New local authorities added to the LA list – with old numbers being highlighted with (LGR 2019).

Also added to amendments list to clearly show the numbers pre LGR.

This list will feed into all data collections, transfers and validation rules that use LA code within them.

Reason for change (including benefits):

Due to the planned LA boundary changes from 1 April 2019:

2 local authorities (Poole and Bournemouth) will merge to form a single authority. The new authority will also gain Christchurch, which is currently part of Dorset – the LA will be called Bournemouth, Christchurch & Poole and be allocated number **839**

Dorset local authority will also be allocated a new number of 838

Local authorities have been given a copy of these numbers and DfE colleagues are using these numbers for funding calculations for 19/20 however, the numbers in this file do remain subject to change until they exist on GIAS.

Impact of not doing the change:		
LA numbers will not be available in systems and validations in good time.
