A. ticle 6

Siffuenti, orked or processed products

1. For the purpose of Article 2, products which are not wholly obtained shall be considered to a sufficiently worked or processed when the conditions set out in Annex II are fulfilled.

The conditions referred to above indicate the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in Annex II, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10% of the ex-works price of the product;
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded by virtue of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Goods Classification Table made under the Customs Tariff (Establishment) Regulations 2019 ("Goods Classification Table").

3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 7.

Article 7

Insufficient working or processing

- 1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the states originating products, whether or not the requirements of Article 6 are satisfied.
 - (a) preserving operations to ensure that the products remain in good condition during transport and torage
 - (b) breaking-up and assembly of p ckages;
 - (c) washing, cleaning reme alor dust, oxide, oil, paint or other coverings;
 - (d) ironing or pressing on extiles;
 - (e) sin to parting and polishing operations;
 - (f) ski, g, partial or total bleaching, polishing, and glazing of cereals and rice;
 - (g) operations to colour sugar or form sugar lumps;
 - (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
 - (i) sharpening, simple grinding or simple cutting;
 - (j) sifting, screening, sorting, classifying, grading, matching (including the making-up of sets of articles);
 - (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
 - (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

- (m) simple mixing of products, whether or not of different kinds;
- (n) mixing of sugar with any material;
- (o) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (p) a combination of two or more operations specified in (a) to (n);
- (q) slaughter of animals.
- 2. All operations carried out in the United Kingdom or in the Faroe Islands on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Unit of qualifica con

1. The unit of qualification for the application of the provisions of this Origin Reference Document shall be the particular product which is considered as the basic unit when determining classification using the particular of the Goods Classification Table.

It follows that:

- when a p. odu. composed of a group or assembly of articles is classified unter the terms of the Goods Classification Table in a single heading, the value estitutes the unit of qualification;
- (b) when a onsignment consists of a number of identical products classified under the same heading of the Goods Classification Table, each product must be taken individually when applying the provisions of this Origin Reference Document.
- 2. Where, under General Rule 5 of Part Two, Section 1, of the Tariff of the United Kingdom, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in General Rule 3 of Part Two, Section 1, of the Tariff of the United Kingdom, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15% of the ex-works price of the set.

Article 11

Neutral elements

In order to determine whether a product is an origin ing product, it shall not be necessary to determine the origin of the bllow which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipme.
- (c) machine and took
- (d) goods which neither enter into the final composition of the product nor a pine nded to do so.

TITLE III

TERRITORIAL REQUIREMENTS

Article 12

Principle of territoriality

1. Except as provided for in Articles 3, 4 and paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II shall be fulfilled without interruption in the United Kingdom or in the Faroe Islands.

- 2. Except as provided for in Articles 3 and 4, where originating goods exported from the United Kingdom or from the Faroe Islands to another country return, they shall be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the returning goods are the same as those exported; and
 - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.
- 3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the United Kingdom or the Faroe Islands on materials exported from the United Kingdom or the Faroe Islands and subsequently re-imported there, provided:
 - the said materials are wholly obtained in the United Kingdom or the Faroe Islands or have undergone working processing beyond the operations referred to in Article 7 prior to be 1 g exported; and
 - (b) it can be demonstrated to the satisf ction sthe customs authorities that:
 - (i) the re-imported goo's have been obtained by working or processing the exported materials; and
 - (ii) the total do'ed value acquired outside the United Kingdom or the Faroe Islan's by a plying the provisions of this Article does not exceed 10% of the ex-works price of the end product for which digin, ting that is claimed.
- 4. For the pulsos of paragraph 3, the conditions for acquiring originating status set out in Til. II is all not apply to working or processing done outside the United Kingdom or the False Islands. However, where, in Annex II a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the Party concerned, taken together with the total added value acquired outside the United Kingdom or the Faroe Islands by applying the provisions of this Article, shall not exceed the stated percentage.
- 5. For the purposes of applying the provisions of paragraphs 3 and 4, 'total added value' means all costs arising outside the United Kingdom or the Faroe Islands, including the value of the materials incorporated there.
- 6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6(2) is applied.

- 7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Goods Classification Table.
- 8. Any working or processing of the kind covered by the provisions of this Article and done outside the United Kingdom or the Faroe Islands shall be done under the outward processing arrangements, or similar arrangements.

Direct transport

1. The preferential treatment provided for under the United Kingdom-Faroe Islands Agreement shall apply only to products satisfying the requirements of this Origin Reference Document, which are transported directly between the car ies or through the territories of the other countries referred to in Articles 3 and 4 ith which cumulation is applicable. However, products constituting one single consignment may be transported through other territories with, should the occar and rise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transact or warehousing and do not undergo operations other than unloading, repairing or any operation designed to preserve them in good condition.

Originating products may be transporter by p pelme across a territory other than that of the Parties.

- 2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities on the United Kingdom by the production of:
 - (a) a single transport document covering the passage from the exporting Part, the use the country of transit; or
 - (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used; and
 - (iii) certifying the conditions under which the products remained in the transit country; or
 - (c) failing these, any substantiating documents.

Exhibitions

- 1. Originating products sent for exhibition in a country other than those referred to in Articles 3 and 4 with which cumulation is applicable, and sold after the exhibition for importation in the United Kingdom or the Faroe Islands, shall benefit on importation from the provisions of the United Kingdom-Faroe Islands Agreement, provided it is shown to the satisfaction of the customs authorities that:
 - (a) an exporter has consigned these products from the United Kingdom or the Faroe Islands to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in the United Kingdom or the Farce Islands,
 - (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they we sent for exhibition; and
 - (d) the products have not, sine the were onsigned for exhibition, been used for any purpose other up a constration at the exhibition.
- 2. A proof of origin shall be is red a mode out in accordance with the provisions of Title V and submitted to the contons authorities of the United Kingdom or the Faroe Islands in the normal manner (the same and address of the exhibition shall be indicated thereon. Where necessary add ional documentary evidence of the conditions under which they have been exhibited may be required.
- 3. Paragraph 1 share only to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business precesses with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

DRAWBACK OR EXEMPTION

Article 15

Prohibition of drawback of, or exemption from, customs duties

1. Non-originating materials used in the manufacture of products originating in the United Kingdom or in the Faroe Islands for which a proof of origin is issued or made

out in accordance with the provisions of Title V shall not be subject in the United Kingdom or the Faroe Islands to drawback of, or exemption from, customs duties of whatever kind.

- 2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in the United Kingdom or the Faroe Islands to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.
- 3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.
- 4. The provisions of paragraphs 1, 2 and 3 of this Article's all also apply in respect of packaging within the meaning of Article 8(2), access v. s. spare parts and tools within the meaning of Article 9 and products in a set walking the meaning of Article 10 when such items are non-originating.
- 5. The provisions of paragraphs 1 to 4 shot apply only in respect of materials which are of the kind to which the United Kingdom-Froe Islands Agreement applies.

TLE V

PROOF OF ORIGIN

Article 16

General requirements

- 1. Products originating in the Faroe Islands shall, on importation into the other Party, benefit from the provisions of the United Kingdom-Faroe Islands Agreement upon submission of one of the following proofs of origin:
 - (a) a movement certificate EUR.1, a specimen of which appears in Annex IIIa;
 - (b) a movement certificate EUR-MED, a specimen of which appears in Annex IIIb; or
 - (c) in the cases specified in Article 22(1), a declaration (hereinafter referred to as the 'origin declaration' or the 'origin declaration EUR-MED') given by the exporter on an invoice, a delivery note or any other commercial

document which describes the products concerned in sufficient detail to enable them to be identified. The texts of the origin declarations appear in Incorporated Annexes IV a and b.

