

Department for International Trade

**Strategic Export Controls: Country
Pivot Report**

**1st January 2012 - 31st December
2012**

OCTOBER 2019

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2012 and 31st December 2012. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual*, except for *standard general*. The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list**, such as the **UK Dual-Use List**.
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for Goods covered by Council Regulation 1236/2005 (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	13142	12910	190	42	11501	70	15752	95	15 days
- Permanent Standard	10964	10744	179	41	9854	70	13436	96	15 days
- Temporary Standard	859	856	3	0	686	65	992	94	16 days
- Transhipment	14	13	0	1	18	69	24	92	12 days
- Incorporation	1300	1292	8	0	939	68	1296	94	16 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	5	5	0	0	4	80	4	80	13 days
SITCLs	98	94	4	0	85	51	149	89	20 days
OIELs	312	275	29	8	122	29	212	50	61 days
- Standard	273	237	28	8	80	22	158	44	74 days
- Dealer-to-dealer	25	25	0	0	28	80	35	100	7 days
- Cryptographic	10	9	1	0	10	48	12	57	41 days
- Media	2	2	0	0	0	0	2	100	35 days
- Continental Shelf	2	2	0	0	4	67	5	83	17 days
Global Project Licences	0	0	0	0	1	100	1	100	1 day
OITCLs	30	25	5	0	34	44	54	70	29 days

Table notes:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	149	0	1
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	36	0	0
EU GEA 003 (EU003) - export after repair/replacement	38	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	37	0	0

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£30,000
Total	1	£30,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£30,000

T military communications equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Country Footnotes

1. No licences shall be granted for any military or dual-use goods and technology being supplied to military end-users in Argentina, except in exceptional circumstances. This decision will not affect licences for items intended for end-users other than the Argentine military.

Case & goods Footnotes

1. Licence granted for private/sporting use.
2. Temporary licence granted for private/sporting use.
3. Licence granted for training and competition by a sports shooting federation.

Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

8A002	1	£250,000

- T depleted uranium (3 licences).
- equipment employing cryptography.
- extended temperature range integrated circuits (2 licences).
- T guidance/navigation equipment.
- human pathogens.
- T inertial equipment (2 licences).
- pathogenic genetic elements (2 licences).
- submersible equipment.
- thorium (4 licences).
- T towed hydrophone arrays.
- toxins (3 licences).

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML7	1

- components for NBC detection equipment.
- NBC detection equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used

No.	Type	Goods Summary
1	P	cryptographic software
2	P	components for submersible vehicles, composite structures, heading sensors for hydrophone arrays, high energy capacitors, imaging cameras, metal alloy tubes, submersible equipment, syntactic foam, underwater electronic imaging systems
3	P	heading sensors for hydrophone arrays
4	P	components for marine position fixing equipment, marine position fixing equipment

Country Footnotes

- In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".
The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£1,974,450
Non-military	7	£27,059
Total	9	£2,001,509

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	2	£474,450
PL5001	2	£1,500,000

acoustic devices for riot control (2 licences).
body armour (2 licences).
military helmets (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	7	£27,059
5D002	1	£0

cryptographic software.
 equipment employing cryptography (7 licences).
 software for the use of equipment employing cryptography.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft

Rejected

Applications to this destination refused in full.

- software for cryptographic software.
- software for equipment employing cryptography.
- submersible equipment (2 licences).
- submersible vehicle control systems (2 licences).
- submersible vehicles (2 licences).
- syntactic foam (2 licences).
- technology for electromagnetic wave absorbing materials.
- technology for equipment employing cryptography (2 licences).
- technology for the production of biotechnology equipment.
- thyristors.
- underwater electronic imaging systems (2 licences).
- underwater telecommunications systems.
- X-ray accelerators.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£150
ML7	1	£980

- T civil NBC protection clothing.
- T components for NBC protective/defensive equipment.
- T NBC protective/defensive equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	18	£968,519
Total	18	£968,519

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£63,696
ML10	8	£262,453
ML11	7	£642,369

components for combat aircraft (3 licences).

components for launching/handling/control equipment for munitions (2 licences).
 components for military aero-engines.
 components for military support aircraft.
 components for military training aircraft (2 licences).
 general military aircraft components.
 military communications equipment (2 licences).
 military equipment for initiating explosives.
 military guidance/navigation equipment (5 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Angola
 India
 Indonesia
 Mauritania
 Pakistan
 Portugal
 United States of America

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	5	£791,293
Total	5	£791,293

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£25,223
ML2	1	£70
ML3	2	£696,691
ML4	2	£47,714
ML13	2	£21,596
PL5017	1	£0

anti-armour ammunition.
 assault rifles (15) (2 licences).
 body armour (2 licences).
 clips for assault rifles.
 combat shotguns (2).
 combat shotguns (4).
 components for assault rifles.
 components for body armour.
 components for machine guns (2 licences).
 components for small arms ammunition (2 licences).
 CS hand grenades (2 licences).
 equipment for the use of small arms ammunition.
 machine guns (4) (2 licences).
 military helmets.

pistols (24).
 pistols (25).
 projectile launchers.
 signalling devices (2 licences).
 small arms ammunition (2 licences).

SIELs for goods covered by EC Reg 1236/2005 - Transhipment

Issued

Types of goods on licence	No. of licences	Value
Goods covered by EC Reg 1236/2005	1	£455
Goods covered by EC Reg 1236/2005 and Military	0	£0
Goods covered by EC Reg 1236/2005 and Non-military	0	£0
Goods covered by EC Reg 1236/2005 and Both Military and Non-military	0	£0
Total	1	£455

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by EC Reg 1236/2005

Control Entry	No. of licences with goods rated using Control Entry	Value

Country Footnotes

1. A comprehensive ban on the provision of all arms and related material to Myanmar was adopted under CFSP 2006/318 as renewed by Council Decision 2010/232/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 194/2008. All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£27,873
Non-military	1	£800,000
Total	2	£827,873

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£24,701
ML11	1	£3,172

components for military equipment for initiating explosives.
 components for munitions/ordnance detection/disposal equipment.
 equipment for the use of military equipment for initiating explosives.
 military equipment for initiating explosives.
 munitions/ordnance detection/disposal equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£800,000

towed hydrophone arrays.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£19,488
Total	1	£19,488

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£19,131
ML22	1	£0
PL5017	1	£357

assault rifles (6).
 components for assault rifles.
 components for machine guns.
 technology for assault rifles.
 weapon cleaning equipment.
 weapon night sights.
 weapon sight mounts.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

bomb suits.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for weapon sights designed for civilian use returned for repair or scrap.

Country Footnotes

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896, 1952 (2010 and 2021 (2011)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	48	£3,280,676
Non-military	4	£81,682
Total	52	£3,362,358

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	25	£2,160,532
ML3	1	£380,000
ML4	4	£145,181
ML6	2	£16,550
ML7	6	£134,775
ML9	1	£130,000
ML10	3	£26,405
ML11	4	£21,288

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	22	£17,500,599
Non-military	37	£1,298,965
Both Military and Non-military	1	£23,640
Total	60	£18,823,204

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£1,622,702
ML2	1	£11,979,500
ML3	2	£216,644
ML4	2	£158,270
ML5	3	£613,543
ML6	2	£125,194
ML10	1	£93,911
ML11	2	£81,525
ML13	4	£575,120
ML18	1	£184,191
PL5001	2	£1,850,000
PL5017	2	£0

- acoustic devices for riot control (2 licences) [See footnote 4].
 assault rifles (600).
 ballistic test equipment [See footnote 2].
 body armour (4 licences) [See footnotes 3, 4].
 components for assault rifles.
 components for body armour (3 licences) [See footnotes 3, 4].
 components for ground vehicle military communications equipment.
 components for machine guns (2 licences).
 components for military communications equipment.
 components for military equipment for initiating explosives.
 components for military radars.
 components for military training aircraft.
 components for pistols (4 licences) [See footnote 1].
 components for projectile launchers.
 components for sniper rifles.
 components for weapon control equipment.
 equipment for the use of depth charges.
 equipment for the use of machine guns.
 equipment for the use of military guidance/navigation equipment.
 ground vehicle military communications equipment.
 ground vehicle military communications equipment.
 machine guns (18).
 military equipment for initiating explosives.
 military helmets (3 licences) [See footnote 4].
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 pistols (1) (4 licences) [See footnote 1].
 pistols (30).
 rangefinding equipment.
 small arms ammunition.
 sniper rifles (200).
 sporting guns (150).
 training small arms ammunition.
 weapon cleaning equipment.
 weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£7
1C351	1	£11,367
2B001	1	£59,760
2B350	4	£61,033

2B351	2	£354
4A003	1	£770
5A002	10	£97,512
5D002	2	£38,964
6A002	1	£100,000
6A003	3	£20,400
7A001	1	£16,000
7A003	4	£62,260
7A103	1	£24,979
8A001	1	£322,032
8A002	6	£483,139
End Use	1	£388

- T(P) accelerometers.
chemicals used for general laboratory work/scientific research.
components for corrosion resistant chemical manufacturing equipment.
computer analogue to digital equipment.
corrosion resistant chemical manufacturing equipment (3 licences).
cryptographic software (2 licences).
direct view imaging equipment.
equipment employing cryptography (10 licences).
imaging cameras (2 licences).
- T imaging cameras.
inertial equipment (5 licences).
machine tools.
submersible equipment (6 licences).
submersible vehicles.
temperature measurement equipment.
toxic gas monitoring equipment (2 licences).
toxins [See footnote 5].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£6,280
ML13	1	£17,360

- body armour.
components for body armour.
direct view imaging equipment.
military helmets.

