

SURVEILLANCE CAMERA COMMISSIONER

Objective 8 - Organisations involved in the manufacture, planning, design, installation, maintenance and monitoring of surveillance camera systems are able to demonstrate that they understand and follow good and best practice and legal obligations.

Work Strand Lead - Tim Raynor, British Security Industry Association

Number	Deliverable	Success measure	Target Date	How does this contribute towards objective
8.1	Buyers Toolkit comprising practical resources for any organisation considering purchase of a video surveillance camera system.	Launch of core components of Toolkit which outline legal responsibilities and minimum standards for good practice. Ongoing development of the toolkit post launch.	COMPLETED	Educated buyers act as an incentive for suppliers to demonstrate their understanding and application of legal responsibilities and good practice.
8.2	Awareness campaign for Buyers Toolkit	Campaign gets underway. Measurement through online hits, registrations and resource downloads.	COMPLETED	Ensuring buyers are aware of and using the toolkit, and that service providers are aware that buyers will be more educated in future, thus encouraging industry to demonstrate how they support end users to comply with the principles of the SC Code.
8.3	Training resources to support core components of buyers toolkit.	Resource plan to be agreed and initiated prior to launch.	ONGOING	Complements the buyers toolkit, helping a business to specify requirements to their suppliers.
8.4	Update to the buyers toolkit	Review and update of the toolkit to reflect changes in legislation and development of technology. This will ensure that toolkit keeps pace with changing surveillance camera landscape, remains relevant and is a valuable tool for buyers.	30/06/2020	Ensures buyers are educated. This is an incentive for suppliers to demonstrate their understanding and application of legal responsibilities and good practice.
8.5	Update of the Surveillance Camera Code of Practice: owner/installer points to consider	Review and update guide to ensure it continues help installers and owners of surveillance camera systems understand what points they should consider in relation to the surveillance camera code of practice. It will reflect changes in legislation, policy and technology.	30/06/2020	Ensures that installers and owners of surveillance camera systems have a basic understanding of the Surveillance Camera Code of Practice
8.6	Secure by default for installers self-certification scheme	Secure by default for installers is launched and sets the minimum requirements in relation to cyber security for installations of surveillance camera systems.	30/09/2020	Encourages installers to meet minimum cyber security requirements when installing surveillance camera systems