- 2. Notwithstanding paragraph 1, originating products within the meaning of this Origin Reference Document shall, in the cases specified in Article 27, benefit from the United Kingdom-Faroe Islands Agreement without it being necessary to submit any of the proofs of origin referred to in paragraph 1 of this Article.
- 3. Notwithstanding paragraph 5 of Article 17 and paragraph 3 of Article 22 below, where cumulation involves only the United Kingdom, the European Union, Switzerland (including Liechtenstein), Iceland, Norway, the Faroe Islands, Turkey, the Republic of Albania, Bosnia and Herzegovina, the Republic of Macedonia, Montenegro, the Republic of Serbia, the Republic of Kosovo, the Republic of Moldova or Georgia, the proof of origin may be a movement of tificate EUR.1 or an origin declaration.

Article 17

Procedure for the issue of a movement ce tifi a. EUR.1 or EUR-MED

- 1. A movement certificate EUR.1 or EU. -MED shall be issued by the customs authorities of the exporting Party on ar pile, tion having been made in writing by the exporter or, under the exporter's responsibility by his authorised representative.
- 2. For this purpose, the expecter or his authorised representative shall fill in both the movement certificate EU 1 or TUR-MED and the application form, specimens of which appear in the In orperate. Annexes III a and b. These forms shall be completed in one of the languages in which the United Kingdom-Faroe Islands Agreement is drawn up and in accordance with the provisions of the domestic law of the exporting country. If the completion of the follows is done in handwriting, they shall be completed in ink in printed characters. The description of the products shall be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line shall be drawn below the last line of the description, the empty space being crossed through.
- 3. The exporter applying for the issue of a movement certificate EUR.1 or EUR-MED shall be prepared to submit at any time, at the request of the customs authorities of the United Kingdom or the Faroe Islands where the movement certificate EUR.1 or EUR-MED is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Origin Reference Document.
- 4. Without prejudice to paragraph 5, a movement certificate EUR.1 shall be issued by the customs authorities of the United Kingdom or of the Faroe Islands in the following cases:

- (a) if the products concerned can be considered as products originating in the United Kingdom or in the Faroe Islands with which cumulation is applicable, without application of cumulation with materials originating in Switzerland (including Liechtenstein), Turkey or one of the countries referred to in Articles 3(2) and 4(2), and fulfil the other requirements of this Origin Reference Document; or
- (b) if the products concerned can be considered as products originating in one of the other countries referred to in Articles 3 and 4 with which cumulation is applicable, without application of cumulation with materials originating in one of the countries referred to in Articles 3 and 4, and fulfil the other requirements of this Origin Reference Document, provided a certificate EUR-MED or an invoice declaration EUR-MED has been issued in the country of origin.
- 5. A movement certificate EUR-MED shall be issued by the cust ms authorities of the United Kingdom or of the Faroe Islands in the following cas:
 - cumulation was applied with materials originating in Switzerland (including Liechtenstein), Turkey or one of the countries reserved to in Articles 3(2) and 4(2); or
 - (b) the products may be used as mate ials in the context of cumulation for the manufacture of products or export to one of the countries referred to in Articles 3 and 4; or

- 4. The duplicate, which shall bear the fate of issue of the original movement certificate EUR.1 or EUR-MED, shall the effect as from that date.

Article 20

Issue of movement certifical's EVR.1 or EUR-MED on the basis of a proof of origin issued or made out previously

When originath, products are placed under the control of a customs office in the United Kingdom or the Farch's lands, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 or EUR-MED for the purpose of sending all or some of these products elsewhere within the United Kingdom or the Faroe Islands. The replacement movement certificate(s) EUR.1 or EUR-MED shall be issued by the customs office under whose control the products are placed.

Article 21

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may, at the written request of those concerned, authorise the so-

called 'accounting segregation' method (hereinafter referred to as the 'method') to be used for managing such stocks.

- 2. The method shall ensure that, for a specific reference-period, the number of products obtained which could be considered as 'originating' is the same as that which would have been obtained had there been physical segregation of the stocks.
- 3. The customs authorities may make the grant of authorisation, referred to in paragraph 1 subject to any conditions deemed appropriate.
- 4. The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the country where the product was manufactured.
- 5. The beneficiary of the method may make out or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a sudement of how the quantities have been managed.
- 6. The customs authorities shall monitor the use mode of the authorisation and may withdraw it whenever the beneficiary makes impropose use the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Origin Reference Document.

A ticle 12

Conditions for making out not in declaration or an origin declaration EUR-MED

- 1. An origin declaration or a origin declaration EUR-MED as referred to in Article 16(1)(c) may be pade ut:
 - (a) by an approach exporter within the meaning of Article 23; or
 - (b) by any exporter for any consignment consisting of one or more packages containing originating products the total value of which does not exceed EUR 6 000.
- 2. Without prejudice to paragraph 3, an origin declaration may be made out in the following cases:
 - (a) if the products concerned may be considered as products originating in the United Kingdom or in the Faroe Islands without application of cumulation with materials originating in Switzerland (including Liechtenstein), Turkey or one of the other countries referred to in Articles 3(2) and 4(2), and fulfil the other requirements of this Origin Reference Document; or
 - (b) if the products concerned may be considered as products originating in one of the other countries referred to in Articles 3 and 4 with which cumulation

is applicable, without application of cumulation with materials originating in one of the countries referred to in Articles 3 and 4, and fulfil the other requirements of this Origin Reference Document, provided a certificate EUR-MED or an invoice declaration EUR-MED has been issued in the country of origin.

- 3. An origin declaration EUR-MED may be made out if the products concerned can be considered as products originating in the United Kingdom, in the Faroe Islands or in one of the other countries referred to in Articles 3 and 4 with which cumulation is applicable, and fulfil the requirements of this Origin Reference Document, in the following cases:
 - (a) cumulation was applied with materials originating in Switzerland (including Liechtenstein), Turkey or one of the other countries referred to in Articles 3(2) and 4(2); or
 - (b) the products may be used as materials in the cutext of cumulation for the manufacture of products for export to one of the ther countries referred to in Articles 3 and 4; or
 - (c) the products may be re-exported from the country of destination to one of the other countries referred to in Article 3 and 3.
- 4. An origin declaration EUR-MED shall contain one of the following statements in English:
 - if origin has been obtained by a plication of cumulation with materials originating in 6.2 (7 m) re or ale countries referred to in Articles 3 and 4:
 - 'CUMU A'I ON POLIED WITH ... (name of the country/countries)'
 - (b) if o ign. ba been obtained without the application of cumulation with pater als originating in one or more of the countries referred to in Article 3 and 4:

'NO CUMULATION APPLIED'

- 5. The exporter making out an origin declaration or an origin declaration EUR-MED shall be prepared to submit at any time, at the request of the customs authorities of the exporting Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Origin Reference Document.
- 6. An origin declaration or an origin declaration EUR-MED shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the texts of which appear in Incorporated Annexes IV a and b, using one of the linguistic versions set out in those Annexes and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

- 7. Origin declarations and origin declarations EUR-MED shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting Party a written undertaking that he accepts full responsibility for any origin declaration which identifies him as if it had been signed in manuscript by him.
- 8. An origin declaration or an origin declaration EUR-MED may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country at the latest two years after the importation of the products to which it relates.

