Strategic Export Controls: Country
Pivot Report

1st July 2010 - 30th September
2010

OCTOBER 2019

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st July 2010 and 30th September 2010. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for Goods covered by Council Regulation 1236/2005 (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs:**

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3248	3177	71	0	2639	64	3939	96	16 days
- Permanent Standard	2746	2676	70	0	2273	64	3388	96	16 days
- Temporary Standard	286	285	1	0	213	64	323	98	16 days
- Transhipment	3	3	0	0	3	60	4	80	14 days
- Incorporation	211	211	0	0	150	66	222	97	15 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	2	2	0	0	0	0	2	100	40 days
SITCLs	26	26	0	0	26	59	41	93	17 days
OIELs	47	39	8	0	20	31	35	55	46 days
- Standard	44	36	8	0	15	27	29	52	56 days
- Dealer-to-dealer	1	1	0	0	2	100	2	100	10 days
- Cryptographic	1	1	0	0	2	50	3	75	22 days
- Media	0	0	0	0	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	1	1	0	0	1	50	1	50	50 days
Global Project Licences	0	0	0	0	n/a	n/a	n/a	n/a	n/a
OITCLs	2	1	1	0	8	67	9	75	7 days

Table notes:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	47	0	1
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	0	0	0
EU GEA 003 (EU003) - export after repair/replacement	0	0	0

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	13	£1,457,379
Non-military	1	£155,355
Total	14	£1,612,734

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£125,081
ML3	1	£8,928
ML6	4	£498,500
ML10	1	£2,553
ML13	8	£807,786

ML17	1	£10,000
PL5017	1	£4,531

all-wheel drive vehicles with ballistic protection.
assault rifles (120).
body armour (7 licences).
components for assault rifles.
components for body armour (6 licences).
ground vehicle military communications equipment.
military cargo vehicles.
military containers.
military engineer vehicles.
military flying helmets.
military helmets (6 licences).
small arms ammunition.
weapon cleaning equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£155,355

components for radio controlled improvised explosive device jamming equipment.
radio controlled improvised explosive device jamming equipment.

- components for military utility vehicles.
- components for naval engines.
- components for naval sonar equipment.
- components for small arms ammunition.
- components for sniper rifles (3 licences).
- components for sporting rifles.
- components for submachine guns.
- components for submarines.
- components for surface-to-air missiles.
- energetic materials additives.
- T(P) equipment for the development of military underwater remotely operated vehicles.
- equipment for the production of small arms ammunition.
- equipment for the use of armoured fighting vehicles.
- equipment for the use of military communications equipment (2 licences).
- general military aircraft components (2 licences).
- gun mountings (2 licences).
- military aircrew protective equipment.
- military communications equipment (2 licences).
- T military electronic equipment.
- military engineer vehicles.
- T military infrared/thermal imaging equipment (2 licences).
- military utility vehicles.
- T military utility vehicles.
- NBC clothing (2 licences).
- non-sporting shotgun ammunition.
- shotguns (1) (2 licences).
- shotguns (3) (2 licences).
- small arms ammunition.
- small calibre artillery.
- sniper rifles (1).
- T(P) software for the development of military underwater remotely operated vehicles.
- software for the modelling of weapon systems.

- T software for the simulation of military operation scenarios.
- T software for the use of military communications equipment.
- sporting rifles (1) (2 licences).
- sporting rifles (2) (2 licences).
- T(P) technology for the development of military underwater remotely operated vehicles.
- technology for the use of armoured fighting vehicles.
- training ammunition for wall and door breaching projectile launchers.
- training tear gas/irritant ammunition.
- weapon cleaning equipment (2 licences).
- weapon day and night sights (2 licences).
- T weapon day and night sights.
- T weapon night sights.
- weapon sights (4 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C240	1	£17,500
1C351	1	£310
1C354	1	£60
5A001	1	£3,200
PL8001	1	£5,254

- devices for initiating explosives.
- nickel powders.
- plant pathogens.
- T radio controlled improvised explosive device jamming equipment.
- toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,500
ML7	1	£7,900
ML11	1	£1,500
PL5017	1	£300

