Family Court Statistics Quarterly

Data visualisation tool

13 December 2019

Introduction

The Family Court Statistics Quarterly (FCSQ) presents key statistics on activity in the family courts of England and Wales with accompanying commentary and analysis. The bulletin provides a summary overview of the volume of cases dealt with by these courts over time, with statistics also broken down for the main type of case involved.

As part of our wider work on improving data visualisation and accessibility, we have developed a data visualisation tool which sits on top of the data underlying the publication and its associated csv files. The tool provides users with the capability to:

- interrogate the published information at a lower level of detail, e.g. by region; and
- access and produce a range of charts specific to their user requirements.

The data visualisation tool

The tool can be found here:

<https://public.tableau.com/profile/moj.analysis#!/vizhome/FamilyCourtStatisticstool2019Q3/Frontpage>

How to send us your feedback

We welcome any comments you have about the data visualisation tool.

Enquiries and feedback should be directed to Sarah Steadman at the address below.