Approved exporter

- 1. The customs authorities of the exporting Party of uthorise any exporter (hereinafter referred to as 'approved exporter'), who makes equent shipments of products in accordance to the provisions of the Unital Kingdom-Faroe Islands Agreement to make out origin declarations or or gin declarations EUR-MED irrespective of the value of the products concerned. An exporter seeking such authorisation shall offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status or the products as well as the fulfilment of the other requirements of this Origin Reference Dolument.
- 2. The customs authorities by grant the status of approved exporter subject to any conditions which they consider appropriate.
- 3. The customs at hornes shall grant to the approved exporter a customs authorisation number which shall appear on the origin declaration or on the origin declaration E. R-M. D.
- 4. The customs achorities shall monitor the use of the authorisation by the approved exporter.
- 5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 24

Validity of proof of origin

- 1. A proof of origin shall be valid for four months from the date of issue in the exporting Party, and shall be submitted within that period to the customs authorities of the United Kingdom.
- 2. Proofs of origin which are submitted to the customs authorities of the United Kingdom after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
- 3. In other cases of belated presentation, the customs authorities of the United Kingdom may accept the proofs of origin where the products have been submitted before the said final date.

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the United Kingdom in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also equive the import declaration to be accompanied by a statement from the imported to the effect that the products meet the conditions required for the implementation of a United Kingdom-Faroe Islands Agreement.

rticie 26

n. portion by instalments

Where, at the record of the noporter and subject to the conditions laid down by the customs authoritie of the United Kingdom, dismantled or non-assembled products within the meating of General Rule 2(a) of Part Two, Section 1, of the Tariff of the United Kingdom tariff of within Sections XVI and XVII or headings 7308 and 9406 of the Goods Classification Table are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 27

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Origin Reference Document and where there is no doubt as to the veracity of such

a declaration. In the case of products sent by post, that declaration may be made on the customs declaration CN22 / CN23 or on a sheet of paper annexed to that document.

- 2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
- 3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 22(5) used for the purpose of proving that products covered by a movement certificate EUR.1 or E JR-MED, or an origin declaration or origin declaration EUR-MED may be considered a products originating in the United Kingdom, in the Faroe Islands or in configuration of the their countries referred to in Articles 3 and 4 and fulfil the other requirements of this Origin Reference Document may consist, *inter alia*, of the following:

- direct evidence of the process scallied out by the exporter or supplier to obtain the goods concerted, contained for example in his accounts or internal bookkepping,
- (b) document proving the originating status of materials used, issued or made of in the United Kingdom or in the Faroe Islands where these document are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in the United Kingdom or in the Faroe Islands, issued or made out in the United Kingdom or in the Faroe Islands, where these documents are used in accordance with domestic law;
- (d) movement certificates EUR.1 or EUR-MED or origin declarations or origin declarations EUR-MED proving the originating status of materials used, issued or made out in the United Kingdom or the Faroe Islands in accordance with this Origin Reference Document, or in one of the other countries referred to in Articles 3 and 4, in accordance with rules of origin which are identical to the rules in this Origin Reference Document;
- (e) appropriate evidence concerning working or processing undergone outside the United Kingdom, the Faroe Islands or the other countries referred to in Articles 3 and 4 by application of Article 12, proving that the requirements of that Article have been satisfied.

Discrepancies and formal errors

- 1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
- 2. Obvious formal errors, such as typing errors, on a proof of origin shall not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 30

Amounts expressed in euro

- 1. For the application of the provisions of A and 22 (b) and Article 27(3) in cases where products are invoiced in a currency other national currencies of the countries referred to in Articles and 4 equivalent to the amounts expressed in euro shall be fixed annually a each of the countries concerned.
- 2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currence in thich the invoice is drawn up, according to the amount fixed by the Party content d.
- 3. The amounts to be used in say given national currency shall be the equivalent in that currency of the amounts a pressed in euro as at the first working day of October and shall apply from a fact vary the following year. The Parties shall notify each other of the relevant mounts.
- 4. A Party may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5%. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15% in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.
- 5. The amounts expressed in euro shall be reviewed by the Joint Committee at the request of any of the Parties. When carrying out this review, the Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 31

Verification of proofs of origin

- 1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the United Kingdom have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Origin Reference Document.
- 2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the United Kingdom shall return the movement certificate EUR.1 or EUR-MED and the invoice, if it has been submitted, the origin declaration or the origin declaration EUR-MED, or a copy of these documents, to the currons a thorities of the exporting Party giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
- 3. The verification shall be carried out by the cut to as authorities of the exporting Party. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or my other check considered appropriate.
- 4. If the customs authorities of the Inited Lingdom decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judge inecessary.
- 5. The customs aut oriting requesting the verification shall be informed of the results of this verification as soon as possible. These results shall indicate clearly whether the a sum nts are authentic and whether the products concerned may be considered as product originating in the Faroe Islands or in one of the other countries referred to in Articles 3 and 4 and fulfil the other requirements of this Origin Reference Document.
- 6. If, in cases of reasonable doubt, there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

TITLE VII

FINAL PROVISIONS

CEUTA AND MELILLA

Article 32

Application of the Origin Reference Document

The term 'European Union' used in this Origin Reference Document does not cover Ceuta and Melilla. Products originating in Ceuta and Melilla are not considered to be products originating in the European Union for the purposes of this Origin Reference Document.

TITLE VIII

FINAL PROVISION

<u>Article (3</u>

Transitional Provision or Gods in Transit or Storage

The provisions of the United Kirgdon-race Islands Agreement may be applied to goods which comply with the provisions of this Origin Reference Document and which, on the date of entry into force of the United Kingdom-Faroe Islands Agreement, are either in transit or are in the United Kingdom or in the Faroe Islands in temporary storage in custome warehouses or in free zones, subject to the submission to the customs authorities of the importing country, within twelve months of the said date, of a movement centificant EUR.1 or EUR-MED issued retrospectively by the customs authorities of the early ting country together with the documents showing that the goods have been transported directly in accordance with the provisions of Article 13.

Article 34

Annexes

The Annexes to this Origin Reference Document are an integral part thereof.

The Principality of Andorra

- 1. Products originating in the Principality of Andorra falling within Chapters 25 to 97 of the Goods Classification Table, and meeting the conditions of Articles 3(7)(b)(ii) and 4(5)(b)(ii), shall be accepted by the Parties as originating in the European Union.
- 2. This Origin Reference Document shall apply mutatis mutandis for the purpose of defining the originating status of the abovementioned products.

Article 36

The Republic of San Marino

- 1. Products originating in the Republic of San Marino meeting the conditions of Articles 3(7)(b)(ii) and 4(5)(b)(ii), shall be accepted to the Parties as originating in the European Union.
- 2. This Origin Reference Document shall apply mutatis mutandis for the purpose of defining the originating status of the all over mentioned products.

ANNEX I

Introductory notes to the list in Annex II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of this Protocol.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Commodity Code and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 or 4 .ppi, only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in colu. In or a chapter number is given and the description of products in column 2 is therefore tive in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Compositive Code, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list a plying to different products within a heading, each indent contains the description of the part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

3.1. The provisions of Article 6 of this Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in any of the other countries referred to in Articles 3 and 4 of this Protocol with which cumulation is applicable.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading ex 7224.

If this forging has been forged in the European Union from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the European Union. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule uses the expression Man facture from materials of any heading', then materials of any heading(s) (even materials or be same description and heading as the product) may be used, subject, however, to any species limitations which may also be contained in the rule.

However, the expression 'Manufacture from materials of heading...' or 'Manufacture from materials of any reading, including other materials of the same heading as the product' means that materials of any heading(s) may be used, except those of the same description as the product as given in plum 12 of the list.

3.4. When a rule in the list specifies the a product may be manufactured from more than one material, this means that one or more may rials have be used. It does not require that all be used.

