

SPECIALISED COMMITTEE ON CITIZENS' RIGHTS
15 DECEMBER 2020

**SECOND JOINT REPORT ON THE IMPLEMENTATION OF RESIDENCE RIGHTS UNDER
PART TWO OF THE WITHDRAWAL AGREEMENT**

Introduction

1. This joint report on citizens' rights provides an update on implementation progress in relation to Article 18(1) (new residence status - issuance of residence documents evidencing such status) of the Withdrawal Agreement (WA)¹ in the European Union (EU) and the United Kingdom of Great Britain and Northern Ireland (UK). This report also includes data on residence documents referred to in Article 18(4) in the EU Member States with a declaratory system. A summary of the communications, outreach and assistance being provided to individuals when applying or registering for residency under Article 18 of the WA has also been included.
2. The first joint report was adopted by the Withdrawal Agreement Joint Committee on 19 October 2020 and is available [here](#). The Specialised Committee on Citizens' Rights will continue to prepare and publish joint reports every three months, until the expiry of the last deadline for applications for a new residence status in countries that have opted for a constitutive system under Article 18(1).
3. According to Article 185, Part Two of the WA that deals with residence rights, with the exception of Article 19, shall apply only as from the end of the transition period. The UK and the EU Member States therefore have to put in place their systems for the issuance of residence documents during the transition period, so that the handling of applications for a new residence status/a new residence document may start on 1 January 2021. On a voluntary basis, the UK and the EU Member States may decide to allow applications to be made during the transition period (Article 19). The UK and a number of EU Member States have made use of this possibility.
4. All information contained within this report is based on the national systems and administrative procedures, planned or established, in view of the implementation of Article 18(1) or Article 18(4), as reported by the UK and EU Member States authorities. The data provides information on persons who are considered to be beneficiaries of Article 13 (residence right) and of Article 15 (permanent residence right). 13 EU Member States and the UK have opted for a constitutive system under Article 18(1) and 14 EU Member States have opted for a declaratory system under Article 18(4). For data tables see Annex A and B.

5. Belgium

Residence

The new residence scheme will open on 1 January 2021. After examination of the conditions, United Kingdom nationals and their family members will receive their new residence document from the municipality. Those who were not yet registered will be able to apply for a residence document or local border traffic card, for frontier workers, for beneficiaries of the WA at the local municipality and they will receive their new document after the Immigration Office examines compliance with the conditions. UK nationals and their family members will have until 31 December 2021 to apply for their new residence status.

Communication and outreach

UK nationals and their family members already residing and registered in Belgium will be personally contacted by letter by the Secretary of State during December 2020. This letter will explain the conditions to fulfil and the procedure to follow, as well as invite them to apply for a new residence document for beneficiaries of the WA at the local municipality. In addition to updating websites of relevant Belgian authorities, the Belgian authorities are in a close contact with the UK embassy.

Assistance

The Belgian authorities provide training to local municipalities, which are the first point of contact in Belgium for UK nationals, including vulnerable groups, and are making sure that they are well informed about the new procedures in place. Belgium specifically chose to carry out a targeted communication by letter which enables an outreach to vulnerable groups and which personally informs them about the procedure. They can rely on the Immigration Office whenever they have a problem. If necessary, assistance will be provided for via email (infodesk@ibz.fgov.be) or by phone (+3227938000). The Belgian authorities also reach out to external partners that assist foreigners and provide training.

6. Denmark

Residence

The application procedure for obtaining a new residence document under the WA will be available as of 1 January 2021 and throughout the year. Applications can be submitted online or handed in on a paper form at the service centres of the Danish Agency for International Recruitment and Integration, where biometric data for the residence document will be recorded, and further guidance to applicants is given. UK nationals and their family members will have until 31 December 2021 to apply for their new residence status.

Communication and outreach

UK nationals and their family members residing in Denmark were informed individually regarding the application procedure via personal digital postbox (e-boks) in November 2020, and they will receive a follow up letter with additional information during December about specific slots for submitting the applications. Information is already available on the dedicated websites that are regularly updated. The information campaign has been stepped up during autumn 2020 and consists of both websites including FAQ, individual information letters, So-Me awareness making, and out-reach events (online and physical). The campaign targets UK nationals residing in Denmark, frontier workers and professional and student organisations.

