Medical Device Alert

MDA/2019/039 Issued: 31 October 2019 at 12:00

Professional use defibrillator/monitor: Efficia DFM100 (Model number 866199) – risk of failure to switch on or unexpected restart

Summary

Manufactured by Philips – due to a software or hardware issue the device may fail to start or deliver defibrillation therapy.

Action

- Identify affected devices in your organisation.
- Ensure that:
  - > staff are aware of the recommended actions in the manufacturer's Field Safety Notice (FSN)
  - > you have ready access to a backup defibrillator until the software and hardware upgrades have been undertaken by Philips
  - > you have systems in place to arrange for the upgrades to be implemented.
- Report suspected or actual adverse events involving these devices through your local incident reporting system and/or your national incident reporting authority as appropriate: England, Scotland, Northern Ireland, Wales. You should also report directly to manufacturers if your local or national systems do not.

Action by
All medical, nursing and technical staff involved in the use and maintenance of these devices.

Deadlines for actions
Actions underway: 14 November 2019
Actions complete: 28 November 2019

Medical Device Safety Officers (in England): ask the manufacturer to add you to their distribution list for field safety notices (FSNs). This is to help with reconciliation.

Remember: if your organisation receives an FSN from a manufacturer, always act on it. **Do not wait** for a communication from MHRA.
