### NOTICE TO TRADERS 32/17

### IMPORT TARIFF QUOTA FOR CEREALS FROM UKRAINE

#### Introduction

This notice is to tell you about an Import Tariff Quota which will be opened to import cereal products from Ukraine, under EU Regulation 2015/2081 and 2017/2200.

These Quotas will be open annually from 1 January to 31 December. Imports under these Quotas will be duty free. The products and quantities available are detailed in the Annex below.

### The application period

Licence applications must be lodged Monday to Friday each week. The application period will close at 12 noon each Friday. Your licence will then be issued on the Friday following the week of your application.

#### **Proof of Trade**

For your first application of the quota year you must provide evidence to show that you have imported cereals from outside of the European Union in the 12 month period immediately prior to the time of your application, and the 12 month period immediately prior to that.

You must supply the original import document (C88) form, or a copy certified as a 'true copy' of the original stamped by Customs. We will not accept photocopies of the Customs stamp or scanned versions of these documents.

Alternatively we will accept electronic licences as proof of import. If you use electronic licences, you must provide a schedule detailing each licence number, date of import, entry number and weight of each entry.

#### Applying for licences

You can only lodge one application per order number each week. If more than one application is lodged for the same quota order number, all of your applications will be rejected and the securities you have lodged will become forfeit.

Your application must not exceed the total quantity available for the quota, and the quantity must be stated in whole kilograms.

In box 8, the country of origin, you must indicate 'Ukraine' and put a cross in the 'Yes' box. This means your licence is only valid to import cereals which originate in Ukraine.

Box 20 of your application must contain the correct Commission Regulation number and Order Number you are applying for.

Applications must be submitted using an import licence application form. We advise you to use the latest version of the application form, which you can find <a href="https://example.com/here-submitted-using

# Registering to apply for licences

To submit an application you must be registered with the RPA. If you are not registered then a company director or an individual legally responsible for the business must apply for a trader registration number by contacting our **Rural Payments Helpline** on **03000 200 301**.

Applications can be submitted either by post, fax or email. However, all licences will be issued electronically, unless they are to be used in another EU Member State, in which case a paper licence can be requested at the time of application. Once electronic licences are issued an email notification will be sent. Please confirm the email address you wish to receive these notifications to. If you do not inform us of a correct email address then no email notifications will be issued and you will need to contact us to confirm your licence number.

### Security

Security of €30 per tonne must be lodged with each licence application. You can find further information on how to lodge your security <a href="https://example.com/here/beta/400/">here</a>.

### **Issuing of Licences**

Your licence will be issued on the Friday following the week of your application, and will be valid from the day of issue until the end of the second month, following the month of issue.

Your licence will have a 5% upward tolerance. However, the reduction in duty will only be valid for the quantities shown in sections 17 and 18 of your licence.

#### **Authority**

You can find details of the arrangements in Commission Implementing Regulation (EU) No 2015/2081 and 2017/2200 by visiting the Commission's <u>Europa website</u>. We are not responsible for the accuracy or completeness of the Europa website. Whilst every care has been taken in producing this guidance, the regulations as published are definitive.
