Dear [Redacted]

Thank you for your email of 16 August 2020, requesting the following information:

***"I am making this Freedom of Information Request to inquire whether you have any vehicle Merlin Reports, Vehicle Record Cards or any other service history on my Land Rover Defender. Army Reg no: MB 00 AA."***

Your request has been handled in accordance with the Freedom of Information (FOI) Act 2000.

A search has been carried out of Ministry of Defence (MOD) records, including the Merlin database, and it is confirmed that information is held within the scope of your request. This is provided in the attached Annexes, as follows:

Annex A - Transfer history  
Annex B - Inspections history  
Annex C - Service history  
Annex D - Modifications history  
Annex E - Faults history  
Annex F - Usage history

However, some information contained within Annex A - Transfer history, has been withheld under Section 26(1)(a) and (b) (Defence) of the FOI Act. This exemption applies to information that if disclosed would or would likely prejudice the defence of the British Islands or any colony; and/or the capability, effectiveness or security of the Armed Forces of the Crown or any forces cooperating with them.

As a qualified exemption, it was necessary to undertake a Public Interest Test to determine whether the balance for withholding the information outweighs that for public disclosure. This work concluded that some details for some military vehicles, when aggregated with others released under different FOI requests, would likely allow a picture to be formed of historic and current UK military land vehicle stock holdings, capabilities, locations, operational movements and actions for some specialist military units. If published, this information would likely benefit our adversaries and those wishing harm to Armed Forces personnel and equipment. I have set the level of prejudice against release of the exempted information at the higher level of "would" rather than "would be likely to".

Under Section 16 (Advice and Assistance) of the FOI Act, I can advise you that some of the information in the attached Annexes A to F is best viewed by using the zoom feature within the relevant software package on your computer.

Also, the Merlin archive was released as part of a previous FOI request and can be accessed through the Government publications website, at the following link:

**<https://www.gov.uk/government/publications/foi-responses-published-by-mod-week-commencing-09-july-2018>**

The published Merlin database is split into seven spreadsheets. The first has a list of vehicles, while sheets two through seven include the service histories. To search for a vehicle, you must press Ctrl + F on your computer keyboard, then select 'Options' and then select 'Workbook' from the 'Within' drop down list. Information relevant to your request can be found by typing the vehicle registration number and pressing 'enter'.

You may wish to note that when the Merlin database was archived into its current format some data may have been lost or corrupted. You should, therefore, be cautious that some of the data may be inaccurate.

You may also wish to contact the Royal Logistic Corps Museum who might be able to assist your research further. The contact details for the museum are below. It is, however, possible that the Museum may charge to use its services.
