

RA 5104 - Material Specification

Rationale ▶ *Withdrawn* - ◀ *Def Stan 05-123 required contractors to seek Director Royal Aircraft Establishment approval for specifications devised by them for the material of parts whose failure could affect airworthiness. It is MOD policy that neither it nor its agencies should approve specifications prepared by contractors in support of contracts awarded by MOD; consequently, this section has been withdrawn. Contractors currently implementing the requirements of this section should consult the appropriate ▶ Type Airworthiness Authority. Def Stan 00-970 Part 1/15 Section 3 refers to materials and their specification. ◀*