Country Footnotes

1. Licences granted that may include a combination of the following goods were issued for end use in maritime anti-piracy operations - assault rifles, body armour, components for assault rifles, components for pistols, components for rifles, direct view imaging equipment, military helmets, pistols, rifles, small arms ammunition, weapon sights, components for body armour, components for sporting guns, high quantities of sporting guns and combat shotguns.

Case & goods Footnotes

1. Licence granted for private/sporting use.
2. Licence granted for testing and evaluation at a firing range.
3. Licence granted for evaluation by a Government organisation.
4. Licence granted for personal protection of crew on board a vessel.
5. Licence granted for a detection kit for use by a commercial company.

Country Footnotes

1. Arms trade sanctions against Eritrea were adopted by UN Security Council resolution 1907 on 23 December 2009. All exports for this destination were approved in accordance with the sanctions in place.
2. Arms trade sanctions against Eritrea were adopted by UN Security Council resolution 1907 on 23 December 2009. UNSCR 2060 (2012) introduced exemptions to the arms embargo for temporary export of protective clothing to Eritrea by United Nations personnel, representatives of the media and humanitarian and development workers and associated personnel for their personal use only; and for the export of non-lethal military equipment intended solely for humanitarian or protective use, as approved in advance by the relevant Sanctions Committee. All exports for this destination were approved in accordance with the sanctions in place.

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Faroe Islands

Processing Statistics

Median processing time SIELs	13 days
% and number of SIELs completed in 20 working days	75% (3)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	107 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	33% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£9,900
Non-military	3	£191,692
Total	4	£201,592

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£9,900

military airborne equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£6,772
7A103	1	£184,920

equipment employing cryptography (2 licences).
inertial equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	neutron generators, non-military detonators, non-military firing sets
2	T	military support aircraft
3	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
4	P	weapon sights
5	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography

ML11	3	£87,450
ML15	3	£72,000
ML21	1	£0
PL5017	4	£3,513

- components for assault rifles.
- components for military combat vehicles (6 licences).
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military support vehicles (2 licences).
- T components for NBC detection equipment (3 licences).
- T components for NBC protective/defensive equipment.
- components for sporting guns.
- components for weapon night sights.
- T equipment for the use of NBC detection equipment (3 licences).

- T equipment for the use of weapon night sights.
- general military vehicle components.
- gun mountings.
- gun silencers (2 licences).
- T military electronic equipment.
- T military image intensifier equipment (3 licences).
- T military infrared/thermal imaging equipment.
- T NBC detection equipment (3 licences).
- T NBC protective/defensive equipment.
- pistols (1).
- pistols (2).
- rifles (2).
- software for combat aircraft.
- sporting guns (1) (10 licences).
- sporting guns (2) (2 licences).
- sporting guns (3).
- tear gas/irritant ammunition.
- weapon night sights (2 licences).
- T weapon night sights (3 licences).
- weapon sight mounts.
- T weapon sight mounts.
- weapon sights (10 licences).
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£4,234

hydrophones.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£500
ML4	1	£2,400

- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T non-military firing sets.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£120,945
Total	3	£120,945

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£88,074
ML6	2	£32,871

components for weapon control equipment.
general military vehicle components (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Croatia
Saudi Arabia
Sweden

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	neutron generators, non-military detonators, non-military firing sets
2	P	components for gun silencers, gun silencers
3	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
4	P	components for electronic warfare equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, technology for electronic warfare equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment

48	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, technology for military aero-engines
49	P	components for military aero-engines
50	P	technology for enriched uranium, technology for nuclear grade graphite, technology for nuclear reactors

French Overseas Territory

Processing Statistics

Median processing time SIELs	15 days
% and number of SIELs completed in 20 working days	64% (9)
% and number of SIELs completed in 60 working days	100% (14)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	139 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	50% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£201,005
Non-military	7	£45,299
Total	11	£246,303

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£1,005
ML3	1	£200,000

components for sniper rifles.
gun silencers.
small arms ammunition.
weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	7	£45,299

equipment employing cryptography (7 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
2	P	components for combat aircraft, components for military support aircraft

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Gabon

Processing Statistics

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	170	£16,848,354
Both Military and Non-military	1	£1,335,906
Total	171	£18,184,260

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£64,220
ML2	1	£153,970
ML4	8	£851,628
ML5	17	£428,580
ML6	11	£42,332
ML9	18	£179,207
ML10	100	£12,341,383
ML11	9	£720,371
ML14	3	£1,691,849

ML15	2	£80,139
ML16	1	£215,485
ML17	2	£32,940
ML22	1	£11,670
PL5017	3	£34,580

- aircraft military communications equipment.
- components for air-to-air missiles.
- components for combat aircraft (58 licences).
- components for electronic warfare equipment.
- Rv components for ground vehicle military communications equipment [See footnote 1].
- components for launching/handling/control equipment for missiles (2 licences).
- components for machine guns.
- components for military aero-engines (12 licences).
- components for military aircraft ground equipment.
- components for military aircraft navigation equipment.
- components for military communications equipment.
- components for military guidance/navigation equipment (3 licences).
- components for military infrared/thermal imaging equipment.
- components for military patrol/assault craft.
- components for military radars (6 licences).
- components for military support aircraft (19 licences).
- components for military support vehicles.
- components for military training aircraft (5 licences).
- components for military training equipment.
- components for military transport aircraft.
- components for multi-role missiles.
- components for naval communications equipment.
- components for naval electrical/electronic equipment.
- components for naval guns.
- components for periscopes (7 licences).
- components for small arms training equipment.
- components for submarines (11 licences).
- components for surface-to-air missiles (2 licences).
- components for tanks (5 licences).
- components for targeting equipment.
- components for torpedoes (2 licences).
- components for weapon control equipment (2 licences).
- components for weapon control systems.
- components for weapon mountings.
- equipment for the operation of military aircraft in confined areas.
- equipment for the use of military equipment for initiating explosives.
- equipment for the use of military image intensifier equipment.
- equipment for the use of torpedoes (2 licences).
- general military aircraft components.
- general military vehicle components (3 licences).
- general naval vessel components (4 licences).
- gun mountings.
- machine guns (4).
- military combat vehicles.
- military electronic equipment (2 licences).
- military equipment for initiating explosives.
- military helicopters.
- military image intensifier equipment.
- military training equipment.
- signature suppression fittings/coatings/treatments for military use (2 licences).
- technology for naval guns.
- technology for weapon mountings.
- unfinished products for military aero-engines.
- weapon cleaning equipment.
- weapon mountings.
- weapon sights.

Rv - Some or all of which have subsequently been revoked.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£119,698
ML9	1	£908,502
ML11	1	£176,706
ML21	1	£131,000

components for naval communications equipment.
 equipment employing cryptography.
 military communications equipment.
 naval communications equipment.
 software for naval communications equipment.

ML11	1	£447

components for launching/handling/control equipment for missiles.
 components for surface-to-air missiles (4 licences).
 equipment for the use of air-to-air missiles.
 general military aircraft components (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 Belgium
 Canada
 Denmark
 France
 Germany
 Netherlands
 Norway
 Portugal
 Spain
 Turkey
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	body armour, components for body armour, military helmets, rifles, sporting guns
2	P	neutron generators, non-military detonators, non-military firing sets
3	P	components for gun silencers, gun silencers
4	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
5	P	components for sporting guns, unfinished products for sporting guns
6	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
7	T	military support aircraft
8	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets
9	P	gun mountings, gun silencers, weapon sights
10	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for general naval vessel components, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military electronic equipment, components for military field generators, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval engines, components for submarines, components for surface-to-air missiles, components for surface-to-surface missiles, components for tanks, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military aero-engines, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military electronic equipment, technology for military field generators, technology for military guidance/navigation equipment, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval engines, technology for submarines, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for tanks, technology for targeting equipment

11	P	components for military aero-engines, components for military support aircraft
12	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
13	P	technology for NBC detection equipment
14	P	components for sporting guns
15	P	components for military aero-engines, military aero-engines, technology for military aero-engines
16	P	weapon sights
17	P	accessories for improvised explosive device disruptors, components for improvised explosive device disruptors, improvised explosive device disruptors
18	P	equipment employing cryptography, technology for equipment employing cryptography
19	P	components for military combat vehicles, components for military support vehicles, components for tanks
20	P	equipment employing cryptography, technology for equipment employing cryptography
21	T	assault rifles, body armour, components for assault rifles, components for body armour, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition
22	P	components for military communications equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£7,169
Non-military	1	£795
Total	4	£7,963

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£7,169

components for sniper rifles.
gun silencers (2 licences).
weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£795

equipment employing cryptography.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.

accessories for demolition charges/devices.
accessories for military equipment for initiating explosives.

bomb suits.
 components for bomb suits.
 components for demolition charges/devices (2 licences).
 components for military equipment for initiating explosives.
 demolition charges/devices (2 licences).
 military equipment for initiating explosives.
 military helmets.

