between the United Kingdom and the Government of the State of
Israel, version 1.0, dated 19th February 2019 (“the Israel Origin
Reference Document”) applying from 23:00 hours on 29 March
2019.**

Version 1.0, dated 4th March 2019

**TITLE I
GENERAL PROVISIONS**

Article 1

Definitions

For the purposes of this Origin Reference Document:

- (a) ‘manufacture’ means any kind of working or processing including assembly or specific operations;
- (b) ‘material’ means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (c) ‘product’ means the product being manufactured even if it is intended for later use in another manufacturing operation;
- (d) ‘goods’ means both materials and products;
- (e) ‘customs value’ means the value as determined in accordance with the 1994 Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on customs valuation);
- (f) ‘ex-works price’ means the price paid for the product ex works to the manufacturer in the United Kingdom or in Israel in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes which are, or may be, repaid when the product obtained is exported;
- (g) ‘value of originating materials’ means the customs value at the time of importation of the originating materials used, or if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the UK or Israel;
- (h) ‘value added’ shall be taken to be the ex-works price minus the customs value of each of the materials incorporated which originate in the other countries referred to in Articles 3 and 4 with which cumulation is applicable or, where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the UK or in Israel;
- (i) ‘chapters’ and ‘headings’ mean the chapters and the headings (four-digit codes) used in the nomenclature which makes up the Goods Classification Table made pursuant to the Taxation (Cross-border Trade) Act 2018 and the Customs Tariff (Establishment) (EU Exit) Regulations

2019, contained in Annex 1 and interpreted in accordance with Part Two of the Tariff of the United Kingdom, referred to in this Origin Reference Document as ‘the Commodity Code’;

- (j) ‘classified’ refers to the classification of a product or material under a particular heading;
- (k) ‘consignment’ means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
- (l) ‘territories’ includes territorial waters;

- (m) ‘EUR’ means euro, the single currency of the European Monetary Union;
- (n) ‘EU’ means the European Union;
- (o) ‘UK’ means the United Kingdom of Great Britain and Northern Ireland;
- (p) ‘the UK-Israel Agreement’ means the free trade agreement concluded between the United Kingdom and Israel on 19th February 2019 referred to in Schedule 1, Column 1 of the Customs Tariff (Preferential Trade Arrangements) (EU Exit) Regulations 2019.

TITLE II

DEFINITION OF THE CONCEPT OF ‘ORIGINATING PRODUCTS’

Article 2

General requirements

1. For the purpose of implementing the UK-Israel Agreement, the following products shall be considered as originating in the UK:
 - (a) products wholly obtained in the UK within the meaning of Article 5;
 - (b) products obtained in the UK incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the UK within the meaning of Article 6;

2. For the purpose of implementing the UK-Israel Agreement, the following products shall be considered as originating in Israel:
 - (a) products wholly obtained in Israel within the meaning of Article 5;
 - (b) products obtained in Israel incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Israel within the meaning of Article 6.

Article 3

Cumulation in the UK

1. Without prejudice to the provisions of Article 2(1), products shall be considered as originating in the UK if they are obtained there, incorporating materials originating in Switzerland (including Liechtenstein)¹, Iceland, Norway, Turkey, or in the EU, provided that the working or processing

¹ Due to the Customs Union between Liechtenstein and Switzerland, products originating in Liechtenstein shall be considered as originating in Switzerland throughout this Origin Reference Document.

carried out in the UK goes beyond the operations referred to in Article 7. It shall not be necessary for such materials to have undergone sufficient working or processing.

2. Without prejudice to the provisions of Article 2(1), products shall be considered as originating in the UK if such products are obtained there, incorporating materials originating in Israel or any country specified in Annex A, provided that the working or processing carried out in the UK goes beyond the operations referred to in Article 7. It shall not be necessary for such materials to have undergone sufficient working or processing.

3. Without prejudice to the provisions of Article 2(1), working or processing carried out in Iceland, Norway, or the EU shall be considered as having been carried out in the UK when the products obtained undergo subsequent working or processing in the UK that goes beyond the operations referred to in Article 7.

4. For cumulation provided in paragraphs 1 and 2, where the working or processing carried out in the UK does not go beyond the operations referred to in Article 7, the product obtained shall be considered as originating in the UK only where the value added there is greater than the value of the materials used originating in any one of the other countries referred to in paragraphs 1 and 2. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in the UK.

5. For cumulation provided in paragraph 3, where the working or processing carried out in the UK does not go beyond the operation referred to in Article 7, the product obtained shall be considered as originating in the UK only where the value added there is greater than the value added in any of the other countries.

6. Products originating in one of the countries referred to in paragraphs 1 and 2 which do not undergo any working or processing in the UK retain their origin if exported into one of these countries.

7. (a) Except as provided for in paragraph 7(b), the cumulation provided for in this Article may be applied provided that:

- i. a preferential trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade 1994 ('GATT 1994') is applicable between the countries involved in the acquisition of the originating status and the country of destination;
- ii. materials and products have acquired originating status by the application of rules of origin identical to those in this Origin Reference Document; and

iii. notices indicating the fulfilment of the necessary requirements to apply cumulation have been published by the Parties.

(b) The cumulation provided for in this Article in respect of the EU may be applied provided that:

- i. the UK, Israel, and the EU have arrangements on administrative cooperation which ensure a correct implementation of this Article;
- ii. materials and products have acquired originating status by the application of rules of origin identical to those in this Origin Reference Document; and
- iii. notices indicating the fulfilment of the necessary requirements to apply cumulation have been published by the Parties.

8. The UK shall provide Israel with details of the Agreements or arrangements including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries referred to in paragraphs 1 and 2.

Article 4

Cumulation in Israel

1. Without prejudice to the provisions of Article 2(2), products shall be considered as originating in Israel if they are obtained there, incorporating materials originating in the UK, Switzerland (including Liechtenstein), Iceland, Norway, Turkey, or in the EU, provided that the working or processing carried out in Israel goes beyond the operations referred to in Article 7. It shall not be necessary for such materials to have undergone sufficient working or processing.

2. Without prejudice to the provisions of Article 2(2), products shall be considered as originating in Israel if they are obtained there, incorporating materials originating in any country specified in Annex A, provided that the working or processing carried out in Israel goes beyond the operations referred to in Article 7. It shall not be necessary for such materials to have undergone sufficient working or processing.

3. Where the working or processing carried out in Israel does not go beyond the operations referred to in Article 7, the product obtained shall be considered as originating in Israel only where the value added there is greater than the value of the materials used originating in any one of the other countries referred to in paragraphs 1 and 2. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in Israel.

4. Products originating in one of the countries referred to in paragraphs 1 and 2 which do not undergo any working or processing in Israel shall retain their origin if exported into one of these countries.

5. (a) Except as provided for in paragraph 5(b), the cumulation provided for in this Article may be applied provided that:

- i. a preferential trade agreement in accordance with Article XXIV of the GATT 1994 is applicable between the countries involved in the acquisition of the originating status and the country of destination;
- ii. materials and products have acquired originating status by the application of rules of origin identical to those in this Origin Reference Document; and
- iii. notices indicating the fulfilment of the necessary requirements to apply cumulation have been published by the Parties.

(b) The cumulation provided for in this Article in respect of the EU may be applied provided that:

- i. the UK, Israel, and the EU have arrangements on administrative cooperation which ensure a correct implementation of this Article;
- ii. materials and products have acquired originating status by the application of rules of origin identical to those in this Origin Reference Document; and
- iii. notices indicating the fulfilment of the necessary requirements to apply cumulation have been published by the Parties.

6. Israel shall provide the UK with details of the Agreements or arrangements including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries referred to in paragraphs 1 and 2.

Article 5

Wholly obtained products

1. The following shall be considered as wholly obtained in the UK or in Israel:

- (a) mineral products extracted from their soil or from their seabed;

- (b) vegetable products harvested there;
- (c) live animals born and raised there;
- (d) products from live animals raised there;
- (e) products obtained by hunting or fishing conducted there;
- (f) products of sea fishing and other products taken from the sea outside the territorial waters of the UK or of Israel by their vessels;
- (g) products made aboard their factory ships exclusively from products referred to in (f);
- (h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreading or for use as waste;
- (i) waste and scrap resulting from manufacturing operations conducted there;
- (j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil;
- (k) goods produced there exclusively from the products specified in (a) to (j).

2. The terms ‘their vessels’ and ‘their factory ships’ in paragraph 1(a) and (g) shall apply only to vessels and factory ships:

- (a) which are registered or recorded in the UK or in Israel;
 - (b) which sail under the flag of the UK or of Israel;
 - (c) which are owned to an extent of at least 50 % by nationals of the UK, a Member State of the EU or Israel, or by a company with its head office in one of these States, of which the manager or managers, Chairman of the Board of Directors or the Supervisory Board, and the majority of the members of such boards are nationals of the UK, a Member State of the EU or Israel and of which, in addition, in the case of partnerships or limited companies, at least half the capital belongs to those States or to public bodies or nationals of the said States;
 - (d) of which the master and officers are nationals of the UK, a Member State of the EU or Israel;
- and
- (e) of which at least 75 % of the crew are nationals of the UK, a Member State of the EU or Israel.

Article 6

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained shall be considered to be sufficiently worked or processed when the conditions set out in the list in Annex II to this Origin Reference Document are fulfilled.

The conditions referred to above indicate, for all products covered by the UK-Israel Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list in Annex II to this Origin Reference Document, shall not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 % of the ex-works price of the product;
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded by virtue of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Goods Classification Table made under the Customs Tariff (Establishment) Regulations 2019 (“Goods Classification Table”).

3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 7.

Article 7

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 6 are satisfied:

- (a) preserving operations to ensure that the products remain in good condition during transport and storage;
- (b) breaking-up and assembly of packages;
- (c) washing, cleaning; removal of dust, oxide, oil, paint or other coatings;
- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total bleaching, polishing and glazing of cereals and rice;
- (g) operations to colour sugar or form sugar lumps;
- (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
- (i) sharpening, simple grinding or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
- (m) simple mixing of products, whether or not of different kinds;
- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) a combination of two or more operations specified in (a) to (n);
- (p) slaughter of animals.

2. All operations carried out either in the UK or in Israel on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 8

Unit of qualification

1. The unit of qualification for the application of the provisions of this Origin Reference Document shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Goods Classification Table.