- T civil NBC protection equipment.
- T equipment for the use of NBC respirators.
- T NBC clothing.
- T NBC filters.
- T NBC respirators.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives

2	P	blank ammunition, inert ammunition, small arms ammunition, training blank ammunition, training inert ammunition, training small arms ammunition
3	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
4	P	components for military aero-engines
5	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
6	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
7	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	9	£87,050
Non-military	1	£3
Total	10	£87,053

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£13,324
ML6	3	£71,617
ML21	1	£2,110

components for armoured fighting vehicles (2 licences).
 general military vehicle components.
 shotguns (1) (3 licences).
 sniper rifles (1).
 software for the use of equipment for the use of military communications equipment.
 weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£3

T technology for the development of nuclear fuel reprocessing equipment.
 T technology for the development of nuclear reactor fuel element fabrication equipment.
 T technology for the development of nuclear reactors.
 T technology for the production of nuclear fuel reprocessing equipment.

T technology for the production of nuclear reactor fuel element fabrication equipment.
 T technology for the production of nuclear reactors.
 T technology for the use of nuclear fuel reprocessing equipment.
 T technology for the use of nuclear reactor fuel element fabrication equipment.
 T technology for the use of nuclear reactors.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£1,104,760
Total	3	£1,104,760

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£788,525
ML7	2	£4,232
ML11	1	£301,427
ML22	1	£6,286
PL5017	2	£4,290

components for armoured fighting vehicles.
 components for NBC filters.
 defensive systems against NBC agents.
 equipment for the use of military communications equipment.
 equipment for the use of NBC filters.
 military communications equipment.
 technology for the use of military communications equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Kuwait

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896 and 1952 (2010)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£5,190
Non-military	1	£3,507
Total	3	£8,697

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£5,190

components for military transport aircraft (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
8A002	1	£3,507

rebreathing swimming apparatus.

chemical agent detection equipment (4 licences).
components for air-to-air missiles.
components for air-to-surface missiles.
components for airborne electronic warfare equipment.
components for aircraft military communications equipment.
components for aircraft radars.
components for anti-armour ammunition.
components for armoured fighting vehicles (6 licences).
components for armoured personnel carriers.
components for assault rifles (3 licences).

T components for biological agent detection equipment.
components for body armour (2 licences).
components for bridge laying vehicles.
components for chaff equipment.
components for chemical agent detection equipment.

T components for chemical agent detection equipment (3 licences).
components for combat aircraft (6 licences).

T components for combat aircraft (2 licences).
components for control equipment for exploding simulation devices.
components for decoy flares.
components for general purpose machine guns.
components for ground based radars (3 licences).
components for gun mountings.
components for illuminators.
components for large calibre artillery ammunition.
components for laser rangefinders.
components for light strike vehicles.

T components for military aero-engines (5 licences).
components for military aero-engines (4 licences).
components for military aircraft navigation equipment.
components for military communications equipment (3 licences).
components for military infrared/thermal imaging equipment.
components for military transport aircraft (3 licences).
components for military utility helicopters (2 licences).

T components for mine countermeasures equipment.
components for naval acoustic equipment.
components for naval radars.
components for optical target acquisition equipment.
components for signal flares.
components for sniper rifles (3 licences).
components for submarines.
components for surface-to-air missiles.
components for test equipment for air-to-air missiles.
components for weapon control systems.
decoy flares (3 licences).

T equipment for the production of military aero-engines.
equipment for the use of chemical agent detection equipment (2 licences).

T equipment for the use of software for the simulation of military operation scenarios.

T equipment for the use of weapon day and night sights (2 licences).
explosive charges.
general military aircraft components (3 licences).
general military vehicle components (3 licences).
general purpose machine guns (1).
general purpose machine guns (5).
gun mountings (3 licences).
inert ammunition.
large calibre artillery ammunition.

T materials for reduced electromagnetic reflectivity for military use.
military aircraft ground equipment.

