

Zone A Diverse woodland extension integrating with enclosure pattern, landform and spirit of place.

Design Concept Plan - Option 1 of 3

Native broad leaved woodland expanding existing ASNW.

Degraded shaw reinforced with new planting restoring distinctive landscape character.

Memorial tree planting retained in open ground with sight line.

High productivity woodland planting on richer moist soils where fits better with enclosed landscape character. Graduated edge and open ground transitional between tall forest and biodiverse ride habitats.

Gulley/winterbourne - alder and willow riparian woodland extends into site creating interlock and improving landscape fit.

Example produced by the Forestry Commission, for illustrative purposes only
