International Trade

Strategic Export Controls: Country  
Pivot Report

1st April 2012 - 30th June 2012

OCTOBER 2019

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st April 2012 and 30th June 2012. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for Goods covered by Council Regulation 1236/2005** (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

## Reporting

### Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

### Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

#### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

#### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3189	3103	48	38	2942	73	3874	96	14 days
- Permanent Standard	2649	2566	46	37	2505	73	3293	96	14 days
- Temporary Standard	226	226	0	0	198	71	263	95	14 days
- Transhipment	2	1	0	1	4	100	4	100	7 days
- Incorporation	312	310	2	0	235	72	314	96	15 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	0	0	0	0	n/a	n/a	n/a	n/a	n/a
SITCLs	21	21	0	0	16	46	31	89	27 days
OIELs	90	73	10	7	26	25	49	48	66 days
- Standard	81	64	10	7	17	19	39	43	75 days
- Dealer-to-dealer	7	7	0	0	7	88	8	100	6 days
- Cryptographic	1	1	0	0	2	67	2	67	11 days
- Media	0	0	0	0	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	1	1	0	0	0	0	0	0	106 days
Global Project Licences	0	0	0	0	n/a	n/a	n/a	n/a	n/a
OITCLs	12	11	1	0	9	41	13	59	43 days

### Table notes:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	39	0	0
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	8	0	0
EU GEA 003 (EU003) - export after repair/replacement	8	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	7	0	0
EU GEA 005 (EU005) - telecommunications	2	0	0
EU GEA 006 (EU006) - chemicals	1	0	0
Chemicals	1	0	0
Cryptographic Development	3	0	0
Export After Exhibition: Dual-Use Items	0	0	0
Export After Repair/Replacement Under Warranty: Dual-Use Items	9	0	0
Export For Repair/Replacement Under Warranty: Dual-Use Items	6	0	0
Dual-Use Items: Hong Kong Special Administrative Region	1	0	0
Open General Export Licence (International Non-Proliferation Regime Decontrols: Dual-Use Items)	14	0	0
Low Value Shipments	3	0	0
OIL and GAS Exploration: Dual-Use Items	8	0	0
Technology for Dual-Use Items	2	0	0
Turkey	0	0	0
X	0	0	0
Military and Dual Use Goods: UK Forces deployed in embargoed destinations	1	0	0

OGEL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Military and Dual-Use Goods: UK Forces deployed in non-embargoed destinations	4	0	0
Exports of non-lethal military and Dual-Use Goods: To UK Diplomatic Missions or Consular Posts	1	0	0
Access Overseas to Software and Technology for Military Goods: Individual Use Only	21	0	0
Export After Exhibition or Demonstration: Military Goods	5	0	0
Export After Repair/replacement Under Warranty: Military Goods	15	0	0
Export For Repair/Replacement Under Warranty: Military Goods	10	0	0
Exports or transfers in Support of UK Government Defence Contracts	7	0	0
OGEL (Certified Companies)	0	0	0
OGEL (Exports under the US-UK Defence Trade Co-operation Treaty)	8	0	0
OGEL (International Non-proliferation Regime Decontrols: Military Items) (Rv)	0	0	0
Historic Military Goods	7	0	0
Open General Export Licence (Historic Military Vehicles and Artillery Pieces)	15	0	0
Military Components	3	0	0
Military Goods, Software and Technology	34	1	0

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£3,305,746
Non-military	2	£15,925
Total	11	£3,321,672

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£17,800
ML4	3	£1,762,516
ML6	1	£0
ML10	2	£19,963
ML11	1	£82
ML13	1	£7,800
ML22	2	£1,497,586

body armour.  
 components for body armour.  
 components for military support aircraft (2 licences).  
 components for munitions/ordnance detection/disposal equipment.

equipment for the use of munitions/ordnance detection/disposal equipment.  
 military equipment for initiating explosives (2 licences).  
 military helmets.  
 military support vehicles.  
 munitions/ordnance detection/disposal equipment.  
 small arms ammunition.  
 technology for military support vehicles (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£13,200
End Use	1	£2,725

electrical connectors.  
 equipment employing cryptography.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	all-wheel drive vehicles with ballistic protection, body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets

#### SITCLs

Source	Issued	Refused	Revoked
Bulgaria	1	0	0
Romania	1	0	0
South Africa	1	0	0

#### Issued

air launched rockets.  
 body armour.  
 military helmets.  
 small arms ammunition.

### Country Footnotes

- Arms embargo sanctions in place for Afghanistan apply to those individuals designated under the UN's "1988 List" under UNSCR 1988 of designated individuals. All exports for this destination were approved in accordance with the sanctions in place or for use by the International Security Assistance Force (ISAF)/Diplomatic Missions/United Nations/Recognised NGO.

