Section 1

Introduction

1. Supply Estimates are the means by which the Government seeks authority from Parliament for its own spending each year. A full description of Supply Estimates was included in *Central Government Supply Estimates 2019-20: Main Supply Estimates* (HC 2154) presented to Parliament on 9 May 2019.

Supplementary, Revised and New Estimates

2. In a financial year the Government may need to ask Parliament for additional resources, capital and/or cash by means of a Supplementary Estimate. There is one scheduled opportunity for departments to amend departmental budgets and Estimates, the details of which are set out in this booklet.

3. Revised Estimates are rare, but they may be presented in the summer to replace corresponding Main Estimates before Parliament formally approves them. Revised Estimates normally reduce the amount sought in the original Estimate or vary the way in which it is spent. New Estimates may also be introduced, for example to reflect a new entity, and are usually presented at the same time as the Supplementary Estimates.

Out-of-Turn Supplementary Estimates

4. In addition, Out-of-Turn Supplementary Estimates may be presented at any time during the year whilst Parliament is sitting. This is only allowed in the most exceptional circumstances, where urgent additional provision is needed at short notice and where this cannot wait for a normal Estimates round.

Total Estimates to date

5. For the current year, Main Estimates were presented to Parliament on 9 May 2019 (HC 2154). This booklet sets out the request for changes since that publication.

Original provision, changes and revised Supply

6. **Table 1** below shows the total voted Supply provision sought for 2019-20 in the Main Estimates, the changes sought in the Supplementary Estimates and the revised plans.

† Numbers may not add up in the table due to rounding.

†† Figures for the independent Estimates are provisional. Check the published Supplementary Estimates 2019-20 for these bodies.

††† This measure of DEL includes grants paid to Academies which do not form part of DfE's RDEL and CDEL budgetary control totals set by HMT. See tables 3 and 5 for DfE's full budgetary DEL limits as set by HMT which include the net spending of Academies.

7. There are 48 Supplementary Estimates for central government departments, seeking the changes set out in **Table 2**, in this booklet. In addition, independent bodies may present their own booklets.

8. The main aggregate for public expenditure is **Total Managed Expenditure (TME)**, which includes Departmental Expenditure Limits (DEL), for which firm four year plans were set in the 2015 Spending Review and Autumn Statement (Cm 9162) in November 2015, and Annually Managed Expenditure (AME), which is subject to annual review as part of the Budget process. These definitions are explained in more detail in Chapter 1 of the *Public Expenditure Statistical Analyses 2019* (CP 143) and section 1 of the Main Estimates 2019-20 (HC 2154).

9. The main elements of DEL and AME that are not funded through the Supply Estimates are central government expenditure funded directly from other sources, (e.g. the National Insurance Fund).

In-year controls

10. Parliament votes limits on:

- The net resource DEL requirement;
- The net capital DEL requirement;
- The net resource AME requirement;
- The net capital AME requirement;
- The net non-budget requirement; and
- The net cash requirement for the Estimate as a whole.

11. The operation of in-year controls for 2019-20 was explained in Section 1 of HC 2154. Changes to Resource DEL, administration budgets and Capital DEL, as a result of the Supplementary Estimates are summarised in **Tables 3, 4 and 5**.

12. **Table 6** compares the present plans (voted spending only) for 2019-20 with the forecast outturn for the first six months of the year for each Estimate.

Amendments to ‘Clear Line of Sight’ (Alignment) Reforms

13. The Clear Line of Sight (Alignment) reforms outlined in Cm 7567 of March 2009 simplified the government's financial reporting to Parliament by aligning, as far as possible, the recording of government spending in Supply Estimates with departmental budgets and accounts. The reforms were approved by the House of Commons following a debate and vote in the House in July 2010.

14. As mentioned in HC 2154, where complete alignment of Parliamentary controls, departmental budgets and resource accounts is not practical, it is necessary for expenditure items to be reported differently in different documents. From 2016-17, the Department for Education's (DFE) Estimate and accounts will not wholly align to the budgets set by the Treasury. DFE's Estimates and Accounts now include the grant paid to Academies by DFE within the Estimate's Resource DEL and Capital DEL controls. The actual spending of Academies will instead be reported separately to Parliament on an Academic year basis. DFE's budgeting controls as set by the Treasury, will continue to include the spending of Academies on a financial year basis whilst these entities remain classified to the central government sector. DFE's Resource DEL and Capital DEL budgets as set by the Treasury (which include the spending of Academies) can be viewed in Tables 3 and 5 of this publication, whilst DFE's Resource AME budget can be viewed in Part III Note A of DFE's Estimate. The figures in DFE's Estimate are consistent with those presented in the 2019-20 Main Estimates (HC 2154).

Parliamentary procedure

15. Supplementary Estimates seek funds for expenditure in addition to, or a reduction in, that sought in previous Supply Estimates in the same financial year. They may be presented to:

- seek authority, and additional resources, capital and/or cash as necessary, for any new services; and
- increase or decrease the provision for existing services.

16. The House of Commons has an opportunity to debate and vote on Supplementary Estimates (and where applicable New Estimates), followed by detailed examination by departmental Select Committees. This process is described more fully in Section 3 of HC 2154.

Format of Supplementary Estimates

17. Each Supplementary Estimate is produced in a standard format and consists of an introduction, Part I, Part II and Part III. The format and organisation of Estimates is explained more fully in section 2 of HC 2154.

Introduction

18. Each Supplementary begins with an introduction which explains why changes to the existing provision are being sought.

Part I

19. Part I of each Supplementary Estimate states, as necessary, the changes sought to resource DEL, capital DEL, resource AME, capital AME, non-budget expenditure and the net cash requirement (as relevant) for the financial year. It also reproduces the 'ambit', which is the formal description of all the expenditure and income (not just any new services) to be financed from the Estimate. Where an ambit has been amended since the publication of the Main Estimate, the new services or income will be identified by the insertion of an asterisk (*) before the additional text.

Part II

20. Part II of the Supplementary Estimate contains three tables. The first table identifies the sections within each budgetary limit where changes to resources and capital are being proposed and also shows movement in cash. This is followed by a reproduction of original Main Estimate Part II table showing the revised subhead detail, including the additional provision sought for each subhead (including unchanged subheads) as a result of the Supplementary Estimate. The third table (Part II: resource to cash reconciliation) provides a reconciliation between the net resource total and the net cash requirement (NCR).

Part III – other statements and notes

21. Part III of the Supplementary Estimates contains a number of notes. Each Supplementary Estimate will contain at least:

- **Part III: Note A** - the Statement of Comprehensive Net Expenditure (SoCNE) and Reconciliation table, either restated or updated from that appended to the Main Estimates. Individual Select Committees may, of course, request additional department-specific explanatory information to supplement this material;
- **Part III: Note B** - an Analysis of Departmental Income (resource and capital), which is being used to offset gross spending;
- **Part III: Note C** - an analysis of extra receipts payable to the Consolidated Fund;
- **Part III: Note D** - an Explanation of the Accounting Officer responsibilities.

22. The Supplementary Estimates may be accompanied by further notes providing additional information to Parliament about the specific nature of the department's plans, details of the grants-in-aid (G-in-A) paid to Arm's Length Bodies (ALBs), changes in accounting policies, etc, where relevant.

Part III: Note J - Staff Benefits

For the Financial Year 2019-20, the Top Level Budget (TLB) holders have delegated authority to make special bonus payments to civilian staff, to either an individual or to a team, in recognition of exceptional performance in a one-off task/situation, or for achievement of a significant personal development activity via the In-Year Reward Scheme. Awards will not exceed £5,000 per person during a financial year and there is no guarantee of an In-Year Reward.

TLB holders are also able to authorise non-cash awards via the Thank You Scheme, which include such items as retail outlet or theatre ticket vouchers. The value of an award will not exceed £100 per individual and nor will they in total exceed 0.1% of the civilian pay bill for the TLB.

In addition to the financial rewards is the Business Unit Commendations for all civilian employees in broader banded grades, retained grades, skill zones and analogue grades and military personnel. Business Unit Commendations exist as a means of non-pay reward to ensure that exceptional effort undertaken either individually, or collectively, is recognised by top-level management and made publicly known to colleagues. This is typically done by means of a presentation and certificate. Business Unit Commendations and related Commendation Schemes vary from organisation to organisation within the Department.