Example:

The rule for fabric of readings 5208 to 5212 provides that natural fibres may be used and that chemical materials, amendates other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term 'natural fibres' is used in the list to refer to libes ther than artificial or synthetic fibres. It is restricted to the stages before spinning take place including waste, and, unless otherwise specified, includes fibres which have been called, ambed or otherwise processed, but not spun.
- 4.2. The term 'natural fibres' includes of sehal's or neading 0511, silk of headings 5002 and 5003, as well as wool fibres and fine of coal e animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other legetable fibres of headings 5301 to 5305.
- 4.3. The terms 'textile pulp', 'can't ical materials' and 'paper-making materials' are used in the list to describe the mater. Is, ot classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4).

5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

been made from two of more basic textue materials.

- silk,
- wool.
- coarse animal hair,
- fine animal hair,
- horsehair.
- cotton,
- paper-making materials and paper,

The following are the basic textile materials:

- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus Agave,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypopyline,
- synthetic man-made staple fibres of olyeter,
- synthetic man-made staple fibres of por amic,
- synthetic man-made staple fibres of polya sylonitrile,
- synthetic man-made stapic fil res f poryimide,
- synthetic man-made start fit es of polytetrafluoroethylene,
- synthetic man-made staple sibres of poly(phenylene sulphide),
- synthetic man-mad stap fibres of poly(vinyl chloride),
- other synthetical ade scaple fibres,
- artificial van-n ade su le fibres of viscose,
- other artifician nan-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not

satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton ya. 1 or eading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two seasons at basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3.In the case of products incorporating 'yarn made' poly rethane segmented with flexible segments of polyether, whether or not gimped', this tole need is 20 % in respect of this yarn.
- 5.4.In the case of products incorporate of strip consisting of a core of aluminium foil or of a core of plastic film whether or not control with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transporant or coloured adhesive between two layers of plastic film', this tolerance is 30 % in respect of the strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

6.3. Where a percentage rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:
 - (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation process;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processin, with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (i) isomerisation.
- 7.2. For the purposes of headings 2710, 2711 at 1 2713 the 'specific processes' are the following:
 - (a) vacuum-distillation;
 - (b) redistillation by a very thoroug. f activation process;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of elec ve swents;
 - (f) the process comparing an of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric a hydride; neutralisation with alkaline agents; decolourisation and purification with path ally active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (i) isomerisation;
 - (j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method):
 - (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
 - (1) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

- (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method:
- (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush discharge;
- (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.
- 7.3.For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, or any combination of these operations or like operations, do not confer origin.

AN VEX. U

List of working or processing required to be carried out on non-originating materials in order for the product man factored to obtain originating status

y Code		Working or processing, carried out on non- originating materials, which confers originating			
heading		status			
(1)	(2)	(3) or (4)			
Chapter 1	Live an mals	All the animals of Chapter 1 shall be wholly obtained			
Chapter 2	Meat and edible meat offal	Manufacture in which all the materials of Chapters 1 and 2 used are wholly obtained			
Chapter 3	· · · · · · · · · · · · · · · · · · ·	Manufacture in which all the materials of Chapter 3 used are wholly obtained			
ex Chapter 4	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included; except for:	Manufacture in which all the materials of Chapter 4 used are wholly obtained			
0403	Buttermilk, curdled milk and cream, yoghurt, kephir and other fermented or acidified	Manufacture in which: —all the materials of Chapter 4 used are wholly obtained,			

-			
	milk and cream, whether or	—all the fruit juice (except that of	
	not concentrated or	pineapple, lime or grapefruit) of	
	containing added sugar or	heading 2009 used is originating, and	
	other sweetening matter or	—the value of all the materials of	
	flavoured or containing	Chapter 17 used does not exceed	
	added fruit, nuts or cocoa	30 % of the ex-works price of the	
	added fruit, fluts of cocou	product	
ov. Chantar 5	Draduate of animal origin not	Manufacture in which all the materials	
ex Chapter 5	<u> </u>		
	elsewhere specified or	of Chapter 5 used are wholly obtained	
2.72.7	included; except for:		
ex ex0502	Prepared pigs', hogs' or	Cleaning, disinfecting, sorting and	
	boars' bristles and hair	straightening of bristles and hair	
Chapter 6	Live trees and other plants;	Manufacture in which:	
	bulbs, roots and the like; cut	—all the materials of Chapter 6 used	
	flowers and ornamental	are wholly obtained, and	
	foliage	—the value of all the materials wed	
		does not exceed 50 % on he ex-	
		works price of the product	
Chapter 7	Edible vegetables and certain	Manufacture in which an he materials	
Chapter /	roots and tubers	of Chapter 7 and are holly obtained	
Chapter 8	Edible fruit and nuts; peel of		
Chapter 6	citrus fruits or melons		
	citius fruits of filefolis	—all the fruit and nuts used are wholly	
		c tain d, and	
		ne alue of all the materials of	
		Chap 17 used does not exceed	
		of the value of the ex-works	
		rice of the product	
ex Chapter 9		Manufacture in which all the materials	
	except for:	of Chapter 9 used are wholly obtained	
0901	Coffee, w'ther r not	Manufacture from materials of any	
	roasted or cecaninated;	heading	
	coffee . isks and skins;		
	coffee substances containing		
	coffee in any proportion		
0902		Manufacture from materials of any	
0702		heading	
ov. ov.0010	•		
ex ex0910	Mixtures of spices	Manufacture from materials of any	
		heading	
Chapter 10	Cereals	Manufacture in which all the materials	
		of Chapter 10 used are wholly obtained	
ex Chapter 11	Products of the milling	Manufacture in which all the cereals,	
	industry; malt; starches;	edible vegetables, roots and tubers of	
	inulin; wheat gluten; except	heading 0714 or fruit used are wholly	
	for:	obtained	
ex ex1106	Flour, meal and powder of	Drying and milling of leguminous	
	the dried, shelled	vegetables of heading 0708	
L	are arrea, silerica	1050moios of floading 0700	

	leguminous vegetables of heading 0713		
Chapter 12	Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	Manufacture in which all the materials of Chapter 12 used are wholly obtained	
1301	Lac; natural gums, resins, gum-resins and oleoresins (for example, balsams)	Manufacture in which the value of all the materials of heading 1301 used does not exceed 50 % of the ex-works price of the product	
1302	Vegetable saps and extracts; pectic substances, pectinates and pectates; agar-agar and other mucilages and thickeners, whether or not modified, derived from vegetable products:		
	 Mucilages and thickeners, modified, derived from vegetable products 	Manufacture from no -m. lified mucilages and bickers	
	– Other	Manufacture 1 which the value of all the pate, als used does not exceed 50% of the ex-works price of the product	
Chapter 14	Vegetable plaiting matrices; vegetable products to telesewhere specified or included	Tanaacture in which all the materials of Chapter 14 used are wholly obtained	
ex Chapter 15		Manufacture from materials of any heading, except that of the product	
1501	Pig fat (including lard) and poultry fat, other than that of heading 0209 or 1503:		
		Manufacture from materials of any heading, except those of heading 0203, 0206 or 0207 or bones of heading 0506	
	– Other	Manufacture from meat or edible offal of swine of heading 0203 or 0206 or of meat and edible offal of poultry of heading 0207	

