1. Key results

- 1.1 In the six-month period between 1 April and 30 September 2019 there were 16,955 housing starts on site and 14,792 housing completions delivered through programmes managed by Homes England in England (excluding London for all programmes except those administered by Homes England on behalf of the Greater London Authority (GLA)). Levels of starts were the highest for 10 years and, while there was a small decrease from the same period last year, levels of completions are the second highest they have been since 2011. Homes England manages the Help to Buy (Equity Loan) scheme in England but the completions are reported by the Ministry of Housing, Communities and Local Government (MHCLG) available from the webpage linked below and are, therefore, excluded from this publication.
- 1.2 12,310 or 73 per cent of housing starts on site in this period were for affordable homes. This represents an increase of 24 per cent on the 9,893 affordable homes started in the same period last year. Numbers of affordable starts were the highest for over 10 years.
- 5,157 affordable homes started were for Affordable Rent, a reduction of 9 per cent on the 5,698 started in this period last year. A further 3,886 were for Intermediate Affordable Housing schemes, including Shared Ownership and Rent to Buy. This is an increase of 5 per cent on the 3,702 started in this period last year. 664 were for Social Rent, an increase of 35 per cent on the 493 started in the same period last year. In addition, a further 2,603 affordable homes started with tenure to be confirmed². Of the affordable homes started in this period, the highest delivering programmes were: Shared Ownership and Affordable Homes Programme (SOAHP) 2016-21³ with 89 per cent (up from 85 per cent) and the Single Land Programme (SLP) with 5.2 per cent (up from 3 per cent).
- 1.4 10,295 (70 per cent) of housing completions were for affordable homes. This represents a reduction of 7 per cent on the 11,072 affordable homes completed in the same period last year. The drop in affordable completions is a result of delivery at certain points of a programme cycle of different and overlapping funding streams. Remaining delivery through the 2015-18 AHP is tapering off as expected as allocations complete. The 2015-18 AHP was followed by the launch of the SOAHP 2016-21 which is now seeing increasing delivery.
- completed in the same period last year. A further 3,371 were for Intermediate Affordable Housing schemes, including Shared Ownership and Rent to Buy, an increase of 19 per cent on the 2,834 completed in the same period last year. The remaining 519 were for Social Rent, a 62 per cent increase on last year's 320. Of the affordable homes completed, the highest delivering programmes were the SOAHP 2016-21 with 74 per cent, the AHP 2015-18 with 20 per cent and the SLP with 2.3 per cent.

² Affordable Tenure TBC refers to units that have reached the start on site milestone but where the tenure of these units has not yet been specified. This was introduced as a flexibility for Strategic Partnerships to enable them to determine tenure close to or at the point of completion. These starts will be restated under their specified tenure headings in future national statistics updates once the tenure has been established at completion.

³ The SOAHP was launched in April 2016.

2. Introduction

Geographical coverage

2.1 This release presents the housing starts on site and housing completions delivered by Homes England between 1 April 2009 and 30 September 2019 in England excluding London (for both the current and historical series⁴) with the exception of the Build to Rent, Builders Finance Fund, Get Britain Building and The Home Building Fund – Short Term Fund (HBF – STF)⁵ programmes which are administered by Homes England on behalf of the Greater London Authority (GLA) and where delivery covers all of England including London.

Purposes and uses

- 2.2 The figures in this release show the supply of affordable and market housing delivered through Homes England's programmes⁶ with the exception of Help to Buy (Equity Loan scheme), the statistics for which are published quarterly by MHCLG⁷. Further details on housing types are available in section 6 of this release. MHCLG also publishes annual statistics on affordable housing supply in England⁸ showing the gross annual supply of affordable homes, irrespective of funding mechanism. Further information on the Affordable Housing Supply and Help to Buy releases is provided in section 8 of this release.
- The data in this release are used by MHCLG to monitor delivery of affordable homes as part of the MHCLG business plan (see paragraph 8.3). Homes England uses the data to measure progress towards commitments made in its published Strategic Plan⁹ and its Annual Business Plan. Local authorities also use the data when compiling their annual return to MHCLG for the purpose of calculating the enhancement for affordable housing under the New Homes Bonus (NHB), a grant for local authorities to incentivise new housing supply.