The likelihood of the experimental establishments owned by Dstl transferring outside the public sector is considered remote, and the costs associated with such liabilities that could arise due to a transfer of ownership or significant change of use are considered unquantifiable.	Unquantifiable
50. The Guarantee would not guarantee payment to the NAAFI Pension Scheme of NAAFI's obligations, as that would require the maintenance of NAAFI as an on-going entity. Rather, the Guarantee would operate as a "pay-as-you-go" guarantee, and guarantee the Trustees' ability to pay full benefits to members.	146,400

None of these is a contingent liability within the meaning of IAS 37 since the likelihood of a transfer of economic benefit in settlement is too remote.

Indemnity granted in relation to Cyclamen programme up to a maximum €10m. (Minute dated 17 July 2009).	8,687

Indemnities

Home Office Central London Accommodation Strategy (HOCLAS) (Minute dated 23 January 2002).

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>The Department is the actual or potential defendant in a number of actions regarding alleged clinical negligence. There is a large degree of uncertainty as to the Department's liability and the amounts involved. Possible expenditure may be estimated at £49.3 billion, although £47.5 billion relating to the Clinical Negligence Scheme for Trusts would be expected to be met by payments from NHS Providers.</p>	Unquantifiable
<p>The Department has undertaken to meet the cost of compensation payments arising from injury claims in relation to the immunisation of voluntary donors with specialised immunoglobulin.</p>	Unquantifiable
<p>Public Health England maintain a stockpile of medical countermeasures for responding to Chemical, Biological, Radiological and Nuclear (CBRN) incidents. Some of these products are unlicensed because no licensed alternatives are available in the UK. Similarly Public Health England also hold stocks of unlicensed anti-venoms and anti-toxins. If any recipients were to suffer an adverse reaction to using these products Public Health England would be liable. The associated contingent liability is unquantifiable.</p>	Unquantifiable
<p>Care Quality Commission is subject to an ongoing HMRC compliance check in relation to employees who may have more than one permanent workplace. This may result in a backdated benefit-in-kind liability relating to travel expenses paid or reimbursed to these employees. At 31 March 2019 it was unclear how employees meet the criteria for having more than one permanent workplace, and therefore it has not been possible to quantify a possible liability.</p>	Unquantifiable
<p>The Derby Teaching Hospital Foundation Trust has a potential liability in relation to equipment purchases within the Managed Equipment Service contract held with Althea. Further details of this liability can be found in the Annual Report and Accounts of the Foundation Trust.</p>	20,000
<p>NHS Digital's contingent liabilities amount to £16,500,000 (31 March 2019: £26,000,000), and relate to the estimated termination benefits in relation to Wave 3 of the Org2 change programme. The anticipated cost for the liability has been derived from the Waves 1 and 2 outturn, but the future liability is dependent on the assessment process. The waves are expected to be completed by spring 2021, although this is contingent on the availability of funding.</p>	16,500
<p>Liabilities for NHS Continuing Healthcare, a package of health and social care arranged and funded solely by the NHS for a person aged 18 or over to meet physical or mental health needs which have arisen as a result of disability, accident or illness. Where an individual has both health and social care needs, but they have been assessed as having a 'primary health need' under the National Framework for NHS Continuing Healthcare and NHS funded Nursing Care, the NHS has responsibility for providing for all of that individual's assessed needs, both the health and social care.</p>	14,581
<p>Notified legal claims relating to NHS England, predominantly for contract and procurement dispute cases.</p>	8,966

Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

Accounting Officer: Peter Schofield

In accordance with Chapter 3 of Managing Public Money (issued by the Treasury), the following individuals have been appointed as Accounting Officers of the department's ALBs.

ALB Accounting Officers:

Sara Albon	Health and Safety Executive
Helen John	Disabled People's Employment Corporation (GB) Ltd (in members voluntary liquidation)
Charles Counsell	The Pensions Regulator
Antony Arter	The Pensions Ombudsman
Loveday Ryder	BPDTS Ltd
Caroline Siarkiewicz	Money and Pensions Service

Peter Schofield has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FRM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

In accordance with Managing Public Money requirements, the relationship between the Principal Accounting Officer and Additional Accounting Officer(s) together with their respective responsibilities, is set out in writing. Similarly, the relationship between the Principal Accounting Officer and the ALB Accounting Officer(s) is set out in writing.

Part III: Note J - Staff Benefits

For the financial year 2019-20 budget holders have delegated authority to award reward vouchers to staff under the terms of the Department's Reward and Recognition Scheme. The vouchers are for a range of well-known retail outlets and are given in recognition of valuable or exceptional contributions to business performance, as well as to recognise the importance the Department places on the loyalty and commitment of employees. Individual awards will not exceed £150 and, in total, the expenditure for non-consolidated awards, including Reward and Recognition, will not exceed 0.65% of the DWP paybill.

Childcare (Salary Sacrifice) Schemes are closed to new joiners but the Department still operates a scheme for existing employees who opted into the scheme prior to its closure. This lets staff vary their contract of employment to sacrifice part of their salary (from £1 to £243 per month) in exchange for childcare vouchers. Budget holders have delegated authority to provide staff with childcare assistance, the availability, method and amount of assistance is at the discretion of the budget holder.

From April 2019, the Department began operating a Cycle to Work (Salary Sacrifice) Scheme. The scheme allows staff to vary their contract of employment to sacrifice part of their salary and in return, are provided with the loan of a bike and cycling equipment. Staff are able to use the bike and equipment in their spare time as well as for cycling to work. The salary sacrifice can be up to a maximum of £1,000.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>European Social Fund repayments The ESF audit authority is required to provide opinions on both the final 2007-13 ESF programme declaration issued by the ESF certifying authority and the 2014-20 ESF programme. This is largely based on the amount of error found during checks of claims submitted by the department, as managing authority of the ESF in England and Gibraltar. If this exceeds the EU defined 2% tolerance error rate the opinion is qualified by the ESF audit authority, with the risk that the EU can impose a financial correction. The 2007-13 programme did not exceed the 2% error threshold in the 2016 Annual Control Report (ACR) and closure declaration. In accordance with commission guidance the audit authority gave an unqualified opinion. However, until the 2007-13 ESF programme is finally closed (and discussions with the Commission are ongoing) the department will not know the exact extent of any financial corrections imposed. For the 2014-20 programme the error rate for 2016-2017 was 0.093% and 2017-2018 was 0.117%, therefore the opinion of the audit authority was unqualified (no breach of the EU's 2% tolerance level). The indicative residual error rate for 2018-2019 is currently 1.678%.</p>	Unquantifiable
<p>Compensation claims Compensation payments may become due as a result of claims against us by staff and members of the public. Claims relate to employment tribunal, personal injury and Civil Service Appeals board cases. There is significant uncertainty around the estimated liability and the timing of payments. This uncertainty can fluctuate based on factors such as medical evidence received, witness statements and whether claims proceed to trial or are settled early, therefore it is not practical to disclose an estimate of the financial effect or the timing of any outflow.</p>	Unquantifiable
<p>The Rent Service employee pensions The Rent Service transferred from us to the Valuation Office Agency on 1 April 2009. The Rent Service employed around 400 staff, who were members of the Local Government Pension Scheme, following the transfer they could continue to participate in the scheme. Whilst the scheme is currently balanced, if there is a pension deficit we will be liable to meet the shortfall, it is not practical to disclose an estimate of the financial effect or the timing of any outflow.</p>	Unquantifiable
<p>Compensation recovery We recognise recoveries from insurance companies for compensation claims made by benefit recipients. Once the recovery is made the insurance company has the right to mandatory reconsideration or appeal within a set time period. If the reconsideration or appeal is successful recoveries are refunded to the insurance company. Analysis of existing data suggests that it is reasonable to recognise a contingent liability of £5 million for successful mandatory reconsideration or appeals.</p>	AME £5,000
<p>Judicial review, legal cases and appeals The legal cases (judicial reviews and appeals) included in this note all relate to possible obligations where the department is facing legal challenge to the policy behind the legislation through the courts and the outcomes depend on the court rulings. Disclosure of the details of the cases are not provided as, in accordance with IAS 37 (paragraph 92), the department considers that the disclosure of values for any legal contingent liabilities could be expected to seriously prejudice on-going litigation.</p>	Unquantifiable
<p>Pension Protection Fund (PPF) compensation The FAS provision does not include any increase to FAS compensation payable to individuals if the judgment from the European Court of Justice follows the opinion of its Advocate General (given in April 2018) in respect of a directly effective minimum individual level of insolvency protection. This judgement relates to PPF compensation and it is not possible to establish the extent of any financial impact on the FAS provision until judgment has been handed down and there is clarity on the scope of any further compensation obligations.</p>	Unquantifiable

