

2014 to 2020 European Structural and Investment Funds Growth Programme

Call for Proposals – Online Applications European Social Fund

Priority Axis 2: Skills for Growth

Managing Authority	Department for Work and Pensions (DWP)
ESI Fund	European Social Fund
Priority Axis:	Priority Axis 2: Skills for Growth
Investment Priority	2.1: Enhancing equal access to lifelong learning
Call Reference:	Humber – Enhancing Digital Skills OC18S20P1736
LEP Area:	Humber
Call Opens:	11 March 2020
Call Closes:	Midnight – 14 July 2020
Application Process	<p>Applications for funding must be completed and submitted using the ECLAIMS IT system.</p> <p>Applications submitted via any other method will not be accepted.</p> <p>Please <u>do not</u> use ECLAIMS to access or apply against <u>ERDF</u> calls published on GOV.UK – the online application process is only applicable to specified ESF open calls.</p> <p>Please note: the ECLAIMS system can only be accessed from within the UK.</p>

1. Call Context

The 2014 to 2020 European Structural and Investment Funds (ESIF) bring the European Regional Development Fund (ERDF), European Social Fund (ESF) and part of the European Agricultural Fund for Rural Development (EAFRD) together into a single European Union (EU) Structural Investment Funds (ESIF) Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Enterprises (SME), low carbon, skills, employment, and social inclusion.

All contracted ESF projects must be completed by the end of the programme period in 2023. Each application for ESF will be required to demonstrate that it delivers good value for money and domestic strategic priorities.

European Structural and Investment Funds are managed by the Ministry of Housing, Communities and Local Government (ERDF), Department for Work and Pensions (ESF) and the Department for Environment Food and Rural Affairs (EAFRD). In London, the Greater London Authority acts as an Intermediate Body for the European Regional Development Fund and European Social Fund programmes. Unless stated otherwise, the term “Managing Authority” will apply to all these organisations. These Departments are the Managing Authorities for each Fund. The Managing Authorities work closely with local partners who provide:

- Practical advice and information to the Managing Authorities to assist in the preparation of local plans that contribute towards Operational Programme priorities and targets;
- Local intelligence to the Managing Authorities in the development of project calls (decided by the Managing Authorities) that reflect Operational Programme and local development needs as well as match funding opportunities;
- Advice on local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy to aid the Managing Authority’s appraisal of each Full Application.

This call is issued by the Department for Work and Pensions (DWP) to commission ESF Funded projects that will support the **Priority Axis 2 of the Operational Programme: Skills for Growth** and **Investment Priority: 2.1 Enhancing equal access to lifelong learning** as set out in the Operational Programme.

All applications will need to be eligible under the European Social Fund Operational Programme for England 2014 to 2020. The [ESF Operational Programme](#) is available for applicants to read.

This call for proposal sets out the requirements for any applicants to consider before applying. Applications against this call will usually be appraised as part of a single-stage appraisal process and successful applicants will enter into a funding agreement with the DWP. Further information is given in sections 4 to 10.

However, if an existing ESF Grant Recipient submits an application to extend their existing ESF Project via this open call and, if the cumulative value of all Full Applications received against it is below the call value, the ESF Managing Authority may choose to consider and assess that application via the Project Change Request route.

The decision on whether or not to use the Project Change Request route is a Managing Authority decision and will only be considered once the call is closed. To determine whether the Project Change Request route may be appropriate, the Managing Authority will take into account:

- Existing project performance against financial, output and result targets;
- The existing Grant Recipient track record within the ESF Programme;
- Completeness, robustness and detail of the information provided in the Full Application Form and supporting documents which would inform the Project Change Request assessment;
- Scale and complexity of any proposed changes between their existing ESF Project and their new Full Application proposal;
- Eligibility and availability of match-funding for the new/extended project delivery period.

This list is not exhaustive and, if there are any concerns about the delivery and/or management of the existing project, then the Full Application will be subject to the standard Full Appraisal process.

The same Project Change Request route may also be considered by the Managing Authority where the cumulative value of applications against an open call exceeds the overall call value, but the ESF Managing Authority then exercises their right to “increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received” as set out in this call specification or in cases where there is only one applicant against this call and that applicant is already delivering the same type of ESF Project in the same LEP Area under the same Investment Priority.

