IHAT 1	The RNP are not going to put an entry in the case file diary about the fact that they came to base and started looking for British soldiers that is specifically about engineers contacting the people at the dockside, it's not about going to the base.
SO76	OK.
IHAT 2	Yeah it's (inaudible).
SO76	I don't remember us going right let's go down the dockside and er find people.
IHAT 2	Can you, I mean you know casting your mind back.
SO76	Yeah.
IHAT 2	Can you recall and obviously on here it mentions Lt [REDACTED]
SO76	Yeah.
IHAT 2	7 Brigade, but the fact is that if it was a case that soldiers who were visiting the dockside.
SO76	Yeah.
IHAT 2	In your position obviously in the ops room would it be right to say that you would have known about that?
SO76	Well if they were going to be going down to the dockside to specifically talk to people.
IHAT 2	Yeah.
SO76	Er there is a possibility I would have known about that if it happened.
IHAT 2	Yeah I mean take, if we take you back to the fact that when they book out they have to notify you of where they're going.

<input type="text" value="IHAT 2"/>	About the fact that ehm units were told to no longer visit the docks.
<input type="text" value="SO76"/>	I wasn't definite about that but I sort of remembered staying away from it I think er I think we told the guy to stay away from there for a little while just to calm things down but I can't be definitive about that.

<input type="text" value="SO76"/>	Yeah.
<input type="text" value="IHAT 2"/>	How would that instruction have been put across?

IHAT 2	Ehm BPO 7 Brigade.
SO76	Yeah.
IHAT 2	Who stated that the engineers section of Brigade were enquiring about what was being done about the incident in question. It also appears members of the engineering unit so obviously they're enquiring about it and suggesting that they've been going down there. I mean that's the way I read it.
SO76	Yeah it appears, so that's them chasing it up saying what are you doing about it but also saying it appears that some units are going down there.
IHAT 2	Yeah would you agree with the way it reads?

IHAT 1	And provided to the RMP by Staff Sergeant SO77 when he was interviewed.
SO76	OK.
IHAT 1	Were you involved in that obtaining those details?
SO76	Er I don't recall specific getting those details no.
IHAT 1	What we'll do now is move onto your statement which as we mentioned earlier is recorded by Sgt Piscopo. What I've got is a copy of your original one so if I just show you that you can see it's obviously in the binder.

SO76		Yeah that's my signature.
IHAT 1		Is that your signature?
SO76		Yeah.
IHAT 1		Yeah obviously at the bottom of the page and it consists of six pages I believe in total.
SO76		Has it got the timings on it because we were there for about 4 or 5 hours?
IHAT 1		Was it?
SO76		Yeah.
IHAT 1		So that was on 7 th June about two weeks later.
IHAT 1		7 th June OK I'm going to actually refer to your typed one to read it because it's easier to read out. So I am the above named person, I am currently serving with my unit, detailed overleaf on operations in Iraq, I entered theatre on 2 nd March ehm 03. I currently hold the appointment of 2 I/C over my squadron a position I have held since 3 rd December 01. My unit is currently located at a location within what used to be an Iraqi naval base within Basra. We have been at this location since 8 th or 9 th April 03. Also within the former naval base there is a port/quay side area which we periodically use to wash down our vehicles. This area is also used by quite a large local community who have set up home there since the war. About 1130 hours on Friday 23 rd May 03 I was sat in my office when I was alerted by a member of my unit. I cannot recall who that a message had been received in the ops room that someone had gone in the water of the port. At this point I was unaware of who in my unit was involved. OK?
SO76		Hm mm.

I received an initial message from the call sign concerned detailing that an Iraqi civilian had gone into the water and members of the unit were trying to get him out. I cannot recall exact wording. I then asked to speak to call sign 4 zero A which is the support.</p> <p>support, sorry</p> <p>Sorry which is the support troop Cdr, 2nd Lt SO70 of my unit. About a minute later I heard what I recognised to be 2nd Lt SO70's voice on the radio, I could clearly hear that he was panting quite noticeably whilst talking. He confirmed that an Iraqi male had gone into the water and members of the unit were trying to get him out. If I just stop reading at this point do you notice any difference between what you said, told us earlier and obviously what's in your statement?</p> <p>Yeah or well the difference being in addition to speaking to the radio operator who was there.</p> <p>Yeah.</p> <p>I subsequently spoke to SO70</p> <p>Yeah.</p> <p>That's the difference.</p>

IHAT 2	Yeah exactly so can you remember the conversation that you would have had with SO76 ?							
SO76	No I don't specifically remember that conversation with SO76 er it was if anything to do about getting out and er don't go in the water because as you can tell by my questions there a lot of my concerns were to do with safety of the guys did they have life vests.							
IHAT 2	Yeah.							
SO76	Because they were.