Part III: Note K - Contingent Liabilities (*continued*)

Nature of liability	£'000
<p>HMG's Guarantee for EU-funded projects The agreement at the December 2017 European council that the UK will continue to participate in all EU programmes during the remainder of this multiannual financial framework to the end of 2020 supersedes guarantees previously made by the Chancellor provided an overall EU exit deal is reached. In accordance with the Government Financial Reporting Manual (FRM), these guarantees need to be recognised as contingent liabilities in department's accounts until the outcome of EU exit negotiations are completed. The activity in scope within DWP includes the department's role as managing authority for the European Social Fund (ESF) and in management of the Employment and Social Innovation Fund (EaSI). The scale of potential liability is not quantifiable at this point.</p>	Unquantifiable

Introduction

The voted DEL and Total Net Budget in Parts I and II of this Estimate include grant paid to Academies which is voted by Parliament. Part III: Note A shows how, by making adjustments, including removing these grants and instead adding spending by Academies, the totals voted by Parliament can be reconciled to the budgetary spending limits controlled by HMT and shown in Table 3. The grant paid to Academies and spending of Academies is unlikely to be the same in any given year. This is because, spending can include items such as depreciation that do not require cash, as well as any spending from Academy reserves. Reserves are built from other income streams available to academies, plus any unspent grant from previous years.

This Supplementary Estimate is required for the following purposes:

Part III: Note I - Gifts

Given wider exceptional circumstances, the Department for Education will purchase the Kensington Centre (Wornington Road, London) and provide a 125-year lease to the Further Education institute formed by a merger between Kensington and Chelsea College (KCC) and Morley College. The Secretary of State for Housing Communities, and Local Government will be the named freeholder/lessor in each instance.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Contingent liabilities in connection to Private Finance Initiative (PFI) contracts to Academies. These contingent liabilities are a result of the Department providing an indemnity to the local authority for potential costs on buildings they own, with existing PFI arrangements, which will be used by the academies. This type of indemnity is considered to be low risk and is only a feature of the academies programme in very specific circumstances. These contingent liabilities only arise where an academy is using a local authority building with an existing PFI contract.	9,250,000
A guarantee to Local Government Pension Scheme (LGPS) to meet the pension deficit if an Academy Trust closes.	13,600
Tottenham UTC - indemnity to cover the cost of the 35 year lease.	12,500
The Department has entered into a number of tenant default agreements which give rise to a contractual obligation to pay monies to the landlord up to a fixed cap in certain circumstances where the Free School tenant is in breach of its lease.	2,901
To Provide an indemnity of up to £2 million to protect Inspiration Trust (Re: Great Yarmouth High School) against potential closure costs of the academy in the event that the Foundation withdrew consent for the academy to operate from the current site.	2,000
Indemnity for REAch2 Colchester project for costs dependent on the planning permission decision by the local authority.	1,100
Turing House School - an indemnity has been provided in relation to the rent deposit.	470
Indemnity for project costs if the Central Ipswich Free School project is aborted.	300
Free Schools Group for Principal designates. The majority of contingent liabilities recorded by Free School Group currently relate to the potential costs that maybe incurred resulting from the engagement of staff prior to the opening of a Free School e.g. head teacher /deputy head teacher who will, in many cases have had to tender their resignation at an existing school to take up their post in the Free School. The Department has agreed to underwrite the salaries of these staff for up to two terms in the event that the Free School does not open as planned. Each potential liability is calculated on an individual basis for each project. Once the Free School opens the liability will expire.	770
In respect of commercial lease of Free Schools Norwich.	110
Statutory Indemnity in relation to the Office of the Schools Adjudicator outlined in Paragraph 7 of Schedule 5 to the SSFA 1998.	Unquantifiable
As a result of entering into a PFI arrangement for the building of schools (PF2) there are a number of contracts in place which have clauses that could give rise to liability for the Department. These are considered by the Department to be remote and unquantifiable as they relate to breach of contractual conditions.	Unquantifiable
As a result of entering into contracts on site purchases, the Department is subject to a number of overage clauses. These are considered to be remote as they relate to changes in contractual arrangements.	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>The Department for Education has contracted a charity to manage the Junior Individual Savings Account (JISA) scheme on its behalf. Using an initial £200 payment from the Department, the contractor opens and manages JISAs on behalf of looked after children while they remain in care. The government made a commitment in 2011 to provide £200 to set up a JISA for each child in care across the UK. LAs have identified around 14,000 young people who left care before a JISA could be opened for them, of which around 8,000 have already claimed and received their £200 payments in lieu, leaving around 6,000 potential retrospective claims which equates on paper to a potential liability of up to £1.2m.</p>	1,286
<p>Coal Authority - To carry out ground investigation for a permanent site for Coseley Tech Primary (CTP). The permit is nil cost.</p>	Unquantifiable
<p>The permanent site for Khalsa Academy Wolverhampton's (KAW) will be delivered in September 2018 subject to entering an unlimited indemnity with Canal & Rivers Trust (CRT) to allow the drainage connection.</p>	Unquantifiable
<p>Following the closure of HEFCE and the creation of OfS, the Department is acting as guarantor for the handful of employees transferring from HEFCE to OfS who are members of the Universities Superannuation Scheme (USS), which has transferred from HEFCE to OfS as part of the property and staff transfer. This was a condition of OfS' admission to the USS and allows staff transferring from HEFCE to continue to participate as employees of OfS. In the event of a transfer or winding up of OfS, the Department will guarantee that these pension liabilities will be covered by the successor body, or by the Department in the event that no other body assumes the OfS' functions.</p>	5,000
<p>Student Loan Sale: The sale of student loans necessitated warranties and indemnities to secure interest and obtain value for money from investors. These contingent liabilities are in respect of:</p> <p>a) a warranty to provide investors compensation for policy changes which reduce cash flows to investors. This is because the terms of the loans remain within Government control, and there is nothing investors can do to influence this. The liability will exist for the life of the securities. This means it will be expected to expire by 2036. The likelihood of crystallisation is low.</p> <p>b) the need to repurchase all of the loans as a remedy for investors if:</p> <p>i) Collection of repayments for the sold loans through the UK tax system by HMRC ceased;</p> <p>ii) RPI used to calculate the interest rate of the loans was abolished without a substitute being put in place;</p> <p>iii) There was a problem with the collection of loan repayments that could not be remedied for three consecutive annual payment dates; or</p> <p>iv) Legislation is passed which means the Consumer Credit Act (CCA) / FSMA applies to the loans and the CCA low interest exemption applies.</p> <p>The likelihood of any of these scenarios materialising is very low.</p> <p>c) the indemnity given to investors to cover potential losses if a "servicing event" is triggered. Investors are not able to change the servicer (unlike for a typical commercial transaction) and therefore an indemnity is their only recourse in the event that the servicing is not in line with the contractually agreed standard. The liability is expected to be live for the life of the securities, i.e. up to around 30 years, and will reduce over time. The likelihood of crystallisation is low.</p>	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>d) indemnities given to the Joint Lead Managers if they (or their employees, directors or affiliates) suffer any loss as a result of misrepresentation, misleading statement or omissions or breach of duty by Government. All of the liabilities are expected to be live for the life of the loans, i.e. up to around 30 years. The likelihood of crystallisation is low.</p>	
<p>e) Indemnities have also been provided to certain other parties connected to the securitisation transaction to cover any loss from the Department (acting as Master Servicer) failing in its performance of certain duties. This includes acting with negligence, fraud, wilful default, infringement of intellectual property rights, failing to provide a remedial plan or a cure within a certain timeframe.</p>	
<p>Contingent liability in relation to members of the Student Loans Company Limited Retirement and Death Benefits Scheme, who join the Civil Service Pension Scheme in Financial Year 2019-20, and have previously accrued pension benefits in the SLC Scheme. The Department has a contingent liability to the Civil Service Pension Scheme for the incremental costs of uprating accrued benefits by the Consumer Prices Index (CPI), if a decision is taken in future to uprate benefits in the Civil Service Scheme by less than CPI.</p>	27,000