1502	Esta afiliarina animala		
1502	Fats of bovine animals,		
1	sheep or goats, other than		
	those of heading 1503		
	 Fats from bones or waste 	Manufacture from materials of any	
		heading, except those of heading	
		0201, 0202, 0204 or 0206 or bones of	
		heading 0506	
	– Other	Manufacture in which all the materials	
		of Chapter 2 used are wholly obtained	
1504	Fats and oils and their	, , , , , , , , , , , , , , , , , , ,	
	fractions, of fish or marine		
	mammals, whether or not		
	refined, but not chemically		
	modified:		
	Solid fractions	Manufacture from materials any	
		heading, including other ateria of	
		heading 1504	
	– Other	Manufacture in whit all the materials	
	Other	of Chapters 2 ard 3 u ed a e wholly	
		obtained	
1505	D - C: 4 1 1:		
ex ex1505	Refined lanolin	Manufacture from rude wool grease of heading 15 5	
1506	Other animal fats and oils		
	and their fractions, whether		
	or not refined, but not		
	chemically modified:		
	- Solid fractions	Manufacture from materials of any	
	- Solid fractions		
		heading, including other materials of	
	Other	heading 1506	
	– Other	Manufacture in which all the materials	
0 -		of Chapter 2 used are wholly obtained	
1507 to	Vegetable oil and their		
1515	fractions:		
	 Soya, ground nut, palm, 	Manufacture from materials of any	
	copra, palm kernel, babassu,	heading, except that of the product	
	tung and oiticica oil, myrtle		
	wax and Japan wax, fractions		
	of jojoba oil and oils for		
	technical or industrial uses		
	other than the manufacture of		
	foodstuffs for human		
	consumption		
	 Solid fractions, except for 	Manufacture from other materials of	
	that of jojoba oil	headings 1507 to 1515	
	- Other	Manufacture in which all the vegetable	
		materials used are wholly obtained	
		materials used are wholly obtained	

1516	Animal or vegetable fats and	Manufacture in which:	
	oils and their fractions, partly	—all the materials of Chapter 2 used	
	or wholly hydrogenated,	are wholly obtained, and	
	inter-esterified, re-esterified	—all the vegetable materials used are	
	or elaidinised, whether or not	wholly obtained. However, materials	
	refined, but not further	of headings 1507, 1508, 1511 and	
	prepared	1513 may be used	
1517	Margarine; edible mixtures	Manufacture in which:	
	or preparations of animal	—all the materials of Chapters 2 and 4	
	or vegetable fats or oils or	used are wholly obtained, and	
	of fractions of different fats	—all the vegetable materials used are	
	or oils of this Chapter,	wholly obtained. However, materials	
	other than edible fats or	of headings 1507, 1508, 1511 and	
	oils or their fractions of	1513 may be used	
	heading 1516		
Chapter 16	The state of the s	Manufacture:	
Chapter 10	or of crustaceans, molluscs or		
	other aquatic invertebrates	—in which all the rester. Is o. Chapter	
	other aquatic invertebrates	3 used are wholly builted	
ev Chanter 17	Sugars and sugar	Manufacture from n. 1 rials of any	
CX Chapter 17		heading, except and of the product	
ex ex1701	Cane or beet sugar and	Manufacure is which the value of all	
ex ex1/01	chemically pure sucrose, in	the nate ials or Chapter 17 used does	
	• •	n ex sea '0 % of the ex-works price

1702			
1702	Other sugars, including		
	chemically pure action		
	maltose, gluco an		
	fructose, ir solid form, sugar		
	syrups not on, in 1g added		
	flavouring or colouring		
	matter; arthing, I honey, whether or not mixed with		
	natural honey; caramel:	N. C. A. C. C. A. C. C. A. C.	
	• •	Manufacture from materials of any	
		heading, including other materials of	
		heading 1702	
	,	Manufacture in which the value of all	
		the materials of Chapter 17 used does	
	or colouring matter	not exceed 30 % of the ex-works price	
		of the product	
	– Other	Manufacture in which all the materials	
		used are originating	
ex ex1703	Molasses resulting from the	Manufacture in which the value of all	
	_		
	_	the materials of Chapter 17 used does	

	flavouring or colouring matter	not exceed 30 % of the ex-works price of the product	
1704	Sugar confectionery (including white chocolate), not containing cocoa	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
Chapter 18	Cocoa and cocoa preparations	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
1901	Malt extract; food preparations of flour, groats, meal, starch or malt extract, not containing cocoa or containing less than 40 % by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included; food preparation of goods of headings 040 to 0404, not containing cocoa or containing less than 5 % by weight on cocoa calculated on a totally defauted basis, not elsewhere the iffied or included:		
	– Malt extract – Other	Manufacture from cereals of Chapter 10 Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
1902	Pasta, whether or not cooked or stuffed (with meat or other substances) or otherwise prepared, such as spaghetti, macaroni, noodles, lasagne,		

	weight of meat, meat offal,	 —all the cereals and their derivatives (except durum wheat and its derivatives) used are wholly obtained, and —all the materials of Chapters 2 and 3 	
1903	therefor prepared from starch,	used are wholly obtained Manufacture from materials of any heading, except potato stepsh of heading 1108	
1904	Prepared foods obtained by the swelling or roasting of cereals or cereal products (for example, corn flakes); cereals (other than maize (corn)) in grain form or in the form of flakes or other worked orains (except flour, groats and meal), pre-cooked or otherwise prepared, not elsewhere specialed or included	Manufacture: —from materials of any heading, except those of heading 1806, —rewhere the grown wheat and Zea indur amaize, and their derivatives) use are wholly obtained, and in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
1905	Breat, pastr, cakes, biscuits and other colors, wares, whether or not containing cocoa; communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products	Manufacture from materials of any heading, except those of Chapter 11	
ex Chapter 20	Preparations of vegetables, fruit, nuts or other parts of plants; except for:	Manufacture in which all the fruit, nuts or vegetables used are wholly obtained	
ex ex2001	<u> </u>	Manufacture from materials of any heading, except that of the product	

	preserved by vinegar or		
	acetic acid		
ex ex2004 and ex ex2005	meal or flakes, prepared or preserved otherwise than by vinegar or acetic acid	Manufacture from materials of any heading, except that of the product	
2006	peel and other parts of plants,	Manufacture in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
2007	Jams, fruit jellies, marmalades, fruit or nut purée and fruit or nut pastes, obtained by cooking, whether or not containing added sugar or other sweetening matter		
ex ex2008	sugar or spirits	Manufacture in which the value of all the originating rate and descrete seeds of headings 0801, 0802, and 1202 to 1207 used excellent 60 % of the exworks place of the product	
		Ma. ufacture from materials of any hyadm, except that of the product	
	- Other except for fruit and nuts cooked otherwise the by steaming or boiling in water, not containing add disagrar, from n	1andacture: — om materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
2009	Fruit juices uluding grape must) and vegetable juices, unfermented and not containing added spirit, whether or not containing added sugar or other sweetening matter	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
ex Chapter 21	Miscellaneous edible preparations; except for:	Manufacture from materials of any heading, except that of the product	
2101	Extracts, essences and concentrates, of coffee, tea or maté and preparations with a basis of these products or with a basis of coffee, tea or maté; roasted chicory and	Manufacture:	

	other roasted coffee substitutes, and extracts, essences and concentrates thereof		
2103	Sauces and preparations therefor; mixed condiments and mixed seasonings; mustard flour and meal and prepared mustard:		
	therefor; mixed condiments and mixed seasonings	Manufacture from materials of any heading, except that of the product. However, mustard flour or meal or prepared mustard may be used	
		Manufacture from materials of any heading	
ex ex2104	Soups and broths and	Manufacture from materics of a v heading, except prepared or preserved vegetables of headings 2, 92 to 2005	
2106	Food preparations not elsewhere specified or included	Manufacture: —from mate this of all heading, except that of the product, and —in which the value of all the materials of Chapter 17 used does not exceed 30 x of the ex-works price of the product	
ex Chapter 22	Beverages, spirits and vinegar; except for:	Intracture:	
2202	Waters, including mineral waters and an ted waters, containing added sugar or other sweetening matter or flavoured, and other non-alcoholic beverages, not including fruit or vegetable juices of heading 2009	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product, and —in which all the fruit juice used (except that of pineapple, lime or grapefruit) is originating	
2207	Undenatured ethyl alcohol of an alcoholic strength by volume of 80 % vol. or higher; ethyl alcohol and other spirits, denatured, of any strength	Manufacture: —from materials of any heading, except heading 2207 or 2208, and —in which all the grapes or materials derived from grapes used are wholly obtained or, if all the other materials	

