<sup>4</sup> Average Return of Service' is the average length of service on outflow. It considers trained and untrained personnel within the trade and is not specific to rank or LoS.

**Notes:**

a. These data are based on the seven year span of actual data **2012/13 – 2018/19**. By considering a cohort of individuals with the similar characteristics - **New Entrants** into the **Log(Mov)** trade - average career projections have been calculated.

b. Defence Statistics' career forecasts are not based on the actual experience of any one individual, but rather are based on the historical behaviour of individuals with similar characteristics.