As regards vulnerable UK nationals, the Danish Agency for International Recruitment and Integration provides assistance and guidance at their facilities (placed in different parts of the country). Vulnerable applicants can submit their applications on paper.

7. France

Residence

UK nationals and their family members already living in France or wishing to move to France before 31 December 2020 have to apply for WA residence documents via a website that was opened on 19 October 2020. A decree published on 19 November 2020 details the relevant provisions of the WA. UK nationals and their family members need to upload a scan of their passport as well as one or several additional documents depending on their situation. After filling out the administrative information and uploading documents, a certificate of application is sent by e-mail. Once the file has been processed, an e-mail is sent to the applicant in order to make an appointment at the prefecture to finalize the request (*fingerprinting and photography*). Finally, the residence document is sent to home address. UK nationals and their family members will have until 30 June 2021 to apply for their new residence status.

Communication and outreach

The French authorities carry out awareness raising campaigns on websites of competent national authorities and social media. The campaigns inform UK nationals about the changes and new procedures. This is complemented by communication using printed media (leaflets and posters) and newspapers, both at national and local level, in order to leverage the message and reach people who are harder to reach via standard measures. Corresponding awareness raising campaigns target other stakeholders and local authorities.

Assistance

The process for the residence document application has been designed in order to avoid at the maximum the necessity to come to the prefecture, which will be helpful for elderly people, those residing far away or physically disabled. A maximum of one trip to the prefecture will be necessary, because the residence document will be sent directly to the home address. People who do not have an easy access to new online technologies will find at their disposal computers in prefecture, with free access or with the help of a guide. These measures are complemented by assistance provided by four organizations appointed by the UK Embassy that work in partnership with the prefectures to provide specific support to vulnerable people. In general, UK nationals can ask for assistance at contact-demandedenligne-brexit-dgef@interieur.gouv.fr or <https://www.interieur.gouv.fr/Contact/Brexit-Ecrire-au-ministere-de-l-Interieur>.

23. Ireland

Residence

Under the Common Travel Area (CTA) arrangement between Ireland and the UK, UK nationals can move freely and reside in Ireland, and are afforded a number of associated rights and privileges, including access to employment, healthcare, education, social benefits and the right to vote in certain elections, without any requirement to obtain permission. UK nationals are specifically exempt from 'non-national' status under Irish law. Commitment to the CTA was reaffirmed by Ireland and the UK with a Memorandum of Understanding in May 2019. The CTA was also recognised in the Protocol on Ireland/Northern Ireland. While there is no necessity for a UK national resident in Ireland to apply for a residence document, a residence document can be issued to those seeking to document rights under the WA.

The application procedure for obtaining a new residence document under the WA will be available from 1 January 2021 until 31 December 2021 for non-UK family members who hold a residence document issued under the EU Free Movement Directive. Applications can be submitted online via the online registration renewal service which will process the new resident document application centrally. The applicant will need to upload a scanned copy of their passport as well as one or several additional documents depending on their situation. After completing the administrative information and uploading documents, a certificate of application will be sent by e-mail. Once the application has been processed, the residence document will be sent to the applicant's address of residence in the State.

The application procedure for UK nationals obtaining the new residence document will be available from 1 January 2021 and will remain open-ended. Applications will be in a paper form at the local registration offices of the Immigration Service where biometric data for the residence document will be recorded. The applicant must also produce a valid passport as well as documentation evidencing residence and exercise of rights under the WA. Once the application has been processed, the residence document will be sent to the applicant's address of residence in the State.

Communication and outreach

Rights associated with the CTA have formed part of the ongoing 'Getting Ireland Brexit Ready' campaign, with information on the main Government website (gov.ie), as well as the website of the Department of Foreign Affairs. The information campaign is being organised by the Department of Justice and is carried out in coordination with the UK Embassy and includes details in relation to the residence document for both UK nationals and their non-EEA family members. It will be complemented by proactive social media content on the department's social channels.

Assistance

Assistance and advice on residence rights is provided by dedicated mailboxes at eutreatyrights@justice.ie and burghquayregoffice@justice.ie.