Case & goods Footnotes

1. Licence granted for private/sporting use.
2. Licence granted for scientific use in a laboratory.
3. Licence granted for use by a law enforcement agency.
4. Licence granted for the secure external movement of prisoners by a Government Organisation.

Hungary

Processing Statistics

Median processing time SIELs	15 days
% and number of SIELs completed in 20 working days	80% (8)
% and number of SIELs completed in 60 working days	100% (10)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	107 days

% and number of OITCLs completed in 60 working days	50% (1)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	8	£658,520
Non-military	1	£533,688
Total	9	£1,192,208

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£492,571
ML7	3	£13,035
ML15	2	£152,000
PL5017	1	£915

- T components for NBC detection equipment (2 licences).
 components for NBC protective/defensive equipment.
 components for weapon night sights.
 equipment for the use of sniper rifles.
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment (2 licences).
- T NBC protective/defensive equipment.
 sniper rifles (19).
 sporting guns (2).
- T weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£522,120
5D002	1	£11,568

- equipment employing cryptography.
 software for equipment employing cryptography.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	neutron generators, non-military detonators, non-military firing sets
2	P	components for gun silencers, gun silencers
3	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
4	P	components for sporting guns, unfinished products for sporting guns
5	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets
6	P	gun mountings, gun silencers, weapon sights

7	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
8	P	components for sporting guns
9	P	weapon sights
10	P	accessories for improvised explosive device disruptors, components for improvised explosive device disruptors, improvised explosive device disruptors
11	P	equipment employing cryptography, technology for equipment employing cryptography
12	P	equipment employing cryptography, technology for equipment employing cryptography

Iceland

Processing Statistics

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	88% (21)
% and number of SIELs completed in 60 working days	100% (24)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	87 days
% and number of OIELs completed in 20 working days	14% (1)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£40,487
Non-military	17	£264,002
Total	22	£304,490

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	1	£95
ML3	2	£34,738
ML11	1	£4,368
ML13	1	£1,287

blank/inert ammunition.
body armour.
components for military communications equipment.
military communications equipment.
small arms ammunition.
weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B001	1	£244,375
5A002	12	£7,311
5D002	3	£1,516
6A006	1	£10,800

cryptographic software.
equipment employing cryptography (12 licences).
machine tools.
software for equipment employing cryptography (2 licences).
T underwater electric field sensors.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	towed hydrophone arrays
2	P	gun mountings, gun silencers, weapon sights
3	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
4	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
5	P	weapon sights

- T inert signalling devices.
- T inert smoke hand grenades.
- T inert tear gas/irritant ammunition.
- T inert thunderflashes.
- T military infrared/thermal imaging equipment.
- T military laser protection equipment.
- T NBC detection equipment.
- T NBC protective/defensive equipment.
- T NBC respirators.
- T software enabling equipment to function as military communications equipment (2 licences).
- T software for civil NBC detection systems.
- T software for NBC detection equipment.
- T technology for civil NBC detection systems.
- T technology for NBC detection equipment.

Refused

	Count
Military	1
Non-military	11
Total	12

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML11	1
ML22	1

military guidance/navigation equipment.
 technology for military guidance/navigation equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry
2E002	1
3A228	1
3A233	1
6A002	1
6A203	4
End Use	3

components for materials analysis equipment.
 electron beam guns.
 T focal plane arrays.
 instrumentation cameras (4 licences).
 mass spectrometers.
 materials analysis equipment.
 technology for controlled atmosphere furnaces.
 test equipment for global positioning satellite receivers.
 triggered spark gaps.
 welding equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Case & goods Footnotes

1. Licence granted for private/sporting use.
2. Licence granted for scientific use in a laboratory.
3. Licence granted for trial purposes by a commercial company.
4. Licence granted for components for radar systems being returned after repair.
5. Licence granted for use by the Indian Security Forces to assist in small arms marksmanship training.
6. Licence granted for components for airborne target and reconnaissance drone.

Country Footnotes

- UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

- UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted Council Regulation (EU) No 267/2012 on 26 March that revoked and replaced previous EU sanctions measures. Sanctions against Iran now include wide restrictions on trade including the export of 'dual use' goods and goods that could contribute to Iran's nuclear programme as well as an arms embargo. There are also wide restrictions targeting the investment in Iran's energy including the supply of key equipment and the purchase of oil and gas. Furthermore there are wide prohibitions on dealings with large sections of the financial sectors including the freezing of funds and economic resources of certain individuals and entities, as well as restrictions on the provision of insurance to the Government of Iran and restrictions on the transfer of funds with Iranian banks.

All exports for this destination were approved in accordance with the sanctions in place.

- On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

- The adoption of UNSCR 1929 on 9 June 2010 established a UN embargo on the supply of conventional weapons to Iran, in addition to restrictions introduced under the original UNSCR 1737 of 23 December 2006,

which restricted any equipment that could contribute to the nuclear capability of Iran. The consolidated Regulation 267/2012 includes amendments to UNSCR 2010/413/CFSP that embargo equipment for the petrochemical industry, trade in precious and raw metals, diamonds, Iranian banknotes and coinage to the Central Bank of Iran, naval equipment and technology for ship-building, and on certain software for integrating industrial processes. There is currently one exemption to the arms embargo, for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

EU counter-proliferation sanctions currently in force are set out in Council Decision 2010/413/CFSP, as amended. This Decision embargoes the supply of arms and equipment that could contribute to the nuclear capability of Iran, nearly all Dual-Use equipment and equipment for certain sectors of the oil and natural gas industries.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for private commercial purposes.
2. These licences are for export of commercially available electronic equipment. They were originally refused because of concerns of possible diversion to military end-use. The refusals were reported in the Quarterly Report for October-December 2012 and the Annual Report for 2012. On appeal, the diversion risk was found to be unsubstantiated and the licences were granted. For the sake of consistency the same goods description has been used here as when reporting the refusals.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Following a thorough review of its procedures for processing export licence applications to Iraq, Her Majesty's Government will consider as exempt from the embargo exports to the GoI, the United Nations Assistance Mission in Iraq (UNAMI), diplomatic missions in Iraq, the US forces in Iraq, the NATO training missions in Iraq, the UK naval training mission training the Iraqi Navy and entities contracted or subcontracted to the GoI, US or UK forces or NATO"

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£28,454
Non-military	16	£4,475,053
Total	18	£4,503,507

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£11,454
ML13	1	£17,000

bomb suits.
 components for munitions/ordnance detection/disposal equipment.
 munitions/ordnance detection/disposal equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£2,000
5A002	12	£3,743,059
5D002	5	£596,885
5E002	1	£3,109
7A103	2	£130,000

T
 cryptographic software (2 licences).
 equipment employing cryptography (12 licences).
 inertial equipment.
 inertial equipment.
 non-military firing sets.
 software for equipment employing cryptography (3 licences).

3	T	inertial equipment
4	P	components for marine position fixing equipment, components for underwater telecommunications systems, marine position fixing equipment, underwater telecommunications systems
5	P	equipment employing cryptography, technology for equipment employing cryptography

Country Footnotes

- Arms trade sanctions against the Ivory Coast were adopted by 2004/852/CFSP and UN Security Council resolution 1572. These have been amended by UN Security Council resolution 1946 and 1980 (2011) and EU Council Decisions 2010/656/CFSP and 2011/142/CFSP. All exports for this destination were approved in accordance with the sanctions in place.

ML13	6	£339,910
ML15	4	£469,500
ML22	2	£0
PL5001	2	£1,000,000
PL5017	2	£11,000

acoustic devices for riot control (2 licences).
 all-wheel drive vehicles with ballistic protection (3 licences).
 assault rifles (300).
 assault rifles (350).
 body armour (4 licences).
 combat shotguns (50).
 combat shotguns (150).
 components for artillery.
 components for assault rifles (3 licences).
 components for body armour (3 licences).
 components for general purpose machine guns.
 components for military electronic equipment.
 components for military support vehicles (2 licences).
 components for military training aircraft (4 licences).
 components for pistols (2 licences).
 components for rifles (2 licences).
 components for small arms ammunition.
 equipment for the use of assault rifles.
 equipment for the use of military aircraft ground equipment.
 T equipment for the use of weapon night sights.
 equipment for the use of weapon sight mounts.
 T equipment for the use of weapon sights.
 general military aircraft components.
 general purpose machine guns (600).
 grenade launchers.
 gun silencers.
 military aircraft ground equipment.
 T military electronic equipment.
 military equipment for initiating explosives (2 licences).
 military guidance/navigation equipment (2 licences).
 military helmets (5 licences).
 military image intensifier equipment (2 licences).
 T military image intensifier equipment (2 licences).
 T military infrared/thermal imaging equipment.
 military trailers.
 pistols (100).
 pistols.
 rifles (1) [See footnote 1].
 rifles (100).
 rifles (200).
 small arms ammunition (4 licences).
 sporting guns (1).
 sporting guns (4).

