Growth Programme for England

Annex A

2014 to 2020 England European Regional Development Fund and European Social Fund Programme

Communications Annual Activity Plan for 2020

2014 to 2020 England European Regional Development Fund and European Social Fund Programme Communications Annual Activity Plan for 2020

Focus of 2020 communication activities

The 2020 communications activity will aim to build on communications delivered in the initial years of the programme and further publicise the opportunities around ERDF and ESF funding in England. It will continue to promote the purpose, priorities and availability of ERDF and ESF and how to access them. It will also align, where possible/suitable, with communications for planned future funds in England which are currently in development and which will follow the current European Structural Fund programming period. Lists of beneficiaries receiving funding will continue to be published on www.GOV.UK to ensure that details of ESIF investments are openly accessible. Communication channels and networks for projects and key partners will also be further developed to maximise opportunities for joint publicity and sharing best practice and positive news stories; and project case studies will be developed and used to further publicise the programme aims and achievements. There will be an increased focus on delivering thematic communications, building on some of the activities delivered in 2019 such as June's 'ERDF Environment Month' and ERDF activities tying in with National Inclusion Week in September.

This activity plan is based on the expectation of a deal being reached surrounding the UK's exit from the EU (in which case the draft withdrawal agreement, which includes the continued delivery of the ERDF and ESF programmes in England to the end of the current programming period, would kick in). Should we exit the EU with no deal, this document would be reviewed at an appropriate time in the year.

Growth Programme for England

Activity Area	Activity Details	Target Audience	Purpose	Timescale	Cost	Funding Stream	Expected Results and Impacts	Evaluation Measures
ERDF and ESF Programme major annual information activity	<p>National information activity campaign using a variety of offline and online materials and channels delivered over a period that is flexible to meet the Programme's needs.</p> <p>Activities are likely to include the publication and distribution of a programme case study book, social media activity / promotion, coverage through the programme bulletin and communication channels with partners;</p> <p>Where possible, will also include local / partner and project activities at local LEP level.
