Peer Review - purpose and methodology

This Peer Review has been commissioned by North West England Group [REDACTED].

This review focuses on the whole claimant journey rather than the handling of any complaint – looking at both any variances from Customer Journey national standards at the local level and any improvements required to the Customer Journeys. Its purpose is as a continuous improvement tool and not to be used to seek out or apportion blame.

The review has been conducted by examining all available claimant records, relevant evidence and current/appropriate guidance.