- T military cargo vehicles.
- military devices for initiating explosives.
- T military engineer vehicles.
- military helmets.
- T military infrared/thermal imaging equipment (2 licences).
- military navigation equipment.
- T military trailers.
- T military utility vehicles.
- precursors for energetic materials (3 licences).
- projectile launchers.
- pyrotechnics/fuels and related substances.
- rifles (1).
- signature suppression coatings for military use.
- simulators for chemical agent detection equipment.
- small arms ammunition.
- smoke hand grenades.
- sniper rifles (1) (2 licences).
- sniper rifles (2).
- software enabling equipment to function as military sonar detection equipment.
- software for the simulation of military operation scenarios.
- software for the use of chemical agent detection equipment.
- T software for the use of chemical agent detection equipment.
- T software for the use of military aircraft ground equipment.
- sporting rifles (1).
- tear gas/riot control agents.
- technology for the development of unmanned air vehicles.
- technology for the production of air-to-surface missiles.
- technology for the production of decoy flares.
- technology for the production of test equipment for air-to-air missiles.
- technology for the use of decoy flares.
- technology for the use of software enabling equipment to function as military sonar detection equipment.
- test equipment for attack alerting/warning equipment.
- test equipment for recognition/identification equipment (2 licences).
- training equipment for chemical agent detection equipment.
- unfinished products for combat aircraft.
- unfinished products for military aero-engines.
- T weapon day and night sights (2 licences).
- T weapon night sights (2 licences).
- T weapon sight mounts (2 licences).
- weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0B002	1	£441,666
0E001	1	£600
6A001	1	£18,000

- T technology for the production of nuclear reactors.
- towed hydrophone arrays.
- uranium isotope separation equipment.

Both Military and Non-military

Country Footnotes

1. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran. New measures include:
 - stopping new Iranian nuclear facilities and banning Iranian nuclear investment;
 - total bans on exports of several major categories of arms, and further restrictions on Iran's ballistic missile programme;
 - asset freezes of 40 entities;
 - an asset freeze and travel ban on one senior nuclear scientist;
 - restrictions on financial services, including insurance and reinsurance, where there is suspicion of a proliferation link ;
 - a ban on existing and new correspondent banking relationships where there are proliferation concerns;

The European Union signalled its intent to impose further sanctions against Iran in a European Council declaration on 17 June. The declaration requested the Foreign Affairs Council to adopt at its next session measures implementing those contained in the UN Security Council Resolution 1929 as well as accompanying measures, with a view to supporting the resolution of all outstanding concerns regarding Iran's development of sensitive technologies in support of its nuclear and missile programmes, through negotiation. These should focus on the areas of trade, especially dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC).

All exports for this destination were approved in accordance with the sanctions in place.

- UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 17 December 2010 by UNSCR 1903 (2009). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

PL5017	1	£516

- T Rv components for military communications equipment.
T Rv direct view imaging equipment.
T Rv equipment employing cryptography.
T Rv goods treated for signature suppression for military use.
T Rv imaging cameras (2 licences).
T Rv military cameras.
T Rv military communications equipment.
T Rv military video recording equipment.
T Rv technology for the use of test equipment for weapon sights.
T Rv test equipment for weapon sights.
T Rv weapon day and night sights.
T Rv weapon night sights.
T Rv weapon sight mounts.
T Rv weapon sights.

Rv - Some or all of which have subsequently been revoked.

Country Footnotes

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	22	£967,942
Non-military	1	£295
Total	23	£968,237

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	12	£42,383
ML4	2	£72,064
ML6	1	£4,000
ML7	2	£150,020

ML10	1	£5,600
ML11	1	£648,863
PL5017	4	£45,012

assault rifles (2).
 assault rifles (4).
 combination rifle-shotguns (1).
 components for assault rifles (3 licences).
 components for military aircraft ground equipment.
 components for military utility vehicles.
 components for semi-automatic pistols.
 components for sniper rifles (4 licences).
 components for submachine guns.
 demolition devices.
 equipment for the use of large calibre artillery (2 licences).
 T equipment for the use of military communications equipment.
 general purpose machine guns (1).
 gun silencers (2 licences).
 T military communications equipment.
 military devices for initiating explosives.
 military utility vehicles.
 NBC clothing.
 NBC filters.
 replica vintage guns (1).
 rifles (8).
 semi-automatic pistols (3) (2 licences).