It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Goods Classification Table in a single heading, the whole constitutes the unit of qualification;
- (b) when a consignment consists of a number of identical products classified under the same heading of the Goods Classification Table, each product must be taken individually when applying the provisions of this Origin Reference Document.

2. Where, under General Rule 5 of Part Two, Section 1, of the Tariff of the United Kingdom, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in General Rule 3 of Part Two, Section 1, of the Tariff of the United Kingdom, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

Article 11

Neutral elements

In order to determine whether a product is an originating product, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which neither enter into the final composition of the product nor are intended to do so.

TITLE III TERRITORIAL REQUIREMENTS

Article 12

Principle of territoriality

1. Except as provided for in Articles 3, 4 and paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in the UK or in Israel.
2. Except as provided for in Articles 3 and 4, where originating goods exported from the UK or from Israel to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the returning goods are the same as those exported;
and
 - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.
3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the UK or Israel on materials exported from the UK or from Israel and subsequently re-imported there, provided:
 - (a) the said materials are wholly obtained in the UK or in Israel or have undergone working or processing beyond the operations referred to in Article 7 prior to being exported;
and
 - (b) it can be demonstrated to the satisfaction of the customs authorities that:
 - (i) the re-imported goods have been obtained by working or processing the exported materials;
and
 - (ii) the total added value acquired outside the UK or Israel by applying the provisions of this Article does not exceed 10 % of the ex-works price of the end product for which originating status is claimed.
4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside the UK or Israel. However, where, in the list in Annex II to this Origin Reference Document, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the UK or Israel by applying the provisions of this Article, shall not exceed the stated percentage.
5. For the purposes of applying the provisions of paragraphs 3 and 4, 'total added value' shall be taken to mean all costs arising outside the UK or Israel, including the value of the materials incorporated there.
6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II to this Origin Reference Document or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6(2) is applied.
7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Goods Classification Table.
8. Any working or processing of the kind covered by this Article and done outside the UK or Israel shall be done under the outward processing arrangements, or similar arrangements.

Article 13

Direct transport

1. The preferential treatment provided for under the UK-Israel Agreement applies only to products, satisfying the requirements of this Origin Reference Document, which are transported directly between the UK and Israel or through the territories of the other countries referred to in Articles 3 and 4 with which cumulation is applicable. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the UK or Israel.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the United Kingdom by the production of:

- (a) a single transport document covering the passage from the exporting country through the country of transit; or
- (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;
 - and
 - (iii) certifying the conditions under which the products remained in the transit country; or
- (c) failing these, any substantiating documents.

Article 14

Exhibitions

1. Originating products, sent for exhibition in a country other than those referred to in Articles 3 and 4 with which cumulation is applicable and sold after the exhibition for importation in the UK or in Israel shall benefit on importation from the provisions of the UK-Israel Agreement provided it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these products from the UK or from Israel to the country in which the exhibition is held and has exhibited them there;
- (b) the products have been sold or otherwise disposed of by that exporter to a person in the UK or in Israel;
- (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;
- and
- (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin shall be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the United Kingdom in the normal manner. The name and

address of the exhibition shall be indicated thereon. Where necessary, additional documentary evidence of the conditions under which the products have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV DRAWBACK OR EXEMPTION

Article 15

Prohibition of drawback of, or exemption from, customs duties

1. Non-originating materials used in the manufacture of products originating in the UK or in Israel for which a proof of origin is issued or made out in accordance with Title V shall not be subject in the UK or in Israel to drawback of, or exemption from, customs duties of whatever kind.
2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in the UK or in Israel to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.
3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.
4. The provisions of paragraphs 1, 2 and 3 shall also apply in respect of packaging within the meaning of Article 8(2), accessories, spare parts and tools within the meaning of Article 9 and products in a set within the meaning of Article 10 when such items are non-originating.
5. The provisions of paragraphs 1, 2, 3 and 4 shall apply only in respect of materials which are of the kind to which the UK-Israel Agreement applies. Furthermore, they shall not preclude the application of an export refund system for agricultural products, applicable upon export in accordance with the provisions of the UK-Israel Agreement.

TITLE V PROOF OF ORIGIN

Article 16

General requirements

1. Products originating in Israel shall, on importation into the UK benefit from the provisions of the UK-Israel Agreement upon submission of one of the following proofs of origin:
 - (a) a movement certificate EUR.1, a specimen of which appears in Annex IIIa to this Origin Reference Document;
 - (b) a movement certificate EUR-MED, a specimen of which appears in Annex IIIb to this Origin Reference Document;
 - (c) in the cases specified in Article 22(1), a declaration, subsequently referred to as the 'invoice declaration' or the 'invoice declaration EUR-MED', given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the texts of the invoice declarations appear in Annexes IVa and b to this Origin Reference Document.
2. Notwithstanding paragraph 1, originating products within the meaning of this Origin Reference Document shall, in the cases specified in Article 27, benefit from the provisions of the UK-Israel Agreement without it being necessary to submit any of the proofs of origin referred to in paragraph 1.

Article 17

Procedure for the issue of a movement certificate EUR.1 or EUR-MED

1. A movement certificate EUR.1 or EUR-MED shall be issued by the customs authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.
2. For this purpose, the exporter or his authorised representative shall fill in both the movement certificate EUR.1 or EUR-MED and the application form, specimens of which appear in the Annexes IIIa and b to this Origin Reference Document. These forms shall be completed in one of the languages in which the UK-Israel Agreement is drawn up and in accordance with the provisions of the national law of the exporting country. If the forms are handwritten, they shall be completed in ink in printed characters. The description of the products shall be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line shall be drawn below the last line of the description, the empty space being crossed through.
3. The exporter applying for the issue of a movement certificate EUR.1 or EUR-MED shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 or EUR-MED is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Origin Reference Document.
4. Without prejudice to paragraph 5, a movement certificate EUR.1 shall be issued by the customs authorities of the UK in the following cases:
 - if the products concerned can be considered as products originating in the UK or in Israel, without application of cumulation with materials originating in Switzerland (including Liechtenstein), Turkey or one of the countries referred to in Articles 3(2) and 4(2), and fulfil the other requirements of this Origin Reference Document, or
 - if the products concerned can be considered as products originating in one of the other countries referred to in Articles 3 and 4 with which cumulation is applicable, without application of cumulation with materials originating in one of the countries referred to in Articles 3 and 4, and

fulfil the other requirements of this Origin Reference Document, provided a certificate EUR-MED or an invoice declaration EUR-MED has been issued in the country of origin.

5. A movement certificate EUR-MED shall be issued by the customs authorities of the UK or of Israel if the products concerned can be considered as products originating in the UK, in Israel or in one of the other countries referred to in Articles 3 and 4 with which cumulation is applicable, fulfil the requirements of this Origin Reference Document and:

- cumulation was applied with materials originating in Switzerland (including Liechtenstein), Turkey or one of the other countries referred to in Articles 3(2) and 4(2), or
- the products may be used as materials in the context of cumulation for the manufacture of products for export to one of the other countries referred to in Articles 3 and 4, or
- the products may be re-exported from the country of destination to one of the other countries referred to in Articles 3 and 4.

6. A movement certificate EUR-MED shall contain one of the following statements in English in Box 7:

- if origin has been obtained by application of cumulation with materials originating in one or more of the countries referred to in Articles 3 and 4:

‘CUMULATION APPLIED WITH ...’ (*name of the country/countries*)

- if origin has been obtained without the application of cumulation with materials originating in one or more of the countries referred to in Articles 3 and 4:

‘NO CUMULATION APPLIED’

7. The customs authorities issuing movement certificates EUR.1 or EUR-MED shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Origin Reference Document. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

8. The date of issue of the movement certificate EUR.1 or EUR-MED shall be indicated in Box 11 of the certificate.

9. A movement certificate EUR.1 or EUR-MED shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 or EUR-MED issued retrospectively

1. Notwithstanding Article 17(9), a movement certificate EUR.1 or EUR-MED may exceptionally be issued after exportation of the products to which it relates if:

- (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances;

or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 or EUR-MED was issued but was not accepted at importation for technical reasons.

2. Notwithstanding Article 17(9), a movement certificate EUR-MED may be issued after exportation of the products to which it relates and for which a movement certificate EUR.1 was issued at the time of exportation, provided that it is demonstrated to the satisfaction of the customs authorities that the conditions referred to in Article 17(5) are satisfied.

3. For the implementation of paragraphs 1 and 2, the exporter shall indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 or EUR-MED relates, and state the reasons for his request.

4. The customs authorities may issue a movement certificate EUR.1 or EUR-MED retrospectively only after verifying that the information supplied in the exporter's application complies with that in the corresponding file.

5. Movement certificates EUR.1 or EUR-MED issued retrospectively shall be endorsed with the following phrase in English:

‘ISSUED RETROSPECTIVELY’

Movement certificates EUR-MED issued retrospectively by application of paragraph 2 shall be endorsed with the following phrase in English:

‘ISSUED RETROSPECTIVELY (Original EUR.1 No ... [date and place of issue])’

6. The endorsement referred to in paragraph 5 shall be inserted in Box 7 of the movement certificate EUR.1 or EUR-MED.

Article 19

Issue of a duplicate movement certificate EUR.1 or EUR-MED

1. In the event of theft, loss or destruction of a movement certificate EUR.1 or EUR-MED, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way shall be endorsed with the following word in English:

‘DUPLICATE’

3. The endorsement referred to in paragraph 2 shall be inserted in Box 7 of the duplicate movement certificate EUR.1 or EUR-MED.

4. The duplicate, which shall bear the date of issue of the original movement certificate EUR.1 or EUR-MED, shall take effect as from that date.

Article 20

Issue of movement certificates EUR.1 or EUR-MED on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in the UK or in Israel, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 or EUR-MED for the purpose of sending all or some of these products elsewhere within the UK or Israel. The replacement movement certificate(s) EUR.1 or EUR-MED shall be issued by the customs office under whose control the products are placed.

Article 21

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may, at the written request of those concerned, authorise the so-called 'accounting segregation' method (hereinafter referred to as the 'method') to be used for managing such stocks.
2. The method must be able to ensure that, for a specific reference period, the number of products obtained which could be considered as 'originating' is the same as that which would have been obtained had there been physical segregation of the stocks.
3. The customs authorities may make the grant of authorisation referred to in paragraph 1 subject to any conditions deemed appropriate.
4. The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the country where the product was manufactured.
5. The beneficiary of the method may make out or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.
6. The customs authorities shall monitor the use made of the authorisation and may withdraw it whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Origin Reference Document.

