Work Choice Live Running Memo 51 (update)

To: Work Choice Providers

From: Barney Williams

Copy: Ali McAuley

Memo Serial No: LR 51 (Update)

Date: 23/5/2017

Subject: Work Choice Caseload data collection (LRM51)

Action: Updated data collection stencil for completion

Timing: From 24 / 5 / 2017

Information

A revised work choice caseload template has been issued to be used from now onwards – they can be found in Bravo the directory 'WPD Work Choice Monthly MI Packs'. Changes that have been made are:

- Records relating to customers who have left Work Choice have been removed. This is simply to keep the worksheets at a manageable size – providers should continue to record information about customers moving into unsupported employment or leaving Work Choice;
- A new column "In-Work Support Module" has been added – this should only be used for customers referred after 24/4/17 (7/4/17 for Remploy customers); and
- We have annotated where there is an error in the data entered – could all providers please double check these records and amend as necessary.

Information provided so far has proved extremely useful – many thanks to everyone who has been involved so far in this important data collection exercise.
