Dear

**Freedom of Information Request
A12 junctions 22-25 northbound inspection reports and defect repairs**

Thank you for your email of 5 February requesting information about the current state of the carriageway between Witham north and Marks Tey. On 13 February, you clarified your request confirming we should search for the last two or three surveys of the road that records all defects for the A12 between junctions 22 and 25 of the northbound carriageway. We have now completed our search for information.

Please find attached copies of our weekly inspection reports dated 16, 23 and 30 January and 6 February at Annex A. These reports cover a specific route that includes the A12 junctions 22 to 25 northbound. Where defects were found on this section, I've highlighted them in yellow. Inspections carried out on 30 January and 6 February did not identify any defects on this section of road.

I also attach the associated defect repair information extracted from our database for those defects highlighted in the inspection reports dated 16 and 23 January at Annex B. This confirms those defects were made safe.

Personal information has been redacted in reliance of [Section 40](#) of the Freedom of Information Act.

If you are unhappy with the way we have handled your request you may ask for an internal review. Our internal review process is available at:
