International Trade

**Strategic Export Controls: Country  
Pivot Report**

1st January 2011 - 31st December  
2011

October 2019

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2011 and 31st December 2011. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for Goods covered by Council Regulation 1236/2005** (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

## Global Project Licences

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

## Reporting

### Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

### Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

#### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

#### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	12257	11936	196	125
- Permanent Standard	10326	10049	187	90
- Temporary Standard	866	839	3	24
- Transhipment	7	7	0	0
- Incorporation	1050	1034	5	11
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	8	7	1	0
SITCLs	148	141	5	2
OIELs	367	324	27	16
- Standard	300	258	26	16
- Dealer-to-dealer	48	48	0	0
- Cryptographic	9	8	1	0
- Media	7	7	0	0
- Continental Shelf	3	3	0	0
Global Project Licences	0	0	0	0
OITCLs	30	24	6	0

### Table notes for licensing statistics table:

**SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.**

## Overall Processing Statistics

### Processing statistics covering the period 1st January 2011 to 31st December 2011

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	10138	64	15037	96	16 days
- Permanent Standard	8694	64	12935	95	16 days
- Temporary Standard	679	65	1005	97	16 days
- Transhipment	8	50	14	88	18 days
- Incorporation	755	67	1075	96	15 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	2	25	8	100	22 days
SITCLs	125	45	224	81	28 days
OIELs	151	30	222	44	74 days
- Standard	94	23	143	35	92 days
- Dealer-to-dealer	45	73	59	95	10 days
- Cryptographic	4	24	9	53	54 days
- Media	2	22	5	56	51 days
- Continental Shelf	6	86	6	86	10 days
Global Project Licences	n/a	n/a	n/a	n/a	n/a
OITCLs	27	48	30	54	38 days

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	147	0	7
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	0	0	0
EU GEA 003 (EU003) - export after repair/replacement	0	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	0	0	0
EU GEA 005 (EU005) - telecommunications	0	0	0
EU GEA 006 (EU006) - chemicals	0	0	0
Chemicals	5	0	0
Cryptographic Development	10	0	1
Export After Exhibition: Dual-Use Items	5	0	0
Export After Repair/Replacement Under Warranty: Dual-Use Items	25	0	2
Export For Repair/Replacement Under Warranty: Dual-Use Items	20	0	1
Dual-Use Items: Hong Kong Special Administrative Region	8	0	0
Open General Export Licence (International Non-Proliferation Regime Decontrols: Dual-Use Items) (Rv)	119	0	2
Low Value Shipments	10	0	0
OIL and GAS Exploration: Dual-Use Items	13	0	0
Technology for Dual-Use Items	21	0	0
Turkey	5	0	0
X	4	0	1
Military and Dual Use Goods: UK Forces deployed in embargoed destinations	6	0	0

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Military and Dual-Use Goods: UK Forces deployed in non-embargoed destinations	14	0	0
Exports of non-lethal military and Dual-Use Goods: To UK Diplomatic Missions or Consular Posts	2	0	0
Access Overseas to Software and Technology for Military Goods: Individual Use Only	49	0	0
Export After Exhibition or Demonstration: Military Goods	29	0	0
Export After Repair/replacement Under Warranty: Military Goods	52	0	3
Export For Repair/Replacement Under Warranty: Military Goods	45	0	2
Exports or transfers in Support of UK Government Defence Contracts	30	0	1
OGEL (Certified Companies)	0	0	0
OGEL (Exports under the US-UK Defence Trade Co-operation Treaty)	0	0	0
OGEL (International Non-proliferation Regime Decontrols: Military Items) (Rv)	0	0	0

## Dealer to Dealer (Dealer) Open Individual Export Licences (OIELs)

The following is a list of the items that have been authorised for export to the following destinations only:

Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden

No of Licences Issued	Goods Summary
48	air guns, ammunition for veterinary/tranquillising rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquilising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquilising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquilising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquilising rifles, deactivated vintage guns, inert ammunition, pistols, replica air guns, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquilising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquilising rifles, vintage guns, weapon sights

## Media Open Individual Export Licences (OIELs)

All Countries

No of Licences Issued	Goods Summary
7	armoured all wheel drive vehicles, body armour, civil body armour, civil NBC protection clothing, civil NBC protection equipment, components for armoured all wheel drive vehicles, components for body armour, components for civil body armour, military helmets, NBC clothing, NBC filters, NBC respirators

## Cryptographic (Crypto) Open Individual Export Licences (OIELs)

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries <b>EXCEPT THE FOLLOWING:</b> Afghanistan, Angola, Armenia, Australia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Myanmar, Burundi, Canada, China, Croatia, Cyprus, Czech Republic, Democratic Republic of Congo, Denmark, Eritrea, Estonia, Ethiopia, Finland, France, Germany, Greece, Hungary, Iran, Iraq, Ireland, Italy, Japan, Latvia, Liberia, Libya, Lithuania, Luxembourg, Malta, Netherlands, New Zealand, Nigeria, North Korea, Norway, Poland, Portugal, Romania, Russia, Rwanda, Sierra Leone, Slovakia, Slovenia, Somalia, South Sudan, Spain, Sudan, Sweden, Switzerland, Syria, Tanzania, Uganda, United States of America, Zimbabwe
8	cable systems sensitive to eavesdropping, cryptographic software, equipment employing cryptography, equipment for generating hopping codes, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, software for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1, software for the use of technology specified in 5E002, technology for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1

## UK Continental Shelf Open Individual Export Licences (OIELs)

UK Continental Shelf OIELs authorises the export of controlled items for use exclusively in offshore installations and associated vessels within the UK sector of the continental shelf.

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries <b>EXCEPT THE FOLLOWING:</b> Continental Shelf: United Kingdom sector
1	cutters/severing tools, devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military energetic materials, non-military firing sets, shaped charges
1	devices for initiating explosives, non-military detonators, non-military firing sets
1	neutron generators

# Afghanistan

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	36	£15,837,017
Non-military	16	£4,195,511
Both Military and Non-military	1	£7,795
Total	53	£20,040,323

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£98,897
ML3	1	£35,000
ML4	1	£5,720,258
ML5	1	£168,331

ML6	5	£417,597
ML10	1	£225
ML11	1	£1,982
ML13	20	£8,333,017
ML22	2	£46,641
PL5017	1	£1,869
PL5035	3	£1,013,200

all-wheel drive vehicles with ballistic protection.  
 assault rifles (31).  
 assault rifles (56).  
 body armour (15 licences).  
 components for all-wheel drive vehicles with ballistic protection (3 licences).  
 components for assault rifles (2 licences).  
 components for body armour (13 licences).  
 components for fire location equipment.  
 components for ground vehicle military communications equipment.  
 components for military combat vehicles.  
 components for military communications equipment.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 components for pistols.  
 equipment for the use of assault rifles.  
 ground vehicle military communications equipment.  
 military aircraft ground equipment.  
 military helmets (15 licences).  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 military support vehicles (2 licences).  
 small arms ammunition.  
 technology for assault rifles.  
 technology for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 weapon sight mounts.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£371,306
1A006	1	£1,100
3A101	1	£1,431,495
5A001	2	£507,238
5A002	8	£1,791,019
5D002	3	£63,353
6A003	1	£30,000

civil explosive detection/identification equipment.  
 civil NBC detection systems.  
 cryptographic software.  
 equipment employing cryptography (8 licences).  
 imaging cameras.  
 improvised explosive device disruptors.  
 radio controlled improvised explosive device jamming equipment (2 licences).  
 software for equipment employing cryptography.  
 software for the use of equipment employing cryptography.  
 X-ray accelerators.

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£3,300

PL8001	1	£4,495
--------	---	--------

devices for initiating explosives.  
military equipment for initiating explosives.

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£4,370
Total	1	£4,370

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL5017	1	£4,370

equipment for the use of machine guns.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MNs; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed of modified for the use of goods specified in 6/7/8 above
2	P	radio controlled improvised explosive device jamming equipment
3	P	technology for military communications equipment

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	60	£1,194,832
Non-military	8	£73,181
Total	68	£1,268,013

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	27	£346,950
ML3	3	£91,289
ML9	5	£314,319
ML10	23	£372,243
ML11	2	£68,743
PL5001	1	£1,289

- anti-riot/ballistic shields.
- Rv components for combat aircraft (5 licences).
- Rv components for combat naval vessels (3 licences).
- Rv components for military aero-engines (6 licences).
- Rv components for military aircraft ground equipment.
- components for military aircrew breathing equipment.
- Rv components for military guidance/navigation equipment (2 licences).
- Rv components for military support aircraft (8 licences).
- Rv components for military training aircraft.
- Rv components for military transport aircraft.
- Rv components for naval engines (2 licences).
- T components for sporting guns.
- general military aircraft components.
- Rv military aircraft ground equipment.
- small arms ammunition (3 licences).
- sporting guns (1) (3 licences).
- sporting guns (1) (8 licences).
- T sporting guns (2) (15 licences).
- T sporting guns (8).

Rv - Some or all of which have subsequently been revoked.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C352	1	£10
2B350	1	£30,414
2B351	1	£590
5A002	4	£10,697

5D002	1	£1,471
6A003	1	£30,000

animal pathogens.  
 components for toxic gas monitoring equipment.  
 corrosion resistant chemical manufacturing equipment.  
 cryptographic software.  
 equipment employing cryptography (4 licences).  
 imaging cameras.

### SIELs - Transshipment

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£29,915
Total	1	£29,915

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£29,915

Rv components for body armour.

Rv - Some or all of which have subsequently been revoked.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography
2	P	animal pathogens
3	P	heading sensors for hydrophone arrays
4	T	inertial equipment
5	P	equipment employing cryptography
6	T	components for inertial equipment, inertial equipment, technology for inertial equipment
7	P	aircraft seals, components for inertial equipment, inertial equipment
8 (Rv)	P	technology for military communications equipment

Rv - Some or all of which have subsequently been revoked.

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

1	P	technology for military communications equipment
---	---	--

### Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

## Aruba

### Processing Statistics (excluding amendments)

Median processing time SIELs	1 day
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	32	£1,744,276
Non-military	2	£101,000
Total	34	£1,845,276

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	18	£577,992
ML3	1	£3,330
ML6	2	£6,692
ML7	3	£4,500
ML10	2	£12,640
ML11	3	£52,940
ML13	2	£1,269
ML15	2	£84,693
ML21	1	£1,000,000
PL5017	2	£220

- body armour (2 licences).
- components for body armour.
- components for launching/handling/control/support equipment for unmanned air vehicles (2 licences).
- T components for military communications equipment.
- components for military support vehicles.
- T components for NBC protective/defensive equipment.
- components for NBC protective/defensive equipment.
- components for sniper rifles.
- T equipment for the use of military communications equipment.
- equipment for the use of recognition/identification equipment.
- equipment for the use of sniper rifles.
- T equipment for the use of weapon night sights.
- general military vehicle components.
- military cameras/photographic equipment.
- T military communications equipment.
- military helmets.
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- T NBC protective/defensive equipment (2 licences).
- small arms ammunition.
- software for military training equipment.
- sporting guns (1) (2 licences).
- sporting guns (2).

T            weapon night sights.  
 weapon sights (12 licences).  
 T            weapon sights.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£1,000
1C001	1	£100,000

electromagnetic wave absorbing materials.  
 technology for nuclear reactors.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	4	£3,746,598
Total	4	£3,746,598

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£12,000
ML7	1	£3,190,590
ML10	1	£22,220
ML11	2	£27,688
PL5017	1	£494,100

components for military aircraft ground equipment.  
 components for military combat vehicles.  
 components for military communications equipment.  
 components for NBC detection equipment.  
 equipment for the use of chemical agent detection equipment.  
 NBC detection equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Kuwait  
 Saudi Arabia

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
2	P	components for rifles, equipment for the use of rifles, gun silencers
3	P	technology for the use of weapon sights, weapon sights
4	P	components for military transport aircraft

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for equipment employing cryptography, cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for cryptographic software, technology for equipment employing cryptography, technology for software for equipment employing cryptography
2	P	fibrous/filamentary materials
3	P	aircraft seals, components for inertial equipment, inertial equipment

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for corrosion resistant chemical manufacturing equipment

### SITCLs

Source	Issued	Refused	Revoked
Jordan	0	1	0

### Refused

components for body armour.  
components for military helmets.  
equipment for the production of military helmets.

### Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".  
The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

 T weapon day and night sights.  
 T weapon night sights (2 licences).  
 T weapon sight mounts.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	military improvised explosive device disposal equipment, military utility vehicles
2	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MN; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed or modified for the use of goods specified in 6/7/8 above
3 (Rv)	P	technology for the use of weapon sights, weapon sights
4	P	components for combat aircraft, components for military training aircraft
5 (Rv)	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
6	P	heading sensors for hydrophone arrays
7	P	components for recognition/identification equipment, software for recognition/identification equipment, technology for recognition/identification equipment
8	P	components for all-wheel drive vehicles with ballistic protection, components for military support vehicles, technology for all-wheel drive vehicles with ballistic protection, technology for military support vehicles

9	P	components for small arms ammunition, small arms ammunition
10	T	inertial equipment
11	P	components for corrosion resistant chemical manufacturing equipment
12	P	towed hydrophone arrays
13	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
14	T	command communications control and intelligence software, technology for command communications control and intelligence software
15	T	components for inertial equipment, inertial equipment, technology for inertial equipment
16	P	aircraft seals, components for inertial equipment, inertial equipment
17	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for military aero-engines
18	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components

Rv - Some or all of which have subsequently been revoked.

### Revoked

Licences revoked or whose coverage was amended during the period by the removal of items and/or destinations.		
No.	Type	Goods Summary
1	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
2	T	software for military communications equipment, technology for the use of software for military communications equipment
3	P	equipment employing cryptography
4	P	equipment employing cryptography
5	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
6	P	technology for the use of weapon sights, weapon sights
7	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets

### Case & goods Footnotes

1. HMG exceptionally agreed to export a number of firearms, and associated accessories, to Bahrain for personal sporting use. They are not for use by the Bahraini security services, law enforcement agencies or armed forces.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	8	£614,577
Non-military	3	£724,519
Total	11	£1,339,096

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£192,939
ML6	1	£197,057
ML11	3	£21,603
ML13	1	£202,978

armoured plate.  
 components for military combat vehicles.  
 components for military communications equipment (2 licences).  
 components for military equipment for initiating explosives.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 military aircraft navigation equipment.  
 military communications equipment.  
 military equipment for initiating explosives.  
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 signalling devices.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C111	1	£101
2B201	1	£712,243
6A001	1	£12,175

constituents of propellants.  
 machine tools.  
 marine position fixing equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general naval vessel components, technology for general naval vessel components

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	36	£1,410,137
Non-military	1	£1,379,590
Both Military and Non-military	2	£86,670
Total	39	£2,876,397

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£385,868
ML2	3	£156,368
ML3	4	£21,295
ML4	3	£363,077
ML6	7	£123,637
ML7	1	£2,700
ML10	2	£29,097
ML11	6	£79,965
ML13	4	£192,891
ML21	1	£37,107
ML22	2	£0
PL5017	8	£18,133

- anti-personnel land mines.
- body armour.
- components for all-wheel drive vehicles with ballistic protection.
- components for anti-aircraft guns.
- components for body armour.
- components for ground vehicle military communications equipment.
- components for machine guns (3 licences).
- components for military combat vehicles (4 licences).
- components for military communications equipment (2 licences).
- components for military electronic equipment.
- components for military equipment for initiating explosives.
- components for military guidance/navigation equipment.
- T components for NBC protective/defensive equipment.
- T components for sniper rifles (2 licences).
- demolition charges/devices.
- T equipment for the use of machine guns.
- equipment for the use of military combat vehicles.
- equipment for the use of military equipment for initiating explosives.

## Country Footnotes

1. A comprehensive ban on the provision of all arms, and equipment that might be used for internal repression was adopted by CFSP 2006/318. All exports for this destination were approved in accordance with the sanctions in place.
2. A comprehensive ban on the provision of all arms and related material to Myanmar was adopted under CFSP 2006/318 as renewed by Council Decision 2010/232/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 194/2008. All exports for this destination were approved in accordance with the sanctions in place.

### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	heading sensors for hydrophone arrays

## Cameroon

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	89% (8)
% and number of SIELs completed in 60 working days	100% (9)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	159 days
% and number of OIELs completed in 20 working days	17% (1)
% and number of OIELs completed in 60 working days	33% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	8	£63,310
Total	8	£63,310

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£11,850
5D002	5	£14,350
7A003	2	£37,110

cryptographic software (4 licences).  
equipment employing cryptography (2 licences).  
inertial equipment (2 licences).  
software for equipment employing cryptography.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of equipment employing cryptography
2	P	heading sensors for hydrophone arrays
3	P	towed hydrophone arrays

## Canada

anti-armour ammunition.  
 anti-armour weapons.  
 anti-riot/ballistic shields.  
 armoured plate (2 licences).  
 assault rifles (1).  
 assault rifles (2).  
 assault rifles (3).  
 assault rifles.  
 body armour (3 licences).  
 bomb suits.  
 combat shotguns (2).  
 command communications control and intelligence software.  
 components for artillery ammunition (7 licences).  
 components for assault rifles (3 licences).  
 components for body armour.  
 components for bomb suits.  
 components for combat aircraft (3 licences).  
 components for combat shotguns.  
 components for equipment for the production of NBC detection equipment.  
 components for equipment for the use of NBC detection equipment.  
 components for grenade launchers.  
 components for hand grenades (2 licences).  
 components for machine guns (6 licences).  
 components for military aero-engines.  
 components for military communications equipment.  
 components for military electronic equipment (3 licences).  
 components for military helicopters (6 licences).  
 components for military helmets.  
 components for military infrared/thermal imaging equipment (4 licences).  
 components for military nuclear power generating/propulsion equipment.  
 components for military radars (2 licences).  
 components for military support aircraft.  
 components for military training aircraft.  
 components for NBC detection equipment (4 licences).  
 components for NBC protective/defensive equipment.  
 components for periscopes.  
 components for pistols (2 licences).  
 components for rifles.  
 components for sniper rifles (4 licences).

T

T components for sniper rifles.  
 components for sporting guns (3 licences).  
 components for submarines (7 licences).  
 components for surface-to-surface missiles.  
 components for targeting equipment.  
 components for unmanned air vehicles.  
 components for weapon night sights.  
 components for weapon sight mounts.  
 components for weapon sights (18 licences).  
 constructions for ballistic protection of military systems (2 licences).  
 equipment for the production of NBC detection equipment.  
 equipment for the use of naval sonar equipment.

T equipment for the use of weapon night sights.  
 flash suppressers.  
 general military vehicle components.  
 grenade launchers (2 licences).  
 ground vehicle military communications equipment.  
 gun mountings (2 licences).  
 machine guns (5).  
 machine guns (14).  
 machine guns (52).  
 machine guns.  
 military aero-engines.  
 military combat vehicles (2 licences).  
 military communications equipment.

T military electronic equipment.  
 military guidance/navigation equipment (2 licences).  
 military helmets (4 licences).

T military infrared/thermal imaging equipment.  
 military support vehicles.  
 NBC detection equipment.

T NBC protective/defensive equipment (2 licences).  
 NBC protective/defensive equipment.  
 pistols (1).  
 pistols (3).  
 pistols (6).  
 pistols (7).  
 pistols (18).  
 pistols.

T projectile launchers.  
 rifles (1) (4 licences).  
 rifles (2).  
 rifles (2000).  
 small arms ammunition (3 licences).  
 sniper rifles (2) (2 licences).  
 sniper rifles (20).  
 sniper rifles (180).  
 sniper rifles.  
 software for equipment for the production of NBC detection equipment.  
 software for military communications equipment.  
 software for NBC detection equipment.  
 software for optimising equipment design.  
 software for the use of military communications equipment.  
 sporting guns (1) (8 licences).  
 sporting guns (2) (3 licences).  
 sporting guns (3).  
 sporting guns (4).  
 sporting guns (5).  
 sporting guns (2 licences).  
 technology for sniper rifles.  
 technology for submarines.  
 technology for unmanned air vehicles.  
 training anti-armour ammunition.  
 unfinished products for assault rifles.  
 unfinished products for sporting guns.  
 wall/door breaching projectiles/ammunition (4 licences).  
 weapon cleaning equipment (3 licences).  
 weapon mountings.  
 weapon night sights.  
 weapon night sights.

T

T            weapon sight mounts (2 licences).  
               weapon sights (9 licences).  
               weapon sights.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£650
0D001	3	£3
0E001	3	£3
1A004	11	£772,906

Algeria  
 Australia  
 China  
 Denmark  
 India  
 Israel  
 Italy  
 Kuwait  
 Malaysia  
 Netherlands  
 Nigeria  
 Norway  
 Oman  
 Saudi Arabia  
 Singapore  
 Turkey  
 United States of America

**SIELs for goods covered by EC Reg 1236/2005**

## Issued

Types of goods on licence	No. of licences	Value
Goods covered by EC Reg 1236/2005	1	£4,300
Goods covered by EC Reg 1236/2005 and Military	1	£20,890
Goods covered by EC Reg 1236/2005 and Non-military	0	£0
Goods covered by EC Reg 1236/2005 and Both Military and Non-military	0	£0
Total	2	£25,190

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Goods covered by EC Reg 1236/2005

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£4,300

pepper sprays for self protection.

### Goods covered by EC Reg 1236/2005 and Military

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£4,300
PL5001	1	£16,590

anti-riot/ballistic shields.  
pepper sprays for self protection.

### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
2	P	technology for the use of weapon sights, weapon sights
3	P	components for sniper rifles, technology for sniper rifles
4	P	components for combat aircraft, components for military surveillance aircraft, components for military training aircraft, components for military transport aircraft, components for military utility helicopters
5	P	equipment for the use of weapon sights, weapon night sights, weapon sights

6	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
7	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
8	P	equipment for the use of weapon sights, goods treated for signature suppression for military use, technology for equipment for the use of weapon sights, weapon night sights, weapon sight mounts
9	P	animal pathogens
10	P	components for rifles, components for small arms ammunition, components for sporting guns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, training small arms ammunition, weapon sights
11	P	military airborne equipment, military guidance/navigation equipment
12	P	components for small arms ammunition, small arms ammunition
13	P	components for small arms ammunition, small arms ammunition
14	P	general naval vessel components, technology for general naval vessel components
15	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
16	P	components for military aero-engines
17	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights
18	P	toxins
19	P	components for rifles, components for sporting guns, rifles, small arms ammunition, sporting guns, weapon sights
20	P	components for sniper rifles, components for sporting guns, components for weapon sights, equipment for the use of sniper rifles, equipment for the use of sporting guns, flash suppressers, gun silencers, weapon cleaning equipment, weapon sight mounts, weapon sights
21	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
22	P	towed hydrophone arrays
23	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
24	P	aircraft military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, military electronic equipment, military guidance/navigation equipment
25	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment, weapon mountings
26	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment

27	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
28	P	small arms ammunition
29	P	components for small arms ammunition, small arms ammunition
30	P	anti-aircraft guns, attack alerting/warning equipment, components for anti-aircraft guns, components for attack alerting/warning equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military image recording/processing equipment, components for counter-countermeasure equipment for military imaging radar sensor equipment, components for countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military imaging radar sensor equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for fire location equipment, components for general naval vessel components, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for naval guns, components for naval hull penetrators/connectors, components for periscopes, components for projectile launchers, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of fire location equipment, equipment for the use of general naval vessel components, equipment for the use of military cameras/photographic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military imaging radar sensor equipment, equipment for the use of military radars, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval gun installations/mountings, equipment for the use of naval hull penetrators/connectors, equipment for the use of periscopes, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment

		for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, fire location equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, naval guns, naval hull penetrators/connectors, periscopes, projectile launchers, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, technology for anti-aircraft guns, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the operation of military aircraft in confined areas, technology for fire location equipment, technology for general naval vessel components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military radars, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for naval guns, technology for naval hull penetrators/connectors, technology for periscopes, technology for projectile launchers, technology for rangefinding equipment, technology for recognition/identification equipment, technology for sensor integration equipment, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, weapon control equipment, weapon night sights, weapon sights
31	P	components for military aircraft ground equipment, components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for military support aircraft
32	P	smoothbore weapons, sporting guns
33	P	materials containing natural uranium, natural uranium, products containing natural uranium
34	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, military aircraft pressure refuellers
35	P	components for sporting guns, sporting guns
36	P	components for mortars, components for turrets, components for weapon control equipment
37	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the development of combat helicopters, equipment for the development of equipment for the production of combat helicopters, equipment for the development of equipment for the production of military helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of equipment for the production of combat helicopters, equipment for the production of equipment for the production of military helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for combat helicopters, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for military helicopters, technology for

		combat helicopters, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, test models for combat helicopters, test models for military helicopters, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
38	P	blank/inert ammunition, components for pistols, components for rifles, components for sporting guns, components for weapon sights, crowd control ammunition, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, sporting guns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon sights
39	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
40	P	technology for the development of launching/handling/control/support equipment for unmanned air vehicles, technology for the development of unmanned air vehicles

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£2,532,210
Total	2	£2,532,210

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A002	2	£2,532,000
7E101	2	£210

T gyrosopes (2 licences).  
T technology for gyrosopes.  
T technology for the use of gyrosopes.

## Channel Islands

components for demolition devices.  
demolition devices.

### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	13	£5,406,088
Non-military	39	£1,417,576
Both Military and Non-military	1	£15,790
Total	53	£6,839,454

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£14,000
ML3	1	£100,000
ML6	6	£5,203,943
ML7	1	£4,570
ML10	1	£810
ML11	2	£1,550
ML22	1	£15,990
PL5001	1	£65,200
PL5017	1	£25

- T anti-riot/ballistic shields.
- T components for ground vehicle military communications equipment.
- T components for ground vehicle military communications equipment.
- T components for military combat vehicles.
- T components for military communications equipment.
- T components for military training aircraft.
- T components for NBC detection equipment.
- T equipment for the use of NBC detection equipment.
- T general military vehicle components (2 licences).
- T military support vehicles.
- T NBC detection equipment.
- T small arms ammunition.
- T technology for ground vehicle military communications equipment.
- T weapon night sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B001	2	£314,987

### Country Footnotes

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896 and 1952 (2010)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896, 1952 (2010 and 2021 (2011)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

components for combat aircraft.  
general naval vessel components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Bahrain  
Sweden

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
2	P	components for rifles, equipment for the use of rifles, gun silencers
3	P	technology for the use of weapon sights, weapon sights
4	P	components for combat aircraft, components for military transport aircraft
5	P	general military aircraft components
6	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
7	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
8	P	weapon night sights, weapon sights
9	P	military airborne equipment, military guidance/navigation equipment
10	P	components for small arms ammunition, small arms ammunition
11	P	components for air-to-air missiles, components for air-to-surface missiles, components for military electronic equipment, components for military guidance/navigation equipment, components for surface-to-air missiles, components for surface-to-surface missiles
12	P	general naval vessel components, technology for general naval vessel components
13	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment,

		components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
14	P	components for military aero-engines
15	P	components for sporting guns, components for weapon sights, unfinished products for sporting guns, weapon sights
16	P	gun silencers
17	P	components for military combat vehicles, military combat vehicles, technology for military combat vehicles
18	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
19	P	towed hydrophone arrays
20	P	components for air launched rockets, components for air-to-air missiles, components for artillery ammunition, components for bombs, components for mortar bombs, components for multi-role missiles, components for surface launched rockets, components for surface-to-air missiles, components for surface-to-surface missiles
21	P	aircraft military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, military electronic equipment, military guidance/navigation equipment
22	P	components for aircraft cannons, components for aircraft machine guns, components for anti-aircraft guns, components for anti-armour weapons, components for anti-riot guns, components for artillery, components for assault rifles, components for combat shotguns, components for flash suppressers, components for generators/projectors, components for grenade launchers, components for ground vehicle military communications equipment, components for gun mountings, components for gun silencers, components for heavy machine guns, components for machine guns, components for military combat vehicles, components for military flame throwers, components for military support vehicles, components for military trailers, components for mortars, components for naval guns, components for pistols, components for projectile launchers, components for rifles, components for sniper rifles, components for tanks, components for turrets, components for weapon mountings, components for weapon night sights, components for weapon sights, general military vehicle components
23	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
24	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
25	P	small arms ammunition
26	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, equipment for the operation of military aircraft in confined areas, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers

27	T	components for NBC protective/defensive equipment, NBC protective/defensive equipment
28	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the development of combat helicopters, equipment for the development of equipment for the production of combat helicopters, equipment for the development of equipment for the production of military helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for combat helicopters, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for military helicopters, technology for combat helicopters, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, test models for combat helicopters, test models for military helicopters, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
29	T	towed hydrophone arrays
30	T	components for towed hydrophone arrays, towed hydrophone arrays
31	P	goods treated for signature suppression for military use
32	P	components for military training equipment, military training equipment, software for military training equipment, technology for military training equipment
33	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

ML21	1	£300
ML22	1	£1
PL5001	1	£378
PL5017	1	£30,178

- anti-riot/ballistic shields.
- assault rifles (1).
- components for armoured plate.
- components for ground vehicle military communications equipment.
- components for gun mountings.
- components for military combat vehicles (8 licences).
- components for military support vehicles (2 licences).
- components for NBC detection equipment.
- components for sporting guns.
- T equipment for the production of surface-to-air missiles.
- equipment for the use of military communications equipment.
- T equipment for the use of military electronic equipment.
- equipment for the use of weapon night sights (2 licences).
- general military vehicle components (4 licences).
- gun silencers.
- military communications equipment.
- military electronic equipment.
- T military electronic equipment.
- T military infrared/thermal imaging equipment (2 licences).
- NBC detection equipment.
- T NBC detection equipment.
- NBC protective/defensive equipment.
- software for the use of NBC detection equipment.
- sporting guns (1) (9 licences).
- sporting guns (2) (3 licences).
- tanks.
- technology for decoying/countermeasure equipment.
- T weapon night sights (2 licences).
- weapon sights (3 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£22,505

0C002	1	£375
0E001	2	£1,400
2B352	1	£198,695
6A001	1	£4,234
PL8001	1	£50,000

T accessories for nuclear reactors.  
biotechnology equipment.  
explosives detection equipment.  
products containing plutonium-239.  
technology for nuclear reactors.  
technology for the use of nuclear reactors.  
towed hydrophone arrays.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	7	£535,237
Total	7	£535,237

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£450,000
ML4	1	£924
ML6	4	£23,265
ML7	1	£44,528
PL5017	1	£16,520

components for launching/handling/control equipment for missiles.  
components for military combat vehicles (2 licences).  
components for mortars.  
components for NBC detection equipment.  
components for turrets.  
equipment for the use of NBC detection equipment.  
general military vehicle components.  
NBC detection equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Chile
- Croatia
- Saudi Arabia
- United Arab Emirates

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
2	P	components for rifles, equipment for the use of rifles, gun silencers
3	P	components for combat aircraft, components for military training aircraft, components for military transport aircraft
4	P	general military aircraft components
5	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
6	P	weapon night sights, weapon sights
7	P	components for small arms ammunition, small arms ammunition
8	P	general naval vessel components, technology for general naval vessel components
9	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
10	P	components for sporting guns, components for weapon sights, unfinished products for sporting guns, weapon sights
11	P	gun silencers
12	P	components for military combat vehicles, military combat vehicles, technology for military combat vehicles
13	P	components for military training aircraft, military aircraft ground equipment, technology for military aircraft ground equipment, technology for military training aircraft
14	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
15	P	towed hydrophone arrays
16	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
17	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
18	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
19	P	small arms ammunition
20	T	components for NBC protective/defensive equipment, NBC protective/defensive equipment

21	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, technology for combat helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
22	T	towed hydrophone arrays
23	T	components for towed hydrophone arrays, towed hydrophone arrays
24	P	goods treated for signature suppression for military use
25	P	components for military training equipment, military training equipment, software for military training equipment, technology for military training equipment
26	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

### Processing Statistics (excluding amendments)

Median processing time SIELs	16 days
% and number of SIELs completed in 20 working days	82% (9)
% and number of SIELs completed in 60 working days	100% (11)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	22 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	100% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£1,500
Non-military	5	£49,773
Total	8	£51,273

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	2	£1,373
ML10	1	£127

components for military support aircraft.  
gun silencers.  
weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£7,397
5A002	1	£31,918
8A002	3	£10,458

corrosion resistant chemical manufacturing equipment.  
equipment employing cryptography.  
rebreathing swimming apparatus (3 licences).

## Gabon

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	80% (8)
% and number of SIELs completed in 60 working days	90% (9)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	159 days
% and number of OIELs completed in 20 working days	17% (1)
% and number of OIELs completed in 60 working days	33% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£67,360
Non-military	6	£408,351
Total	7	£475,711

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

ML1	1	£62,600
ML22	1	£0
PL5017	1	£4,760

components for machine guns.  
machine guns (10).  
technology for machine guns.  
weapon cleaning equipment.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	6	£404,351
5D002	1	£4,000

cryptographic software.  
equipment employing cryptography (6 licences).

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	heading sensors for hydrophone arrays
2	P	general naval vessel components, technology for general naval vessel components
3	P	towed hydrophone arrays

## Gambia

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	100% (3)
% and number of SIELs completed in 60 working days	100% (3)

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aircraft head-up displays, components for military transport aircraft

2	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
3	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MNs; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed or modified for the use of goods specified in 6/7/8 above
4	P	components for rifles, equipment for the use of rifles, gun silencers
5	P	technology for the use of weapon sights, weapon sights
6	P	components for combat aircraft, components for military surveillance aircraft
7	P	equipment for the use of weapon sights, weapon night sights, weapon sights
8	P	general military aircraft components
9	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
10	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
11	P	technology for launching/handling/control/support equipment for unmanned air vehicles, technology for unmanned air vehicles
12	P	components for recognition/identification equipment, software for recognition/identification equipment, technology for recognition/identification equipment
13	P	weapon night sights, weapon sights
14	P	military airborne equipment, military guidance/navigation equipment
15	P	components for small arms ammunition, small arms ammunition
16	P	components for air-to-air missiles, components for air-to-surface missiles, components for military electronic equipment, components for military guidance/navigation equipment, components for surface-to-air missiles, components for surface-to-surface missiles
17	P	general naval vessel components, technology for general naval vessel components
18	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	5	£6,714,675
Non-military	11	£1,104,799
Total	16	£7,819,474

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£117,981
ML6	1	£367,200
ML10	2	£4,618,548
ML11	1	£87,600
ML13	1	£1,300,346
ML14	1	£223,000

body armour.  
 components for body armour.  
 components for gun mountings.  
 components for military helicopters.  
 gun mountings.  
 military airborne equipment.  
 military communications equipment.  
 military support aircraft.  
 military trailers.  
 military training equipment.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£1,386
2B350	2	£4,413
6A001	1	£140,000
7A003	2	£230,000
8A001	1	£287,000
8A002	4	£442,000

- T components for marine location systems.  
corrosion resistant chemical manufacturing equipment (2 licences).
- T inertial equipment (2 licences).
- T submersible equipment (4 licences).  
submersible vehicles.  
toxins.

### OIELs (excluding Other OIELs)

- T components for body armour (4 licences) [See footnote 1].
- T components for combat aircraft (56 licences).
- T components for combat aircraft.

components for combat helicopters (8 licences).  
 components for combat naval vessels (14 licences).  
 components for decoying/countermeasure equipment.  
 T components for decoying/countermeasure equipment (2 licences).  
 components for ejector seats (3 licences).  
 components for electronic warfare equipment (7 licences).  
 components for ground based radars (3 licences).  
 components for ground vehicle military communications equipment.  
 components for launching/handling/control equipment for missiles.  
 T components for launching/handling/control equipment for missiles (2 licences).  
 components for launching/handling/control equipment for munitions (4 licences).  
 components for military aero-engines (24 licences).  
 components for military airborne equipment.  
 components for military aircraft ground equipment.  
 components for military aircraft head-up/down displays (5 licences).  
 T components for military aircraft head-up/down displays.  
 components for military aircraft pressurised breathing equipment.  
 components for military aircrew breathing equipment (3 licences).  
 components for military aircrew protective equipment (2 licences).  
 components for military cameras/photographic equipment.  
 components for military combat vehicles (2 licences).  
 components for military communications equipment (29 licences).  
 components for military electronic equipment (4 licences).  
 T components for military electronic equipment.  
 T components for military equipment for initiating explosives.  
 components for military guidance/navigation equipment (13 licences).  
 T components for military guidance/navigation equipment.  
 components for military helicopters (25 licences).  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment  
 (5 licences).  
 T components for military improvised explosive device decoying/detection/disposal/jamming  
 equipment.  
 components for military infrared/thermal imaging equipment (3 licences).  
 components for military patrol/assault craft.  
 components for military radars (59 licences).  
 T components for military radars (2 licences).  
 components for military support aircraft (5 licences).  
 components for military support vehicles.  
 components for military training aircraft (73 licences).  
 components for munitions/ordnance detection/disposal equipment (3 licences).  
 components for naval communications equipment (3 licences).  
 components for naval electrical/electronic equipment (11 licences).  
 components for naval electronic warfare equipment.  
 components for naval gun installations/mountings.  
 components for naval guns.  
 components for NBC detection equipment.  
 T components for NBC detection equipment.  
 components for NBC protective/defensive equipment.  
 components for rangefinding equipment.  
 components for small arms training equipment (3 licences).  
 components for submarines (5 licences).  
 components for targeting equipment (2 licences).  
 components for training torpedoes.  
 components for turrets.  
 T components for unmanned air vehicles.  
 components for weapon control equipment.  
 decoying/countermeasure equipment (2 licences).  
 T electronic warfare equipment.  
 equipment for the development of military aero-engines.  
 equipment for the production of combat aircraft.  
 equipment for the production of military communications equipment.  
 equipment for the production of military training aircraft.  
 equipment for the use of aircraft military communications equipment.  
 equipment for the use of electronic warfare equipment.  
 equipment for the use of equipment for the development of military aero-engines.  
 equipment for the use of general military aircraft components.  
 equipment for the use of military aero-engines.  
 equipment for the use of military communications equipment.  
 T equipment for the use of military communications equipment.  
 equipment for the use of military guidance/navigation equipment (2 licences).

equipment for the use of military radars.  
 equipment for the use of military training aircraft.  
 T equipment for the use of military training aircraft.  
 equipment for the use of NBC detection equipment (3 licences).  
 T equipment for the use of NBC detection equipment.  
 T equipment for the use of weapon night sights.  
 general military aircraft components (27 licences).  
 T general military aircraft components.  
 general naval vessel components (18 licences).  
 goods treated for signature suppression for military use.  
 ground vehicle military communications equipment.  
 T ground vehicle military communications equipment.  
 T launching/handling/control/support equipment for unmanned air vehicles.  
 T MANPADS training equipment.  
 military aero-engines (2 licences).  
 T military aero-engines.  
 military airborne equipment (2 licences).  
 T military airborne equipment.  
 military aircraft ground equipment (6 licences).  
 T military aircraft head-up/down displays (2 licences).  
 military aircrew breathing equipment (3 licences).  
 T military aircrew breathing equipment.  
 military cameras/photographic equipment (5 licences).  
 military communications equipment (17 licences).  
 T military communications equipment.  
 military electronic equipment (5 licences).  
 T military electronic equipment.  
 military equipment for initiating explosives (2 licences).  
 T military equipment for initiating explosives.  
 military field generators (3 licences).  
 military guidance/navigation equipment (3 licences).  
 T military guidance/navigation equipment (3 licences).  
 military helmets (3 licences).  
 military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).  
 T military improvised explosive device decoying/detection/disposal/jamming equipment.  
 T military infrared/thermal imaging equipment (2 licences).  
 military radars.  
 military training aircraft.  
 military training equipment.  
 munitions/ordnance detection/disposal equipment (4 licences).  
 naval electrical/electronic equipment.  
 naval guns.  
 NBC detection equipment (3 licences).  
 T NBC detection equipment (3 licences).  
 T NBC protective/defensive equipment.  
 projectile launchers.  
 small arms ammunition (5 licences).  
 small arms training equipment (3 licences).  
 T software enabling equipment to function as military guidance/navigation equipment (2 licences).  
 T software enabling equipment to function as military training equipment.  
 software for aircraft carriers.  
 software for decoying/countermeasure equipment.  
 software for equipment for the use of aircraft missile protection systems.  
 T software for military aircraft ground equipment.  
 software for military cameras/photographic equipment.  
 software for military electronic equipment.  
 software for military guidance/navigation equipment.  
 software for military radars (2 licences).  
 software for NBC detection equipment.  
 software for optimising equipment design.  
 software for the use of equipment for the development of military aero-engines.  
 T software for unmanned air vehicles.  
 technology for aerial target equipment.  
 technology for air-to-surface missiles (3 licences).  
 technology for aircraft carriers (3 licences).  
 technology for combat naval vessels.  
 technology for decoying/countermeasure equipment (2 licences).  
 technology for man portable air defence system missiles.  
 technology for man portable air defence systems (4 licences).  
 technology for man portable air defence systems training equipment.

	technology for MANPADS training equipment.
	technology for military aircraft head-up/down displays.
	technology for military communications equipment.
	technology for military electronic equipment.
	technology for military guidance/navigation equipment (3 licences).
	technology for military radars (2 licences).
	technology for military support vehicles.
	technology for naval guns.
	technology for NBC detection equipment (5 licences).
	technology for software for decoying/countermeasure equipment.
	technology for surface-to-air missiles (6 licences).
	technology for the use of equipment for the development of military aero-engines.
	technology for the use of software for the use of equipment for the development of military aero-engines.
T	unfinished products for decoying/countermeasure equipment.
	unfinished products for equipment for the use of military helicopters.
	unfinished products for military training aircraft.
	unfinished products for torpedoes (2 licences).
T	unmanned air vehicles.
	weapon cleaning equipment.
T	weapon cleaning equipment.
T	weapon night sights (2 licences).
	weapon sights (2 licences).
T	weapon sights (2 licences).

### Non-military

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£220
Total	1	£220

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£220

components for military support aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United States of America

### SIELs - Transshipment

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£68,419
Total	2	£68,419

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the

items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	2	£68,419

metal alloy cylindrical forms (2 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for airborne underwing equipment, components for ejector seats, components for military aero-engines, components for military aircraft flight data recorders, components for military electronic equipment, components for military training aircraft, equipment for the production of military training aircraft, general military aircraft components, military aircraft ground equipment, military cameras, military electronic equipment, military video recording equipment, production technology for military training aircraft, software for the production of military training aircraft, technology for the production of military training aircraft, unfinished products for military training aircraft
2	P	technology for the development of civil unmanned air vehicle engines, technology for the development of civil unmanned air vehicles, technology for the development of control equipment for unmanned air vehicles, technology for the development of guidance equipment for unmanned air vehicles, technology for the development of remote control equipment for unmanned air vehicles
3	P	general naval vessel components
4	P	military improvised explosive device disposal equipment, military utility vehicles
5	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for frigates, components for military aircraft ground equipment, components for military training aircraft, components for military transport aircraft, components for military utility aircraft, components for military utility helicopters, components for submarines, general military aircraft components, general naval vessel components
6	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military training aircraft, components for military transport aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, technology for the use of combat aircraft, technology for the use of combat helicopters, technology for the use of equipment for the use of combat aircraft, technology for the use of equipment for the use of military aero-engines, technology for the use of equipment for the use of military training aircraft, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aero-engines, technology for the use of military training aircraft, technology for the use of military transport aircraft
7	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of equipment employing cryptography
8	P	components for military radars, technology for military radars
9	P	components for combat aircraft, components for combat helicopters, components for military training aircraft, components for military utility helicopters

10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military training aircraft
11	P	components for combat aircraft, general military aircraft components, technology for combat aircraft, unfinished products for combat aircraft
12	P	equipment employing cryptography
13	P	information security software
14	P	components for small arms ammunition, small arms ammunition
15	P	general naval vessel components, technology for general naval vessel components
16	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
17	P	components for military aero-engines
18	P	accessories for semiconductor process equipment, components for semiconductor process equipment, software for the use of semiconductor process equipment
19	T	inertial equipment
20	P	fibrous/filamentary materials
21	P	components for equipment employing cryptography, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography, technology for software for equipment employing cryptography
22	P	components for aircraft missile protection systems, components for attack alerting/warning equipment, components for decoying/countermeasure equipment, components for military aero-engines, components for military helicopters, equipment for the use of military helicopters, general military aircraft components, military aero-engines, military parachutes and equipment, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for decoying/countermeasure equipment, software for equipment for the use of military helicopters, software for military aero-engines, software for military helicopters, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for decoying/countermeasure equipment, technology for equipment for the use of military helicopters, technology for military aero-engines, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices
23	P	general naval vessel components
24	P	aircraft military communications equipment, components for aircraft military communications equipment
25	P	imaging cameras
26	P	towed hydrophone arrays
27	P	equipment employing cryptography
28	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
29	P	technology for composite laminates, technology for composite structures, technology for frequency synthesisers, technology for spacecraft, technology for the development of satellite telecommunications equipment, technology for the production of satellite telecommunications equipment
30	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes
31	P	attack alerting/warning equipment, components for combat aircraft, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for military aero-engines, components for military

		airborne equipment, components for military aircraft ground equipment, components for military aircrew protective equipment, components for military training aircraft, equipment for the development of combat aircraft, equipment for the production of combat aircraft, equipment for the use of attack alerting/warning equipment, equipment for the use of combat aircraft, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, general military aircraft components, launching/handling/control equipment for missiles, military aircraft pressure refuellers, military aircrew breathing equipment, military aircrew protective equipment, military cameras/photographic equipment, military containers, military image recording/processing equipment, military training equipment, software for combat aircraft, targeting equipment, technology for combat aircraft, unfinished products for combat aircraft, weapon control equipment
32	P	components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for fire location equipment, components for ground vehicle military communications equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for rangefinding equipment, components for tanks, components for unmanned air vehicles, general military aircraft components, general military vehicle components, general naval vessel components, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for fire location equipment, technology for general military aircraft components, technology for ground vehicle military communications equipment, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military trailers, technology for military training aircraft, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for rangefinding equipment, technology for tanks, technology for unmanned air vehicles
33	P	components for combat helicopters, equipment for the use of combat helicopters
34	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
35	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for military aero-engines, components for military airborne equipment, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military aircrew protective equipment, components for military helicopters, components for military parachutes and equipment, components for military paragliders, components for military support aircraft, components for military training aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of ejector seats, equipment for the use of equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military airborne equipment, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft head-up/down displays, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew breathing equipment, equipment for the use of military aircrew protective equipment, equipment for the use of military communications equipment, equipment for the use of military helicopters, equipment for the use of military parachutes and equipment, equipment for the use of military paragliders, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military communications equipment, military guidance/navigation equipment, technology for aircraft military communications equipment, technology for combat aircraft, technology for combat helicopters, technology for ejector seats, technology for equipment for the operation of military aircraft in confined areas, technology for general military aircraft components, technology for military aero-engines, technology for military airborne equipment, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military aircraft pressure refuellers,

### Country Footnotes

- UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	31	£12,703,493
Non-military	18	£3,401,460
Both Military and Non-military	1	£864,000
Total	50	£16,968,953

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£706,900
ML3	2	£41,100
ML4	2	£614,968
ML6	6	£2,192,490
ML7	1	£38,760
ML10	2	£172,868
ML11	8	£7,094,058
ML13	5	£1,609,909
ML18	1	£107,800
ML21	2	£4,000
ML22	1	£50,000
PL5017	6	£49,512
PL5035	3	£21,128

all-wheel drive vehicles with ballistic protection.  
assault rifles (10).  
assault rifles (118).

T

- assault rifles (450).
- ballistic test equipment.
- body armour (2 licences).
- components for all-wheel drive vehicles with ballistic protection (3 licences).
- components for assault rifles.
- components for body armour (3 licences).
- components for general purpose machine guns.
- components for ground vehicle military communications equipment (4 licences).
- components for military aero-engines.
- components for military communications equipment (5 licences).
- components for military communications equipment.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for NBC detection equipment.
- components for semi-automatic pistols (2 licences).
- decoying/countermeasure equipment.
- equipment for the use of attack alerting/warning equipment (2 licences).
- equipment for the use of ground vehicle military communications equipment (4 licences).
- equipment for the use of military communications equipment (3 licences).
- general purpose machine guns (35).
- ground vehicle military communications equipment (3 licences).
- military aircrew protective equipment.
- military communications equipment (4 licences).
- military helmets (3 licences).
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- military support vehicles.
- NBC detection equipment.
- semi-automatic pistols (9).
- semi-automatic pistols (100).
- small arms ammunition (2 licences).
- software for ground vehicle military communications equipment.
- software for military communications equipment.
- software for the use of military communications equipment.
- technology for anti-riot/ballistic shields.
- technology for body armour.
- technology for military helmets.
- weapon cleaning equipment (2 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£57,168
2B001	1	£106,633
2D002	1	£0
5A001	5	£2,147,959
5A002	9	£483,916
5D002	1	£1
6A008	1	£605,783

- civil explosive detection/identification equipment.
- components for radar equipment.
- cryptographic software.
- equipment employing cryptography (9 licences).
- machine tools.
- numerical control software.
- radar equipment.
- radio controlled improvised explosive device jamming equipment (5 licences).