Article 22

Conditions for making out an invoice declaration or an invoice declaration EUR-MED

1. An invoice declaration or an invoice declaration EUR-MED as referred to in Article 16(1)(c) may be made out:
 - (a) by an approved exporter within the meaning of Article 23;
or
 - (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.
2. Without prejudice to paragraph 3, an invoice declaration may be made out in the following cases:
 - if the products concerned may be considered as products originating in the UK, or in Israel without application of cumulation with materials originating in Switzerland (including Liechtenstein), Turkey or one of the other countries referred to in Articles 3(2) and 4(2), and fulfil the other requirements of this Origin Reference Document, or
 - if the products concerned may be considered as products originating in one of the other countries referred to in Articles 3 and 4 with which cumulation is applicable, without application of cumulation with materials originating in one of the countries referred to in Articles 3 and 4, and fulfil the other requirements of this Origin Reference Document, provided a certificate EUR-MED or an invoice declaration EUR-MED has been issued in the country of origin.
3. An invoice declaration EUR-MED may be made out if the products concerned may be considered as products originating in the UK, in Israel or in one of the other countries referred to in Articles 3 and 4 with which cumulation is applicable, fulfil the requirements of this Origin Reference Document and:
 - cumulation was applied with materials originating in Switzerland (including Liechtenstein), Turkey or one of the other countries referred to in Articles 3(2) and 4(2), or

- the products may be used as materials in the context of cumulation for the manufacture of products for export to one of the other countries referred to in Articles 3 and 4, or
 - the products may be re-exported from the country of destination to one of the other countries referred to in Articles 3 and 4.
4. An invoice declaration EUR-MED shall contain one of the following statements in English:
- if origin has been obtained by application of cumulation with materials originating in one or more of the countries referred to in Articles 3 and 4:
‘CUMULATION APPLIED WITH ...’ (*name of the country/countries*)
 - if origin has been obtained without application of cumulation with materials originating in one or more of the countries referred to in Articles 3 and 4:
‘NO CUMULATION APPLIED’
5. The exporter making out an invoice declaration or an invoice declaration EUR-MED shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Origin Reference Document.
6. An invoice declaration or an invoice declaration EUR-MED shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or on another commercial document, the declaration, the texts of which appear in Annexes IVa and b to this Origin Reference Document, using one of the linguistic versions set out in these Annexes and in accordance with the provisions of the national law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.
7. Invoice declarations and invoice declarations EUR-MED shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him and if it had been signed in manuscript by him.
8. An invoice declaration or an invoice declaration EUR-MED may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the United Kingdom at the latest two years after the importation of the products to which it relates.

Article 23

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter (hereinafter referred to as ‘approved exporter’) who makes frequent shipments of products under the UK-Israel Agreement to make out invoice declarations or invoice declarations EUR-MED irrespective of the value of the products concerned. An exporter seeking such authorisation shall offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Origin Reference Document.
2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration or on the invoice declaration EUR-MED.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.
5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 24

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting country and shall be submitted within the said period to the customs authorities of the United Kingdom.
2. Proofs of origin which are submitted to the customs authorities of the United Kingdom after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the United Kingdom may accept the proofs of origin where the products have been submitted before the said final date.

Article 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the United Kingdom in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the UK-Israel Agreement.

Article 26

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the United Kingdom, disassembled or non-assembled products within the meaning of General Rule 2(a) of Part Two, Section 1, of the Tariff of the United Kingdom falling within Sections XVI and XVII or headings 7502 and 9406 of the Goods Classification Table are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 27

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Origin Reference Document and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 22(5) used for the purpose of proving that products covered by a movement certificate EUR.1 or EUR-MED or an invoice declaration or invoice declaration EUR-MED may be considered as products originating in the UK, in Israel or in one of the other countries referred to in Articles 3 and 4 and fulfil the other requirements of this Origin Reference Document may consist inter alia of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;
- (b) documents proving the originating status of materials used, issued or made out in the UK or in Israel where these documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in the UK or in Israel, issued or made out in the UK or in Israel, where these documents are used in accordance with domestic law;
- (d) movement certificates EUR.1 or EUR-MED or invoice declaration or invoice declarations EUR-MED proving the originating status of materials used, issued or made out in the UK or in Israel in accordance with this Origin Reference Document or in one of the other countries referred to in Articles 3 and 4, in accordance with rules of origin which are identical to the rules in this Origin Reference Document;
- (e) appropriate evidence concerning working or processing undergone outside the UK or Israel by application of Article 12, proving that the requirements of that Article have been satisfied.

Article 29

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 30

Amounts expressed in euro

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the UK, of Israel and of the other countries referred to in Articles 3 and 4 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October each year. The amounts

shall be communicated by 15 October and shall apply from 1 January the following year. The Parties shall notify each other of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 %. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 % in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Joint Committee at the request of the UK or of Israel. When carrying out this review, the Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 31

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the United Kingdom have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Origin Reference Document.
2. For the purposes of implementing paragraph 1, the customs authorities of the United Kingdom shall return the movement certificate EUR-MED or EUR-MED and the invoice, if it has been submitted, the invoice declaration or the invoice declaration EUR-MED, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. If the customs authorities of the United Kingdom decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. These results shall indicate clearly whether the documents are authentic and whether the products concerned may be considered as products originating in the UK, in Israel or in one of the other countries referred to in Articles 3 and 4 and fulfil the other requirements of this Origin Reference Document.
6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

TITLE VII

CEUTA AND MELILLA

Article 32

Application of the Origin Reference Document

1. The term 'EU' used in this Origin Reference Document does not cover Ceuta and Melilla. Products originating in Ceuta and Melilla are not considered to be products originating in the EU for the purposes of this Origin Reference Document.

TITLE VIII FINAL PROVISIONS

Article 33

Transitional provision for goods in transit or storage

The provisions of the UK-Israel Agreement may be applied to goods which comply with the provisions of this Origin Reference Document and which on the date of entry into force of this Origin Reference Document are either in transit or are in the UK or in Israel in temporary storage in customs warehouses or in free zones, subject to the submission to the customs authorities of the United Kingdom, within twelve months of the said date, of a movement certificate EUR.1 or EUR-MED issued retrospectively by the customs authorities of the exporting country together with the documents showing that the goods have been transported directly in accordance with Article 13.

Article 34

Annexes

The Annexes to this Origin Reference Document are an integral part thereof.

Article 35

The Principality of Andorra

1. Products originating in the Principality of Andorra meeting the conditions of Articles 3(7)(b)(ii) or 4(5)(b)(ii) of this Origin Reference Document, and falling within Chapters 25 to 97 of the Goods Classification Table shall be accepted by the Parties as originating in the EU.
2. This Origin Reference Document shall apply *mutatis mutandis* for the purpose of defining the originating status of the abovementioned products.

Article 36

The Republic of San Marino

1. Products originating in the Republic of San Marino, meeting the conditions of Articles 3(7)(b)(ii) or 4(5)(b)(ii) of this Origin Reference Document, shall be accepted by the Parties as originating in the EU.
2. This Origin Reference Document shall apply *mutatis mutandis* for the purpose of defining the originating status of the abovementioned products.

ANNEX I

INTRODUCTORY NOTES

Preliminary remarks

The rules established in the present list are only applicable to products covered by the UK Israel Agreement.

Note 1

- 1.1. The first two columns in the list describe the product obtained. The first column gives the heading number, or chapter number, used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rule in columns 3 or 4 only applies to the part of that heading or chapter as described in column 2.
- 1.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of product in column 2 is therefore given in general terms, the adjacent rule in columns 3 or 4 applies to all products which, under the Harmonised System, are classified within headings of the chapter or within any of the headings grouped together in column 1.
- 1.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 1.4. Where, for any entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If an origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 2:

- 2.1. The working or processing required by a rule in column 3 has to be carried out only in relation to the non-originating materials used. The restrictions contained in a rule in column 3 likewise apply only to the non-originating materials used.
- 2.2. Where a rule states that materials of any heading may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression 'manufacture from materials of any heading, including other materials of heading No...' means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.
- 2.3. If a product made from non-originating materials which has acquired originating status during manufacture by virtue of the change of heading rule or its own list rule is used as a material in the process of manufacture of another product, then the rule applicable to the product in which it is incorporated does not apply to it.

For example:

An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40% of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading No 7224.

If this forging has been forged in the country concerned from a non-originating ingot then the forging has already acquired origin by virtue of the rule for heading No ex 7224 in the list. It can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or another. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

2.4. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer origin. Thus if a rule says that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

2.5. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of ex Chapter 50 to Chapter 55 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

2.6. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also note 5.2 below in relation to textiles.)

Example:

The rule for prepared food of heading No 1904 which specifically excludes the use of cereals or their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not produced from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular material specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is the fibre stage.

2.7. Where in a rule in the list two or more percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed

the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 3:

- 3.1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres and is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, the term 'natural fibres' includes fibres that have been carded, combed or otherwise processed but not spun.
- 3.2. The term 'natural fibres' includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.
- 3.3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 3.4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings Nos 5501 to 5507.

Note 4:

- 4.1. Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product, which, taken together, represent 10% or less of the total weight of all the basic textile materials used (See also notes 4.2 and 4.4).
- 4.2. However, this tolerance may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus Agave,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,

- synthetic man-made staple fibres,
- artificial man-made staple fibres.
-

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10% of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used up to a weight of 10% of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

Example:

A carpet with tufts made from both artificial yarns and cotton yarns and with a jute backing is a mixed product because three basic textile materials are used. Thus, any non-originating materials that are at a later stage of manufacture than the rule allows may be used, provided their total weight taken together does not exceed 10% of the weight of the textile materials in the carpet. Thus, both the jute backing and/or the artificial yarns could be imported at that stage of manufacture, provided the weight conditions are met.

4.3. In the case of fabrics incorporating 'yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped' this tolerance is 20% in respect of this yarn.

4.4. In the case of fabrics incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two films of plastic film, this tolerance is 30% in respect of this strip.

