equipment.  
 Rv military containers.  
 military equipment for initiating explosives.  
 T military improvised explosive device decoying/detection/disposal/jamming equipment.  
 T Rv military infrared/thermal imaging equipment.  
 T Rv military parachutes.  
 T Rv military parachutist equipment.  
 T military small arms training equipment (3 licences).  
 T military utility vehicles (3 licences).  
 T Rv NBC respirators.  
 T Rv optical target surveillance equipment.  
 T semi-automatic pistols (4).  
 Rv small arms ammunition (6 licences).  
 sniper rifles (1).  
 T sniper rifles (2).  
 T sniper rifles (4).  
 T software enabling equipment to function as forward observer/target recognition training equipment.  
 T software for software for the simulation of military operation scenarios.  
 T Rv software for the use of military communications equipment.  
 software for the use of military small arms training equipment (2 licences).  
 Rv tear gas/irritant ammunition (5 licences).  
 Rv technology for the use of military cargo vehicles.  
 Rv technology for the use of military communications equipment.  
 Rv technology for the use of military containers.  
 Rv technology for the use of military infrared/thermal imaging equipment.  
 Rv training small arms ammunition.  
 T training small arms ammunition.  
 Rv training tear gas/irritant ammunition (3 licences).  
 Rv weapon cleaning equipment.  
 T weapon cleaning equipment.  
 weapon sight mounts.

T            weapon sights.  
 T            weapon sights.

### SITCLs

Source	Issued	Refused	Revoked
Jordan	1	0	0

### Issued

Rv military utility vehicles.

Rv - Some or all of which have subsequently been revoked.

### Country Footnotes

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

## Liechtenstein

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

##### Issued

Types of goods on licence	No. of licences	Value
Military	3	£71,488
Non-military	2	£2,842
Total	5	£74,330

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

##### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£68,160
ML13	1	£120
ML22	1	£1,150
PL5035	1	£2,058

armoured plate.  
biological agent detection equipment.  
chemical agent detection equipment.

components for all-wheel drive vehicles with ballistic protection.  
 components for biological agent detection equipment.  
 components for chemical agent detection equipment.  
 technology for the use of biological agent detection equipment.  
 technology for the use of chemical agent detection equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C352	1	£10
5A002	1	£2,832

animal pathogens.  
 equipment employing cryptography.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography
2	P	equipment employing cryptography
3	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography, technology for the use of software for the use of equipment employing cryptography

body armour (2 licences).  
chemical agent detection equipment.  
combat helicopters.  
components for armoured fighting vehicles (2 licences).  
components for chemical agent detection equipment.  
components for combat aircraft (4 licences).  
components for combat helicopters (9 licences).  
T components for electronic countermeasures equipment.  
components for fire control equipment (3 licences).  
components for military aircraft head-up/down displays.  
components for military helicopters (2 licences).  
components for military image intensifier equipment.  
components for military infrared/thermal imaging equipment (7 licences).  
components for military radars (3 licences).  
components for military transport aircraft.  
components for military utility helicopters.  
components for naval communications equipment.  
components for naval radars (6 licences).  
components for revolvers.  
components for sniper rifles (2 licences).  
components for sporting rifles.  
components for tanks (2 licences).  
components for targeting equipment.  
components for weapon day and night sights.  
constructions for ballistic protection of military systems.  
equipment for the development of combat helicopters.  
T equipment for the development of weapon control equipment.  
equipment for the operation of military aircraft in confined areas.  
equipment for the use of chemical agent detection equipment.  
T equipment for the use of electronic countermeasures equipment.  
T equipment for the use of NBC respirators.  
general military aircraft components.  
general military vehicle components (2 licences).  
general naval vessel components.  
goods treated for signature suppression for military use.  
gun silencers (2 licences).  
machine guns (1).  
military aircraft ground equipment.

	military ambulances. military combat vehicles (3 licences). military communications equipment. military devices for initiating explosives. military electronic equipment (6 licences). military inflatable craft. military infrared/thermal imaging equipment. military trailers. military utility vehicles.
T	military utility vehicles (2 licences). NBC clothing (6 licences).
T	NBC clothing.
T	NBC filters (2 licences).
	NBC respirators (2 licences).
T	NBC respirators (2 licences).
	non-sporting shotgun ammunition (2 licences). optical target acquisition equipment. pistols (1). revolvers (1). rifles (2). rifles (3). rifles (4). rifles (6). rifles. shotguns (12). shotguns (18). signal flares. small arms ammunition (2 licences). smoke canisters.
T	sniper rifles (1) (2 licences). sniper rifles (1). sniper rifles (3). sniper rifles (4). sniper rifles (58).
	Software for modelling/simulating/evaluating military operation scenarios. software for the modelling of military operation scenarios.
T	software for the modelling of military operation scenarios. sporting guns (1) (2 licences). sporting guns (6). sporting rifles (1) (2 licences). sporting rifles. tanks (2 licences). technology for military infrared/thermal imaging equipment. technology for the use of chemical agent detection equipment. test equipment for weapon sights. training equipment for chemical agent detection equipment.
	unfinished products for combat aircraft (4 licences). unfinished products for combat naval vessels. unfinished products for military aero-engines. unfinished products for naval engines. vintage guns. vintage military vehicles. weapon night sights (4 licences). weapon sight mounts (3 licences). weapon sights (13 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0B001	2	£12,317,000
0C002	1	£295
0C004	2	£2
0E001	3	£602
3A231	5	£13,612,023
PL8001	1	£25,000

- T improvised explosive device detection equipment.
- neutron generators.
- T neutron generators (4 licences).
- nuclear grade graphite (2 licences).
- products containing plutonium-239.
- technology for the production of nuclear reactors.
- technology for the use of nuclear grade graphite (2 licences).
- uranium isotope separation equipment (2 licences).

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	86	£1,184,317
Total	86	£1,184,317

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	25	£95,266
ML7	1	£199,296
ML9	4	£116,724
ML10	50	£248,532
ML11	3	£51,055
ML13	1	£18,200
ML17	1	£140,000
ML22	1	£244
PL5035	1	£315,000

- armoured plate.
- components for all-wheel drive vehicles with ballistic protection.
- components for combat aircraft.
- components for combat helicopters (2 licences).
- components for corvettes.
- components for fast attack craft.
- components for ground based radars (2 licences).
- components for military helicopters (17 licences).
- components for military radars (5 licences).
- components for military utility helicopters (29 licences).
- components for naval radars (19 licences).
- components for sensor integration equipment (2 licences).
- components for submarines.
- components for weapon control equipment.
- military helicopters.
- naval communications equipment.
- NBC filters.
- technology for the use of naval radars.
- test models for the development of military transport aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia

Bangladesh  
Belgium  
Brazil  
Colombia  
Finland  
France  
Germany  
Ghana  
Greece  
Indonesia  
Italy  
Malaysia  
Morocco  
New Zealand  
Norway  
Oman  
Portugal  
Saudi Arabia  
South Korea  
Spain  
Sweden  
Taiwan  
Thailand  
Turkey  
United States of America  
Venezuela

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	neutron generators
2	P	components for combat aircraft
3	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
4	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols,

		components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquilising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquilising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquilising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquilising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquilising rifles, vintage guns, weapon sights
5	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
6	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for unmanned air vehicles
7	P	general military aircraft components, general naval vessel components
8	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
9	P	components for military aero-engines, general military aircraft components, general military vehicle components
10	P	components for aircraft radars, components for ground based radars
11	T	demolition charges, detonating cord, devices for initiating explosives, explosives, shaped charges
12	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays

13	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
14	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
15	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
16	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
17	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
18	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
19	P	non-military detonators
20	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
21	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical

		agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
22	P	components for equipment for the use of test equipment for attack alerting/warning equipment, components for test equipment for attack alerting/warning equipment, equipment for the use of test equipment for attack alerting/warning equipment, software for test equipment for attack alerting/warning equipment, software for the use of test equipment for attack alerting/warning equipment, technology for software for test equipment for attack alerting/warning equipment, technology for test equipment for attack alerting/warning equipment, test equipment for attack alerting/warning equipment
23	P	ballistic shields
24	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for military utility helicopters, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	software for the development of air-to-air missiles, software for the development of anti-armour missiles, software for the development of bombs, software for the production of air-to-air missiles, software for the production of anti-armour missiles, software for the production of bombs, software for the use of air-to-air missiles, software for the use of anti-armour missiles, software for the use of bombs, technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of bombs, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of bombs, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of bombs, test models for the development of air-to-air missiles, test models for the development of bombs

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£2,175
Total	1	£2,175

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£2,175
5D002	1	£0

equipment employing cryptography.  
software for the use of equipment employing cryptography.

### Country Footnotes

1. Arms sanctions against DPRK are currently in place under UN Security Council resolution 1718 (amended by UNSCR 1874). The arms embargo prohibits the supply, sale or transfer of arms (and a ban on related financial transactions, technical training or services), with the exception of the provision by States to the DPRK of small arms and light weapons and their related materiel, on which States are required to notify the Committee in advance.