SO76	Oh probably.

SO76	Trying to get the guy out, trying to find him, it would have been along those lines ehm I would have said get out you're not you know.

IHAT 2 SO76	Right so at this point Staff Sgt SO77 of my unit entered the ops room, Staff Sgt SO77 was the support troop Staff Sgt.
IHAT 2 SO76	Yeah. And at the time was about to go down to the port area to join the rest of his troop, as he entered the ops room I received a message over the radio from 2 nd Lt SO70 that a crowd was building up at his location and he stated that there were not any unit members to control it. I immediately told Staff Sgt SO77 to go to the wash down area at the port control the situation, he then left my location. At that point albeit they're saying a crowd was building up you know reading that statement doesn't suggest there's actually a problem would you agree?
SO76	Er reading that statement purely as it is I would agree with you.
IHAT 1 SO76	Yeah. But the impression I got which I can't obviously repeat in terms of how it was sort of being described it didn't feel too friendly.

When I asked him, 2 nd Lt SO70 to explain what had happened he told me that whilst they were washing their vehicles down at the quayside he saw two Iraqi males digging up copper cable. He approached the men and using a local as an interpreter he told them to stop and to leave the area. He further stated that the Iraqis became quite nervous and eventually ran away from him and jumped into the water. One swam across the quayside and got out the other side and the other just sank. Again that term sank has been used again hasn't it. Hm mm yeah. Obviously you know we've asked you about your conversation. Yeah. With Lt SO70 yeah. Hm mm. Does that help to jog your memory? IHAT 1	That's what you thought at the time is,nt it.
SO76	Not if you're in a shooting match then you can almost say fair cop but we're talking about this wasn't you know they weren't fired upon and returning fire which again would be an RNP investigation anyway and er at the time I'm not sure if you're aware of the situation in Iraq at the time Brigade Cdr's walking round with lawyers and next to them. Because nobody was sure about the rule of armed conflict and how it was applying you know where there somebody shot at you as soon as they put their rifle down you can't shoot at them. They could shoot at you, run away and you can't do anything about it so there was er you could say there was an atmosphere of er you know not mistrust, there was an atmosphere of anything you did you were going to end up in jail about and then the Daily Mirror produced a, those false pictures with er old rifles against the pretend prisoners.
IHAT 1	That was,nt peace time was it.

SO76	It was around then it happened when we were in theatre so for me to call it, take the worst case scenario that my guys are down there, there's a dead Iraqi civilian I'll get the police involved to investigate it. It's, I'll do that again if I have to in terms of thought process that oh shit yes I know they were doing an act of bravery and I stopped that act of bravery by telling them to get out of the water er because my focus was more on the road safety er rather than you know by the sounds of it you can't help the person, they've been in the water, they can't find him, get out of the water otherwise you're going to become victim yourself so.
IHAT 2	The next day as you say I then reported all details of the incident to the Regiment.
IHAT 1	Sorry IHAT 2
IHAT 1	Yeah, just go back to that bit say the account was confirmed by L/Cpl SO71 and sapper SO72 which you say the statement is a ehm very soon after the event recollection of events would be a darn sight fresher than they are today.
SO76	Hm mm.
IHAT 1	Why did you not speak to SO75 ?
SO76	Don't know can't give you a reason.
IHAT 1	You say earlier that you identified the people who were at the scene are the four people including SO75
SO76	After I was reminded the only ones I can really remember down there at the time were SO72 and.
IHAT 1	When you say earlier at this stage.
SO76	Yeah, yes.
IHAT 1	Those were the four people involved.

IHAT 2 2.07:35

I then reported all details of the incident to Regiment HQ and Battle Group HQ for their action. Later that day about 1330 hours I was informed by members of the guard that members of the drowned man's family were at our location. I went to meet them with a unit interpreter who I know as

SO76

OK.

IHAT 2

Yeah does that ring a bell to that, ?

SO76

It sort of sounds familiar but.

IHAT 2

Yeah because you know when we asked earlier about interpreters.

SO76

Hm mm.

Yeah.

We had a number of them.

Yeah.

OK.

One of the males identified himself as the father of the drowned man, he was very aggressive and quite hysterical at this point and immediately began issuing threats to me and my unit. informed me that he'd stated that British soldiers had killed his son so he would kill ten British soldiers in revenge. He further states that witnesses had told him that soldiers had tied his son's hands and thrown him into the water. He confirmed the statement by continuing making the action crossing his wrist.

Yeah.

How, I mean when you met this man.

Hm mm.

Obviously you mentioned he was hysterical but did you get the impression that he genuinely believed this is what had happened?

Yes.

Yeah?

I genuinely believed that he thought his son's hands were tied together and he was thrown in the water.