Note 5:

5.1. In the case of those textile products which are marked in the list by a footnote referring to this note, textile materials with the exception of linings and interlinings which do not satisfy the

rule set out in the list in column 3 for the made-up products concerned may be used provided that they are classified in a heading other than that of the product and that their value does not exceed 8% of the ex-works price of the product.

5.2. Materials which are not classified within Chapters 50 to 63 may be used freely, whether or not they contain textiles.

Example:

If a rule in the list provides that for a particular textile item, such as trousers, yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners even though slide-fasteners normally contain textiles.

5.3. Where a percentage rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 6:

6.1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

6.2. For the purposes of heading Nos 2710, 2711 and 2712, the 'specific processes' are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid (oleum) or sulphuric anhydride; neutralisation with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation;
- (k) (in respect of heavy oils falling within heading No ex 2710 only) desulphurisation with hydrogen resulting in a reduction of at least 85% of the sulphur content of the products processed (ASTM D 1266-59 T method);

(l) (in respect of products falling within heading No 2710 only) deparaffining by a process other than filtering;

(m) (in respect of heavy oils falling within heading No ex 2710 only) treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250°C with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolorisation) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(n) (in respect of fuel oils falling within heading No ex 2710 only) atmospheric distillation, on condition that less than 30% of these products distils, by volume, including losses, at 300°C by the ASTM D 86 method;

(o) (in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only) treatment by means of a high-frequency electrical brush-discharge.

6.3. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

ANNEX II

List of working or processing required to be carried out on non-originating materials in order for the product manufactured to obtain originating status

Commodity Code heading	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
(1)	(2)	(3) or (4)
Chapter 1	Live animals	All the animals of Chapter 1 shall be wholly obtained
Chapter 2	Meat and edible meat offal	Manufacture in which all the materials of Chapters 1 and 2 used are wholly obtained
Chapter 3	Fish and crustaceans, molluscs and other aquatic invertebrates	Manufacture in which all the materials of Chapter 3 used are wholly obtained
ex Chapter 4	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included; except for:	Manufacture in which all the materials of Chapter 4 used are wholly obtained
0403	Buttermilk, curdled milk and cream, yoghurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa	Manufacture in which: —all the materials of Chapter 4 used are wholly obtained, —all the fruit juice (except that of pineapple, lime or grapefruit) of heading 20.09 used is originating, and —the value of all the materials of Chapter 17 used does not exceed 50 % of the ex-works price of the product
ex Chapter 5	Products of animal origin, not elsewhere specified or included, except for:	Manufacture in which all the materials of Chapter 5 used are wholly obtained
ex ex0502	Prepared pigs' or boars' bristles and hair	Cleaning, disinfecting, sorting and straightening of bristles and hair
Chapter 6	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage	Manufacture in which: —all the materials of Chapter 6 used are wholly obtained, and —the value of all the materials used does not exceed 50 % of the ex-works price of the product
Chapter 7	Edible vegetables and certain roots and tubers	Manufacture in which all the materials of Chapter 7 used are wholly obtained
Chapter 8	Edible fruit and nuts; peel of citrus fruits or melons	Manufacture in which: —all the fruit and nuts used are wholly obtained, and —the value of all the materials of Chapter 17 used does not exceed 30 % of the value of the ex-works price of the product
ex Chapter 9	Coffee, tea, maté and spices; except for:	Manufacture in which all the materials of Chapter 9 used are wholly obtained

0901	Coffee, whether or not roasted or decaffeinated; coffee husks and skins; coffee substitutes containing coffee in any proportion	Manufacture from materials of any heading	
0902	Tea, whether or not flavoured	Manufacture from materials of any heading	
ex ex0910	Mixtures of spices	Manufacture from materials of any heading	
Chapter 10	Cereals	Manufacture in which all the materials of Chapter 10 used are wholly obtained	
ex Chapter 11	Products of the milling industry; malt; starches; inulin; wheat gluten; except for:	Manufacture in which all the cereals, edible vegetables, roots and tubers of heading 0714 or fruit used are wholly obtained	
ex ex1106	Flour, meal and powder of the dried, shelled leguminous vegetables of heading 0713	Drying and milling of leguminous vegetables of heading 0713	
Chapter 12	Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	Manufacture in which all the materials of Chapter 12 used are wholly obtained	
1301	Lac; natural gums, resins, gum-resins and oleoresins (for example, balsams)	Manufacture in which the value of all the materials of heading 1301 used does not exceed 50 % of the ex-works price of the product	
1302	Vegetable saps and extracts; pectic substances, pectinases and pectins; agar-agar and other mucilages and thickeners, whether or not modified, derived from vegetable products:		
	– Mucilages and thickeners, modified, derived from vegetable products	Manufacture from non-modified mucilages and thickeners	
	– Other	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
Chapter 14	Vegetable plaiting materials; vegetable products not elsewhere specified or included	Manufacture in which all the materials of Chapter 14 used are wholly obtained	
ex Chapter 15	Animal or vegetable fats and oils and their cleavage products; prepared edible	Manufacture from materials of any heading, except that of the product	

	fats; animal or vegetable waxes; except for:		
1501	Pig fat (including lard) and poultry fat, other than that of heading 0209 or 1503:		
	– Fats from bones or waste	Manufacture from materials of any heading, except those of heading 0203, 0206 or 0207 or bones of heading 0506	
	– Other	Manufacture from meat or edible offal of swine of heading 0203 or 0206 or of meat and edible offal of poultry of heading 0207	
1502	Fats of bovine animals, sheep or goats, other than those of heading 1503		
	– Fats from bones or waste	Manufacture from materials of any heading, except those of heading 0201, 0202, 0204 or 0206 or bones of heading 0506	
	– Other	Manufacture in which all the materials of Chapter 2 used are wholly obtained	
1504	Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified:		
	– Solid fractions	Manufacture from materials of any heading, including other materials of heading 1504	
	– Other	Manufacture in which all the materials of Chapters 2 and 3 used are wholly obtained	
ex ex1505	Refined lanolin	Manufacture from crude wool grease of heading 1505	
1506	Other animal fats and oils and their fractions, whether or not refined, but not chemically modified:		
	– Solid fractions	Manufacture from materials of any heading, including other materials of heading 1506	
	– Other	Manufacture in which all the materials of Chapter 2 used are wholly obtained	
1507 to 1515	Vegetable oils and their fractions:		
	– Soya, ground nut, palm, copra, palm kernel, babassu, tung and oiticica oil, myrtle	Manufacture from materials of any heading, except that of the product	

	wax and Japan wax, fractions of jojoba oil and oils for technical or industrial uses other than the manufacture of foodstuffs for human consumption		
	– Solid fractions, except for that of jojoba oil	Manufacture from other materials of headings 1507 to 1515	
	– Other	Manufacture in which all the vegetable materials used are wholly obtained	
1516	Animal or vegetable fats and oils and their fractions, partly or wholly hydrogenated, inter-esterified, re-esterified or elaidinised, whether or not refined, but not further prepared	Manufacture in which: —all the materials of Chapter 2 used are wholly obtained, and —all the vegetable materials used are wholly obtained. However, materials of headings 1507, 1508, 1511 and 1513 may be used	
1517	Margarine; edible mixtures or preparations of animal or vegetable fats or oils or of fractions of different fats or oils of this Chapter, other than edible fats or oils or their fractions of heading 1516	Manufacture in which: —all the materials of Chapters 2 and 4 used are wholly obtained, and —all the vegetable materials used are wholly obtained. However, materials of headings 1507, 1508, 1511 and 1513 may be used	
Chapter 16	Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates	Manufacture: —from animals of Chapter 1, and/or —in which all the materials of Chapter 3 used are wholly obtained	
ex Chapter 17	Sugars and sugar confectionery, except for:	Manufacture from materials of any heading, except that of the product	
ex ex1701	Cane or beet sugar and chemically pure sucrose, in solid form, containing added flavouring or colouring matter	Manufacture in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
1702	Other sugars, including chemically pure lactose, maltose, glucose and fructose, in solid form; sugar syrups not containing added flavouring or colouring matter; artificial honey, whether or not mixed with natural honey; caramel:		
	– Chemically-pure maltose and fructose	Manufacture from materials of any heading, including other materials of heading 1702	

	– Other sugars in solid form, containing added flavouring or colouring matter	Manufacture in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
	– Other	Manufacture in which all the materials used are originating	
ex ex1703	Molasses resulting from the extraction or refining of sugar, containing added flavouring or colouring matter	Manufacture in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
1704	Sugar confectionery (including white chocolate), not containing cocoa	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
Chapter 18	Cocoa and cocoa preparations	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 50 % of the ex-works price of the product	
1901	Malt extract; food preparations of flour, groats, meal, starch or malt extract, not containing cocoa or containing less than 40 % by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included; food preparations of goods of headings 0401 to 0404, not containing cocoa or containing less than 5 % by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included:		
	– Malt extract	Manufacture from cereals of Chapter 10	
	– Other	Manufacture: —from materials of any heading, except that of the product, and	