- technology for military image intensifier equipment.
- technology for the use of general purpose machine guns.
- training exploding grenade ammunition.
- weapon cleaning equipment (2 licences).
- weapon night sights.
- T weapon night sights (2 licences).
- weapon sight mounts.
- weapon sights (3 licences).
- T weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£15,904
1C350	1	£15,882
2B350	1	£9,800
5A002	21	£26,813,792
5D002	3	£12,171
6A005	1	£1,453

- chemicals used for pharmaceutical/healthcare production.
- civil explosive detection/identification equipment.
- corrosion resistant chemical manufacturing equipment.
- cryptographic software (2 licences).
- equipment employing cryptography (21 licences).
- laser optical components.
- software for the use of equipment employing cryptography.

Refused

Country Footnotes

- Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 14 December 2012 by UNSCR 2025 (2011). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011.

UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers, arms and related material intended solely for security or disarmament assistance to the Libyan authorities and other sales or supply of arms and related materiel. Procedures vary: some exports must be approved in advance by the Sanctions Committee while others require notification and the absence of a negative decision.

All exports for this destination must be in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for the Embassy of an EU Member State.
2. Licence granted for the protection of staff for an international organisation.
3. Licence granted for military combat vehicles and military support vehicles was for civilian use by the Ministry of Justice.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	7	£89,241
Non-military	1	£16,153
Total	8	£105,394

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£13,000
ML4	5	£73,433
ML10	1	£208
ML11	1	£440
ML14	1	£2,160

components for combat aircraft.
 components for equipment for the use of military equipment for initiating explosives [See footnote 2].
 components for military equipment for initiating explosives [See footnote 2].
 components for military training equipment.
 components for munitions/ordnance detection/disposal equipment.

explosive charges/devices.
 military devices for initiating explosives.
 military equipment for initiating explosives (2 licences) [See footnote 2].
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 small arms ammunition [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£16,153

equipment employing cryptography.

OIELs (excluding Other OIELs)

 components for bomb suits.
 components for demolition charges/devices (2 licences).
 components for military equipment for initiating explosives.
 demolition charges/devices (2 licences).
 military equipment for initiating explosives.
 military helmets.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. All goods will be used by athletes for training and competing in National and International competition.
2. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place. This licence relates to the export of disposal equipment for Improvised Explosive Devices, which is not covered by the above embargo.

Military	2
Non-military	3
Total	5

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML3	2

crowd control ammunition (2 licences).
small arms ammunition (2 licences).
tear gas/irritant ammunition (2 licences).
wall/door breaching projectiles/ammunition (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry
End Use	3

digital computers.
electronic test equipment (2 licences).
network analysers.
signal analysers.
signal generators.

 naval communications equipment.
 software for naval communications equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia

United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography, equipment for the development of equipment employing cryptography, software for the development of equipment employing cryptography, technology for the development of equipment employing cryptography
2	P	components for military improvised explosive device decoying/detection/disposal/jamming equipment, military equipment for initiating explosives, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment
3	P	equipment employing cryptography
4	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets

5	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
6	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
7	P	imaging cameras, metal alloy tubes, syntactic foam, underwater electronic imaging systems
8	T	towed hydrophone arrays
9	P	components for equipment employing cryptography, cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for cryptographic software, technology for equipment employing cryptography, technology for software for equipment employing cryptography, technology for the development of digital cellular radio system, technology for the development of frequency agility techniques, technology for the development of spread spectrum techniques
10	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
11	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
12	P	military aircrew breathing equipment
13	P	components for equipment employing cryptography, cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for cryptographic software, technology for equipment employing cryptography, technology for software for equipment employing cryptography, technology for the development of digital cellular radio system, technology for the development of frequency agility techniques, technology for the development of spread spectrum techniques
14	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes
15	P	technology for NBC detection equipment
16	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
17	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes
18	P	components for marine position fixing equipment, components for underwater telecommunications systems, marine position fixing equipment, underwater telecommunications systems
19	P	components for military combat vehicles, components for military support vehicles, components for tanks
20	T	equipment employing cryptography, radio jamming equipment
21	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
22	P	components for military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment

23	P	components for aircraft cannons, components for anti-armour weapons, components for artillery, components for generators/projectors, components for grenade launchers, components for gun mountings, components for heavy machine guns, components for machine guns, components for projectile launchers, components for weapon mountings, components for weapon night sights, components for weapon sight mounts, components for weapon sights
24	P	components for military electronic equipment, equipment for the use of aircraft missile protection systems, software for aircraft missile protection systems, technology for aircraft missile protection systems
25	P	software for inertial equipment
26	P	components for combat aircraft, components for military support aircraft
27	P	components for military aero-engines

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£91,717
Non-military	3	£752,600
Total	4	£844,317

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£91,717

military aircraft ground equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	2	£2,600
7A103	1	£750,000

T hydrophones (2 licences).
inertial equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for ejector seats, components for equipment for the production of ejector seats, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military aircrew protective equipment, components for military electronic equipment, components for military training aircraft, components for signalling devices, components for test models for ejector seats, components for test models for military aircrew breathing equipment, components for test models for military aircrew protective equipment, ejector seats, equipment for the production of ejector seats, equipment for the production of military aircrew protective equipment, general military aircraft components, military aircraft ground equipment, military aircrew breathing equipment, military aircrew protective equipment, military electronic equipment, signalling devices, technology for ejector seats, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military aircrew protective equipment, technology for signalling devices, test models for ejector seats, test models for military aircrew breathing equipment, test models for military aircrew protective equipment
2	P	heading sensors for hydrophone arrays
3	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£354,987
Total	4	£354,987

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£20,710
ML10	3	£334,277

components for military aero-engines (3 licences).
 components for NBC detection equipment.
 NBC detection equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	body armour, components for body armour, military helmets, rifles, sporting guns
2	P	sporting guns
3	P	components for sporting guns, unfinished products for sporting guns
4	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
5	P	equipment employing cryptography, technology for equipment employing cryptography
6	T	assault rifles, body armour, components for assault rifles, components for body armour, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£34,388
Total	4	£34,388

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B352	2	£2,035
5A002	2	£32,353

biotechnology equipment (2 licences).
equipment employing cryptography (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes
2	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

military helmets.
small arms ammunition.
sporting guns.
weapon sights.

Case & goods Footnotes

1. For the protection of personnel employed in the finance sector.
2. Licence granted for use by a law enforcement agency.
3. Licence granted to protect security personnel.
4. Licence granted for use by a commercial company.
5. Licence granted for use by a government organisation.
6. Licence granted for bomb disposal equipment for government / military end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	80	£2,937,631
Non-military	13	£2,295,073
Both Military and Non-military	4	£2,305,796
Total	97	£7,538,499

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	43	£240,645
ML2	1	£60,375
ML3	7	£2,130,026
ML4	10	£296,900
ML5	2	£7,894
ML7	4	£52,141
ML11	5	£82,885
ML13	1	£450
ML15	3	£33,201
ML17	2	£3,090
ML18	1	£1,000
ML22	3	£1,950
PL5017	5	£27,073

- artillery ammunition (2 licences).
- body armour.
- components for air defence systems.
- components for air-to-surface missiles.
- components for military communications equipment (2 licences).
- components for military electronic equipment (2 licences).
- components for military equipment for initiating explosives.
- components for military image intensifier equipment.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military infrared/thermal imaging equipment (2 licences).
- components for mortars.
- components for NBC protective/defensive equipment (4 licences).
- components for rifles.
- components for sniper rifles (3 licences).
- components for sporting guns (3 licences).
- components for surface-to-surface missiles (2 licences).
- components for weapon control equipment.
- crowd control ammunition.
- equipment for the production of test models for air-to-surface missiles.
- equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.
- equipment for the use of surface-to-air missiles.
- equipment for the use of weapon sights.
- goods treated for signature suppression for military use.
- gun silencers (2 licences).
- military electronic equipment.
- military equipment for initiating explosives (3 licences).
- T military equipment for initiating explosives.
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T rangefinding equipment.
- T rifles (1).
- small arms ammunition (3 licences).
- T small arms ammunition.
- sniper rifles (1) (5 licences).
- sporting guns (1) (11 licences).
- sporting guns (2) (2 licences).
- sporting guns (100).
- technology for equipment for the use of weapon sights.
- technology for test models for air-to-surface missiles.
- technology for unmanned air vehicles.