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

6A003	1	£300,000
ML1	1	£480,000
ML11	1	£4,000
ML15	1	£80,000

T equipment for the use of weapon night sights.  
T imaging cameras.  
T military infrared/thermal imaging equipment.  
T weapon night sights.

### Revoked

	Count
Military	1
Total	1

The SIELs revoked were no longer granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq or the Multinational Force to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

2. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

- sporting guns.
- technology for military communications equipment.
- technology for military training equipment.
- technology for NBC detection equipment.
- wall/door breaching projectiles/ammunition.
- weapon night sights.
- T weapon night sights.
- weapon sight mounts.
- weapon sights (3 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£90,432
3A231	1	£1,760,000

neutron generators.  
non-military detonators.

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£54,352
Total	1	£54,352

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£54,352

components for mortars.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for rifles, equipment for the use of rifles, gun silencers
2	P	technology for the use of weapon sights, weapon sights
3	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
4	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
5	P	anti-riot/ballistic shields, components for anti-riot/ballistic shields
6	P	weapon night sights, weapon sights
7	P	components for small arms ammunition, small arms ammunition
8	P	general naval vessel components, technology for general naval vessel components
9	P	components for sporting guns, components for weapon sights, unfinished products for sporting guns, weapon sights
10	P	gun silencers

11	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment

% and number of SIELs completed in 20 working days	73% (95)
% and number of SIELs completed in 60 working days	98% (128)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	123 days
% and number of OIELs completed in 20 working days	19% (6)
% and number of OIELs completed in 60 working days	23% (7)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	53	£1,578,756
Non-military	40	£231,005,265
Both Military and Non-military	2	£691,340
Total	95	£233,275,360

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	10	£159,606
ML2	1	£2,500
ML3	1	£7,500
ML4	1	£99,320

ML5	2	£9,738
ML7	19	£918,050
ML8	1	£25
ML10	3	£58,170
ML11	4	£240,021
ML13	2	£7,620
ML14	2	£22,051
ML17	1	£200
ML18	1	£7,348
ML21	4	£36,484
ML22	4	£9,100
PL5017	3	£1,024

assault rifles (94).  
 assault rifles (104).  
 body armour.  
 components for aerial target equipment (2 licences).  
 components for anti-armour weapons.  
 components for assault rifles.  
 components for body armour.  
 components for combat helicopters.  
 components for guided missile decoy rounds.  
 components for gun mountings.  
 components for machine guns.  
 components for military airborne equipment.  
 components for military electronic equipment.  
 components for NBC detection equipment (10 licences).  
 components for rangefinding equipment (2 licences).  
 components for rifles.  
 components for sniper rifles (3 licences).  
 components for sporting guns.  
 equipment for the production of artillery ammunition.  
 equipment for the use of military communications equipment.  
 equipment for the use of NBC detection equipment (2 licences).  
 general military aircraft components.  
 goods treated for signature suppression for military use.  
 machine guns (23).  
 machine guns (132).  
 military communications equipment (2 licences).  
 military electronic equipment.  
 military helmets (2 licences).  
 NBC detection equipment (7 licences).  
 NBC protective/defensive equipment.  
 pyrotechnics/fuels and related substances.  
 rifles (78).  
 software for military aero-engines.  
 software for military infrared/thermal imaging equipment.  
 software for optimising equipment design (2 licences).  
 sporting guns (1).  
 sporting guns (2).  
 tear gas/riot control agents (3 licences).  
 technology for military communications equipment.  
 technology for NBC detection equipment (2 licences).  
 technology for software for optimising equipment design.  
 wall/door breaching projectiles/ammunition.  
 weapon night sights.  
 weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£26,997

0C002	14	£229,266,003
0E001	7	£53,030
1A004	1	£220
1C351	6	£1,303
2B351	1	£238
3A001	1	£13,600
3A228	1	£500
5A001	1	£1,339,132

5D002	1	£1,000
6A001	2	£100,800
6A003	1	£4,500
7A001	1	£10,000
9B001	2	£143,060

- accelerometers.
- civil NBC protection equipment.
- components for nuclear reactors.
- T cryptographic software.
- enriched uranium (10 licences).
- equipment employing cryptography.
- T equipment employing cryptography.
- equipment for the production of gas turbines (2 licences).
- human pathogens.
- imaging cameras.
- materials containing enriched uranium (4 licences).
- materials containing enriched uranium-233 (3 licences).
- materials containing plutonium-239 (3 licences).
- T radio jamming equipment.
- space qualified solar devices.
- technology for nuclear reactor fuel element fabrication equipment.
- technology for the development of nuclear reactor fuel element fabrication equipment (5 licences).
- technology for the development/production/use of nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation.
- technology for the production of nuclear reactor fuel element fabrication equipment (4 licences).
- technology for the use of nuclear reactor fuel element fabrication equipment (5 licences).
- towed hydrophone arrays (2 licences).
- toxic gas detectors.
- toxins (5 licences).
- triggered spark gaps.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£55,040
6A003	1	£140,000
ML1	1	£387,780
ML7	1	£43,140
ML11	2	£6,800
ML15	1	£54,580
PL5017	1	£4,000

- T civil NBC detection systems.
- T components for civil NBC detection systems.
- T components for NBC detection equipment.
- T equipment for the use of chemical agent detection equipment.
- T equipment for the use of NBC detection equipment.
- T imaging cameras.
- T military electronic equipment.
- T military infrared/thermal imaging equipment.
- T NBC detection equipment.
- T weapon sights.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	NBC protective/defensive equipment
2	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
3	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MNs; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed of modified for the use of goods specified in 6/7/8 above
4	P	technology for the use of weapon sights, weapon sights
5	P	components for military transport aircraft, components for military utility helicopters
6	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
7	P	components for small arms ammunition, small arms ammunition
8	P	components for small arms ammunition, small arms ammunition
9	P	general naval vessel components, technology for general naval vessel components
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
11	P	components for military aero-engines
12	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights
13	P	toxins
14	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
15	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
16	P	components for NBC detection equipment, NBC detection equipment

17	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
18	P	small arms ammunition
19	P	components for small arms ammunition, small arms ammunition
20	P	components for military aircraft ground equipment, components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for military support aircraft
21	P	enriched uranium, materials containing enriched uranium, products containing enriched uranium
22	P	components for military aero-engines, components for military helicopters, equipment for the operation of military aircraft in confined areas, equipment for the use of military helicopters, military aircraft ground equipment, military aircraft pressure refuellers
23	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the development of combat helicopters, equipment for the development of equipment for the production of combat helicopters, equipment for the development of equipment for the production of military helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of equipment for the production of combat helicopters, equipment for the production of equipment for the production of military helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for combat helicopters, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for military helicopters, technology for combat helicopters, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, test models for combat helicopters, test models for military helicopters, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
24	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

 T Rv weapon night sights (3 licences).  
 T weapon sight mounts (2 licences).

Rv - Some or all of which have subsequently been revoked.

## Revoked

	Count
Both Military and Non-military	2
Total	2

The SIELs revoked were no longer granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is

counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry
6A003	2
ML1	2
ML5	2
ML11	2
ML15	2
PL5017	1

- T equipment for the use of weapon day and night sights (2 licences).
- T imaging cameras (2 licences).
- T military infrared/thermal imaging equipment (2 licences).
- T weapon day and night sights.
- T weapon night sights (2 licences).
- T weapon sight mounts.

**SIELs - Transshipment**

**Issued**

Types of goods on licence	No. of licences	Value
Military	1	£130,000
Total	1	£130,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£50,500
ML8	1	£79,500

- explosives.
- military devices for initiating explosives.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.

- promoting the supply of weapon sights.
- sniper rifles.

A - Some or all of which were issued on appeal.

## Rejected

- components for demolition devices.
- demolition devices.
- promoting the supply of hand grenades.
- promoting the supply of rifle grenades.

## Country Footnotes

1. Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

- body armour.
- civil body armour.
- civil NBC detection systems.
- civil NBC protection equipment.
- civil riot control agent protection equipment.
- components for chemical agent detection equipment.
- direct view imaging equipment.
- T equipment for the use of weapon night sights.
- T equipment for the use of weapon sights.
- T goods treated for signature suppression for military use.
- T imaging cameras.
- T military infrared/thermal imaging equipment.
- NBC protective/defensive equipment (2 licences).
- T technology for equipment for the use of weapon sights.
- T weapon night sights (2 licences).
- T weapon sight mounts.
- T weapon sights (2 licences).

**Refused**

	Count
Non-military	2
Total	2

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry
3A002	2

- network analysers.
- signal generators.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general naval vessel components
2	P	components for armoured fighting vehicles, components for combat aircraft, components for combat helicopters, components for ground based radars, components for large calibre artillery, components for military aircraft ground equipment, components for military communications equipment, components for military training aircraft, components for military transport aircraft, components for military utility helicopters, general military aircraft components, general military vehicle components
3	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of equipment employing cryptography
4	P	components for military radars
5	P	heading sensors for hydrophone arrays
6	P	components for combat aircraft, components for military training aircraft, components for military transport aircraft
7	P	equipment for the use of weapon sights, weapon night sights, weapon sights
8	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
9	P	components for combat aircraft, components for military support aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, weapon cleaning equipment
10	P	equipment employing cryptography
11	P	components for recognition/identification equipment, software for recognition/identification equipment, technology for recognition/identification equipment
12	P	components for all-wheel drive vehicles with ballistic protection, components for military support vehicles, technology for all-wheel drive vehicles with ballistic protection, technology for military support vehicles
13	P	components for small arms ammunition, small arms ammunition
14	P	general naval vessel components, technology for general naval vessel components
15	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
16	P	components for gun mountings, components for periscopes, components for turrets, components for weapon control systems, gun mountings, periscopes, weapon control systems
17	P	ballistic shields, body armour, bomb suits, civil body armour, components for ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military helmets, improvised explosive device disposal equipment, military helmets
18	P	fibrous/filamentary materials

19	P	components for equipment employing cryptography, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography, technology for software for equipment employing cryptography
20	P	imaging cameras
21	P	components for military support aircraft
22	P	components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft
23	P	equipment employing cryptography
24	P	aircraft military communications equipment
25	P	machine guns
26	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment, weapon mountings
27	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes
28	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
29	P	aircraft seals, components for inertial equipment, inertial equipment
30	P	components for aircraft carriers, components for combat naval vessels, components for equipment for the operation of military aircraft in confined areas, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, equipment for the operation of military aircraft in confined areas, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for equipment for the operation of military aircraft in confined areas, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
31	T	command communications control and intelligence software, technology for command communications control and intelligence software
32	P	anti-aircraft guns, attack alerting/warning equipment, components for anti-aircraft guns, components for attack alerting/warning equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military image recording/processing equipment, components for counter-countermeasure equipment for military imaging radar sensor equipment, components for countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military imaging radar sensor equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for fire location equipment, components for general naval vessel components, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for naval guns, components for naval hull penetrators/connectors, components for periscopes, components for projectile launchers, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing

		<p>equipment, counter-countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of fire location equipment, equipment for the use of general naval vessel components, equipment for the use of military cameras/photographic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military imaging radar sensor equipment, equipment for the use of military radars, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval gun installations/mountings, equipment for the use of naval hull penetrators/connectors, equipment for the use of periscopes, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, fire location equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, naval guns, naval hull penetrators/connectors, periscopes, projectile launchers, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, technology for anti-aircraft guns, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the operation of military aircraft in confined areas, technology for fire location equipment, technology for general naval vessel components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military radars, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for naval guns, technology for naval hull penetrators/connectors, technology for periscopes, technology for projectile launchers, technology for rangefinding equipment, technology for recognition/identification equipment, technology for sensor integration equipment, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, weapon control equipment, weapon night sights, weapon sights</p>
33	T	<p>components for inertial equipment, inertial equipment, technology for inertial equipment</p>

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£32,070
Non-military	4	£1,006,600
Total	7	£1,038,670

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	1	£1,500
ML6	1	£10,000
ML13	1	£20,570

body armour.  
 components for body armour.  
 components for military support vehicles.  
 sniper rifles (1).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	1	£1,100
6A001	1	£986,000
7A103	1	£14,000
PL8001	1	£5,500

components for devices for initiating explosives.  
 heading sensors for hydrophone arrays.  
 improvised explosive device disruptors.  
 inertial equipment.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	heading sensors for hydrophone arrays
2	P	devices for initiating explosives, non-military detonators, non-military firing sets

##### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	command communications control and intelligence software, technology for command communications control and intelligence software

6A001	1	£37,077

- T hydrophones.  
materials containing enriched uranium.  
materials containing plutonium-239.  
plant pathogens.  
toxins (2 licences).

### SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,137
Total	1	£1,137

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML14	1	£1,137

components for military training equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Singapore

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	military improvised explosive device disposal equipment, military utility vehicles
2	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
3	P	technology for the use of weapon sights, weapon sights
4	P	components for military training aircraft, components for military transport aircraft
5	P	equipment for the use of weapon sights, weapon night sights, weapon sights
6	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
7	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
8	P	components for rifles, components for small arms ammunition, components for sporting guns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, training small arms ammunition, weapon sights
9	P	components for small arms ammunition, small arms ammunition
10	P	components for small arms ammunition, small arms ammunition
11	P	general naval vessel components, technology for general naval vessel components
12	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment,

		equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
13	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights
14	P	sporting guns
15	P	components for military combat vehicles, components for military support vehicles, technology for military combat vehicles, technology for military support vehicles
16	P	toxins
17	P	components for rifles, components for sporting guns, rifles, small arms ammunition, sporting guns, weapon sights
18	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
19	P	towed hydrophone arrays
20	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
21	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment, weapon mountings
22	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
23	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment

- components for mortars (2 licences).
- components for NBC protective/defensive equipment (4 licences).
- components for sniper rifles (9 licences).
- components for surface-to-surface missiles.
- components for weapon sights (2 licences).
- crowd control ammunition (2 licences).
- T electronic warfare equipment.
- equipment for the use of military electronic equipment.
- explosives.
- gun mountings (2 licences).
- T gun mountings.
- gun silencers.
- T machine guns (1).
- T military electronic equipment.
- military image intensifier equipment (2 licences).
- T military image intensifier equipment.
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment.
- military training equipment.
- pyrotechnics/fuels and related substances.
- rifles (1).
- small arms ammunition (4 licences).
- sniper rifles (1).

sniper rifles (60).  
 sporting guns (1) (5 licences).  
 technology for mortars.  
 technology for sniper rifles.  
 training crowd control ammunition.  
 turrets.  
 unfinished products for sniper rifles.  
 weapon control equipment.  
 T weapon night sights (2 licences).  
 weapon sight mounts (2 licences).  
 weapon sights (6 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£1,000
0C001	2	£750
0C002	1	£375
1A004	3	£97,093
1C234	1	£44,556
1C351	1	£109
2B350	1	£2,400

6A001	10	£24,766,886
6A008	1	£36,900
8A002	1	£405,000
PL8001	1	£1,270

T civil NBC detection systems (2 licences).  
 components for civil NBC protection equipment.  
 components for marine location systems.  
 components for marine position fixing equipment.  
 corrosion resistant chemical manufacturing equipment.  
 cryptographic software (3 licences).  
 devices for initiating explosives.  
 hydrophones (4 licences).  
 marine position fixing equipment.  
 materials containing natural uranium (2 licences).  
 materials containing plutonium-239.  
 neutron generators (7 licences).  
 nuclear reactors.  
 radar equipment.  
 T submersible equipment.  
 towed hydrophone arrays (3 licences).  
 toxins.  
 zirconium alloys.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£126,040
6A003	1	£25,000
ML1	1	£369,000
ML7	2	£45,340
ML11	2	£1,250
ML15	1	£75,000
PL5017	2	£4,060

T civil NBC detection systems (2 licences).