		—in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
1902	Pasta, whether or not cooked or stuffed (with meat or other substances) or otherwise prepared, such as spaghetti, macaroni, noodles, lasagne, gnocchi, ravioli, cannelloni; couscous, whether or not prepared:		
	– Containing 20 % or less by weight of meat, meat offal, fish, crustaceans or molluscs	Manufacture in which all the cereals and derivatives (except durum wheat and its derivatives) used are wholly obtained	
	– Containing more than 20 % by weight of meat, meat offal, fish, crustaceans or molluscs	Manufacture in which: —all the cereals and their derivatives (except durum wheat and its derivatives) used are wholly obtained, and —all the materials of Chapters 2 and 3 used are wholly obtained	
1903	Tapioca and substitutes therefor prepared from starch, in the form of flakes, grains, pearls, siftings or similar forms	Manufacture from materials of any heading, except potato starch of heading 108	
1904	Prepared foods obtained by the swelling or roasting of cereals or cereal products (for example, corn flakes); cereals (other than maize (corn)) in grain, in form or in the form of flakes or other worked grains (except flour, groats and meal), pre-cooked or otherwise prepared, not elsewhere specified or included	Manufacture: —from materials of any heading, except those of heading 1806, —in which all the cereals and flour (except durum wheat and <i>Zea indurata</i> maize, and their derivatives) used are wholly obtained, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
1905	Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products	Manufacture from materials of any heading, except those of Chapter 11	

ex Chapter 20	Preparations of vegetables, fruit, nuts or other parts of plants; except for:	Manufacture in which all the fruit, nuts or vegetables used are wholly obtained	
ex ex2001	Yams, sweet potatoes and similar edible parts of plants containing 5 % or more by weight of starch, prepared or preserved by vinegar or acetic acid	Manufacture from materials of any heading, except that of the product	
ex ex2004 and ex ex2005	Potatoes in the form of flour, meal or flakes, prepared or preserved otherwise than by vinegar or acetic acid	Manufacture from materials of any heading, except that of the product	
2006	Vegetables, fruit, nuts, fruit-peel and other parts of plants, preserved by sugar (drained, glacé or crystallized)	Manufacture in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
2007	Jams, fruit jellies, marmalades, fruit or nut purée and fruit or nut pastes, obtained by cooking, whether or not containing added sugar or other sweetening matter	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
ex ex2008	– Nuts, not containing added sugar or spirits	Manufacture in which the value of all the originating nuts and oil seeds or headings 0801, 0802 and 1202 to 1207 used exceeds 60 % of the ex-works price of the product	
	– Peanut butter, mixtures based on cereals; palm heart paste (con.)	Manufacture from materials of any heading, except that of the product	
	– Other except for fruit and nuts cooked otherwise than by steaming or boiling in water, not containing added sugar, frozen	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
2009	Fruit juices (including grape must) and vegetable juices, unfermented and not containing added spirit, whether or not containing added sugar or other sweetening matter	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
ex Chapter 21	Miscellaneous edible preparations; except for:	Manufacture from materials of any heading, except that of the product	

2101	Extracts, essences and concentrates, of coffee, tea or maté and preparations with a basis of these products or with a basis of coffee, tea or maté; roasted chicory and other roasted coffee substitutes, and extracts, essences and concentrates thereof	Manufacture: —from materials of any heading, except that of the product, and —in which all the chicory used is wholly obtained	
2103	Sauces and preparations therefor; mixed condiments and mixed seasonings; mustard flour and meal and prepared mustard:		
	— Sauces and preparations therefor; mixed condiments and mixed seasonings	Manufacture from materials of any heading, except that of the product. However, mustard flour or meal or prepared mustard may be used	
	— Mustard flour and meal and prepared mustard	Manufacture from materials of any heading	
ex ex2104	Soups and broths and preparations therefor	Manufacture from materials of any heading, except prepared or preserved vegetables of headings 2002 to 2005	
2106	Food preparations not elsewhere specified or included	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
ex Chapter 22	Beverages, spirits and vinegar; except for:	Manufacture: —from materials of any heading, except that of the product, and —in which all the grapes or materials derived from grapes used are wholly obtained	
2202	Waters, including mineral waters and aerated waters, containing added sugar or other sweetening matter or flavoured, and other non-alcoholic beverages, not including fruit or vegetable juices of heading 2009	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product, and —in which all the fruit juice used (except that of pineapple, lime or grapefruit) is originating	
2207	Undenatured ethyl alcohol of an alcoholic strength by volume of 80 % vol. or	Manufacture: —from materials of any heading, except heading 2207 or 2208, and	

	higher; ethyl alcohol and other spirits, denatured, of any strength	—in which all the grapes or materials derived from grapes used are wholly obtained or, if all the other materials used are already originating, arrack may be used up to a limit of 5 % by volume	
2208	Undenatured ethyl alcohol of an alcoholic strength by volume of less than 80 % vol.; spirits, liqueurs and other spirituous beverages	Manufacture: —from materials of any heading, except heading 2207 or 2208, and —in which all the grapes or materials derived from grapes used are wholly obtained or, if all the other materials used are already originating, arrack may be used up to a limit of 5 % by volume	
ex Chapter 23	Residues and waste from the food industries; prepared animal fodder; except for:	Manufacture from materials of any heading, except that of the product	
ex ex2301	Whale meal; flours, meals and pellets of fish or of crustaceans, molluscs or other aquatic invertebrates, unfit for human consumption	Manufacture in which all the materials of Chapters 2 and 3 used are wholly obtained	
ex ex2303	Residues from the manufacture of starch from maize (excluding concentrated steeping liquors), of a protein content, calculated on the dry product, exceeding 10 % by weight	Manufacture in which all the maize used is wholly obtained	
ex ex2306	Oil cake and other solid residues resulting from the extraction of olive oil, containing more than 3 % of olive oil	Manufacture in which all the olives used are wholly obtained	
2309	Preparations of a kind used in animal feeding	Manufacture in which: —all the cereals, sugar or molasses, meat or milk used are originating, and —all the materials of Chapter 3 used are wholly obtained	
ex Chapter 24	Tobacco and manufactured tobacco substitutes; except for:	Manufacture in which all the materials of Chapter 24 used are wholly obtained	
2402	Cigars, cheroots, cigarillos and cigarettes, of tobacco or of tobacco substitutes	Manufacture in which at least 70 % by weight of the unmanufactured tobacco or tobacco refuse of heading 2401 used is originating	

ex ex2403	Smoking tobacco	Manufacture in which at least 70 % by weight of the unmanufactured tobacco or tobacco refuse of heading 2401 used is originating	
ex Chapter 25	Salt; sulphur; earths and stone; plastering materials, lime and cement; except for:	Manufacture from materials of any heading, except that of the product	
ex ex2504	Natural crystalline graphite, with enriched carbon content, purified and ground	Enriching of the carbon content, purifying and grinding of crude crystalline graphite	
ex ex2515	Marble, merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape, of a thickness not exceeding 25 cm	Cutting, by sawing or otherwise, of marble (even if already sawn) of a thickness exceeding 25 cm	
ex ex2516	Granite, porphyry, basalt, sandstone and other monumental or building stone, merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape, of a thickness not exceeding 25 cm	Cutting, by sawing or otherwise, of stone (even if already sawn) of a thickness exceeding 25 cm	
ex ex2518	Calcined dolomite	Calcination of dolomite not calcined	
ex ex2519	Crushed natural magnesium carbonate (magnesite), in hermetically-sealed containers, and magnesium oxide, whether or not prepared other than fused magnesite or dead-burned (inert) magnesite	Manufacture from materials of any heading, except that of the product. However, natural magnesium carbonate (magnesite) may be used	
ex ex2520	Plasters specially prepared for dentistry	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex ex2524	Natural asbestos fibres	Manufacture from asbestos concentrate	
ex ex2525	Mica powder	Grinding of mica or mica waste	
ex ex2530	Earth colours, calcined or powdered	Calcination or grinding of earth colours	
Chapter 26	Ores, slag and ash	Manufacture from materials of any heading, except that of the product	
ex Chapter 27	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes; except for:	Manufacture from materials of any heading, except that of the product	

ex ex2707	Oils in which the weight of the aromatic constituents exceeds that of the non-aromatic constituents, being oils similar to mineral oils obtained by distillation of high temperature coal tar, of which more than 65 % by volume distils at a temperature of up to 250 °C (including mixtures of petroleum spirit and benzole), for use as power or heating fuels	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
ex ex2709	Crude oils obtained from bituminous minerals	Destructive distillation of bituminous materials	
2710	Petroleum oils and oils obtained from bituminous materials, other than crude; preparations not elsewhere specified or included, containing by weight 70 % or more of petroleum oils or of oils obtained from bituminous materials, these oils being the basic constituents of the preparations; waste oils	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
2711	Petroleum gases and other gaseous hydrocarbons	Operations of refining and/or one or more specific process(es) ⁽²⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
2712	Petroleum jelly; paraffin wax, microcrystalline petroleum wax, slack wax, ozokerite, lignite wax, peat wax, other mineral waxes, and similar products obtained by synthesis or by other processes, whether or not coloured	Operations of refining and/or one or more specific process(es) ⁽²⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	

2713	Petroleum coke, petroleum bitumen and other residues of petroleum oils or of oils obtained from bituminous materials	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
2714	Bitumen and asphalt, natural; bituminous or oil shale and tar sands; asphaltites and asphaltic rocks	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
2715	Bituminous mixtures based on natural asphalt, on natural bitumen, on petroleum bitumen, on mineral tar or on mineral tar pitch (for example, bituminous mastics, cutbacks)	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
ex Chapter 28	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements or of isotopes; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex2805	'Mischmetall'	Manufacture by electrolytic or thermal treatment in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex ex2811	Sulphur trioxide	Manufacture from sulphur dioxide	Manufacture in which the value of all the materials used does not

			exceed 40 % of the ex-works price of the product
ex ex2833	Aluminium sulphate	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex ex2840	Sodium perborate	Manufacture from disodium tetraborate pentahydrate	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex Chapter 29	Organic chemicals; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex2901	Acyclic hydrocarbons for use as power or heating fuels	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
ex ex2902	Cyclanes and cyclenes (other than azulenes), benzene, toluene, xylenes, for use as power or heating fuels	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
ex ex2905	Metal alcoholates of alcohols of this heading and of ethanol	Manufacture from materials of any heading, including other materials of heading 2905. However, metal	Manufacture in which the value of all

		alcoholates of this heading may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	the materials used does not exceed 40 % of the ex-works price of the product
2915	Saturated acyclic monocarboxylic acids and their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives	Manufacture from materials of any heading. However, the value of all the materials of headings 2915 and 2916 used shall not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex2932	– Internal ethers and their halogenated, sulphonated, nitrated or nitrosated derivatives	Manufacture from materials of any heading. However, the value of all the materials of heading 2909 used shall not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
	– Cyclic acetals and internal hemiacetals and their halogenated, sulphonated, nitrated or nitrosated derivatives	Manufacture from materials of any heading	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
2933	Heterocyclic compounds with nitrogen, hetero-atom(s) only	Manufacture from materials of any heading. However, the value of all the materials of headings 2932 and 2933 used shall not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
2934	Nucleic acids and their salts, whether or not chemically defined; other heterocyclic compounds	Manufacture from materials of any heading. However, the value of all the materials of headings 2932, 2933 and 2934 used shall not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product