Part III: Note F - Accounting Policy changes

This Supplementary Estimate includes two sums for Prior Period Adjustments (PPA). The first adjustment relates to recognising £236,416,000 relating to Capital DEL cumulatively not recognised in the Department's outturn figure from 2016-17 to 2018-19. This is broken down as follows:

Change in budgets and non-budget	Increases in Outturn £'000
2016-17 – Capital DEL	
Government as a Shareholder (ALB) net	29,754
2017-18 – Capital DEL	
Government as a Shareholder (ALB) net	65,858
2018-19 – Capital DEL	
Government as a Shareholder (ALB) net	140,804
Overall movement	236,416

This adjustment to the Department's outturn is as a result of recognising the capital spend in an arm's length body following its consolidation into the Departmental boundary from 1 April 2016. Had this expenditure been recognised in the Department's outturn for the relevant years, this would not have resulted in a control total breach in any relevant year.

The second adjustment relates to an audit adjustment for the implementation of IFRS 9 – Financial Instruments in one of the department's arm's length bodies (ALBs). The audit adjustment results in changes to the opening balance of the ALB's investments and classification of movements in the investments in the Statement of Financial Position and Statement of Comprehensive Income and Expenditure. The Department's comparative numbers for 2018-19 in the 2019-20 Departmental Annual Report and Accounts have been restated along with the 2018-19 outturn. Further details of the restatement are given in the Department's 2019-20 Annual Report and Accounts. Overall the impacts are as follows:

Change in budgets and non-budget	Increases/(decrease) in Outturn £'000
2018-19 – Capital AME	
Government as a Shareholder (ALB) net	104,256
2018-19 – Resource AME	
Government as a Shareholder (ALB) net	(39,661)
2018-19 – Resource DEL	
£10k increase in Admin	
decrease of (£1,255k) Programme	
Government as a Shareholder (ALB) net	(1,245)
Overall movement	63,350

Had these adjustments been recognised in the Department's outturn in 2018-19, this would not have resulted in a control total breach.

Part III: Note G - Expenditure resting on the sole authority of the Supply and Appropriation Act