1	P	all-wheel drive vehicles with ballistic protection, body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets
---	---	---

## Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	50	£1,877,084
Non-military	6	£35,663
Total	56	£1,912,748

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	24	£1,582,192
ML4	3	£18,573
ML6	2	£26,500
ML7	8	£49,636
ML9	1	£1,627
ML10	2	£43,278
ML11	4	£68,269
ML15	1	£5,000
ML17	2	£40,170
ML21	2	£14,425
ML22	1	£0
PL5001	2	£22,640
PL5017	5	£4,775

- anti-riot/ballistic shields (2 licences).
- assault rifles (20).
- components for assault rifles.
- components for bombs.
- components for combat aircraft.
- T components for equipment for the use of general military vehicle components.
- components for gun mountings (2 licences).
- components for launching/handling/control equipment for missiles.
- components for machine guns.
- T components for military combat vehicles.
- components for military equipment for initiating explosives.
- components for military guidance/navigation equipment.
- components for military support vehicles.
- T components for military support vehicles.
- components for military training aircraft.
- components for NBC detection equipment (2 licences).
- components for sniper rifles (6 licences).
- equipment for the use of NBC detection equipment.
- equipment for the use of weapon sights (2 licences).
- T general military vehicle components.
- general naval vessel components.
- goods treated for signature suppression for military use (2 licences).
- gun mountings.
- machine guns (10).
- T military cameras/photographic equipment.
- military communications equipment.
- NBC detection equipment (2 licences).
- NBC protective/defensive equipment (5 licences).
- sniper rifles (1).
- sniper rifles (6).
- Software for modelling/simulating/evaluating military operation scenarios.
- Software for modelling/simulating/evaluating weapon systems.
- sporting guns (1) (2 licences).
- sporting guns (2).
- technology for equipment for the use of weapon sights.
- weapon cleaning equipment (2 licences).
- weapon night sights.
- weapon sight mounts (2 licences).
- weapon sights (13 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	3	£22,333
3A001	1	£2,100
5A002	1	£5,231
7A103	1	£6,000

- equipment employing cryptography.
- extended temperature range integrated circuits.
- T guidance/navigation equipment.
- toxins (3 licences).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	8	£921,639
Total	8	£921,639

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£519,875
ML10	6	£401,764

components for military aero-engines (2 licences).  
 components for military support aircraft.  
 components for military training aircraft (3 licences).  
 components for surface-to-air missiles (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Indonesia  
 Malaysia  
 United States of America

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	gun mountings, gun silencers, weapon sights
2	P	small arms ammunition, sporting guns
3	P	toxins
4	P	military aircrew breathing equipment
5	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for general naval vessel components, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military electronic equipment, components for military field generators, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval engines, components for submarines, components for surface-to-air missiles, components for surface-to-surface missiles, components for tanks, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military aero-engines, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military electronic equipment, technology for military field generators, technology for military guidance/navigation equipment, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval engines, technology for submarines, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for tanks, technology for targeting equipment

6	P	components for sporting guns, small arms ammunition, sporting guns, weapon sights
7	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
8	P	technology for NBC detection equipment
9	P	components for military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility helicopters, unfinished products for military utility helicopters
10	P	weapon sights

## Austria

5A002	1	£595,515

5D002	1	£500
6A003	1	£25,000

cryptographic software.  
equipment employing cryptography.  
imaging cameras.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	heading sensors for hydrophone arrays
2	P	components for marine position fixing equipment, marine position fixing equipment

### Country Footnotes

- In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".  
The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Military	1	£87,293
Total	1	£87,293

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£87,293

military support vehicles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Thailand

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	gun mountings, gun silencers, weapon sights
2	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
3	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for general naval vessel components, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military electronic equipment, components for military field generators, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval engines, components for submarines, components for surface-to-air missiles, components for surface-to-surface missiles, components for tanks, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military aero-engines, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military electronic equipment, technology for military field generators, technology for military guidance/navigation equipment, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval engines, technology for submarines, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for tanks, technology for targeting equipment
4	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
5	P	technology for NBC detection equipment
6	P	components for sporting guns
7	P	weapon sights

## Country Footnotes

1. A comprehensive ban on the provision of all arms and related material to Myanmar was adopted under CFSP 2006/318 as renewed by Council Decision 2010/232/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 194/2008. All exports for this destination were approved in accordance with the sanctions in place.

