

Application for a permit under article 35(1)(c) of the Invasive Alien Species (Enforcement and Permitting) Order 2019

1. Applicant: Tel No: Email address:	2. Exporter (where applicable): Tel No: Email address:
3. Importer (where applicable): Tel No: Email address:	4. Location at which specimens will be kept:
5. Species (scientific name):	6. Species (common name):
7. CN code:	8. Description:
9. Net mass:	10. Quantity:
11. Reason for derogation application <input type="checkbox"/> Import <input type="checkbox"/> Transit <input type="checkbox"/> Keeping <input type="checkbox"/> Breeding <input type="checkbox"/> Transporting <input type="checkbox"/> Using or exchanging <input type="checkbox"/> Allowing to reproduce, growing or cultivating	

12. Provide details of the purpose of this application:

13. Provide details of the measures to prevent the species escaping or spreading from the contained holding facilities or during transportation:

14. Provide an assessment of the risk of escape of the species and any risk mitigation measures to be put in place:

15. Provide details on the surveillance system and contingency plan to address possible escape or spread, including an eradication plan where necessary:

16. Provide details of the relevant national legislation that applies to your establishment and the

operations to be carried out:

17. Confirmation that the following conditions will be met (please provide evidence to support the statements you have ticked) :

- The species will be kept in and handled in a contained holding
- The activity will be carried out by qualified personnel
- Transport to and from the contained holding will be carried out under conditions that exclude escape of the species
- Where the species are animals, they will be marked or otherwise effectively identified where appropriate, using methods that do not cause avoidable pain, distress or suffering
- The risk of escape, spread or removal will be effectively managed
- The species will be subject to a surveillance system that remains in continuous operation
- A contingency plan will be in place to address the escape or spread of the species, which will include a plan for their eradication
- Reasonable requests for access will be granted to an inspector appointed by the Secretary of State to check that conditions attached to the permit are being met

I hereby apply for the permit indicated above.

I declare that all the particulars provided are to the best of my knowledge and belief correct.

Name of applicant	Signature	Place and date

Instructions and explanations

This application form is for a derogation under article 35(1)(c) of the Invasive Alien Species (Enforcement and Permitting Order) 2019. Article 35(1)(c) allows permits to be issued for species of Union concern in exceptional circumstances, for reasons of compelling public interest, which may include social or economic reasons.

Complete the document in capital letters. To indicate positively any option, tick or mark the sign. Clearly cross out options or whole numbered boxes that are not relevant.

Box 1. Full name and address of the establishment.

Box 2. Full name and address of the exporter, where applicable.

Box 3. Full name and address of the importer, where applicable.

Box 4. Full name and address of the location where the specimens will be kept.

Box 5. This refers to the scientific name of the species of Union concern.

Box 6. This refers to the common name of the species of Union concern.

Box 7. This refers to the codes of Combined Nomenclature (CN) as provided by Council Regulation (EEC) No. 2658/87¹. Please refer to the Annex for details of the appropriate CN code for the species.

Box 8. Precise description of the consignment or stock and the specimens it contains

Box 9. Total net mass of consignment (or stock) in kg. It may be omitted if information is provided in Box 10.

Box 10. Number of specimens in the consignment. It can be used when the quantity is best expressed in discrete units. It may be omitted if information is provided in Box 9.

Box 11. Note that it is not possible to obtain a permit for placing on the market or release. Indicate for which of the restrictions listed in Schedule 1, Table 1 to the Invasive Alien Species (Enforcement and Permitting Order) 2019 the derogation is being applied for. This may be more than one.

You do not need to apply for a permit to transport a species solely for animal welfare purposes e.g. to a veterinary surgeon, as long as they are transported in such a manner as to prevent their escape.

Box 12. Indicate the purpose to which the permit application relates. You should explain why you consider that there are exceptional circumstances, for reasons of compelling public interest. You may append additional information to this application.

Box 13. Provide details on all measures that you will employ to prevent the specimens from escaping or spreading from the contained holding facilities or during transport. You may append additional information to this application. If the permit is required for a specified period, then this should be set out.

Box 14. Provide an assessment of the risk of escape of the specimens from the proposed contained holdings. You should provide evidence to support this assessment, including all

¹ Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff (OJ L 256, 7.9.1987, p. 1).

risk mitigation measures that will be put in place. You may append additional information to this application.

- Box 15. Provide details of the surveillance system that will be in operation to monitor the specimens. Provide details of the contingency plan to be put into effect to address the escape or spread of the specimens. Where appropriate, this should include a plan for the eradication of the specimens. You may append additional information to this application.
- Box 16: Provide details of all relevant national legislation pertaining to your establishment and the proposed operations. You may append additional information to this application.
- Box 17. Indicate that the mandatory conditions set out under Schedule 1, Table 2 to the Invasive Alien Species (Enforcement and Permitting Order) 2019 will be met.

Specimens will be considered to be kept in contained holding if the following conditions are fulfilled:

- the specimens are physically isolated and they cannot escape or spread or be removed by unauthorised persons from the holdings where they are kept;
- cleaning, waste handling and maintenance protocols ensure that no specimens or reproducible parts can escape, spread or be removed by unauthorised persons;
- the removal of the specimens from the holdings, disposal or destruction or humane cull is done in such way as to exclude propagation or reproduction outside of the holdings.