All ESF applicants will need to be aware of the requirement to collect and report data on all participants as per Annex 1 of the ESF regulation (see Appendix A). This will be in addition to the requirement to report on the output and result indicators referred to in section 3 of the call for proposal.

UK Withdrawal Agreement

Under the Withdrawal Agreement, the UK will continue to participate in programmes funded under the current 2014-2020 Multiannual Financial Framework (MFF) until their closure.

This means that the vast majority of programmes will continue to receive EU funding across the programme’s lifetime. In many cases, funding will continue until after 2020 and the end of the transition period. In addition, UK organisations can continue to bid for new grant funding under the current MFF.

More information on the continued UK participation in EU Programmes can be found at the following [website link](#).

1.1 National Context

This priority axis aims to support skills for growth. It will support activities through:

Investment priority: 2.1 - Enhancing equal access to lifelong learning for all age groups in formal, non-formal and informal settings, upgrading the knowledge, skills and competences of the workforce, and promoting flexible learning pathways including through career guidance and validation of acquired competences

ESF will not fund activity that duplicates or cuts across national policy on grants and loans for tuition for skills activities. Exemptions to this principle will be considered only where a local specific need and/or market failure has been demonstrated and where the activity falls within the scope of the Operational Programme.

Full details of what can and cannot be supported under this Investment Priority are set out in the Operational Programme. Details of the specific objectives have been reproduced below.

Specific Objective	Results that the Member States seek to achieve with Union support
To increase the skills levels of employed people from the existing level to the next level up, to encourage progression in employment.	The additional support from this investment priority will help employed people to progress at work through achieving higher skills, and it will drive growth in their organisation by improving productivity. We have set result targets for participants gaining qualifications or units – separate targets for level 2 and level 3.
To increase the number of people with technical and job specific skills, particularly at level 3 and above and into higher and advanced level apprenticeships, to support business growth.	The main result that will be achieved is that more participants will have gained a qualification or a unit of qualification. This investment priority will also support business growth through the development of a more highly skilled workforce. We have set a result target for participants gaining qualifications or units at level 3 or above.
To increase the skills levels of employed women to encourage progression in employment and help address the gender employment and wage gap.	The additional support from this investment priority will support women in raising the level of their skills, helping them to progress in employment or self-employment and achieve higher earnings. There is a result target about progression in work. This investment priority will also contribute to supporting business growth through the development of a more highly skilled workforce.

Local Development Need

Projects must deliver activity which directly contributes to the objectives of Priority Axis 2, Investment Priority 2.1 of the Operational Programme, and which meets the **local development need** expressed in the text and table below.

Local Priorities:

According to the Lloyds Bank UK Business Digital Index (2019), only 56% of small businesses have Essential Digital Skills and those lacking these Essential Digital

Skills are more than twice as likely to cease trading by 2021. Data also shows that the more digitally skilled businesses have a greater appetite to gain new skills. Only 19% of small businesses are using the internet to trade overseas and reach new markets and only one in ten (11%) small businesses are using or planning to use machine learning in the next two years.

Over one-third (36%) of small businesses report that they are not doing more online because they lack clarity on which technologies would support their objectives and 33% of small businesses also acknowledge that they do not have the right levels of digital skills. The digital divide widens and younger small businesses are now pulling ahead of their older counterparts. Younger digitally savvy businesses also have loftier ambitions; not only are they more aware of virtual reality, connected devices and Artificial Intelligence, they are seeking opportunities to implement where relevant.

By investing in digital skills in SMEs, this will support businesses to take more opportunities presented by technological developments, become more productive and increase their ambitions and capacity for growth. This approach is further supported by the findings of the Made Smarter Review of Industrial Digitalisation (2017). It highlights that the relatively slow rate of technology adoption within UK businesses is acting as a brake on productivity improvements. More businesses need to adopt and adapt to innovation or they will be overwhelmed by technological developments.

The Humber's ESIF Strategy focuses on supporting the skills development of Humber residents at all levels, from access to employment and the sustainable integration of young people, to technical and higher levels skills and leadership and management. It takes a deliberately flexible approach, and recognises that new innovations, technological advances and industry developments will arise during the timeframe of the Operational Programme and that the Humber needs to be in a position to take advantage of the opportunities presented by such changes.