What is included in this release?

- This is the first release of data relating to delivery for the financial year ending 31 March 2020 and covers all current and historical programmes delivered by Homes England (summarised in Annex 1). These include the acquisition of existing land or property as well as new house building, and some programmes provide a mix of affordable and market housing. Affordable housing may be for home ownership (on Shared Ownership or Rent to Buy terms) or for rent.
- 2.5 Housing starts on site and housing completions are reported for each programme, where applicable.
- 2.6 A programme breakdown of the data is available in Table 1 of the tables accompanying this release ¹⁰. Further information on the accompanying tables is provided in section 4 of this release. Table A of

⁴ As housing starts on site and completions are recorded by their geographical location, this release may exclude homes located outside London where the funding was allocated to a local authority district within London.

⁵ The Home Building Fund – Short Term Fund was launched on 3 October 2016 and includes the Builders Finance Fund.

the latest annual statistics on affordable housing supply in England published by MHCLG¹¹ shows how Homes England programmes relate to the statistics on affordable housing published by MHCLG.

How is new subsidised housing provided?

- 2.7 Affordable homes delivered through Homes England programmes are funded by central government. The funding is administered by Homes England to fund investment partners (including private registered providers, house builders, community groups and local authorities) to deliver affordable housing.
- 2.8 With the exception of the Single Land Programme (SLP), funding for all programmes is allocated through an application/bidding process based on the assessment eligibility/criteria for each programme. Funding is paid in accordance with the contractual agreement for each programme. Investment for projects delivered under the SLP is determined in accordance with Homes England's Financial Framework¹².

London

- 2.9 Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that Homes England no longer publishes housing starts on site and completions for London, except where Homes England is administering a programme on behalf of the GLA. The historical series for London, which reflects past delivery by Homes England, is included in Homes England's housing statistics published on 12 June 2012 (revised 24 August 2012) available from the housing statistics page on the Homes England section of GOV.UK¹³.
- 2.10 MHCLG has combined the affordable housing statistics in this release with the GLA's affordable housing statistics to produce Table 1012 showing total affordable housing starts on site and completions delivered nationally under the affordable housing programmes of Homes England and the GLA¹⁴. This table excludes additional affordable housing delivery reported annually through local authority returns, which are included in MHCLG's full annual release on affordable housing supply in England¹¹. The table includes any revisions made to London data since it was published by Homes England on 12 June 2012 (revised 24 August 2012). Further details are provided in section 8 of this release.

3. Housing outputs

This section provides the detailed statistics for housing starts and completions by tenure. It includes all Homes England programmes and analyses them over time¹⁵.

¹ Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that Homes England no longer publishes housing starts on site and completions for London (current and historical series) except for delivery in London under the Build to Rent, Builders Finance Fund, Get Britain Building and The Home Building Fund – Short Term Fund (HBF – STF) programmes which are administered by Homes England on behalf of the GLA. The historical series for London included in Homes England's housing statistics published on 12 June 2012 (revised 24 August 2012) is available from: https://www.gov.uk/government/collections/housing-statistics

² Figures by local authority and Homes England's operating areas are available in the accompanying tables.

³ Tenure will be determined on completion of the unit and will be restated in future releases under its appropriate tenure.

⁴ Total affordable housing is the sum of Affordable Rent, Social Rent, Intermediate Rent and Affordable Home Ownership.

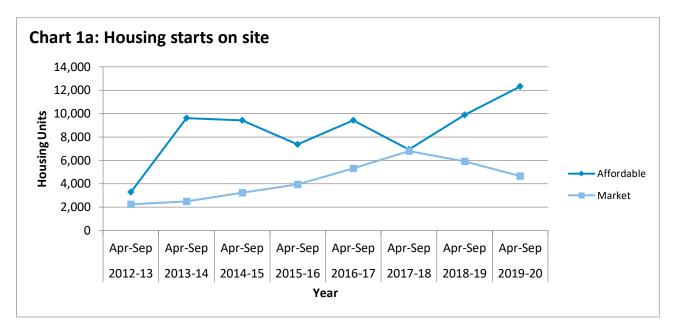

⁵The market units delivered under the Accelerated Land Disposal, Build to Rent, Builders Finance Fund, Economic Assets, Get Britain Building, Kickstart Housing Delivery, Property and Regeneration, Single Land and the HBF – STF programmes may include some starts on site and completions which are made available at below market price or rents but do not meet the definition for affordable housing.