ex ex2939	Concentrates of poppy straw containing not less than 50 % by weight of alkaloids	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex Chapter 30	Pharmaceutical products; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
3002	Human blood; animal blood prepared for therapeutic, prophylactic or diagnostic uses; antisera and other blood fractions and modified immunological products, whether or not obtained by means of biotechnological processes; vaccines, toxins, cultures of micro-organisms (excluding yeasts) and similar products:		
	– Products consisting of two or more constituents which have been mixed together for therapeutic or prophylactic uses or unmixed products for these uses, put up in measured doses or in forms or packings for retail sale	Manufacture from materials of any heading, including other materials of heading 3002. However, materials of the same description as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
	– Other		
	– – Human blood	Manufacture from materials of any heading, including other materials of heading 3002. However, materials of the same description as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
	– – Animal blood prepared for therapeutic or prophylactic uses	Manufacture from materials of any heading, including other materials of heading 3002. However, materials of the same description as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
	– – Blood fractions other than antisera, haemoglobin,	Manufacture from materials of any heading, including other materials	

	blood globulins and serum globulins	of heading 3002. However, materials of the same description as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
	-- Haemoglobin, blood globulins and serum globulins	Manufacture from materials of any heading, including other materials of heading 3002. However, materials of the same description as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
	-- Other	Manufacture from materials of any heading, including other materials of heading 3002. However, materials of the same description as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
3003 and 3004	Medicaments (excluding goods of heading 3002, 3005 or 3006):		
	-- Obtained from amikacin of heading 2941	Manufacture from materials of any heading, except that of the product. However, materials of headings 3003 and 3004 may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
	-- Other	Manufacture: — from materials of any heading, except that of the product. However, materials of headings 3003 and 3004 may be used, provided that their total value does not exceed 20 % of the ex-works price of the product, and — in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex ex3006	-- Waste pharmaceuticals specified in note 4(k) to this Chapter	The origin of the product in its original classification shall be retained	
ex Chapter 31	Fertilizers; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used,	Manufacture in which the value of all the materials

		provided that their total value does not exceed 20 % of the ex-works price of the product	used does not exceed 40 % of the ex-works price of the product
ex ex3105	Mineral or chemical fertilizers containing two or three of the fertilizing elements nitrogen, phosphorous and potassium; other fertilizers; goods of this chapter, in tablets or similar forms or in packages of a gross weight not exceeding 10 kg, except for: <ul style="list-style-type: none"> – sodium nitrate – calcium cyanamide – potassium sulphate – magnesium potassium sulphate 	Manufacture: <ul style="list-style-type: none"> —from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product, and —in which the value of all the materials used does not exceed 50 % of the ex-works price of the product 	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex Chapter 32	Tanning or dyeing extracts; tannins and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex3201	Tannins and their salts, ethers, esters and other derivatives	Manufacture from tanning extracts of vegetable origin	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
3205	Colour lakes; preparations as specified in note 3 to this chapter based on colour lakes ⁽³⁾	Manufacture from materials of any heading, except headings 3203, 3204 and 3205. However, materials of heading 3205 may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex Chapter 33	Essential oils and resinoids; perfumery, cosmetic or toilet preparations; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used,	Manufacture in which the value of all the materials

		provided that their total value does not exceed 20 % of the ex-works price of the product	used does not exceed 40 % of the ex-works price of the product
3301	Essential oils (terpeneless or not), including concretes and absolutes; resinoids; extracted oleoresins; concentrates of essential oils in fats, in fixed oils, in waxes or the like, obtained by enfleurage or maceration; terpenic by-products of the deterpenation of essential oils; aqueous distillates and aqueous solutions of essential oils	Manufacture from materials of any heading, including materials of a different 'group' ⁽⁴⁾ in this heading. However, materials of the same group as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex Chapter 34	Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing or scouring preparations, candles and similar articles, modelling pastes, 'dental waxes' and dental preparations with a basis of plaster; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex3403	Lubricating preparations containing less than 70 % by weight of petroleum oils or oils obtained from bituminous minerals	Operations of refining and/or one or more specific process(es) ⁽¹⁾ or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
3404	Artificial waxes and prepared waxes:		
	– With a basis of paraffin, petroleum waxes, waxes obtained from bituminous minerals, slack wax or scale wax	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product	
	– Other	Manufacture from materials of any heading, except:	Manufacture in which the

However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
3701	Photographic plates and film in the flat, sensitised, unexposed, of any material other than paper, paperboard or textiles; instant print film in the flat, sensitised, unexposed, whether or not in packs:		
	– Instant print film for colour photography, in packs	Manufacture from materials of any heading, except those of headings 3701 and 3702. However, materials of heading 3702 may be used, provided that their total value does not exceed 30 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
	– Other	Manufacture from materials of any heading, except those of headings 3701 and 3702. However, materials of headings 3701 and 3702 may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
3702	Photographic film in rolls, sensitised, unexposed, of any material other than paper, paperboard or textiles; instant print film in rolls, sensitised, unexposed	Manufacture from materials of any heading, except those of headings 3701 and 3702	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product

3704	Photographic plates, film paper, paperboard and textiles, exposed but not developed	Manufacture from materials of any heading, except those of headings 3701 to 3704	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex Chapter 38	Miscellaneous chemical products; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex3801	– Colloidal graphite in suspension in oil and semi-colloidal graphite; carbonaceous pastes for electrodes	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
	– Graphite in paste form, being a mixture of more than 30 % by weight of graphite with mineral oils	Manufacture in which the value of all the materials of heading 3403 used does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex3803	Refined tall oil	Refining of crude tall oil	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex3805	Spirits of sulphate turpentine, purified	Purification by distillation or refining of raw spirits of sulphate turpentine	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product

ex ex3806	Ester gums	Manufacture from resin acids	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex3807	Wood pitch (wood tar pitch)	Distillation of wood tar	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
3808	Insecticides, rodenticides, fungicides, herbicides, anti-sprouting products and plant-growth regulators, disinfectants and similar products, put up in forms or packings for retail sale or as preparations or articles (for example, sulphur-treated bands, wicks and candles and fly-papers)	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the products	
3809	Finishing agents, dyestuffs, carriers to accelerate the dyeing or fixing of dyestuffs and other products and preparations (for example, dressing and mordants), of a kind used in the textile, paper, leather or like industries, not elsewhere specified or included	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the products	
3810	Pickling preparations for metal surfaces; fluxes and other auxiliary preparations for soldering, brazing or welding; soldering, brazing or welding powders and pastes consisting of metal and other materials; preparations of a kind used as cores or coatings for welding electrodes or rods	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the products	

3811	<p>Anti-knock preparations, oxidation inhibitors, gum inhibitors, viscosity improvers, anti-corrosive preparations and other prepared additives, for mineral oils (including gasoline) or for other liquids used for the same purposes as mineral oils:</p> <p>– Prepared additives for lubricating oil, containing petroleum oils or oils obtained from bituminous minerals</p> <p>– Other</p>	<p>Manufacture in which the value of all the materials of heading 3811 used does not exceed 50 % of the ex-works price of the product</p> <p>Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product</p>	
3812	Prepared rubber accelerators; compound plasticisers for rubber or plastics, not elsewhere specified or included; anti-oxidizing preparations and other compound stabilizers for rubber or plastics	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3813	Preparations and charges for fire-extinguishers; charged fire-extinguishing grenades	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3814	Organic composite solvents and thinners, not elsewhere specified or included; prepared paint or varnish removers	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3818	Chemical elements doped for use in electronics, in the form of discs, wafers or similar forms; chemical compounds doped for use in electronics	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3819	Hydraulic brake fluids and other prepared liquids for hydraulic transmission, not containing or containing less than 70 % by weight of petroleum oils or oils obtained from bituminous minerals	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	

3820	Anti-freezing preparations and prepared de-icing fluids	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3822	Diagnostic or laboratory reagents on a backing, prepared diagnostic or laboratory reagents whether or not on a backing, other than those of heading 3002 or 3006; certified reference materials	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3823	Industrial monocarboxylic fatty acids; acid oils from refining; industrial fatty alcohols:		
	– Industrial monocarboxylic fatty acids, acid oils from refining	Manufacture from materials of any heading, except that of the product	
	– Industrial fatty alcohols	Manufacture from materials of any heading, including other materials of heading 3827	
3824	Prepared binders for foundry moulds or cores; chemical products and preparations of the chemical or allied industries (including those consisting of mixtures of natural products), not elsewhere specified or included		
	– The following of this heading:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product

7901	Unwrought zinc	Manufacture from materials of any heading, except that of the product. However, waste and scrap of heading 7902 may not be used	
7902	Zinc waste and scrap	Manufacture from materials of any heading, except that of the product	
ex Chapter 80	Tin and articles thereof; except for:	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
8001	Unwrought tin	Manufacture from materials of any heading, except that of the product. However, waste and scrap of heading 8002 may not be used	
8002 and 8007	Tin waste and scrap; other articles of tin	Manufacture from materials of any heading, except that of the product	
Chapter 81	Other base metals; cermets; articles thereof:		
	— Other base metals; unwrought; articles thereof	Manufacture in which the value of all the materials of the same heading as the product used does not exceed 50 % of the ex-works price of the product	
	— Other	Manufacture from materials of any heading, except that of the product	
ex Chapter 82	Tools, implements, cutlery, spoons and forks, of base metal; parts thereof of base metal; except for:	Manufacture from materials of any heading, except that of the product	
8206	Tools of two or more of the headings 8202 to 8205, put up in sets for retail sale	Manufacture from materials of any heading, except those of headings 8202 to 8205. However, tools of headings 8202 to 8205 may be incorporated into the set, provided that their total value does not exceed 15 % of the ex-works price of the set	
8207	Interchangeable tools for hand tools, whether or not power-operated, or for machine-tools (for example,	Manufacture: —from materials of any heading, except that of the product, and	

	for pressing, stamping, punching, tapping, threading, drilling, boring, broaching, milling, turning, or screwdriving), including dies for drawing or extruding metal, and rock drilling or earth boring tools	—in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8208	Knives and cutting blades, for machines or for mechanical appliances	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex ex8211	Knives with cutting blades, serrated or not (including pruning knives), other than knives of heading 8208	Manufacture from materials of any heading, except that of the product. However, knife blades and handles of base metal may be used	
8214	Other articles of cutlery (for example, hair clippers, butchers' or kitchen cleavers, choppers and mincing knives, paper knives); manicure or pedicure sets and instruments (including nail files)	Manufacture from materials of any heading, except that of the product. However, handles of base metal may be used	
8215	Spoons, forks, ladles, skimmers, cake-servers, fish-knives, butter-knives, sugar tongs and similar kitchen or tableware	Manufacture from materials of any heading, except that of the product. However, handles of base metal may be used	
ex Chapter 83	Miscellaneous articles of base metal; except for:	Manufacture from materials of any heading, except that of the product	
ex ex8302	Other mountings, fittings and similar articles suitable for buildings, and automatic door closers	Manufacture from materials of any heading, except that of the product. However, other materials of heading 8302 may be used, provided that their total value does not exceed 20 % of the ex-works price of the product	
ex ex8306	Statuettes and other ornaments, of base metal	Manufacture from materials of any heading, except that of the product. However, other materials of heading 8306 may be used, provided that their total value does not exceed 30 % of the ex-works price of the product	

