ERRATUM

Published 2 March, 2020

Revisions to the Accommodation and Employment Circumstances data have been made, impacting on the volumes contained in the previously published tables. The revisions apply to all tables and are a result of errors in the calculation of volumes due to inconsistency in applying inclusion criteria for records across the reporting period. In addition, subsequent investigation has highlighted issues in the recording of releasing establishment in the Probation case management system.

This has affected the volumes reported and in some cases the headline rates of accommodation and employment circumstance. Changes to headline rates are shown in Annex A.

All tables have been corrected and reissued, and Table 16 in both the Accommodation and Employment Circumstances tables has been removed due to insufficient coverage of releasing establishment data.

Products affected

Accommodation Circumstance Tables – Tables 1 to 16

Employment Circumstance Tables – Tables 1 to 16

Compliance

This revision is in accordance with Quality Principle Q3.4 of the Code of Practice for Official Statistics (February 2018), which requires all producers of Official Statistics to publish full and clear details on the scale, nature, cause and impact of unscheduled corrections that result from errors.

The Ministry of Justice aims to avoid the need for revisions to publications unless they are absolutely necessary and has put systems and processes in place to minimise the number of revisions.