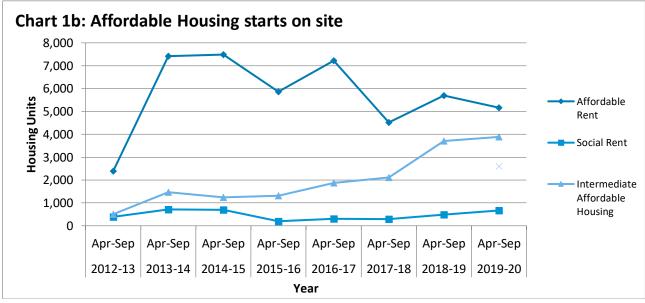

⁶ To ensure consistent reporting with completions, with effect from 1 April 2014 the range of products reported for affordable housing starts on site includes the start on site for new build homes where the procurement route is such that the provider purchases the home at completion. For reporting purposes, the start on site date is taken as the date of completion.

¹⁵ The tables and charts in this and future releases have been restricted to an eight-year rolling profile in order to avoid overcrowding pages with excessively long graphics. For earlier years (going back to 2009-10) please see the accompanying tables and previous releases available at https://www.gov.uk/government/collections/housing-statistics.

In the period 1 April 2019 to 30 September 2019:

- 3.1 A total of 16,955 homes started on site, representing an increase of 1,156 or 7 per cent compared to 15,799 started in the same period last year. Levels of starts in this period were the highest for 10 years.
- 3.2 12,310 or 73 per cent of housing starts on site in this period were for affordable homes. This represents an increase of 24 per cent on the 9,893 affordable homes started in the same period last year. Numbers of affordable starts were the highest for over 10 years.

- 3.3 5,157 affordable homes started were for Affordable Rent, a reduction of 9 per cent on the 5,698 started in this period last year. A further 3,886 were for Intermediate Affordable Housing schemes, including Shared Ownership and Rent to Buy. This is an increase of 5 per cent on the 3,702 started in this period last year. 664 were for Social Rent, an increase of 35 per cent on the 493 started in the same period last year. In addition, a further 2,603 affordable homes started with tenure to be confirmed. The tenure for these units will not be known until completion and they will be restated under their appropriate tenure in future releases.
- 3.4 Table 1b below shows the percentage of Homes England's affordable housing starts on site delivered by each operating area compared to this period last year. A map showing the operating area boundaries is available at Annex 2.

Table 1b: Affordable Housing Starts on Site - Percentage Delivery by Homes England Operating Area

	2019-20	2018-19

South East	34%	35%
South West	20%	15%
North West	18%	16%
Midlands	16%	16%
North East, Yorkshire and The Humber	12%	18%

3.5 The number of market starts on site reduced by 21 per cent to 4,645 compared to 5,906 started in the same period last year. The SLP produced the majority of these at 2,651 or 57 per cent, a decrease of 675 or 20 per cent compared to 3,326 started in the same period last year. The HBF – STF delivered 1,994 or 43 per cent. This was a reduction of 586 or 23 per cent compared to the 2,580 started in the same period last year. The number of market starts tend to fluctuate between periods due to the nature of the programmes – with relatively fewer projects (compared to affordable housing programmes) delivering a greater number of units per project and commencing at varying times throughout the year.