**Refused**

	Count
Military	1
Non-military	8
Total	9

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that

more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML10	1

unmanned air vehicles.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry

5	P	technology for NBC detection equipment
6	P	components for military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility helicopters, unfinished products for military utility helicopters

#### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896, 1952 (2010 and 2021 (2011))). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£350,000
Non-military	1	£10,108
Total	2	£360,108

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£350,000

all-wheel drive vehicles with ballistic protection.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A003	1	£10,108

inertial equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	sporting guns

## East Timor

### Processing Statistics

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	74	£7,373,125
Non-military	8	£343,961
Both Military and Non-military	1	£280,344
Total	83	£7,997,430

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	16	£685,592
ML3	3	£264,601
ML4	8	£4,129,886
ML5	5	£843,344
ML6	5	£42,950
ML7	2	£19,875
ML9	6	£99,751
ML10	14	£886,898
ML11	8	£162,920
ML13	3	£3,160
ML15	2	£143,080
ML16	2	£20,831
ML17	2	£60,187
ML22	6	£5,713
PL5017	4	£4,336

- T air-to-surface missiles.  
anti-armour ammunition.  
armoured plate (2 licences).
- T armoured plate.
- T components for air-to-surface missiles.
- T components for air-to-surface missiles.  
components for airborne surveillance equipment.
- T components for artillery ammunition (2 licences).  
components for attack alerting/warning equipment.  
components for combat aircraft.  
components for decoying/countermeasure equipment.  
components for machine guns.  
components for military aero-engines (2 licences).  
components for military airborne equipment.
- T components for military aircrew protective equipment.  
components for military communications equipment (3 licences).  
components for military electronic equipment.
- T components for military electronic equipment.  
components for military helicopters.  
components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- T components for military infrared/thermal imaging equipment.  
components for military radars (3 licences).  
components for military support aircraft (5 licences).  
components for naval electrical/electronic equipment (2 licences).

T components for naval electrical/electronic equipment.  
components for submarines.  
components for surface-to-surface missiles (2 licences).

T components for targeting equipment.  
components for unmanned air vehicles.  
equipment for the use of general military aircraft components.  
equipment for the use of submarines.

T equipment for the use of weapon night sights.

T equipment for the use of weapon sights.

T general military vehicle components.  
general naval vessel components (2 licences).  
goods treated for signature suppression for military use.

T goods treated for signature suppression for military use.  
gun mountings.  
machine guns (12).

T military aircraft head-up/down displays.  
military communications equipment.

T military communications equipment.  
military guidance/navigation equipment.

T military image intensifier equipment.  
military improvised explosive device decoying/detection/disposal/jamming equipment.

T military infrared/thermal imaging equipment.

T military support aircraft.

T military support vehicles (3 licences).

T NBC detection equipment.

T NBC protective/defensive equipment (2 licences).  
sniper rifles (1).  
sporting guns (1).  
sporting guns (8).  
tanks.  
targeting equipment.  
technology for artillery ammunition.

T technology for equipment for the use of weapon sights.

T technology for military support aircraft.  
technology for NBC detection equipment.  
technology for the production of military training aircraft.  
technology for unmanned air vehicles.  
unfinished products for military aero-engines.  
unfinished products for military training aircraft.  
weapon cleaning equipment.

T weapon night sights (2 licences).

T weapon sight mounts.  
weapon sights (11 licences).

T weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	5	£163,002
1A007	1	£7,958
1E201	2	£173,001

T non-military firing sets.  
technology for materials containing natural uranium.  
technology for nuclear reactor fuel element fabrication equipment.  
technology for nuclear reactors (3 licences).  
technology for the use of nuclear grade graphite.  
technology for the use of nuclear reactors.  
technology for the use of tritium.  
technology for tritium.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C111	1	£140,172
ML8	1	£140,172

propellants.  
pyrotechnics/fuels and related substances.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	25	£12,510,847
Total	25	£12,510,847

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	3	£2,961,675
Non-military	1	£5,363
Both Military and Non-military	1	£1,125,000
Total	5	£4,092,038

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	3	£711,675
PL5001	3	£2,250,000

acoustic devices for riot control (3 licences).  
body armour (3 licences).  
components for body armour.  
military helmets (3 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£5,363

chemicals used for industrial/commercial processes.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£125,000
ML1	1	£810,000
ML3	1	£95,000
ML13	1	£95,000

assault rifles (200).  
body armour.  
components for assault rifles.  
components for body armour.  
components for pistols.  
components for rifles.  
direct view imaging equipment.  
pistols (50).  
rifles (100).  
small arms ammunition.  
weapon sights.

### OITCLs

**Country Footnotes**

- UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

- Licence granted for private commercial purposes.

cryptographic software.  
 equipment employing cryptography (4 licences).  
 radio controlled improvised explosive device jamming equipment.  
 software for equipment employing cryptography.  
 software for the use of equipment employing cryptography.

### Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Following a thorough review of its procedures for processing export licence applications to Iraq, Her Majesty's Government will consider as exempt from the embargo exports to the GoI, the United Nations Assistance Mission in Iraq (UNAMI), diplomatic missions in Iraq, the US forces in Iraq, the NATO training missions in Iraq, the UK naval training mission training the Iraqi Navy and entities contracted or subcontracted to the GoI, US or UK forces or NATO"

#### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

##### Issued

Types of goods on licence	No. of licences	Value
Military	23	£2,469,408
Non-military	53	£20,296,786
Total	76	£22,766,195

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£2,762
ML3	1	£50,000
ML4	2	£818,992
ML5	3	£411,654
ML6	1	£616,700
ML9	1	£2,040
ML10	4	£302,694
ML11	4	£37,766
ML13	1	£42,500
ML14	1	£28,800
ML15	1	£100,000
ML18	1	£5,000
ML21	1	£5,500
ML22	2	£45,000

- body armour.
- components for attack alerting/warning equipment.
- components for body armour.
- components for decoying/countermeasure equipment (2 licences).
- components for electronic warfare equipment.
- components for military aero-engines (2 licences).
- components for military aircraft head-up/down displays (2 licences).
- T components for military communications equipment.
- components for military radars (3 licences).
- components for submarines.
- decoying/countermeasure equipment.
- equipment for the production of military aero-engines.
- military aero-engines.
- military cameras/photographic equipment.
- military communications equipment.
- T military communications equipment (2 licences).
- military helmets.
- military support vehicles.
- military training equipment.
- small arms ammunition.
- software for the use of military aero-engines.
- technology for decoying/countermeasure equipment.
- technology for military electronic equipment.
- weapon night sights.
- weapon sights [See footnote 1].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C006	1	£84,646
1C202	7	£1,565,147
1C240	2	£21,160
1E001	1	£1
1E201	1	£1
2B006	4	£2,312,000
2B350	2	£36,500
2B352	1	£36,060
3A002	4	£331,500
3C001	1	£110,000

5D002	2	£10,000
5E002	1	£2,765
6A001	1	£4,507
6A003	8	£154,963
6A005	2	£196,900
9B001	1	£106,000

biotechnology equipment.  
 compound semiconductor precursor chemicals.  
 corrosion resistant chemical manufacturing equipment (2 licences).  
 dimensional measuring equipment (4 licences).  
 electronics cooling fluids.  
 equipment employing cryptography (15 licences).  
 T equipment employing cryptography.  
 equipment for the production of gas turbines.  
 imaging cameras (8 licences).  
 lasers (2 licences).  
 marine position fixing equipment.  
 metal alloy cylindrical forms (7 licences).  
 nickel powders (2 licences).  
 semiconductor wafers with epitaxial layers.  
 T signal analysers (3 licences).  
 T signal generators.  
 software for equipment employing cryptography.  
 software for the use of equipment employing cryptography.  
 technology for composite laminates.  
 technology for composite structures.  
 technology for the use of composite structures.  
 technology for the use of equipment employing cryptography.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	19	£1,088,349
Non-military	3	£12,009,510
Total	22	£13,097,858

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£324,315
ML5	14	£520,060
ML10	1	£25,200
ML11	2	£218,774

components for decoying/countermeasure equipment (2 licences).  
 components for electronic warfare equipment.  
 components for military electronic equipment.  
 components for military radars (11 licences).  
 components for targeting equipment (3 licences).  
 components for unmanned air vehicles.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	3	£12,009,510

metal alloy cylindrical forms (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
 Canada  
 Chile  
 France  
 India  
 Singapore  
 South Korea  
 United States of America

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
2	P	heading sensors for hydrophone arrays

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

1	T	components for combat aircraft, components for ejector seats, components for military electronic equipment, components for signalling devices, ejector seats, equipment for the use of ejector seats, equipment for the use of general military aircraft components, general military aircraft components, military aircraft ground equipment, military aircrew breathing equipment, military aircrew protective equipment, military electronic equipment, signalling devices, technology for ejector seats, technology for general military aircraft components, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military aircrew protective equipment, technology for signalling devices, test models for ejector seats, test models for general military aircraft components

No.	Type	Goods Summary
1	P	heading sensors for hydrophone arrays
2	T	inertial equipment

#### **Country Footnotes**

1. Arms trade sanctions against the Ivory Coast were adopted by 2004/852/CFSP and UN Security Council resolution 1572. These have been amended by UN Security Council resolution 1946 and 1980 (2011) and EU Council Decisions 2010/656/CFSP and 2011/142/CFSP. All exports for this destination were approved in accordance with the sanctions in place.

military support vehicles.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	1

### Country Footnotes

1. The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 14 December 2012 by UNSCR 2025 (2011). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

2	P	bomb suits, components for bomb suits, components for devices for initiating explosives, components for improvised explosive device disposal equipment, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, improvised explosive device disposal equipment, military helmets, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, non-military firing sets

#### OITCLs

Source	Issued	Refused	Revoked
Jordan	1	0	0

#### Issued

all-wheel drive vehicles with ballistic protection.