Data usage indemnities	
– An indemnity has been provided to Pöyry PLC relating to the use of their yield curve data for the sale of Green Investment Bank. The core Department has indemnified Pöyry PLC for any liability that occurs as a result of using their information in the sale process that may be brought by bidders in relation to the transaction.	Unquantifiable
Legal costs	
– A contingent liability exists in relation to ongoing legal cases. The cost is dependent on the outcome of cases which currently cannot be reliably estimated.	Unquantifiable
– Under an agreement with the Financial Reporting Council (FRC), if the amount held in their legal costs fund falls below £1 million in any year, an additional grant will be made to cover legal costs subsequently incurred in that year.	Unquantifiable
Indemnities against personal liability	
– Indemnities have been given to the directors appointed by the core Department to wholly owned subsidiaries. These indemnities are against personal liability following any legal action against the companies.	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
– Indemnities have been provided to directors appointed to the Low Carbon Contracts Company Limited and Electricity Settlements Company Limited against personal liability following any legal action against the companies, to be triggered only after all other means have been excluded i.e. company and directors' insurance (cover limit of £100 million) and recovery of costs through their levies.	Unquantifiable
– Indemnities have been provided to the Low Carbon Contracts Company Limited and Electricity Settlements Company Limited in respect of their officers, to be triggered only after all other means have been excluded i.e. company and directors' insurance (cover limit of £100 million) and recovery of costs through the levies.	Unquantifiable
– Indemnities have been provided to trustees of the Nuclear Liabilities Fund appointed by the Secretary of State against personal liability in the event of legal action against the Fund.	Unquantifiable
– Indemnities have been provided to trustees of the Nuclear Liabilities Fund appointed by British Energy (now EDF Energy) against personal liability in the event of legal action against the Fund, to be triggered only in the event of failed recourse to indemnities from EDF Energy.	Unquantifiable
– Indemnities have been provided to the Official Receiver relating to their actions as administrator of SSI Redcar with respect to administration of the site.	Unquantifiable
– Indemnities have been provided to the Oil and Gas Authority in respect of certain liabilities that could arise from the actions or omissions of its directors and otherwise arising from a director holding or having held office in the company.	Unquantifiable
– Indemnities have been provided to the MCS Service Company Limited and trustees of the MCS Charitable Foundation for any liability that might arise as a result of actions taken and decisions made for which the core Department was ultimately responsible prior to transfer to the Company and Charitable Foundation of responsibility for the Microgeneration Certification Scheme (MCS) in April 2018.	Unquantifiable
Insurance claims	
– A statutory liability will arise in the event of a nuclear accident in the UK for third-party claims in excess of the operator's liability.	Unquantifiable
– A contingent liability exists in relation to Incidents/Accidents Insurance claims for exposure to ionising radiation pursued outside the existing UK Atomic Energy Authority insurance scheme.	Unquantifiable
– The core Department has indemnified Elexon Limited against third party claims relating to the design and/or implementation of the Contracts for Difference and Capacity Markets settlement systems which are not covered by insurance and/or guarantees by their sub-contractors.	Unquantifiable
Losses or damages under agreements	
– An indemnity has been provided for any losses or damages caused to other parties to the Energy Research Partnership consortium agreement.	Unquantifiable
Environmental clean-up	
– A contingent liability exists in relation to the costs of retrieving and disposing of sealed radioactive sources in the event that a company keeping such sources becomes insolvent under the High Activity Sealed Sources (HASS) Directive: Council Directive 2003/122/EURATOM.	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– A contingent liability arises in relation to the remediation of land contaminated by a nuclear occurrence as the Secretary of State is deemed to be the appropriate person to bear responsibility under section 9 of The Radioactive Contaminated Land (Modification of Enactments) (England) (Amendment) Regulations 2007 SI 2007/3245.</p>	Unquantifiable
<p>– A constructive obligation was created in 2002 when the government undertook to underwrite the Nuclear Liabilities Fund in respect of uncontracted and decommissioning liabilities of British Energy (now EDF Energy Nuclear Generation Limited) to the extent that the assets of the Fund fall short. The undiscounted estimated liability as at 31 March 2019 of £20.9 billion (31 March 2018: £20.5 billion) has a present value of £22.3 billion (31 March 2018: £57.8 billion) using the prescribed discount rate from HM Treasury. The value of the Fund is £9.4 billion (31 March 2018: £9.3 billion) and is expected to increase in the future from investment returns. It is hard to quantify the extent to which the net position of the Fund might represent a contingent liability or contingent asset given the high level of uncertainty relating to estimation of cash outflows and investment returns over a future period exceeding 100 years. The Department does not consider it to be either a contingent liability or contingent asset as at 31 March 2019.</p>	Unquantifiable
<p>– Under the United Nations Convention on the Law of the Sea (UNCLOS) 1982, OSPAR decision 98/3, the Energy Act 2004 and the Petroleum Act 1998, the department would become responsible for decommissioning most oil, gas and renewable energy installations in the event that operators are unable to fulfil their decommissioning commitments.</p>	Unquantifiable
<p>EU Exit</p> <p>– In July 2018, the UK Government announced an extension of its guarantee of EU-funded projects after the UK has left the EU. The guarantee was originally announced in 2016. The guarantee now covers the following: a. The full Multiannual Financial Framework allocation for structural and investment funds over the 2014-20 funding period, with payments to beneficiaries made up to the end of 2023; b. The payment of awards where UK organisations successfully bid directly to the European Commission on a competitive basis for EU funding projects while we remain in the EU (e.g. before Exit day), for the lifetime of the project; c. The payment of awards where UK organisations successfully bid directly to the European Commission on a competitive basis to participate as a 3rd country after Exit, and until the end of 2020, for the lifetime of the project; and, d. The current level of agricultural funding under CAP Pillar 1 until 31 December 2020. The financial settlement was agreed in principle by both the UK and EU, as set out in the draft Withdrawal Agreement of 25th November 2018. The guarantee will therefore only be called in the event that the Withdrawal Agreement is not ratified in the case of no deal, and UK organisations are unable to access EU funding. On 29 March 2017, the UK Government submitted its notification to leave the EU in accordance with Article 50. The triggering of Article 50 started a two-year negotiation process between the UK and the EU. On 11 April 2019, the government confirmed agreement with the EU on an extension until 31 October 2019 at the latest, with the option to leave earlier as soon as a deal has been ratified. Any subsequent changes in legislation, regulation and funding arrangements are subject to the outcome of the negotiations. As a result, an unquantifiable contingent liability is disclosed.</p>	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Others	
– A liability could arise through non-compliance with the Cogeneration Directive (2004/8/EC) in the event of incorrect certification of combined heat and power plants by contractors of the Department.	Unquantifiable
– A contingent liability exists in respect of the risks associated with the Department assuming responsibility for uplifts in pension contributions for the UK Atomic Energy Authority's non-active pension scheme members.	Unquantifiable
– The Secretary of State Investor Agreement (SOSIA) provides protections in certain scenarios where the Hinkley Point C nuclear plant is shut down for reasons that are political or due to certain changes in insurance arrangements or certain changes in law. Payments under the SOSIA would be expected in the first instance to be made using funds from the Supplier Obligation but in certain circumstances they could also come direct from the Secretary of State, relying on spending powers granted under the relevant Appropriation Act or, if payments were to be made over a period longer than two years, seeking a new spending power at the time. The payments could be up to around £22 billion excluding non-decommissioning operational costs that may be incurred after any shutdown. However, the liability to make payments under the SOSIA is almost entirely within the control of HM Government.	Unquantifiable
– UK Space Agency has an unquantifiable contingent liability arising from the international (UN) convention, which requires the UK Government to be ultimately liable for third party costs from accidental damage arising from UK space activities. To manage the risk to the Government, the Outer Space Act 1986 requires licensees to indemnify HMG against any proven third party costs. In March 2015 the Outer Space Act 1986 was amended to cap the previously unlimited liability for licensed activities. The cap is set at €60 million euro for the majority of missions. This amendment came into force from 1 October 2015 and was designed to adequately balance the risk to the UK Government whilst ensuring UK space operators remain competitive internationally. There is a requirement on licensees to obtain third party liability insurance (set at €60 million euro for the majority of missions) for the duration of the licensed activity, with the UK Government a named beneficiary.	Unquantifiable
– UKRI, through STFC, collaborates with a number of other international partners in the funding, management and operation of technical facilities which are not owned by STFC. In the event of a decision to withdraw from any of these arrangements, it is likely that STFC would assist in the search for a replacement partner to ensure that technical commitments were met. The most significant international collaborations are in respect of CERN and ESO. For both of these facilities there is the possibility that STFC would be obliged to contribute to decommissioning costs arising from a decision taken to discontinue operations. The decisions to decommission are not wholly within STFC's control.	Unquantifiable
– The NDA has non-quantifiable contingent liabilities arising from indemnities given as part of the contracts for the management of the nuclear site license companies. These indemnities are in respect of the uninsurable residual risk that courts in a country which is not party to the Paris and Brussels Conventions on third party liability in the field of nuclear energy may accept jurisdiction to determine liability in the event of a nuclear incident. Indemnities are in place in respect of Magnox, LLWR and Dounreay as set out in the relevant Parent Body Agreements. In addition, indemnities are provided to the previous Parent Body Organisations (PBOs) of Magnox and Sellafield covering the periods of their ownership.	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Core Department - Financial Reporting Council funding: A guarantee has been given to the Financial Reporting Council that, if the Council's general voluntary funding from external sources falls sufficiently for the department to have to consider making legislation to activate the statutory levy under section 17 of the Companies (Audit, Investigations and Community Enterprise) Act 2004, the department will make such a grant to cover the Council's costs as is sufficient to meet the preconditions in those levy raising powers provided the requisite funding has not been made available through another grant.</p>	Unquantifiable
<p>– Core Department - Coal Industry Act 1994: Responsibility for compensation claims relating to personal injuries suffered by former British Coal mineworkers between 1947 and 31 December 1994 transferred to the Department on 1 January 1998 by a restructuring scheme under the Coal Industry Act 1994. It is possible this liability could exceed the amount for which provision has been made in the accounts depending on court judgements relating to future claims.</p>	Unquantifiable