⁵ Some of the market completions delivered since 2013-14 may include houses sold to purchasers who have received assistance through the Help to Buy scheme to buy a property at market value from a house builder where the scheme as a whole may have benefitted from funding through another programme. Help to Buy is reported by MHCLG (see https://www.gov.uk/government/collections/help-to-buy-equity-loan-and-newbuy-statistics)

In the period 1 April 2019 to 30 September 2019:

- 3.6 A total of 14,792 homes completed, representing a decrease of 1,072 or 7 per cent compared to the 15,864 completed in the same period last year.
- 3.7 10,295 affordable homes completed, a decrease of 777 or 7 per cent compared to 11,072 completed in this period last year. The drop in affordable completions is a result of delivery at certain points of a programme cycle of different and overlapping funding streams. Remaining delivery through the 2015-18 AHP is tapering off as expected as allocations complete. The 2015-18 AHP was followed by the launch of the SOAHP 2016-21 which is now seeing increasing delivery.
- 3.8 6,405 or 62 per cent of affordable completions were for Affordable Rent, a decrease of 1,513 or 19 per cent compared to the 7,918 completed in the same period last year. Intermediate Affordable Housing accounted for a further 3,371 or 33 per cent, an increase of 537 or 19 per cent compared to the 2,834 completed in this period last year. The remaining 519 or 5 per cent of affordable homes completed were for Social Rent, an increase of 199 or 62 per cent compared to the 320 completed in the same period last year. These fluctuations reflect the tenure balance allocated in the early years of the 2016-21 funding period with funding parameters subsequently opening up to Affordable Rent and Social Rent.

3.9 Table 2b below shows the percentage of Homes England's affordable housing completions delivered by each operating area compared to the same period last year.

Table 2b: Affordable Housing Completions - Percentage Delivery by Operating Area

South East	29%	26%
South West	22%	24%
North West	17%	13%
North East, Yorkshire and The Humber	16%	17%
Midlands	16%	20%

3.10 4,497 market homes completed, a decrease of 295 or 6 per cent on the 4,792 that completed in this period last year. Fluctuations in the number of market completions between periods reflects the nature of the programmes, with different types and sizes of sites commencing at different times and having varying build-out rates. The principal components are the SLP (2,316 completions, a decrease of 619), the HBF - STF (1,704 completions, an increase of 325) and BTR (388 completions, a decrease of 13).

- In a small number of cases, Homes England funding to an affordable housing provider may be to 4.3 support a person or family to be housed in a local authority that is different to the one in which they currently reside. The local authority presentations in Table 2 are based on the local authority district in which the house is located. This table also identifies the Homes England operating area in which each local authority is located.
- We can provide programme level statistics for specified local authority areas in response to requests made to housing.statistics@homesengland.gov.uk marked for the attention of Mike Shone.

5. Revisions

Revisions policy

Homes England has adopted the revisions policy developed by MHCLG¹⁷. This policy covers two types 5.1 of revisions.

Scheduled revisions

- These statistics are drawn from funding and project administration systems and therefore updated 5.2 information can be provided by funding recipients and developers after the official statistics have been extracted and compiled from these systems. This is particularly the case during the financial year and figures for the first six months of the year, as reported in the November/December release, are subject to scheduled revision in the release of financial year data in June. It is also possible for revisions to be made for earlier periods, although procedures are in place to minimise the scale of these.
- As notified in our release of official statistics published on 11 June 2013, we will make scheduled 5.3 revisions once a year in June. These revisions will cover the first six months of the full year being reported together with revisions for the previous two financial years. Data for earlier years will be regarded as final and there will be no further changes.

Non-scheduled revisions

- 5.4 If a substantial error occurs as a result of the production process, the statistical release and accompanying tables will be updated with a correction notice as soon as is practical.
- If, as a result of new information, there are significant changes to the figures in years outside of the scheduled revisions period, that information will be revised in the May/June release together with scheduled revisions.

If you would like to comment on our revisions policy please contact Mike Shone by email at housing.statistics@homesengland.gov.uk.