### **SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	173	£362,872,486
Non-military	12	£846,625
Both Military and Non-military	2	£55,043
Total	187	£363,774,154

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	18	£385,452
ML2	1	£1,374
ML3	10	£472,032
ML4	7	£77,726
ML5	3	£54,280
ML6	19	£516,734
ML9	6	£360,005,505
ML10	69	£379,952
ML11	31	£383,946
ML14	1	£21,095
ML15	6	£496,096
ML17	1	£4,761
ML22	8	£20,402
PL5017	5	£45,682
PL5035	2	£7,450

aerial target equipment.  
ammunition for wall and door breaching projectile launchers.  
anti-g/pressure suits.  
assault rifles (1) (2 licences).  
assault rifles (2).  
blank ammunition.  
components for aerial target equipment.  
components for aircrew protective masks.  
components for all-wheel drive vehicles with ballistic protection (2 licences).

components for armoured fighting vehicles (2 licences).  
 components for assault rifles (2 licences).  
 components for combat aircraft (14 licences).  
 components for combat helicopters (7 licences).  
 components for decoying/countermeasure equipment.  
 components for ejector seats.  
 components for fast attack craft.  
 components for general purpose machine guns.  
 components for ground vehicle military communications equipment (2 licences).  
 components for guided missile decoying equipment.  
 components for launching/handling/control equipment for missiles (2 licences).  
 components for military aero-engines (2 licences).  
 components for military aircraft ground equipment (10 licences).  
 components for military aircraft pressurised breathing equipment (4 licences).  
 components for military cameras.  
 components for military combat vehicles (3 licences).  
 components for military communications equipment (24 licences).  
 components for military distress signalling equipment.  
 components for military electronic equipment.  
 components for military field generators.  
 components for military flying helmets (2 licences).  
 components for military helicopters.  
 components for military image intensifier equipment (2 licences).  
 components for military infrared/thermal imaging equipment.  
 components for military navigation equipment.  
 components for military radars (3 licences).  
 components for military support aircraft (6 licences).  
 components for military training aircraft (12 licences).  
 components for military transport aircraft.  
 components for military utility vehicles.  
 components for mortars.  
 components for naval electrical/electronic equipment.  
 components for naval engines (3 licences).  
 components for sniper rifles (5 licences).  
 components for submachine guns (2 licences).  
 components for tanks (10 licences).  
 components for weapon sight mounts.  
 components for weapon sights.  
 equipment for the use of mortars.  
 equipment for the use of sniper rifles (2 licences).  
 general military aircraft components (5 licences).  
 general military vehicle components.  
 general purpose machine guns (1).  
 general purpose machine guns (10).  
 ground vehicle military communications equipment.  
 gun mountings.  
 gun silencers (4 licences).  
 gun silencers.  
 illuminators (2 licences).  
 military aircraft ground equipment (2 licences).  
 military cameras.  
 military communications equipment (3 licences).  
 military electronic equipment.  
 military helicopters.  
 military improvised explosive device disposal equipment.  
 military infrared/thermal imaging equipment (2 licences).  
 military navigation equipment.  
 military utility vehicles.  
 non-sporting shotgun ammunition.  
 patrol craft.  
 semi-automatic pistols (20).  
 semi-automatic pistols.  
 signal flares.  
 small arms ammunition (10 licences).  
 sniper rifles (2).  
 sniper rifles (5).  
 sniper rifles (27).  
 sniper rifles (30) (2 licences).  
 sporting rifles (4).  
 submachine guns (1).

T

submachine guns (10).  
 tear gas/irritant ammunition (2 licences).  
 technology for military communications equipment.  
 technology for sniper rifles.  
 technology for the use of assault rifles.  
 technology for the use of general purpose machine guns.  
 technology for the use of military cameras.  
 technology for the use of military communications equipment.  
 technology for the use of naval electrical/electronic equipment.  
 technology for the use of sniper rifles.  
 technology for the use of submachine guns (2 licences).  
 training tear gas/irritant ammunition (2 licences).  
 training wall and door breaching projectiles.  
 wall and door breaching projectiles.  
 weapon cleaning equipment.  
 weapon sights (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£14,671
1C350	2	£6,765
2B350	1	£1,471
3A101	1	£153,090
5A001	1	£10,400
5B002	1	£600,000
5D001	1	£14,400
5D002	2	£25,716
6A003	1	£11,850
8A002	1	£8,262

chemicals used for general laboratory work/scientific research.  
 chemicals used for industrial/commercial processes.  
 corrosion resistant chemical manufacturing equipment.  
 cryptographic software (2 licences).  
 deuterium mixtures.  
 equipment for the development of equipment employing cryptography.  
 imaging cameras.  
 T radio controlled improvised explosive device jamming equipment.  
 rebreathing swimming apparatus.  
 software for the use of radio jamming equipment.  
 X-ray generators.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	1	£300
6A002	1	£15,893
ML1	1	£34,580
ML13	1	£300
ML17	1	£3,740
ML22	1	£0
PL5017	1	£230

body armour.  
 civil body armour.  
 T direct view imaging equipment.  
 T goods treated for signature suppression for military use.  
 T technology for the use of test equipment for weapon sights.  
 T test equipment for weapon sights.

T weapon day and night sights.  
T weapon night sights.  
T weapon sight mounts.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	chaff, chaff equipment, command communications control and intelligence equipment, components for chaff equipment, components for command communications control and intelligence equipment, components for corvettes, components for defensive systems against NBC agents, components for electronic warfare equipment, components for fast attack craft, components for frigates, components for heavy machine guns, components for military distress signalling equipment, components for military inflatable craft, components for military navigation equipment, components for naval acoustic equipment, components for naval communications equipment, components for naval engines, components for naval gun mountings, components for naval radars, components for naval sonar equipment, components for semi-automatic pistols, components for surface-to-air missiles, components for surface-to-surface missiles, control equipment for surface-to-air missiles, control equipment for surface-to-surface missiles, defensive systems against NBC agents, electronic warfare equipment, equipment for the use of corvettes, equipment for the use of fast attack craft, equipment for the use of frigates, equipment for the use of naval radars, equipment for the use of surface-to-air missiles, general naval vessel components, handling equipment for surface-to-surface missiles, heavy machine guns, launching equipment for surface-to-air missiles, launching equipment for surface-to-surface missiles, military distress signalling equipment, military inflatable craft, military navigation equipment, naval acoustic equipment, naval communications equipment, naval electrical equipment, naval electronic equipment, naval engines, naval gun mountings, naval radars, naval sonar equipment, NBC filters, semi-automatic pistols, surface-to-air missiles, surface-to-surface missiles, test equipment for military communications equipment, test equipment for naval radars, test equipment for surface-to-air missiles
2	P	components for armoured repair and recovery vehicles, components for tanks, components for training equipment for tanks
3	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for armoured repair and recovery vehicles, components for command and control vehicles
4	P	general naval vessel components, technology for the use of general naval vessel components
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	63	£6,072,313
Non-military	1	£2,321
Total	64	£6,074,634

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	9	£1,702,950
ML2	1	£27,160
ML3	5	£52,522
ML4	2	£56,920
ML5	3	£124,219
ML6	3	£254,950
ML7	21	£1,487,952
ML10	4	£79,573
ML11	13	£63,107
ML13	2	£2,600
ML14	1	£100
ML15	3	£175,315
ML17	1	£9,966
ML18	4	£1,979,030
ML21	2	£1,550
ML22	5	£3,249
PL5001	4	£18,848
PL5017	16	£32,303

- T accessories for military image intensifier equipment.
- T accessories for night vision goggles.
- all-wheel drive vehicles with ballistic protection.
- anti-riot/ballistic shields (3 licences).
- ballistic shields.
- T biological agent detection equipment (4 licences).
- body armour (2 licences).
- chaff.
- chemical agent detection equipment (4 licences).
- T chemical agent detection equipment (6 licences).
- T components for biological agent detection equipment.
- components for body armour.
- components for chemical agent detection equipment (4 licences).
- T components for chemical agent detection equipment (6 licences).
- components for guided missile decoying equipment.
- components for large calibre artillery.
- components for military combat vehicles.
- components for military communications equipment.
- components for military helicopters.
- components for military support vehicles.
- components for military training aircraft.
- components for military utility helicopters.
- components for munitions/ordnance detection/disposal equipment.
- components for NBC detection equipment.
- T components for NBC detection equipment.
- T components for NBC protective/defensive equipment.
- components for small arms ammunition (4 licences).
- components for sniper rifles.
- T components for sniper rifles (2 licences).
- components for unmanned air vehicles.
- decoy flares.
- equipment for the production of military utility helicopters (2 licences).
- T equipment for the production of military utility helicopters (2 licences).
- equipment for the use of chemical agent detection equipment (2 licences).
- T equipment for the use of chemical agent detection equipment (4 licences).
- T equipment for the use of decoying/countermeasure equipment.
- equipment for the use of gun mountings.
- T equipment for the use of NBC detection equipment.
- T equipment for the use of NBC protective/defensive equipment.
- T equipment for the use of NBC respirators (2 licences).
- equipment for the use of sniper rifles.
- T equipment for the use of weapon day and night sights.
- T goods treated for signature suppression for military use.
- gun mountings.
- T helmet mounted display equipment.

