Overall comments / conclusions / action on previous improvement options where significant

Complete this section only for ACS Assessment Remote Summary Report or ACS Assessment Short Report. Details to include:

- Whether the organisation is a subsidiary of a group/parent organisation, or has any association with other companies
- Structure i.e. whether the organisation structure is centralised or decentralised
- Degree of autonomy of any branches
- Level of formality within the organisation
- Maturity of the business/quality management system in place and the expectations of the leaders regarding the assessment process.

- Details of any overseas suppliers for example monitoring or communications centre, screening service etc.
 Justification for the sampling approach i.e. how you selected particular sites, people, and records, including any limitations.
- Aims, key markets, business model. Overall impression
- Summary of relevant information that provides a clear, accurate, and insightful analysis at both macro (big picture) and micro (detail) levels. E.g. micro level, (identifying strengths and areas for improvement at ACS criterion level), and at macro level (identifying a well-balanced set of key themes at a holistic level)
- Note 1. An emphasis on outcomes achieved, and not just a series of statements about whether or not systems are in place and monitored. You should include examples and quotes to illustrate and support the statements you make. In particular, for results indicators, there should be tangible examples of actual results achieved, and of monitoring trends over time, to demonstrate how well the organisation is performing against key performance indicators. Where trends over time are not available (e.g. for a young, or informal organisation), then you should identify this as an improvement option.
- Note 2. include evidence to demonstrate that a policy is actually deployed in practice and is working effectively. You should provide examples of things you saw/ heard/ were told to illustrate this. To state that there is a written policy (e.g. on diversity, or grievance, or corporate and social responsibility) and that this is given to staff would not be sufficient evidence to demonstrate effective deployment.
- Remote Assessment only
 - Include any gaps or areas planned but not covered during the remote assessment. Any areas not fulfilled must be carried over to the onsite assessment.
 - Any aspect of the visit plan that was not achieved

Changes to the business since the last assessment (where applicable)

• Leave blank if initial assessment or a 'summary sheet'

• Important improvements (including outcome of previous improvment options), changes to business model, changes to leadership, mergers and acquisitions, changes to locations.

This should include changes to one or all of the following:

- a description of the applicant company in terms of:
 - its size and structure e.g. any group structure, legal or other relationship with other companies, relevant internal structure such as different divisions.
 - the number of licensable staff, including where there are seasonal or other peaks and troughs that lead to variations in the numbers deployed, and if there is any use of self-employed
 - o any other activities, licensable or non-licensable, that are not in scope
 - o its geographic coverage
 - o whether it uses sub-contractors or operates as a sub-contractor to other organisations
 - o whether it uses labour providers or operates as a labour provider
- market sectors
- the assessors impressions of the organisation's nature, culture, and style
- a brief outline of the aims of the organisation, which may make reference to critical success factors and the company mission and vision
- a brief outline of the key services provided and activities to meet the organisation's aims, how the
 organisation measures progress against its aims and an indication of how successful it is in meeting them.
 Where relevant include any recent changes or issues.
- reference to the company's website and web address
- where the organisation is assessed for an extension to scope, you should state whether the company has achieved/not achieved all the requirements (e.g. additional sector, licence management, subsidiary).

| Assessment Overview | Comments |
|-----------------------------|---|
| Licensed people interviewed | Include details of number, type of licences and sector deployed by employees, self-employed, and other type of workers interviewed. |
| Customers interviewed | Include interviewee company and job title |
| Consumers interviewed | Include the number of interviewees and the location |
| Company sites visited | Include details of applicant company sites visited e.g. Head Office |
| Customer sites visited | Include details of customer name and their premise postcode. |

Special instructions – summary of findings (where applicable)

A special instruction (SI) is a temporary instruction, issued by the SIA to you, to focus on a specific area of the business where there is a perceived risk of non-conformance. You should insert the details of the SI (except were instructed not to) and report your findings and outcomes (achieved/not achieved) specific to the SI here. *For Example:*

The following Special Instruction was issued:

The assessor should identify whether payroll services are provided entirely in-house by the company, or if outsourced payroll, umbrella or other companies are used to administer payroll services for all or some individuals. The assessor must provide the name of the outsourced provider, their address and the nature of the service e.g. organisation acting as a payment vehicle, collecting, collating the company's payroll data and make monthly payments to workers, etc.

The company currently outsource an element of the payroll processing. Hours are collated from timesheets and this information is then sent to the accountant to calculate deductions. The company then pay the individuals through BACS and send timesheets either by email or post. RTI and pension payments are made by the finance manager.

Accountant details – Money & Co, Pound Street, Bangor.