#### Country Footnotes

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

#### Case & goods Footnotes

- Licence granted for the Embassy of an EU Member State.
- Licence granted for the protection of staff for an international organisation.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£285,160
Total	1	£285,160

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£100,560
ML3	1	£12,600
ML13	1	£32,000
ML15	1	£140,000

body armour.  
military helmets.  
military infrared/thermal imaging equipment.  
rifles (40).  
small arms ammunition.  
weapon night sights.  
weapon sights.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment,

		technology for military support aircraft
--	--	--

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, body armour, components for assault rifles, components for body armour, components for machine guns, components for pistols, components for rifles, direct view imaging equipment, machine guns, military helmets, pistols, rifles, small arms ammunition, weapon sights

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

**Issued**

Types of goods on licence	No. of licences	Value
Military	18	£2,356,228
Non-military	2	£155,660
Total	20	£2,511,888

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£77,931
ML3	3	£2,079,132
ML4	3	£159,709
ML15	2	£12,834
PL5017	2	£26,622

- artillery ammunition (2 licences).
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military infrared/thermal imaging equipment (2 licences).
- components for rifles.
- components for sporting guns.
- components for surface-to-surface missiles.
- equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.
- equipment for the use of surface-to-air missiles.
- T military equipment for initiating explosives.
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- small arms ammunition.
- sporting guns (100).
- T weapon night sights.
- weapon sights (4 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1C226	1	£134,580
2B350	1	£21,080

- corrosion resistant chemical manufacturing equipment.
- tungsten carbide tubes.

**OIELs (excluding Other OIELs)****Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	gun mountings, gun silencers, weapon sights
2	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
3	P	small arms ammunition, sporting guns
4	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for general naval vessel components, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military electronic equipment, components for military field generators, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval engines, components for submarines, components for surface-to-air missiles, components for surface-to-surface missiles, components for tanks, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military aero-engines, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military electronic equipment, technology for military field generators, technology for military guidance/navigation equipment, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval engines, technology for submarines, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for tanks, technology for targeting equipment
5	P	components for sporting guns, small arms ammunition, sporting guns, weapon sights
6	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
7	P	technology for NBC detection equipment
8	P	components for military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility helicopters, unfinished products for military utility helicopters
9	P	weapon sights

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£11,680
Total	1	£11,680

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£11,680

sporting guns (41).

## Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

equipment employing cryptography.

#### Country Footnotes

- Arms trade sanctions against Guinea were adopted by EU Common Position 2009/788/CFSP amended by Council Decision 2009/1003/CFSP. EU Common Position 2009/788/CFSP was repealed and replaced by Council Decision 2010/638/CFSP on 25 October 2010. A further amendment was made to the arms embargo through the adoption of Council Decision 2011/706/CFSP on 27 October 2011 which allows for the export of certain equipment to be used for maintaining public order by the police and gendarmerie in Guinea. An additional exemption was introduced with the adoption of Council Decision 2012/149/CFSP and this relates to the return of non-combat helicopters to Guinea. The embargo also extends to equipment that might be used for internal repression as designated in the annex to Council Regulation 1284/2009. All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	17	£2,941,872
Non-military	27	£14,398,474
Total	44	£17,340,346

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£167,485
ML3	1	£1,600,000
ML6	1	£340,000
ML10	4	£311,183
ML11	2	£499,126
ML13	3	£21,650
ML22	1	£828
PL5017	1	£1,600

assault rifles (17) [See footnote 1].  
body armour (2 licences).  
bomb suits.

components for aircraft military communications equipment.  
 components for assault rifles.  
 components for combat aircraft.  
 components for military guidance/navigation equipment.  
 components for sniper rifles [See footnote 1].  
 components for sporting guns.  
 equipment for the use of sniper rifles [See footnote 1].  
 gun mountings [See footnote 1].  
 military guidance/navigation equipment.  
 military helicopters.  
 military trailers.  
 small arms ammunition.  
 sniper rifles (19) [See footnote 1].  
 sporting guns (1).  
 technology for the use of combat aircraft.  
 unmanned air vehicles.  
 weapon sights (4 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

