To whom it may concern,

Notification under Article 8 of the Competition Act 1998 (Groceries) (Coronavirus) (Public Policy Exclusion) Order 2020, Statutory Instrument 2020 No. 369 (the “Order”)

1. In accordance with Article 8(2)(a) of the Order, we hereby submit notifications to the Secretary of State to apply for an exclusion from Chapter I of the Competition Act 1998, as contemplated in Article 5 of the Order (the “**Notifications**”).
2. Any term in the Notifications bears the definition ascribed to it in the Order, unless specified otherwise.
3. Tesco confirms that the Notifications relate to “qualifying activity” (as contemplated in Article 3 of the Order) which:
 - i. Took place prior to the coming into force of the Order (i.e. between 1 and 27 March 2020). The Notifications have thus been submitted to the Secretary of State within 14 days of 28 March 2020, as contemplated in Article 8(2)(a);
 - ii. Is/was to prevent or mitigate the disruption to the supply of groceries to consumers in the UK (or any part of it) caused by a reason relating to coronavirus; and
 - iii. Does not otherwise have the object or effect of preventing, distorting or restricting competition.
4. As you will be aware, retailers have had to work at pace to identify and implement a series of complex arrangements to mitigate unprecedented disruptions, and ensure the continuity of supply of groceries for consumers across the UK during the coronavirus crisis. Often, these arrangements require ongoing management and adjustment to ensure they continue to address supply challenges across numerous grocery retailers as the crisis has evolved. For that reason, it is at times practically difficult to pinpoint the precise boundaries of a single agreement (which bears a broad definition, including a concerted practice which does not require the adoption of a common plan); and/or the date that agreement was made and implemented. Similarly, there may be instances where the retailers have agreed to consider proposed agreements to address the crisis, but ultimately decided not to pursue identical industry-wide action where it is subsequently found to be unfeasible or impractical in the circumstances. There is also some overlap between the qualifying activities listed in Article 3 of the Order.
5. Despite these challenges and in the spirit of transparency, we have sought to provide as much detail as possible relating to the qualifying activities listed in Article 3 in which we have been involved up to and

including 27 March 2020, including preparatory discussions and/or ongoing actions required to properly implement or manage such activity.

6. We provide the details required pursuant to Article 8(1) of the Order in the tables below.

	The Parties have had several calls (including with DEFRA on 18 March and the Prime Minister on 21 March) and email exchanges to prepare for, facilitate, implement and monitor the steps taken to support vulnerable consumers during the crisis.
Date of the Agreement	The Parties have been in discussions with DEFRA since 9 March 2020 to discuss the concept of supporting vulnerable customers.

More matched customers will be contacted in due course as further data is provided by the GDS and matched against the Parties’ membership lists.</p>