6. Definitions

Affordable housing

Affordable Housing is the sum of Affordable Rent, Social Rent, Intermediate Rent and Affordable Home Ownership (Shared Ownership and Rent to Buy). Affordable homes are defined in line with the National Planning Policy Framework¹⁸, published 27 March 2012 and updated 19 February 2019, as housing units (or traveller pitches and bed spaces when describing a shared dwelling such as a hostel) provided to specified eligible households whose needs are not met by the market. Eligibility may be determined with regard to local authority allocations policies, local incomes and local house prices depending on the type of affordable housing. Affordable housing should include provisions to remain at an affordable price for future eligible households or for the subsidy to be recycled for alternative affordable housing provision. The term 'affordable housing' is equivalent to 'social housing' as defined in Section 68 of the Housing and Regeneration Act 2008¹⁹.

Affordable rented housing

Affordable rented housing is a form of social housing, introduced in 2011. It may only be delivered with grant through the AHP 2011-15 and other associated and subsequent programmes or without grant by local authority and other providers, where a contract or confirmation of the ability to charge an Affordable Rent is in place. Affordable rented homes are let by local authorities or private registered providers of social housing to households who are eligible for social rented housing. Affordable Rent is subject to rent controls that require a rent of up to 80 per cent of the local market rent (including service charges, where applicable).

Social rented housing

Social rented housing is rented housing owned and managed by local authorities and private registered providers, for which target rents are determined through the national rent regime. It may also include rented housing managed by other persons and provided under equivalent rental arrangements to the above.

Immediate affordable housing

Intermediate affordable housing is housing at prices and rents above those of Social Rent but below market price or rents, and which meet the criteria as set out in the definition for affordable housing. These can include Shared Ownership, equity loan products, Rent to Buy and Intermediate Rent. Intermediate rented housing was eligible for funding under the now closed NAHP.

Equity loan scheme

Under an **equity loan scheme** for affordable housing, the majority of the cost (usually at least 70 per cent) is funded by the purchaser through a mortgage and savings (deposit). The remaining cost of the home is paid for by the government and the house builder through an equity loan. The property title is held by the home owner who can therefore sell their home at any time and upon sale should provide the government and the house builder the value of the same equity share of the property when it is sold. In the historical series covered by this release, equity loan was available under FirstBuy, Kickstart and the NAHP (HomeBuy Direct). There are a small number of equity loan cases in the current series.

Shared Ownership scheme

¹⁹ http://www.legislation.gov.uk/ukpga/2008/17/pdfs/ukpga_20080017_en.pdf

Under a **Shared Ownership scheme** for affordable housing, the purchaser pays for an initial share of between 25 per cent and 75 per cent of the home's value with the option to increase their ownership if they later choose and can afford to do so. The provider owns the remaining share and rent is paid on the landlord's share. The rent is up to 3 per cent of the share's value. Shared ownership properties are always leasehold homes.

Rent to Buy scheme

Under the **Rent to Buy scheme** for affordable housing, homes are let at an Intermediate Rent to tenants who plan to buy in the future but need a period of lower rents to help them to save for a deposit. After an initial rental period (at least the first five years of the life of the property) the tenant has the option to buy outright the home they are living in. Grant funded Intermediate Rent has to be set at no more than 80 per cent of the market rate.

Market housing

Market housing is private housing (or bed spaces) for rent or for sale where the rental value or market price is set mainly in the open market.

Acquisitions (non-new build)

Acquisitions (non-new build) are additions to affordable or market housing supply that take place without building a new property. This can include the purchase of existing properties for use as affordable or market housing. It may also include empty properties brought back into use. These will normally be long term empty properties where rehabilitation works are required and which would not otherwise come back into use without intervention. Conversions of existing affordable or market properties are only included where there is substantial re-improvement works carried out to the fabric of the building (for example the conversion of bedsits to self-contained apartments). Repairs or simple refurbishment of properties are not included.

Housing starts on site

Housing starts on site are reported when the provider/developer and builder have entered into the house building contract, the building contractor has taken possession of the site and the start on site works have commenced. Starts on site are not applicable for Mortgage Rescue or for equity loan products delivered under FirstBuy.

Housing completions

Housing completions are reported when the units are fit for occupation or, in the case of Mortgage Rescue and equity loan products delivered under FirstBuy, the Kickstart Housing Delivery Programme, the AHP 2011-15 and the National Affordable Housing Programme, at the point of completion of the purchase.