<p>– Core Department - Deeds Relating to the Mineworkers' Pension Scheme and British Coal Staff Superannuation Scheme under Paragraph 2(9) of Schedule 5 to the Coal Industry Act 1994: Government guarantees were put in place on 31 October 1994, the day the schemes were changed to reflect the impact of the privatisation of the coal industry. They are legally binding contracts between the scheme Trustees and the Secretary of State for Business, Energy and Industrial Strategy. The guarantees ensure that benefits earned by scheme members during their employment with British Coal, and any benefit improvements from surpluses which were awarded prior to 31 October 1994, will always be paid and will be increased each year in line with the Retail Prices Index. If, at any periodic valuation, the assets of the Guaranteed Fund of either scheme were to be insufficient to meet its liabilities, the assets must be increased to bring the Fund back into balance. This is a long term contingent liability dependent on the performance of the schemes' investments and their mortality experience.</p>	Unquantifiable
<p>– Core Department - Indemnity to Public Appointments Assessors (PAAs): The Cabinet Secretary has provided a government-wide indemnity to Public Appointments Assessors (PAAs) against personal civil liabilities incurred in the execution of their PAA functions.</p>	Unquantifiable
<p>– Core Department - Nuclear agreements and treaties: The department has a range of civil nuclear liabilities arising through its association with the United Kingdom Atomic Energy Authority and British Nuclear Fuels Limited as well as ensuring that the government complies with its obligations under the various international nuclear agreements and treaties.</p>	Unquantifiable
<p>– Core Department - Site restoration liabilities inherited from British Coal: The department inherited responsibility from British Coal to reimburse certain third parties for costs incurred meeting statutory environmental standards in the restoration of particular coal-related sites.</p>	Unquantifiable
<p>– Core Department - National Dock Labour Board - Responsibility for compensation claims relating to personal injuries suffered by former National Dock Labour Board employees transferred to the department on 30 June 1990 under the Dock Work Act 1989. The timing and amounts of any future liabilities will depend on the nature of future claims and whether the courts decide that compensation is due and could exceed the amount for which provision has been made in the accounts.</p>	Unquantifiable
<p>– Core Department - Supplier indemnity: An indemnity has been provided to a supplier in respect of potential liabilities arising from claims under the Transfer of Undertakings (Protection of Employment) Regulations 2006 (TUPE).</p>	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Core Department - Loan guarantees: In order to encourage lending to smaller businesses, the department has guaranteed a portion of net losses on designated loan portfolios of participating banks (in excess of an agreed ‘first loss’ threshold) in return for a fee under the ENABLE Guarantee programme administered by the British Business Bank. The department has approved guarantee facilities totalling £1 billion, of which £283 million is effective as at 31 March 2019 (31 March 2018: £nil) with a potential loss to the department of £45 million (31 March 2018: £nil).</p>	45,000
<p>– Core Department - Guarantees to British Business Bank: The department guarantees British Business Bank under the Enterprise Financial Guarantee and Help to Grow financial guarantee schemes. The Enterprise Financial Guarantee Scheme facilitates lending to viable businesses with the maximum obligation for the department capped at £205 million at 31 March 2019 (31 March 2018: £241 million). The amount lent under the Help to Grow scheme was £2.9 million at 31 March 2019 (31 March 2018: £1.8 million) with a maximum potential liability for the department at 31 March 2019 of £1 million.</p>	206,000
<p>– Core Department - Ofgem administration costs from the buy-out fund: The department, the Scottish Government and the Northern Ireland Executive have undertaken to support Ofgem’s costs for administering the Renewables Obligation scheme (around £3.6 – £3.8 million) if there is insufficient money in both the buy-out fund and late payment fund to cover these costs. The size of the 2018-19 buy-out fund will not be known until October 2019. It is dependent in part on the availability and price of Renewable Obligation Certificates (ROCs) – if there is a surplus of ROCs, suppliers may be more inclined to meet their obligations by submitting ROCs but ultimately much depends on supplier behaviour which is difficult to predict. The department will have an indication of how many ROCs are available and whether there is likely to be a surplus after the end of the obligation year (31 March 2019) but will not know the size of the buy-out fund until October 2019.</p>	3,800
<p>– Core Department - Wave Hub transfer: The department has indemnified Cornwall Council up to 2028 in respect of the transfer of Wave Hub to a maximum amount of £5 million.</p>	5,000
<p>– Coal Authority - Environmental Legal Claims: Under the Environmental Information Regulations 2004 - The Coal Authority is aware of potential legal proceedings in respect of past fees paid for Mining Information. In the eventuality of receiving formal notification to commence legal proceedings, the Coal Authority will strongly defend its position.</p>	Unquantifiable
<p>– Coal Authority - Legal claims: The Coal Authority is subject to various claims and legal actions in the ordinary course of its activities. Where appropriate, provisions are made in the accounts on the basis of information available. The Coal Authority does not expect that the outcome of the above issues will materially affect its financial position.</p>	Unquantifiable
<p>– Coal Authority - Restructuring Scheme: Where liabilities transferred under the various Coal Authority Restructuring Schemes (CARS) have crystallised due to planning conditions, agreements, claims etc, provision has been made. It has not, however, been possible to quantify contingent liabilities that may arise in the future.</p>	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Coal Authority - Subsidence damage and public safety liabilities: Licensees of mining operations are required to provide security to the Coal Authority to cover the anticipated future costs of settling subsidence damage liabilities within their areas of responsibility. Outside the areas of responsibility of the holders of the licences under Part II of the Coal Industry Act 1994, the Coal Authority is responsible for making good subsidence damage. Where an area of responsibility is extinguished this would transfer to the Coal Authority who would become responsible for the discharge of outstanding subsidence liabilities. The Coal Authority also has an ongoing liability to secure and keep secured the majority of abandoned coal mines. In all cases the liability for operating collieries is the responsibility of the licensees/lessees and security is held to address those liabilities. These liabilities have been provided for within the Public Safety and Subsidence provision based on analysis of trends and claims experience. However it is possible that significant, unexpected events outside of this provision may materialise.</p>	Unquantifiable
<p>– CNPA - Legal claims: There are a number of potential liabilities in respect of claims from employees, which depend on actual or potential proceedings. The timing and amounts of any payment are uncertain. These liabilities have not been provided for as the CNPA believes that the claims are unlikely to be successful and unlikely to lead to a transfer of economic benefits.</p>	Unquantifiable
<p>– CNPA - MFSS: The CNPA has a liability arising through its association with the Multi Force Shared Service (MFSS) for a share of costs incurred. The timing and amount of this liability is uncertain.</p>	Unquantifiable
<p>– Insolvency Service - Cheques Act 1992: Following the enactment of the Cheques Act 1992, the Secretary of State for BEIS has indemnified the Insolvency Service's bankers against certain liabilities arising in respect of non-transferable "account payee" cheques due to insolvent estates and paid into the accounts of the agency.</p>	Unquantifiable
<p>– Insolvency Service - Police Information Technology Organisation: The Police Information Technology Organisation (Home Office) provides the Criminal Enforcement Team (formerly part of BEIS) with access to data from the Police National Computer (PNC). The Insolvency Service (and BEIS) has indemnified the police against any liabilities which they might incur as a result of providing that access.</p>	Unquantifiable
<p>– NDA - Pension Schemes: Whilst not the lead employer, the NDA is the lead organisation and has ultimate responsibility for certain nuclear industry pension schemes, including the Combined Nuclear Pension Plan, the Magnox section of the Electricity Supply Pension Scheme, and the Group Pension Scheme. Provisions for known deficits are included within Nuclear Provisions. However, movements in financial markets may adversely impact the actuarial valuations of the schemes, resulting in an increase in scheme deficits and consequent increase in nuclear provision.</p>	Unquantifiable
<p>– UKRI - Indemnity to Roslin Institute - The former Biotechnology and Biological Sciences Research Council (BBSRC) sponsored Roslin Institute transferred to the University of Edinburgh on 13 May 2008. BBSRC agreed to provide indemnity for any potential costs that arise as a result of past actions of the Institute and indemnity for any fall in grant income of the Neuropathogenesis Unit as a result of the transfer. The proportion of settlement UKRI will fund declines on an annual basis and is limited to claims up to May 2023.</p>	Unquantifiable
<p>– Others: There are a number of potential liabilities for the Department in respect of claims from suppliers, employees and third parties which depend on actual or potential proceedings. The timing and amounts of any liabilities are uncertain.</p>	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– BBB - Financial guarantee: Under the Bank's Help to Grow financial guarantee programme, the Bank has entered in to financial guarantee agreements of £30 million (31 March 2018: £60 million). The Bank has guaranteed 75% of eligible lending to SMEs under these agreements and a counter guarantee is in place that guarantees 50% of the Bank's 75% of eligible lending. As at 31 March 2019 the amount lent under these financial guarantee agreements was £3.2 million (31 March 2018: £1.8 million). During the year ending 31 March 2019 one of the guarantee agreements totalling £30 million has expired with no amounts lent under it. Since the balance sheet date, the remaining agreement totalling £30 million has expired with no further amounts being able to be lent under it.</p>	2,000
<p>– UKRI - (BBSRC) Contamination: As part of a Sale Agreement relating to a previous BBSRC site, BBSRC agreed to indemnify the purchaser against contamination resulting from dangerous substances. The indemnity was over a 10-year period commencing in 2013-14 and was capped at £3 million.</p>	3,000
<p>– UKRI - (BBSRC) Exit costs: Prior to 31 March 2018, some staff at BBSRC strategically funded institutes were on BBSRC terms and conditions. Whilst their direct salary costs are paid by the institutes, BBSRC is liable for any exit costs for these staff. The date and number of staff to take exit packages in any one year is unknown; however, if all staff were to take exit packages, the maximum liability is estimated at £31 million, with the amount declining on an annual basis up to March 2025.</p>	31,000
<p>– UKRI - (Innovate UK) Decommissioning costs: UKRI has a contingent liability which may arise if UKRI has to provide a grant to Narec (Natural Renewable Energy Centre) in order for it to be able to decommission a weather monitoring platform in the North Sea. This is currently collecting data to support the development of an offshore wind test site. This may take place anytime between three and twenty-five years from now dependent on the development of the site, at an estimated cost of £2.6m.</p>	2,600
<p>– UKRI - (MRC) Dilapidation: UK Research and Innovation has identified a contingent liability of £0.6 million (31 March 2018: £1.8 million) for dilapidation works that may be required at the end of property leases which are due to expire within the next year.</p>	600
<p>– UKRI - (STFC) Decommissioning costs: A contingent liability exists for European Synchrotron Radiation Facility (ESRF) decommissioning costs associated with the dismantling of the facility and infrastructures. Decommissioning occurs on winding up of ESRF. If exit by the UK (or any other Member) results in ESRF being wound up, the Members are required to arrange for decommissioning of ESRF's plant and buildings and to meet the costs of doing so in proportion to their share of capital at the time of dissolution. The contingent liability is estimated to be £1.7 million.</p>	1,700
<p>– UKRI - (STFC) Reprocessing and staff commitments: A contingent liability exists in respect of the Science and Technology Facilities Council (STFC)'s share of Institut Laue-Langevin (ILL) unfunded provisions for staff related costs (e.g. early retirement) and costs associated with reprocessing fuel elements. The contingent liability is estimated to be £13.6 million (31 March 2018: £13.7 million).</p>	13,600