- T test models for air-to-surface missiles.
- weapon cleaning equipment.
- weapon night sights.
- weapon sight mounts.
- weapon sights (17 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0D001	1	£31,300
1A004	2	£227,700
1C226	1	£134,580
2B350	7	£1,826,993
6A001	1	£42,500
PL9003	1	£32,000

- T anthrax vaccines.
- civil NBC detection systems.
- civil NBC detection systems.
- components for hydrophones.
- corrosion resistant chemical manufacturing equipment (7 licences).
- software for nuclear reactors.
- tungsten carbide tubes.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	2	£1,000
6A003	2	£614,310
ML1	2	£1,587,106
ML4	2	£4,800
ML11	1	£12,000
ML15	1	£86,580

- T components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
- T equipment for the use of weapon sights.
- T imaging cameras.
- T imaging cameras.
- T military equipment for initiating explosives (2 licences).
- T military image intensifier equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
- T military infrared/thermal imaging equipment.
- T non-military firing sets (2 licences).
- T weapon night sights.
- T weapon night sights.
- T weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£9,225
Total	1	£9,225

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£9,225

components for military communications equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	neutron generators, non-military detonators, non-military firing sets
2	P	components for gun silencers, gun silencers
3	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
4	P	components for electronic warfare equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, technology for electronic warfare equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment
5	P	military image intensifier equipment
6	P	components for sporting guns, unfinished products for sporting guns
7	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, equipment for the use of general naval vessel components, equipment for the use of military electronic equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military electronic equipment
8	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
9	T	towed hydrophone arrays
10	P	components for air-to-surface missiles, components for surface-to-surface missiles
11	T	military support aircraft

12	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets
13	P	gun mountings, gun silencers, weapon sights
14	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
15	P	small arms ammunition, sporting guns
16	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for general naval vessel components, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military electronic equipment, components for military field generators, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval engines, components for submarines, components for surface-to-air missiles, components for surface-to-surface missiles, components for tanks, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military aero-engines, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military electronic equipment, technology for military field generators, technology for military guidance/navigation equipment, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval engines, technology for submarines, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for tanks, technology for targeting equipment
17	P	components for sporting guns, small arms ammunition, sporting guns, weapon sights
18	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
19	P	technology for NBC detection equipment

20	P	components for military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility helicopters, unfinished products for military utility helicopters
21	P	weapon sights
22	P	components for military support aircraft
23	T	neutron generators
24	P	components for military communications equipment

 weapon sight mounts.
 weapon sights (10 licences).

Country Footnotes

1. Licences granted that may include a combination of the following goods were issued for end use in maritime anti-piracy operations - assault rifles, body armour, components for assault rifles, components for pistols, components for rifles, direct view imaging equipment, military helmets, pistols, rifles, small arms ammunition, weapon sights, components for body armour, components for sporting guns, high quantities of sporting guns and combat shotguns.

Case & goods Footnotes

1. Licence granted to a private maritime security company for anti-piracy purposes. Civilian end use.
2. Licence granted for items to be held in stock by a commercial company against future orders.
3. Licence granted for use by a law enforcement agency.
4. Licence granted for training and operational purposes for a law enforcement agency.
5. Licence granted for government / military end use.
6. Licence granted for end use by the Air Force.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	24	£3,261,229
Total	24	£3,261,229

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	13	£2,486,673
ML4	1	£62,625
ML6	1	£20,000
ML10	5	£1,580
ML13	2	£688,625
ML15	1	£1,711
ML18	1	£15

body armour (2 licences).
 components for body armour.
 components for decoying/countermeasure equipment.
 components for military support aircraft (3 licences).
 components for military training aircraft.
 decoying/countermeasure equipment.
 equipment for the production of smoke/pyrotechnic ammunition.
 military infrared/thermal imaging equipment.
 military support aircraft.
 military support vehicles.
 sporting guns (1) (2 licences).
 sporting guns (2).
 sporting guns (3).
 sporting guns (5).
 weapon night sights (3 licences).
 weapon sights (5 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	8	£256,197
Total	8	£256,197

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	6	£251,230
ML16	2	£4,967

components for military helicopters (6 licences).
unfinished products for military support aircraft (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
Belgium
Finland
France
Germany
Greece
Italy
Netherlands
New Zealand
Norway
Oman
Spain
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	neutron generators, non-military detonators, non-military firing sets
2	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets

3	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, equipment for the use of general naval vessel components, equipment for the use of military electronic equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military electronic equipment
4	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
5	T	military support aircraft

Country Footnotes

- Arms trade sanctions against Guinea were adopted by EU Common Position 2009/788/CFSP amended by Council Decision 2009/1003/CFSP. EU Common Position 2009/788/CFSP was repealed and replaced by Council Decision 2010/638/CFSP on 25 October 2010. A further amendment was made to the arms embargo through the adoption of Council Decision 2011/706/CFSP on 27 October 2011 which allows for the export of certain equipment to be used for maintaining public order by the police and gendarmerie in Guinea. An additional exemption was introduced with the adoption of Council Decision 2012/149/CFSP and this relates to the return of non-combat helicopters to Guinea. The embargo also extends to equipment that might be used for internal repression as designated in the annex to Council Regulation 1284/2009. All exports for this destination were approved in accordance with the sanctions in place.

14 (Rv)	P	equipment employing cryptography, software for equipment employing cryptography

Rv - Some or all of which have subsequently been revoked.

Country Footnotes

1. Licences granted for sniper rifles, components for sniper rifles, weapon sights and small arms ammunition were issued were issued for sporting and hunting end use.
2. On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

Case & goods Footnotes

1. Licence granted for private/sporting use.
2. Licence granted for private/personal protection.
3. Licence granted for use for sporting and hunting end use.

- accessories for improvised explosive device disposal remotely operated vehicles.
- body armour.
- bomb suits.
- civil explosive detection/identification equipment.
- components for military communications equipment.
- components for military containers.
- components for military equipment for initiating explosives.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- T direct view imaging equipment.
- equipment employing cryptography.
- equipment for the use of military equipment for initiating explosives.
- T equipment for the use of weapon night sights.
- T imaging cameras (2 licences).
- improvised explosive device disposal remotely operated vehicles.
- military communications equipment.
- military containers.
- military equipment for initiating explosives.
- military helmets.
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- NBC protective/defensive equipment.
- radio controlled improvised explosive device jamming equipment.
- technology for military communications equipment.
- technology for military containers.
- technology for the use of military equipment for initiating explosives.
- technology for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.
- T weapon night sights (2 licences).
- T weapon sight mounts.
- T weapon sights (2 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£39,490
Total	1	£39,490

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£39,490

equipment employing cryptography.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military airborne equipment, components for military aircraft ground equipment, components for military guidance/navigation equipment, components for military support aircraft, military airborne equipment, military aircraft ground equipment, military guidance/navigation equipment
2	P	components for military improvised explosive device decoying/detection/disposal/jamming equipment, military equipment for initiating explosives, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment
3	P	cryptographic software
4	T	accessories for military image recording/processing equipment, aerial target equipment, components for accessories for military image recording/processing equipment, components for aerial target equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military electronic equipment, components for military guidance/navigation equipment, components for military image recording/processing equipment, components for military radars, components for military training aircraft, components for military training equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of accessories for military image recording/processing equipment, equipment for the use of aerial target equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of military aero-engines, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military radars, equipment for the use of military training aircraft, equipment for the use of military training equipment, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military radars, military training aircraft, military training equipment, technology for accessories for military image recording/processing equipment, technology for aerial target equipment, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military aero-engines, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military radars, technology for military training aircraft, technology for military training equipment
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
6	P	sporting guns
7	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
8	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
9	P	military aircrew breathing equipment
10	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes

11	T	components for combat aircraft, components for ejector seats, components for military electronic equipment, components for signalling devices, ejector seats, equipment for the use of ejector seats, equipment for the use of general military aircraft components, general military aircraft components, military aircraft ground equipment, military aircrew breathing equipment, military aircrew protective equipment, military electronic equipment, signalling devices, technology for ejector seats, technology for general military aircraft components, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military aircrew protective equipment, technology for signalling devices, test models for ejector seats, test models for general military aircraft components
12	P	technology for software for air-to-surface missiles
13	P	aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for combat aircraft, components for military aero-engines, components for military airborne equipment, components for military containers, components for military field generators, components for military mobile repair shops and related equipment, electronic warfare equipment, environmental test facilities for combat aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the use of attack alerting/warning equipment, equipment for the use of electronic warfare equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of recognition/identification equipment, general military aircraft components, goods treated for signature suppression for military use, military aero-engines, military airborne equipment, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment, military containers, military electronic equipment, military field generators, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, military parametric technical databases, military radars, rangefinding equipment, recognition/identification equipment, signature suppression fittings/coatings/treatments for military use, software for aircraft military communications equipment, software for attack alerting/warning equipment, software for combat aircraft, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for goods treated for signature suppression for military use, software for military aero-engines, software for military airborne equipment, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military cameras/photographic equipment, software for military containers, software for military field generators, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military mobile repair shops and related equipment, software for military parametric technical databases, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for signature suppression fittings/coatings/treatments for military use, software for targeting equipment, software for test models for combat aircraft, software for weapon control equipment, targeting equipment, technology for aircraft military communications equipment, technology for attack alerting/warning equipment, technology for combat aircraft, technology for equipment for the operation of military aircraft in confined areas, technology for general military aircraft components, technology for goods treated for signature suppression for military use, technology for military aero-engines, technology for military airborne equipment, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military cameras/photographic equipment, technology for military containers, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military mobile repair shops and related equipment, technology for military parametric technical databases, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signature suppression fittings/coatings/treatments for military use, technology for targeting equipment, technology for test models for combat aircraft, technology for weapon control equipment, test models for combat aircraft, weapon control equipment
14	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use

		of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew protective equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew protective equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
15	P	accessories for military training equipment, components for military training equipment
16	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of military helicopters, general military aircraft components, military aero-engines, military aircraft ground equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for aircraft military communications equipment, software for equipment for the use of military helicopters, software for military aero-engines, software for military aircraft ground equipment, software for military guidance/navigation equipment, software for military helicopters, technology for aircraft military communications equipment, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, technology for software for aircraft military communications equipment, technology for software for equipment for the use of military helicopters, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for software for military guidance/navigation equipment, technology for software for military helicopters
17	P	aerial target equipment, airborne refuelling equipment, aircraft cannon ammunition, aircraft cannons, aircraft military communications equipment, attack alerting/warning equipment, components for aerial target equipment, components for airborne refuelling equipment, components for aircraft cannon ammunition, components for aircraft cannons, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for combat aircraft, components for countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for fire location equipment, components for fuze setting devices, components for global navigation satellite systems jamming equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military cameras/photographic equipment, components for military containers, components for military field generators, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military infrared/thermal imaging equipment, components for military mobile repair shops and related equipment, components for military radars, components for military support aircraft, components for military training aircraft, components for military training equipment, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon mountings, components for weapon sights, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of aerial target equipment, equipment for the use of airborne refuelling equipment, equipment for the use of aircraft cannon ammunition, equipment for the use of aircraft cannons, equipment for the use of aircraft military communications equipment, equipment for