Private registered providers

Private registered providers, under the terms of the 2008 Housing and Regeneration Act²⁰, are organisations which provide social housing, either in a for-profit or not-for-profit capacity, and who are registered on the Statutory Register of Providers of Social Housing maintained by Homes England. Most private registered providers are housing associations. The term excludes local authorities, who also provide social housing. Any private provider wishing to deliver Affordable Rent homes, who has not contracted with Homes England through a Grant Agreement, must contract with Homes England through a Short Form Agreement to deliver Affordable Rent without grant. The definition of private registered

²⁰ http://www.legislation.gov.uk/ukpga/2008/17/pdfs/ukpga_20080017_en.pdf

providers is not affected by the Office for National Statistics' recent decision to classify them to the private sector for National Accounts and statistical purposes.

Affordable housing starts on site and completions funded by Homes England and the GLA

- 8.1 Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that Homes England no longer publishes affordable housing starts on site and completions for London, except for delivery in London under the Builders Finance Fund (now called The Home Building Fund Short Term Fund) and Get Britain Building programmes which are administered by Homes England on behalf of the GLA. Responsibility for publication of other London delivery has been taken over by the GLA. In addition to its annual release, MHCLG combines half-year data from Homes England and the GLA to publish six monthly affordable housing starts on site and completions delivered nationally under the affordable housing programmes of Homes England and the GLA.
- 8.2 The combined statistics published by MHCLG are available from the MHCLG website²¹ and housing statistics published by the GLA are available from the GLA website²².
- 8.3 Delivery of affordable homes forms part of the MHCLG business plan. Homes England is responsible for the administration of the programmes that deliver affordable housing (as described in section 2) and report on progress in their annual report²³.

²³ https://www.gov.uk/government/publications

8.4 The annual Affordable Housing Supply release published by MHCLG (see paragraph 2.2), includes delivery of affordable housing, but not market housing. Starts information was only available from data provided by Homes England and the GLA in 2015-16. For 2016-17 data on starts was also collected from local authorities. However, the submission of starts data by local authorities is voluntary as some of them may be unable to provide figures. This means that starts funded directly by local authorities or by planning agreements that are not included in the Homes England or GLA statistics were not included in 2015-16 data and may be under reported in subsequent publications. Delivery through Homes England (and the GLA) accounts for the majority of Affordable Housing Supply, but the scope of the statistics reported by MHCLG is wider. It also includes delivery through other Homes England and GLA programmes not reported here (such as Social HomeBuy and Right to Acquire) as well as affordable housing not covered by Homes England and GLA programmes that is reported in local authority returns to the Ministry. The MHCLG publication provides less detail about the individual Homes England programmes and focuses more on the properties of the units delivered, such as tenure and whether they are new build or acquisitions. The 'Data sources' section of the MHCLG release provides more information about the coverage of the release²⁴.

Help to Buy

8.5 The Help to Buy (Equity Loan scheme) release published by MHCLG details the number of home purchases and the value of equity loans under the Government's Help to Buy: Equity Loan scheme. Homes England is responsible for all Help to Buy (Equity Loan scheme) delivery including London. The number of home purchases delivered through Homes England is published by MHCLG together with information about the type and price of properties purchased, purchaser deposits and applicant incomes²⁵.

Pre-release access

9.1 Details of officials who receive pre-release access to the release up to 24 hours before publication are available from the housing statistics page on the Homes England section of GOV.UK²⁶.

A brief history of Homes England

9.2 Homes England was launched by the Secretary of State on 11 January 2018. Homes England is the trading name of Homes and Communities Agency (HCA) (the legal entity). The HCA was created on 1 December 2008 by bringing together the regeneration body English Partnerships (including the Property and Regeneration programme), the investment arm of the Housing Corporation (including the National Affordable Housing Programme), the Academy for Sustainable Communities and a number of housing and regeneration programmes from the MHCLG. In October 2011, the HCA took responsibility for the land and property assets of eight of England's nine Regional Development Agencies, ahead of their operational closure in March 2012. On 1 April 2012, the HCA's former London operating area transferred to the GLA.