T components for civil NBC detection systems (2 licences).  
 T components for NBC detection equipment (2 licences).  
 T equipment for the use of NBC detection equipment (2 licences).  
 T imaging cameras.  
 T military infrared/thermal imaging equipment.  
 T NBC detection equipment (2 licences).  
 T weapon night sights.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	4	£33,281
Total	4	£33,281

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	4	£33,281

components for air-to-surface missiles (2 licences).  
 components for launching/handling/control equipment for missiles.  
 components for multi-role missiles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil  
 Chile  
 Turkey

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
2	P	technology for the use of weapon sights, weapon sights
3	P	components for combat aircraft, components for military transport aircraft
4	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems

5	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
6	P	animal pathogens
7	P	anti-riot/ballistic shields, components for anti-riot/ballistic shields
8	P	weapon night sights, weapon sights
9	P	components for rifles, components for small arms ammunition, components for sporting guns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, training small arms ammunition, weapon sights
10	P	military airborne equipment, military guidance/navigation equipment
11	P	components for small arms ammunition, small arms ammunition
12	P	components for small arms ammunition, small arms ammunition
13	P	general naval vessel components, technology for general naval vessel components
14	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
15	P	chemicals used for industrial/commercial processes
16	P	components for military aero-engines
17	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights
18	P	components for military combat vehicles, military combat vehicles, technology for military combat vehicles
19	P	components for air-to-surface missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for man portable air defence system missiles, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air-to-surface missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for man portable air defence system missiles, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
20	P	components for rifles, components for sporting guns, rifles, small arms ammunition, sporting guns, weapon sights
21	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
22	P	towed hydrophone arrays
23	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
24	P	aircraft military communications equipment
25	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment

26	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
27	P	small arms ammunition
28	P	components for small arms ammunition, small arms ammunition
29	P	chemicals used for industrial/commercial processes
30	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, military aircraft pressure refuellers
31	P	components for military image intensifier equipment, military image intensifier equipment
32	P	components for sporting guns, sporting guns
33	T	components for NBC protective/defensive equipment, NBC protective/defensive equipment
34	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, technology for combat helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
35	P	goods treated for signature suppression for military use
36	P	blank/inert ammunition, components for pistols, components for rifles, components for sporting guns, components for weapon sights, crowd control ammunition, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, sporting guns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon sights
37	P	components for military training equipment, military training equipment, software for military training equipment, technology for military training equipment

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general naval vessel components
2	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for ground based radars, components for large calibre artillery, components for military aircraft ground equipment, components for military communications equipment, components for military distress signalling equipment, components for military training aircraft, components for mortars, components for patrol craft, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components
3	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MNs; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed of modified for the use of goods specified in 6/7/8 above
4	P	technology for the use of weapon sights, weapon sights
5	P	components for combat aircraft, components for combat helicopters, components for military training aircraft, components for military transport aircraft, components for military utility aircraft, components for military utility helicopters
6	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
7	P	equipment employing cryptography
8	P	information security software
9	P	heading sensors for hydrophone arrays
10	P	aircraft cannons, aircraft military communications equipment, components for aircraft cannons, components for aircraft military communications equipment, components for combat aircraft, components for decoying/countermeasure equipment, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of combat aircraft, components for equipment for the use of military helicopters, components for equipment for the use of military support aircraft, components for equipment for the use of military training aircraft, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aero-engines, components for military airborne equipment, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military

		aircrew breathing equipment, components for military aircrew protective equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military parachutes and equipment, components for military paragliders, components for military support aircraft, components for military training aircraft, decoying/countermeasure equipment, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of combat aircraft, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aero-engines, military airborne equipment, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew breathing equipment, military aircrew protective equipment, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military paragliders
11	P	components for all-wheel drive vehicles with ballistic protection, components for military support vehicles, technology for all-wheel drive vehicles with ballistic protection, technology for military support vehicles
12	P	components for small arms ammunition, small arms ammunition
13	P	general naval vessel components, technology for general naval vessel components
14	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
15	P	attack alerting/warning equipment, components for attack alerting/warning equipment, components for combat naval vessels, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for military electronic equipment, components for military guidance/navigation equipment, components for military radars, components for naval communications equipment, components for naval gun installations/mountings, components for naval guns, components for NBC detection equipment, components for NBC protective/defensive equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, general naval vessel components, launching/handling/control equipment for missiles, military electronic equipment, military guidance/navigation equipment, military radars, naval communications equipment, naval gun installations/mountings, naval guns, NBC detection equipment, NBC protective/defensive equipment, recognition/identification equipment, targeting equipment, weapon control equipment
16	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights
17	P	components for ground vehicle military communications equipment, components for military combat vehicles, components for military support vehicles, components for military trailers, components for tanks, general military vehicle components
18	P	components for corrosion resistant chemical manufacturing equipment
19	P	fibrous/filamentary materials
20	P	components for military combat vehicles, military combat vehicles
21	P	components for ejector seats, components for military parachutes and equipment, components for military training aircraft, military parachutes and equipment
22	P	towed hydrophone arrays
23	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes

24	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
25	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for military aero-engines, components for military airborne equipment, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military aircrew protective equipment, components for military helicopters, components for military parachutes and equipment, components for military paragliders, components for military support aircraft, components for military training aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of ejector seats, equipment for the use of equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military airborne equipment, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft head-up/down displays, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew breathing equipment, equipment for the use of military aircrew protective equipment, equipment for the use of military communications equipment, equipment for the use of military helicopters, equipment for the use of military parachutes and equipment, equipment for the use of military paragliders, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military communications equipment, military guidance/navigation equipment, technology for aircraft military communications equipment, technology for combat aircraft, technology for combat helicopters, technology for ejector seats, technology for equipment for the operation of military aircraft in confined areas, technology for general military aircraft components, technology for military aero-engines, technology for military airborne equipment, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military aircraft pressure refuellers, technology for military aircrew breathing equipment, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for military paragliders, technology for military support aircraft, technology for military training aircraft
26	T	rifles, sporting guns

#### Country Footnotes

1. Arms trade sanctions against Guinea were adopted by EU Common Position 2009/788/CFSP amended by Council Decision 2009/1003/CFSP. EU Common Position 2009/788/CFSP was repealed and replaced by Council Decision 2010/638/CFSP on 25 October 2010. The embargo extends to equipment that might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Types of goods on licence	No. of licences	Value
Military	25	£3,033,728
Non-military	84	£26,765,924
Both Military and Non-military	1	£7,183
Total	110	£29,806,835

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£224,572
ML3	2	£172,000
ML6	3	£1,190,350
ML9	2	£723,074
ML10	3	£234,648
ML11	2	£14,982
ML14	1	£90,080
ML17	1	£119,991
ML18	1	£200,000
ML21	2	£10
ML22	2	£11
PL5017	2	£64,010

components for combat helicopters.  
 components for combat naval vessels.  
 components for firearm training simulators.  
 components for military airborne equipment.  
 components for military guidance/navigation equipment.  
 components for sporting guns.  
 equipment for the production of military helicopters.  
 equipment for the use of artillery.  
 equipment for the use of military patrol/assault craft.  
 general military vehicle components.  
 T military field engineer equipment.  
 military patrol/assault craft.  
 T military support vehicles.  
 military trailers.  
 small arms ammunition (2 licences).  
 small arms training equipment.  
 software for optimising equipment design.  
 software for small arms training equipment.  
 sporting guns (1) (3 licences).  
 sporting guns (2) (2 licences).  
 sporting guns (67).  
 technology for military helicopters.  
 technology for military support aircraft.  
 unmanned air vehicles.  
 weapon cleaning equipment.  
 weapon sights (3 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1B102	1	£965,565
1C010	2	£922,615
1C202	1	£18,881

6A005	1	£0
7A003	4	£261,755
7A103	1	£144,877
8A002	2	£54,318
9A004	1	£7,000,000

- animal pathogens (3 licences).
- biotechnology equipment.
- chemicals used for general laboratory work/scientific research.
- chemicals used for pharmaceutical/healthcare production (2 licences).
- components for corrosion resistant chemical manufacturing equipment (2 licences).
- components for equipment employing cryptography.
- components for metal powder production equipment.
- compound semiconductor precursor chemicals (2 licences).
- computer analogue to digital equipment.
- controlled atmosphere furnaces.
- corrosion resistant chemical manufacturing equipment (3 licences).
- dimensional measuring equipment (3 licences).
- equipment employing cryptography (6 licences).
- extended temperature range integrated circuits (3 licences).
- fibre prepreps.
- fibrous/filamentary materials.
- focal plane arrays (3 licences).
- high speed pulse generators.
- imaging cameras (20 licences).
- imaging cameras (4 licences).
- inertial equipment (5 licences).
- lasers.
- machine tools (2 licences).
- marine acoustic projectors.
- metal alloy cylindrical forms.
- numerical control software.
- radio jamming equipment.
- rebreathing swimming apparatus.
- semiconductor process equipment (2 licences).
- semiconductor wafers with epitaxial layers (3 licences).
- signal analysers (2 licences).
- signal generators (2 licences).
- signal generators.
- software for equipment employing cryptography (2 licences).
- software for machine tools.
- spacecraft.
- submersible equipment.
- underwater hydrophone cable systems.
- X-ray accelerators.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A006	1	£5,568
ML4	1	£1,615

components for munitions/ordnance detection/disposal equipment.  
magnetometers.

## Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Non-military

Control Entry	No. of licences with goods rated using Control Entry
3A001	1

radiation hardened integrated circuits.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
5	1

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	4	£3,050,805
Total	4	£3,050,805

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£111,805
ML10	1	£800,000
ML11	2	£2,139,000

components for military utility helicopters.

general naval vessel components.  
military guidance/navigation equipment (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Egypt  
India

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1 (Rv)	P	small arms ammunition, sporting guns, weapon sights
2	T	neutron generators
3 (Rv)	P	equipment employing cryptography
4 (Rv)	P	animal pathogens
5 (Rv)	T	inertial equipment
6 (Rv)	P	fibrous/filamentary materials
7	P	components for equipment employing cryptography, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography, technology for software for equipment employing cryptography
8 (Rv)	P	components for rifles, components for sporting guns, rifles, small arms ammunition, sporting guns, weapon sights
9 (Rv)	P	imaging cameras
10 (Rv)	P	towed hydrophone arrays
11 (Rv)	P	aircraft seals, components for inertial equipment, inertial equipment
12 (Rv)	T	components for inertial equipment, inertial equipment, technology for inertial equipment
13 (Rv)	P	technology for military communications equipment

Rv - Some or all of which have subsequently been revoked.

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for corrosion resistant chemical manufacturing equipment
2	T	command communications control and intelligence software, technology for command communications control and intelligence software
3	P	small arms ammunition
4	P	goods treated for signature suppression for military use

#### Country Footnotes

- On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

## Rwanda

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Non-military	1	£1,879
Total	1	£1,879

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£1,879

components for corrosion resistant chemical manufacturing equipment.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	technology for the development of civil unmanned air vehicle engines, technology for the development of civil unmanned air vehicles, technology for the development of control equipment for unmanned air vehicles, technology for the development of guidance equipment for unmanned air vehicles, technology for the development of remote control equipment for unmanned air vehicles
2	P	technology for the development of air-to-surface missiles, technology for the production of air-to-surface missiles, technology for the use of air-to-surface missiles
3	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition

4	P	components for combat aircraft, components for test equipment for combat aircraft, equipment for the use of combat aircraft, technology for the use of combat aircraft, test equipment for combat aircraft
5	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MNs; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed of modified for the use of goods specified in 6/7/8 above
6	P	components for military radars, military software
7	P	components for combat aircraft, components for military training aircraft, components for military transport aircraft
8	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
9	P	components for military aero-engines, components for military support aircraft
10	P	information security software
11	P	components for combat aircraft, components for military guidance/navigation equipment, components for military helicopters, components for military radars, components for military training equipment
12	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
13	P	components for corrosion resistant chemical manufacturing equipment
14	P	fibrous/filamentary materials
15	P	components for combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, military electronic equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for military aircraft ground equipment, technology for military electronic equipment
16	P	components for military combat vehicles, military combat vehicles

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	7	£23,688
Both Military and Non-military	1	£37,932
Total	8	£61,620

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	6	£14,888
5D002	1	£8,800

cryptographic software.  
equipment employing cryptography (6 licences).

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£16,872
ML13	1	£21,060

T body armour.  
T components for body armour.  
T direct view imaging equipment.  
T military helmets.

#### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	heading sensors for hydrophone arrays
2	P	aircraft seals, components for inertial equipment, inertial equipment

## Serbia

- promoting the supply of sniper rifles.
- promoting the supply of weapon night sights.
- promoting the supply of weapon sights.
- sniper rifles.

A - Some or all of which were issued on appeal.

### Rejected

- promoting the supply of hand grenades.
- promoting the supply of rifle grenades.

### Country Footnotes

1. UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

- T accessories for improvised explosive device disposal remotely operated vehicles.  
aero-engine assemblies (3 licences).  
biotechnology equipment (17 licences).  
chemicals used for general laboratory work/scientific research.  
chemicals used for industrial/commercial processes (2 licences).
- T civil NBC protection clothing (2 licences).  
civil unmanned air vehicles (2 licences).  
components for aero-engine assemblies.
- T components for equipment employing cryptography.  
components for improvised explosive device disposal remotely operated vehicles.  
components for semiconductor process equipment.  
components for submersible equipment.  
components for toxic gas monitoring equipment.  
compound semiconductor precursor chemicals (3 licences).  
computer analogue to digital equipment.  
constituents of propellants.  
corrosion resistant chemical manufacturing equipment (32 licences).  
cryptographic software (4 licences).  
deuterium compounds (4 licences).  
deuterium solutions (2 licences).
- T direct view imaging equipment.
- T equipment employing cryptography (50 licences).
- T equipment employing cryptography (3 licences).  
equipment with reduced electromagnetic emanations.
- T explosives detection equipment.  
extended temperature range integrated circuits (2 licences).  
fibre prepregs (2 licences).  
focal plane arrays.  
hafnium compounds.  
heading sensors for hydrophone arrays.
- T imaging cameras (9 licences).
- T imaging cameras (9 licences).
- T improvised explosive device disposal remotely operated vehicles.
- T inertial equipment (28 licences).
- T inertial equipment.  
instrumentation cameras.  
laser optical components.  
lasers.  
machine tools.  
magnesium (2 licences).  
marine position fixing equipment (3 licences).  
metal alloy cylindrical forms (11 licences).  
non-certified aero-engines.  
non-cryptographic information security equipment.  
propellants.
- T radar equipment.  
radio controlled improvised explosive device jamming equipment (2 licences).

- radio jamming equipment (2 licences).
- rebreathing swimming apparatus.
- T remote control equipment for unmanned air vehicles (2 licences).
- semiconductor process equipment.
- semiconductor wafers with epitaxial layers (4 licences).
- software for civil aero-engines (3 licences).
- software for cryptographic software.
- software for equipment employing cryptography (3 licences).
- T software for guidance/navigation equipment.
- software for the use of equipment employing cryptography (2 licences).
- submersible equipment (5 licences).
- submersible vehicles (3 licences).
- technology for aero-engine assemblies.
- technology for civil aero-engines (6 licences).
- technology for metal-working manufacturing processes (3 licences).
- technology for propellers for marine vessels (2 licences).
- technology for the development of civil aero-engines.
- technology for the production of civil aero-engines.
- towed hydrophone arrays (2 licences).
- toxic gas detectors.
- toxins.
- underwater electronic imaging systems (3 licences).
- zirconium compounds (3 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£136,435
5A002	1	£400
6A008	1	£100,000
6D002	1	£200
ML7	2	£61,682
ML11	2	£17,398

- T civil explosive detection/identification equipment.
- T civil NBC detection systems.
- civil NBC protection clothing.
- T components for civil explosive detection/identification equipment.
- components for military guidance/navigation equipment.
- T components for NBC detection equipment.
- T equipment for the use of NBC detection equipment.
- T NBC detection equipment.
- NBC protective/defensive equipment.
- radar equipment.
- software for radar equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	8	£1,050,575
Non-military	1	£6,336
Total	9	£1,056,911

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£36,790
ML5	1	£7,280
ML6	1	£249,452
ML9	1	£623,013
ML10	3	£63,388
ML11	2	£70,652

aircraft military communications equipment.  
 components for combat aircraft.  
 components for military aero-engines.  
 components for military communications equipment.  
 components for military electronic equipment.  
 components for military support vehicles.  
 components for weapon night sights (2 licences).  
 general naval vessel components.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£6,336

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
 Brazil  
 Indonesia  
 Norway  
 Thailand  
 United States of America

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	technology for the development of civil unmanned air vehicle engines, technology for the development of civil unmanned air vehicles, technology for the development of control equipment for unmanned air vehicles, technology for the development of guidance equipment for unmanned air vehicles, technology for the development of remote control equipment for unmanned air vehicles
2	P	general naval vessel components
3	P	military improvised explosive device disposal equipment, military utility vehicles