The rise in automation will change the nature of skills demand, with a greater demand for technical and digital skills to support the delivery of automated machines. A high proportion of Humber's employers (46%) report that there is a need to improve digital skills in their workforce over the next 12 months (Source: Employer Skills Survey, 2017). Research has highlighted that software development skills are an increasingly important aspect of digital skills and other aspects such as Computer-Generated Imagery (CGI) skills are also significantly important to businesses.

All technological skills will see a substantial growth in demand (McKinsey, 2018). Advanced technologies require people who understand how they work and can innovate, develop and adapt them. The fastest rise is expected in the need for advanced IT and programming skills, however there is also a need for everyone to develop basic digital skills. The largest skills mismatches will likely occur in the functions that have begun to adopt automation and AI technologies: data analytics, IT, mobile & web design, R&D and production & manufacturing operations. Businesses will need to adapt through redesigned business processes and investment in talent. (Source: McKinsey Global Institute: Skill shift: Automation and the future of the workforce, 2018).

One of the key priorities emerging from the LEP's Skills Data Analysis work is the need to raise digital capacity and prepare the workforce and businesses for increased automation and the shifts towards digitalisation. There is a clear need for investment in Digital / Technical Skills in the Humber to increase productivity and business growth. Technological change is happening at such a pace, that in order to maintain their competitiveness, SMEs are having to increasingly consider how they can sustain their business and remain competitive. Without the skills to utilise digital technologies, individuals and organisations are being held back from achieving their potential and cannot compete in technologically driven markets.

There is a high proportion of Humber's employers (46%) report that there is a need to improve digital skills in their workforce over the next 12 months (Source: Employer Skills Survey, 2017). This will only continue to increase as more and more technological developments take place and SMEs recognise the need to up-skill their workforce to meet changing circumstances, demands and opportunities presented by digitalisation.

Call Outline

Through this call, the ESF Managing Authority is seeking a programme of activity which will assess the current skills profile of individual employed people and provide digital skills training which up-skills the existing workforce and supports SMEs to adopt new technologies to increase productivity, competitiveness and enable entry into emerging markets.

Projects should provide training to SMEs to support the completion of qualifications/part-qualifications and non-accredited training of their employees in a range of areas, including but not limited to:

- Big Data & data driven decision making e.g. Microsoft Power BI
- Machine Learning and Artificial Intelligence
- Digital Communications
- Cyber Security & resilience to threat
- E-Commerce
- Digital Technology and Infrastructure
- Connected devices – Internet of Things
- Mobile strategy & delivery
- Software Development Skills

The programme must deliver highly responsive skills provision to meet business and industry needs. Activities should:

- Provide practical support through coaching, advice, consultancy and mentoring to individuals seeking to improve digital skills to support SMEs to utilise digital technology to improve their products and competitiveness.
- Assess the current skills profile of the individual, with a bespoke training plan which relates to the sector in which they are employed and the employer's needs and to develop the appropriate training option or provide access to it.
- Drive up skills levels, focusing on the digital skills being sought by employers or those identified through delivery that will make an impact on the SME business.

- Deliver skills provision which offers both accredited and non-accredited skills training which is innovative and responsive to local skills needs.
- Encourage more women to engage in digital skills and help address the gender employment and wage gap.
- Foster an aspirational, digital and enterprising culture in SMEs.

The programmes of activity must be delivered across the whole of the Humber. Applicants must demonstrate how they will ensure that is achieved and that participants in each local authority area of the Humber take part in the programme (Hull, East Riding, North and North East Lincolnshire).

Applicants should demonstrate how they will work with other providers operating locally to ensure that their activities align with existing programmes and evidence how they will promote the scheme through these networks, form collaborative agreements and work in partnership with other providers for the good of the Humber.

Proposals must also clearly demonstrate how they will align with and engage the Humber Business Growth Hub in delivery of the programme. The Growth Hub has a range of complementary ERDF funded provision focused on supporting SMEs, one strand of which focuses particularly on ICT and Digital. It will act as a key referral route into this activity.

The Humber is also in the process of developing a Local Digital Skills Partnership (LDSP) which will bring together public, private and charity sector organisations to help increase the digital capability of individuals and organisations in the Humber, in support of the UK's aspiration to become a world leading digital economy. The digital skills programme will be a key part of delivering on this aspiration and will link to the LDSP once it is in place.