	military communications equipment (2 licences).
	military electronic equipment.
T	military infrared/thermal imaging equipment (2 licences).
T	military video recording equipment.
T	NBC clothing.
T	NBC detection equipment.
	NBC filters.
T	NBC filters.
	NBC protective/defensive equipment.
T	NBC protective/defensive equipment (2 licences).
T	NBC respirators.
T	night vision goggles.
T	nuclear radiation detection equipment.
T	optical target designator equipment.
T	recognition/identification equipment.
	revolvers (1).
	small arms ammunition.
T	sniper rifles (1) (2 licences).
	sniper rifles (12).
	software for the use of biological agent detection equipment.
T	software for the use of chemical agent detection equipment.
T	technology for the use of chemical agent detection equipment.
	technology for the use of sniper rifles.
T	technology for the use of sniper rifles (2 licences).
T	technology for the use of test equipment for weapon sights.
T	test equipment for weapon sights.
T	training equipment for NBC detection equipment.
T	weapon cleaning equipment (2 licences).
T	weapon day and night sights (3 licences).
	weapon night sights.
T	weapon night sights (3 licences).
	weapon sight mounts.
T	weapon sight mounts (5 licences).
	weapon sights.
T	weapon sights (3 licences).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL8001	1	£2,321

components for improvised explosive device detection equipment.

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	2	£67,431
Total	2	£67,431

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£27,988
ML10	1	£39,443

components for combat aircraft.  
components for launching equipment for anti-armour missiles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Sweden  
United States of America

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft
2	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
3	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for heavy machine guns, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition,

		smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
4	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
5	P	general military aircraft components, general naval vessel components
6	P	components for military aero-engines, general military aircraft components, general military vehicle components
7	P	components for military utility helicopters, equipment for the production of military utility helicopters, software for the production of military utility helicopters, technology for the production of military utility helicopters
8	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
9	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
10	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
11	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment

12	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
13	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
14	P	components for military utility helicopters, equipment for the production of military utility helicopters, software for the production of military utility helicopters, technology for the production of military utility helicopters
15	P	ballistic shields

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	21	£3,444,520
Non-military	36	£8,067,560
Both Military and Non-military	3	£1,121,950
Total	60	£12,634,030

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£496,925
ML3	2	£5,168
ML4	4	£204,082
ML7	3	£221,700
ML11	3	£430,491
ML13	2	£328,450
ML14	2	£491,515
ML21	1	£112,030
ML22	3	£1,153,479
PL5017	3	£680

- armoured plate.
- body armour.
- T chemical agent detection equipment.
- components for firearm training simulators.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military improvised explosive device disposal equipment.
- T components for military improvised explosive device disposal equipment.
- components for military small arms training equipment.
- T components for semi-automatic pistols.
- components for sniper rifles (2 licences).
- components for submachine guns.
- equipment for the use of firearm training simulators.
- T equipment for the use of sniper rifles.
- equipment for the use of weapon sights.
- firearm training simulators.
- T gun mountings.
- military communications equipment.
- T military firing sets.
- military helmets.
- T military improvised explosive device disposal equipment.
- military navigation equipment.
- NBC filters (2 licences).
- NBC respirators.
- replica fragmentation hand grenades.
- shotguns (2).
- T small arms ammunition.
- T sniper rifles (6).
- T sniper rifles.
- software for the use of firearm training simulators.
- sporting rifles (2).
- technology for the development of firearm training simulators.
- technology for the production of firearm training simulators.
- technology for the use of firearm training simulators.
- T technology for the use of sniper rifles (2 licences).

- T training small arms ammunition.
- T weapon cleaning equipment.
- T weapon night sights (2 licences).
- T weapon sight mounts (2 licences).
- T weapon sights (2 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	1	£93,575
1C351	2	£1,096
2B350	13	£265,389
2B352	1	£9,543
5A001	1	£256,000
5A002	10	£7,327,711
5D001	1	£18,000
5D002	5	£31,408
6A003	6	£64,838

- T accessories for improvised explosive device disposal remotely operated vehicles.
- T biotechnology equipment.
- T components for corrosion resistant chemical manufacturing equipment (5 licences).
- T components for equipment employing cryptography.
- T components for improvised explosive device disposal remotely operated vehicles.
- T corrosion resistant chemical manufacturing equipment (8 licences).
- T cryptographic software (3 licences).
- T equipment employing cryptography (10 licences).
- T imaging cameras (4 licences).
- T imaging cameras (2 licences).
- T improvised explosive device disposal remotely operated vehicles.
- T radio jamming equipment.
- T software for the use of equipment employing cryptography (2 licences).
- T software replicating controlled telecommunications equipment.
- T technology for the use of equipment employing cryptography.
- T toxins (2 licences).

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£169,900
6A003	1	£300,000
ML1	1	£480,000
ML5	1	£40,000
ML7	2	£80,200
ML11	3	£8,400
ML14	1	£100
ML15	1	£40,000
PL5017	3	£3,350

- T biological agent detection equipment.
- T chemical agent detection equipment.
- T civil explosive detection/identification equipment.
- T civil NBC detection systems (2 licences).
- T components for chemical agent detection equipment.
- T equipment for the use of biological agent detection equipment.
- T equipment for the use of chemical agent detection equipment.
- T equipment for the use of NBC respirators.
- T Rv equipment for the use of weapon day and night sights.
- T Rv imaging cameras.
- T Rv military infrared/thermal imaging equipment.

T NBC clothing.  
T NBC filters.  
T NBC respirators.  
T training equipment for biological agent detection equipment.  
T Rv weapon day and night sights.  
T Rv weapon night sights.  
T Rv weapon sight mounts.

Rv - Some or all of which have subsequently been revoked.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	3	£284,348
Total	3	£284,348

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	2	£176,876
ML10	1	£107,472

aircraft military communications equipment.  
 components for frigates.  
 components for naval communications equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 India

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography
2 (Rv)	P	technology for the production of military infrared/thermal imaging equipment
3 (Rv)	P	technology for the production of unfinished products for military infrared/thermal imaging equipment
4 (Rv)	P	equipment employing cryptography
5 (Rv)	P	non-military detonators
6 (Rv)	P	components for submersible equipment, components for submersible vehicles, heading sensors for hydrophone arrays, high energy capacitors, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
7 (Rv)	P	air guns

Rv - Some or all of which have subsequently been revoked.

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military aero-engines, general military aircraft components, general military vehicle components
2	P	hydrophones, towed hydrophone arrays
3	P	air guns, components for air guns, gun silencers, weapon sights
4	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft

## Country Footnotes

1. On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

## Case & goods Footnotes

1. These goods have been approved because they are for civil end use.

## Rwanda

- T accessories for improvised explosive device disposal remotely operated vehicles (2 licences).  
biotechnology equipment.  
chemicals used for general laboratory work/scientific research (5 licences).  
chemicals used for pharmaceutical/healthcare production.  
civil explosive detection/identification equipment.  
components for corrosion resistant chemical manufacturing equipment (6 licences).
- T components for improvised explosive device disposal remotely operated vehicles (2 licences).  
compound semiconductor precursor chemicals (2 licences).  
corrosion resistant chemical manufacturing equipment (24 licences).  
cryptographic software (23 licences).
- T cryptographic software (2 licences).  
deuterium compounds (9 licences).  
deuterium solutions (2 licences).  
devices for initiating explosives.  
electronics cooling fluids (2 licences).  
equipment employing cryptography (22 licences).
- T equipment employing cryptography (4 licences).  
equipment for the development of equipment employing cryptography.  
extended temperature range integrated circuits.  
graphite materials.  
hydrophones (2 licences).  
imaging cameras (5 licences).
- T improvised explosive device disposal remotely operated vehicles (2 licences).  
inertial equipment.
- T laser radar equipment.  
neutron generators.  
nuclear grade graphite.
- T radio controlled improvised explosive device jamming equipment.
- T radio jamming equipment.  
software for the use of equipment employing cryptography (4 licences).  
software for the use of inertial equipment.  
technology for the use of equipment employing cryptography.  
thyristors.  
triggered spark gaps.

underwater hydrophone cable systems.