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– UKRI - Tax Status change: Prior to the creation of UKRI, the Research Councils paid levels of tax consistent with charitable status, although they were not registered as charities. HMRC have indicated that, due to changes in legislation, they may review whether the Research Councils should have been applying charitable tax reliefs after 1 April 2012 without registering as charities. UKRI has a contingent liability relating to the potential clawback of previously applied Value Added Tax relief of £30 million.</p>	30,000
<p>– UKAEA - JET contract: United Kingdom Atomic Energy Authority has a contingent liability (capped at €30 million and approved by BEIS) in relation to the ongoing contract for JET operations with the European Commission. The contingent liability relates to the costs of operating JET during the period January 2020 to June 2021 in the event of key contract milestones not being met. The likelihood of the indemnity being called on is considered possible.</p>	25,818

Part III: Note F - Accounting Policy changes

A new International Financial Reporting Standard for Leases (IFRS 16) came into effect for periods starting 1 January 2019 or afterwards. DCMS and its ALBs have adopted the new standard for its 2019-20 accounts. We have had to early adopt the standard compared to other government departments in order to align our position as much as possible with the BBC (who were required to implement the standard from 1 April 2019).

This has a significant impact on the department's budgets, although it is an effect of accounting treatment, not cash related. The Statement of Comprehensive Net Expenditure impact is unaffected over the life of the leases.

We have an initial dual impact of first capitalising the value of the leases held (over the term of the lease) and then recognising any necessary impairments to reflect fair value.

This results in budget adjustments in 19/20 of:

- +£12.5m Resource DEL
- +£151.5m Capital DEL
- +£488.1m Resource AME
- +£731.6m Capital AME

IFRS16 has been introduced to improve transparency and comparability.

By adopting IFRS16, the budgeting effect of purchasing and leasing assets will become more equivalent, meaning decisions on how to acquire assets can take greater account of Value for Money.

Parliamentary Contingent Liabilities that have been disclosed to Parliament and are disclosed in the Accountability Report but are not disclosed under IFRS as the probability is considered remote:	
The department operates a guarantee scheme for the affordable housing sector (AHGS), £3.2 billion has been drawn down and is covered by the guarantee scheme which is closed to new applicants and therefore there will be no further drawing against this scheme.	Unquantifiable
The department has provided a Guarantee scheme for the private rented sector, guaranteeing debt of no more than £3.5 billion. £0.8 billion has been drawn down and is covered by the guarantee scheme.	Unquantifiable
On the 7 May 2019, the department launched the ENABLE Build guarantee scheme, guaranteeing debt of no more than £1 billion.	Unquantifiable

Nature of liability	£'000

<p>In July 2018, the UK Government announced an extension of its guarantee of EU-funded projects after the UK has left the EU. The guarantee was originally announced in 2016. The guarantee now covers the following:</p> <ol style="list-style-type: none"> a. The full Multiannual Financial Framework allocation for structural and investment funds over the 2014-20 funding period, with payments to beneficiaries made up to the end of 2023; b. The payment of awards where UK organisations successfully bid directly to the European Commission on a competitive basis for EU funding projects while we remain in the EU (e.g. before Exit day), for the lifetime of the project; c. The payment of awards where UK organisations successfully bid to the European Commission on a competitive basis to participate as a 3rd country after Exit, and until the end of 2020, for the lifetime of the project; and d. The current level of agricultural funding under CAP Pillar 1 until 31 December 2020. <p>The financial settlement was agreed in principle by both the UK and EU, as set out in the Withdrawal Agreement. The guarantee will therefore only be called in the event that the Withdrawal Agreement is not ratified in the case of no deal, and UK organisations are unable to access EU funding. As a result, and due to MHCLG's responsibility for the European Structural Fund, the department discloses an unquantifiable contingent liability in relation to the European Regional Development Fund and discloses a further unquantifiable contingent liability in relation to the European Territorial Cooperation element of the European Regional Development Fund.</p>	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
HM Courts and Tribunals Service (HMCTS): Schemes to refund court fees which were charged in error, or incorrectly set.	5,900
Employment Tribunal Refunds: In July 2017, the UK Supreme Court handed down a judgment that quashed the Employment Tribunals and the Employment Appeal Tribunal Fees Order 2013/1893. HMCTS is making refunds of fees paid under the order to those who paid them.	15,201
HMCTS is involved in a number of legal cases dealing with ex gratia, compensation and other claims.	1,300
In November 2017 a review of other fees for courts and tribunal proceedings identified that in some cases fees had been incorrectly charged and in other cases fees had inadvertently been set above cost without the legal authority to do so. In July 2018 a Written Ministerial Statement announced that a refund scheme would be established to reimburse people the amounts they have been over-charged.	1,700
Fee-paid judicial office holders' claims: There is an ongoing litigation regarding the pension liability for fee paid judges. Following the judgment of the Court of Justice of the European Union in December 2018, it has been determined that additional pension benefits are payable to eligible fee-paid judges in respect of service incurred prior to the date (April 2000) that the Part-Time Worker Directive should have been transposed into domestic law.	Unquantifiable
The department is currently involved in litigation activity as a defendant, which may result in significant liabilities in relation to judicial pensions.	Unquantifiable
Employment Tribunals: The department is currently defending a number of Employment Tribunal claims.	Unquantifiable
Other European Court of Human Rights claims: The department is currently engaged in several cases at the European Court of Human Rights, some of which may involve possible financial liabilities and others which are unquantifiable.	Unquantifiable
Headquarters legal claims: There are a number of outstanding legal claims against the Department Headquarters, some of which involve possible financial liabilities. These legal claims include Judicial Reviews challenging refusal to pay compensation for miscarriages of justice and legal aid funding.	Unquantifiable
Data Protection Act: There are claims against the Department for alleged failure to comply with the Data Protection Act. These cases are ongoing.	Unquantifiable

The Lord Chancellor's discount rate: In deriving an award value for pre-tariff cases CICA applies a discount rate on expected future care costs and loss of earnings. The rate applied to these cases is - 0.25%, being the Lord Chancellor's discount rate. Given that the value of provision for the remaining pre-tariff cases is high, there is an outstanding risk that until all pre-tariff cases are resolved, changes in the Lord Chancellor's discount rate may have material financial impacts to CICA.

Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>The 'Same Roof Rule': The 'same roof rule' (formerly paragraph 19 of the Criminal Injuries Compensation Scheme 2012) prevented an award being made to applicants injured before 1 October 1979 by an assailant who they were living with as a member of the same family. In July 2018, the Court of Appeal found that the same roof rule had unfairly denied compensation to a claimant. The government chose not to appeal this judgment to the Supreme Court and announced in September 2018 that the rule would be abolished.</p> <p>A statutory instrument to remove the rule came into force on 13 June 2019, enabling fresh applications from people who were previously refused, or who had never applied, because of the rule. This will increase the compensation which is payable under the amended Criminal Injuries Compensation Scheme 2012, but the value of this increase cannot be reliably established. CICA has assessed that the liability is between £56m and £123m across a 10-year period.</p>	Unquantifiable
<p>Incidents Incurred But Not Yet Received (IBNYR): CICA has an unquantifiable contingent liability in respect of individuals who have been victims of violent crime but have not yet applied to the CICA. This depends upon an application being submitted which meets the criteria set out in the relevant Criminal Injuries Compensation Scheme in force at the date of the application. CICA therefore recognises that a contingent liability exists for IBNYR. It is not practicable to estimate the financial effect of IBNYR because it is not possible to establish the total number of eligible criminal injuries or other relevant factors, such as the likelihood of an application being made.</p>	Unquantifiable
<p>HMPPS: Claims against HMPPS by staff, prisoners and third parties, where the likelihood of a liability arising is deemed possible but not likely, or not reliably measurable, amount to a contingent liability of £116.3m.</p>	116,300

Tamara Finkelstein has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FRoM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and

Part III: Note F - Accounting Policy changes

As part of the 2019-20 Annual Report and Accounts (ARA) preparation process a number of changes will be required to the Outturn figures for prior years. The exact value of these prior period adjustments has not yet been fully confirmed, but current estimates are that they will not exceed £26.3m and will not lead to a breach in the control totals.