4	P	components for combat aircraft, components for ground based radars, components for military aircraft ground equipment, components for military bridges, components for military engineer vehicles, components for military improvised explosive device disposal equipment, components for military training aircraft, components for military utility helicopters, components for military utility vehicles, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components
5	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
6	P	technology for the use of weapon sights, weapon sights
7	P	components for military radars
8	P	heading sensors for hydrophone arrays
9	P	components for combat aircraft, components for military transport aircraft
10	P	equipment for the use of weapon sights, weapon night sights, weapon sights
11	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
12	P	equipment employing cryptography
13	P	anti-riot/ballistic shields, components for anti-riot/ballistic shields
14	P	corrosion resistant chemical manufacturing equipment
15	P	equipment employing cryptography
16	P	components for all-wheel drive vehicles with ballistic protection, components for military support vehicles, technology for all-wheel drive vehicles with ballistic protection, technology for military support vehicles
17	P	components for small arms ammunition, small arms ammunition
18	P	general naval vessel components, technology for general naval vessel components
19	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
20	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for military underwater remotely operated vehicles, components for submarines, general naval vessel components
21	P	ballistic shields, body armour, bomb suits, civil body armour, components for ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military helmets, improvised explosive device disposal equipment, military helmets
22	P	accessories for semiconductor process equipment, components for semiconductor process equipment, software for the use of semiconductor process equipment
23	P	aero-engine assemblies, non-certified aero-engines, software for civil aero-engines, technology for civil aero-engines, technology for metal-working manufacturing processes
24	P	fibrous/filamentary materials
25	P	components for combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, military electronic equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for military aircraft ground equipment, technology for military electronic equipment
26	P	toxins

27	P	hydrophones, towed hydrophone arrays
28	P	equipment employing cryptography
29	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
30	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for electronic countermeasure equipment, components for electronic warfare equipment, components for fire location equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for MANPADS training equipment, components for military airborne equipment, components for military auxiliary/support vessels, components for military bridges/pontoons/ferries, components for military combat vehicles, components for military communications equipment, components for military construction equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military robotic equipment, components for military scenario simulation equipment, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military training equipment, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for small arms training equipment, components for submarines, components for tanks, components for targeting equipment, components for turrets, components for weapon control equipment, general military aircraft components
31	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights
32	P	components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for fire location equipment, components for ground vehicle military communications equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for rangefinding equipment, components for tanks, components for unmanned air vehicles, general military aircraft components, general military vehicle components, general naval vessel components, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for fire location equipment, technology for general military aircraft components, technology for ground vehicle military communications equipment, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military trailers, technology for military training aircraft, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for rangefinding equipment, technology for tanks, technology for unmanned air vehicles
33	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
34	P	gyroscopes, inertial equipment
35	P	components for aircraft carriers, components for combat naval vessels, components for equipment for the operation of military aircraft in confined areas, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, equipment for the operation of military aircraft in confined areas, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for equipment for the operation of military aircraft in confined areas, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
36	T	command communications control and intelligence software, technology for command communications control and intelligence software

37	P	aircraft seals, components for inertial equipment, inertial equipment
38	P	components for military aircraft ground equipment, components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for military support aircraft
39	P	goods treated for signature suppression for military use
40	T	components for inertial equipment, inertial equipment, technology for inertial equipment
41	P	general military vehicle components, general naval vessel components
42	P	components for military combat vehicles, components for military support vehicles
43	P	components for military combat vehicles, components for tanks, unfinished products for military combat vehicles, unfinished products for tanks
44	P	components for naval gun installations/mountings, components for naval guns
45	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components
46	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	11	£319,536
Non-military	1	£375
Total	12	£319,911

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£230,594
ML3	1	£85,000
ML4	1	£2,840
ML10	1	£250
ML13	1	£840
PL5017	1	£12

T aircraft military communications equipment.  
 components for body armour.  
 components for sniper rifles.  
 components for sporting guns.  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 small arms ammunition.  
 sporting guns (1).  
 weapon cleaning equipment.  
 weapon sights (5 licences).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
OC002	1	£375

products containing plutonium-239.

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	3	£11,751
Total	3	£11,751

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009) and 1916 (2010) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	185	£16,106,517
Non-military	137	£30,729,589
Both Military and Non-military	9	£4,000,133
Total	331	£50,836,238

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	67	£3,921,579
ML2	3	£194,924
ML3	17	£938,912
ML4	15	£587,757
ML5	8	£358,432
ML6	11	£1,339,321
ML7	5	£178,891
ML9	1	£4,164
ML10	27	£782,996
ML11	22	£5,828,957
ML13	8	£616,855
ML14	1	£1,814
ML15	7	£776,992
ML21	1	£8,347
ML22	8	£554,300
PL5017	8	£331
PL5035	3	£11,944

accessories for military image intensifier equipment.  
accessories for military infrared/thermal imaging equipment.  
aircraft military communications equipment.  
assault rifles (1).  
assault rifles (2).  
assault rifles (6).  
assault rifles (15).  
assault rifles (30).

T assault rifles (44).  
assault rifles (100) (5 licences).

T blank/inert ammunition.  
body armour (8 licences).

T combat shotguns (6).

T combat shotguns (10).  
combat shotguns (100).  
components for air-to-air missiles (5 licences).  
components for aircraft cannons.  
components for all-wheel drive vehicles with ballistic protection (4 licences).  
components for assault rifles (8 licences).  
components for attack alerting/warning equipment (2 licences).  
components for body armour (5 licences).  
components for combat aircraft (4 licences).  
components for crowd control ammunition.  
components for decoying/countermeasure equipment.  
components for ejector seats (2 licences).  
components for electronic warfare equipment (2 licences).  
components for launching/handling/control equipment for missiles.

T components for launching/handling/control equipment for missiles.  
components for machine guns (3 licences).  
components for MANPADS training equipment.  
components for military aero-engines (2 licences).  
components for military airborne equipment.

T components for military aircrew breathing equipment.  
components for military combat vehicles (6 licences).  
components for military communications equipment.  
components for military guidance/navigation equipment (3 licences).

T components for military guidance/navigation equipment.  
components for military helicopters (4 licences).  
components for military infrared/thermal imaging equipment (3 licences).  
components for military radars (2 licences).  
components for military support aircraft (5 licences).  
components for military training aircraft.  
components for munitions/ordnance detection/disposal equipment.  
components for NBC detection equipment (5 licences).  
components for periscopes.  
components for rifles (4 licences).

T components for rifles.  
components for sniper rifles (5 licences).  
components for sporting guns (4 licences).  
components for submarines.  
components for targeting equipment (2 licences).  
components for turrets.  
components for unmanned air vehicles (2 licences).  
decoying/countermeasure equipment (2 licences).

T electronic warfare equipment.

T equipment for the use of launching/handling/control equipment for missiles.  
equipment for the use of machine guns.  
equipment for the use of weapon sights.  
flash suppressers.  
general military aircraft components (2 licences).  
general military vehicle components.

T general military vehicle components.  
grenade launchers.  
ground vehicle military communications equipment.  
gun mountings (3 licences).  
gun silencers (2 licences).

T launching/handling/control equipment for missiles (2 licences).

T machine guns (1).

T machine guns (33).  
machine guns.  
military aero-engines.

T military aircrew breathing equipment.  
military aircrew protective equipment (2 licences).  
military communications equipment.  
military devices for initiating explosives.  
military electronic equipment (3 licences).

T military electronic equipment (2 licences).  
military guidance/navigation equipment (7 licences).

military helicopters.  
 military helmets (6 licences).  
 military image intensifier equipment.  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 military infrared/thermal imaging equipment.  
 NBC detection equipment (4 licences).  
 pistols (8).  
 T pistols (60).  
 rifles (1) (2 licences).  
 rifles (5).  
 T rifles (40).  
 rifles (100) (3 licences).  
 rifles (200).  
 rifles (300).  
 small arms ammunition (15 licences).  
 smoothbore weapons (1).  
 sniper rifles (1) (4 licences).  
 T sniper rifles (1).  
 sniper rifles (2).  
 sniper rifles (100).  
 software for NBC detection equipment.  
 sporting guns (1) (12 licences).  
 T sporting guns (1) (2 licences).  
 sporting guns (2) (2 licences).  
 T sporting guns (2).  
 sporting guns (3) (2 licences).  
 sporting guns (4) (3 licences).

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	17	£294,544
Total	17	£294,544

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£84,381
ML5	4	£19,847
ML6	1	£16,155
ML9	1	£55,350
ML10	4	£20,212
ML11	3	£95,534
ML18	1	£3,065

aircraft military communications equipment.

components for air-to-air missiles.  
 components for combat aircraft (2 licences).  
 components for decoying/countermeasure equipment.  
 components for electronic warfare equipment (2 licences).  
 components for military combat vehicles.  
 components for military support aircraft.  
 components for periscopes.  
 components for recognition/identification equipment (2 licences).  
 components for submarines.  
 components for targeting equipment.  
 decoying/countermeasure equipment.  
 electronic warfare equipment.  
 equipment for the production of electronic warfare equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 Argentina  
 Australia  
 Brazil  
 Ecuador  
 Finland  
 France  
 Germany  
 India  
 Kuwait  
 Saudi Arabia  
 South Korea  
 Spain  
 Sweden  
 United Arab Emirates

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general naval vessel components
2	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
3	P	components for military transport aircraft
4	P	components for combat aircraft, components for military training aircraft, components for military transport aircraft
5	P	equipment for the use of weapon sights, weapon night sights, weapon sights
6	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
7	P	heading sensors for hydrophone arrays
8	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets

9	P	technology for the development of corrosion resistant chemical manufacturing equipment, technology for the production of corrosion resistant chemical manufacturing equipment, technology for the use of corrosion resistant chemical manufacturing equipment
10	P	components for military aero-engines, components for military guidance/navigation equipment, components for military support aircraft, military guidance/navigation equipment
11	P	equipment employing cryptography
12	P	cryptographic software, software for the use of equipment employing cryptography, technology for cryptographic software, technology for software for the use of equipment employing cryptography
13	P	animal pathogens
14	P	components for all-wheel drive vehicles with ballistic protection, components for military support vehicles, technology for all-wheel drive vehicles with ballistic protection, technology for military support vehicles
15	P	components for small arms ammunition, small arms ammunition
16	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
17	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights
18	T	inertial equipment
19	P	components for corrosion resistant chemical manufacturing equipment
20	P	components for equipment employing cryptography, cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for cryptographic software, technology for equipment employing cryptography, technology for software for the use of equipment employing cryptography
21 (Rv)	P	components for air-to-surface missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for man portable air defence system missiles, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air-to-surface missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for man portable air defence system missiles, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
22	P	aircraft military communications equipment, components for aircraft military communications equipment
23	P	towed hydrophone arrays
24	P	equipment employing cryptography
25	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
26	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for electronic countermeasure equipment, components for electronic warfare equipment, components for fire location equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for MANPADS training equipment, components for military airborne equipment, components for military auxiliary/support vessels, components for military bridges/pontoons/ferries, components for military combat vehicles, components for military communications equipment, components for military construction equipment, components for military electronic equipment, components for military guidance/navigation equipment,

		components for military helicopters, components for military patrol/assault craft, components for military radars, components for military robotic equipment, components for military scenario simulation equipment, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military training equipment, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for small arms training equipment, components for submarines, components for tanks, components for targeting equipment, components for turrets, components for weapon control equipment, general military aircraft components
27	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights
28	P	components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for fire location equipment, components for ground vehicle military communications equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for rangefinding equipment, components for tanks, components for unmanned air vehicles, general military aircraft components, general military vehicle components, general naval vessel components, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for fire location equipment, technology for general military aircraft components, technology for ground vehicle military communications equipment, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military trailers, technology for military training aircraft, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for rangefinding equipment, technology for tanks, technology for unmanned air vehicles
29	P	cryptographic software, equipment employing cryptography
30	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
31	T	rifles, sporting guns
32	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
33	P	small arms ammunition
34	P	components for aircraft carriers, components for combat naval vessels, components for equipment for the operation of military aircraft in confined areas, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, equipment for the operation of military aircraft in confined areas, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for equipment for the operation of military aircraft in confined areas, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
35	T	command communications control and intelligence software, technology for command communications control and intelligence software
36	P	aircraft seals, components for inertial equipment, inertial equipment

37	T	components for inertial equipment, inertial equipment, technology for inertial equipment
38	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for military aero-engines
39	P	devices for initiating explosives, non-military detonators, non-military firing sets
40	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components
41	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the development of combat helicopters, equipment for the development of equipment for the production of combat helicopters, equipment for the development of equipment for the production of military helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of equipment for the production of combat helicopters, equipment for the production of equipment for the production of military helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for combat helicopters, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for military helicopters, technology for combat helicopters, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, test models for combat helicopters, test models for military helicopters, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
42	P	blank/inert ammunition, components for pistols, components for rifles, components for sporting guns, components for weapon sights, crowd control ammunition, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, sporting guns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon sights
43	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

Rv - Some or all of which have subsequently been revoked.

#### Revoked

Licences revoked or whose coverage was amended during the period by the removal of items and/or destinations.		
No.	Type	Goods Summary

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	264	£39,209,859
Non-military	203	£69,961,479
Both Military and Non-military	1	£34,233
Total	468	£109,205,571

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£386,525
ML2	1	£3,897
ML3	4	£64,619
ML4	18	£3,943,979
ML5	34	£12,429,027
ML6	21	£1,348,111
ML9	28	£7,216,713
ML10	66	£7,907,346
ML11	49	£4,020,395
ML13	3	£14,146
ML14	1	£26,710
ML15	11	£136,158
ML16	1	£14,960
ML17	2	£135,906
ML18	3	£122,851
ML21	10	£1,323,862
ML22	16	£7,237
PL5017	9	£107,416

aircraft military communications equipment (3 licences).  
ballistic test equipment (3 licences).  
body armour.  
components for air-to-air missiles.  
components for armoured fighting vehicles.  
components for assault rifles.  
components for body armour (2 licences).  
components for combat aircraft (4 licences).  
components for combat helicopters (4 licences).  
components for combat naval vessels (7 licences).  
components for ejector seats.  
components for equipment for the operation of military aircraft in confined areas (2 licences).

components for equipment for the use of submarines.  
 components for fire location equipment.  
 components for machine guns (2 licences).  
 components for military aero-engines.  
 components for military auxiliary/support vessels (3 licences).  
 components for military bridges/pontoons/ferries.  
 components for military cameras/photographic equipment.  
 components for military combat vehicles (11 licences).  
 components for military communications equipment (11 licences).  
 components for military electronic equipment (4 licences).  
 components for military equipment for initiating explosives.  
 components for military guidance/navigation equipment (5 licences).  
 components for military guidance/navigation equipment.  
 components for military helicopters (21 licences).  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (6 licences).  
 components for military infrared/thermal imaging equipment (8 licences).  
 components for military patrol/assault craft (5 licences).  
 components for military radars (23 licences).  
 components for military support aircraft (3 licences).  
 components for military support vehicles (3 licences).  
 components for military training aircraft (19 licences).  
 components for military training equipment.  
 components for military utility helicopters (2 licences).  
 components for munitions/ordnance detection/disposal equipment (2 licences).  
 components for naval communications equipment.  
 components for naval engines.  
 components for naval guns.  
 components for optical target surveillance equipment.  
 components for periscopes (2 licences).  
 components for pistols.  
 components for rangefinding equipment.  
 components for sniper rifles.  
 components for submarines (4 licences).  
 components for surface launched rockets (2 licences).  
 components for surface-to-air missiles.  
 components for surface-to-surface missiles (3 licences).  
 components for tanks (4 licences).  
 components for targeting equipment (2 licences).  
 components for targeting equipment.  
 components for test equipment for military guidance/navigation equipment.  
 components for unmanned air vehicles (3 licences).  
 components for weapon control systems (4 licences).  
 decoying/countermeasure equipment (2 licences).  
 equipment for the operation of military aircraft in confined areas.  
 equipment for the use of artillery.  
 equipment for the use of gun silencers.  
 equipment for the use of sniper rifles.  
 equipment for the use of submarines.  
 equipment for the use of surface-to-surface missiles.  
 equipment for the use of targeting equipment (3 licences).  
 equipment for the use of weapon control systems.  
 equipment for the use of weapon night sights.  
 equipment for the use of weapon sights.  
 general military aircraft components.  
 general military vehicle components (2 licences).  
 general naval vessel components (5 licences).  
 gun silencers.  
 machine guns (22).  
 military aero-engines.  
 military aircraft ground equipment.  
 military communications equipment (7 licences).  
 military electronic equipment (3 licences).  
 military equipment for initiating explosives.  
 military guidance/navigation equipment (14 licences).  
 military guidance/navigation equipment (3 licences).  
 military helicopters.  
 military helmets (2 licences).  
 military improvised explosive device decoying/detection/disposal/jamming equipment (6 licences).  
 military infrared/thermal imaging equipment.