	<p>the use of attack alerting/warning equipment, equipment for the use of combat aircraft, equipment for the use of countermeasure equipment for military cameras/photographic equipment, equipment for the use of countermeasure equipment for military image intensifier equipment, equipment for the use of countermeasure equipment for military image recording/processing equipment, equipment for the use of countermeasure equipment for military infrared/thermal imaging equipment, equipment for the use of decoying/countermeasure equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of equipment for the operation of military aircraft in confined areas, equipment for the use of fire location equipment, equipment for the use of fuze setting devices, equipment for the use of global navigation satellite systems jamming equipment, equipment for the use of launching/handling/control equipment for missiles, equipment for the use of launching/handling/control equipment for munitions, equipment for the use of launching/handling/control equipment for rockets, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft head-up/down displays, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military aircrew safety equipment, equipment for the use of military cameras/photographic equipment, equipment for the use of military containers, equipment for the use of military field generators, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military mobile repair shops and related equipment, equipment for the use of military radars, equipment for the use of military support aircraft, equipment for the use of military training SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£735,725
Non-military	2	£20,738
Both Military and Non-military	1	£12,940
Total	9	£769,403

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£74,050
ML3	3	£49,450
ML13	1	£237,225
PL5001	1	£375,000

acoustic devices for riot control.
assault rifles (12) [See footnote 1].
body armour.
components for assault rifles (2 licences).
components for machine guns (2 licences).
components for small arms ammunition.
machine guns (2).
machine guns (12) [See footnote 1].
military helmets.
small arms ammunition (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£20,738

equipment employing cryptography (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£1,850
ML1	1	£6,450

ML3	1	£2,000
ML13	1	£2,640

assault rifles (3) [See footnote 1].
body armour [See footnote 1].
components for assault rifles [See footnote 1].
direct view imaging equipment [See footnote 1].
military helmets [See footnote 1].
small arms ammunition [See footnote 1].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	body armour, components for body armour, military helmets, rifles, sporting guns
2	T	components for military support aircraft, military aircraft ground equipment, technology for military support aircraft
3	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes
4	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
5	T	assault rifles, body armour, components for assault rifles, components for body armour, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

military combat vehicles.
weapon mountings.

Country Footnotes

1. UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

2. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The UK's national implementing legislation on Sierra Leone is however still in force. Work is underway to repeal this at the earliest opportunity.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£2,230
Non-military	6	£3,196,906
Total	8	£3,199,136

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£1,000
ML5	1	£1,230

components for anti-aircraft guns.
components for weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	3	£85,874
5A002	1	£40,000
7A003	1	£150,000
8A001	1	£2,400,000
8A002	2	£521,031

corrosion resistant chemical manufacturing equipment (3 licences).
equipment employing cryptography.
inertial equipment.
submersible vehicle control systems.
submersible vehicles.
underwater electronic imaging systems.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
Brazil
China
Egypt
Malaysia
Norway
Russia
Switzerland
United Arab Emirates
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography, equipment for the development of equipment employing cryptography, software for the development of equipment employing cryptography, technology for the development of equipment employing cryptography
2	P	neutron generators, non-military detonators, non-military firing sets
3	T	imaging cameras

4	P	components for military improvised explosive device decoying/detection/disposal/jamming equipment, military equipment for initiating explosives, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment
5	P	components for gun silencers, gun silencers

Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009), 1916 (2010), 2002 (2011) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009), 1916 (2010), 2002 (2011) and 2060 (2012) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or the United Nations Political Office for Somalia, or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

Resolution 2036 (2012) prohibited the import, purchase or transport of charcoal from Somalia. The provision of certain related service to Somalia (financing or financial assistance, as well as insurance and reinsurance related to the import, purchase or transport of charcoal from Somalia) were also prohibited by UNSCR 2036.

All exports for this destination were approved in accordance with the sanctions in place.

- components for gun mountings [See footnote 3].

components for launching/handling/control equipment for missiles (2 licences).
 components for machine guns (2 licences) [See footnote 3].
 components for military airborne equipment (2 licences).
 components for military aircrew protective equipment.
 components for military combat vehicles (6 licences).
 components for military communications equipment (2 licences).
 components for military electronic equipment (3 licences).
 components for military equipment for initiating explosives.
 components for military guidance/navigation equipment (3 licences).
 components for military helicopters (20 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military parachutes and equipment.
 components for military radars (2 licences).
 components for military support aircraft (4 licences).
 components for military support vehicles.
 components for military support vehicles.
 components for military training aircraft.
 components for military utility helicopters.
 components for mortars.
 components for munitions/ordnance detection/disposal equipment (2 licences).
 components for pistols (12 licences) [See footnote 1].
 components for rifles (16 licences) [See footnote 1].
 components for small arms ammunition (2 licences).
 components for sniper rifles.
 components for sporting guns (5 licences) [See footnote 1].
 components for surface-to-air missiles.
 components for targeting equipment.
 components for turrets.
 components for weapon mountings (2 licences).
 decoying/countermeasure equipment (3 licences).
 electronic warfare equipment.
 electronic warfare equipment.
 equipment for the development of military aircrew protective equipment.
 equipment for the use of electronic warfare equipment.
 equipment for the use of gun mountings [See footnote 3].
 equipment for the use of machine guns [See footnote 3].
 equipment for the use of military aircrew protective equipment.
 equipment for the use of military parachutes and equipment.
 equipment for the use of pistols.
 equipment for the use of weapon mountings.
 equipment for the use of weapon sights [See footnote 3].
 fire location equipment.
 general military aircraft components.
 general military vehicle components (2 licences).
 gun mountings (2 licences) [See footnote 3].
 gun silencers (3 licences) [See footnote 3].
 launching/handling/control equipment for munitions.
 machine guns (5) [See footnote 3].
 machine guns (6).
 military aircrew breathing equipment.
 military aircrew protective equipment (2 licences).
 military aircrew protective equipment.
 military communications equipment.
 military electronic equipment.
 military electronic equipment.
 military equipment for initiating explosives (2 licences).
 military guidance/navigation equipment (3 licences).
 military helmets (23 licences) [See footnote 1].
 military helmets.
 military image intensifier equipment.
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 military improvised explosive device disposal equipment.
 military infrared/thermal imaging equipment.
 military training equipment.
 munitions/ordnance detection/disposal equipment (2 licences).
 NBC detection equipment.
 NBC protective/defensive equipment (2 licences).
 pistols (1).
 pistols (4) [See footnote 1].

Country Footnotes

1. Licences granted that may include a combination of the following goods were issued for end use in maritime anti-piracy operations - assault rifles, body armour, components for assault rifles, components for pistols, components for rifles, direct view imaging equipment, military helmets, pistols, rifles, small arms ammunition, weapon sights, components for body armour, components for sporting guns, high quantities of sporting guns and combat shotguns.

Case & goods Footnotes

1. Licence granted to a private maritime security company for anti-piracy purposes. Civilian end use.
2. For testing and evaluation purposes.
3. Licence granted for government / military end use.
4. Refurbishment of rifles belonging to existing customers of a commercial company.

- components for equipment for the use of unmanned air vehicles.
- components for fire location equipment.
- T components for launching/handling/control equipment for missiles.
- components for launching/handling/control/support equipment for unmanned air vehicles (5 licences).
- components for machine guns [See footnote 2].
- components for military aero-engines.
- components for military airborne equipment.
- components for military aircraft head-up/down displays (3 licences).
- components for military bridges/pontoons/ferries.
- components for military combat vehicles.
- components for military communications equipment (15 licences).

T components for military communications equipment.
 components for military diving apparatus.
 components for military electronic equipment (4 licences).
 components for military equipment for initiating explosives.
 components for military guidance/navigation equipment (6 licences).
 components for military helicopters (24 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 components for military patrol/assault craft (2 licences).
 components for military radars (35 licences).
 components for military support aircraft (3 licences).
 components for military support vehicles (2 licences).
 components for military training aircraft (10 licences).
 components for military training equipment (2 licences).
 components for military utility helicopters.
 components for munitions/ordnance detection/disposal equipment (2 licences).
 components for naval communications equipment (2 licences).
 components for NBC detection equipment (2 licences).
 components for NBC protective/defensive equipment (2 licences).
 components for pistols (2 licences) [See footnotes 2, 3].
 components for sniper rifles (2 licences).
 components for submarines (5 licences).
 components for surface launched rockets.
 components for surface-to-air missiles.
 components for surface-to-surface missiles (3 licences).
 components for tanks (2 licences).
 components for targeting equipment.
 components for unmanned air vehicles (4 licences).
 components for weapon control equipment (4 licences).
 components for weapon control systems.

