No:

EXPORT OF ANIMAL FEED CONTAINING MILK PRODUCTS WITH OR WITHOUT FISHERY
PRODUCTS TO VIETNAM

HEALTH CERTIFICATE

EXPORTING COUNTRY: UNITED KINGDOM

FOR COMPLETION BY: OFFICIAL VETERINARIAN

I Identification of product(s)

- (a) Description of the products:
- (b) Type and number of packages:
- (c) Net weight of consignment:
- (d) Container and/or seal number:

II Origin of products

- (a) Name and address of exporter:
- (b) Name, address and approval number of premises of manufacturer:

III Destination of products

(a) Name and address of consignee:

(b) Means of transportation (flight no, vessel name, vehicle registration number):

IV Health information

I, the undersigned, certify that:

(a) the product described above:

1. does not contain materials from ruminant animals, other than milk products;
2. was made using milk which was collected from healthy animals and processed as follows to inactivate pathogenic organisms:

EITHER

- *2.1. subjected to heat treatment of at least 72°C for 15 seconds or an equivalent treatment;

OR

- *2.2 subjected to an initial pasteurisation (at least 72°C for at least 15 seconds) followed by one of the following:

either

- *i. a second heat treatment by high temperature pasteurisation (at least 72°C for at least 15 seconds), UHT (at least 135°C for at least 1 second) or sterilisation so as to produce a negative reaction to the peroxidase test;
- or**
- *ii. a drying process which includes a heat treatment with an equivalent effect to the above treatments;
- or**
- *iii. treatment whereby the pH is lowered to below 6.0 and held there for at least one hour;

3. **EITHER**

- *3.1 does not contain any fishery products;

OR

- *3.2 was made using fishery ingredients that:

- i. were obtained from
 - aquatic animals, and parts of such animals, except sea mammals, which did not show any signs of diseases communicable to humans or animals;

and/or

- animal by-products from aquatic animals, except sea mammals, originating from establishments manufacturing products for human consumption;

- ii. have been subjected to the following industrial heat treatment which is designed to inactivate pathogenic organisms:

4. complies with applicable veterinary and sanitary hygiene standards in the United Kingdom and therefore:

4.1 does not present a risk of spreading animal diseases;

4.2 does not contain substances that are harmful to human or animal health;

5. is intended for feeding to piglets;

(b) no other animal-derived materials, apart from the ingredients mentioned at paragraphs IV(2) or IV(3), have been added to the product.

* Delete as applicable