ex Chapter 84	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof; except for:	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8402	Steam or other vapour generating boilers (other than central heating hot water boilers capable also of producing low pressure steam); super-heated water boilers	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8403 and ex ex8404	Central heating boilers other than those of heading 8402 and auxiliary plant for central heating boilers	Manufacture from materials of any heading, except those of headings 8403 and 8404	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
8406	Steam turbines and other vapour turbines	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8407	Spark-ignition reciprocating or rotary internal combustion piston engines	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8408	Compression-ignition internal combustion piston engines (diesel or semi-diesel engines)	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8409	Parts suitable for use solely or principally with the engines of heading 8407 or 8408	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8411	Turbo-jets, turbo-propellers and other gas turbines	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-

			works price of the product
8412	Other engines and motors	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex ex8413	Rotary positive displacement pumps	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
ex ex8414	Industrial fans, blowers and the like	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8415	Air conditioning machines, comprising a motor-driven fan and elements for changing the temperature and humidity, including those machines in which the humidity cannot be separately regulated	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8418	Refrigerators, freezers and other refrigerating or freezing equipment, electric or other; heat pumps other than air conditioning machines of heading 8415	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —in which the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
ex ex8419	Machines for wood, paper pulp, paper and paperboard industries	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of the same heading as the product used does	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-

		not exceed 25 % of the ex-works price of the product	works price of the product
8420	Calendering or other rolling machines, other than for metals or glass, and cylinders therefore	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of the same heading as the product used does not exceed 25 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8423	Weighing machinery (excluding balances of a sensitivity of 5 cg or better), including weight operated counting or checking machines; weighing machine weights of all kinds	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8425 to 8428	Lifting, handling, loading or unloading machinery	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of heading 8431 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8429	Self-propelled bulldozers, angledozers, graders, levellers, scrapers, mechanical shovels, excavators, shovel loaders, tamping machines and road rollers:		
	— Road rollers	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
	— Other	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of heading 8431 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8430	Other moving, grading, levelling, scraping,	Manufacture in which:	Manufacture in which the

	excavating, tamping, compacting, extracting or boring machinery, for earth, minerals or ores; pile-drivers and pile-extractors; snow-ploughs and snow-blowers	—the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of heading 8431 used does not exceed 10 % of the ex-works price of the product	value of all the materials used does not exceed 30 % of the ex-works price of the product
ex ex8431	Parts suitable for use solely or principally with road rollers	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8439	Machinery for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of the same heading as the product used does not exceed 25 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8441	Other machinery for making up paper pulp, paper or paperboard, including cutting machines of all kinds	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of the same heading as the product used does not exceed 25 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8444 to 8447	Machines of those headings for use in the textile industry	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex ex8448	Auxiliary machinery for use with machines of headings 8444 and 8445	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8452	Sewing machines, other than book-sewing machines of heading 8440; furniture, bases and covers specially designed for sewing machines; sewing machine needles:		
	— Sewing machines (lock stitch only) with heads of a weight not exceeding 16 kg without motor or 17 kg with motor	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, —the value of all the non-originating materials used in assembling the head (without motor) does not	

		exceed the value of all the originating materials used, and the thread-tension, crochet and zigzag mechanisms used are originating	
	– Other	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8456 to 8466	Machine-tools and machines and their parts and accessories of headings 8456 to 8466	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8469 to 8472	Office machines (for example, typewriters, calculating machines, automatic data processing machines, duplicating machines, stapling machines)	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8480	Moulding boxes for metal foundry; mould bases; moulding patterns; moulds for metal (other than ingot moulds), metal carbides, glass, mineral materials, rubber or plastics	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
8482	Ball or roller bearing	Manufacture: – from materials of any heading, except that of the product, and – in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8484	Gaskets and similar joints of metal sheeting combined with other material or of two or more layers of metal; sets or assortments of gaskets and similar joints, dissimilar in composition, put up in pouches, envelopes or similar packings; mechanical seals	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8485	Machinery parts, not containing electrical connectors, insulators, coils, contacts or other electrical features, not specified or	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

	included elsewhere in this Chapter		
ex Chapter 85	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles; except for:	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8501	Electric motors and generators (excluding generating sets)	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of heading 8503 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8502	Electric generating sets and rotary converters	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of headings 8501 and 8503 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex ex8504	Power supply units for automatic data-processing machines	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex ex8518	Microphones and stands therefor; loudspeakers, whether or not mounted in their enclosures; audio-frequency electric amplifiers; electric sound amplifier sets	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8519	Turntables (record-decks), record-players, cassette-players and other sound reproducing apparatus, not incorporating a sound recording device	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product

8520	Magnetic tape recorders and other sound recording apparatus, whether or not incorporating a sound reproducing device	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8521	Video recording or reproducing apparatus, whether or not incorporating a video tuner	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8522	Parts and accessories suitable for use solely or principally with the apparatus of headings 8519 to 8521	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8523	Prepared unrecorded media for sound recording or similar recording of other phenomena, other than products of Chapter 37	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8524	Records, tapes and other recorded media for sound and other similarly recorded phenomena, including matrices and masters for the production of records, but excluding products of Chapter 37:		
	— Matrices and masters for the production of records	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
	— Other	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of headings 8523 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8525	Transmission apparatus for radio-telephony, radio-	Manufacture in which:	Manufacture in which the

	telegraphy, radio-broadcasting or television, whether or not incorporating reception apparatus or sound recording or reproducing apparatus; television cameras, still image video cameras and other digital cameras and video camera recorders	—the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	value of all the materials used does not exceed 25 % of the ex-works price of the product
8526	Radar apparatus, radio navigational aid apparatus and radio remote control apparatus	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8527	Reception apparatus for radio-telephony, radio-telegraphy or radio-broadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8528	Reception apparatus for television, whether or not incorporating radio broadcast receivers or sound or video recording or reproducing apparatus; video monitors and video projectors	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	
8529	Parts suitable for use solely or principally with the apparatus of headings 8525 to 8528:		
	— Suitable for use solely or principally with video recording or reproducing apparatus	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
	— Other	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-

		value of all the originating materials used	works price of the product
8535 and 8536	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of heading 8538 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8537	Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading 8535 or 8536, for electric control or the distribution of electricity, including those incorporating instruments or apparatus of Chapter 90, and numerical control apparatus, other than switching apparatus of heading 8517	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of heading 8538 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex ex8541	Diodes, transistors and similar semi-conductor devices, except wafers not yet cut into chips	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8542	Electronic integrated circuits and microassemblies		
	— Monolithic integrated circuits	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % of the ex-works price of the product or The operation of diffusion, in which integrated circuits are formed on a semi-conductor substrate by the selective introduction of an appropriate dopant, whether or not	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product

		assembled and/or tested in a country other than those specified in Article 3	
	– Other	<p>Manufacture in which:</p> <ul style="list-style-type: none"> — the value of all the materials used does not exceed 40 % of the ex-works price of the product, and — within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % of the ex-works price of the product 	<p>Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product</p>
8544	Insulated (including enamelled or anodised) wire, cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fibre cables, made up of individually sheathed fibres, whether or not assembled with electric conductors or fitted with connectors	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8545	Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8546	Electrical insulators of any material	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8547	Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating materials apart from any minor components of metal (for example, threaded sockets) incorporated during moulding solely for purposes of assembly, other than insulators of heading 8546; electrical conduit tubing and joints therefor, of base metal	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

	lined with insulating material		
8548	Waste and scrap of primary cells, primary batteries and electric accumulators; spent primary cells, spent primary batteries and spent electric accumulators; electrical parts of machinery or apparatus, not specified or included elsewhere in this Chapter	Manufacture in which the value of all materials used does not exceed 40 % of the ex-works price of the product.	
ex Chapter 86	Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds; except for:	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8608	Railway or tramway track fixtures and fittings; mechanical (including electromechanical) signalling, safety or traffic control equipment for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields; parts of the foregoing	Manufacture:—from materials of any heading, except that of the product, and—in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex Chapter 87	Vehicles other than railway or tramway rolling stock, and parts and accessories thereof; except for:	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8709	Works trucks, self-propelled, not fitted with lifting or handling equipment, of the type used in factories, warehouses, dock areas or airports for short distance transport of goods; tractors of the type used on railway station platforms; parts of the foregoing vehicles	Manufacture:—from materials of any heading, except that of the product, and—in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8710	Tanks and other armoured fighting vehicles, motorized, whether or not fitted with	Manufacture:—from materials of any heading, except that of the product, and	Manufacture in which the value of all the materials

	weapons, and parts of such vehicles	—in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	used does not exceed 30 % of the ex-works price of the product
8711	Motorcycles (including mopeds) and cycles fitted with an auxiliary motor, with or without side-cars; side-cars:		
	— With reciprocating internal combustion piston engine of a cylinder capacity:		
	— — Not exceeding 50 cm ³	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 20 % of the ex-works price of the product
	— — Exceeding 50 cm ³	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
	— Other	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex ex8712	Bicycles without ball bearings	Manufacture from materials of any heading, except those of heading 8714	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product