Consortia/Partnership Applications

Applications are encouraged from consortia or other similar types of partnership arrangements. In each such case the application must be completed and submitted in the ECLAIMS IT system by the lead organisation on behalf of the partnership/consortia. The lead applicant must have the financial capacity to meet the required Due Diligence criteria and, if ESF funding is awarded, this organisation will then become the lead Grant Recipient, accountable for delivery of the overall ESF Project.

Details of the local ESIF Strategy can be found at:

<https://www.humberlep.org/strategies-and-deals/european-structural-and-investment-funds-strategy/>

1.3 Scope of activity

This call invites Full Applications which support the delivery of Priority Axis 2, **Investment Priority 2.1 Enhancing equal access to lifelong learning** of the European Social Fund Operational Programme and responds to the local development need set out in the Humber Local Enterprise Partnership Area European Structural and Investment Funds Strategy.

This call aims to address the identified shortfalls listed in section 1.2 Local Development Need above.

2. Call Requirements

All applications are competitive.

<p>Indicative Fund Allocation:</p>	<p>Indicatively, through this call the Managing Authority expects to allocate approximately £1m ESF</p> <p>The Managing Authority reserves the right to decrease or increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received. The managing authority may also decide to place some projects submitted through this call on a reserve list and invite them to proceed at a later date, subject to the availability of funding.</p>
<p>Minimum application level</p>	<p>European Social Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact.</p> <p>The Managing Authority does not intend to allocate less than £250,000 of ESF to any single project.</p> <p>Applications requesting an ESF amount below the 'Minimum Application Level' will be rejected.</p>
<p>Duration of project</p>	<p>Projects must be financially completed (i.e. have a proposed Financial Completion Date) no later than 3 years and 6 months after the proposed project start date; however, the Managing Authority reserves the right to vary the maximum duration in exceptional circumstances.</p> <p>All ESF Projects must complete delivery by 31st December 2023. Project costs cannot be incurred beyond this date.</p> <p>NOTE: Delivery of activities and associated costs can be incurred up to and including 31st December 2023, with the full and final claim expected no later than February 2024.</p>
<p>Geographical Scope</p>	<p>All interventions should be focused on activity and beneficiaries within the Humber Local Enterprise Partnership area.</p>
<p>Specific call requirements</p>	<p>This is a call for ESF activity.</p>
<p>Call Deadlines</p>	<p>For this specific call, applications will be appraised following closure of the call. Applications submitted to the Managing Authority via the ECLAIMS IT system after</p>

	<p>midnight on the published call close date will not be considered.</p> <p>If you encounter any technical difficulties completing or submitting your Full Application via ECLAIMS, please send an email to E.CLAIMSSUPPORT@DWP.GOV.UK .</p> <p>Technical support is available Monday to Friday, from 8am to 6pm.</p> <p>It is your responsibility to submit your application in good time to allow time to resolve any technical issues. Except in the unlikely event that there is a general failure of the system in the final hours, we will not normally extend the deadline for technical issues.</p> <p>If you do not already have ECLAIMS access, to avoid any unnecessary delays in submission of your Full Application, it is recommended that you submit new ECLAIMS access requests as early in the application process as possible by sending an email to E.CLAIMSSUPPORT@DWP.GOV.UK .</p> <p>The Managing Authority reserves the right to reject applications which are incomplete or not submitted in a timely and compliant way.</p>
Application selection	<p>All applications will usually be scored in line with the ESF scoring criteria, but the MA reserve the right to offer ESF funding where a project complements other activity or provides niche activity to target groups within the ESF Operational Programme.</p> <p>However, the Managing Authority reserves the right to assess applications from existing Grant Recipients via the Project Change Request route where appropriate, as set out in the 'Call Context' section of this specification.</p>
Applicant proposals	<p>These can only contain activities which are eligible for ESF.</p>
Eligible match funding	<p>Applicants will need to have eligible match funding for the balance of costs, which must be from a source other than the European Union. The applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.</p>
Procurement	<p>All procurement must be undertaken in line with EU regulations.</p>
State Aid law	<p>Applicants must demonstrate compliance with State Aid law.</p>

Audit/ Compliance	All expenditure and activities will be subject to rigorous audit and non-compliance may lead to financial penalty.
Calls listing multiple activity	The applicant is required to list each activity they plan to deliver, supported by a clear breakdown of costs. Expected outputs and results per activity should be provided.

