

CMA Phase II review of Sabre/Farelogix

Virgin Atlantic's Response to the CMA's Provisional Findings

Sabre and Farelogix both provide services to airlines to enable and/or facilitate, inter alia, the distribution of airline tickets and related products and services. As such, Virgin Atlantic welcomes the CMA's provisional findings in relation to the Sabre/Farelogix merger, supporting our concerns that there is a real risk that the Transaction will stifle the nascent, but growing, competitive constraint that Farelogix imposes on all GDSs, including Sabre.