Yeah.

That he believed that what he was saying was true, I didn't believe what he was saying was true er but he believed what he was saying was true.

Did he indicate who had told him of that?

No, no.

SO76	Yeah er <input type="text"/> might know about the roster for the guard but I wouldn't have a clue it's a Sgt Major's business to do things like that.						
IHAT 2	Right during the conversation I was trying to reason with the man but he did not appear to be interested in what I had to say. He continued by stating that he did not care about his own life and would kill soldiers with that in mind. He then began demanding that we recover his son's body. I informed him that military divers have been requested but were tasked elsewhere which was true as I had asked the question and was informed by Regiment HQ they were not available. He then began giving ultimatums with regard to recovery of his son's body. This went from one day to eventually seven days at the end of which he could start killing soldier I assume its soldiers. I did not agree to any of these ultimatums and informed him that his son was stealing and jumped into the water to escape the soldiers.

SO76		In my recollection that's what would have happened, we wouldn't have got them to make notes for no reason.

SO76		I can't remember if it was me or the Sgt Major or if they'd got them I can't remember how they got them but they certainly, if they've got them then they got collated and given to them.

<input type="text" value="SO76"/>	Yeah look er I don't remember speaking to the padre but my normal thing would have been for his senior NCOs and his Cpls to keep an eye on him and talk to them.
<input type="text" value="IHAT 1"/>	Hm mm.
<input type="text" value="SO76"/>	And wrongly or wrongly back in 2003 and this is thankfully things have changed a lot on leaving Iraq we were briefed by a psychiatric nurse for 15 minutes on post-traumatic stress disorder and told to go home and if we experience anything call a doctor. I know things have changed a lot so at the time to be honest we weren't that educated and that aware of it, it was more of a case of mates keeping an eye on mates.
<input type="text" value="IHAT 1"/>	Yeah.
<input type="text" value="SO76"/>	Rather than you know oh look hindsight's a great thing but probably should have got I mean not always keen to talk to padres but should have got maybe somebody older and wiser but the guys would have kept an eye on each other. Staff Sgt <input type="text" value="SO77"/> is an experienced guy who would have kept an eye on them.
<input type="text" value="IHAT 1"/>	You mentioned ehm earlier that ehm obviously that they jumped in the water to try and save someone's life, was a bravery award considered for anything?
<input type="text" value="SO76"/>	No.
<input type="text" value="IHAT 1"/>	Why is that?
<input type="text" value="SO76"/>	Well it sounds a weird thing to say this, this sounds very derogatory especially given that we're being videoed ehm they sort of doing what either they expect so bravery in terms of above and beyond the call of duty and plus what had happened I think it was deemed at the time we did,nt even consider it. Nobody brought up the fact that we'd write these guys up for a bravery award and I take your point completely because what they did was brave and slightly stupid to a certain extent jumping in that water. Er but yeah again maybe in hindsight it's something that could have potentially considered but not at the time.

I remember receiving a radio transmission from a call sign saying that detained three Iraqi males for stealing, stealing cables. The call sign was seeking direction on what course of action they were to take. To the best of my memory I called Capt SO76 giving him a brief on what had taken place. He then told me to inform the call sign to arrest the Iraqi males. However it may have been he told the call sign directly over the air and I recorded the details. IHAT 2	Right he goes onto say that he, I am unable to remember the date we left Iraq, prior to moving out all the complete, prior to moving out all the completed radio log sheets many have important documentation who we place in the CD1 box. This book is approximately the size of a small suitcase. Capt SO76 would also have placed documents he wanted to retain in the box. It was kept in the vehicle and remained there until it was returned to us back in Germany.
SO76	Yeah.
IHAT 2	Within two months returning to Germany I was promoted to the rank of Cpl and transferred to Hohn in Germany therefore the incident I'm going to relate to now must have taken place prior to me being transferred. He then goes onto say to the best of my memory I was with Capt SO76 in the squadron HQ building when I say a photocopy of the 26 radio log entry relating to the drowning incident. My signature was beside the entry, I know it was a photocopy as the bottom left corner was black and the paper had been folded over when it was copied. I know it sounds strange but I cannot remember the circumstances surrounding me seeing this log. I recall Capt SO76 making the comment that he log may be required sometime in the future. It is possible that Captain SO76 asked me to photocopy the log sheet. I cannot explain how this log sheet came to be in Capt SO76's possession.
SO76	Everything's true, the log was back in the squadron and.