ESF cannot be used to duplicate existing activities or activities that do not address market failure. ESF can only be used to achieve additional activity or bring forward activity more quickly. Applicants must be able to demonstrate that proposals are additional to activity that would have occurred anyway or enables activity to be brought forward and delivered more quickly than otherwise would be the case in response to opportunity or demand.

3. Deliverables required under this Call:

Applications will be expected to achieve the minimum indicative level of Programme Deliverables by contributing to the following Investment Priority. The definitions of which can be accessed at the [ESF Operational Programme](#).

Investment Priority	2.1 Enhancing equal access to lifelong learning
Specific Objectives	Enhancing equal access to lifelong learning for all age groups in formal, non-formal and informal settings, upgrading the knowledge, skills and competences of the workforce, and promoting flexible learning pathways including through career guidance and validation of acquired competences
Indicative Actions	<p>ESF will not support activities that duplicate or replace existing support within national programmes, but may be used to support additional activities or target groups, including provision co-designed with local partners.</p> <p>Examples of activities that may be supported include:</p> <ul style="list-style-type: none"> • skills shortages or needs in particular sectors or local areas which are not currently being addressed by employers or individuals; • leadership and management training in Small and Medium size Enterprises (up to 250 employees); • training and support for people at all levels, in particular addressing the needs of disadvantaged groups in and out of the workplace; • access to learning; information about learning and skills; • brokerage of opportunities between learners and employers.

Results Table

NOTE: When recording your quarterly profile figures for each Results in ECLAIMS, please ensure you select the Result with the correct, relevant Category of Region suffix i.e. L = Less Developed, T = Transition, MD = More Developed.

ID	Result Indicator	Minimum Target value for this call
R6	Participants gaining level 2 or below or a unit of a level 2 or below qualification (excluding basic skills)	25%
R7	Participants gaining level 3 or above or a unit of a level 3 or above qualification	8%
R8	Employed females gaining improved labour market status	35%

Outputs table

NOTE: When recording your quarterly profile figures for each Output in ECLAIMS, please ensure you select the Output with the correct, relevant Category of Region suffix i.e. L = Less Developed, T = Transition, MD = More Developed.

ID	Output Indicator	Total Minimum target value for this call
O1	Participants	900
O1	Participants (Male)	441
O1	Participants (Female)	459
O4	Participants over 50 years of age	222
O5	Participants from ethnic minorities	36
ESF - CO16	Participants with disabilities	135
ESF - CO14	Participants who live in a single adult household with dependent children	45

Outputs and Results Rationale

Applicants must explain in detail in their Full Application how they have estimated each of the outputs and results for their project, demonstrating clearly how each of the proposed outputs and results directly link to their specific project activities and objectives. The related output and results figures need to be consistent e.g. there should not be more 'Inactive Participant' forecast results than actual Inactive Participants recorded as taking part in the ESF Project in the forecasted output figures.

Applicants must also explain their approach for forecasting each deliverable; including the specific base-lining/research they have undertaken to ensure their projected profiles are realistic and achievable and any assumptions they have made which impact on their forecasts.

Where an applicant is proposing one or more output or result figures below the expected minimum target value for this call, an explanation must also be provided by the applicant in their Full Application.

ESF Outputs and Results Indicator Definitions Guidance is available on GOV.UK [here](#).

Applicants will also need to ensure robust systems are in place, and be able to describe them, to capture and record the targets and to report quantitative and qualitative performance across the Humber LEP area. All operations will be required to collect data and report progress against the deliverables with each claim. Where an operation underperforms against their deliverables they may be subject to a performance penalty.

There must be a fully evidenced audit trail for all contracted deliverables.

4. General Information

Essential information to support the drafting of an application and delivery of a successful ESF funded project is available at the [European Growth Funding](#) website pages.

4.1 Compliance and Eligibility

When developing an application, Applicants should refer to [guidance](#) on eligible Applicants, activities and costs. These are for guidance only and Applicants should take their own specialist advice if in doubt. It is the responsibility of the Applicant to ensure that the rules and guidance are adhered to both at application stage and following approval.

European Structural Investment Funds (ESIF) are governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant documentation listed in the 'Document Checklist' (Section 8 of this call specification) prior to completing and submitting their Full Application in the ECLAIMS IT system. If successful, Applicants will enter into the standard Funding Agreement and must abide by the standard terms and conditions contained therein. Applicants are therefore strongly advised to read these terms and conditions to ensure that they

would be able to enter into such an agreement prior to responding to the call. Once a Funding Agreement has been issued it should be signed and returned within a short timescale.

