## Notice to traders 32/18

### Poultrymeat import quota

#### Introduction

This notice is to tell you about the quantities available for the next round of Poultrymeat import quotas under Commission Regulation (EC) No. 616/2007.

The products and quantities available are detailed in Annex 1 attached.

**Important:** You will find information relating to the UK leaving the EU in the **Licence Validity** section of this notice. This explains what would happen to your licence in the unlikely event of the UK leaving the EU without a deal.

#### The application period

For the subperiod 1 April 2019 to 30 June 2019 you may apply for import licences and import rights between 1 January 2019 and 7 January 2019.

It is your responsibility to check that the application and all additional documentation is correct at the time of submission.

**Note: We will reject any applications (including supporting documents), securities received after 12 noon on 7 January 2019 or proof of trade received after 5pm on 7 January 2019.**

#### Proof of trade

If it is your first application of the quota year you must provide evidence to show that you imported at least 50 tonnes (non group 5A or 5B) or 250 tonnes (Group 5A or 5B) of product covered by Annex 1 part XX to Regulation (EC) No. 1234/2007, or of salted poultrymeat under CN code 0210 9939, during:

- the 12 month period immediately prior to the time of our application; and
- the 12 month period immediately prior to that.

**Note: We will reject your application if there is not enough tonnage to qualify.**

You must supply the original import document (C88) form, or a copy certified as a 'true copy' of the original stamped by Customs. We will not accept photocopies of the Customs stamp or scanned versions of these documents.

### **Proof of trade - processors (non Group 5A or 5B)**

If you are a processor you must provide evidence to show that during both the 12 month period immediately prior to your application and the 12 month period immediately prior to that, you processed at least 1,000 tonnes of:

- poultrymeat under CN code 0207 or 0210 to produce preparations of poultrymeat of CN code 1602; or
- homogenised preparations of preparations under CN code 1602 1000 that contain no other meat than poultrymeat.

You must provide processing records that prove receipt and processing of the raw material into one of the accepted preparations. Proof of processing should consist of a spreadsheet containing the following information:

- the delivery dates of the raw product;
- a description of the raw product;
- the quantity of the raw product; and
- a description of the end product.

In addition to the spreadsheet the following proof is also required:

- commercial documents in the form of production records (cooking/processing records) to prove that processing of the quantity of poultrymeat entered on the spreadsheet took place within the two qualifying 12 month periods; and
- a covering letter confirming the CN codes of the raw product and processed product.

You only need to send a selection of processing records spanning the two 12 month periods with your application. You should keep the remaining records available at the processing establishment for us to verify at a later date.

### **Supporting documents**

If it is your first application of the quota year you must send us a valid VAT certificate when submitting your application. If you are registered as part of a group you must provide a valid VAT certificate that lists each company within the group.

#### **Information for businesses on what will happen if the UK leaves the EU without a deal**

On 29 March 2019, the United Kingdom will leave the EU.

In the unlikely event of no deal, all tariff quota licences, issued by the Rural Payments Agency, will be invalid for importing into the EU.

To mitigate UK business impacts, the UK will honour RPA issued licences, valid beyond 29 March 2019 for importing goods into the UK.

We will provide further information about the return of RPA issued licences in 2019.

#### **Release of security**

You must return your paper licences within **45 days** of the expiry date or you will forfeit your security.

Security against the main electronic licence (excluding extracts) will be released automatically upon attribution of at least 95% of the licence quantity.

Your Group 5A or 5B rights security will be released proportionately when licences are applied for.

#### **Transfer of rights**

The rights of licences for Group 5A or 5B may only be transferred to companies that have satisfied the proof of trade requirements detailed in this notice. The rights of a licence can only be transferred once, to the nominated transferee. Further transfers of rights are not permitted, other than to transfer the rights back to the original licence holder.

The rights of licences for non Group 5A or 5B are not transferable.