Country Footnotes

- Arms sanctions against DPRK are currently in place under UN Security Council resolution 1718 (amended by UNSCR 1874). The arms embargo prohibits the supply, sale or transfer of arms (and a ban on related financial transactions, technical training or services), with the exception of the provision by States to the DPRK of small arms and light weapons and their related materiel, on which States are required to notify the Committee in advance.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	25	£1,636,707
Non-military	4	£6,007,536
Total	29	£7,644,244

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£108,110
ML2	2	£2,588
ML3	3	£324,867
ML4	2	£30,971
ML5	2	£310,000
ML9	6	£23,688
ML10	4	£5,318
ML11	3	£749,175
ML13	2	£28,920
ML14	1	£2,000
ML17	1	£40,000
ML22	2	£11,070
PL5017	1	£0

- assault rifles (5).
- body armour (2 licences).
- chaff.
- components for destroyers.
- components for frigates (3 licences).
- components for large calibre artillery.
- components for military training aircraft.
- components for military transport aircraft (3 licences).
- T components for multi-role missiles.
- components for naval light guns.
- components for naval radars.
- components for recognition/identification equipment.
- T components for surface-to-air missiles.
- decoy flares.
- equipment for the use of military communications equipment.

- T equipment for the use of weapon day and night sights.
- general naval vessel components (2 licences).
- general purpose machine guns (1).
- military helmets (2 licences).
- naval navigation equipment.
- naval radars.
- recognition/identification equipment.
- semi-automatic pistols (1).
- shotguns (1).
- small arms ammunition (3 licences).
- submachine guns (5).
- technology for the development of combat aircraft.
- technology for the production of combat aircraft.
- technology for the use of naval navigation equipment.
- technology for the use of naval radars.
- technology for the use of recognition/identification equipment.
- test models for the development of combat aircraft.
- T training equipment for launching/handling equipment for surface-to-air missiles.
- T weapon day and night sights.
- T weapon night sights.
- T weapon sight mounts.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£6,001,390
5D002	1	£0
End Use	2	£6,146

- components for spacecraft.
- equipment employing cryptography (2 licences).
- gas detection equipment.
- software for the use of equipment employing cryptography.

Refused

	Count
Non-military	4
Total	4

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£23,000
Total	1	£23,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£23,000

sporting rifles (1).

Qatar

Processing Statistics

Country Footnotes

1. On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

Case & goods Footnotes

1. These goods have been approved because they are for civil end use.

T imaging cameras.
 T military electronic equipment.
 T military image intensifier equipment.
 T military infrared/thermal imaging equipment.
 T weapon day and night sights.
 T weapon night sights.
 T weapon sight mounts.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£119,482
Total	1	£119,482

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	1	£119,482
PL8001	1	£0

accessories for improvised explosive device disruptors.
 components for improvised explosive device disruptors.
 devices for initiating explosives.
 improvised explosive device disruptors.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography
2	P	software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
3	P	inertial equipment
4	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
5	P	aircraft military communications equipment, components for aircraft military communications equipment, components for guided missile decoying/detection/jamming equipment, components for military aircraft navigation equipment, components for military utility helicopters, equipment for the use of military utility helicopters, general military aircraft components, military aircraft ground equipment, military aircraft navigation equipment, military parachutes, signal flares, software for the use of military utility helicopters, technology for the use of aircraft military communications equipment, technology for the use of equipment for the use of military utility helicopters, technology for the use of general military aircraft components, technology for the use of guided missile decoying/detection/jamming equipment, technology for the use of military aircraft ground equipment, technology for the use of military aircraft navigation equipment, technology for the use of military parachutes, technology for the use of military utility helicopters, technology for the use of signal flares, technology for the use of software for the use of military utility helicopters, technology for the use of test equipment for military utility helicopters, test equipment for military utility helicopters
6	P	equipment employing cryptography
7	P	mixtures containing chemicals used for industrial/commercial processes

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£1,259,667
Non-military	3	£2,118,168
Total	5	£3,377,835

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£5,000
ML6	1	£1,125,000
ML11	1	£9,667
ML13	2	£120,000

all-wheel drive vehicles with ballistic protection.
body armour.
bomb suits.
explosive ordnance disposal equipment.
military communications equipment.
military helmets.
military utility vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£1,810,236
5D002	2	£295,432
PL8001	1	£12,500

cryptographic software (2 licences).
equipment employing cryptography (2 licences).
non-military firing sets.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography

Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009) and 1916 (2010) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£78,234
Non-military	2	£436,600
Total	5	£514,834

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£75,984
ML11	1	£2,250

components for military sonar detection equipment.
components for military utility helicopters (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C010	2	£436,600

fibrous/filamentary materials (2 licences).

Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	5	£94,676
Total	5	£94,676

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	5	£94,676

components for military training aircraft (3 licences).
 components for unmanned air vehicles.
 general military aircraft components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Austria
 Chile

Malaysia
 Mexico
 Netherlands
 Spain
 United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
2	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
3	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
4	P	triggered spark gaps
5	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	47	£8,277,697
Non-military	34	£3,731,785
Both Military and Non-military	1	£172,860
Total	82	£12,182,342

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£7,850
ML2	1	£1,277
ML3	1	£32,000
ML4	1	£36,540
ML5	8	£163,505
ML6	10	£207,072
ML9	2	£1,456,198
ML10	6	£310,039
ML11	8	£947,438
ML13	4	£5,092,828
ML14	1	£40
ML21	1	£10

ML22	2	£13,004
PL5017	1	£9,896

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	237	£398,860,098
Non-military	31	£18,948,255
Both Military and Non-military	2	£223,730
Total	270	£418,032,083

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	35	£1,689,711
ML2	3	£2,415,303
ML3	4	£3,406,396
ML4	14	£360,349,379
ML5	16	£2,160,412
ML6	13	£644,859
ML7	13	£1,816,334
ML9	6	£5,785,451
ML10	67	£4,041,178
ML11	41	£12,111,159

PL5017	4	£6,307
PL5035	1	£3,750

accessories for fire location equipment.
air guns (10).
air guns (2400).
airborne electronic warfare equipment.
aircraft military communications equipment (2 licences).
anti-riot shields.
armoured fighting vehicles (3 licences).
armoured personnel carriers.
assault rifles (10000) (3 licences).
attack alerting/warning equipment.
body armour.
chemical agent detection equipment (3 licences).
T chemical agent detection equipment.
combat aircraft.
components for airborne electronic warfare equipment.
components for aircraft military communications equipment.
components for aircraft radars (3 licences).
T components for aircraft radars.
components for all-wheel drive vehicles with ballistic protection.
components for assault rifles (2 licences).
T components for attack alerting/warning equipment (2 licences).
components for bombs.
components for chemical agent detection equipment (3 licences).
T components for chemical agent detection equipment.
components for combat aircraft (5 licences).
components for combat helicopters.
components for control equipment for unmanned air vehicles.
components for destroyers (2 licences).
components for electronic warfare equipment (2 licences).
components for fire control equipment.