4.2 Intervention Rate & Match Funding

ESF is funding used where no other funding can be obtained (the funder of last resort) and the maximum ESF intervention rate for the operation is 60% (depending on category of region). This means ESF can contribute up to 60% of the total eligible project costs, subject to State Aid regulations. The remaining 40% or more must come from other eligible sources. For all full applications, the applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.

ESF is not paid in advance and expenditure must be defrayed prior to the submission of any claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

4.3 Applicants

Applicants must be legally constituted at the point of signing a Funding Agreement, and be able to enter into a legally binding Funding Agreement. The Applicant will be the organisation that, if the application is successful, enters into a contract for ESF and therefore carries the liability for ensuring that the terms of the ESF Funding Agreement are met by them and to all delivery partners. If there is more than one organisation applying for the funds, a lead organisation must be selected to become the Applicant. It is this organisation that carries the responsibility and liability for carrying out a compliant project.

The Managing Authority will consider the Applicant's track record, both positive and negative. If the Applicant has been involved in the delivery of previous European grants and any irregularities with this (these) grant(s) have been identified, the Managing Authority will look into these and expect to see how and what steps have been taken to ensure that these have been addressed to mitigate the risk of further irregularities in the future. It is acknowledged that some organisations will be new to ESIF funding and will not have a track record.

4.4 Cross Cutting Themes

All applications received under this Call should demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross cutting themes for ESF are 'gender equality and equal opportunities' and 'sustainable development'.

For ESF, the project applicants will be required to deliver their services in-line with the Public Sector Equality Duty (as defined in the Equality Act 2010). All projects must have a gender and equal opportunities policy and implementation plan which will be submitted at full application stage and in-line with Managing Authority guidance. Project applicants will also be required to answer a number of ESF-specific equality questions which will be set out in both the Full Application screens in the ECLAIMS IT system and the related ESF Online Full Application guidance.

For ESF, all projects will also be required to submit a sustainable development policy and implementation plan (in-line with guidance produced by the Managing Authority).

The ESF programme particularly welcomes projects that have an environmental focus that can meet the strategic fit at local and programme level whilst also adding value by:

- supporting environmental sustainability; and/ or
- complementing the environmental thematic objectives of other programmes such as ERDF; and/or
- using the environment as a resource to help motivate disadvantaged people

Further information is available in the [ESF Operational Programme](#) and in ESF Action Note 019/18: [New Assessment Scoring Procedures for Equality and Sustainable Development in ESF](#).

4.5 State Aid & Revenue Generation

Applicants are required, in the Full Application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid.¹ Grant funding to any economic undertaking which is state aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme or is covered by the De Minimis Regulation. Guidance for grant recipients, explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the Programme.

The Managing Authority is not able to give legal advice on State Aid. It is the responsibility of the Applicant to ensure that the operation is State Aid compliant.

Where the Applicant does not perceive that there is any State Aid, it should state whether or not it considers Articles 61 and 65(8) of regulation 1303/2013 to apply. This revenue should be taken into account in calculating eligible expenditure. Article 61 refers to monitoring revenues generated after completion of the project, and Article 65(8) how to deal with differences in the forecast and actual revenues at the end of the operation. The details of this will be tested at the full application stage.

4.6 Funding Agreement

The Funding Agreement is a standard, non-negotiable and legally binding document. Any successful Applicant will be subject to the terms and conditions contained within this agreement. Applicants are strongly advised to seek their own advice to ensure

¹ Article 107(1) of the Treaty on the Functioning of the European Union provides that: "Save as otherwise provided in the Treaties, any aid granted by a Member State or through state resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market."

that they would be able to enter into and abide by the terms of the Funding Agreement.

Failure to meet any of the conditions of the agreement or the commitments within the application will result in claw back of funding.

Applicants should be aware that additional provisions and securities may be included within the Funding Agreement to protect the investment. These will be further discussed if relevant following the Full Application stage.

4.7 Procurement

All costs delivered by the Grant Recipient (the applicant) and/or delivery partners must be delivered on an actual cost basis. Other costs must be procured in line with EU regulations. The most common error identified during audit has been failure to comply with relevant procurement regulations and crucially to maintain a full audit trail to prove that they have complied with the relevant regulation. Robust and transparent procurement is required to ensure that Grant Recipients:

- consider value for money;
- maximise efficient use of public money; and
- maintain competitiveness and fairness across the European Union.

