## **COVID-19 DBS Checks: Flowchart**

Before applying for free-of-charge DBS checks and fast-track Barred List(s) checks, here are some key facts to inform your emergency planning risk assessment:

- About 94% of all Standard and Enhanced DBS checks have no information included on them.
- Only 0.02% of Enhanced with Barred List(s) DBS checks state that the person is on a Barred List

In the "Position Applied For" field, add 'COVID19' to allow DBS to identify these applications e.g. 'CHILD AND ADULT WORKFORCE COVID19'

Identify the applicant as a 'volunteer' to ensure the check is free-of-charge Submit the application in the usual way