- T military infrared/thermal imaging equipment.  
military training equipment.  
munitions/ordnance detection/disposal equipment.  
naval communications equipment.  
naval electrical/electronic equipment (2 licences).  
signature suppression fittings/coatings/treatments for military use.  
small arms ammunition (2 licences).  
sniper rifles (2).  
software for ballistic test equipment.  
software for military aero-engines.  
software for military guidance/navigation equipment.  
software for military patrol/assault craft.  
Software for modelling/simulating/evaluating military operation scenarios (2 licences).  
Software for modelling/simulating/evaluating weapon systems.  
software for multi-role missiles.  
software for optimising equipment design.  
software for the development of targeting equipment.  
software for the use of Software for modelling/simulating/evaluating military operation scenarios.  
sporting guns (6).  
sporting guns (20).  
technology for air launched rockets (2 licences).  
technology for decoying/countermeasure equipment.  
technology for military communications equipment (4 licences).  
technology for military guidance/navigation equipment (2 licences).  
technology for military improvised explosive device decoying/detection/disposal/jamming equipment.  
technology for military patrol/assault craft.  
technology for multi-role missiles.  
technology for sniper rifles.  
technology for Software for modelling/simulating/evaluating military operation scenarios.  
technology for surface launched rockets (2 licences).  
technology for targeting equipment.  
technology for the use of military communications equipment.  
technology for the use of military guidance/navigation equipment.  
technology for the use of military radars.  
training small arms ammunition (2 licences).  
unfinished products for military aero-engines.  
weapon cleaning equipment.
- T weapon night sights.
- T weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A002	1	£395,600

9B001	1	£94,000
9E003	5	£5,000

- biotechnology equipment.
- chemicals used for industrial/commercial processes.
- chemicals used for pharmaceutical/healthcare production.
- components for corrosion resistant chemical manufacturing equipment.
- components for equipment employing cryptography.
- composite laminates.
- compound semiconductor precursor chemicals (19 licences).
- computer analogue to digital equipment.
- constituents of propellants.
- corrosion resistant chemical manufacturing equipment (6 licences).
- cryptographic software (3 licences).
- dimensional inspection equipment (2 licences).
- dimensional measuring equipment (10 licences).
- electrolytic cells for fluorine production.
- electronics cooling fluids (3 licences).
- equipment employing cryptography (15 licences).
- equipment for the production of gas turbines.
- extended temperature range integrated circuits.
- fibre prepregs (2 licences).
- fibrous/filamentary materials (2 licences).
- global positioning satellite receivers.
- helium-3.
- high energy capacitors.
- imaging cameras (39 licences).
- T imaging cameras (2 licences).
- inertial equipment (26 licences).
- T inertial equipment (4 licences).
- instrumentation cameras (4 licences).
- lasers (5 licences).
- machine tools (5 licences).
- magnetometers (3 licences).
- marine position fixing equipment (3 licences).
- mass spectrometers.
- mixtures containing chemicals used for industrial/commercial processes.
- radiation hardened integrated circuits (4 licences).
- radiation hardened TV camera lenses (2 licences).
- radiation hardened TV cameras (4 licences).
- semiconductor wafers with epitaxial layers (4 licences).
- software for equipment employing cryptography.
- T software for machine tools.
- software for the use of equipment employing cryptography.
- software for the use of test equipment for inertial equipment.
- T submersible equipment.
- technology for civil aero-engines.
- technology for global positioning satellite receivers.
- T technology for the development of electronic devices.
- technology for the production of civil aero-engines (4 licences).
- test equipment for global positioning satellite receivers.

thyristors (2 licences).  
toxic gas detectors (3 licences).  
toxic gas monitoring equipment.  
toxins (6 licences).  
X-ray accelerators.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A008	1	£27,464
ML5	1	£6,749
ML22	1	£20

components for military radars.  
radar equipment.  
technology for military radars.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	12	£1,430,614
Non-military	1	£13,650
Total	13	£1,444,264

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£509,000
ML6	1	£221,628
ML9	2	£13,228
ML10	8	£574,283
ML11	1	£12,811
ML16	1	£99,664

aircraft military communications equipment.  
components for aircraft military communications equipment.  
components for combat aircraft.  
components for military radars.  
components for military training aircraft (6 licences).  
components for submarines (2 licences).  
general military vehicle components.  
military guidance/navigation equipment.  
unfinished products for military training aircraft.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£13,650

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Indonesia  
Netherlands  
Turkey

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general naval vessel components
2	P	components for anti-aircraft guns, components for assault vessels, components for combat aircraft, components for combat helicopters, components for ground based radars, components for military aircraft ground equipment, components for military bridges, components for military surveillance aircraft, components for military training aircraft, components for military transport aircraft, components for military utility helicopters, components for military utility vehicles, components for mine hunting equipment, components for naval gun installations, components for naval light guns, components for naval radars, components for submarines, components for torpedoes, components for unmanned air vehicles, components for weapon control systems, general military aircraft components, general military vehicle components, general naval vessel components, small arms ammunition, sniper rifles, sporting pistols, sporting rifles
3	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of equipment employing cryptography
4	P	components for combat aircraft, components for military training aircraft
5	P	technology for the development of corrosion resistant chemical manufacturing equipment, technology for the production of corrosion resistant chemical manufacturing equipment
6	P	equipment employing cryptography
7	P	heading sensors for hydrophone arrays
8	P	components for small arms ammunition, small arms ammunition
9	P	general naval vessel components, technology for general naval vessel components
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military training helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
11	P	accessories for semiconductor process equipment, components for semiconductor process equipment, software for the use of semiconductor process equipment

12	P	components for corrosion resistant chemical manufacturing equipment
13	P	components for combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, military electronic equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for military aircraft ground equipment, technology for military electronic equipment
14	P	toxins
15	P	components for air-to-surface missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for man portable air defence system missiles, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air-to-surface missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for man portable air defence system missiles, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
16	P	compound semiconductor precursor chemicals
17	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
18	P	towed hydrophone arrays
19	P	equipment employing cryptography
20	P	components for combat aircraft, components for military aero-engines, components for military helicopters, general military aircraft components, military aircraft ground equipment, military guidance/navigation equipment
21	P	components for military electronic equipment, components for weapon control equipment, equipment for the use of military electronic equipment, equipment for the use of weapon control equipment, software for military electronic equipment, software for weapon control equipment, technology for military electronic equipment, technology for weapon control equipment, weapon control equipment
22	P	components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for fire location equipment, components for ground vehicle military communications equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for rangefinding equipment, components for tanks, components for unmanned air vehicles, general military aircraft components, general military vehicle components, general naval vessel components, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for fire location equipment, technology for general military aircraft components, technology for ground vehicle military communications equipment, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military trailers, technology for military training aircraft, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for rangefinding equipment, technology for tanks, technology for unmanned air vehicles
23	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
24	P	aircraft seals, components for inertial equipment, inertial equipment

25	P	components for aircraft carriers, components for combat naval vessels, components for equipment for the operation of military aircraft in confined areas, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, equipment for the operation of military aircraft in confined areas, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for equipment for the operation of military aircraft in confined areas, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
26	T	command communications control and intelligence software, technology for command communications control and intelligence software
27	P	components for weapon control equipment, equipment for the use of weapon control equipment, software for equipment for the use of weapon control equipment, software for military electronic equipment, software for weapon control equipment, technology for equipment for the use of weapon control equipment, technology for military electronic equipment, technology for weapon control equipment
28	P	components for military support aircraft, components for military training aircraft, military aircraft ground equipment, technology for military aircraft ground equipment, technology for military support aircraft, technology for military training aircraft
29	P	enriched uranium, materials containing enriched uranium, products containing enriched uranium
30	P	general military vehicle components, general naval vessel components
31	P	components for military aero-engines, components for military helicopters, equipment for the operation of military aircraft in confined areas, equipment for the use of military helicopters, military aircraft ground equipment, military aircraft pressure refuellers
32	P	components for combat aircraft, components for ejector seats, components for military airborne equipment, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, ejector seats, launching/handling/control equipment for munitions, military airborne equipment, military cameras/photographic equipment, military containers, military field generators, military image intensifier equipment, military image recording/processing equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, military parametric technical databases, military scenario simulation equipment, military training equipment, software for combat aircraft, software for military training aircraft, technology for combat aircraft, technology for military training aircraft, test models for combat aircraft, test models for military training aircraft, unfinished products for combat aircraft, weapon control equipment
33	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for military aero-engines
34	P	components for military combat vehicles, components for military support vehicles
35	P	cryptographic software, equipment employing cryptography
36	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components
37	P	components for military helicopters, technology for military helicopters
38	P	components for combat naval vessels, components for military communications equipment, components for targeting equipment, equipment for the use of combat naval vessels, equipment for the use of military communications equipment, equipment for the use of targeting equipment, software for combat naval vessels, software for military communications equipment, software for targeting equipment, technology for combat naval vessels, technology for military communications equipment, technology for targeting equipment
39	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the development of combat helicopters, equipment for the development of equipment for the production of combat helicopters, equipment for the development of equipment for the production of military helicopters, equipment for the production of combat helicopters, equipment for the production of equipment for the production of combat helicopters, equipment for the production of equipment for the production of military helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes

		and equipment, signalling devices, software for combat helicopters, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for military helicopters, technology for combat helicopters, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, test models for combat helicopters, test models for military helicopters, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
40	P	goods treated for signature suppression for military use
41	P	components for military radars, equipment for the use of military radars, software for military radars, technology for military radars
42	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

## Issued

military combat vehicles.

## Country Footnotes

1. Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

## Spain

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
2	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MN; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed or modified for the use of goods specified in 6/7/8 above
3	P	components for rifles, equipment for the use of rifles, gun silencers
4	P	technology for the use of weapon sights, weapon sights
5	P	components for combat aircraft, components for military transport aircraft, components for military utility helicopters
6	P	equipment for the use of weapon sights, weapon night sights, weapon sights
7	P	general military aircraft components
8	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
9	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
10	P	weapon night sights, weapon sights
11	P	military airborne equipment, military guidance/navigation equipment
12	P	components for small arms ammunition, small arms ammunition
13	P	components for air-to-air missiles, components for air-to-surface missiles, components for military electronic equipment, components for military guidance/navigation equipment, components for surface-to-air missiles, components for surface-to-surface missiles
14	P	general naval vessel components, technology for general naval vessel components
15	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
16	P	components for sporting guns, components for weapon sights, unfinished products for sporting guns, weapon sights
17	P	gun silencers
18	P	components for military combat vehicles, military combat vehicles, technology for military combat vehicles

19	P	components for air-to-surface missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for man portable air defence system missiles, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air-to-surface missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for man portable air defence system missiles, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
20	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
21	P	towed hydrophone arrays
22	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
23	P	components for air launched rockets, components for air-to-air missiles, components for artillery ammunition, components for bombs, components for mortar bombs, components for multi-role missiles, components for surface launched rockets, components for surface-to-air missiles, components for surface-to-surface missiles
24	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
25	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
26	P	small arms ammunition
27	P	components for combat aircraft, components for military support aircraft
28	P	components for military communications equipment, military communications equipment, software for military communications equipment, technology for military communications equipment
29	T	components for NBC protective/defensive equipment, NBC protective/defensive equipment
30	P	components for artillery
31	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, technology for combat helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
32	T	towed hydrophone arrays
33	T	components for towed hydrophone arrays, towed hydrophone arrays
34	P	goods treated for signature suppression for military use
35	P	components for military training equipment, military training equipment, software for military training equipment, technology for military training equipment
36	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

### Country Footnotes

1. Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. All exports for this destination were approved in accordance with the sanctions in place.

2. Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£10,270
Total	1	£10,270

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£7,270
6A006	1	£3,000

T hydrophones.  
T underwater electric field sensors.

## Swan Islands

all-wheel drive vehicles with ballistic protection.

### Country Footnotes

1. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 442/2011.
2. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, the EU has also adopted restrictions on the supply of equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, and of Syrian denominated banknotes and coinage.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	65	£7,381,903
Non-military	81	£16,245,250
Both Military and Non-military	5	£478,465
Total	151	£24,105,618

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	15	£1,989,303
ML2	4	£848,286
ML3	1	£90,000
ML4	3	£220,361
ML5	7	£190,479
ML6	2	£53,400
ML7	4	£285,518
ML9	4	£243,790
ML10	12	£939,160
ML11	17	£2,147,971
ML13	1	£1,680
ML15	5	£218,587
ML16	1	£4,000
ML17	1	£18,255
ML21	1	£50
ML22	4	£28,852
PL5017	6	£102,210

aircraft military communications equipment.  
 all-wheel drive vehicles with ballistic protection.  
 components for combat aircraft (3 licences).  
 components for combat helicopters.  
 components for decoying/countermeasure equipment.  
 components for military aircraft head-up/down displays.  
 components for military communications equipment.  
 components for military electronic equipment.  
 components for military field engineer equipment.  
 components for military guidance/navigation equipment (4 licences).  
 components for military helicopters (3 licences).  
 components for military patrol/assault craft.  
 components for military radars (6 licences).  
 components for military support aircraft (3 licences).  
 components for military training aircraft.  
 components for munitions/ordnance detection/disposal equipment.  
 components for naval gun installations/mountings.  
 components for naval guns (4 licences).  
 components for NBC detection equipment.  
 components for NBC protective/defensive equipment.  
 components for NBC protective/defensive equipment.  
 components for sniper rifles (3 licences).  
 decoying/countermeasure equipment (2 licences).  
 equipment for the use of military communications equipment.  
 equipment for the use of naval guns (2 licences).  
 equipment for the use of NBC protective/defensive equipment.  
 equipment for the use of weapon night sights (4 licences).  
 general military vehicle components.  
 general naval vessel components (2 licences).  
 gun mountings (3 licences).  
 heavy machine guns.  
 military aircraft navigation equipment.  
 military communications equipment.  
 military communications equipment (2 licences).  
 military electronic equipment.  
 military equipment for initiating explosives.  
 military field engineer equipment.  
 military guidance/navigation equipment (3 licences).  
 military helmets.  
 military image intensifier equipment.  
 military infrared/thermal imaging equipment (4 licences).  
 munitions/ordnance detection/disposal equipment.

T NBC protective/defensive equipment.  
NBC protective/defensive equipment.  
small arms ammunition.  
sniper rifles (4).  
sniper rifles (12).  
sniper rifles (15).  
sniper rifles (30).  
software for military electronic equipment.  
sporting guns (10).  
technology for military electronic equipment.  
technology for military field engineer equipment.  
technology for military guidance/navigation equipment.  
technology for naval guns.  
unfinished products for military patrol/assault craft.  
weapon cleaning equipment.

T weapon night sights (6 licences).  
weapon sight mounts (3 licences).  
weapon sights (5 licences).