**Both Military and Non-military**

- accessories for improvised explosive device disposal remotely operated vehicles.
- accessories for improvised explosive device disruptors.
- bomb suits (2 licences).
- civil explosive detection/identification equipment.
- components for improvised explosive device disruptors.
- components for military firing sets.
- components for military improvised explosive device disposal equipment.
- components for military transport aircraft.
- equipment for the use of military improvised explosive device disposal equipment.
- T equipment for the use of weapon day and night sights.
- T general military aircraft components.
- imaging cameras (2 licences).
- improvised explosive device disposal remotely operated vehicles (2 licences).
- improvised explosive device disruptors.
- improvised explosive device jamming equipment.
- inertial equipment.
- laser rangefinders.
- military devices for initiating explosives.
- T military electronic equipment (2 licences).
- military firing sets (3 licences).
- military helmets (2 licences).
- T military image intensifier equipment.
- military improvised explosive device disposal equipment (3 licences).
- T military infrared/thermal imaging equipment (2 licences).
- night vision goggles.
- technology for the use of military improvised explosive device disposal equipment.
- T weapon day and night sights (2 licences).
- T weapon night sights (2 licences).
- T weapon sight mounts (2 licences).

**SIELs - Transshipment**

**Issued**

Types of goods on licence	No. of licences	Value
Non-military	1	£119,482
Total	1	£119,482

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	1	£119,482
PL8001	1	£0

accessories for improvised explosive device disruptors.  
 components for improvised explosive device disruptors.  
 devices for initiating explosives.  
 improvised explosive device disruptors.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military aero-engines, equipment for the production of combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, technology for the production of combat aircraft, technology for the production of military aero-engines, technology for the use of combat aircraft, technology for the use of equipment for the production of combat aircraft, technology for the use of equipment for the use of combat aircraft, technology for the use of military aero-engines, technology for the use of military aircraft ground equipment
2	P	components for combat aircraft, general military aircraft components
3	T	software for the use of test equipment for inertial equipment, test equipment for inertial equipment
4	P	components for combat aircraft
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
6	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording

		equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
7	P	components for military aero-engines, general military aircraft components, general military vehicle components
8	P	components for military communications equipment, equipment for the use of military communications equipment, goods treated for signature suppression for military use, military communications equipment, simulators for military communications equipment, software for the use of equipment for the use of military communications equipment, software for the use of military communications equipment, software for the use of simulators for military communications equipment, technology for the use of equipment for the use of military communications equipment, technology for the use of goods treated for signature suppression for military use, technology for the use of military communications equipment, technology for the use of simulators for military communications equipment
9	P	command and control vehicles, command communications control and intelligence equipment, command communications control and intelligence software, software for the use of command and control vehicles, technology for the use of command and control vehicles, technology for the use of command communications control and intelligence equipment
10	P	airborne refuelling equipment, components for airborne refuelling equipment, components for aircraft military communications equipment, components for aircraft radars, components for combat aircraft, components for ejector seats, components for ground based radars, components for military aero-engines, components for military aircraft head-down displays, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military cameras, components for military communications equipment, components for military transport aircraft, components for tanker aircraft, general military aircraft components, military aircraft navigation equipment, military communications equipment
11	P	components for military aero-engines, general military aircraft components
12	P	hydrophones, towed hydrophone arrays
13	P	components for military transport aircraft, equipment for the production of military transport aircraft, equipment for the use of military transport aircraft, technology for the use of military transport aircraft
14	P	airborne electronic warfare equipment, airborne surveillance equipment, airborne targeting equipment, aircraft cannons, aircraft military communications equipment, aircraft missile protection systems, aircraft radars, aircrew protective masks, anti-g/pressure suits, attack alerting/warning equipment, chaff, chaff equipment, components for airborne electronic warfare equipment, components for airborne surveillance equipment, components for airborne targeting equipment, components for aircraft cannons, components for aircraft military communications equipment, components for aircraft missile protection systems, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for attack alerting/warning equipment, components for chaff equipment, components for combat aircraft, components for ejector seats, components for electronic countermeasures equipment, components for equipment for the production of combat aircraft, components for equipment for the use of combat aircraft, components for equipment for the use of ejector seats, components for guided missile decoying equipment, components for imaging countermeasures equipment, components for laser rangefinders, components for laser warning detectors, components for liquid oxygen converters, components for military aero-engines, components for military aircraft head-up displays, components for military aircraft pressurised breathing equipment, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military video processing equipment, components for military video recording equipment, components for optical target acquisition equipment, components for recognition/identification equipment, components for sensor data recorders, components for test equipment for combat aircraft, components for weapon control systems, components for weapon sights, decoy flares, ejector seats, electronic countermeasures equipment, equipment for the production of combat aircraft, equipment for the use of combat aircraft, equipment

	<p>for the use of ejector seats, goods treated for signature suppression for military use, guided missile decoying equipment, guided missile detection equipment, imaging countermeasures equipment, ### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	39	£990,526
Non-military	18	£459,566
Total	57	£1,450,092

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£7,424
ML4	3	£32,265
ML7	1	£500
ML10	4	£875,088
ML11	1	£64,489

ML13	1	£1,650
ML18	8	£8,860
ML22	19	£249

- air guns (12).
- body armour.
- combination rifle-shotguns (1).
- components for combat aircraft.
- T components for military aero-engines.
- T components for military training aircraft.
- components for military transport aircraft.
- components for surface-to-air missiles.
- T equipment for the production of combat aircraft.
- equipment for the production of military aero-engines.
- T equipment for the production of military aircraft ground equipment (6 licences).
- explosive ordnance disposal equipment.
- military communications equipment.
- military helmets.
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- NBC protective/defensive equipment.
- replica vintage guns (1).
- shotguns (56).
- sporting rifles (46).
- technology for military aircraft ground equipment.
- technology for the production of aircrew protective masks (4 licences).
- technology for the production of military aircraft ground equipment (9 licences).
- technology for the production of military aircraft pressurised breathing equipment (3 licences).
- technology for the production of military flying helmets.
- technology for the use of military communications equipment.
- technology for the use of military infrared/thermal imaging equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£125
1C352	1	£10
5A001	1	£220,000

### Country Footnotes

- Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States. All exports for this destination were approved in accordance with the sanctions in place.
- UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	9	£2,696,957
Non-military	1	£2,151
Total	10	£2,699,108

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£350,000
ML3	1	£3,600
ML5	5	£86,180
ML6	2	£22,619
ML9	1	£2,158,550
ML10	1	£8,903
ML11	1	£2,200
ML22	1	£20,500
PL5017	1	£44,405

blank/inert ammunition.  
 components for anti-armour ammunition.  
 components for military aero-engines.  
 components for military utility vehicles (2 licences).  
 components for naval gun installations/mountings.  
 components for weapon day and night sights (3 licences).  
 components for weapon night sights.  
 equipment for the use of naval gun installations/mountings.  
 naval gun installations/mountings.  
 naval guns.  
 periscopes.  
 technology for the use of naval gun installations/mountings.  
 weapon cleaning equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	1	£2,151

metal alloy cylindrical forms.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Peru  
 Thailand  
 United States of America

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.
--

No.	Type	Goods Summary
1	T	software for the use of test equipment for inertial equipment, test equipment for inertial equipment
2	P	components for large calibre artillery

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	12	£37,268
Non-military	2	£295
Total	14	£37,563

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£9,591
ML3	1	£1,552
ML4	3	£15,803
ML7	1	£4,930
ML11	1	£5,250
PL5017	2	£142

chemical agent detection equipment.  
 components for chemical agent detection equipment.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 components for military improvised explosive device disposal equipment.  
 components for military navigation equipment.  
 components for semi-automatic pistols.  
 components for submachine guns.  
 equipment for the use of submachine guns.  
 military improvised explosive device disposal equipment.  
 shotguns (1).  
 sniper rifles (1).  
 training small arms ammunition.  
 weapon sight mounts.  
 weapon sights (4 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C002	1	£295
0E001	1	£0

products containing plutonium-239.  
 T technology for the development of nuclear fuel reprocessing equipment.  
 T technology for the development of nuclear reactor fuel element fabrication equipment.  
 T technology for the development of nuclear reactors.  
 T technology for the production of nuclear fuel reprocessing equipment.  
 T technology for the production of nuclear reactor fuel element fabrication equipment.  
 T technology for the production of nuclear reactors.  
 T technology for the use of nuclear fuel reprocessing equipment.  
 T technology for the use of nuclear reactor fuel element fabrication equipment.  
 T technology for the use of nuclear reactors.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	2	£231,412
Total	2	£231,412

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£231,412

general military vehicle components (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Poland  
United Arab Emirates

### OIELs (excluding Other OIELs)

#### Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008) and 1872 (2009) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee. All exports for this destination were approved in accordance with the sanctions in place.

