AAIB Bulletin No 4/2019, page 36 refers

The AAIB report published in Bulletin 4/2019 reported in the Synopsis: '*The pilot and passenger both sustained minor injuries.*' This was based on early information. It was later established that the passenger had sustained multiple injuries, including a fractured vertebra. The passenger's injuries are therefore properly classified as 'Serious'.

The Bulletin header information should, therefore, read:

Injuries: Crew - 1 (Minor) Passengers - 1 (Serious)

The online version of this report was amended on the 14 November 2019.
