### Introductory note

#### **This introductory note does not form a part of the notice.**

The following notice gives notice of the surrender in part of an environmental permit.

We are satisfied that the necessary measures have been taken to avoid a pollution risk resulting from the operation of the regulated facility.

We have agreed that the partial surrender is a low risk surrender because the area of land being removed is used for warehousing and has not been used for process activities. There are no known pollution incidents on the area of land being surrendered.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