- components for airborne refuelling equipment.
- components for airborne surveillance equipment (2 licences).
- components for aircraft military communications equipment (3 licences).
- components for armoured personnel carriers.
- components for attack alerting/warning equipment (2 licences).
- components for biological agent detection equipment.
- T components for chemical agent detection equipment.
- components for combat aircraft (5 licences).
- components for ejector seats (3 licences).
- components for ground based radars (2 licences).
- T components for launching/handling/control equipment for missiles.
- components for military bridges.
- components for military communications equipment.
- components for military electronic equipment.
- components for military infrared/thermal imaging equipment.
- components for military navigation equipment.
- components for military support aircraft.
- components for military transport aircraft (5 licences).
- components for military utility helicopters (2 licences).
- components for naval radars.
- components for optical target acquisition equipment.
- components for optical target surveillance equipment (2 licences).
- components for pistols.
- components for semi-automatic pistols (2 licences).
- components for small arms training equipment.
- components for sniper rifles (6 licences).
- T components for sniper rifles.
- components for sporting rifles.
- components for submachine guns.
- components for submarines.
- components for surface-to-air missiles.
- components for test equipment for airborne surveillance equipment.
- components for training equipment for man portable air defence systems.
- components for veterinary/tranquillising ammunition.

control equipment for surface-to-air missiles.  
crowd control ammunition.  
decoy flares (2 licences).

T electronic warfare equipment.

T equipment for the development of fire control equipment.  
equipment for the development of military communications equipment.  
equipment for the production of small arms ammunition.  
equipment for the use of military communications equipment.  
equipment for the use of sniper rifles.

T equipment for the use of sniper rifles.  
general military aircraft components (3 licences).  
general military vehicle components (3 licences).  
grenade launchers.  
gun mountings.  
gun silencers (3 licences).

T gun silencers.  
handling equipment for air-to-surface missiles.  
military aircraft ground equipment.  
military aircraft navigation equipment.  
military communications equipment.  
military devices for initiating explosives.

T military flying helmets.

T military improvised explosive device jamming equipment.  
military parachutes.  
military training aircraft.

T military training aircraft.  
military video processing equipment.

T nuclear radiation detection equipment.  
optical target surveillance equipment.  
periscopes.  
projectile launchers.  
replica vintage guns (4).

T rifles (1).  
rifles (1).  
shotguns (1) (3 licences).  
shotguns (2).  
shotguns (3).  
shotguns (4) (2 licences).  
shotguns (5) (3 licences).  
small arms ammunition (8 licences).

T small arms ammunition.  
small arms training equipment.  
sniper rifles (1) (3 licences).  
sniper rifles (3).

T sniper rifles (4).

T sniper rifles (6).

T software enabling equipment to function as command communications control and intelligence equipment.  
software for the use of command communications control and intelligence software.

T software for the use of military communications equipment.  
sporting guns (1) (4 licences).  
sporting guns (3).  
sporting guns (5).  
sporting guns (21).  
sporting guns (29).  
sporting guns (1000).  
sporting rifles (1) (6 licences).  
sporting rifles (1) (7 licences).  
sporting rifles (2) (2 licences).  
sporting rifles (4) (3 licences).  
sporting rifles (19).  
submachine guns (600).  
surface-to-air missiles.  
technology for the development of air-to-air missiles (3 licences).  
technology for the production of air-to-air missiles.  
technology for the use of air-to-air missiles.  
technology for the use of projectile launchers.  
technology for the use of small arms training equipment.

T technology for the use of sniper rifles.  
technology for the use of submachine guns.

- T test equipment for airborne surveillance equipment.  
 test equipment for military training aircraft.  
 test models for the development of air-to-air missiles.  
 training equipment for biological agent detection equipment.  
 training equipment for man portable air defence systems.  
 unfinished products for unmanned air vehicles.  
 veterinary/tranquillising ammunition.  
 weapon cleaning equipment (4 licences).  
 weapon night sights (2 licences).  
 weapon sight mounts (5 licences).
- T weapon sight mounts.  
 weapon sights (14 licences).
- T weapon sights (2 licences).

### Non-military

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	24	£377,992
Total	24	£377,992

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	4	£85,738
ML5	6	£56,209
ML9	1	£9,353
ML10	6	£38,431
ML11	4	£163,500
ML15	1	£13,766
ML16	2	£1,569
PL5017	1	£9,425

aircraft military communications equipment.  
 components for air-to-surface missiles.  
 components for airborne electronic warfare equipment.  
 components for aircraft radars.  
 components for attack alerting/warning equipment (2 licences).  
 components for chaff equipment.  
 components for combat aircraft (2 licences).  
 components for electronic warfare equipment (2 licences).  
 components for guided missile decoying equipment.  
 components for laser rangefinders.  
 components for military cameras.  
 components for military communications equipment.  
 components for military transport aircraft.  
 components for periscopes (2 licences).  
 components for submarines.  
 components for surface-to-air missiles.  
 equipment for the use of military communications equipment.  
 general military aircraft components (2 licences).  
 military communications equipment.  
 unfinished products for combat aircraft (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Ecuador  
 Egypt  
 Finland  
 France  
 Gabon  
 Germany  
 India  
 New Zealand  
 Norway  
 Pakistan  
 Saudi Arabia  
 South Korea  
 Spain  
 Sweden  
 Switzerland  
 Turkey  
 United Arab Emirates

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	software for the use of test equipment for inertial equipment, test equipment for inertial equipment
2 (Rv)	P	air guns, rifles, semi-automatic pistols, shotguns, sporting pistols
3	P	components for aircraft missile protection systems, components for electronic warfare equipment, military electronic equipment, military video recording equipment
4	P	general naval vessel components, technology for the use of general naval vessel components
5	P	components for non-military firing sets, non-military firing sets
6	P	components for shotguns, shotguns
7	P	components for military transport aircraft, technology for military transport aircraft
8	P	components for military aero-engines, general military aircraft components, general military vehicle components
9	P	components for aircraft radars, components for ground based radars
10	P	accessories for military image intensifier equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for training equipment for military training aircraft, airborne targeting equipment, airborne underwing equipment, aircraft cannons, aircraft radars, attack alerting/warning equipment, components for airborne targeting equipment, components for aircraft cannons, components for aircraft radars, components for attack alerting/warning equipment, components for fire control equipment, components for launching equipment for air-to-air missiles, components for launching equipment for air-to-surface missiles, components for launching equipment for anti-armour missiles, components for military communications equipment, components for military image intensifier equipment, components for military infrared/thermal imaging equipment, components for military photographic equipment, components for military video recording equipment, components for night vision goggles, components for test equipment for airborne targeting equipment, components for test equipment for aircraft radars, components for test equipment for fire control equipment, components for test equipment for military communications equipment, components for test equipment for weapon control systems, components for training equipment for military training aircraft, components for weapon control systems, components for weapon day and night sights, ejector seats, equipment for the production of military training aircraft, fire control

		equipment, launching equipment for air-to-air missiles, launching equipment for air-to-surface missiles, launching equipment for anti-armour missiles, military aero-engines, military aircraft flight data recorders, military aircraft ground equipment, military communications equipment, military image intensifier equipment, military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military photographic equipment, military training aircraft, military video recording equipment, night vision goggles, software for the use of airborne targeting equipment, software for the use of airborne underwing equipment, software for the use of aircraft radars, software for the use of attack alerting/warning equipment, software for the use of equipment for the production of military training aircraft, software for the use of fire control equipment, software for the use of military aero-engines, software for the use of military aircraft flight data recorders, software for the use of military aircraft ground equipment, software for the use of military communications equipment, software for the use of military infrared/thermal imaging equipment, software for the use of military photographic equipment, software for the use of military training aircraft, software for the use of military video recording equipment, software for the use of test equipment for military training aircraft, software for the use of training equipment for military training aircraft, technology for the production of military training aircraft, technology for the use of airborne targeting equipment, technology for the use of airborne underwing equipment, technology for the use of aircraft cannons, technology for the use of aircraft radars, technology for the use of attack alerting/warning equipment, technology for the use of ejector seats, technology for the use of fire control equipment, technology for the use of launching equipment for air-to-air missiles, technology for the use of launching equipment for air-to-surface missiles, technology for the use of launching equipment for anti-armour missiles, technology for the use of military aero-engines, technology for the use of military aircraft flight data recorders, technology for the use of military aircraft ground equipment, technology for the use of military communications equipment, technology for the use of military image intensifier equipment, technology for the use of military infrared/thermal imaging equipment, technology for the use of military parachutes, technology for the use of military parachutist equipment, technology for the use of military photographic equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of night vision goggles, technology for the use of training equipment for military training aircraft, technology for the use of weapon control systems, technology for the use of weapon day and night sights, test equipment for airborne targeting equipment, test equipment for aircraft radars, test equipment for fire control equipment, test equipment for military communications equipment, test equipment for military training aircraft, test equipment for weapon control systems, training equipment for military training aircraft, weapon control systems, weapon day and night sights
11	P	equipment employing cryptography
12	P	components for control equipment for munitions, components for military aircraft navigation equipment, components for military communications equipment, components for test equipment for military aircraft ground equipment, general military aircraft components
13	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
14	P	air guns, components for air guns, gun silencers, weapon sight mounts
15	P	components for military aero-engines, general military aircraft components
16	P	hydrophones, towed hydrophone arrays
17	P	components for combat aircraft, military aircraft ground equipment, technology for the use of combat aircraft, technology for the use of military aircraft ground equipment
18	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
19	P	software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems

20	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
21	P	equipment employing cryptography
22	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
23	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
24	P	components for corrosion resistant chemical manufacturing equipment, corrosion resistant chemical manufacturing equipment
25	P	components for submersible equipment, components for submersible vehicles, heading sensors for hydrophone arrays, high energy capacitors, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
26	P	accessories for airborne targeting equipment, accessories for bombing computers, accessories for film processing equipment, accessories for imaging counter-countermeasures equipment, accessories for imaging countermeasure/counter-countermeasures equipment, accessories for imaging countermeasures equipment, accessories for military cameras, accessories for military image intensifier equipment, accessories for military imaging radar equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video processing equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for optical target acquisition equipment, accessories for optical target designator equipment, accessories for optical target surveillance equipment, accessories for optical target tracking equipment, accessories for sensor data recorders, accessories for sensor integration equipment, accessories for simulators for military training aircraft, accessories for training equipment for military training aircraft, accessories for weapon control systems, airborne electronic warfare equipment, airborne refuelling equipment, airborne targeting equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, bombing computers, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for airborne targeting equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for bombing computers, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for film processing equipment, components for helmet mounted display equipment, components for imaging counter-countermeasures equipment, components for imaging countermeasure/counter-countermeasures equipment, components for imaging countermeasures equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military cameras, components for military containers, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military parachutist equipment, components for military photographic equipment, components for military training aircraft, components for military video processing equipment, components for military video recording equipment, components for night vision goggles, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor data recorders, components for sensor integration equipment, components for simulators for military training aircraft, components for training equipment for military training aircraft, components for weapon control systems, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation

		rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, film processing equipment, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, imaging counter-countermeasures equipment, imaging countermeasures equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military cameras, military containers, military flying helmets, military image intensifier equipment, military imaging radar equipment, military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military parametric technical databases, military photographic equipment, military video processing equipment, military video recording equipment, night vision goggles, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, sensor data recorders, sensor integration equipment, simulators for military training aircraft, software enabling equipment to function as military training aircraft, software for military training aircraft, software for the evaluation of weapon systems, software for the modelling of military operation scenarios, software for the modelling of weapon systems, software for the simulation of military operation scenarios, software for the simulation of weapon systems, software for the use of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft, test models for the development of military training aircraft, training equipment for military training aircraft, weapon control systems
27	P	air guns
28	P	components for sporting guns, pistols, sporting guns, weapon sights
29	P	components for sporting guns, sporting guns
30	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components

Rv - Some or all of which have subsequently been revoked.

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
2	P	corrosion resistant chemical manufacturing equipment
3	P	air guns, components for air guns, gun silencers, weapon sights
4	P	blank ammunition, inert ammunition, small arms ammunition, training blank ammunition, training inert ammunition, training small arms ammunition

 T weapon day and night sights.  
 T weapon night sights (2 licences).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	11	£351,203
Non-military	1	£530,732
Total	12	£881,935

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	10	£166,204
ML11	2	£184,999
ML22	1	£0

components for military aircraft navigation equipment.  
 components for military training aircraft (9 licences).  
 components for military utility helicopters.  
 components for naval navigation equipment.  
 components for naval radars.  
 technology for the use of naval navigation equipment.  
 technology for the use of naval radars.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£530,732

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Indonesia  
 Turkey  
 United States of America

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography
2	T	software for the use of test equipment for inertial equipment, test equipment for inertial equipment
3	P	components for simulators for military training aircraft
4	P	general naval vessel components, technology for the use of general naval vessel components
5	P	components for lasers, laser optical components, lasers
6	P	technology for the production of military aero-engines
7	P	equipment employing cryptography, software for the use of equipment employing cryptography
8	P	equipment employing cryptography
9	P	components for submarines
10	P	components for landing craft, components for patrol craft, equipment for the production of landing craft, equipment for the production of patrol craft, equipment for the use of landing craft, equipment for the use of patrol craft, technology for the production of landing craft, technology for the production of patrol craft, technology for the use of landing craft, technology for the use of patrol craft
11	P	components for military aero-engines, general military aircraft components, general military vehicle components
12	P	components for aircraft radars, components for ground based radars

13	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
14	P	cryptographic software, equipment for the development of equipment employing cryptography, frequency synthesisers
15	P	components for simulators for military training aircraft
16	P	software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
17	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
18	P	mixtures containing chemicals used for industrial/commercial processes
19	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
20	P	triggered spark gaps
21	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	8	£185,088
Non-military	11	£786,001
Total	19	£971,089

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£3,923
ML3	1	£660
ML10	2	£75,984
ML11	2	£53,855
ML17	2	£50,666

air guns (5).  
cloth treated for signature suppression for military use.  
components for military sonar detection equipment (2 licences).  
components for military utility helicopters (2 licences).  
components for veterinary/tranquillising ammunition.  
components for veterinary/tranquillising rifles.  
goods treated for signature suppression for military use.  
veterinary/tranquillising rifles (1).  
weapon sights.

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C010	2	£436,600
1C350	5	£33,400
5A002	1	£83,101
7A003	3	£178,900
7A103	1	£54,000

chemicals used for industrial/commercial processes.  
chemicals used for pharmaceutical/healthcare production (4 licences).  
equipment employing cryptography.  
fibrous/filamentary materials (2 licences).  
inertial equipment (2 licences).  
T inertial equipment.

## Refused

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£27,000
Total	1	£27,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A103	1	£27,000

inertial equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

India

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for military airborne cargo handling equipment, military airborne cargo handling equipment, technology for the production of military airborne cargo handling equipment, unfinished products for military airborne cargo handling equipment [See footnote 2]
2	P	mixtures containing chemicals used for industrial/commercial processes
3	P	bomb suits, civil body armour, components for bomb suits, components for civil body armour, components for explosive ordnance disposal equipment, demolition devices, explosive ordnance disposal equipment, improvised explosive device disposal equipment, military devices for initiating explosives, military firing sets, military helmets, mine detection equipment, non-military firing sets

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
2	P	hydrophones, towed hydrophone arrays

#### SITCLs

Source	Issued	Refused	Revoked
Germany	1	0	0
Malaysia	1	0	0
Malta	1	0	0

#### Issued

all-wheel drive vehicles with ballistic protection [See footnote 1].  
 assault rifles (3).  
 body armour.  
 combat shotguns (3).  
 small arms ammunition.

### Case & goods Footnotes

1. Approval is based on sole end use by a diplomatic mission in Sri Lanka
2. The OIEL is approved on the basis that the goods are to be manufactured in Sri Lanka but are not for end use there.

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	1	£29,280
Non-military	1	£46,148
Both Military and Non-military	2	£413,497
Total	4	£488,925

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£29,280

NBC respirators.

#### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£46,148

civil explosive detection/identification equipment.

#### **Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£42,581
1A006	1	£259,446
ML7	1	£34,384
ML11	1	£8,356
ML13	1	£68,730

biological agent detection equipment.  
bomb suits.  
civil NBC detection systems.  
components for improvised explosive device disposal remotely operated vehicles.  
components for military helmets.  
improvised explosive device disposal remotely operated vehicles.  
military communications equipment.  
military helmets.

## Refused

	Count
Military	2
Total	2

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry

components for tanks.

T components for test equipment for airborne surveillance equipment.  
components for torpedoes.  
components for unmanned air vehicles.  
components for weapon control systems.  
control equipment for unmanned air vehicles.

T defensive systems against NBC agents.  
equipment for the development of anti-armour weapons.  
equipment for the production of explosive devices.  
equipment for the production of launching equipment for bombs.  
equipment for the production of military electronic equipment.  
equipment for the use of anti-armour weapons.

T equipment for the use of chemical agent detection equipment (2 licences).  
equipment for the use of military cameras.

T equipment for the use of military video recording equipment.  
equipment for the use of weapon day and night sights.

T equipment for the use of weapon sights.  
explosive ordnance disposal equipment.  
general military aircraft components.  
general military vehicle components.

T general military vehicle components.  
illuminators.  
inert anti-armour missiles.  
large calibre artillery ammunition.  
launching/handling/control/support equipment for unmanned air vehicles.

T military aircraft ground equipment.  
military cameras.  
military cargo vehicles.  
military communications equipment (2 licences).

T military communications equipment.

T military electronic equipment (5 licences).  
military image intensifier equipment.

T military image intensifier equipment (4 licences).  
military infrared/thermal imaging equipment (2 licences).

T military infrared/thermal imaging equipment.  
military navigation equipment.  
military underwater remotely operated vehicles.

T military video processing equipment.  
military video recording equipment.

T military video recording equipment (2 licences).

T NBC clothing (3 licences).

T NBC decontamination equipment.  
NBC detection equipment.

T NBC filters (4 licences).

T NBC protective equipment.  
NBC respirators.