United Kingdom Statistics Authority

9.3 The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

Future publication dates

9.4 Our official statistics for the period 1 April 2019 to 31 March 2020 will be published in June/July 2020.

Programme	Programme Summary	Tenure ¹	Build Type ²
Help to Buy (equity loan)	Help to Buy was announced in the Budget 2013 to help purchasers struggling to buy a new build home. It offers a maximum 20% (40% in London) equity loan (minimum 10%) on new build properties up to a maximum purchase price of £600,000. Launched in April 2013 with an initial budget of £3.7bn, the programme aspired to support 74,000 plus homebuyers in the first 3 years. The 2015 Spending Review confirmed £8.6bn of funding and extended the programme to 2021 to assist an anticipated 145,000 purchases. In October 2017, the Government announced it will invest a further £10 billion in the Help to Buy Equity Loan programme. More than 130,000 completions have already taken	Market	NB
	place by people using the equity loan, which helps people buy a new build home with only a 5% deposit. The new funding means that the Help to Buy Equity Loan could help around 135,000 more people to buy homes by 2021. This would bring the total number of households across England that would be supported through the scheme since it began in 2013 to around 360,000.		
Homelessness Change ³	The Homelessness Change Programme was announced as part of the Government's Spending Review 2010 and delivered 1,128 new or refurbished bed spaces in hostel accommodation by 31 March 2015 (outside London).	Aff. Rent	NB/A
<u>Homelessness</u> <u>Change 2015-18</u>	Homes England is allocating a share of up to £25 million capital funding for specialist housing providers, on behalf of the Department of Health, to bring forward proposals for developing and improving hostel accommodation and facilities for the delivery of healthcare, training or education aimed at supporting rough sleepers, those at risk of sleeping rough, and other non-statutory homeless people of specialist housing to meet the needs of older people and adults with disabilities or mental health problems outside of London. This programme was launched jointly alongside the Platform for Life fund in March 2015.	Aff. Rent	NB/A
Kickstart Housing Delivery	The Kickstart Housing Delivery programme was part of the 2009 Housing Stimulus Programme investing in restarting more than 20,000 homes on stalled sites. The programme closed on 31 March 2013.	Social Rent /Int. Rent / AHO / Market	NB
Local Authority New Build	The Local Authority New Build programme was set up to deliver 4,000 homes for rent by 31 March 2012.	Social Rent	NB

Programme	Programme Summary	Tenure ¹	Build Type ²
Mortgage Rescue ³	The Mortgage Rescue scheme was announced as part of the Government's Spending Review 2010 to provide support to some 2,500 vulnerable home owners struggling to maintain mortgage payments and at risk of repossession. This scheme is now closed.	AHO / Int. Rent	A
National Affordable Housing Programme	The National Affordable Housing Programme is the predecessor to the AHP 2011-15.	Social Rent / Int. Rent / AHO	NB/A
<u>Platform for Life</u>	Homes England is allocating a share of up to £25 million capital funding for specialist housing providers, on behalf of the Department of Health, to bring forward proposals for developing low-rent accommodation for young people aged 18 to 24 who are homeless or at risk of homelessness and are in housing need, to support their participation in work, further education or vocational training, with the aim of assisting residents into long term employment and independence, and improving their prospects for a successful and healthy life. This programme was launched jointly alongside the Homelessness Change 2015 to 2017 fund in March 2015.	Aff. Rent	NB/A
Property and Regeneration Programme	The Property and Regeneration programme covered all the historical property and regeneration investments and assets inherited from English Partnerships. With effect from 1 April 2015, existing commitments transferred to the Single Land Programme.	Social Rent /Int. Rent / AHO / Market	NB/A
Rent to Buy	The Rent to Buy Loan 2015-17 provided loans at a low, fixed rate to registered providers to deliver homes outside London. The homes will be let at a sub-market rent for at least 7 years with the intention of supporting working households to save money and achieve their aspiration of home ownership. This programme is now closed.	АНО	NB
Right to Buy Replacement	With effect from 2 April 2012, every additional local authority home sold under Right to Buy will be replaced by a new home for affordable rent, with receipts from sales recycled towards the cost of replacement. Where a local authority decides not to undertake the development themselves, they return the relevant portion of the receipts to MHCLG for reinvestment nationally.	Aff. Rent	NB
Shared Ownership and Affordable Homes Programme 2016-21	This programme aims to increase the supply of Shared Ownership and other affordable homes in England by March 2021.	Aff. Rent / Social Rent / AHO (Shared Ownership and Rent to Buy)	NB/A