components for ground based radars.
 components for ground vehicle military communications equipment.
 components for guided missile decoying/detection/jamming equipment.
 components for helmet mounted display equipment.
 components for large calibre artillery (3 licences).
 components for launching equipment for anti-ship missiles (3 licences).
 components for military aero-engines (9 licences).
 components for military aircraft ground equipment (5 licences).
 components for military aircraft head-down displays.
 components for military aircraft head-up displays.
 components for military aircraft pressurised breathing equipment.
 components for military communications equipment (12 licences).
 components for military electronic equipment.
 components for military field engineer equipment.
 components for military improvised explosive device jamming equipment.
 components for military navigation equipment (6 licences).
 components for military surveillance aircraft.
 components for military training aircraft.
 components for military transport aircraft (14 licences).
 components for military utility aircraft.
 components for military utility helicopters (7 licences).
 components for military utility vehicles.
 components for multi-role missiles.
 components for munitions navigation equipment.
 components for naval engines.
 components for naval radars.
 components for NBC clothing.
 components for NBC respirators.
 components for optical target designator equipment (2 licences).
 components for optical target surveillance equipment.
 components for sniper rifles.
 components for sporting rifles.
 components for surface-to-air missiles (2 licences).
 components for surface-to-surface missiles.
 components for test equipment for military communications equipment.
 components for unmanned air vehicles (7 licences).
 components for unmanned air vehicles.
 components for weapons simulators.
 constructions for ballistic protection of military systems.
 ejector seats (2 licences).
 electronic countermeasures equipment.
 equipment for the production of military utility helicopters.
 equipment for the production of military utility vehicles.
 equipment for the production of small arms ammunition.
 equipment for the use of chemical agent detection equipment.
 equipment for the use of chemical agent detection equipment.
 equipment for the use of military aircraft navigation equipment.
 equipment for the use of military communications equipment (2 licences).
 equipment for the use of military electronic equipment.
 equipment for the use of weapon cleaning equipment.
 fire location equipment.
 general military aircraft components (2 licences).
 general military aircraft components.
 general military vehicle components.
 general military vehicle components.
 general naval vessel components.
 ground vehicle military communications equipment (2 licences).
 laser rangefinders.
 laser rangefinders.
 launching equipment for anti-ship missiles (2 licences).
 launching equipment for surface-to-surface missiles.
 military aero-engines (3 licences).
 military aero-engines (2 licences).
 military airborne cargo handling equipment.
 military aircraft ground equipment.
 military aircraft navigation equipment.
 military communications equipment (8 licences).
 military communications equipment.
 military electronic equipment.
 military improvised explosive device jamming equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	13	£3,871,995
Total	13	£3,871,995

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£199,612
ML10	9	£3,637,194
ML11	1	£10,260
ML16	1	£24,928

components for bombs.
components for combat aircraft.
components for guided missile decoying equipment.
components for military aero-engines (3 licences).
components for military aircraft navigation equipment.
components for military training aircraft (2 licences).
components for military transport aircraft.
military aircraft ground equipment.
military transport aircraft.
unfinished products for military training aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
Bulgaria
Canada
Chile
Denmark
Egypt
Greece
India
Israel
Italy
Japan
Lithuania
Morocco
Pakistan
Romania
Singapore
South Korea
Spain
Switzerland
Turkey

OIELs (excluding Other OIELs)**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
2	T	technology for the development of nuclear fuel reprocessing equipment, technology for the development of nuclear reactor fuel element fabrication equipment, technology for the development of nuclear reactors, technology for the production of nuclear fuel reprocessing equipment, technology for the production of nuclear reactor fuel element fabrication equipment, technology for the production of nuclear reactors, technology for the use of nuclear fuel reprocessing equipment, technology for the use of nuclear reactor fuel element fabrication equipment, technology for the use of nuclear reactors
3	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
4	P	blank ammunition, inert ammunition, small arms ammunition, training blank ammunition, training inert ammunition, training small arms ammunition
5	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, components for biological agent detection equipment, components for chemical agent detection equipment, components for military electronic equipment, equipment for the use of biological agent detection equipment, equipment for the use of chemical agent detection equipment, equipment for the use of military electronic equipment, military electronic equipment, software for biological agent detection equipment, software for chemical agent detection equipment, software for civil explosive detection/identification equipment, software for civil NBC detection systems, software for military electronic equipment, technology for biological agent detection equipment, technology for chemical agent detection equipment, technology for civil explosive detection/identification equipment, technology for civil NBC detection systems, technology for military electronic equipment, test equipment for biological agent detection equipment, test equipment for chemical agent detection equipment, test equipment for military electronic equipment
6	P	components for flash suppressers, components for gun mountings, components for gun silencers, components for shotguns, components for sporting rifles, equipment for the use of sporting rifles, flash suppressers, gun mountings, gun silencers, shotguns, sporting rifles, technology for the use of equipment for the use of sporting rifles, technology for the use of flash suppressers, technology for the use of gun mountings, technology for the use of gun silencers, technology for the use of shotguns, technology for the use of sporting rifles, technology for the use of weapon sights, weapon sights
7	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades

8	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
9	P	triggered spark gaps
10	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
11	P	non-military detonators

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£125,000
Total	2	£125,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£125,000

civil explosive detection/identification equipment (2 licences).
civil NBC detection systems.

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML10	1

components for combat aircraft.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
