## Request for Marine Licence Variation

08 July 2019

Our ref. [03215700\_A]

Dear Shanna,

Further to our previous conversations, Hornsea Project Two formally requests an amendment to the Project's deemed Marine Licences (DMLs) to reflect an update in the Maritime and Coastguard Agency's (MCA) Marine Guidance Note (MGN) reference.

Schedules 8 – 11, Part 2, Condition 3 makes reference to MGN 371 which has now been superseded by MGN 543, as reflected on the MCA website<sup>1</sup>. The link currently in the footnotes of the DMLs also links to the now obsolete MGN 371 rather than redirecting to the correct MGN.

We therefore propose that any reference to MGN 371 is replaced with MGN 543 'Safety of Navigation: Offshore Renewable Energy Installations (OREIs) - Guidance on UK Navigational Practice, Safety and Emergency Response' and that the link to the MGN guidance in the footnotes is also updated to the link provided in the footnotes of this letter below.

If you have any queries on this matter, please do not hesitate to contact me

Yours sincerely

**Natalia Lopez**

Offshore Environmental Manager – Hornsea Project Two