8715	Baby carriages and parts thereof	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8716	Trailers and semi-trailers; other vehicles, not mechanically propelled; parts thereof	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex Chapter 88	Aircraft, spacecraft, and parts thereof; except for:	Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex8804	Rotochutes	Manufacture from materials of any heading, including other materials of heading 8804	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
8805	Aircraft launching gear; deck-arrestor or similar gear; ground flying trainers; parts of the foregoing articles	Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
Chapter 89	Ships, boats and floating structures	Manufacture from materials of any heading, except that of the product. However, hulls of heading 8906 may not be used	Manufacture in which the value of all the materials used does not exceed 40 %

			of the ex-works price of the product
ex Chapter 90	Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof; except for:	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9001	Optical fibres and optical fibre bundles; optical fibre cables other than those of heading 8544; sheets and plates of polarizing material; lenses (including contact lenses), prisms, mirrors and other optical elements, of any material, unmounted, other than such elements of glass not optically worked	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9002	Lenses, prisms, mirrors and other optical elements, of any material, mounted, being parts of or fittings for instruments or apparatus other than such elements of glass not optically worked	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9004	Spectacles, goggles and the like, corrective, protective or other	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex ex9005	Binoculars, monoculars, other optical telescopes, and mountings therefor, except for astronomical refracting telescopes and mountings therefor	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product; and —in which the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex ex9006	Photographic (other than cinematographic) cameras; photographic flashlight apparatus and flashbulbs	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials used does not exceed	Manufacture in which the value of all the materials used does not

	other than electrically ignited flashbulbs	40 % of the ex-works price of the product, and —in which the value of all the non-originating materials used does not exceed the value of all the originating materials used	exceed 30 % of the ex-works price of the product
9007	Cinematographic cameras and projectors, whether or not incorporating sound recording or reproducing apparatus	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —in which the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9011	Compound optical microscopes, including those for photomicrography, cinephotomicrography or microprojection	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —in which the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex ex9014	Other navigational instruments and appliances	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9015	Surveying (including photogrammetric surveying), hydrographic, oceanographic, hydrological, meteorological or geophysical instruments and appliances, excluding compasses; rangefinders	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9016	Balances of a sensitivity of 5 cg or better, with or without weights	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9017	Drawing, marking-out or mathematical calculating instruments (for example, drafting machines, pantographs, protractors, drawing sets, slide rules, disc calculators);	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

	instruments for measuring length, for use in the hand (for example, measuring rods and tapes, micrometers, callipers), not specified or included elsewhere in this chapter		
9018	Instruments and appliances used in medical, surgical, dental or veterinary sciences, including scintigraphic apparatus, other electro-medical apparatus and sight-testing instruments:		
	– Dentists' chairs incorporating dental appliances or dentists' spittoons	Manufacture from materials of any heading, including other materials of heading 9018	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
	– Other	Manufacture: — from materials of any heading, except that of the product, and — in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
9019	Mechano-therapy appliances; massage apparatus; psychological aptitude-testing apparatus; ozone therapy, oxygen therapy, aerosol therapy, artificial respiration or other therapeutic respiration apparatus	Manufacture: — from materials of any heading, except that of the product, and — in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
9020	Other breathing appliances and gas masks, excluding protective masks having neither mechanical parts nor replaceable filters	Manufacture: — from materials of any heading, except that of the product, and — in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product

9024	Machines and appliances for testing the hardness, strength, compressibility, elasticity or other mechanical properties of materials (for example, metals, wood, textiles, paper, plastics)	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9025	Hydrometers and similar floating instruments, thermometers, pyrometers, barometers, hygrometers and psychrometers, recording or not, and any combination of these instruments	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9026	Instruments and apparatus for measuring or checking the flow, level, pressure or other variables of liquids or gases (for example, flow meters, level gauges, manometers, heat meters), excluding instruments and apparatus of heading 9014, 9015, 9028 or 9032	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9027	Instruments and apparatus for physical or chemical analysis (for example, polarimeters, refractometers, spectrometers, gas or smoke analysis apparatus); instruments and apparatus for measuring or checking viscosity, density, expansion, surface tension or the like; instruments and apparatus for measuring or checking quantities of heat, sound or light (including exposure meters); microtomes	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9028	Gas, liquid or electricity supply or production meters, including calibrating meters therefor:		
	– Parts and accessories	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

	– Other	Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9029	Revolution counters, production counters, taximeters, mileometers, pedometers and the like; speed indicators and tachometers, other than those of heading 9014 or 9015; stroboscopes	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9030	Oscilloscopes, spectrum analysers and other instruments and apparatus for measuring or checking electrical quantities, excluding meters of heading 9028; instruments and apparatus for measuring or detecting alpha, beta, gamma, X-ray, cosmic or other ionizing radiations	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9031	Measuring or checking instruments, appliances and machines, not specified or included elsewhere in this chapter; profile projectors	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9032	Automatic regulating or controlling instruments and apparatus	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9033	Parts and accessories (not specified or included elsewhere in this chapter) for machines, appliances, instruments or apparatus of Chapter 90	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex Chapter 91	Clocks and watches and parts thereof; except for:	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9105	Other clocks	Manufacture in which:	Manufacture in which the value of all

		<ul style="list-style-type: none"> —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used 	the materials used does not exceed 30 % of the ex-works price of the product
9109	Clock movements, complete and assembled	<p>Manufacture in which:</p> <ul style="list-style-type: none"> —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used 	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9110	Complete watch or clock movements, unassembled or partly assembled (movement sets); incomplete watch or clock movements, assembled; rough watch or clock movements	<p>Manufacture in which:</p> <ul style="list-style-type: none"> —the value of all the materials used does not exceed 40 % of the ex-works price of the product, and —within the above limit the value of all the materials of heading 9114 used does not exceed 10 % of the ex-works price of the product 	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9111	Watch cases and parts thereof	<p>Manufacture:</p> <ul style="list-style-type: none"> —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product 	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9112	Clock cases and cases of a similar type for other goods of this chapter, and parts thereof	<p>Manufacture:</p> <ul style="list-style-type: none"> —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex-works price of the product 	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9113	Watch straps, watch bands and watch bracelets, and parts thereof:		
	— Of base metal, whether or not gold- or silver-plated, or of metal clad with precious metal	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

	– Other	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
Chapter 92	Musical instruments; parts and accessories of such articles	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
Chapter 93	Arms and ammunition; parts and accessories thereof	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex Chapter 94	Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings; except for:	Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex ex9401 and ex ex9403	Base metal furniture, incorporating unstuffed cotton cloth of a weight of 300 g/m ² or less	Manufacture from materials of any heading except that of the product or Manufacture from cotton cloth already made up in a form ready for use with materials of heading 9401 or 9403, provided that: —the value of the cloth does not exceed 25 % of the ex-works price of the product, and —all the other materials used are originating and are classified in a heading other than heading 9401 or 9403	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
9405	Lamps and lighting fittings including searchlights and spotlights and parts thereof, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like, having a permanently fixed light source, and parts thereof not elsewhere specified or included	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
9406	Prefabricated buildings	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	

ex Chapter 95	Toys, games and sports requisites; parts and accessories thereof; except for:	Manufacture from materials of any heading, except that of the product	
ex ex9503	Other toys; reduced-size ('scale') models and similar recreational models, working or not; puzzles of all kinds	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex ex9506	Golf clubs and parts thereof	Manufacture from materials of any heading, except that of the product. However, roughly-shaped blocks for making golf-club heads may be used	
ex Chapter 96	Miscellaneous manufactured articles; except for:	Manufacture from materials of any heading, except that of the product	
ex ex9601 and ex ex9602	Articles of animal, vegetable or mineral carving materials	Manufacture from 'worked' carving materials of the same heading as the product	
ex ex9603	Brooms and brushes (except for besoms and the like and brushes made from marten or squirrel hair), hand-operated mechanical floor sweepers, not motorized, paint pads and rollers, squeegees and mops	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
9605	Travel sets for personal toilet, sewing or shoe or clothes cleaning	Each item in the set must satisfy the rule which would apply to it if it were not included in the set. However, non-originating articles may be incorporated, provided that their total value does not exceed 15% of the ex-works price of the set	
9606	Buttons, press-fasteners, snap-fasteners and press-studs, button moulds and other parts of these articles; button blanks	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
9608	Ball-point pens; felt-tipped and other porous-tipped pens and markers; fountain pens, stylograph pens and other pens; duplicating stylos; propelling or sliding pencils; pen-holders, pencil-holders and similar	Manufacture from materials of any heading, except that of the product. However, nibs or nib-points of the same heading as the product may be used	

	holders; parts (including caps and clips) of the foregoing articles, other than those of heading 9609		
9612	Typewriter or similar ribbons, inked or otherwise prepared for giving impressions, whether or not on spools or in cartridges; ink-pads, whether or not inked, with or without boxes	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
ex ex9613	Lighters with piezo-igniter	Manufacture in which the value of all the materials of heading 9613 used does not exceed 30 % of the ex-works price of the product	
ex ex9614	Smoking pipes and pipe bowls	Manufacture from roughly-shaped blocks	
Chapter 97	Works of art, collectors' pieces and antiques	Manufacture from materials of any heading, except that of the product

(²) For the special conditions relating to 'specific Processes', see Introductory Notes 7.2.

(³) Note 3 to Chapter 32 says that these preparations are those of a kind used for colouring any material or used as ingredients in the manufacture of colouring preparations, provided that they are not classified in another heading in Chapter 32.

(⁴) A 'group' is regarded as any part of the heading separated from the rest by a semicolon.

(⁵) In the case of the products composed of materials classified within both headings 3901 to 3906, on the one hand, and within heading 3907 to 3911, on the other hand, this restriction only applies to that group of materials which predominates by weight in the product.

(⁶) The following foils shall be considered as highly transparent: foils, the optical dimming of which, measured according to ASTM-D 1003-16 by haze factor less than 2%.

(⁷) For special conditions relating to products made of a mixture of textile materials, see Introductory Note 5.

(⁸) The use of this material is restricted to the manufacture of woven fabrics of a kind used in paper-making machinery.

(⁹) See Introductory Note 6.

(¹⁰) For knitted or crocheted articles that are elastic or rubberised, obtained by sewing or assembling pieces of knitted or crocheted fabrics (cut out or knitted directly to shape), see Introductory Note 6.

ANNEX IIIa

Specimens of movement certificate EUR.1 and application for a movement certificate EUR.1

Printing instructions

1. Each form shall measure 210×297 mm; a tolerance of up to minus 5 mm or plus 8 mm in the length may be allowed. The paper used must be white, sized for writing, not containing mechanical pulp and weighing not less than 25 g/m^2 . It shall have a printed green guilloche pattern background making any falsification by mechanical or chemical means apparent to the eye.
2. The competent authorities of the Parties may reserve the right to print the forms themselves or may have them printed by approved printers. In the latter case, each form shall include a reference to such approval. Each form shall bear the name and address of the printer or a mark by which the printer can be identified. It shall also bear a serial number, either printed or not, by which it can be identified.