T equipment for the production of military aircrew protective equipment.

T equipment for the use of aircraft military communications equipment.

T equipment for the use of launching/handling/control equipment for missiles.
 equipment for the use of military communications equipment (2 licences).
 equipment for the use of military diving apparatus.
 equipment for the use of military helicopters.
 equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.
 equipment for the use of NBC detection equipment.
 equipment for the use of submarines.

T equipment for the use of targeting equipment.

T equipment for the use of weapon control equipment.

T equipment for the use of weapon night sights.
 equipment for the use of weapon sights [See footnote 2].
 fire location equipment.

T general military aircraft components (3 licences).
 general military aircraft components.
 general military vehicle components.
 general naval vessel components (5 licences).
 goods treated for signature suppression for military use.
 gun silencers (3 licences) [See footnote 2].

T launching/handling/control equipment for missiles.
 machine guns (10) [See footnote 2].
 military aero-engines.
 military auxiliary/support vessels.
 military communications equipment (7 licences).

T military communications equipment.
 military diving apparatus.
 military electronic equipment (11 licences).
 military equipment for initiating explosives.
 military guidance/navigation equipment (10 licences).

T military guidance/navigation equipment (2 licences).

T military image intensifier equipment.

T military image recording/processing equipment.

T military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).

T military infrared/thermal imaging equipment (2 licences).
 military patrol/assault craft.
 military software.
 military support vehicles.
 military training equipment.

- munitions/ordnance detection/disposal equipment (2 licences).
NBC detection equipment (2 licences).
NBC protective/defensive equipment (2 licences).
pistols (30) [See footnote 2].
- T
projectile launchers.
pyrotechnics/fuels and related substances.
small arms ammunition (2 licences) [See footnote 2].
sniper rifles (2).
sniper rifles (5).
software for military aero-engines.
- T
software for military aircrew protective equipment.
software for military auxiliary/support vessels.
software for military communications equipment.
software for military guidance/navigation equipment.
software for military patrol/assault craft.
sporting guns (4).
technology for assault rifles (2 licences) [See footnote 2].
technology for equipment for the use of NBC detection equipment.
technology for launching/handling/control equipment for munitions.
technology for machine guns [See footnote 2].
technology for military communications equipment.
technology for military diving apparatus.
technology for military guidance/navigation equipment (4 licences).
technology for military helicopters.
technology for military software.
technology for NBC detection equipment.
technology for pistols [See footnote 2].
technology for submarines.
technology for test models for combat aircraft.
technology for unmanned air vehicles (2 licences).
test models for combat aircraft.
unfinished products for combat aircraft.
unfinished products for military aero-engines.
unfinished products for military helicopters.
unfinished products for surface-to-air missiles.
- T
unmanned air vehicles (5 licences).
weapon cleaning equipment (3 licences) [See footnote 2].
weapon night sights.
- T
weapon night sights (3 licences).
weapon sights (2 licences) [See footnote 2].
- T
weapon sights (2 licences).

Non-military

- animal pathogens.
biotechnology equipment (2 licences).
T civil NBC detection systems.
civil NBC protection clothing.
civil NBC protection equipment (2 licences).
components for marine position fixing equipment.
compound semiconductor precursor chemicals (16 licences).
computer analogue to digital equipment (2 licences).
computer analogue-to-digital equipment.
constituents of propellants (2 licences).
corrosion resistant chemical manufacturing equipment (22 licences).
cryptographic software (2 licences).
T cryptographic software (2 licences).
dimensional measuring equipment (6 licences).
electronics cooling fluids.
equipment employing cryptography (18 licences).
T equipment employing cryptography.
equipment for the production of gas turbines (4 licences).
equipment for the use of wind tunnels.
fibrous/filamentary materials (2 licences).
frequency synthesisers.
global positioning satellite receivers.
guidance/navigation equipment (2 licences).
high speed pulse generators.
human pathogens (2 licences).
hydrophones (3 licences).
imaging cameras (42 licences).
T imaging cameras (4 licences).
inertial equipment (24 licences).
T inertial equipment (2 licences).
instrumentation cameras (6 licences).
lasers (19 licences).
T lasers (4 licences).
machine tools (5 licences).
magnetometers (4 licences).
marine position fixing equipment (4 licences).
metal alloy cylindrical forms (4 licences).
metal alloy powder production equipment.
natural uranium.
nickel powders.

- pressure transducers.
- products containing plutonium-239.
- radiation hardened TV camera lenses (2 licences).
- radiation hardened TV cameras (5 licences).
- T radio jamming equipment.
- rebreathing swimming apparatus.
- semiconductor process equipment.
- software for cryptographic software.
- software for diver location sonars.
- software for equipment employing cryptography (3 licences).
- software for the development of equipment employing cryptography (2 licences).
- submersible equipment.
- submersible vehicles (2 licences).
- technology for composite laminates.
- technology for composite structures.
- technology for corrosion resistant chemical manufacturing equipment.
- technology for equipment employing cryptography.
- technology for fibre preforms.
- technology for fibre prepregs.
- technology for lasers.
- technology for nuclear reactors.
- thyristors (2 licences).
- titanium doped sapphire laser crystals.
- toxic gas detectors (2 licences).
- toxins (25 licences) [See footnote 1].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£1,770,000
6A002	1	£135,339
6A003	1	£13,677

- T weapon sight mounts.
- T weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	27	£4,011,415
Non-military	10	£1,394,170
Total	37	£5,405,585

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£59
ML10	24	£3,891,926
ML11	1	£36,499
ML16	2	£82,931

components for combat aircraft (2 licences).
 components for combat helicopters (2 licences).
 components for military aero-engines (5 licences).
 components for military helicopters.
 components for military training aircraft (17 licences).
 general naval vessel components.
 military aero-engines.
 military guidance/navigation equipment.
 military training aircraft.
 unfinished products for military training aircraft (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	8	£1,351,170
3A001	1	£18,000
7A001	1	£25,000

accelerometers.
 corrosion resistant chemical manufacturing equipment (8 licences).
 radiation hardened integrated circuits.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 Indonesia
 Peru
 Russia
 Spain
 Turkey
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography, equipment for the development of equipment employing cryptography, software for the development of equipment employing cryptography, technology for the development of equipment employing cryptography

2	P	triggered spark gaps
3	P	equipment employing cryptography
4	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
5	P	components for combat aircraft, components for ejector seats, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military aircrew protective equipment, components for military support aircraft, components for military training aircraft, ejector seats, military aircraft ground equipment, military aircrew breathing equipment, military aircrew protective equipment, military electronic equipment, signalling devices, technology for combat aircraft, technology for ejector seats, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military aircrew protective equipment, technology for military electronic equipment, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for ejector seats, test models for military aircraft ground equipment, test models for military aircrew breathing equipment, test models for military aircrew protective equipment
6	P	components for military aero-engines, components for naval engines
7	P	cryptographic software, equipment employing cryptography
8	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, equipment for the use of general naval vessel components, equipment for the use of military electronic equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military electronic equipment
9	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
10	P	components for launching/handling/control equipment for missiles, unfinished products for launching/handling/control equipment for missiles
11	P	components for military training aircraft, software for military training aircraft
12	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
13	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
14	P	components for military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility helicopters, unfinished products for military utility helicopters
15	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, technology for military aero-engines

16	P	components for marine position fixing equipment, components for underwater telecommunications systems, marine position fixing equipment, underwater telecommunications systems
17	P	accessories for semiconductor process equipment, components for semiconductor process equipment
18	P	components for military support aircraft
19	T	equipment employing cryptography, radio jamming equipment
20	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes
21	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
22	P	components for military electronic equipment, equipment for the use of aircraft missile protection systems, software for aircraft missile protection systems, technology for aircraft missile protection systems
23	P	toxins
24	P	equipment employing cryptography, software for equipment employing cryptography
25	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, technology for military aero-engines
26	P	software for inertial equipment
27	P	components for combat aircraft, components for military support aircraft

Case & goods Footnotes

1. Licence granted for scientific use in a laboratory.
2. Licence granted for government / military end use.
3. Licence granted for training in safe weapon handling.

Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£6,130
Non-military	3	£87,465
Total	4	£93,595

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£6,130

components for all-wheel drive vehicles with ballistic protection.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	2	£20,200
End Use	1	£67,265

Rv chemicals used for industrial/commercial processes (2 licences).
electrical switching equipment.

Rv - Some or all of which have subsequently been revoked.