IHAT 1	Hm mm.						
SO76	In one box and that would have just been placed on the tank but when they got back they would have had to have been er in squadron HQ. Right he says the normal procedure when the CD1 box was returned to Hohn it would be handed to the quartermaster signals master instruction CMSI..						
SO76	Yeah.						
IHAT 1	Or a regimental signals instructor (RSI).						
SO76	Yeah.						
IHAT 1	For them to record and store, at some stage Capt SO76 's documents would have been returned to him for his necessary action. This may have been prior to our being, to our other being sent to the QSMI or RSI. But Capt SO76 being in possession of the radio log sheet suggests to me that he got hold of them prior to them being sent to the QSMI or RSI or he specifically requested the radio log sheets himself.

IHAT 2	And it's basically what he says is there is something that has stuck in my memory for the past 12 years and has caused me some concern. However if he was there it would explain why he made those comments to me so I've mentioned I found the comment Lt SO70 made strange. IHAT 1	To give a witness a copy of anything unless you're called as a witness at court at which point you'll be allowed to refresh your memory from what you told us today.
SO76	So I don't get to see these recordings ever again?
IHAT 1	No there's no need for you to (inaudible) they're of no benefit to you.
SO76	Because one thing I sort of I won't say I use the term regret and so on, the statement I gave in Iraq to Sgt pronsee!! .
IHAT 1	Piscopo.
SO76	Piscopo I didn't have a, I should have asked him for a copy.
IHAT 1	Hm mm.
SO76 3.29:20	Er so I don't have a copy of that and therefore er I don't have a you know and similar today so I won't have a copy of what's gone on today.
IHAT 2	No, there is a reason why we don't give copies because obviously we are still speaking to people.
SO76	Yeah.
IHAT 2	And if we gave you a copy you might be tempted to send your copy of your statement to somebody else who we still haven't seen.
SO76	Oh OK.
IHAT 2	Which obviously could contaminate what they have to say, that's why we started off with asking you to give your recall of what happened before we went into your previous statement.
IHAT 1	It's to maintain the integrity of everything and the other witnesses and it's not fair to er the people who have been investigated if there's copies of statements being banded around and.

SO76	So is that general practice then?
IHAT 1	It is in, yeah it would appear that the <input type="text"/> may do something slightly different but er.
SO76	We're in <input type="text"/> aren't we.
IHAT 1	Er yes we are it's a British investigation so we abide by the.
SO76	So can I apply to write er in due course let's say it's er the investigation is concluded and for let's say right it's finished nothing is going to happen.
IHAT 1	Yeah.
SO76	What happens then?
IHAT 1 3.30:45	Ehm it's kept er everything's kept for a certain amount of time as everything is in British law.
SO76	Can I ask for a copy then?
IHAT 1	In case there's a re-investigation or an appeal or ehm.
IHAT 2	I mean would you have any reason for asking for a copy?
SO76	Er my own personal records.
IHAT 1	Yeah.
SO76	I always like you know like copies of things I've done everything from a report I've written on soldiers from a you know like a annual report.
IHAT 2	I mean the only thing we can say is the fact that we will have a record in our system.
SO76	Yeah.

IHAT 2	Ehm but the only time it's ever going to be used is if it ever went to court so as far as we're concerned that's confidential to us.						
SO76	Yeah.						
IHAT 2	In this investigation and it's not something we would necessarily like people to keep for the reasons we've already explained.						
SO76	OK.						
IHAT 2	And also it, I don't think it's right that other people, you know because it although you may keep documents somebody else might come across that document by mistake might they.						
SO76	3.31:50	Potentially yeah.					
IHAT 2	And it's not something that we would particularly like to know that you know we've mentioned a lot of names during this ehm meeting.						
SO76	Yeah.						
IHAT 2	And albeit you might be happy for people to know about yourself, the other people might not want to be ehm told you know.						
IHAT 1	There's some sensitive stuff that we discussed today.						
SO76	Oh absolutely.						
IHAT 1	You know that's not for general public consumption.						
SO76	No totally agree.						
IHAT 1	Yeah.						
SO76	And not many people in the world know about this.

IHAT 2	No exactly and that's ehm that's how it should be, it should stay.
SO76	Yeah it's not and part of that is the for the guys that are for want of a better word being investigated for their benefit.
IHAT 2	Exactly to protect their interests as well yeah.
SO76	Yeah OK.
IHAT 2	Right well what we have to do following this ehm interview is that we will need to ehm take a statement from you, it's a very brief statement.
SO76	No.
IHAT 2	As in it's, this is the statement it certainly won't take as long as this has.
SO76	Right.
IHAT 2	And it is purely just to for you to confirm that what you've told us is the truth basically.
SO76	OK.
IHAT 2	So unless you've got something else to say ehm.
SO76	Er no I haven't, nothing further to add er might just make er before we do that just a quick phone call.
IHAT 1	Why is that?
SO76	Er to just to let <input type="text"/> know.
IHAT 1	Oh right yeah, yeah.
SO76	In case she has to go somewhere.