Part III: Note G - Expenditure resting on the sole authority of the Supply and Appropriation Act

The following subheads contain provision sought under the sole authority of Part I of the Estimate and of the confirming Supply and Appropriation Act

Section in Part II: Subhead Detail	Service	£'000
A to G - DEL	Payments for Committees and Tribunals.	58

Part III: Note J - Staff Benefits

The Department operates an Employee Discount Scheme, which provides staff access via a secure login to a website that gives them access to buy discounted retail vouchers and purchase certain goods and services at a discounted rate. The cost of any items purchased is met by the employee. Under the new agreed Crown Commercial Services Employee Benefits Framework that was implemented for Defra in August 2016 this service is provided at zero cost to the Department.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
The Department has a potential liability to HMRC for VAT on services provided by the core Department, relating to transactions both in 2018–19, and in previous years. This is subject to considerable uncertainty, as it will involve further investigation by and consultation with HMRC. An internal assessment estimates the potential liability at less than £20m.	20,000
There is a potential £12 million liability for mine water remediation work at Nent Hags. Planning permission has been applied for the scheme to go ahead and any liability is dependent on the outcome of this application.	12,000
Small potential liabilities against the Defra group.	2,600
As part of the revised contract with Defra's facilities management providers it has been agreed that under certain conditions arising from the rationalisation of the estate and subsequent reduction in demand, any restructuring costs such as redundancies or early retirement will be recharged to the Core Department.	Unquantifiable
In addition to the provision for dilapidations where Defra leases properties from landlords, there remains a potential liability for dilapidations where Defra occupies properties leased by other government departments under a memorandum of terms of occupation (MOTO) agreement. The potential for and the value of a dilapidation claim for these properties is more uncertain, hence is disclosed as a contingent liability, rather than as a provision.	Unquantifiable
RPA is currently in receipt of appeals from scheme claimants of claims covering the Basic Payment Scheme, Single Payment Scheme and trader related schemes. If the appeals are successful they could either result in a liability for EU or Exchequer funded payments.	Unquantifiable
The European Commission can apply financial corrections if Defra (through the RPA) does not comply with European Commission regulations for payments funded by the European Agricultural Guarantee Fund. Any amounts disallowed (and hence funded by Defra instead) will depend on the assessed severity of the breach of regulations and on subsequent clarification negotiations with the European Commission in accordance with the European Commission's clearance of accounts procedure. There is an ongoing potential liability in respect of financial corrections which is unquantifiable.	Unquantifiable

Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

Accounting Officer: Jim Harra

Executive Agency Accounting Officers:

Melissa Tatton for sections B, J and K (Chief Executive of the Valuation Office Agency)

Jim Harra has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FRM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

In accordance with Managing Public Money requirements, the relationship between the Principal Accounting Officer and Additional Accounting Officer(s) together with their respective responsibilities, is set out in writing. Similarly, the relationship between the Principal Accounting Officer and the ALB Accounting Officer(s) is set out in writing.

Part III: Note F - Accounting Policy changes

We are considering revising our accounting policy regarding Corporation Tax Reliefs (CTR) to reflect the changes in Knowledge, Analysis and Intelligence (KAI) advised estimates of CTR outturn for prior years, as these updated values become available.

This incremental approach contrasts with existing policy [2018-19: Note 1.4.2] whereby we only reflect changes in KAI advised estimates upon 'stability', this determined to be 5 years after initial recognition.

This policy change is not attributed to a change in Accounting Standards but would be based on our assessment of the KAI advised estimate values in relation to the requirements of IAS 8.

Part III: Note J - Staff Benefits

For the financial year 2019-20, budget holders have delegated authority to present reward vouchers to staff (grades from AA to Grade 6), under the terms of the Department's Reward and Recognition Scheme ("Simply Thanks"). The vouchers are for a range of well-known retail outlets and offer managers a quick way to show their appreciation for the good work and positive behaviours of staff and colleagues by awarding them £20 vouchers. The vouchers are funded from the Department's pre-existing budget for bonuses.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Legal claims – Costs that may be awarded should various legal cases in which HMRC is involved be determined against the department.	85,200
Guaranteed costs – possible liability where appointed liquidators have been guaranteed payment of their costs with a view to recovery of outstanding tax liabilities, 91 cases.	800
Other – the department has a further number of contingent liabilities	88,700

28. The Deed of Indemnity between HM Treasury, the Bank of England and BEAPFF provides that BEAPFF on behalf of itself and its officers and directors may at any time claim payment under the indemnity in respect of any indemnified losses incurred. The losses include all claims, losses, damages, liabilities, etc suffered or incurred by BEAPFF or its officers or directors as a result of, arising out of, in connection with, or which are attributable to, BEAPFF carrying on activities pursuant to or in connection with the APF, save to the extent that the losses arise from BEAPFF's own wilful default or reckless disregard of its obligations. Maximum potential liabilities under this intervention are considered unquantifiable.

29. The Royal Mint Trading Fund has a Memorandum of Understanding (MOU) arrangement with the National Loans Fund by which it can draw down funds in the form of a financing facility subject to demand. The upper limit of this financing facility is £50 million. If the Royal Mint Trading Fund was unable to meet this commitment the National Loans Fund funding conditions dictate that the amount outstanding would have to be met from within the Treasury's DEL .

<p>30. The Treasury is a founder contributor of the Asian Infrastructure Bank (AIIB) and has made five capital contributions to the AIIB under the authority of the Asian Infrastructure Investment Bank (Initial Capital Contribution) Order 2015. Each payment has incurred a contingent liability which arises under the Articles of Agreement of the AIIB and for each payment of US\$122,180,000 creates a callable capital contribution of US\$488,760,000. The UK's contribution has been paid over five years, and now that the final payment has been made by the Treasury (in December 2019) the total callable capital is US\$2,443,800,000. (Treasury Minute dated 30 November 2015).</p>	<p>Unquantifiable (liability subject to US\$ exchange rate)</p>
<p>31. The Treasury provides guarantees to the UK oil and gas industry in the form of Decommissioning Relief Deeds. These deeds provide companies with certainty on the level of tax relief they will receive on future decommissioning of North Sea oil fields. Currently there have been no changes to the tax regime that would generate a liability to be paid under any decommissioning relief agreements, of which there were 83 in force at the end of March 2017. The maximum potential liability under this scheme cannot be quantified at present.</p>	<p>Unquantifiable</p>
<p>32. On 29 March 2017 the UK Government submitted notification to leave the EU in accordance with Article 50 of the Treaty on European Union (Article 50). The triggering of Article 50 starts a two-year negotiation process between the UK and EU. Any subsequent changes in legislation, regulation and funding arrangements are subject to the outcome of the negotiations. As a result, an unquantifiable remote contingent liability is disclosed.</p>	<p>Unquantifiable</p>

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Indemnity for Returning Officers at the UK Parliamentary elections, May 2015, June 2017 and December 2019	Unquantifiable

For the purposes of UK Parliamentary elections, Returning Officers and Acting Returning Officers throughout Great Britain are statutorily independent officers. They stand separate from both central and local government. As a result, they can be exposed to a variety of legal risks varying from minor claims for injury at polling stations to significant election petitions challenging the outcome of a poll and associated legal costs. The Cabinet Office provided an indemnity to Returning Officers for the UK Parliamentary general election held on 7 May 2015. The indemnity is to cover the costs of any claims against them, which are not covered under the existing insurance policies that Returning Officers hold.

The indemnity will cover costs arising in relation to UK Parliamentary elections including by-elections, where the date of the poll is on or before the 31 March 2020. This indemnity also applied to the early general elections held on 8 June 2017 and 12 December 2019 and will apply to any by-elections held until 31 March 2020.

Indemnity for Returning Officers at the Police and Crime Commissioner elections, May 2016	Unquantifiable
--	----------------

For the purposes of Police and Crime Commissioner elections, Police Area Returning Officers and Local Returning Officers throughout England and Wales are statutorily independent officers. They stand separate from both central and local government. As a result, they can be exposed to a variety of legal risks varying from minor claims for injury at polling stations to significant election petitions challenging the outcome of a poll and associated legal costs.

The Cabinet Office provided an indemnity to Police Area Returning Officers and Local Returning Officers for the Police and Crime Commissioner elections held on 5 May 2016. The indemnity is to cover the costs of any claims against them, which are not covered under any existing insurance policies that Police Area Returning Officers and Local Returning Officers hold. The Department also certificated the Returning Officers under The Employers' Liability (Compulsory Insurance) Regulations 1998 in respect of any liability to their employees.

The indemnity and certificate will remain in place to provide cover to Police Area Returning Officers and Local Returning Officers for any by-elections that are held prior to the next scheduled Police and Crime Commissioner elections in May 2020.