It is recommended that applicants seek their own legal advice pertaining to their procurement and requirements to publicise any tendering opportunities.

The Managing Authority is not able to give legal advice on procurement. It is the responsibility of the applicant to ensure the project is compliant in this respect.

4.8 Retrospection

There will be no retrospection for applications made against this call.

For organisations applying for ESF funds through the Single-Stage Application process, the effective date for incurring eligible ESF expenditure will be the day after the relevant open call closing date. Any expenditure incurred by an ESF Direct Bid project prior to this date is ineligible.

However, any expenditure incurred by an ESF applicant, up to and including the date on which an ESF Funding Agreement is fully executed, will be at the applicant's own risk.

5. Application Process & Prioritisation Methodology

The ESF application process is a single-stage process – Full Application only.

Applicants must fully complete the Full Application information required in the ECLAIMS IT system (section 9 refers).

The ESF Online Full Application guidance for Applicants, is available on the [European Growth Funding](#) website pages – this document includes step-by-step

details of how to record your Full Application information in ECLAIMS, as well as guidance on the depth and content expectations.

Following the call closing date, applications will usually first be subject to a Gateway Assessment undertaken by the Managing Authority under the following criteria:

- Applicant eligibility;
- Activity and expenditure eligibility; and
- The fit with the ESF Operational Programme and the call.

Proposals that pass the Gateway Assessment will move into the Core Assessment which consists of the following:

- Strategic fit;
- Value for money;
- Management and control;
- Deliverability;
- Procurement / tendering; and
- State Aid compliance.

The Managing Authority will seek advice from partners when considering applications to ensure its appraisal is informed by local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy. This will include the relevant LEP Area ESIF Committee and other partners deemed relevant to the application.

The appraisal and any prioritisation will be undertaken using only the information supplied as part of the application process. The Managing Authority cannot accept further detail outside this process.

However, the Managing Authority reserves the right to assess applications from existing Grant Recipients via the Project Change Request route where appropriate, as set out in the 'Call Context' section of this specification.

Non-public sector Applicants may be subject to due financial diligence checks. Applicants will be required to submit accounts, and to clarify financial or other organisational information. New Applicant organisations may be required to provide details of a guarantor.

If, following the appraisal process, an applicant is not satisfied with the ESF funding decision for their project, they can submit an appeal in writing to the ESF Managing Authority.

6. Technical Support

All Full Applications for this call **must** be completed and submitted using only the ECLAIMS IT system. Applications submitted via any other method will not be accepted.

If you encounter any technical difficulties completing or submitting your Full Application via the ECLAIMS IT system, please send an email to:

E.CLAIMSSUPPORT@DWP.GOV.UK

It is your responsibility to submit your application in good time to allow time to resolve any technical issues. Except in the unlikely event that there is a general failure of the system in the final hours, we will not normally extend the deadline for technical issues.

ESF Call Template – Online Application

Version 3

Published: 11/03/2020

Technical support is available Monday to Friday, from 8am to 6pm.

Please retain evidence of your request(s) for any Technical Support, in case there are any issues arising around this element of the application process which may need further investigation.

Please also note that, as this is a competitive call and to preserve impartiality, other than providing Technical Support, we are unable to enter into correspondence with applicants over their Full Application prior to the call closing date. Details of where guidance can be found are contained throughout this calls document.

7. Key Reference Documents

When developing your Full Application, it is recommended that you refer to the following documents as a minimum:

- ESF Online Full Application Guidance;
- Local Enterprise Partnership area's ESIF strategy;
- National ESF Eligibility Rules;
- ESF Programme Guidance.

8. Full Application – Supporting Document Checklist

The appraisal will be undertaken on the basis of the Full Application information submitted by the applicant using the ECLAIMS IT system, together with any supporting documents uploaded into ECLAIMS IT system by the applicant at the point of closure of the call.

As a minimum, applicants should upload the following documentation into the ECLAIMS IT system alongside completion of the required Full Application screens/fields in ECLAIMS.

Failure to upload the requested documentation could result in the application being rejected.

