Date Issued:	26 March 2019
Review date:	25 March 2019

Action note heading

Revised ESF Scoring Framework – Version 7

Who

All ESF Applicants, the Greater London Authority, ESF Devolved Intermediate Bodies and the ESF Managing Authority

What

This action note is to confirm that a revised version of the ESF Scoring Framework has been published on GOV.UK.

Cleared

Janet Downes

Background

Following the recent introduction of the Single-Stage Full Application process across the ESF Programme, the ESF Scoring Framework has been updated to take account of this new approach

As we have residual Outline Applications going through the pipeline at the moment it would be inappropriate to remove the Outline Application elements in this iteration. Instead, we have added wording to explain how the ESF Scoring Framework applies to Single-Stage Applications.

In addition, across the ESF Programme, there are now a number of Devolved Intermediate Bodies in place. The ESF Scoring Framework has been updated to include the role of the Devolved Intermediate Bodies in Outline Assessments and/or Full Appraisals, including the 2 specific Core Selection Criteria elements they are responsible for scoring/deciding under the terms of their Memorandum of Understanding with the ESF Managing Authority.

There have been no changes to the ESF scoring criteria or numerical values within the ESF Scoring Framework.

Action

To take note of the revised version of the ESF Scoring Framework document on GOV.UK.
