The figure shown here tells you how many allowances you need to surrender by the surrender deadline to ensure compliance

This screen shows the number of allowances you hold.

Allowances purchased in Phase 2 will be valid for the full phase. Therefore, 2018/19 is the last year against which your Phase 2 allowances can be surrendered.

In the relevant boxes enter how many allowances you wish to surrender then click 'Next'.

## Over/Under Surrender

### Over/Under Surrender

The number of allowances you have specified does not match your remaining performance commitment.

Please note that if you have over surrendered allowances, these allowances remain in your surrender account and, if still valid at that time, may be used to meet surrender requirements relating to the next compliance year.

If you have under surrendered allowances, you will need to make sure that you surrender sufficient allowances by the surrender deadline or you could face penalties.

This screen will be seen if you under or over surrender allowances. If you over surrender allowances in one year, they will automatically be used against your next year's CRC emissions, however they won't be carried over to the next phase. If you have under surrendered then you should surrender more allowances by the surrender deadline. If you do not have sufficient allowances to surrender please contact : [CRC\\_Enforcement@environment-agency.gov.uk](mailto:CRC_Enforcement@environment-agency.gov.uk) for further advice.