		used are already originating, arrack may be used up to a limit of 5 % by volume	
2208	Undenatured ethyl alcohol of an alcoholic strength by volume of less than 80 % vol.; spirits, liqueurs and other spirituous beverages		
ex Chapter 23		Manufacture from materials of any heading, except that of the product	
ex ex2301	Whale meal; flours, meals and pellets of fish or of crustaceans, molluscs or other aquatic invertebrates, unfit for human consumption	Manufacture in which all the magrials of Chapters 2 and 3 use and wholly obtained	
ex ex2303	Residues from the manufacture of starch from maize (excluding concentrated steeping liquors), of a protein content, calculated on the dry product, exceeding 40 % by weigh	Manufacture; in which all the maize used is a nolly obtained	
ex ex2306	Oil cake and other send residues resulting them the extraction of oliver oil, containing not then 3 % of oliver.	Manufacture in which all the olives used are wholly obtained	
2309	Preparation of a kind used in animal feeding	Manufacture in which: —all the cereals, sugar or molasses, meat or milk used are originating, and —all the materials of Chapter 3 used are wholly obtained	
ex Chapter 24	Tobacco and manufactured tobacco substitutes; except for:	Manufacture in which all the materials of Chapter 24 used are wholly obtained	
2402	Cigars, cheroots, cigarillos and cigarettes, of tobacco or of tobacco substitutes	Manufacture in which at least 70 % by weight of the unmanufactured tobacco or tobacco refuse of heading 2401 used is originating	
ex ex2403	Smoking tobacco	Manufacture in which at least 70 % by weight of the unmanufactured	

		. 1	
		tobacco or tobacco refuse of heading	
		2401 used is originating	
ex Chapter 25	Salt; sulphur; earths and	Manufacture from materials of any	
		heading, except that of the product	
	lime and cement; except for:		
ex ex2504	Natural crystalline graphite,	Enriching of the carbon content,	
		purifying and grinding of crude	
	purified and ground	crystalline graphite	
ex ex2515	Marble, merely cut, by	Cutting, by sawing or otherwise, of	
	sawing or otherwise, into	marble (even if already sawn) of a	
	blocks or slabs of a	thickness exceeding 25 cm	
	rectangular (including		
	square) shape, of a thickness		
	not exceeding 25 cm		
ex ex2516	Granite, porphyry, basalt,	Cutting, by sawing or other of	
	sandstone and other	stone (even if already savy) of a	
	monumental or building	thickness exceeding 25 m	
	stone, merely cut, by sawing		
	or otherwise, into blocks or		
	slabs of a rectangular		
	(including square) shape, of a		
	thickness not exceeding		
	25 cm

ex ex8486	- Machine tools for working any material by removal of material, by laser or other light or photon beam, ultrasonic, electrodischarge, electrochemical, electron beam, ionic-beam or plasma arc processes and parts and accessories thereof - machine tools (inc) ding presses) for we kin, me all by bending, folding straightening, data ning, and	Manufacture in which the ralue of all the materials used to a not exceed 40 % of the extwork price of the product	
	parts and ac esson, thereof — machine ac's for working stone, ceramics, concrete, asbestos-cement or like mineral materials or for cold working glass and parts and accessories thereof — marking-out instruments which are pattern generating apparatus of a kind used for producing masks or reticles from photoresist coated		
	substrates; parts and accessories thereof	Manufacture in which the value of all	
	 moulds, injection or compression types 	the materials used does not exceed	

		50 ** 0.1	
		50 % of the ex-works price of the product	
8487		Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —within the above limit, the value of	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
	included elsewhere in this Chapter		
ex Chapter 85	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles; except for:	except that o've product, and —in which the value of all the materials sed beside exceed 40 % of the ex-	does not exceed 30 % of the ex- works price of
8501	generators (excluding	Manufacture in which: —the value of all the materials used	the product Manufacture in which the
	generating sets)	.,	value of all the materials used does not exceed 30 % of the exworks price of the product
8502	Electric generating sets and rotary converters	—the value of all the materials used does not exceed 40 % of the exworks price of the product, and —within the above limit, the value of all the materials of headings 8501 and 8503 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product

ex ex8504	Power supply units for automatic data-processing machines	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex ex8517	Other apparatus for the transmission or reception of voice, images or other data, including apparatus for communication in a wireless network (such as a local or wide area network), other than transmission or reception apparatus of headings 8443, 8525, 8527 or 8528	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the exworks price of the product
ex ex8518	Microphones and stands therefor; loudspeakers, whether or not mounted in their enclosures; audio- frequency electric amplifiers; electric sound amplifier sets	Manufacture in which: —the value of all the note, als used does not exceed 40 % of the exworks price of the brodect, and —the value of all use on-originating materials uses a loes not exceed the value of all the originating materials sed	Manufacture in which the value of all the materials used does not exceed 25 % of the exworks price of the product
8519	Sound recording and sound reproducing apparatus	Nanufactire in which: Local use of all the materials used loss not exceed 40 % of the exworks price of the product, and the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
8521	Video recording or reproducing apparatus, whether or not incorporating a video tuner	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the ex- works price of the product
8522	Parts and accessories suitable for use solely or principally with the apparatus of headings 8519 to 8521	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

8523	Discs, tapes, solid-state non-volatile storage devices, 'smart cards' and other media for the recording of sound or of other phenomena, whether or not recorded, including matrices and masters for the		
	production of discs, but excluding products of Chapter 37:		
	 Unrecorded discs, tapes, solid-state non-volatile storage devices and other media for the recording of sound or of other phenomena, but excluding products of Chapter 37; 	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
	Recorded discs, tapes solid- state non-volatile storage devices and other media for the recording of sound or of other phenomena, but excluding products of Chapter 37	—the value of all the macrials used does not exceed 12% of the exworks price of the product, and —within the coor limit, the value of	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
	- Matrices and masters in the production of discobin excluding products of Chapter 37:	does not exceed 40 % of the exworks price of the product, and —within the above limit, the value of	Manufacture in which the value of all the materials used does not exceed 30 %
	Proximity cards and 'smart cards' with two or more electronic integrated circuits	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex- works price of the product	Manufacture in which the value of all the materials used
	- 'Smart cards' with one electronic integrated circuit	Manufacture in which:	Manufacture in which the value of all the

		—the value of all the materials used does not exceed 40 % of the exworks price of the product, and —within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % of the ex-works price of the product or The operation of diffusion, in which integrated circuits are formed on a semi-conductor substrate by the selective introduction of an appropriate dopant, whether or not assembled and/or tested in a country other than those specified in Article 3	materials used does not exceed 25 % of the ex- works price of the product
8525	Transmission apparatus for radio-broadcasting or television, whether or not incorporating reception apparatus or sound recording or reproducing apparatus; television cameras, digital cameras and video camera recorders	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —the value of all and on-originating materials used does not exceed the value of all the originating materials used.	Manufacture in which the value of all the materials used does not exceed 25 % of the exworks price of the product
8526	Radar apparatus, radio navigational aid apparatus and radio remote contro. apparatus	anufa are in which: loes not exceed 40 % of the exworks price of the product, and the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the exworks price of the product
8527	Reception apparatus for radio-broadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the exworks price of the product
8528	Monitors and projectors, not incorporating television reception apparatus; reception apparatus for television, whether or not incorporating radio-broadcast		