The ESF Online Full Application Guidance explains how documents should be uploaded into ECLAIMS and Annex B of the same guidance explains the naming conventions to be used for each document.

Mandatory Supporting Documents

1. **A visual, high level customer journey** document e.g. flow chart;
2. **Confirmation of match funding** from each funder. Match-funding should be confirmed (with the exception of SME contributions) prior to the issuing of any Funding Agreement;
3. **Detailed Granular Budget breakdown** (All costs must be itemised, eligible, appropriate for the project and profiled across the project period. The granular budget should also include all hourly rate figures, per job role, for staff working part-time or part of their time on the ESF Project – calculated using the 1720 hour rate calculation set out in the [ESF Programme Guidance](#) on GOV.UK. This includes match-funded staff roles);

4. **Equality & Diversity Policy and Implementation Plan** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
5. **Sustainability Policy and Implementation Plan** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
6. **Job Descriptions** at least 1 per lead applicant and 1 per each Delivery Partner;
7. **Organogram** covering all staff, including any delivery partner and/or match-funded staff posts;
8. **Sample HR letter** as per the requirements set out in the [ESF National Eligibility Rules](#) on GOV.UK;
9. **Project level risk register** (this should cover areas such as financial risk, output risks, delivery risks etc. please ensure that the register covers how these risks will be managed and mitigated);
10. **Anti-Fraud Statement** (a statement on how you will deal with suspected fraud in your organisation and if appropriate, with your sub-contractors);
11. **Due Diligence Financial Information.** If your organisation is a private or voluntary and community sector organisation or a Further Education College, you must upload:
 - Financial accounts for the most recent 3 years;
 - Proof of existence - Certificate of Incorporation, Charities Registration, VAT Registration Certificate or alternate form of incorporation documentation;
 - Proof of trading - Financial Accounts/Statements for the most recent two years of trading including, as a minimum, Profit and Loss Account and Balance Sheets;
 - Completed FVRA Applicant Template (for applications requesting annualised funding of greater than £1m).

Optional Supporting Documents

12. **Recruitment Policy** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
13. **Sample Timesheet** applicable if you or your Delivery Partners have members of staff working part of their time on your ESF Project;
14. **Procurement policy** applicable if your ESF project is expecting to incur procurement costs from existing or future procurements and you are not intending to use the 40% Flat Rate Indirect Cost option;
15. **Retention Policy** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
16. **Draft SLA with Delivery Partners** applicable if your ESF Project will have one or more Delivery Partners;
17. **Independent state aid advice** applicable only if you have obtained independent advice to support your quoted ESF project State Aid position;
18. **Proof of Irrecoverable VAT** applicable only if you have Irrecoverable VAT which is relevant to your ESF Project.

NOTE: The ECLAIMS IT system can accept most standard Office file formats such as MS Word documents and excel documents in the format xlsx.

However, documents which contain macros cannot be uploaded into the ECLAIMS IT system.

In addition, the ECLAIMS IT system cannot accept tables, graphics or other visuals in the narrative fields within the Full Application screens. If you wish to include this type of information as part of your Full Application, you will need to upload this information as part of a supporting document.

9. Full Application Submission

Completed Full Applications must be submitted to the ESF Managing Authority via the ECLAIMS IT system.

Although the ECLAIMS IT system is designed to be intuitive, it is strongly recommended that you closely follow the steps in the [ESF Online Full Application Guidance](#), published on GOV.UK to give the best chance of you submitting a fully completed, compliant Full Application.

The Managing Authority reserves the right to reject applications which are incomplete or not submitted in a timely and compliant way.

10. Accessing ECLAIMS

If you do not already have access to the ECLAIMS IT system, please send an email to E.CLAIMSSUPPORT@DWP.GOV.UK as soon as possible.

You should complete a form for **each** individual person in your organisation who will be responsible for completing and/or submitting your Full Application.

Each new ECLAIMS user will then receive an email from an organisation called Datamart – this will contain their unique log-in details. The user will need to follow the instructions within the email to change their password in the first instance. They will then be able to access and use the ECLAIMS IT system.

NOTE: To avoid any unnecessary delays in submission of your Full Application, it is recommended that you submit new ECLAIMS IT system access requests as early in the application process as possible.

The ECLAIMS IT system is a web based application available through the following link. It is recommended that you use the Chrome browser to access the ECLAIMS IT system, or if this isn't available, Firefox.