7A003	1	£50,000
7A103	2	£700,000

corrosion resistant chemical manufacturing equipment (3 licences).  
 dimensional measuring equipment.  
 equipment employing cryptography (3 licences).  
 equipment employing cryptography.  
 fibre prepregs.  
 general purpose integrated circuits.  
 helium-3.  
 imaging cameras (7 licences).  
 imaging cameras.  
 inertial equipment (3 licences).  
 machine tools.  
 magnetometers (2 licences).  
 technology for composite laminates.  
 technology for composite structures.  
 technology for fibre preforms.  
 technology for fibre prepregs.  
 technology for fibrous/filamentary materials.  
 tungsten carbide tubes.  
 X-ray accelerators.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1 (Rv)	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
2 (Rv)	P	heading sensors for hydrophone arrays
3 (Rv)	P	components for marine position fixing equipment, marine position fixing equipment
4 (Rv)	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
5 (Rv)	P	inertial equipment

Rv - Some or all of which have subsequently been revoked.

### Country Footnotes

- On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

### Case & goods Footnotes

- Licence granted for use for sporting and hunting end use.

### Country Footnotes

1. UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

- underwater electronic imaging systems (2 licences).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,230
Non-military	1	£32,000
Total	2	£33,230

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£1,230

components for weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£32,000

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Switzerland  
United States of America

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography
2	P	components for military aero-engines, components for military guidance/navigation equipment, components for military support aircraft, military guidance/navigation equipment
3	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes
4	P	technology for NBC detection equipment
5	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft

6	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes

## Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009), 1916 (2010), 2002 (2011) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

### Issued

military support vehicles.  
military trailers.

## Country Footnotes

1. Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

## Spain

### Country Footnotes

1. Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

- On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, there have been a number of revisions in 2012 and the EU has also adopted a number of additional restrictions including on the supply, maintenance or manufacture in country of equipment which might be used for internal repression, including equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, of Syrian denominated banknotes and coinage, restrictions on provision of insurance and re-insurance, restrictions on issuance of and trade in certain bonds and a ban on exports of luxury goods.

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	24	£321,339
Non-military	52	£31,087,388
Total	76	£31,408,727

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£500
ML4	1	£8,327
ML5	1	£24,800
ML7	4	£12,150
ML8	1	£81
ML9	1	£35,770
ML10	8	£131,710
ML11	1	£11,405
ML14	1	£12,946
ML16	1	£81,970
ML21	1	£40
ML22	3	£200
PL5017	2	£1,441

	components for combat aircraft (4 licences).
	components for combat naval vessels.
	components for military aero-engines.
	components for military helicopters.
	components for military improvised explosive device decoying/detection/disposal/jamming equipment.
	components for military support aircraft (2 licences).
	energetic materials additives.
	equipment for the use of multi-role missiles.
T	equipment for the use of targeting equipment.
	gun mountings.
	military improvised explosive device decoying/detection/disposal/jamming equipment.
T	military training equipment.
	NBC detection equipment (3 licences).
	NBC protective/defensive equipment.
	software for electronic warfare equipment.
	software for military radars.
T	targeting equipment.
	technology for electronic warfare equipment.
	technology for equipment for the use of multi-role missiles.
	technology for general naval vessel components.
	technology for military auxiliary/support vessels.
	technology for military radars.
	unfinished products for military aero-engines.
T	weapon cleaning equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

- ballistic test equipment (2 licences).  
body armour (2 licences).
- T  
command communications control and intelligence software.  
components for aircraft military communications equipment.  
components for ballistic test equipment (3 licences).  
components for bombs (2 licences).  
components for combat helicopters (4 licences).  
components for electronic countermeasure equipment.  
components for launching/handling/control equipment for missiles (2 licences).  
components for machine guns.  
components for military auxiliary/support vessels (3 licences).  
components for military combat vehicles (5 licences).  
components for military guidance/navigation equipment (2 licences).  
components for military helicopters.  
components for military infrared/thermal imaging equipment (2 licences).  
components for military radars (3 licences).  
components for military support aircraft (2 licences).  
components for naval electrical/electronic equipment.  
components for NBC protective/defensive equipment (2 licences).  
components for targeting equipment (2 licences).  
components for test models for surface-to-surface missiles.  
components for turrets.  
components for weapon control equipment (4 licences).  
components for weapon night sights (2 licences).  
decoying/countermeasure equipment.  
equipment for the development of explosive charges/devices.  
equipment for the production of machine guns.  
equipment for the use of ballistic test equipment (2 licences).  
general military vehicle components (7 licences).  
general naval vessel components.  
military auxiliary/support vessels (2 licences).  
military electronic equipment (3 licences).  
military guidance/navigation equipment.  
military helmets.  
military small arms training equipment.
- T  
NBC protective/defensive equipment.  
NBC protective/defensive equipment.  
software enabling equipment to function as ballistic test equipment.  
software for ballistic test equipment.  
sporting guns (1).  
sporting guns (25).  
technology for bombs (2 licences).  
technology for decoying/countermeasure equipment.  
technology for military guidance/navigation equipment.  
technology for test models for surface-to-surface missiles.  
test models for surface-to-surface missiles.  
unfinished products for military aero-engines.
- T  
weapon sights.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	149	£74,029,903
Non-military	28	£5,084,313
Both Military and Non-military	1	£428,200
Total	178	£79,542,416