		T	1
	receivers or sound or video		
	recording or reproducing		
	apparatus:		
	 Monitors and projectors, 	Manufacture in which the value of all	
	not incorporating television	the materials used does not exceed	
	reception apparatus, of a	40 % of the ex-works price of the	
	kind solely or principally	product	
	used in an automatic data-		
	processing system of		
	heading 8471		
	 Other monitors and 	Manufacture in which:	Manufacture
	projectors, not incorporating	—the value of all the materials used	in which the
	television reception	does not exceed 40 % of the ex-	value of all the
	apparatus; reception	works price of the product, and	materials used
	apparatus for television,	—the value of all the non-originating	does not
	whether or not incorporating	materials used does not excel the	exceed 25 %
	radio broadcast receivers or		of the ex-
	sound or video recording or	used	works price of
	reproducing apparatus;		the product
8529	Parts suitable for use solely		the product
0.527	or principally with the		
	apparatus of headings 8525		
	to 8528:		
	 Suitable for use solely or 	Manua ctua in which the value of all	
	principally with video	the materials used does not exceed	
	recording or reproducing	the ex-works price of the	
	apparatus	pi duct	
	- Suitable for us sole v or	Manufacture:	Manufacture
			in which the
	principally with monitors	from materials of any heading,	
	and projectors, n t	except that of the product, and	value of all the
	incorporating the sion	in which the value of all the materials	
	reception apparatus, of a	used does not exceed 40 % of the ex-	
	kind solely or principally	works price of the product	exceed 30 %
	used in an automatic data-		of the ex-
	processing system of		works price of
	heading 8471		the product
	– Other	Manufacture in which:	Manufacture
		—the value of all the materials used	in which the
		does not exceed 40 % of the ex-	value of all the
		works price of the product, and	materials used
		—the value of all the non-originating	does not
		materials used does not exceed the	exceed 25 %
		value of all the originating materials	of the ex-
		used	works price of
			the product
8535	Electrical apparatus for	Manufacture in which:	Manufacture
	switching or protecting		in which the
		1	

	electrical circuits, or for making connections to or in electrical circuits for a voltage exceeding 1 000 V	—the value of all the materials used does not exceed 40 % of the exworks price of the product, and —within the above limit, the value of all the materials of heading 8538 used does not exceed 10 % of the exworks price of the product	value of all the materials used does not exceed 30 % of the exworks price of the product
8536	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits for a voltage not exceeding 1 000 V; connectors for optical fibres, optical fibre bundles or cables:		Î
	 Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits for a voltage not exceeding 1 000 V 	Manufacture in which: —the value of all the material, used does not exceed 40% of the exworks price of the boduct, and —within the above limit, the value of all the materials of heading 8538 sea pes not exceed 10% of the exceed 10% of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
	 Connectors for optical fibres, optical fibre bund sor cables 		
	— of plastics	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
	of cera. ic	Manufacture from materials of any heading, except that of the product Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 50 % of the exworks price of the product	
8537	Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading 8535 or 8536, for electric control or the distribution of electricity,	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —within the above limit, the value of all the materials of heading 8538	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-

	including those incorporating instruments or apparatus of Chapter 90, and numerical control apparatus, other than switching apparatus of heading 8517	used does not exceed 10 % of the exworks price of the product	works price of the product
ex ex8541	Diodes, transistors and similar semi-conductor devices, except wafers not yet cut into chips	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex- works price of the product	
8542	Electronic integrated circuits – Monolithic integrated circuits – Multichips wnich are parts	Manufacture in which: —the value of all the macials used does not exceed 42% of the exworks price (1) he product, and —within the boy limit, the value of all the materials of headings 8541 and 854, used does not exceed 10% of the x-works price of the product or The operation of diffusion, in which integrated circuits are formed on a semi-conductor substrate by the selective introduction of an appropriate dopant, whether or not assembled and/or tested in a country other than those specified in Article 3 Manufacture in which the value of all	Manufacture in which the value of all the materials used does not exceed 25 % of the exworks price of the product
	of machinery or apparatus, not specified or included elsewhere in this Chapter – Other	the materials used does not exceed 40 % of the ex-works price of the product Manufacture in which: —the value of all the materials used does not exceed 40 % of the ex- works price of the product, and —within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex- works price of the product

8544	cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fibre cables, made up of individually sheathed fibres, whether or not assembled with electric conductors or fitted with connectors	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8545	Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8546	Electrical insulators of any material	Manufacture in which he value of all the material, us a does not exceed 40 % of the extension of the product.	
8547	Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating materials and for example, a tended sockets) incorporated during moulding alley for purposes of assembly, other than insulators of heading 8546; electrical conduit tubing and joints therefor, of base metal lined with insulating material	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8548	Waste and scrap of primary cells, primary batteries and electric accumulators; spent primary cells, spent primary batteries and spent electric accumulators; electrical parts of machinery or apparatus,		

	not specified or included		
	elsewhere in this Chapter		
	Electronic microassemblies	Manufacture in which:	Manufacture
	- Electronic inicroassembles	 the value of all the materials used does not exceed 40 % of the exworks price of the product, and within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % 	in which the value of all the materials used does not exceed 25 % of the exworks price of the product
	– Other	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	•
ex Chapter 86		Manufacture in which the value of all the materials used does not exceed 40 % of the ex-world price of the product	
8608	Railway or tramway track fixtures and fittings; mechanical (including electromechanical) signalling, safe you train a control equipment for railways, than may roads, inland water vays, parking facilities, part installations or airfields; parts of the foregoing	naterials of any heading, xcept that of the product, and in which the value of all the materials used does not exceed 40 % of the exworks price of the product	
ex Chapter 87	Vehicles other than railway or tramway rolling-stock, and	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8709	Works trucks, self-propelled, not fitted with lifting or handling equipment, of the type used in factories, warehouses, dock areas or airports for short distance transport of goods; tractors of the type used on railway	 from materials of any heading, except that of the product, and in which the value of all the materials used does not exceed 40 % of the exworks price of the product 	

	station platforms; parts of the foregoing vehicles		works price of the product
8710	Tanks and other armoured fighting vehicles, motorized, whether or not fitted with weapons, and parts of such vehicles	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex- works price of the product	
8711	Motorcycles (including mopeds) and cycles fitted with an auxiliary motor, with or without side-cars; sidecars: - With reciprocating internal		
	combustion piston engine of a cylinder capacity: - Not exceeding 50 cm ³	Manufacture which	Manufacture
		the value of the he materials used does not exceed 40 % of the experience of the product, and the value of all the non-originating materials used does not exceed the value of all the originating materials used	in which the value of all the materials used does not exceed 20 % of the exworks price of the product
	Exceeding 0 c. ³	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 25 % of the exworks price of the product
	– Other	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product

ex ex8712	bearings	Manufacture from materials of any heading, except those of heading 8714	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
8715	Baby carriages and parts thereof	except that of the product, and —in which the value of all the materials	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
8716	Trailers and semi-trailers; other vehicles, not mechanically propelled; parts thereof	Manufacture: —from materials of the heading, except that of the product, and —in which the value of all the materials searches not exceed 40 % of the exceed 40 % of the product	
ex Chapter 88		Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the exworks price of the product
ex ex8804		Manufacture from materials of any heading, including other materials of heading 8804	Manufacture in which the value of all the materials used does not exceed 40 % of the ex- works price of the product
8805		Manufacture from materials of any heading, except that of the product	Manufacture in which the

	ground flying trainers; parts of the foregoing articles		value of all the materials used does not exceed 30 % of the exworks price of the product
Chapter 89	Ships, boats and floating structures	However, hulls of heading 8906 may not be used	Manufacture in which the value of all the materials used does not exceed 40 % of the exworks price of the product
ex Chapter 90	Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof; except for:	—from materials of any leading, except that of the process t, and —in which the value of all the materials used does not preced 40 % of the exworks price of the product	Manufacture in which the value of all the materials used
9001	cables other than tho of	Ma. of eture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9002	Lenses, prisms, mirrors and other optical elements, of any	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9004	Spectacles, goggles and the	Manufacture in which the value of all the materials used does not exceed	

