Dear

The junction of the A303 between Middle Wallop and the junction with Stockbridge (A3057)

Thank you for your enquiry of 11 August 2020 requesting information about surveys/reports undertaken regarding the condition of the road on the A303 between the junction for Middle Wallop and the junction for Stockbridge (A3057) on the eastbound carriageway including the slip roads. This information is for the period between 1 February 2020 and 31 July 2020 only.

I am dealing with this enquiry under the terms of the Environmental Information Regulations 2004. This is because the information requested concerns measures and activities affecting or likely to affect elements of the environment or affect factors such as noise, pollution discharges and other releases into the environment.

During the period in question, the A303 eastbound between the A343 Middle Wallop junction and the A3057 Stockbridge junction has been included in the routine safety inspections for the A303. No safety issues have been reported following these visual inspections, however, a skid resistance survey was carried out in June and the results should be made available this September.

If you are unhappy with the way we have handled your request you may ask for an internal review within 2 months of the date of this response for Freedom of Information requests and within 40 days for Environmental Information Regulations requests.

Our internal review process is available at:

<https://www.gov.uk/government/organisations/highways-england/about/complaints-procedure>.

If you require a print copy, please phone the Information Line on 0300 123 5000; or e-mail info@highwaysengland.co.uk. You should contact me if you wish to complain.

If you are not content with the outcome of the internal review, you have the right to apply directly to the Information Commissioner for a decision. The Information Commissioner can be contacted at:

Information Commissioner's Office