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	32	£10,250,488
ML2	5	£3,416,319
ML3	2	£52,350
ML4	7	£743,158
ML5	3	£71,144
ML6	12	£927,899
ML7	6	£6,555,400
ML8	3	£8,185
ML9	1	£441
ML10	37	£46,568,696
ML11	23	£3,897,725
ML13	7	£80,085
ML16	6	£1,375,582
ML18	1	£10,000
ML21	5	£2,750
ML22	6	£2,881
PL5017	4	£66,800

- aircraft military communications equipment.
- armoured plate (2 licences).
- body armour (5 licences).
- combat aircraft.
- combat helicopters.
- command communications control and intelligence software.
- components for air-to-air missiles.
- components for air-to-surface missiles.
- components for artillery (3 licences).
- components for body armour.
- components for combat aircraft (6 licences).
- components for electronic warfare equipment.
- components for launching/handling/control equipment for missiles (3 licences).
- T components for launching/handling/control equipment for missiles.
- components for military aero-engines (4 licences).
- T components for military aircraft head-up/down displays.
- components for military combat vehicles (3 licences).
- components for military communications equipment (6 licences).
- components for military electronic equipment (2 licences).
- components for military guidance/navigation equipment (2 licences).
- T components for military guidance/navigation equipment.
- components for military helicopters.
- components for military support aircraft (9 licences).
- components for military training aircraft.

components for naval guns.  
 components for NBC detection equipment.  
 components for NBC protective/defensive equipment (2 licences).  
 components for rangefinding equipment.  
 components for sniper rifles (3 licences).  
 components for sporting guns.  
 components for tanks.  
 components for targeting equipment.  
 components for training small arms ammunition.  
 components for unmanned air vehicles (8 licences).  
 components for unmanned air vehicles.  
 components for weapon control equipment.  
 components for weapon mountings.  
 energetic materials additives.  
 equipment for the production of NBC protective/defensive equipment.  
 equipment for the use of military communications equipment (3 licences).  
 equipment for the use of military support aircraft.  
 equipment for the use of NBC detection equipment (2 licences).  
 equipment for the use of weapon night sights.  
 explosives.  
 general military aircraft components.  
 general military vehicle components (3 licences).  
 general naval vessel components.  
 grenade launchers.  
 ground vehicle military communications equipment.  
 military aero-engines (2 licences).  
 military aircraft ground equipment.  
 military aircraft ground equipment.  
 military combat vehicles (3 licences).  
 military combat vehicles.  
 military communications equipment (5 licences).  
 military electronic equipment (2 licences).  
 military guidance/navigation equipment (3 licences).  
 military guidance/navigation equipment (2 licences).  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 military support vehicles.  
 military training aircraft.  
 NBC protective/defensive equipment (2 licences).  
 NBC protective/defensive equipment.  
 pistols (1).  
 pistols (650).  
 pyrotechnics/fuels and related substances.  
 small arms ammunition.  
 sniper rifles (1).  
 sniper rifles (40).  
 sniper rifles (4050).  
 software for decoying/countermeasure equipment.  
 software for military communications equipment.  
 software for NBC detection equipment.  
 software for optimising equipment design.  
 sporting guns (1) (8 licences).  
 sporting guns (2) (3 licences).  
 sporting guns (3) (3 licences).  
 sporting guns (9).  
 tanks.  
 technology for launching/handling/control equipment for munitions.  
 technology for NBC detection equipment (2 licences).  
 technology for sniper rifles.  
 technology for the development of electronic warfare equipment.  
 technology for the development of unmanned air vehicles.  
 technology for the production of electronic warfare equipment.  
 technology for the production of unmanned air vehicles.  
 technology for the use of command communications control and intelligence software.  
 unfinished products for artillery.  
 unfinished products for assault rifles.  
 unfinished products for combat aircraft (4 licences).  
 weapon cleaning equipment.  
 weapon night sights (2 licences).  
 weapon sight mounts.  
 weapon sights (9 licences).