Refused

	Count
Non-military	6
Total	6

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
1C350	1
2B350	1
End Use	4

chemicals used for industrial/commercial processes.

components for materials analysis equipment.
 components for pumps.
 corrosion resistant chemical manufacturing equipment.
 electrical test equipment.
 general laboratory equipment.
 pumps.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Country Footnotes

1. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, the EU has also adopted restrictions on the supply of equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, and of Syrian denominated banknotes and coinage.
2. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, there have been a number of revisions in 2012 and the EU has also adopted a number of additional restrictions including on the supply, maintenance or manufacture in country of equipment which might be used for internal repression, including equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, of Syrian denominated banknotes and coinage, restrictions on provision of insurance and re-insurance, restrictions on issuance of and trade in certain bonds and a ban on exports of luxury goods.
3. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. There have been a number of revisions to these restrictive measures in 2012 and 2013, and the EU has also adopted a number of additional restrictions including on the supply, maintenance or manufacture in country of equipment which might be used for internal repression, including equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, of technology to be used in the construction or installation of new power plants for electricity production, of Syrian denominated banknotes and coinage, restrictions on provision of insurance and re-insurance, restrictions on issuance of and trade in certain bonds and a ban on exports of luxury goods.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	77	£7,543,634
Non-military	83	£7,085,799
Both Military and Non-military	6	£630,940
Total	166	£15,260,373

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	11	£427,302
ML2	1	£19,000
ML3	9	£123,292
ML4	8	£587,028
ML5	4	£3,664,992
ML7	5	£9,391
ML9	4	£134,358
ML10	14	£762,219
ML11	14	£697,033
ML13	1	£2,794
ML14	3	£142,287
ML15	3	£903,294
ML18	1	£9,281
ML21	6	£42,250
ML22	2	£2,350
PL5001	1	£15,620
PL5017	2	£1,144

aircraft military communications equipment.

- anti-armour ammunition (3 licences) [See footnotes 7, 8].
- anti-riot/ballistic shields.
- ballistic test equipment (2 licences).
- body armour.
- T command communications control and intelligence software (2 licences).
- components for ballistic test equipment.
- components for combat aircraft.
- components for combat naval vessels.
- components for decoying/countermeasure equipment.
- components for man portable air defence systems.
- components for military aero-engines (4 licences).
- components for military aircraft head-up/down displays.
- components for military electronic equipment.
- components for military guidance/navigation equipment (6 licences).
- components for military helicopters (2 licences).
- components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
- components for military patrol/assault craft.
- components for military support aircraft.
- components for NBC detection equipment.
- T components for NBC protective/defensive equipment.
- components for recognition/identification equipment.
- components for small arms training equipment.
- components for sniper rifles (5 licences) [See footnotes 1, 5].
- components for targeting equipment.
- decoying/countermeasure equipment.
- equipment for the production of small arms ammunition.
- equipment for the use of NBC detection equipment.
- equipment for the use of targeting equipment.
- T equipment for the use of weapon night sights.
- fire location equipment.
- general military aircraft components.
- general naval vessel components (2 licences).
- gun mountings (2 licences).
- military aero-engines.
- military communications equipment.
- military equipment for initiating explosives (2 licences).
- military guidance/navigation equipment (3 licences).
- military helmets.
- T military image intensifier equipment.
- military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
- military infrared/thermal imaging equipment (2 licences).
- T military infrared/thermal imaging equipment.
- NBC detection equipment.
- NBC protective/defensive equipment.
- T NBC protective/defensive equipment (3 licences).
- projectile launchers.
- small arms ammunition (8 licences) [See footnotes 3, 4, 6, 7, 8].
- small arms training equipment (3 licences).
- sniper rifles (1) [See footnote 1].
- sniper rifles (2) [See footnote 5].
- sniper rifles (10) (2 licences) [See footnote 5].
- software for military electronic equipment.
- Software for modelling/simulating/evaluating military operation scenarios.
- software for small arms training equipment.
- software for the use of small arms training equipment.
- sporting guns (4).
- technology for small arms training equipment.
- technology for the use of military communications equipment.
- training tear gas/irritant ammunition [See footnote 6].
- T unmanned air vehicles (2 licences).
- wall/door breaching projectiles/ammunition (2 licences) [See footnotes 6, 8].
- weapon cleaning equipment (2 licences) [See footnote 5].
- T weapon night sights.
- weapon sight mounts (2 licences) [See footnote 5].
- weapon sights (3 licences) [See footnote 2].
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

Case & goods Footnotes

1. Licence granted for private/sporting use.
2. Licence granted for items to be held in stock by a commercial company against future orders.
3. One licence granted for small arms ammunition was for use in counter-terrorist operations.
4. Licence granted for small arms ammunition was for sporting end-use.

5. Licence granted for use at a firing range.
6. Licence granted for government / military end use.
7. Licence granted for pyrotechnic diversionary devices and ammunition. Naval end use includes V.V.I.P. protection, anti-hijack and hostage rescue.
8. Ammunition and pyrotechnic diversionary devices. Air Force end use includes security protection, counter-terrorist activities.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	523	£163,797,376
Non-military	136	£13,424,853
Both Military and Non-military	3	£822,400
Total	662	£178,044,629

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	100	£27,669,926
ML2	12	£3,947,343
ML3	5	£275,522
ML4	32	£9,618,686
ML5	22	£2,064,164
ML6	35	£1,517,007
ML7	17	£6,946,747
ML8	3	£8,185
ML9	2	£1,654

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,500
Total	1	£1,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,500

pistols (1).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	neutron generators, non-military detonators, non-military firing sets
2	P	triggered spark gaps
3	P	technology for nuclear reactors
4	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
5	P	technology for equipment for the development of surface-to-surface missiles, technology for equipment for the production of surface-to-surface missiles, technology for equipment for the use of launching/handling/control equipment for missiles, technology for equipment for the use of weapon control equipment, technology for launching/handling/control equipment for missiles, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for software for launching/handling/control equipment for missiles, technology for software for military guidance/navigation equipment, technology for software for naval communications equipment, technology for software for surface-to-surface missiles, technology for software for weapon control equipment, technology for submarines, technology for surface-to-surface missiles, technology for weapon control equipment
6	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, technology for military support aircraft
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
8	P	components for NBC protective/defensive equipment
9	P	components for sporting guns, unfinished products for sporting guns
10	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, equipment for the use of general naval vessel components, equipment for the use of military electronic equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military electronic equipment
11	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
12	P	components for combat aircraft, components for ejector seats, components for equipment for the production of ejector seats, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military aircrew protective equipment, components for military electronic equipment, components for military training aircraft, components for signalling devices, components for test models for ejector seats, components for test models for military aircrew breathing equipment, components for test models for military aircrew protective equipment, ejector seats, equipment for the production of ejector seats, equipment for the production of military aircrew protective equipment, general military aircraft components, military aircraft ground equipment, military aircrew breathing equipment, military aircrew protective equipment, military electronic equipment, signalling devices, technology for ejector seats, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military aircrew protective equipment, technology for signalling devices, test models for ejector seats, test models for military aircrew breathing equipment, test models for military aircrew protective equipment

13	P	technology for nuclear reactors
14	P	components for combat aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, technology for combat aircraft, technology for military aero-engines, technology for military aircraft ground equipment, technology for military support aircraft, technology for military training aircraft, technology for surface-to-air missiles
15	P	components for military training aircraft, software for military training aircraft
16	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets
17	P	gun mountings, gun silencers, weapon sights
18	P	components for military support aircraft
19	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
20	P	small arms ammunition, sporting guns
21	P	toxins
22	P	components for military support aircraft
23	P	components for rifles, components for sniper rifles, components for sporting guns, components for weapon sights, equipment for the use of rifles, equipment for the use of sniper rifles, flash suppressers, gun silencers, weapon cleaning equipment, weapon sights
24	P	components for artillery
25	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for general naval vessel components, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military electronic equipment, components for military field generators, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval engines, components for submarines, components for surface-to-air missiles, components for surface-to-surface missiles, components for tanks, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military aero-engines, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military electronic equipment, technology for military field generators, technology for military guidance/navigation equipment, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval engines, technology for submarines, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for tanks, technology for targeting equipment
26	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

27	P	components for sporting guns, small arms ammunition, sporting guns, weapon sights
28	P	components for military aero-engines, components for military support aircraft
29	P	nickel powders
30	P	components for military support aircraft
31	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
32	P	components for combat aircraft
33	P	technology for NBC detection equipment
34	P	components for military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility helicopters, unfinished products for military utility helicopters
35	P	components for military aero-engines, military aero-engines, technology for military aero-engines
36	P	weapon sights
37	P	components for military support aircraft
38	P	technology for surface-to-surface missiles
39	P	toxins
40	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, technology for sporting guns, technology for weapon sights, weapon sights
41	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, technology for the use of military support aircraft
42	P	components for military communications equipment
43	P	aircraft military communications equipment, components for aircraft military communications equipment, components for combat aircraft, components for ejector seats, components for equipment for the use of combat aircraft, components for military aero-engines, components for military airborne equipment, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircrew breathing equipment, components for military aircrew protective equipment, components for military guidance/navigation equipment, components for military parachutes and equipment, components for military training equipment, ejector seats, equipment for the development of combat aircraft, equipment for the production of combat aircraft, equipment for the use of combat aircraft, general military aircraft components, military airborne equipment, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew breathing equipment, military aircrew protective equipment, military guidance/navigation equipment, military parachutes and equipment, military training equipment, software for combat aircraft, technology for combat aircraft, technology for production installations for combat aircraft, test models for combat aircraft, unfinished products for combat aircraft

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£47,712
Total	1	£47,712

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£47,712

civil explosive detection/identification equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	software for inertial equipment

Country Footnotes

1. Arms trade sanctions against Zimbabwe were adopted by EU Common Position 2004/161/CFSP amended by Common Position 2008/135/CFSP and replaced by Council Decision 2011/101/CFSP. The measures include restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 314/2004.