		40 % of the ex-works price of the	
ex ex9005	Binoculars, monoculars, other optical telescopes, and mountings therefor, except for astronomical refracting telescopes and mountings therefor	product Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials used does not exceed 40 % of the ex- works price of the product; and —in which the value of all the non- originating materials used does not exceed the value of all the originating materials used	
ex ex9006	Photographic (other than cinematographic) cameras; photographic flashlight apparatus and flashbulbs other than electrically ignited flashbulbs	Manufacture: —from materials of any heading, except that of the product —in which the value of all the naterials used does not exceed 40 % of the ex- works price of the product, and —in which the value of all the non-	
9007	Cinematographic cameras and projectors, whether or not incorporating sound recording or reproducing apparatus	—in which the value of all the non- originating materials used does not	
9011	Compound of ical microscopes, including those for photomicrography, cinephotomicrography or microprojection	Manufacture: —from materials of any heading, except that of the product, —in which the value of all the materials used does not exceed 40 % of the ex- works price of the product, and —in which the value of all the non- originating materials used does not	
ex ex9014	1 1	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

			1
9015	Surveying (including photogrammetrical surveying), hydrographic, oceanographic, hydrological, meteorological or geophysical instruments and appliances, excluding compasses; rangefinders	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9016	Balances of a sensitivity of	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9017	Drawing, marking-out or mathematical calculating instruments (for example, drafting machines, pantographs, protractors, drawing sets, slide rules, disc calculators); instruments for measuring length, for use in the hand (for example, measuring rods and tapes, micrometers, callipers), not specified or included elsewhere in this chapter	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9018	Instruments and applicace used in medical, surgical dental or veteringry seence including scintura, bic apparatus, other lecturemedical apparatus and sight-testing instruments.		
	 Dentists ch irs incorporating cental appliances or dentists' spittoons 	Manufacture from materials of any heading, including other materials of heading 9018	Manufacture in which the value of all the materials used does not exceed 40 % of the exworks price of the product
	– Other	Manufacture: —from materials of any heading, except that of the product, and —in which the value of all the materials used does not exceed 40 % of the ex- works price of the product	Manufacture in which the value of all the materials used

			of the ex-
			works price of
			the product
9019	Mechano-therapy appliances;	Manufacture:	Manufacture
	massage apparatus;		in which the
	psychological aptitude-	except that of the product, and	value of all the
	testing apparatus; ozone	—in which the value of all the materials	
	therapy, oxygen therapy,	used does not exceed 40 % of the ex-	
	aerosol therapy, artificial	works price of the product	exceed 25 %
	respiration or other therapeutic respiration		of the ex- works price of
	apparatus		the product
9020	Other breathing appliances	Manufacture:	Manufacture
	and gas masks, excluding	—from materials of any heading,	in which the
	protective masks having	except that of the product and	value of all the
	neither mechanical parts nor	—in which the value of all the naterials used does not exceed 40% of the ex-	
	replaceable filters		exceed 25 %
		works price of the worder	of the ex-
			works price of
			the product
9024		Manufa .ure i which the value of all	
		the mate jals used does not exceed	
		40% f the ex-works price of the	
	other mechanical properties of materials (for example,	poduct	
	metals, wood, textiles, p. er,		
	plastics)		
9025		Manufacture in which the value of all	
	floating instruments,	the materials used does not exceed	
		40 % of the ex-works price of the	
	baron, ters, vgron, eters and psychronic at recording or	product	
	not, and any combination of		
	these instruments		
9026	Instruments and apparatus	Manufacture in which the value of all	
	for measuring or checking	the materials used does not exceed	
	-	40 % of the ex-works price of the	
	1	product	
	gases (for example, flow meters, level gauges,		
	manometers, heat meters),		
	excluding instruments and		
	apparatus of heading 9014,		
	9015, 9028 or 9032		
9027		Manufacture in which the value of all	
	physical or chemical analysis	the materials used does not exceed	

	(for example, polarimeters, refractometers, spectrometers, gas or smoke analysis apparatus); instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like; instruments and apparatus for measuring or checking quantities of heat, sound or light (including exposure meters); microtomes		
9028	Gas, liquid or electricity supply or production meters, including calibrating meters therefor: – Parts and accessories	Manufacture in which in value of all the materials used use not exceed 40 % of the ex-yyrks price of the product	
	– Other	Ma ufacture in which: — ne value of all the materials used does by the exceed 40% of the expected price of the product, and the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
9029	Revolution counters, production so inters, taximeters, mneometers, pedometers and the like; speed indicators and tachometers, other than those of heading 9014 or 9015; stroboscopes	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	and product
9030	Oscilloscopes, spectrum analysers and other instruments and apparatus for measuring or checking electrical quantities, excluding meters of heading 9028; instruments and apparatus for	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

	measuring or detecting alpha, beta, gamma, X-ray, cosmic or other ionizing radiations		
9031	Measuring or checking instruments, appliances and machines, not specified or included elsewhere in this chapter; profile projectors	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9032	Automatic regulating or controlling instruments and apparatus	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9033	Parts and accessories (not specified or included elsewhere in this chapter) for machines, appliances, instruments or apparatus of Chapter 90	Manufacture in which the value of all the materials used does not creed 40 % of the ex-works price of the product	
ex Chapter 91	Clocks and watches and parts thereof; except for:	Manufacture which he value of all the materia such does not exceed 40 % of the except works price of the product	
9105	Other clocks	Manusetus in which: the value of all the materials used account exceed 40 % of the ex- vorks price of the product, and the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
9109	Clock move notes, complete and assembled	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —the value of all the non-originating materials used does not exceed the value of all the originating materials used	Manufacture in which the value of all the materials used does not exceed 30 % of the exworks price of the product
9110	Complete watch or clock movements, unassembled or partly assembled (movement sets); incomplete watch or clock movements, assembled;	Manufacture in which: —the value of all the materials used does not exceed 40 % of the exworks price of the product, and —within the above limit, the value of all the materials of heading 9114	Manufacture in which the value of all the materials used does not exceed 30 %

⁽¹⁾ For the special conditions relating to 'specific Processes', see Introductory Notes 7.1 and 7.3.

- (7) For special conditions relating to products made of a mixture of textile materials, Introductory Note 5.
- (8) The use of this material is restricted to the manufacture of woven fabrics of a kind used in paper-making machinery.
- (9) See Introductory Note 6.
- (10) For knitted or crocheted articles, not elastic or rubberised, obtained by s. w. 70 or assembling pieces of knitted or crocheted fabrics (cut out or knitted directly to shape), see Introductory Note.
- (11) SEMI Semiconductor Equipment and Materials Institute Incorpo

⁽²⁾ For the special conditions relating to 'specific Processes', see Introductory Notes 7.2.

⁽³⁾ Note 3 to Chapter 32 says that these preparations are those of a kind used for colouring any material or used as ingredients in the manufacture of colouring preparations, provided that they are not classified in another heading in Chapter 32.

⁽⁴⁾ A 'group' is regarded as any part of the heading separated from the rest by a semicolon.

⁽⁵⁾ In the case of the products composed of materials classified within both headings 3901 to 3906, on the one hand, and within heading 3907 to 3911, on the other hand, this restriction only applies to that group of materials which predominates by weight in the product.

^(*) The following foils shall be considered as highly transparent: foils, the optical dimming of which, measured according to ASTM-D 1003-16 by a Hazefactor less than 2%.