T NBC respirators (2 licences).  
non-sporting shotgun ammunition.

T nuclear radiation detection equipment (2 licences).

T optical target acquisition equipment.

T optical target designator equipment (3 licences).  
rifles (2).  
shotguns (1) (2 licences).  
shotguns (2).  
shotguns (5).

T simulators for chemical agent detection equipment (3 licences).  
software enabling equipment to function as electronic warfare equipment.  
software enabling equipment to function as fire simulation equipment for large calibre artillery.  
software enabling equipment to function as fire simulation equipment for small calibre artillery.  
Software for modelling/simulating/evaluating weapon systems.

T software for the modelling of military operation scenarios.  
software for the simulation of military operation scenarios.

T software for the use of biological agent detection equipment.

T software for the use of chemical agent detection equipment.  
software for the use of command communications control and intelligence software.  
software for the use of control equipment for surface-to-air missiles.  
software for the use of military communications equipment.  
sporting rifles (1).  
tank transporters.  
technology for anti-armour weapons.  
technology for NBC detection equipment.  
technology for the development of unmanned air vehicles (2 licences).  
technology for the production of anti-armour weapons.  
technology for the production of naval radars.  
technology for the use of chemical agent detection equipment (2 licences).

T test equipment for airborne surveillance equipment.  
test equipment for aircraft radars.  
test equipment for launching equipment for bombs.  
test equipment for optical target surveillance equipment.  
test models for the development of combat aircraft.  
unfinished products for anti-armour weapons (2 licences).  
unfinished products for combat aircraft.

T unfinished products for military training aircraft.

T weapon day and night sights (5 licences).  
weapon night sights (3 licences).

T weapon night sights (5 licences).

- T weapon sight mounts (2 licences).  
 weapon sights (3 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	2	£2
0C002	1	£1
0C004	1	£2
0E001	4	£163,200
PL8001	3	£60,555

- components for improvised explosive device disposal equipment.  
 components for nuclear reactors (2 licences).  
 devices for initiating explosives.  
 enriched uranium.
- T explosives detection equipment.  
 improvised explosive device disposal equipment.  
 nuclear grade graphite.  
 technology for the production of nuclear reactor fuel element fabrication equipment.  
 technology for the production of nuclear reactors (3 licences).  
 technology for the production of uranium conversion equipment.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£305,000
1A008	1	£5,200
ML4	2	£6,996
ML7	1	£238,800
ML8	3	£33,200
ML21	1	£500
PL5017	1	£5,660

- T biological agent detection equipment.  
 T chemical agent detection equipment.  
 T civil explosive detection/identification equipment.  
 T civil NBC detection systems.  
 T components for chemical agent detection equipment.  
 components for military firing sets (2 licences).  
 components for non-military firing sets (2 licences).  
 detonating cord.  
 devices for initiating explosives (3 licences).
- T equipment for the use of chemical agent detection equipment.  
 explosives (3 licences).  
 military devices for initiating explosives (2 licences).  
 military firing sets (2 licences).  
 non-military firing sets (2 licences).
- T software for the use of chemical agent detection equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	68	£6,489,554
Total	68	£6,489,554

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	3	£3,453,590
ML4	10	£593,887
ML5	24	£2,140,974
ML6	3	£25,054
ML7	1	£29,925
ML9	6	£26,786
ML10	20	£139,253
ML11	1	£20,132
ML17	1	£2,088
ML22	1	£49,594
PL5017	1	£8,271

chemical agent detection equipment.  
 components for aircraft radars (7 licences).  
 components for artillery.  
 components for artillery fire location equipment.  
 components for chaff equipment.  
 components for combat aircraft (19 licences).  
 components for control equipment for air-to-surface missiles.  
 components for fire location equipment.  
 components for ground based radars (5 licences).  
 components for guided missile decoying equipment (6 licences).  
 components for large calibre artillery.  
 components for launching/handling/control equipment for missiles.  
 components for military radars (5 licences).  
 components for military transport aircraft.  
 components for naval gun installations/mountings.  
 components for naval light guns (2 licences).  
 components for naval radars (5 licences).  
 components for submarines (2 licences).  
 components for turrets.  
 control equipment for surface-to-air missiles.  
 equipment for the use of chemical agent detection equipment.  
 general military vehicle components (2 licences).  
 general naval vessel components (3 licences).  
 materials for reduced electromagnetic reflectivity for military use.  
 technology for the use of control equipment for surface-to-air missiles.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	100	£4,658,283
Non-military	21	£1,370,832
Both Military and Non-military	2	£1,728,000
Total	123	£7,757,115

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	24	£491,904
ML2	6	£84,474
ML3	6	£117,383
ML4	2	£7,986

- aircraft cannon ammunition (2 licences).
- anti-g/pressure suits.
- anti-riot/ballistic shields.
- armoured personnel carriers.
- armoured plate.
- ballistic shields.
- ballistic test equipment.
- body armour (3 licences).
- components for anti-aircraft guns (5 licences).
- T components for assault rifles.
- components for ballistic shields.
- components for ballistic test equipment.
- components for body armour (2 licences).
- T components for chaff equipment.
- components for chemical agent detection equipment (2 licences).
- components for combat aircraft (11 licences).
- components for ground based radars.
- components for gun silencers.
- components for military aero-engines.
- components for military aircraft pressurised breathing equipment (2 licences).
- T components for military communications equipment.
- components for military helmets.
- components for military improvised explosive device disposal equipment.
- T components for military navigation equipment.
- components for military training aircraft (10 licences).
- components for military transport aircraft.
- components for military video processing equipment (3 licences).
- components for semi-automatic pistols.
- components for small calibre artillery.
- components for sniper rifles.
- components for targeting equipment.
- energetic materials additives.
- T equipment for the use of military communications equipment.
- general military aircraft components.
- machine pistols (1).
- military aircraft pressurised breathing equipment.
- military aircrew protective equipment.
- T military communications equipment.
- military helmets.

- T military navigation equipment.  
military parachutes (5 licences).  
semi-automatic pistols (29).  
shotguns (1) (2 licences).  
shotguns (2) (2 licences).  
shotguns (8).  
small arms ammunition (4 licences).  
sniper rifles (1).  
software for the use of military training aircraft.  
sporting guns (3).  
sporting guns (5).  
sporting rifles (1) (2 licences).
- T sporting rifles (1).
- T targeting equipment.  
technology for periscopes.  
technology for the use of military training aircraft (5 licences).  
training equipment for semi-automatic pistols.
- T unfinished products for military aero-engines.  
weapon sights (8 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

T weapon night sights (2 licences).  
T weapon sight mounts (2 licences).

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	24	£3,896,309
Total	24	£3,896,309

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£797
ML10	22	£3,847,212
PL5017	1	£48,300

components for combat aircraft.  
 components for fire control equipment.  
 components for military aircraft pressurised breathing equipment (2 licences).  
 components for military aircrew breathing equipment.  
 components for military training aircraft (13 licences).  
 components for unmanned air vehicles.  
 equipment for the use of night vision goggles.  
 general military aircraft components (5 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
 Austria  
 Chile  
 India  
 Indonesia  
 Malaysia  
 Mexico  
 Netherlands  
 Saudi Arabia  
 Spain  
 United Arab Emirates

No.	Type	Goods Summary
1	P	equipment employing cryptography
2 (Rv)	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft [See footnote 1]
3	P	technology for the production of military aero-engines
4	P	equipment employing cryptography, software for the use of equipment employing cryptography
5	P	equipment employing cryptography
6	P	cryptographic software, equipment for the development of equipment employing cryptography, frequency synthesisers
7	P	equipment employing cryptography
8	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography
9	P	mixtures containing chemicals used for industrial/commercial processes
10	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography, technology for the use of software for the use of equipment employing cryptography
11	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
12	T	cryptographic software, equipment employing cryptography, radio jamming equipment

Rv - Some or all of which have subsequently been revoked.

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military aero-engines, general military aircraft components, general military vehicle components
2	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays

#### SITCLs

Source	Issued	Refused	Revoked
India	1	0	0
South Africa	1	0	0

#### Issued

military helmets.  
small calibre artillery ammunition.

#### Case & goods Footnotes

1. All exports under this open licence are initially exported to the US to support their FMS Programme and onward export to Taiwan.

## Tajikistan

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	21	£283,407
Non-military	6	£2,454,164
Total	27	£2,737,570

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£73,683
ML3	4	£1,594
ML6	11	£208,130

military cargo vehicles (5 licences).  
 military engineer vehicles (3 licences).  
 military motorcycles (2 licences).  
 military support vehicles (2 licences).  
 military trailers (2 licences).  
 rifles (1).  
 shotguns (1) (2 licences).  
 shotguns (2).  
 small arms ammunition (4 licences).  
 sporting rifles (1) (5 licences).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	3	£14,587
5D001	1	£15,000
5D002	2	£6,577
6A001	2	£2,418,000

cryptographic software (2 licences).  
 equipment employing cryptography (3 licences).  
 heading sensors for hydrophone arrays.  
 T software replicating controlled telecommunications equipment.  
 towed hydrophone arrays.

#### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	hydrophones, towed hydrophone arrays
2	P	equipment employing cryptography

## Rejected

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£99,403
Non-military	7	£1,382,291
Total	16	£1,481,694

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	6	£68,925
ML13	1	£9,523
ML17	1	£1,250
PL5035	2	£19,705

body armour.  
 components for all-wheel drive vehicles with ballistic protection (2 licences).  
 components for body armour.  
 general military vehicle components.  
 military cargo vehicles (3 licences).  
 military containers.  
 military engineer vehicles.  
 military helmets.  
 military support vehicles.  
 military trailers.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	5	£95,667
5D001	1	£15,000
5D002	1	£5,519
7A002	1	£1,266,000
7E101	1	£105

cryptographic software.  
 equipment employing cryptography (5 licences).  
 T gyroscopes.  
 T software replicating controlled telecommunications equipment.  
 T technology for the use of gyroscopes.

### OIELs (excluding Other OIELs)

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets

13	P	equipment employing cryptography
14	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
15	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
16	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography, technology for the use of software for the use of equipment employing cryptography
17	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
18	P	components for submersible equipment, components for submersible vehicles, heading sensors for hydrophone arrays, high energy capacitors, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
19	P	accessories for airborne targeting equipment, accessories for bombing computers, accessories for film processing equipment, accessories for imaging counter-countermeasures equipment, accessories for imaging countermeasure/counter-countermeasures equipment, accessories for imaging countermeasures equipment, accessories for military cameras, accessories for military image intensifier equipment, accessories for military imaging radar equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video processing equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for optical target acquisition equipment, accessories for optical target designator equipment, accessories for optical target surveillance equipment, accessories for optical target tracking equipment, accessories for sensor data recorders, accessories for sensor integration equipment, accessories for simulators for military training aircraft, accessories for training equipment for military training aircraft, accessories for weapon control systems, airborne electronic warfare equipment, airborne refuelling equipment, airborne targeting equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, bombing computers, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for airborne targeting equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for bombing computers, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for film processing equipment, components for helmet mounted display equipment, components for imaging counter-countermeasures equipment, components for imaging countermeasure/counter-countermeasures equipment, components for imaging countermeasures equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military

		aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military cameras, components for military containers, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military parachutist equipment, components for military photographic equipment, components for military training aircraft, components for military video processing equipment, components for military video recording equipment, components for night vision goggles, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor data recorders, components for sensor integration equipment, components for simulators for military training aircraft, components for training equipment for military training aircraft, components for weapon control systems, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, film processing equipment, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, imaging counter-countermeasures equipment, imaging countermeasure/counter-countermeasures equipment, imaging countermeasures equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military cameras, military containers, military flying helmets, military image intensifier equipment, military imaging radar equipment, military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military parametric technical databases, military photographic equipment, military video processing equipment, military video recording equipment, night vision goggles, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, sensor data recorders, sensor integration equipment, simulators for military training aircraft, software enabling equipment to function as military training aircraft, software for military training aircraft, software for the evaluation of weapon systems, software for the modelling of military operation scenarios, software for the modelling of weapon systems, software for the simulation of military operation scenarios, software for the simulation of weapon systems, software for the use of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft, test models for the development of military training aircraft, training equipment for military training aircraft, weapon control systems
20	P	components for military improvised explosive device disposal equipment, military improvised explosive device disposal equipment
21	P	components for all-wheel drive vehicles with ballistic protection
22	P	components for electronic warfare equipment, equipment for the use of electronic warfare equipment, software for electronic warfare equipment, technology for electronic warfare equipment

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	inertial equipment
2	P	air guns, components for air guns, gun silencers, weapon sights
3	T	demolition charges, detonating cord, devices for initiating explosives, shaped charges

### SITCLs

Source	Issued	Refused	Revoked
Belarus	1	0	0
United States of America	1	0	0

## Issued

firearm training simulators.  
weapon night sights.  
weapon sights.

## OITCLs

Source	Issued	Refused	Revoked
Jordan	1	0	0
South Africa	2	0	0
United States of America	1	0	0

## Issued

all-wheel drive vehicles with ballistic protection.  
body armour.  
bomb suits.  
components for all-wheel drive vehicles with ballistic protection.  
components for body armour.  
high power RF weapon systems.  
military helmets (2 licences).

# United Kingdom

## Processing Statistics

Median processing time SIELs	7 days
% and number of SIELs completed in 20 working days	87% (41)
% and number of SIELs completed in 60 working days	98% (46)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	14 days
% and number of OIELs completed in 20 working days	57% (4)
% and number of OIELs completed in 60 working days	100% (7)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	4 days
% and number of OITCLs completed in 20 working days	67% (2)
% and number of OITCLs completed in 60 working days	67% (2)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£30,000

Total	1	£30,000
-------	---	---------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
8A002	1	£30,000

T submersible equipment.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aero-engines

## United States Minor Outlying Islands

### Processing Statistics

- T components for electronic warfare equipment (2 licences).
- components for equipment for the use of chemical agent detection equipment.
- components for fire control equipment.
- components for general purpose machine guns (2 licences).

components for ground based radars (6 licences).  
 components for ground vehicle military communications equipment.  
 components for guided missile decoying equipment.  
 components for guided missile decoying/detection/jamming equipment.  
 T components for heavy machine guns.  
 components for helmet mounted display equipment.  
 components for large calibre artillery (9 licences).  
 components for laser rangefinders.  
 components for launching equipment for anti-ship missiles (6 licences).  
 components for launching equipment for anti-structure rockets.  
 components for launching/handling/control equipment for missiles (3 licences).  
 components for machine guns (500).  
 components for machine guns (11 licences).  
 components for military aero-engines (38 licences).  
 T components for military aero-engines (3 licences).  
 components for military airborne equipment.  
 components for military aircraft ground equipment (9 licences).  
 components for military aircraft head-down displays (3 licences).  
 components for military aircraft head-up displays (7 licences).  
 T components for military aircraft head-up displays.  
 components for military aircraft navigation equipment (4 licences).  
 components for military aircraft pressurised breathing equipment.  
 components for military combat vehicles.  
 components for military communications equipment (36 licences).  
 T components for military communications equipment.  
 components for military distress signalling equipment (2 licences).  
 components for military electronic equipment (4 licences).  
 T components for military electronic equipment.  
 T components for military field engineer equipment.  
 components for military helicopters (2 licences).  
 components for military improvised explosive device jamming equipment.  
 T components for military improvised explosive device jamming equipment.  
 components for military infrared/thermal imaging equipment (2 licences).  
 T components for military infrared/thermal imaging equipment.  
 components for military navigation equipment (10 licences).  
 T(P) components for military radars.  
 components for military support aircraft (20 licences).  
 components for military support vehicles.  
 components for military surveillance aircraft (2 licences).  
 components for military training aircraft (9 licences).  
 components for military training equipment (2 licences).  
 components for military transport aircraft (49 licences).  
 T components for military transport aircraft.  
 components for military utility aircraft.  
 components for military utility helicopters (25 licences).  
 components for military utility vehicles (3 licences).  
 components for missile navigation equipment.  
 components for multi-role missiles.  
 components for munitions navigation equipment (2 licences).  
 components for naval electrical equipment.  
 components for naval electronic equipment.  
 components for naval engines (2 licences).  
 components for naval radars (2 licences).  
 components for NBC clothing.  
 components for NBC detection equipment (2 licences).  
 components for NBC respirators (3 licences).  
 components for night vision goggles (2 licences).  
 components for optical target designator equipment (2 licences).  
 components for optical target surveillance equipment (5 licences).  
 components for recognition/identification equipment.  
 components for rifles (3 licences).  
 components for shotguns (2 licences).  
 components for simulators for combat aircraft (5 licences).  
 components for sniper rifles (2 licences).  
 components for sporting guns.  
 components for sporting rifles (3 licences).  
 components for submachine guns (2 licences).  
 components for submarines.  
 components for surface-to-air missiles (3 licences).  
 components for surface-to-surface missiles (8 licences).

components for tanks.  
 components for test equipment for aircraft military communications equipment.  
 components for test equipment for combat aircraft.  
 components for test equipment for military communications equipment (4 licences).  
 components for test equipment for military guidance/navigation equipment.  
 T components for test equipment for military navigation equipment.  
 components for unmanned air vehicles (36 licences).  
 T components for unmanned air vehicles (2 licences).  
 T components for weapon day and night sights.  
 components for weapon night sights (2 licences).

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£1,251
Total	2	£1,251

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£1,251
5D002	1	£0

cryptographic software.  
equipment employing cryptography.  
software for the use of equipment employing cryptography.

civil explosive detection/identification equipment (4 licences).  
 civil NBC detection systems.

**Refused**

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry
ML10	1

components for combat aircraft.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