24. Greece

Residence

A Joint Ministerial Decision on the implementation of the Withdrawal Agreement regarding the issuance of the residence document under Article 18 (4) was published on 19 October 2020. The new residence scheme will be opened on 1 January 2021. UK nationals and their family members will have the right to apply for the new residence document according to the conditions set out in the EU Free Movement Directive. There will be a registration requirement with the application deadline of 30 June 2021. The registration requirement for UK nationals will be optional, while for family members of UK citizens, who are third country nationals, will be mandatory. UK nationals will apply in person at the competent police authorities handling foreigners' issues of the place of their residence, while family members of UK nationals, who are non-EU or UK nationals, will apply at the competent Foreigners and Migration authorities of the decentralized Administration of their place of residence. The current residence documents that have been issued under the EU Free Movement Directive can be used as proof of the previous status of UK nationals and their family members when they prove their residence status under the WA.

Communication and outreach

The competent Greek authorities provide simplified information on procedures and supporting documents on their websites and social media. Short videos will be widely disseminated on social media and websites of national authorities in next months to inform UK nationals about the procedures and what they should do. This is further corroborated by a close co-operation with the UK embassy. The Ministry of Migration and Asylum intends to inform non-EU family members of UK nationals about the need to apply for a new residence document and invite them to request an appointment.

Assistance

The Greek authorities adopted national guidelines for the implementation of the Withdrawal Agreement to ensure uniform and correct implementation of the rules. The guidelines are addressed both to national authorities and the general public. Vulnerable UK nationals who cannot visit the competent authorities in person will be visited by police officers to assist with the application and collection of biometric data. Furthermore, their family members or lawyers can apply on their behalf. UK nationals seeking assistance can contact either the local police authority or the headquarters of the Hellenic Police (Aliens Division) via e-mail (ad_omq.bu1@astynomia.gr) or by phone ((+30)213 152 0132 or 213 152 0427) for assistance or advice. Another helpline (g02@mfa.gr) will be operated by the Ministry of Foreign Affairs.

25. Spain

Residence

The new residence scheme opened on 6 July 2020. The procedure for obtaining the new residence document under the WA depends on the situation in which UK nationals and their family members find themselves.

- a. Those holding a residence document issued under the EU Free Movement Directive will need to visit the police station to have their residence document replaced by a residence document issued under the WA (with the sole exception of family members with a temporary residence card who apply for a permanent one, for which a two-step procedure has been established).
- b. Beneficiaries of the WA without an existing residence document and family members with a temporary card who apply for a permanent one will have to undergo a two-step procedure. First, they will have to visit the Immigration Office that will evaluate compliance with the requirements as established in the WA. If the conditions are met, they will have to request the residence document from the police station.

The residence document will indicate whether the residence is permanent or temporary. There is no deadline for the exchange of current residence documents for those in new format. UK nationals and non-UK family members can use current residence documents. In case of travel, possession of the new residence document will facilitate border crossing as it will be the proof of the status of the beneficiaries of the WA.

Communication and outreach

Spain, since the first quarter of 2020, has implemented a robust communication campaign, pushed forward by its authorities in traditional and also in social media. The Office of the Prime Minister is leading a communication strategy based in reaching out to the largest possible amount of people throughout the websites of the different ministries and also via social media platforms. The goal of this campaign is to inform citizens, not only about residence rights, but also about other related issues, such as traveling or voting rights, tourism, study programmes, etc. Furthermore, Spanish authorities have also published a document (in the form of a [guidebook](#) in Spanish and also translated to English) that answers questions related to residence procedures. In addition to this, Spanish authorities have worked - and continue working closely - with the Embassy of the United Kingdom. Thanks to this cooperation, the Spanish authorities have produced together a number of videos and we have also shared various joint messages in order to improve confidence and to provide security to UK nationals and their family members living in Spain. The Spanish authorities also have shared information via the “tripartite labour commission of immigration” with trade unions and business organisations.

Assistance

All measures the Spanish administration offer to vulnerable citizens are also available for UK nationals. To facilitate the application process for vulnerable persons who may be unable to lodge their applications in person, the Spanish authorities accept applications submitted by legal representative. Furthermore, enquiries and questions can be solved by phone ("060" phone number). This line, inter alia, provides information and prepares UK nationals for the new application process. In addition to this, questions can be posted in twitter accounts of competent national authorities.
