Authorized Amendment
Summary/Overview of the amendment to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.

The Regulated Community is reminded to check this amendment against any applicable AAMC, Waivers or Exemptions to ensure their ongoing validity.

In 2015 it was agreed that a review of the Manual of Maintenance and Airworthiness Processes-01 (MAP-01) was required to enable the uplift of regulatory content into the MAA Regulatory Publications and produce a refreshed “shop floor” focussed manual, MAA/RN/2019/12 refers. The Manual of Airworthiness Maintenance - Processes (MAM-P) provides processes that support compliance with the CAE 4000 Series Regulatory Articles (RA) alongside Command Mid-Level Orders. The MAM-P was agreed for release at initial issue at the 16th Continuing Airworthiness Advisory Group, held on 26 Nov 19. Co-ownership and sponsorship of the MAM-P has now been transferred to the Commands. The MAA will maintain and publish the manual through the MRP websites, as required by the designated Commands Change Request process and MAM-P Management Group. The Request for Change (RFC) received against the MAP-01 have been incorporated as appropriate in the MAM-P.

ISSUE STATE CHANGES (if more lines required, contact the MRP Team)

Document Title	Previous Issue	New Issue
Manual of Airworthiness Maintenance - Processes (MAM-P)	N/A	To Initial Issue