Programme	Programme Summary	Tenure ¹	Build Type ²
Short Form Agreement 3	A Short Form Agreement (SFA) is used by Homes England to contract with providers who wish to deliver Affordable Rent units without Homes England funding.	Aff. Rent	NB/A
Single Land Programme	The Single Land Programme, with effect from 1 April 2015, consists of existing commitments taken from the amalgamation of historical Homes England land programmes (Accelerated Land Disposal, Economic Assets and Property and Regeneration) and transferred sites from across Government under the Public Sector Land Transfer model. It is a self-financing programme funded through the recycling of receipts supporting Government's targets on housing (including starter homes), public sector land release and asset disposals.	Social Rent /Int. Rent / AHO / Market	NB/A
The Home Building Fund – Short Term Fund	The Home Building Fund is government finance to increase the number of new homes being built in England. Applications are being accepted from private sector businesses to build new homes or prepare sites for development.	Social Rent /Int. Rent / AHO / Market	NB/A
<u>Traveller Pitch</u> <u>Funding 3</u>	The Traveller Pitch Funding programme was announced as part of the Government's Spending Review 2010 and delivered 515 new traveller pitches by 31 March 2015 (outside London). In addition, 386 refurbished pitches were delivered.	Aff. Rent / AHO	NB/A

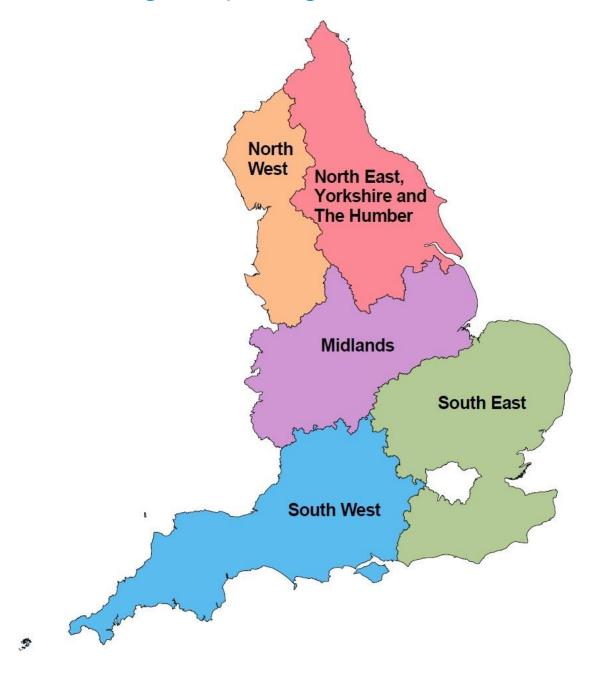

¹ Tenure indicates whether units delivered under each programme are allocated to Affordable Rent (Aff. Rent), Social Rent (Social Rent), Intermediate Rent (Int. Rent), Affordable Home Ownership (AHO), including Shared Ownership and Rent to Buy, or Open Market (Market).

² New supply is either a new build (NB) or an acquisition (A) from existing non-affordable stock. Grant under some programmes can be used to deliver either newly built units or to fund acquisitions.

³ The programme is part of the Affordable Homes Programme (AHP) 2011-15. The majority of delivery through the AHP 2011-15 and other associated programmes will be made available as Affordable Rent with some Affordable Home Ownership and, in some limited circumstances, Social Rent. Intermediate Rent may not be delivered by the AHP 2011-15 unless it is through Mortgage Rescue or pre-existing commitments from the National Affordable Housing Programme.