T weapon sights (4 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	2	£1,444
1C006	1	£1,005
1C010	14	£4,751,878

T	weapon sights.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£317,634
Total	1	£317,634

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C010	1	£317,634

fibre prepregs.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Germany

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general naval vessel components
2	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of equipment employing cryptography
3	P	components for military radars
4	P	components for combat aircraft, components for military transport aircraft, components for military utility aircraft
5	P	animal pathogens
6	P	equipment employing cryptography
7	P	components for small arms ammunition, small arms ammunition
8	P	general naval vessel components, technology for general naval vessel components
9	T	inertial equipment
10	P	components for corrosion resistant chemical manufacturing equipment
11	P	fibrous/filamentary materials
12	P	equipment employing cryptography
13	T	command communications control and intelligence software, technology for command communications control and intelligence software
14	P	aircraft seals, components for inertial equipment, inertial equipment
15	T	components for inertial equipment, inertial equipment, technology for inertial equipment
16	P	components for combat aircraft, components for ejector seats, components for military airborne equipment, components for military scenario simulation equipment, components for military training equipment, ejector seats, equipment for the production of combat aircraft, launching/handling/control equipment for munitions, military airborne equipment, military cameras/photographic equipment, military containers, military field generators, military image intensifier equipment, military image recording/processing equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, military parametric technical databases, military scenario simulation equipment, military training equipment, software for combat aircraft, technology for combat aircraft, test models for combat aircraft, unfinished products for combat aircraft, weapon control equipment
17	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components

18	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, technology for combat helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
19	P	goods treated for signature suppression for military use
20	P	radio controlled improvised explosive device jamming equipment
21	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

Both Military and Non-military	7	£1,193,587
Total	485	£44,786,566

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	15	£445,583
ML2	1	£2,850
ML3	1	£2
ML4	20	£3,001,444
ML5	43	£1,820,178

- aircraft carriers.
- aircraft military communications equipment.
- armoured plate (3 licences).
- ballistic test equipment (2 licences).
- body armour (2 licences).
- bomb suits.
- combat naval vessels (3 licences).
- components for air launched rockets.
- T components for air-to-surface missiles.
- components for artillery.
- components for ballistic test equipment.
- components for body armour (2 licences).
- components for combat aircraft (12 licences).
- T components for combat aircraft.
- components for combat helicopters (8 licences).
- components for combat naval vessels (5 licences).
- components for control equipment for surface-to-air missiles.
- components for decoying/countermeasure equipment (2 licences).
- T components for decoying/countermeasure equipment.
- T components for demolition charges/devices.
- components for electronic warfare equipment (6 licences).
- components for equipment for the use of electronic warfare equipment.
- components for fire control equipment.

components for gun mountings.  
 components for launching equipment for surface-to-air missiles.  
 components for launching/handling/control equipment for missiles (4 licences).  
 components for launching/handling/control equipment for missiles.  
 components for launching/handling/control equipment for munitions.  
 components for launching/handling/control/support equipment for unmanned air vehicles.  
 components for machine guns (2 licences).  
 components for military aero-engines (2 licences).  
 components for military airborne equipment.  
 components for military aircraft head-up/down displays.  
 components for military aircrew breathing equipment.  
 components for military auxiliary/support vessels (2 licences).  
 components for military bridges/pontoons/ferries.  
 components for military combat vehicles (7 licences).  
 components for military communications equipment (4 licences).  
 components for military communications equipment.  
 components for military electronic equipment.  
 components for military equipment for initiating explosives.  
 components for military guidance/navigation equipment (3 licences).  
 components for military helicopters (10 licences).  
 components for military helicopters.  
 components for military improvised explosive device jamming equipment.  
 components for military infrared/thermal imaging equipment (4 licences).  
 components for military patrol/assault craft.  
 components for military radars (15 licences).  
 components for military support aircraft (5 licences).  
 components for military support aircraft.  
 components for military support vehicles (5 licences).  
 components for naval communications equipment.  
 components for naval electrical/electronic equipment.  
 components for naval engines.  
 components for NBC detection equipment.  
 components for NBC protective/defensive equipment (4 licences).  
 components for rangefinding equipment.  
 components for small arms training equipment.  
 components for sporting guns (2 licences).  
 components for surface-to-air missiles.  
 components for tanks (3 licences).  
 components for targeting equipment (3 licences).  
 components for targeting equipment.  
 components for turrets.  
 components for unmanned air vehicles (3 licences).  
 components for weapon control equipment (18 licences).  
 components for weapon control systems.  
 components for weapon night sights.  
 CS hand grenades.  
 decoying/countermeasure equipment (3 licences).  
 electronic warfare equipment (3 licences).  
 equipment for the use of aircraft military communications equipment.  
 equipment for the use of ballistic test equipment.  
 equipment for the use of electronic warfare equipment.  
 equipment for the use of military communications equipment (3 licences).  
 equipment for the use of military guidance/navigation equipment.  
 equipment for the use of NBC detection equipment.  
 equipment for the use of optical target acquisition equipment.  
 fire location equipment.  
 fire location equipment.  
 general military aircraft components (2 licences).  
 general military aircraft components.  
 general military vehicle components (20 licences).  
 general military vehicle components.  
 ground vehicle military communications equipment.  
 inert demolition charges/devices.  
 inert illuminators.  
 inert signalling devices.  
 inert smoke hand grenades.  
 inert tear gas/irritant ammunition.  
 military aero-engines (3 licences).  
 military aircraft navigation equipment.  
 military communications equipment (4 licences).

**SIELs - Transshipment**

**Issued**

Types of goods on licence	No. of licences	Value
Non-military	1	£21,179
Total	1	£21,179

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A002	1	£21,179

signal generators.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general naval vessel components
2	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
3	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MNs; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed of modified for the use of goods specified in 6/7/8 above
4	P	components for military radars
5	P	components for combat aircraft
6	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
7	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
8	P	equipment employing cryptography
9	P	animal pathogens
10	P	components for recognition/identification equipment, software for recognition/identification equipment, technology for recognition/identification equipment

11	P	components for all-wheel drive vehicles with ballistic protection, components for military support vehicles, technology for all-wheel drive vehicles with ballistic protection, technology for military support vehicles
12	P	heading sensors for hydrophone arrays
13	P	general naval vessel components, technology for general naval vessel components
14	P	components for corrosion resistant chemical manufacturing equipment
15	P	components for equipment employing cryptography, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography, technology for software for equipment employing cryptography
16	P	components for combat aircraft, components for combat helicopters, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military support aircraft, components for military training aircraft
17	P	imaging cameras
18	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
19	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
20	P	towed hydrophone arrays
21	P	equipment employing cryptography
22	P	machine guns
23	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment, weapon mountings
24	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes
25	P	components for sporting guns, sporting guns
26	P	body armour, civil body armour, components for body armour, military helmets
27	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
28	P	components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for fire location equipment, components for ground vehicle military communications equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for rangefinding equipment, components for tanks, components for unmanned air vehicles, general military aircraft components, general military vehicle components, general naval vessel components, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for fire location equipment, technology for general military aircraft components, technology for ground vehicle military communications equipment, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military trailers, technology for military training aircraft, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for rangefinding equipment, technology for tanks, technology for unmanned air vehicles

29	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
30	P	small arms ammunition
31	P	aircraft seals, components for inertial equipment, inertial equipment
32	T	components for inertial equipment, inertial equipment, technology for inertial equipment
33	T	components for NBC protective/defensive equipment, NBC protective/defensive equipment
34	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components
35	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, technology for combat helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
36	P	goods treated for signature suppression for military use
37	P	blank/inert ammunition, components for pistols, components for rifles, components for sporting guns, components for weapon sights, crowd control ammunition, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, sporting guns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon sights
38	P	components for military radars, equipment for the use of military radars, software for military radars, technology for military radars
39	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

Non-military	4	£95,687
Total	16	£8,895,735

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£11,390
ML3	1	£480
ML6	6	£355,100
ML11	1	£8,200,000
ML13	1	£9,523
PL5001	1	£214,005
PL5035	2	£9,550

all-wheel drive vehicles with ballistic protection.  
 anti-riot/ballistic shields.  
 body armour.  
 components for all-wheel drive vehicles with ballistic protection (2 licences).  
 components for body armour.  
 military communications equipment.  
 military helmets.  
 military support vehicles (4 licences).  
 military trailers (2 licences).  
 small arms ammunition.  
 sporting guns.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£53
5A002	3	£95,535
5D002	1	£100

chemicals used for general laboratory work/scientific research.  
 equipment employing cryptography (3 licences).  
 software for the use of equipment employing cryptography.

### Refused

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military transport aircraft
2	P	components for military aircraft head-up displays, components for military transport aircraft
3	P	components for military training aircraft, equipment for the production of military training aircraft, technology for the production of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft
4	P	assault rifles, blank ammunition, components for assault rifles, components for general purpose machine guns, components for machine pistols, components for pistols, components for rifles, components for semi-automatic pistols, components for submachine guns, general purpose machine guns, machine pistols, pistols, rifles, semi-automatic pistols, submachine guns, training small arms ammunition
5	P	goods specified by Part 1 of Schedule 2 to the Export Control Order 2008 excluding: [1] Goods specified by PL5001; [2] Landmines specified by ML4 and all goods related to landmines; [3] Man Portable Air Defence Systems MANPADS and test equipment/production equipment/software/technology therefor [4] RDX or HMX explosive material or explosive material containing RDX or HMX; [5] Chemicals specified in Schedule 1 of the Chemical Weapons Convention and specified by ML7a or ML7b and associated technology; [6] Complete rocket systems including Ballistic Missile Systems/Space Launch Vehicles/Sounding Rockets and Unmanned Airborne Vehicle systems including Cruise Missile Systems/Remote Piloted Vehicles/Target Drones/Reconnaissance Drones capable of at least a 300km range; [7] Complete subsystems designed or modified for the rocket systems specified in 6 above as follows: [i] individual rocket stages; [ii] re-entry vehicles and equipment designed or modified therefor and electronics equipment specially designed for re-entry vehicles; [iii] solid or liquid propellant rocket engines having a total impulse capacity of 1.1MN; [iv] guidance sets capable of achieving system accuracy of 3.33% or less of the range; [v] thrust vectors control systems; [vi] weapon or warhead safing/arming/fuzing/firing mechanisms; [8] Specially designed production facilities or production equipment for the goods specified in 6/7 above; [9] Software specially designed of modified for the use of goods specified in 6/7/8 above
6	P	components for military transport aircraft
7	P	components for sniper rifles, technology for sniper rifles
8	P	hydrophones, towed hydrophone arrays
9	P	components for combat aircraft, components for military transport aircraft, components for military utility helicopters
10	P	equipment for the use of weapon sights, weapon night sights, weapon sights
11	P	general military aircraft components

12	P	cutters/severing tools, detonating cord, devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges, underwater telecommunications systems
13	P	ballistic shields, body armour, bomb suits, civil body armour, components for body armour, constructions for ballistic protection of military systems, military helmets
14	P	command communications control and intelligence software, technology for the development of command communications control and intelligence software, technology for the use of command communications control and intelligence software
15	P	components for surface-to-surface missiles, technology for surface-to-surface missiles, unfinished products for surface-to-surface missiles
16	P	equipment for the use of weapon sights, goods treated for signature suppression for military use, technology for equipment for the use of weapon sights, weapon night sights, weapon sight mounts
17	P	components for air-launched rockets, components for crowd control ammunition, components for decoying/countermeasure equipment, components for ejector seats, components for exploding grenade ammunition, components for launching/handling/control equipment for munitions, components for signalling devices, components for wall/door breaching projectiles/ammunition
18	P	components for military combat vehicles, equipment for the production of military combat vehicles, general military vehicle components
19	P	animal pathogens
20	P	components for rifles, components for small arms ammunition, components for sporting guns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, training small arms ammunition, weapon sights
21	P	military airborne equipment, military guidance/navigation equipment
22	P	components for small arms ammunition, small arms ammunition
23	P	components for small arms ammunition, small arms ammunition
24	P	general naval vessel components, technology for general naval vessel components
25	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew breathing equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines
26	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
27	P	components for military aero-engines
28	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights
29	P	components for rifles, components for sniper rifles, components for sporting rifles, rifles, sniper rifles, sporting guns, sporting rifles, weapon sights
30	P	sporting guns
31	P	components for combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, military electronic equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for military aircraft ground equipment, technology for military electronic equipment
32	P	components for military combat vehicles, equipment for the production of military combat vehicles, equipment for the use of military combat vehicles, military combat vehicles, technology for military combat vehicles
33	P	components for military aero-engines

34	P	components for air-to-surface missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for man portable air defence system missiles, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air-to-surface missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for man portable air defence system missiles, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
35	P	components for rifles, components for sporting guns, rifles, small arms ammunition, sporting guns, weapon sights
36	P	components for sniper rifles, components for sporting guns, components for weapon sights, equipment for the use of sniper rifles, equipment for the use of sporting guns, flash suppressers, gun silencers, weapon cleaning equipment, weapon sight mounts, weapon sights
37	P	components for combat aircraft, components for combat helicopters, components for ejector seats, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military support aircraft, equipment for the operation of military aircraft in confined areas, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment
38	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
39	P	hydrophones, towed hydrophone arrays
40	P	military electronic equipment, software for military electronic equipment, technology for military electronic equipment
41	P	components for air launched rockets, components for air-to-air missiles, components for artillery ammunition, components for bombs, components for mortar bombs, components for multi-role missiles, components for surface launched rockets, components for surface-to-air missiles, components for surface-to-surface missiles
42	P	components for military communications equipment, components for rangefinding equipment, components for targeting equipment, equipment for the use of rangefinding equipment, equipment for the use of targeting equipment, military communications equipment, rangefinding equipment, software for military communications equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment
43	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment, weapon mountings
44	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
45	P	components for military helicopters, components for military support aircraft, components for military training aircraft
46	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons
47	P	animal pathogens
48	P	aircraft military communications equipment, components for aircraft military communications equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, components for naval communications equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, naval communications equipment, technology for aircraft military communications equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for naval communications equipment
49	P	components for small arms ammunition, small arms ammunition
50	P	components for uranium isotope separation equipment, uranium isotope separation equipment

51	P	components for military support aircraft, components for military training aircraft, military aircraft ground equipment, technology for military aircraft ground equipment, technology for military support aircraft, technology for military training aircraft
52	P	components for military aircraft ground equipment, components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for military support aircraft
53	P	smoothbore weapons, sporting guns
54	P	enriched uranium, materials containing enriched uranium, materials containing natural uranium, natural uranium, products containing enriched uranium, products containing natural uranium
55	P	components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the use of combat aircraft, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, military aircraft pressure refuellers
56	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
57	P	components for sporting guns, sporting guns
58	T	components for NBC protective/defensive equipment, NBC protective/defensive equipment
59	P	components for equipment for the use of NBC detection equipment, components for NBC detection equipment, components for unmanned air vehicles, equipment for the use of NBC detection equipment, equipment for the use of unmanned air vehicles, NBC detection equipment, software for NBC detection equipment, technology for equipment for the use of NBC detection equipment, technology for equipment for the use of unmanned air vehicles, technology for NBC detection equipment, technology for software for NBC detection equipment, technology for unmanned air vehicles
60	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft
61	P	ballistic test equipment, blank/inert ammunition, components for blank/inert ammunition, components for small arms ammunition, small arms ammunition, unfinished products for blank/inert ammunition, unfinished products for small arms ammunition
62	T	software for military combat vehicles, software for military support vehicles, software for tanks
63	P	components for combat helicopters, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the development of combat helicopters, equipment for the development of equipment for the production of combat helicopters, equipment for the development of equipment for the production of military helicopters, equipment for the production of combat helicopters, equipment for the production of equipment for the production of combat helicopters, equipment for the production of equipment for the production of military helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for combat helicopters, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for military helicopters, technology for combat helicopters, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for general military aircraft components, technology for military aircrew protective equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, test models for combat helicopters, test models for military helicopters, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters
64	P	goods treated for signature suppression for military use

65	P	blank/inert ammunition, components for pistols, components for rifles, components for sporting guns, components for weapon sights, crowd control ammunition, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, sporting guns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon sights
66	P	components for military training equipment, military training equipment, software for military training equipment, technology for military training equipment
67	P	components for military radars, equipment for the use of military radars, software for military radars, technology for military radars
68	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
69	P	technology for the development of launching/handling/control/support equipment for unmanned air vehicles, technology for the development of unmanned air vehicles

components for chemical agent detection equipment.  
 components for military support aircraft.  
 components for NBC detection equipment (3 licences).  
 equipment for the use of military electronic equipment.  
 equipment for the use of NBC detection equipment (3 licences).  
 military airborne equipment.  
 military aircraft ground equipment.  
 military electronic equipment.  
 NBC detection equipment (3 licences).  
 small arms training equipment.  
 software for NBC detection equipment.

#### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	3	£192,583
3A002	1	£30,535
5A001	1	£1,339,132
5A002	5	£653,962

5D002	3	£34,050
6A001	1	£21,525
6A003	3	£27,000
7A003	1	£14,159

- corrosion resistant chemical manufacturing equipment (3 licences).  
cryptographic software.
- T cryptographic software.  
equipment employing cryptography (4 licences).
- T equipment employing cryptography.  
imaging cameras (3 licences).  
inertial equipment.  
marine position fixing equipment.
- T radio jamming equipment.  
signal generators.  
software for the use of equipment employing cryptography (2 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of equipment employing cryptography
2	P	heading sensors for hydrophone arrays
3	P	equipment employing cryptography
4	P	components for corrosion resistant chemical manufacturing equipment
5	P	towed hydrophone arrays
6	T	command communications control and intelligence software, technology for command communications control and intelligence software
7	P	aircraft seals, components for inertial equipment, inertial equipment
8	P	technology for military communications equipment
9	P	goods treated for signature suppression for military use

#### Rejected

Applications to this destination refused in full.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£863,218
Non-military	1	£36,950
Total	3	£900,168

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£819,930
ML13	1	£43,288

body armour.  
military aero-engines.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£36,950

civil NBC detection systems.

#### Refused

	Count
Military	2
Total	2

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry
ML13	1
PL5001	1

anti-riot/ballistic shields.  
body armour.  
components for body armour.

### Country Footnotes

1. Arms trade sanctions against Zimbabwe were adopted by EU Common Position 2004/161/CFSP amended by Common Position 2008/135/CFSP. All exports for this destination were approved in accordance with the sanctions in place.
2. Arms trade sanctions against Zimbabwe were adopted by EU Common Position 2004/161/CFSP amended by Common Position 2008/135/CFSP and replaced by Council Decision 2011/101/CFSP. The measures include restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 314/2004.