T weapon sights (4 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	4	£11,350
0D001	1	£100,000
0E001	2	£2
1A004	1	£1,020,000
1A007	1	£184,800
1B001	1	£100,349
1C010	1	£23,925
1C202	1	£1,000
1C240	1	£2,500,000
1C351	10	£43,380
1C353	1	£1,987
3A233	1	£398,500
6A001	2	£106,750
6A004	1	£146,520
8A001	1	£400,000
End Use	1	£45,750

civil NBC detection systems.  
 composite materials production equipment.  
 fibrous/filamentary materials.  
 human pathogens.  
 T hydrophones (2 licences).  
 lasers.  
 T marine position fixing equipment.  
 mass spectrometers.  
 metal alloy cylindrical forms.  
 natural uranium (3 licences).  
 nickel powders.  
 non-military firing sets.  
 pathogenic genetic elements.  
 software for nuclear reactors.  
 space qualified components for optical systems.  
 T submersible vehicles.  
 technology for enriched uranium.  
 technology for natural uranium.  
 technology for nuclear fuel reprocessing equipment.  
 technology for nuclear grade graphite.  
 technology for nuclear reactor fuel element fabrication equipment.  
 technology for nuclear reactors (2 licences).  
 technology for plutonium processing equipment.  
 technology for plutonium-239.  
 technology for uranium conversion equipment.  
 technology for uranium isotope separation equipment.  
 technology for uranium-233.  
 thorium.  
 toxins (9 licences).

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£140,000
ML1	1	£270,200
ML15	1	£18,000

T imaging cameras.

T military image intensifier equipment.  
T weapon night sights.  
T weapon sights.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	38	£35,752,355
Total	38	£35,752,355

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£6,000
ML5	3	£2,601,880
ML7	1	£8,000
ML10	29	£24,978,560
ML11	4	£4,716,041
ML15	1	£3,440,000
ML21	2	£1,874

components for aircraft cannons.  
components for combat helicopters (3 licences).  
components for electronic warfare equipment.  
components for military aero-engines.  
components for military aircraft head-up/down displays (2 licences).  
components for military aircrew protective equipment.  
components for military helicopters.  
components for military infrared/thermal imaging equipment.  
components for military radars (2 licences).  
components for military support aircraft (16 licences).  
components for military training aircraft.  
equipment for the use of military aircrew protective equipment.  
general military aircraft components.  
military aircraft head-up/down displays (2 licences).  
military communications equipment.  
military electronic equipment.  
military radars.  
military support aircraft.  
NBC protective/defensive equipment.  
software for military communications equipment.  
software for military radars.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
Belgium  
Brazil  
Canada  
Czech Republic

Egypt  
 India  
 Israel  
 Italy  
 Japan  
 Jordan  
 Kuwait  
 Mexico  
 Oman  
 Poland  
 Qatar  
 Saudi Arabia  
 Singapore  
 South Korea  
 Taiwan  
 United Arab Emirates

**SIELs - Transshipment**

**Issued**

Types of goods on licence	No. of licences	Value
Military	1	£1,500
Total	1	£1,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,500

pistols (1).

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	gun mountings, gun silencers, weapon sights
2	P	components for military support aircraft
3	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, non-military firing sets, shaped charges
4	P	small arms ammunition, sporting guns
5	P	toxins
6	P	components for military support aircraft

7	P	components for rifles, components for sniper rifles, components for sporting guns, components for weapon sights, equipment for the use of rifles, equipment for the use of sniper rifles, flash suppressers, gun silencers, weapon cleaning equipment, weapon sights
8	P	components for artillery
9	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for general naval vessel components, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military electronic equipment, components for military field generators, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval engines, components for submarines, components for surface-to-air missiles, components for surface-to-surface missiles, components for tanks, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military aero-engines, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military electronic equipment, technology for military field generators, technology for military guidance/navigation equipment, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval engines, technology for submarines, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for tanks, technology for targeting equipment
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
11	P	components for sporting guns, small arms ammunition, sporting guns, weapon sights
12	P	components for military aero-engines, components for military support aircraft
13	P	nickel powders
14	P	components for military support aircraft
15	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
16	P	components for combat aircraft
17	P	technology for NBC detection equipment
18	P	components for military utility helicopters, equipment for the production of military utility helicopters, equipment for the use of military utility helicopters, technology for the development of military utility helicopters, technology for the production of military utility helicopters, technology for the use of military utility helicopters, test equipment for military utility helicopters, unfinished products for military utility helicopters
19	P	components for military aero-engines, military aero-engines, technology for military aero-engines

20	P	weapon sights
