

# EMPLOYMENT TRIBUNALS

**Claimant:** Mr S Case

**Respondent:** Denovo Design Limited

## JUDGMENT

The claimant's application dated 18 November 2019 for reconsideration of the judgment sent to the parties on 9 November 2019 is refused.

## REASONS

1. There is no reasonable prospect of the original decision being varied or revoked.
2. The claimant made an unequivocal written request to withdraw his claim by email dated 19 September 2019. This was in response to a request that the claimant quantify his claim, the respondent having not presented a defence to the claim.
3. The claimant's withdrawal email is set out in full below as follows:

*"Following on from your letter dated 14 September 2019 regarding the above case number and requesting further explanation of the monies due, I would like to withdraw this claim.*

*Could you please confirm that all parties will receive confirmation of this in writing."*

4. Such a withdrawal cannot be retracted as the claimant now requests. Accordingly, a reconsideration of the dismissal judgment that followed that withdrawal could not reverse the withdrawal of the claim. As such, a reconsideration of the judgment would not be in the interests of justice.
